Family Day 2005

Members of the American Legion Post #775.

The In Demand Band kicked-off Family Day with a performance at the Richmond Heights Community Park Gazebo on the Saturday evening before Family Day.

A Message from Mayor Daniel J. Ursu

The tragic Hurricane Katrina events in Louisiana, Mississippi and Alabama, as well as the recent Hurricane Rita, remind us to make the best of each day and to not take for granted the basic necessities of life. Thankfully, most of us will never experience the severe problems and challenges presented by such a terrible natural catastrophe. Nevertheless, this is a good time for all of us to review our family and individual preparedness to live through a disaster.

A very simple emergency preparedness kit that would include a flashlight and batteries, candles, canned foodstuffs, water, and a battery operated radio could provide you with a degree of comfort in time of emergency. With winter approaching, take a few minutes to make sure that you have such items on hand. Although we fortunately will not ever experience a hurricane, I don't need to remind you that winter snow and ice storms knock out power in the Cleveland area not infrequently. To assist you in preparing a kit, we have emergency preparedness checklists from both the American Red Cross and the Richmond Heights Fire Department available for the asking at City Hall.

As our country moves further in time from Hurricane Katrina and towards the spiritual season of giving, keep in mind that the effects of Katrina along the Gulf Coast will be long-lasting. For those of you who have already contributed money or goods, or for those who have not but are considering doing so when your personal economy allows; please remember that organizations such as the Red Cross, Salvation Army and all religious groups will be ministering to that part of the country for a long time to come. As media coverage fades and the fantastic outpouring of contributions that we have witnessed in recent weeks recedes, your donations will be even all the more appreciated by those living and working in the devastated areas in the months ahead.

Have a joyous Holiday Season!

EUCLID CREEK WATERSHED

CUYAHOGA SOIL & WATER CONSERVATION DISTRICT

Keeping Clean Streams at the Car Wash

Whether washing your car in the driveway or helping out at a fundraiser, car washing can cause storm water pollution to our rivers, lakes and streams. Waste water from carwashes include soaps and detergents, mud, rubber and grease that flow into storm drains from street gutters and enter into our local streams. Keeping our cars and streams clean at the same time can be accomplished with a few good practices.

Where to wash your car:

- Reduce the amount of soapy water directly entering into a storm drain by washing on the grass or draining the water into a grass or gravel area when using a driveway.
- When planning a car wash fundraiser, try using a car wash checklist found on the web to ensure good practices are part of your event.
<http://www.lacity.org/SAN/wpd/WPD/education/bmps/carwash.htm>
- Consider using commercial car washes. They treat the waste water before disposing in the sewer.

When you wash your car:

- Use biodegradeable, phosphate-free cleaners only.
- Use detergents and soaps sparingly.
- Empty the buckets of dirty and soapy water into a sink or toilet that will be treated through the sewer system.

PREPARING YOUR HOME FOR A SAFE WINTER SEASON

It is important to practice building safety the year round and special attention should be paid to building safety during the winter season when people spend more time indoors.

Be certain to keep your batteries fresh by replacing them when you change your clock to "fall back" or "spring ahead".

Make a safe exit by keeping exit elements such as windows and doors and exit passages such as hallways and stairways free of decorations, clutter and obstacles that tend to occur in the winter particularly during the holiday season, that may prevent you from exiting your home in an emergency.

Don't burden an electrical outlet by overloading it with more appliances or holiday lighting than it is designed to hold and be certain that the lighting and appliances are listed, being used in the manner suggested by the manufacturer and do not have damaged cords. If you use a power strip, be certain it has surge protection.

Lastly, have your gas furnace inspected and cleaned once every year by a qualified heating specialist.

HILLCREST ROTARY

The Rotary Club of Hillcrest will host its fifth annual "A Taste of Hillcrest". Join us at our new location - Executive Caterers of Landerhaven, 6111 Landerhaven Drive, Mayfield Heights. The event will take place on Wednesday, October 5 from 6:00 p.m. - 9:00 p.m. The cost remains at \$30.00 per person, with packages of 8 or more available for \$25.00. The proceeds from this event will be used to purchase AED's (Automated External Defibrillators), present public education seminars about their use, and to fund health initiatives.

Participating restaurants to date include: Aladdin's Eatery, BD Mongolian Barbecue, Champp's Restaurant & Bar, Costco, Heavenly Ham, Honey Baked Ham, Lady Charlton's Tea Parlor, La Fiesta Mexican Restaurant, Otani's Japanese Restaurant, Starbucks, Tony Roma's, Winking Lizard, Yours Truly and Zampini's Grille. There will be live entertainment, a Chinese raffle, silent auction and more.

Last year's event was a huge success with over 500 community members in attendance! Hillcrest Hospital, Cleveland Clinic Health System is the title sponsor of this event with Philips Medical Systems and HCR ManorCare as major sponsors.

Sudden Cardiac Death is not a heart attack - it's more serious and more deadly. Sudden Cardiac Death kills about 250,000 people in the United States each year. That's nearly 700 deaths every day and currently accounts for more deaths than breast cancer, lung cancer and AIDS combined. Using AEDs can help. Statistics show that the chance of survival decreases by 10 percent for every minute that passes before defibrillation. Through the efforts of the Rotary Club and others, AED's are being placed in public areas increasing the chance of survival for thousands of people.

The Rotary has been serving the Hillcrest communities of Richmond Heights, Gates Mills, Highland Heights, Lyndhurst, Mayfield Heights, Mayfield Village and South Euclid since 1959 with programs such as Special Olympics, Meals on Wheels, Safety Town, Academic Scholarships, Special Education Needs, Vocational Awards Dinner, Senior Citizen Play Night and more. The club's annual fund raiser, "A Taste of Hillcrest," has provided funds for the club to purchase and place sixteen AED units. For more information on the Rotary Club of Hillcrest or to be involved in "A Taste of Hillcrest," please visit us at www.hillcrestrotary.org or call (440) 605-7144.
