- (c) As used in this section, "Critical infrastructure facility" has the same meaning as in Ohio R.C. 2911.21. (ORC 2911.211)

541.06 DESTRUCTION OF SHRUBS, TREES OR CROPS.

- (a) No person, without privilege to do so, shall recklessly cut down, destroy, girdle or otherwise injure a vine, bush, shrub, sapling, tree or crop standing or growing on the land of another or upon public land.
- (b) In addition to any penalty provided, whoever violates this section is liable in treble damages for the injury caused.

(ORC 901.51)

- (c) Whoever violates this section is guilty of a misdemeanor of the fourth degree.

(ORC 901.99(A))

541.07 DESECRATION.

- (a) No person, without privilege to do so, shall purposely deface, damage, pollute or otherwise physically mistreat any of the following:
 - (1) The flag of the United States or of this State;
 - (2) Any public monument;
 - (3) Any historical or commemorative marker, or any structure, Indian mound or earthwork, cemetery, thing or site of great historical or archeological interest;
 - (4) A work of art or museum piece;
 - (5) Any other object of reverence or sacred devotion.
- (b) Whoever violates this section is guilty of desecration, a misdemeanor of the second degree.
- (c) As used in this section, "cemetery" means any place of burial and includes burial sites that contain American Indian burial objects placed with or containing American Indian human remains.

(ORC 2927.11)

541.08 SHOPPING CARTS.

(a) Removal from Premises: Definition. No person shall remove any shopping cart from the premises of any shop, store, grocery or supermarket in the City, regardless of any intention to convert such cart to his own use. "Shopping cart", as used herein, means any rolling or nonrolling basket or container such as is used in shops, stores, groceries and supermarkets.

(Ord. 104-66. Passed 12-13-66.)

(b) Abandonment on Public Property. No person shall abandon any shopping cart from a shop, store, grocery or supermarket on any street, alley, sidewalk or other public place within the City. Carts found on adjacent public parking lots shall be considered on the premises and not abandoned.

(c) Reclamation Fee and Disposal. Any shopping cart found abandoned on any street, alley, sidewalk or other public place within the City, may be impounded by the police who shall then notify the owner thereof. Such carts may be reclaimed by the owner, upon payment of five dollars. Thirty days after notice to the owner, any unclaimed carts may be disposed of by the City. Carts that are unidentifiable as to ownership may be disposed of by the City, thirty days after they are impounded.

(Ord. 73-66. Passed 8-23-66.)

- (d) Whoever violates this section is guilty of a minor misdemeanor.

541.09 OBSTRUCTING OR TAMPERING WITH FIRE HYDRANTS.

(a) No person, without lawful authority, shall place or cause to be placed any building material, vehicle or obstruction of any kind within seven feet of any fire hydrant. No person shall, except in case of fire or unless duly authorized to do so by proper public authority, open, tamper with or use water from any fire hydrant.

(Ord. 60-66. Passed 6-28-66.)

- (b) No person shall damage or destroy any fire hydrant or part thereof, located within the City.

(Ord. 409. Passed 11-16-53.)

- (c) Whoever violates this section is guilty of a misdemeanor of the fourth degree.

541.10 ETHNIC INTIMIDATION.

(a) No person shall violate Ohio R.C. 2903.21, 2903.22, 2909.06, 2909.07 or 2917.21(A)(3) to (5) or Sections 537.05, 537.06, 537.10(a)(3) to (5), 541.03 or 541.04 of the General Offenses Code by reason of the race, color, religion or national origin of another person or group of persons.

- (b) Whoever violates this section is guilty of ethnic intimidation. Ethnic intimidation is an offense of the next higher degree than the offense the commission of which is a necessary element of ethnic intimidation.

(ORC 2927.12)

541.11 VEHICULAR VANDALISM.

- (a) As used in this section:

- (1) "Highway" means any highway as defined in Section 301.42 of the Traffic Code or any lane, road, street, alley, bridge, or overpass.
- (2) "Alley", "street", and "vehicle" have the same meanings as in Chapter 301 of the Traffic Code.
- (3) "Vessel" and "waters in this State" have the same meanings as in Ohio R.C. 1546.01.

- (b) No person shall knowingly, and by any means, drop or throw any object at, onto, or in the path of any of the following:

- (1) Any vehicle on a highway;
- (2) Any boat or vessel on any of the waters in this State that are located in the Municipality.

(c) Whoever violates this section is guilty of vehicular vandalism. Except as otherwise provided in this subsection, vehicular vandalism is a misdemeanor of the first degree. If the violation of this section creates a substantial risk of physical harm to any person, serious physical harm to property, physical harm to any person or serious physical harm to any person, vehicular vandalism is a felony and shall be prosecuted under appropriate State law.

(ORC 2909.09)

541.12 TRESPASS ON A PLACE OF PUBLIC AMUSEMENT.

(a) As used in this section, "place of public amusement" means a stadium, theater or other facility, whether licensed or not, at which a live performance, sporting event, or other activity takes place for entertainment of the public and to which access is made available to the public, regardless of whether admission is charged.

(b) No person, without privilege to do so, shall knowingly enter or remain on any restricted portion of a place of public amusement and, as a result of that conduct, interrupt or cause the delay of the live performance, sporting event, or other activity taking place at the place of public amusement after a printed written notice has been given as provided in subsection (d)(1) of this section that the general public is restricted from access to that restricted portion of the place of public amusement. A restricted portion of a place of public amusement may include, but is not limited to, a playing field, an athletic surface, or a stage located at the place of public amusement.

(c) An owner or lessee of a place of public amusement, an agent of the owner or lessee, or a performer or participant at a place of public amusement may use reasonable force to restrain and remove a person from a restricted portion of the place of public amusement if the person enters or remains on the restricted portion of the place of public amusement and, as a result of that conduct, interrupts or causes the delay of the live performance, sporting event, or other activity taking place at the place of public amusement. This subsection does not provide immunity from criminal liability for any use of force beyond reasonable force by an owner or lessee of a place of public amusement, an agent of either the owner or lessee, or a performer or participant at a place of public amusement.

- (d) (1) Notice has been given that the general public is restricted from access to a portion of a place of public amusement if a printed written notice of the restricted access has been conspicuously posted or exhibited at the entrance to that portion of the place of public amusement. If a printed written notice is posted or exhibited as described in this subsection, regarding a portion of a place of public amusement, in addition to that posting or exhibition, notice that the general public is restricted from access to that portion of the place of public amusement also may be given, but is not required to be given, by either of the following means:

- A. By notifying the person personally, either orally or in writing, that access to that portion of the place of public amusement is restricted;
- B. By broadcasting over the public address system of the place of public amusement an oral warning that access to that portion of the public place of amusement is restricted.

- (2) If notice that the general public is restricted from access to a portion of a place of public amusement is provided by the posting or exhibition of a printed written notice as described in subsection (d)(1) of this section, the Municipality, in a criminal prosecution for a violation of subsection (b) of this section, is not required to prove that the defendant received actual notice that the general public is restricted from access to a portion of a place of public amusement.

- (e) (1) Whoever violates subsection (b) of this section is guilty of criminal trespass on a place of public amusement, a misdemeanor of the first degree.

- (2) In addition to any jail term, fine or other sentence, penalty, or sanction it imposes upon the offender pursuant to subsection (e)(1) of this section, a court may require an offender who violates this section to perform not less than thirty and not more than one hundred twenty hours of supervised community service work.

(ORC 2911.23)

541.99 PENALTY.

(EDITOR'S NOTE: See Section 501.99 for penalties applicable to any misdemeanor classification.)

CHAPTER 545

Theft

545.01 Definitions.

545.02 Determining property value in theft offense.

545.03 Property exceptions as felony offense.

545.04 Detention of shoplifters; rights of museums and libraries.

545.05 Misdemeanor theft.

545.06 Unauthorized use of a vehicle; vehicle trespass.

545.07 Insurance fraud.

545.08 Unauthorized use of property.

545.09 Passing bad checks.

545.10 Misuse of credit cards.

545.11 Making or using slugs.

545.12 Tampering with coin machines.

545.13 Criminal simulation.

545.14 Tampering with records.

545.15 Securing writings by deception.

545.16 Personating an officer.
 545.17 Defrauding creditors.
 545.18 Receiving stolen property.
 545.19 Possession of criminal tools.
 545.20 Forgery of identification cards.
 545.21 Identity fraud.
 545.99 Penalty.

545.01 DEFINITIONS.

As used in this chapter, unless the context requires that a term be given a different meaning:

- (a) "Deception" means knowingly deceiving another or causing another to be deceived, by any false or misleading representation, by withholding information, by preventing another from acquiring information, or by any other conduct, act or omission that creates, confirms or perpetuates a false impression in another, including a false impression as to law, value, state of mind, or other objective or subjective fact.
- (b) "Defraud" means to knowingly obtain, by deception, some benefit for oneself or another, or to knowingly cause, by deception, some detriment to another.
- (c) "Deprive" means to do any of the following:
 - (1) Withhold property of another permanently, or for such period that appropriates a substantial portion of its value or use, or with purpose to restore it only upon payment of a reward or other consideration;
 - (2) Dispose of property so as to make it unlikely that the owner will recover it;
 - (3) Accept, use or appropriate money, property or services, with purpose not to give proper consideration in return for the money, property or services, and without reasonable justification or excuse for not giving proper consideration.
- (d) "Owner" means, unless the context requires a different meaning, any person, other than the actor, who is the owner of, who has possession or control of, or who has any license or interest in property or services, even though the ownership, possession, control, license or interest is unlawful.
- (e) "Services" include labor, personal services, professional services, rental services, public utility services, including wireless service as defined in Ohio R.C. 5507.01(F)(1), common carrier services, and food, drink, transportation, entertainment and cable television services.
- (f) "Writing" means any computer software, document, letter, memorandum, note, paper, plate, data, film or other thing having in or upon it any written, typewritten or printed matter, and any token, stamp, seal, credit card, badge, trademark, label or other symbol of value, right, privilege, license or identification.
- (g) "Forge" means to fabricate or create, in whole or in part and by any means any spurious writing, or to make, execute, alter, complete, reproduce or otherwise purport to authenticate any writing, when the writing in fact is not authenticated by that conduct.
- (h) "Utter" means to issue, publish, transfer, use, put or send into circulation, deliver or display.
- (i) "Coin machine" means any mechanical or electronic device designed to do both of the following:
 - (1) Receive a coin, bill, or token made for that purpose;
 - (2) In return for the insertion or deposit of a coin, bill or token, automatically dispense property, provide a service or grant a license.
- (j) "Slug" means an object that, by virtue of its size, shape, composition or other quality, is capable of being inserted or deposited in a coin machine as an improper substitute for a genuine coin, bill or token made for that purpose.
- (k) "Theft offense" means any of the following:
 - (1) A violation of Ohio R.C. 2911.01, 2911.02, 2911.11, 2911.12, 2911.13, 2911.31, 2911.32, 2913.02, 2913.03, 2913.04, 2913.041, 2913.11, 2913.21, 2913.31, 2913.32, 2913.33, 2913.34, 2913.40, 2913.42 to 2913.45, 2913.47, 2913.48, 2913.51, 2915.05, 2915.06 or 2921.41.
 - (2) A violation of an existing or former municipal ordinance or law of this or any other state or the United States substantially equivalent to any section listed in subsection (k)(1) hereof or a violation of Ohio R.C. 2913.41, 2913.81 or 2915.06 as it existed prior to July 1, 1996;
 - (3) An offense under an existing or former municipal ordinance or law of this or any other state or the United States involving robbery, burglary, breaking and entering, theft, embezzlement, wrongful conversion, forgery, counterfeiting, deceit or fraud;
 - (4) A conspiracy or attempt to commit, or complicity in committing any offense under subsection (k)(1), (2) or (3) hereof.
- (l) "Computer services" includes, but is not limited to, the use of a computer system, computer network, computer program, data that is prepared for computer use or data that is contained within a computer system or computer network.
- (m) "Computer" means an electronic device that performs logical, arithmetic and memory functions by the manipulation of electronic or magnetic impulses. "Computer" includes, but is not limited to, all input, output, processing, storage, computer program or communication facilities that are connected or related, in a computer system or network to an electronic device of that nature.
- (n) "Computer system" means a computer and related devices, whether connected or unconnected, including, but not limited to, data input, output and storage devices, data communications links, and computer programs and data that make the system capable of performing specified special purpose data processing tasks.
- (o) "Computer network" means a set of related and remotely connected computers and communication facilities that includes more than one computer system that has the capability to transmit among the connected computers and communication facilities through the use of computer facilities.
- (p) "Computer program" means an ordered set of data representing coded instructions or statements that when executed by a computer cause the computer to process data.
- (q) "Computer software" means computer programs, procedures and other documentation associated with the operation of a computer system.
- (r) "Data" means a representation of information, knowledge, facts, concepts or instructions that are being or have been prepared in a formalized manner and that are intended for use in a computer, computer system or computer network. For purposes of Section 545.07, "data" has the additional meaning set forth in subsection (a) of that section.
- (s) "Cable television service" means any services provided by or through the facilities of any cable television system or other similar closed circuit coaxial cable communications system, or any microwave or similar transmission service used in connection with any cable television system or other similar closed circuit coaxial cable communications system.
- (t) "Gain access" means to approach, instruct, communicate with, store data in, retrieve data from or otherwise make use of any resources of a computer, computer system or computer network.
- (u) "Credit card" includes, but is not limited to, a card, code, device or other means of access to a customer's account for the purpose of obtaining money, property, labor or services on credit, or for initiating an electronic fund transfer at a point-of-sale terminal, an automated teller machine or a cash dispensing machine.
- (v) "Electronic fund transfer" has the same meaning as in 92 Stat. 3728, 15 U.S.C.A. 1693a, as amended.
- (w) "Rented property" means personal property in which the right of possession and use of the property is for a short and possibly indeterminate term in return for consideration; the rentee generally controls the duration of possession of the property, within any applicable minimum or maximum term; and the amount of consideration generally is determined by the duration of possession of the property.
- (x) "Telecommunication" means the origination, emission, dissemination, transmission, or reception of data, images, signals, sounds, or other intelligence or equivalence of intelligence or any nature over any communications system by any method, including, but not limited to, a fiber optic, electronic, magnetic, optical, digital, or analog method.
- (y) "Telecommunications device" means any instrument, equipment, machine, or other device that facilitates telecommunication, including, but not limited to, a computer, computer network, computer chip, computer circuit, scanner, telephone, cellular telephone, pager, personal communications device, transponder, receiver, radio, modem, or device that enables the use of a modem.
- (z) "Telecommunications service" means the providing, allowing, facilitating, or generating of any form of telecommunication through the use of a telecommunications device over a telecommunications system.
- (aa) "Counterfeit telecommunications device" means a telecommunications device that, alone or with another telecommunications device, has been altered, constructed, manufactured, or programmed to acquire, intercept, receive, or otherwise facilitate the use of a telecommunications service or information service without the authority or consent of the provider of the telecommunications service or information service. "Counterfeit telecommunications device" includes, but is not limited to, a clone telephone, clone microchip, tumbler telephone, or tumbler microchip; a wireless scanning device capable of acquiring, intercepting, receiving, or otherwise facilitating the use of telecommunications service or information service without immediate detection; or a device, equipment, hardware, or software designed for, or capable of, altering or changing the electronic serial number in a wireless telephone.
- (bb) (1) "Information service" means, subject to subsection (bb)(2) hereof, the offering of a capability for generating, acquiring, storing, transforming, processing, retrieving, utilizing, or making available information via telecommunications, including, but not limited to, electronic publishing.
- (2) "Information service" does not include any use of a capability of a type described in subsection (bb)(1) hereof for the management, control, or operation of a telecommunications system or the management of a telecommunications service.
- (cc) "Elderly person" means a person who is sixty-five years of age or older.
- (dd) "Disabled adult" means a person who is eighteen years of age or older and has some impairment of body or mind that makes the person unfit to work at any substantially remunerative employment that the person otherwise would be able to perform and that will, with reasonable probability, continue for a period of at least twelve months without any present indication of recovery from the impairment, or who is eighteen years of age or older and has been certified as permanently and totally disabled by an agency of this State or the United States that has the function of so classifying persons.
- (ee) "Firearm" and "dangerous ordnance" have the same meanings as in Ohio R.C. 2923.11.
- (ff) "Motor vehicle" has the same meaning as in Ohio R.C. 4501.01.
- (gg) "Dangerous drug" has the same meaning as in Ohio R.C. 4729.01.
- (hh) "Drug abuse offense" has the same meaning as in Ohio R.C. 2925.01.
- (ii) "Police dog or horse" has the same meaning as in Ohio R.C. 2921.321.
- (jj) "Anhydrous ammonia" is a compound formed by the combination of two gaseous elements, nitrogen and hydrogen, in the manner described in this subsection. Anhydrous ammonia is one part nitrogen to three parts hydrogen (NH₃). Anhydrous ammonia by weight is fourteen parts nitrogen to three parts hydrogen, which is approximately eighty-two per cent nitrogen to eighteen per cent hydrogen.
- (kk) "Assistance dog" has the same meaning as in Ohio R.C. 955.011.
- (ll) "Active duty service member" means any member of the armed forces of the United States performing active duty under Title 10 of the United States Code. (ORC 2913.01)

545.02 DETERMINING PROPERTY VALUE IN THEFT OFFENSE.

- (a) If more than one item of property or service is involved in a theft offense, the value of the property or services involved for the purpose of determining the value is the aggregate value of all property or services involved in the offense.
- (b) (1) When a series of offenses under Section 545.05, or a series of violations of, attempts to commit a violation of, conspiracies to violate, or complicity in violations of Section 545.05, 545.06, or 545.10(b) (1) or (2), or Section 545.15 or 545.20 involving a victim who is an elderly person or disabled adult, is committed by the offender in the offender's same employment, capacity, or relationship to another, all of those offenses shall be tried as a single offense. When a series of offenses under Section 545.05, or a series of violations of, attempts to commit a violation of, conspiracies to violate, or complicity in violations of Sections 545.05 or 545.15 involving a victim who is an active duty service member or spouse of an active duty service member is committed by the offender in the offender's same employment, capacity or relationship to another, all of those offenses shall be tried as a single offense. The value of the property or services involved in the series of offenses for the purpose of determining the value is the aggregate value of all property and services involved in all offenses in the series.
- (2) If an offender commits a series of offenses under Section 545.05 that involves a common course of conduct to defraud multiple victims, all of the offenses may be tried as a single offense. If an offender is being tried for the commission of a series of violations of, attempts to commit a violation of, conspiracies to violate, or complicity in violations of Section 545.05, 545.06 or 545.08, Section 545.10(b)(1) or (2), or Section 545.15 or 545.20, whether committed against one victim or more than one victim, involving a victim who is an elderly person or disabled adult, pursuant to a scheme or course of conduct, all of those offenses may be tried as a single offense. If the offender is being tried for the commission of a series of violations of, attempts to commit a violation of, conspiracies to violate, or complicity in violations of Section 545.05 or 545.15, whether committed against one victim or more than one victim, involving a victim who is an active duty service member or spouse of an active duty service member pursuant to a scheme or course of conduct, all of those offenses may be tried as a single offense. If the offenses are tried as a single offense, the value of the property or services involved for the purpose of determining the value is the aggregate value of all property and services involved in all of the offenses in the course of conduct.

- (3) In prosecuting a single offense under subsection (b)(1) or (2), it is not necessary to separately allege and prove each offense in the series. Rather, it is sufficient to allege and prove that the offender, within a given span of time, committed one or more theft offenses in the offender's same employment, capacity, or relationship to another as described in subsection (b)(1) of this section or that involve a common course of conduct to defraud multiple victims or a scheme or course of conduct as described in subsection (b)(2) of this section. While it is not necessary to separately allege and prove each offense in the series in order to prosecute a single offense under subsection (b)(1) or (2) hereof, it remains necessary in prosecuting them as a single offense to prove the aggregate value of the property or services in order to meet the requisite statutory offense level sought by the prosecution.
- (c) The following criteria shall be used in determining the value of property or services involved in a theft offense:
- (1) The value of an heirloom, memento, collector's item, antique, museum piece, manuscript, document, record or other thing that has intrinsic worth to its owner and that is either irreplaceable or is replaceable only on the expenditure of substantial time, effort or money, is the amount that would compensate the owner for its loss.
 - (2) The value of personal effects and household goods, and of materials, supplies, equipment and fixtures used in the profession, business, trade, occupation or avocation of its owner, which property is not covered under subsection (c)(1) hereof, and which retains substantial utility for its purpose regardless of its age or condition, is the cost of replacing the property with new property of like kind and quality.
 - (3) The value of any real or personal property that is not covered under subsections (c)(1) or (2) hereof, and the value of services, is the fair market value of the property or services. As used in this section, "fair market value" is the money consideration that a buyer would give and a seller would accept for property or services, assuming that the buyer is willing to buy and the seller is willing to sell, that both are fully informed as to all facts material to the transaction, and that neither is under any compulsion to act.
- (d) Without limitation on the evidence that may be used to establish the value of property or services involved in a theft offense:
- (1) When the property involved is personal property held for sale at wholesale or retail, the price at which the property was held for sale is prima-facie evidence of its value.
 - (2) When the property involved is a security or commodity traded on an exchange, the closing price or, if there is no closing price, the asked price, given in the latest market quotation prior to the offense, is prima-facie evidence of the value of the security or commodity.
 - (3) When the property involved is livestock, poultry or raw agricultural products for which a local market price is available, the latest local market price prior to the offense is prima-facie evidence of the value of the livestock, poultry or products.
 - (4) When the property involved is a negotiable instrument, the face value is prima-facie evidence of the value of the instrument.
 - (5) When the property involved is a warehouse receipt, bill of lading, pawn ticket, claim check or other instrument entitling the holder or bearer to receive property, the face value or, if there is no face value, the value of the property covered by the instrument less any payment necessary to receive the property, is prima-facie evidence of the value of the instrument.
 - (6) When the property involved is a ticket of admission, ticket for transportation, coupon, token or other instrument entitling the holder or bearer to receive property or services, the face value or, if there is no face value, the value of the property or services that may be received by the instrument, is prima-facie evidence of the value of the instrument.
 - (7) When the services involved are gas, electricity, water, telephone, transportation, shipping or other services for which the rate is established by law, the duly established rate is prima-facie evidence of the value of the services.
 - (8) When the services involved are services for which the rate is not established by law, and the offender has been notified prior to the offense of the rate for the services, either in writing or orally, or by posting in a manner reasonably calculated to come to the attention of potential offenders, the rate contained in the notice is prima-facie evidence of the value of the services. (ORC 2913.61)

545.03 PROPERTY EXCEPTIONS AS FELONY OFFENSE.

Regardless of the value of the property involved, and regardless of whether the offender has previously been convicted of a theft offense, the provisions of Section 545.05 or 545.18 do not apply if the property involved is any of the following:

- (a) A credit card;
 - (b) A printed form for a check or other negotiable instrument, that on its face identifies the drawer or maker for whose use it is designed or identifies the account on which it is to be drawn, and that has not been executed by the drawer or maker or on which the amount is blank;
 - (c) A motor vehicle identification license plate as prescribed by Ohio R.C. 4503.22, a temporary motor vehicle license registration as prescribed by Ohio R.C. 4503.182, or any comparable temporary motor vehicle license registration as prescribed by the applicable law of another state or the United States;
 - (d) A blank form for a certificate of title or a manufacturer's or importer's certificate to a motor vehicle, as prescribed by Ohio R.C. 4505.07;
 - (e) A blank form for any license listed in Ohio R.C. 4507.01(A).
- (ORC 2913.71)

545.04 DETENTION OF SHOPLIFTERS; RIGHTS OF MUSEUMS AND LIBRARIES.

- (a) A merchant, or their employee or agent, who has probable cause to believe that items offered for sale by a mercantile establishment have been unlawfully taken by a person, may, for the purposes set forth in subsection (c) hereof, detain the person in a reasonable manner for a reasonable length of time within the mercantile establishment or its immediate vicinity.
- (b) Any officer, employee or agent of a library, museum or archival institution may, for the purposes set forth in subsection (c) hereof or for the purpose of conducting a reasonable investigation of a belief that the person has acted in a manner described in subsections (b)(1) and (2) hereof, detain a person in a reasonable manner for a reasonable length of time within, or in the immediate vicinity of the library, museum or archival institution, if the officer, employee or agent has probable cause to believe that the person has either:
- (1) Without privilege to do so, knowingly moved, defaced, damaged, destroyed or otherwise improperly tampered with property owned by or in the custody of the library, museum or archival institution; or
 - (2) With purpose to deprive the library, museum or archival institution of property owned by it or in its custody, knowingly obtained or exerted control over the property without the consent of the owner or person authorized to give consent, beyond the scope of the express or implied consent of the owner or person authorized to give consent, by deception, or by threat.
- (c) An officer, agent or employee of a library, museum or archival institution pursuant to subsection (b) hereof or a merchant or their employee or agent pursuant to subsection (a) hereof may detain another person for any of the following purposes:
- (1) To recover the property that is the subject of the unlawful taking, criminal mischief or theft;
 - (2) To cause an arrest to be made by a peace officer;
 - (3) To obtain a warrant of arrest.
 - (4) To offer the person, if the person is suspected of the unlawful taking, criminal mischief, or theft and notwithstanding any other provision of this General Offenses or the Ohio Revised Code, an opportunity to complete a pretrial diversion program and to inform the person of the other legal remedies available to the library, museum, archival institution or merchant.
- (d) The officer, agent or employee of the library, museum or archival institution, or the merchant or their employee or agent acting under subsection (a) or (b) hereof shall not search the person, search or seize any property belonging to the person detained without the person's consent, or use undue restraint upon the person detained.
- (e) Any peace officer may arrest without a warrant any person that they have probable cause to believe has committed any act described in subsection (b)(1) or (2) hereof or that they have probable cause to believe has committed an unlawful taking in a mercantile establishment. An arrest under this subsection shall be made within a reasonable time after the commission of the act or unlawful taking.
- (f) As used in this section:
- (1) "Archival institution" means any public or private building, structure or shelter in which are stored historical documents, devices, records, manuscripts or items of public interest, which historical materials are stored to preserve the materials or the information in the materials, to disseminate the information contained in the materials, or to make the materials available for public inspection or for inspection by certain persons who have a particular interest in, use for or knowledge concerning the materials.
 - (2) "Museum" means any public or private nonprofit institution that is permanently organized for primarily educational or aesthetic purposes, owns or borrows objects or items of public interest, and cares for and exhibits to the public the objects or items.
 - (3) "Pretrial diversion program" means a rehabilitative, educational program designed to reduce recidivism and promote personal responsibility that is at least four hours in length and that has been approved by any court in this State. (ORC 2935.041)

545.05 MISDEMEANOR THEFT.

- (a) No person, with purpose to deprive the owner of property or services, shall knowingly obtain or exert control over either the property or services in any of the following ways:
- (1) Without the consent of the owner or person authorized to give consent;
 - (2) Beyond the scope of the express or implied consent of the owner or person authorized to give consent;
 - (3) By deception;
 - (4) By threat;
 - (5) By intimidation.
- (b) Whoever violates this section is guilty of misdemeanor theft, a misdemeanor of the first degree. If any of the following criteria are met, then a violation of this section is a felony to be prosecuted under appropriate state law:
- (1) The value of the property or services stolen is one thousand dollars (\$1,000) or more; or
 - (2) If the property stolen is any of the property listed in Ohio R.C. 2913.71;
 - (3) The victim of the offense is an elderly person, disabled adult, active duty service member, or spouse of an active duty service member, or
 - (4) The property stolen is a firearm or dangerous ordnance, or
 - (5) The property stolen is a motor vehicle, or
 - (6) The property stolen is any dangerous drug, or
 - (7) The property stolen is a police dog or horse or an assistance dog and the offender knows or should know that the property stolen is a police dog or horse or an assistance dog, or
 - (8) The property stolen is anhydrous ammonia, or
 - (9) The property stolen is a special purpose article as defined in Ohio R.C. 4737.04 or a bulk merchandise container as defined in Ohio R.C. 4737.012.
- (c) In addition to the penalties described in subsection (b) of this section, if the offender committed the violation by causing a motor vehicle to leave the premises of an establishment at which gasoline is offered for retail sale without the offender making full payment for gasoline that was dispensed into the fuel tank of the motor vehicle or into another container, the court may do one of the following:
- (1) Unless subsection (c)(2) of this section applies, suspend for not more than six months the offender's driver's license, probationary driver's license, commercial driver's license, temporary instruction permit, or nonresident operating privilege;
 - (2) If the offender's driver's license, probationary driver's license, commercial driver's license, temporary instruction permit, or nonresident operating privilege has previously been suspended pursuant to subsection (c)(1) of this section, impose a class seven suspension of the offender's license, permit, or privilege from the range specified in Ohio R.C. 4510.02(A)(7), provided that the suspension shall be for at least six months.
 - (3) The court, in lieu of suspending the offender's driver's or commercial driver's license, probationary driver's license, temporary instruction permit, or nonresident operating privilege pursuant to subsections (c)(1) or (2) of this section, instead may require the offender to perform community service for a number of hours determined by the court.
- (d) In addition to the penalties described in subsection (b) hereof, if the offender committed the violation by stealing rented property or rental services, the court may order that the offender make restitution pursuant to Ohio R.C. 2929.18 or 2929.28. Restitution may include, but is not limited to, the cost of repairing or replacing the stolen property, or the cost of repairing the stolen property and any loss of revenue resulting from deprivation of the property due to theft of rental services that is less than or equal to the actual value of the property at the time it was rented. Evidence of intent to commit theft of rented property or rental services shall be determined pursuant to the provisions of Ohio R.C. 2913.72.
- (e) The sentencing court that suspends an offender's license, permit, or nonresident operating privilege under subsection (c) of this section may grant the offender limited driving privileges during the period of the suspension in accordance with Ohio R.C. Chapter 4510.
- (ORC 2913.02)

545.06 UNAUTHORIZED USE OF A VEHICLE; VEHICLE TRESPASS.

- (a) No person shall knowingly use or operate an aircraft, motor vehicle, motorcycle, motorboat or other motor-propelled vehicle without the consent of the owner or person authorized to give consent.
- (b) This section does not apply to property removed from the State or if possession is kept for more than forty-eight hours.
- (c) The following are affirmative defenses to a charge under this section:
- (1) At the time of the alleged offense, the actor, though mistaken, reasonably believed that the actor was authorized to use or operate the property.
 - (2) At the time of the alleged offense, the actor reasonably believed that the owner or person empowered to give consent would authorize the actor to use or operate the property.
- (d) No person shall knowingly enter into or upon a motor vehicle, motorcycle or other motor-propelled vehicle without the consent of the owner or person authorized to give consent.
- (e) Whoever violates subsection (a) hereof is guilty of unauthorized use of a vehicle, a misdemeanor of the first degree. If the victim of the offense is an elderly person or disabled adult and if the victim incurs a loss as a result of the violation, a violation of subsection (a) hereof is a felony and shall be prosecuted under appropriate State law. (ORC 2913.03)
- (f) Whoever violates subsection (d) hereof is guilty of vehicle trespass, a misdemeanor of the fourth degree.

545.07 INSURANCE FRAUD.

(a) As used in this section:

- (1) "Data" has the same meaning as in Section 545.01 and additionally includes any other representation of information, knowledge, facts, concepts or instructions that are being or have been prepared in a formalized manner.
 - (2) "Deceptive" means that a statement, in whole or in part, would cause another to be deceived because it contains a misleading representation, withholds information, prevents the acquisition of information or by any other conduct, act or omission creates, confirms or perpetuates a false impression, including, but not limited to, a false impression as to law, value, state of mind or other objective or subjective fact.
 - (3) "Insurer" means any person that is authorized to engage in the business of insurance in this State under Title XXXIX of the Ohio Revised Code; The Ohio Fair Plan Underwriting Association created under Ohio R.C. 3929.43; any health insuring corporation; and any legal entity that is self-insured and provides benefits to its employees or members.
 - (4) "Policy" means a policy, certificate, contract or plan that is issued by an insurer.
 - (5) "Statement" includes, but is not limited to, any notice, letter or memorandum; proof of loss; bill of lading; receipt for payment; invoice, account or other financial statement; estimate of property damage; bill for services; diagnosis or prognosis; prescription; hospital, medical or dental chart or other record; X-Ray, photograph, videotape or movie film; test result; other evidence of loss, injury or expense; computer-generated document; and data in any form.
- (b) No person, with purpose to defraud or knowing that the person is facilitating a fraud, shall do either of the following:
- (1) Present to, or cause to be presented to, an insurer any written or oral statement that is part of, or in support of, an application for insurance, a claim for payment pursuant to a policy or a claim for any other benefit pursuant to a policy, knowing that the statement, or any part of the statement, is false or deceptive;
 - (2) Assist, aid, abet, solicit, procure or conspire with another to prepare or make any written or oral statement that is intended to be presented to an insurer as part of, or in support of, an application for insurance, a claim for payment pursuant to a policy, or a claim for any other benefit pursuant to a policy, knowing that the statement, or any part of the statement, is false or deceptive.
- (c) Whoever violates this section is guilty of insurance fraud a misdemeanor of the first degree. If the amount of the claim that is false or deceptive is one thousand dollars (\$1,000) or more, insurance fraud is a felony and shall be prosecuted under appropriate State law.
- (d) This section shall not be construed to abrogate, waive or modify Ohio R.C. 2317.02(A). (ORC 2913.47)

545.08 UNAUTHORIZED USE OF PROPERTY.

- (a) No person shall knowingly use or operate the property of another without the consent of the owner or person authorized to give consent.
- (b) The affirmative defenses contained in Section 545.06(c) are affirmative defenses to a charge under this section.
- (c) Whoever violates this section is guilty of unauthorized use of property. Except as provided in subsection (d) hereof, unauthorized use of property is a misdemeanor of the fourth degree.
- (d) If unauthorized use of property is committed for the purpose of devising or executing a scheme to defraud or to obtain property or services, unauthorized use of property is a misdemeanor of the first degree. Unauthorized use of property is a felony and shall be prosecuted under appropriate State law if:
 - (1) Unauthorized use of property is committed for the purpose of devising or executing a scheme to defraud or to obtain property or services, and if the value of the property is one thousand dollars (\$1,000) or more; or
 - (2) If the victim of the offense is an elderly person or disabled adult. (ORC 2913.04)

545.09 PASSING BAD CHECKS.

- (a) As used in this section:
 - (1) "Check" includes any form of debit from a demand deposit account, including, but not limited to any of the following:
 - A. A check, bill of exchange, draft, order of withdrawal, or similar negotiable or nonnegotiable instrument;
 - B. An electronic check, electronic transaction, debit card transaction, check card transaction, substitute check, web check, or any form of automated clearing house transaction.
 - (2) "Issue a check" means causing any form of debit from a demand deposit account.
- (b) No person, with purpose to defraud, shall issue or transfer or cause to be issued or transferred a check or other negotiable instrument, knowing that it will be dishonored or knowing that a person has ordered or will order stop payment on the check or other negotiable instrument.
- (c) For purposes of this section, a person who issues or transfers a check or other negotiable instrument is presumed to know that it will be dishonored, if either of the following occurs:
 - (1) The drawer had no account with the drawee at the time of issue or the stated date, whichever is later.
 - (2) The check or other negotiable instrument was properly refused payment for insufficient funds upon presentment within thirty days after issue or the stated date, whichever is later, and the liability of the drawer, indorser or any party who may be liable thereon is not discharged by payment or satisfaction within ten days after receiving notice of dishonor.
- (d) In determining the value of the payment for purposes of subsection (c) of this section, the court may aggregate all checks and other negotiable instruments that the offender issued or transferred or caused to be issued or transferred in violation of subsection (a) of this section within a period of one hundred eighty consecutive days.
- (e) Whoever violates this section is guilty of passing bad checks. Except as otherwise provided in this subsection, passing bad checks is a misdemeanor of the first degree. If the check or checks or other negotiable instrument or instruments are issued or transferred to a single vendor or single other person for the payment of one thousand dollars (\$1,000) or more or if the check or checks or other negotiable instrument or instruments are issued or transferred to multiple vendors or persons for the payment of one thousand five hundred dollars (\$1,500) or more, passing bad checks is a felony and shall be prosecuted under appropriate State law. (ORC 2913.11)

545.10 MISUSE OF CREDIT CARDS.

- (a) No person shall do any of the following:
 - (1) Practice deception for the purpose of procuring the issuance of a credit card, when a credit card is issued in actual reliance thereon;
 - (2) Knowingly buy or sell a credit card from or to a person other than the issuer.
- (b) As an officer, employee, or appointee of a political subdivision or as a public servant as defined under Section 525.01, knowingly misuse a credit card account held by a political subdivision.
- (c) No person, with purpose to defraud, shall do any of the following:
 - (1) Obtain control over a credit card as security for a debt;
 - (2) Obtain property or services by the use of a credit card, in one or more transactions, knowing or having reasonable cause to believe that the card has expired or been revoked, or was obtained, is retained or is being used in violation of law;
 - (3) Furnish property or services upon presentation of a credit card, knowing that the card is being used in violation of law;
 - (4) Represent or cause to be represented to the issuer of a credit card that property or services have been furnished, knowing that the representation is false.
- (d) No person, with purpose to violate this section, shall receive, possess, control or dispose of a credit card.
- (e) Whoever violates this section is guilty of misuse of credit cards, a misdemeanor of the first degree. Misuse of credit cards is a felony and shall be prosecuted under appropriate State law if:
 - (1) The cumulative retail value of the property and services involved in one or more violations of subsection (b)(2), (3) or (4) hereof, which violations involve one or more credit card accounts and occur within a period of ninety consecutive days commencing on the date of the first violation, is one thousand dollars (\$1,000) or more; or
 - (2) The victim of the offense is an elderly person or disabled adult and the offense involves a violation of subsection (b)(1) or (2) hereof. (ORC 2913.21)

545.11 MAKING OR USING SLUGS.

- (a) No person shall do any of the following:
 - (1) Insert or deposit a slug in a coin machine, with purpose to defraud;
 - (2) Make, possess or dispose of a slug, with purpose of enabling another to defraud by inserting or depositing it in a coin machine.
- (b) Whoever violates this section is guilty of making or using slugs, a misdemeanor of the second degree. (ORC 2913.33)

545.12 TAMPERING WITH COIN MACHINES.

- (a) No person, with purpose to commit theft or to defraud, shall knowingly enter, force an entrance into, tamper with or insert any part of an instrument into any coin machine.
- (b) Whoever violates this section is guilty of tampering with coin machines, a misdemeanor of the first degree. If the offender has previously been convicted of a violation of Ohio R.C. 2911.32 or of any theft offense, tampering with coin machines is a felony and shall be prosecuted under appropriate State law. (ORC 2911.32)

545.13 CRIMINAL SIMULATION.

- (a) No person, with purpose to defraud, or knowing that the person is facilitating a fraud, shall do any of the following:
 - (1) Make or alter any object so that it appears to have value because of antiquity, rarity, curiosity, source, or authorship, which it does not in fact possess;
 - (2) Practice deception in making, retouching, editing, or reproducing any photograph, movie film, video tape, phonograph record, or recording tape;
 - (3) Falsely or fraudulently make, simulate, forge, alter, or counterfeit any wrapper, label, stamp, cork, or cap prescribed by the Liquor Control Commission under Ohio R.C. Chapters 4301 and 4303, falsely or fraudulently cause to be made, simulated, forged, altered, or counterfeited any wrapper, label, stamp, cork, or cap prescribed by the Liquor Control Commission under Ohio R.C. Chapters 4301 and 4303, or use more than once any wrapper, label, stamp, cork, or cap prescribed by the Liquor Control Commission under Ohio R.C. Chapters 4301 and 4303.
 - (4) Utter, or possess with purpose to utter, any object that the person knows to have been simulated as provided in subsection (a)(1), (2) or (3) of this section.
- (b) Whoever violates this section is guilty of criminal simulation, a misdemeanor of the first degree. If the loss to the victim is one thousand dollars (\$1,000) or more, criminal simulation is a felony and shall be prosecuted under appropriate State law. (ORC 2913.32)

545.14 TAMPERING WITH RECORDS.

- (a) No person, knowing the person has no privilege to do so, and with purpose to defraud or knowing that the person is facilitating a fraud, shall do any of the following:
 - (1) Falsify, destroy, remove, conceal, alter, deface or mutilate any writing, computer software, data, or record;
 - (2) Utter any writing or record, knowing it to have been tampered with as provided in subsection (a)(1) hereof.
- (b) Whoever violates this section is guilty of tampering with records, a misdemeanor of the first degree. If the violation involves data or computer software the value of which or loss to the victim is one thousand dollars (\$1,000) or more, or if the writing or record is a will unrevoked at the time of the offense, tampering with records is a felony and shall be prosecuted under appropriate State law. (ORC 2913.42)

545.15 SECURING WRITINGS BY DECEPTION.

- (a) No person, by deception, shall cause another to execute any writing that disposes of or encumbers property, or by which a pecuniary obligation is incurred.
- (b) Whoever violates this section is guilty of securing writings by deception, a misdemeanor of the first degree. Securing writings by deception is a felony and shall be prosecuted under appropriate State law if:
 - (1) The value of the property or obligation involved is one thousand dollars (\$1,000) or more; or
 - (2) The victim of the offense is an elderly person, disabled adult, active duty service member or spouse of an active duty service member. (ORC 2913.43)

545.16 PERSONATING AN OFFICER.

- (a) No person, with purpose to defraud or knowing that he is facilitating a fraud, or with purpose to induce another to purchase property or services, shall personate a law enforcement officer, or an inspector, investigator or agent of any governmental agency.
- (b) Whoever violates this section is guilty of personating an officer, a misdemeanor of the first degree. (ORC 2913.44)

545.17 DEFRAUDING CREDITORS.

- (a) No person, with purpose to defraud one or more of the person's creditors, shall do any of the following:
 - (1) Remove, conceal, destroy, encumber, convey or otherwise deal with any of the person's property.
 - (2) Misrepresent or refuse to disclose to a fiduciary appointed to administer or manage the person's affairs or estate, the existence, amount or location of any of the person's property, or any other information regarding such property that the person is legally required to furnish to the fiduciary.

(b) Whoever violates this section is guilty of defrauding creditors, a misdemeanor of the first degree. If the value of the property involved is one thousand dollars (\$1,000) or more, defrauding creditors is a felony and shall be prosecuted under appropriate State law.
(ORC 2913.45)

545.18 RECEIVING STOLEN PROPERTY.

- (a) No person shall receive, retain or dispose of property of another, knowing or having reasonable cause to believe that the property has been obtained through commission of a theft offense.
- (b) It is not a defense to a charge of receiving stolen property in violation of this section that the property was obtained by means other than through the commission of a theft offense if the property was explicitly represented to the accused person as being obtained through the commission of a theft offense.
- (c) Whoever violates this section is guilty of receiving stolen property, a misdemeanor of the first degree. Receiving stolen property is a felony and shall be prosecuted under appropriate State law if:
- (1) The value of the property involved is one thousand dollars (\$1,000) or more; or
 - (2) The property involved is:
 - A. Listed in Section 545.03; or
 - B. A motor vehicle as defined in Ohio R.C. 4501.01; or
 - C. A dangerous drug as defined in Ohio R.C. 4729.01.
 - D. A special purchase article as defined in Ohio R.C. 4737.04 or a bulk merchandise container as defined in Ohio R.C. 4737.012.
- (ORC 2913.51)

545.19 POSSESSION OF CRIMINAL TOOLS.

- (a) No person shall possess or have under the person's control any substance, device, instrument, or article, with purpose to use it criminally.
- (b) Each of the following constitutes prima-facie evidence of criminal purpose:
- (1) Possession or control of any dangerous ordnance, or the materials or parts for making dangerous ordnance, in the absence of circumstances indicating the dangerous ordnance, materials, or parts are intended for legitimate use;
 - (2) Possession or control of any substance, device, instrument, or article designed or specially adapted for criminal use;
 - (3) Possession or control of any substance, device, instrument, or article commonly used for criminal purposes, under circumstances indicating the item is intended for criminal use.
- (c) Whoever violates this section is guilty of possessing criminal tools, a misdemeanor of the first degree. If the circumstances indicate that the substance, device, instrument, or article involved in the offense was intended for use in the commission of a felony, possessing criminal tools is a felony and shall be prosecuted under appropriate State law.
(ORC 2923.24)

545.20 FORGERY OF IDENTIFICATION CARDS.

- (a) No person shall knowingly do either of the following:
- (1) Forge an identification card;
 - (2) Sell or otherwise distribute a card that purports to be an identification card, knowing it to have been forged.
 - (3) As used in this section, "identification card" means a card that includes personal information or characteristics of an individual, a purpose of which is to establish the identity of the bearer described on the card, whether the words "identity," "identification," "identification card" or other similar words appear on the card.
- (b) Whoever violates subsection (a) hereof is guilty of forging identification cards or selling or distributing forged identification cards. Except as otherwise provided in this subsection, forging or selling or distributing forged identification cards is a misdemeanor of the first degree. If the offender previously has been convicted of a violation of this section or Ohio R.C. 2913.31 (B), forging identification cards or selling or distributing forged identification cards is a misdemeanor of the first degree and, in addition, the court shall impose upon the offender a fine of not less than two hundred fifty dollars (\$250.00).
(ORC 2913.31)

545.21 IDENTITY FRAUD.

(EDITOR'S NOTE: Former Section 545.21 has been deleted from the Codified Ordinances. Ohio R.C. 2913.49, from which Section 545.21 was derived, has been reclassified from a misdemeanor to a felony offense.)

545.99 PENALTY.

(EDITOR'S NOTE: See Section 501.99 for penalties applicable to any misdemeanor classification.)

CHAPTER 549

Weapons and Explosives

549.01 Definitions.

549.02 Carrying concealed weapons.

549.03 Using weapons while intoxicated.

549.04 Improperly handling firearms in a motor vehicle.

549.05 Unlawful possession of dangerous ordnance. (Repealed)

549.06 Failure to secure dangerous ordnance, firearm or other deadly weapon.

549.07 Unlawful transactions in weapons.

549.08 Underage purchase of firearm.

549.09 Sale of explosives to minors.

549.10 Sale of fireworks.

549.11 Fireworks display permits.

549.12 Discharging firearms.

549.13 Blasting; permit and bond.

549.14 Registration to carry a handgun. (Repealed)

549.15 Possessing replica firearm in school.

549.16 Defacing identification marks of a firearm; possessing a defaced firearm.

549.17 Concealed handgun licenses; possession of revoked or suspended license; additional restrictions; posting signs prohibiting possession.

549.99 Penalty.

549.01 DEFINITIONS.

As used in this chapter:

- (a) "Deadly weapon" means any instrument, device or thing capable of inflicting death, and designed or specially adapted for use as a weapon, or possessed, carried or used as a weapon, and does not include any knife, razor or cutting instrument if the instrument was not used as a weapon.
- (b) (1) "Firearm" means any deadly weapon capable of expelling or propelling one or more projectiles by the action of an explosive or combustible propellant. "Firearm" includes an unloaded firearm, and any firearm that is inoperable but that can readily be rendered operable.
- (2) When determining whether a firearm is capable of expelling or propelling one or more projectiles by the action of an explosive or combustible propellant, the trier of fact may rely upon circumstantial evidence, including, but not limited to, the representations and actions of the individual exercising control over the firearm.
- (c) "Handgun" means any of the following:
- (1) Any firearm that has a short stock and is designed to be held and fired by the use of a single hand;
 - (2) Any combination of parts from which a firearm of a type described in subsection (c)(1) of this section can be assembled.
- (d) "Semi-automatic firearm" means any firearm designed or specially adapted to fire a single cartridge and automatically chamber a succeeding cartridge ready to fire, with a single function of the trigger.
- (e) "Automatic firearm" means any firearm designed or specially adapted to fire a succession of cartridges with a single function of the trigger. (A.O.)
- (f) "Sawed-off firearm" means a shotgun with a barrel less than eighteen inches long, or a rifle with a barrel less than sixteen inches long, or a shotgun or rifle less than twenty-six inches long overall. "Sawed-off firearm" does not include any firearm with an overall length of at least twenty-six inches that is approved for sale by the federal bureau of alcohol, tobacco, firearm, and explosives under the "Gun Control Act of 1968", 82 Stat. 1213, 18 U.S.C. 921(a)(3), but that is found by the bureau not to be regulated under the "National Firearms Act", 68A Stat. 725 (1934), 26 U.S.C. 5845(a). (Ord. 67-2019. Passed 6-25-19.)
- (g) "Zip-gun" means any of the following:
- (1) Any firearm of crude and extemporized manufacture;
 - (2) Any device, including without limitation a starter's pistol, that is not designed as a firearm, but that is specially adapted for use as a firearm;
 - (3) Any industrial tool, signalling device or safety device, that is not designed as a firearm, but that as designed is capable of use as a military explosive, or for use in mining, quarrying, excavating or demolitions;
- (h) "Explosive device" means any device designed or specially adapted to cause physical harm to persons or property by means of an explosion, and consisting of an explosive substance or agency and a means to detonate it. "Explosive device" includes without limitation any bomb, any explosive demolition device, any blasting cap or detonator containing an explosive charge, and any pressure vessel that has been knowingly tampered with or arranged so as to explode.
- (i) "Incendiary device" means any firebomb, and any device designed or specially adapted to cause physical harm to persons or property by means of fire, and consisting of an incendiary substance or agency and a means to ignite it.
- (j) "Dangerous ordnance" means any of the following, except as provided in subsection (k) hereof:
- (1) Any automatic or sawed-off firearm, or zip-gun;
 - (2) Any explosive device or incendiary device;
 - (3) Nitroglycerin, nitrocellulose, nitrostarch, PETN, cyclonite, TNT, picric acid and other high explosives; amatol, tritonal, tetrytol, pentolite, peccretol, cyclotol and other high explosive compositions; plastic explosives; dynamite, blasting gelatin, gelatin dynamite, sensitized ammonium nitrate, liquid-oxygen blasting explosives, blasting powder and other blasting agents; and any other explosive substance having sufficient brisance or power to be particularly suitable for use as a military explosive, or for use in mining, quarrying, excavating or demolitions;
 - (4) Any firearm, rocket launcher, mortar, artillery piece, grenade, mine, bomb, torpedo or similar weapon, designed and manufactured for military purposes, and the ammunition for that weapon;
 - (5) Any firearm muffler or suppressor;
 - (6) Any combination of parts that is intended by the owner for use in converting any firearm or other device into a dangerous ordnance.
- (k) "Dangerous ordnance" does not include any of the following:
- (1) Any firearm, including a military weapon and the ammunition for that weapon, and regardless of its actual age, that employs a percussion cap or other obsolete ignition system, or that is designed and safe for use only with black powder;
 - (2) Any pistol, rifle or shotgun, designed or suitable for sporting purposes, including a military weapon as issued or as modified, and the ammunition for that weapon unless the firearm is an automatic or sawed-off firearm;
 - (3) Any cannon or other artillery piece that, regardless of its actual age, is of a type in accepted use prior to 1887, has no mechanical, hydraulic, pneumatic or other system for absorbing recoil and returning the tube into battery without displacing the carriage, and is designed and safe for use only with black powder;
 - (4) Black powder, priming quills and percussion caps possessed and lawfully used to fire a cannon of a type defined in subsection (k)(3) hereof during displays, celebrations, organized matches or shoots, and target practice, and smokeless and black powder, primers and percussion caps possessed and lawfully used as a propellant or ignition device in small-arms or small-arms ammunition;

- (5) Dangerous ordnance that is inoperable or inert and cannot readily be rendered operable or activated, and that is kept as a trophy, souvenir, curio or museum piece.
- (6) Any device that is expressly excepted from the definition of a destructive device pursuant to the "Gun Control Act of 1968," 82 Stat. 1213, 18 U.S.C. 921(a)(4), as amended, and regulations issued under that Act. (A.O.)
- (7) Any firearm with an overall length of at least twenty-six inches that is approved for sale by the federal bureau of alcohol, tobacco, firearm, and explosives under the "Gun Control Act of 1968," 82 Stat. 1213, 18 U.S.C. 921(a)(3), but that is found by the bureau not to be regulated under the "National Firearms Act," 68A Stat. 725 (1934), 26 U.S.C. 5845(a). (Ord. 67-2019. Passed 6-25-19.)
- (l) "Explosive" means any chemical compound, mixture, or device, the primary or common purpose of which is to function by explosion. "Explosive" includes all materials that have been classified as division 1.1, division 1.2, division 1.3, or division 1.4 explosives by the United States Department of Transportation in its regulations and includes, but is not limited to, dynamite, black powder, pellet powders, initiating explosives, blasting caps, electric blasting caps, safety fuses, fuse igniters, squibs, cordeau detonant fuses, instantaneous fuses, and igniter cords and igniters. "Explosive" does not include "fireworks", as defined in Ohio R.C. 3743.01, or any substance or material otherwise meeting the definition of explosive set forth in this section that is manufactured, sold, possessed, transported, stored or used in any activity described in Ohio R.C. 3743.80, provided the activity is conducted in accordance with all applicable laws, rules and regulations, including, but not limited to, the provisions of Ohio R.C. 3743.80, and the rules of the Fire Marshal adopted pursuant to Ohio R.C. 3737.82.
- (m) (1) "Concealed handgun license" or "license to carry a concealed handgun" means, subject to subsection (m)(2) of this section, a license or temporary emergency license to carry a concealed handgun issued under Ohio R.C. 2923.125 or 2923.1213 or a license to carry a concealed handgun issued by another state with which the Attorney General has entered into a reciprocity agreement under Ohio R.C. 109.69.
- (2) A reference in any provision of the Ohio Revised Code to a concealed handgun license issued under Ohio R.C. 2923.125 or a license to carry a concealed handgun issued under Ohio R.C. 2923.125 means only a license of the type that is specified in that section. A reference in any provision of the Ohio Revised Code to a concealed handgun license issued under Ohio R.C. 2923.1213, a license to carry a concealed handgun issued under Ohio R.C. 2923.1213, or a license to carry a concealed handgun on a temporary emergency basis means only a license of the type that is specified in Ohio R.C. 2923.1213. A reference in any provision of the Ohio Revised Code to a concealed handgun license issued by another state or a license to carry a concealed handgun issued by another state means only a license issued by another state with which the Attorney General has entered into a reciprocity agreement under Ohio R.C. 109.69.
- (n) "Valid concealed handgun license" or "valid license to carry a concealed handgun" means a concealed handgun license that is currently valid, that is not under a suspension under division (A)(1) of Ohio R.C. 2923.128, under Ohio R.C. 2923.1213, or under a suspension provision of the state other than this State in which the license was issued, and that has not been revoked under division (B)(1) of Ohio R.C. 2923.128, under Ohio R.C. 2923.1213 or under a revocation provision of the state other than this State in which the license was issued.
- (o) "Misdemeanor punishable by imprisonment for a term exceeding one year" does not include any of the following:
- (1) Any federal or state offense pertaining to antitrust violations, unfair trade practices, restraints of trade or other similar offenses relating to the regulation of business practices;
 - (2) Any misdemeanor offense punishable by a term of imprisonment of two years or less.
- (p) "Alien registration number" means the number issued by the United States Citizenship and Immigration Services Agency that is located on the alien's permanent resident card and may also be commonly referred to as the "USCIS number" or the "alien number".
- (q) "Active duty" has the same meaning as defined in 10 U.S.C. 101. (ORC 2923.11; A.O.)
- (r) (1) "Law enforcement officer" means any of the following who is employed, commissioned, disposed, appointed, or elected in a capacity, a political subdivision of this state, or an agency, department, or instrumentality of this state or a political subdivision of this state:
- A. Any law enforcement officer, as defined in section 2901.01 of the Revised Code;
 - B. Any peace officer, as defined in section 2935.01 of the Revised Code;
 - C. Any person who is employed in this state, who is authorized to carry firearms, and who is subject to and in compliance with the requirements of section 109.801 of the Revised Code.
- (2) For purposes of the Revised Code, both of the following apply regarding a law enforcement officer who, by virtue of the officer's employment, commissioning, disposition, appointment, or election as that law enforcement officer, has a responsibility to enforce all or certain laws:
- A. The officer holds public office on a continuing basis and has a continuing duty to enforce those laws.
 - B. The officer is always on duty, regardless of whether the officer is, or is not, officially within work hours or officially on the clock. (ORC 9.69; Ord. 67-2019. Passed 6-25-19; Ord. 23-2021. Passed 4-27-21.)

549.02 CARRYING CONCEALED WEAPONS.

- (a) No person shall knowingly carry or have, concealed on the person's person or concealed ready at hand, any of the following:
- (1) A deadly weapon other than a handgun;
 - (2) A handgun other than a dangerous ordnance;
 - (3) A dangerous ordnance.
- (b) No person who has been issued a concealed handgun license, shall do any of the following:
- (1) If the person is stopped for a law enforcement purpose and is carrying a concealed handgun, before or at the time a law enforcement officer asks if the person is carrying a concealed handgun, knowingly fail to disclose that the person then is carrying a concealed handgun, provided that it is not a violation of this section if the person fails to disclose that fact to an officer during the stop and the person already has notified another officer of that fact during the same stop;
 - (2) If the person is stopped for a law enforcement purpose and is carrying a concealed handgun, knowingly fail to keep the person's hands in plain sight at any time after any law enforcement officer begins approaching the person while stopped and before the law enforcement officer leaves, unless the failure is pursuant to and in accordance with directions given by a law enforcement officer;
 - (3) If the person is stopped for a law enforcement purpose and is carrying a concealed handgun, knowingly disregard or fail to comply with any lawful order of any law enforcement officer given while the person is stopped, including, but not limited to, a specific order to the person to keep the person's hands in plain sight.
- (c) (1) This section does not apply to any of the following:
- A. An officer, agent or employee or this or any other state or the United States, or to a law enforcement officer, who is authorized to carry concealed weapons or dangerous ordnance, or is authorized to carry handguns and is acting within the scope of the officer's, agent's or employee's duties;
 - B. Any person who is employed in this State, who is authorized to carry concealed weapons or dangerous ordnance or is authorized to carry handguns, and who is subject to and in compliance with the requirements of Ohio R.C. 109.801 unless the appointing authority of the person has expressly specified that the exemption provided in subsection (c)(1)B. hereof does not apply to the person.
 - C. A person's transportation or storage of a firearm, other than a firearm described in divisions (G) to (M) of Ohio R.C. 2923.11 in a motor vehicle for any lawful purpose if the firearm is not on the actor's person;
 - D. A person's storage or possession of a firearm, other than a firearm described in divisions (G) to (M) of Ohio R.C. 2923.11 in the actor's own home for any lawful purpose.
- (2) Subsection (a)(2) of this section does not apply to any person who has been issued a concealed handgun license that is valid at the time of the alleged carrying or possession of a handgun or who, at the time of the alleged carrying or possession of a handgun, is an active duty member of the armed forces of the United States and is carrying a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in Ohio R.C. 2923.125(G)(1), unless the person knowingly is in a place described in Ohio R.C. 2923.126(B).
- (d) It is an affirmative defense to a charge under subsection (a)(1) of this section of carrying or having control of a weapon other than a handgun and other than a dangerous ordnance, that the actor was not otherwise prohibited by law from having the weapon, and that any of the following applies:
- (1) The weapon was carried or kept ready at hand by the actor for defensive purposes, while the actor was engaged in or was going to or from the actor's lawful business or occupation, which business or occupation was of a character or was necessarily carried on in a manner or at a time or place as to render the actor particularly susceptible to criminal attack, such as would justify a prudent person in going armed.
 - (2) The weapon was carried or kept ready at hand by the actor for defensive purposes, while the actor was engaged in a lawful activity and had reasonable cause to fear a criminal attack upon the actor, a member of the actor's family, or the actor's home, such as would justify a prudent person in going armed.
 - (3) The weapon was carried or kept ready at hand by the actor for any lawful purpose and while in the actor's own home.
- (e) (1) No person who is charged with a violation of this section shall be required to obtain a concealed handgun license as a condition for the dismissal of the charge.
- (2) If a person is convicted of, was convicted of, pleads guilty to, or has pleaded guilty to a violation of subsection (b)(1) of this section as it existed prior to June 13, 2022, the person may file an application under Ohio R.C. 2953.35 requesting the expungement of the record of conviction.
- (f) (1) Whoever violates this section is guilty of carrying concealed weapons. Except as otherwise provided in this subsection or subsections (f)(2), (5) and (6) of this section, carrying concealed weapons in violation of subsection (a) of this section is a misdemeanor of the first degree. Except as otherwise provided in this subsection or subsections (f)(2), (5) and (6) of this section, if the offender previously has been convicted of a violation of this section or of any offense of violence, if the weapon involved is a firearm that is either loaded or for which the offender has ammunition ready at hand, or if the weapon involved is dangerous ordnance, carrying concealed weapons in violation of subsection (a) of this section is a felony and shall be prosecuted under appropriate State law. Except as otherwise provided in subsections (f)(2), (5) and (6) of this section, if the weapon involved is a firearm and the violation of this section is committed at premises for which a D permit has been issued under Chapter 4303, of the Revised Code or if the offense is committed aboard an aircraft, or with purpose to carry a concealed weapon aboard an aircraft, regardless of the weapon involved, carrying concealed weapons in violation of subsection (a) of this section is a felony and shall be prosecuted under appropriate State law.
- (2) A person shall not be arrested for a violation of subsection (a)(2) of this section solely because the person does not promptly produce a valid concealed handgun license. If a person is arrested for a violation of subsection (a)(2) of this section and is convicted of or pleads guilty to the violation, the offender shall be punished as follows:
- A. The offender shall be guilty of a minor misdemeanor if both of the following apply:
 1. Within ten days after the arrest, the offender presents a concealed handgun license, which license was valid at the time of the arrest to the law enforcement agency that employs the arresting officer.
 2. At the time of the arrest, the offender was not knowingly in a place described in division (B) of Ohio R.C. 2923.126.
 - B. The offender shall be guilty of a misdemeanor and shall be fined five hundred dollars (\$500.00) if all of the following apply:
 1. The offender previously had been issued a concealed handgun license and that license expired within the two years immediately preceding the arrest.
 2. Within forty-five days after the arrest, the offender presents any type of concealed handgun license to the law enforcement agency that employed the arresting officer, and the offender waives in writing the offender's right to a speedy trial on the charge of the violation that is provided in Ohio R.C. 2945.71.
 3. At the time of the commission of the offense, the offender was not knowingly in a place described in division (B) of Ohio R.C. 2923.126.
- C. If subsections (f)(2)A. and B. and (f)(5) of this section do not apply, the offender shall be punished under subsection (f)(1) or (6) of this section.
- (3) Carrying concealed weapons in violation of subsection (b)(1) of this section is a misdemeanor of the second degree.
- (4) Carrying concealed weapons in violation of subsection (b)(2) or (b)(3) hereof is a misdemeanor of the first degree. If the offender has previously been convicted or pleaded guilty to a violation of subsection (b)(2) or (b)(3) hereof or a substantially equivalent municipal ordinance, carrying concealed weapons is a felony and shall be prosecuted under appropriate state law. In addition to any other penalty or sanction imposed for a violation of subsection (b)(2) or (b)(3) hereof, the offender's concealed handgun license shall be suspended pursuant to Ohio R.C. 2923.128(A)(2).
- (5) If a person being arrested for a violation of subsection (a)(2) of this section is an active duty member of the armed forces of the United States and is carrying a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in division (G)(1) of Ohio R.C. 2923.125, and if at the time of the violation the person was not knowingly in a place described in division (B) of Ohio R.C. 2923.126, the officer shall not arrest the person for a violation of that division. If the person is not able to promptly produce a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in division (G)(1) of Ohio R.C. 2923.125 and if the person is not in a place described in division (B) of Ohio R.C. 2923.126, the officer shall issue a citation and the offender shall be assessed a civil penalty of not more than five hundred dollars (\$500.00). The citation shall be automatically dismissed and the civil penalty shall not be assessed if both of the following apply:
- A. Within ten days after the issuance of the citation, the offender presents a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in division (G)(1) of Ohio R.C. 2923.125, which were both valid at the time of the issuance of the citation to the law enforcement agency that employs the citing officer.
 - B. At the time of the citation, the offender was not knowingly in a place described in division (B) of Ohio R.C. 2923.126.
- (6) If a person being arrested for a violation of subsection (a)(2) of this section is knowingly in a place described in division (B)(5) of Ohio R.C. 2923.126, and is not authorized to carry a handgun or have a handgun concealed on the person's person or concealed ready at hand under that division, the penalty shall be as follows:
- A. Except as otherwise provided in this subsection, if the person produces a valid concealed handgun license within ten days after the arrest and has not previously been convicted or pleaded guilty to a violation of subsection (a)(2) of this section, the person is guilty of a minor misdemeanor;
 - B. Except as otherwise provided in this subsection, if the person has previously been convicted of or pleaded guilty to a violation of subsection (a)(2) of this section, the person is guilty of a misdemeanor of the fourth degree;
 - C. Except as otherwise provided in this subsection, if the person has previously been convicted of or pleaded guilty to two violations of subsection (a)(2) of this section, the person is guilty of a misdemeanor of the third degree;
 - D. Except as otherwise provided in this subsection, if the person has previously been convicted of or pleaded guilty to three or more violations of subsection (a)(2) of this section, or convicted of or pleaded guilty to any offense of violence, if the weapon involved is a firearm that is either loaded or for which the offender has ammunition ready at hand, or if the weapon involved is a dangerous ordnance, the person is guilty of a misdemeanor of the second degree.
- (g) If a law enforcement officer stops a person to question the person regarding a possible violation of this section, for a traffic stop, or for any other law enforcement purpose, if the person surrenders a firearm to the officer, either voluntarily or pursuant to a request or demand of the officer, and if the officer does not charge the person with a violation of this section or arrest the person for any offense, the person is not otherwise prohibited by law from possessing the firearm, and the firearm is not contraband, the officer shall return the firearm to the person at the termination of the stop. If a court orders a law enforcement officer to return a firearm to a person pursuant to the requirement set forth in this subsection, division (B) of Ohio R.C. 2923.163 applies.
- (h) For purposes of this section, "deadly weapon" or "weapon" does not include any knife, razor, or cutting instrument if the instrument was not used as a weapon. (ORC 2923.12; A.O.)
- (i) Each person, board, or entity that owns or controls any place or premises identified in division (B) of section 2923.126 of the Revised Code as a place into which a valid license does not authorize the licensee to earn a concealed handgun, or a designee of such a person, board, or entity, shall post in the following one or more conspicuous locations in the premises a sign that contains a statement in substantially the following form: "Unless otherwise authorized by law, pursuant to the Ohio Revised Code, no person shall knowingly possess, have under the person's control, convey, or attempt to convey a deadly weapon or dangerous ordnance onto these premises. (Ord. 67-2019. Passed 6-25-19.)

549.03 USING WEAPONS WHILE INTOXICATED.

- (a) No person, while under the influence of alcohol or any drug of abuse, shall carry or use any firearm or dangerous ordnance.
- (b) Whoever violates this section is guilty of using weapons while intoxicated, a misdemeanor of the first degree.

(ORC 2923.15)

549.04 IMPROPERLY HANDLING FIREARMS IN A MOTOR VEHICLE.

(a) No person shall knowingly transport or have a firearm in a motor vehicle, unless the person may lawfully possess that firearm under applicable law of this state or the United States, the firearm is unloaded, and the firearm is carried in one of the following ways:

- (1) In a closed package, box or case;
- (2) In a compartment which can be reached only by leaving the vehicle;
- (3) In plain sight and secured in a rack or holder made for the purpose;
- (4) If the firearm is at least twenty-four inches in overall length as measured from the muzzle to the part of the stock furthest from the muzzle and if the barrel is at least eighteen inches in length, either in plain sight with the action open or the weapon stripped, or, if the firearm is of a type on which the action will not stay open or which cannot easily be stripped, in plain sight.

(b) No person who has been issued a concealed handgun license, or who is an active duty member of the armed forces of the United States and is carrying a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in division (G)(1) of Ohio R.C. 2923.125, who is the driver or an occupant of a motor vehicle that is stopped as a result of a traffic stop or a stop for another law enforcement purpose or is the driver or an occupant of a commercial motor vehicle that is stopped by an employee of the motor carrier enforcement unit for the purposes defined in Ohio R.C. 5503.34, and who is transporting or has a loaded handgun in the motor vehicle or commercial motor vehicle in any manner, shall do any of the following:

- (1) Before or at the time a law enforcement officer asks if the person is carrying a concealed handgun, knowingly fail to disclose that the person then possesses or has a loaded handgun in the motor vehicle, provided that it is not a violation of this division if the person fails to disclose that fact to an officer during the stop and the person already has notified another officer of that fact during the same stop;
- (2) Before or at the time an employee of the motor carrier enforcement unit asks if the person is carrying a concealed handgun, knowingly fail to disclose that the person then possesses or has a loaded handgun in the commercial motor vehicle, provided that it is not a violation of this division if the person fails to disclose that fact to an employee of the unit during the stop and the person already has notified another employee of the unit of that fact during the same stop;
- (3) Knowingly fail to remain in the motor vehicle while stopped, or knowingly fail to keep the person's hands in plain sight at any time after any law enforcement officer begins approaching the person while stopped and before the law enforcement officer leaves, unless the failure is pursuant to and in accordance with directions given by a law enforcement officer.
- (4) Knowingly disregard or fail to comply with any lawful order of any law enforcement officer given while the motor vehicle is stopped, including, but not limited to, a specific order to the person to keep the person's hands in plain sight.

(c) (1) This section does not apply to any of the following:

- A. An officer, agent or employee of this or any other state or the United States, or a law enforcement officer, when authorized to carry or have loaded or accessible firearms in motor vehicles and acting within the scope of the officer's, agent's or employee's duties;
- B. Any person who is employed in this State, who is authorized to carry or have loaded or accessible firearms in motor vehicles, and who is subject to and in compliance with the requirements of Ohio R.C. 109.801, unless the appointing authority of the person has expressly specified that the exemption provided in subsection (c)(1)B. does not apply to the person.

(2) Subsection (a) of this section does not apply to a person who transports or possesses a handgun in a motor vehicle if, at the time of that transportation or possession, both of the following apply:

- A. The person transporting or possessing the handgun has been issued a concealed handgun license that is valid at the time in question or the person is an active duty member of the armed forces of the United States and is carrying a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in Ohio R.C. 2923.125(G)(1).
- B. The person transporting or possessing the handgun is not knowingly in a place described in division (B) of Ohio R.C. 2923.126.
- (3) Subsection (a) of this section does not apply to a person if all of the following apply:
 - A. The person possesses a valid all-purpose vehicle permit issued under Ohio R.C. 1533.103 by the Chief of the Division of Wildlife.
 - B. The person is on or in an all-purpose vehicle as defined in Ohio R.C. 1531.01 on private or publicly owned lands or on or in a motor vehicle during the open hunting season for a wild quadruped or game bird.
 - C. The person is on or in an all-purpose vehicle as defined in Ohio R.C. 1531.01 or a motor vehicle that is parked on a road that is owned or administered by the Division of Wildlife.
- (4) (1) The affirmative defenses authorized in Section 549.02(d)(1) and (2) are affirmative defenses to a charge under subsection (a) that involves a firearm other than a handgun.
- (2) It is an affirmative defense to a charge under subsection (a) of improperly handling firearms in a motor vehicle that the actor transported or had the firearm in the motor vehicle for any lawful purpose and while the motor vehicle was on the actor's own property, provided that the affirmative defense is not available unless the person, immediately prior to arriving at the actor's own property, did not transport or possess the firearm in a motor vehicle in a manner prohibited by subsection (a) while the motor vehicle was being operated on a street, highway, or other public or private property used by the public for vehicular traffic.

(e) (1) No person who is charged with a violation of subsection (a) shall be required to obtain a concealed handgun license as a condition for the dismissal of the charge.

(2) If a person is convicted of, was convicted of, pleads guilty to, or has pleaded guilty to a violation of subsection (b) of this section as it existed prior to September 30, 2011, and the conduct that was the basis of the violation no longer would be a violation of subsection (b) of this section on or after September 30, 2011, or if a person is convicted of, was convicted of, pleads guilty to, or has pleaded guilty to a violation of subsection (a) of this section as the subsection existed prior to June 13, 2022, the person may file an application under Ohio R.C. 2953.35 requesting the expungement of the record of conviction.

(f) Whoever violates this section is guilty of improperly handling firearms in a motor vehicle. Violation of subsection (a) of this section is a misdemeanor of the fourth degree. A violation of subsection (b)(1) or (b)(2) of this section is a misdemeanor of the second degree. A violation of subsection (b)(3) or (4) of this section is a misdemeanor of the first degree or, if the offender previously has been convicted of or pleaded guilty to a violation of subsection (b)(3) or (4) of this section, a felony and shall be prosecuted under appropriate State law. In addition to any other penalty or sanction imposed for a misdemeanor violation of subsection (b)(3) or (4) of this section, the offender's concealed handgun license shall be suspended pursuant to Ohio R.C. 2923.128(A)(2).

(g) If a law enforcement officer stops a motor vehicle for a traffic stop or any other purpose, if any person in the motor vehicle surrenders a firearm to the officer, either voluntarily or pursuant to a request or demand of the officer, and if the officer does not charge the person with a violation of this section or arrest the person for any offense, the person is not otherwise prohibited by law from possessing the firearm, and the firearm is not contraband, the officer shall return the firearm to the person at the termination of the stop. If a court orders a law enforcement officer to return a firearm to a person pursuant to the requirement set forth in this subsection, division (B) of Ohio R.C. 2923.163 applies.

(h) As used in this section:

- (1) "Commercial motor vehicle" has the same meaning as in Ohio R.C. 4506.25(A).
- (2) "Motor carrier enforcement unit" means the motor carrier enforcement unit in the Department of Public Safety, Division of State Highway Patrol, that is created by Ohio R.C. 5503.34.
- (3) "Motor vehicle", "street" and "highway" have the same meanings as in Ohio R.C. 4511.01.
- (4) A. "Unloaded" means:

- 1. With respect to a firearm other than a firearm described in subsection (h)(4)B. of this section, that no ammunition is in the firearm in question, no magazine or speed loader containing ammunition is inserted into the firearm in question and one of the following applies:
 - a. There is no ammunition in a magazine or speed loader that is in the vehicle in question and that may be used with the firearm in question.
 - b. Any magazine or speed loader that contains ammunition and that may be used with the firearm in question is stored in a compartment within the vehicle in question that cannot be accessed without leaving the vehicle or is stored in a container that provides complete and separate enclosure.
- 2. For the purposes of subsection (h)(4)A.1.b. of this section, a "container that provides complete and separate enclosure" includes, but is not limited to, any of the following:
 - a. A package, box or case with multiple compartments, as long as the loaded magazine or speed loader and the firearm in question either are in separate compartments within the package, box, or case, or, if they are in the same compartment, the magazine or speed loader is contained within a separate enclosure in that compartment that does not contain the firearm and that closes using a snap, button, buckle, zipper, hook and loop closing mechanism, or other fastener that must be opened to access the contents or the firearm is contained within a separate enclosure of that nature in that compartment that does not contain the magazine or speed loader;
 - b. A pocket or other enclosure on the person of the person in question that closes using a snap, button, buckle, zipper, hook and loop closing mechanism, or other fastener that must be opened to access the contents.
- 3. For the purposes of subsection (h)(4)A. of this section, ammunition held in stripper-clips or in en-bloc clips is not considered ammunition that is loaded into a magazine or speed loader.
- B. "Unloaded" means, with respect to a firearm employing a percussion cap, flintlock, or other obsolete ignition system, when the weapon is uncapped or when the priming charge is removed from the pan.
- (i) Subsection (h)(4) of this section does not affect the authority of a person who has been issued a concealed handgun license that is valid at the time in question to have one or more magazines or speed loaders containing ammunition anywhere in a vehicle, without being transported as described in those divisions, so long as no ammunition is in a firearm, other than a handgun, in the vehicle other than as permitted under any other provision of this chapter. A person who has been issued a concealed handgun license that is valid at the time in question may have one or more magazines or speed loaders containing ammunition anywhere in a vehicle without further restriction, as long as no ammunition is in a firearm, other than a handgun, in the vehicle other than as permitted under any provision of this chapter.

(ORC 2923.16)

549.05 UNLAWFUL POSSESSION OF DANGEROUS ORDNANCE. (REPEALED)

(EDITOR'S NOTE: Ohio R.C. 2923.17 (Section 549.05 of these Codified Ordinances) was made a felony by the Ohio General Assembly by Amended House Bill 728, effective August 22, 1978. For this reason Section 549.05 was repealed as part of the 1980 revision and updating of these Codified Ordinances.)

549.06 FAILURE TO SECURE DANGEROUS ORDNANCE, FIREARM OR OTHER DEADLY WEAPON.

(a) No person, in acquiring, possessing, carrying or using any dangerous ordnance, firearm, or other deadly weapon shall negligently fail to take proper precautions:

- (1) To secure the dangerous ordnance, firearm, or other deadly weapon against theft, or against its acquisition or use by any unauthorized or incompetent person;
- (2) To insure the safety of persons and property.

(b) Whoever violates this section is guilty of failure to secure a dangerous ordnance, firearm, or other deadly weapon, a misdemeanor of the second degree.

(Ord. 45-2020. Passed 5-12-20.)

549.07 UNLAWFUL TRANSACTIONS IN WEAPONS.

(a) No person shall do any of the following:

- (1) Recklessly sell, lend, give, or furnish any firearm to any person prohibited by section 2923.13 or 2923.15 of the Revised Code from acquiring or using any firearm, or recklessly sell, lend, give, or furnish any dangerous ordnance to any person prohibited by section 2923.13, 2923.15, or 2923.17 of the Revised Code from acquiring or using any dangerous ordnance;
- (2) Possess any firearm or dangerous ordnance with purpose to dispose of it in violation of division (a) of this section;
- (3) Except as otherwise provided in division (b) of this section, knowingly solicit, persuade, encourage, or entice a federally licensed firearms dealer or private seller to transfer a firearm or ammunition to any person in a manner prohibited by state or federal law;
- (4) Except as otherwise provided in division (b) of this section, with an intent to deceive, knowingly provide materially false information to a federally licensed firearms dealer or private seller;
- (5) Except as otherwise provided in division (b) of this section, knowingly procure, solicit, persuade, encourage, or entice a person to act in violation of division (a)(3) or (4) of this section;
- (6) Manufacture, possess for sale, sell, or furnish to any person other than a law enforcement agency for authorized use in police work, any brass knuckles, cestus, billy, blackjack or sandbag;
- (7) When transferring any dangerous ordnance to another, negligently fail to require the transferee to exhibit such identification, license, or permit showing the transferee to be authorized to acquire dangerous ordnance pursuant to section 2923.17 of the Revised Code, or negligently fail to take a complete record of the transaction and forthwith forward a copy of that record to the sheriff of the county or safety director or police chief of the municipality where the transaction takes place;
- (8) Knowingly fail to report to law enforcement authorities forthwith the loss or then of any firearm or dangerous ordnance in the person's possession or under the person's control.

(b) Divisions (a)(3), (4), and (5) of this section do not apply to any of the following:

- (1) A law enforcement officer who is acting within the scope of the officer's duties;
- (2) A person who is acting in accordance with directions given by a law enforcement officer described in division (b)(1) of this section.
- (c) Whoever violates this section is guilty of unlawful transactions in weapons. Violation of subsections (a)(1) or (2) hereof is a misdemeanor of the second degree. Violation of subsection (a)(3) hereof is a misdemeanor of the fourth degree. A violation of division (a)(1) or (2) of this section is a felony of the fourth degree. A violation of division (a)(3), (4), or (5) of this section is a felony of the third degree. A violation of division (a)(3), (6) or (4) (7) of this section is a misdemeanor of the second degree. A violation of division (a)(5) (8) of this section is a misdemeanor of the fourth degree.

(d) As used in this section:

- (1) "Ammunition" has the same meaning as in section 2305.401 of the Revised Code.
- (2) "Federally licensed firearms dealer" has the same meaning as in section 5502.63 of the Revised Code.
- (3) "Materially false information" means information regarding the transfer of a firearm or ammunition that portrays an illegal transaction as legal or a legal transaction as illegal.
- (4) "Private seller" means a person who sells, offers for sale, or transfers a firearm or ammunition and who is not a federally licensed firearms dealer.

(Ord. 23-2021. Passed 4-27-21.)

549.08 UNDERAGE PURCHASE OF FIREARM.

(a) No person under eighteen years of age shall purchase or attempt to purchase a firearm.

(b) No person under twenty-one years of age shall purchase or attempt to purchase a handgun, provided that this subsection does not apply to the purchase or attempted purchase of a handgun by a person eighteen years of age or older and under twenty-one years of age if either of the following apply:

- (1) The person is a law enforcement officer who is properly appointed or employed as a law enforcement officer and has received firearms training approved by the Ohio Peace Officer Training Council or equivalent firearms training.
- (2) The person is an active or reserve member of the armed services of the United States or the Ohio national guard, or was honorably discharged from military service in the active or reserve armed services of the

United States or the Ohio national guard, and the person has received firearms training from the armed services or the national guard or equivalent firearms training.

(c) Whoever violates subsection (a) hereof is guilty of underage purchase of a firearm, a delinquent act that would be a felony of the fourth degree if it could be committed by an adult. Whoever violates subsection (b) hereof is guilty of underage purchase of a handgun, a misdemeanor of the second degree. (ORC 2923.211)

549.09 SALE OF EXPLOSIVES TO MINORS.

(a) No person shall sell, give away or otherwise dispose of or deliver to any person under eighteen years of age any explosives, as defined in Ohio R.C. 3743.01(A), whether such person is acting for himself or for any other person.

(ORC 3743.02)

(b) Whoever violates this section is guilty of a misdemeanor of the third degree.

549.10 SALE OF FIREWORKS.

(EDITOR'S NOTE: See Section 1505.07)

549.11 FIREWORKS DISPLAY PERMITS.

(EDITOR'S NOTE: See Section 1505.07.)

549.12 DISCHARGING FIREARMS.

(a) No person shall discharge any air gun, rifle, shotgun, revolver, pistol or other firearm within the corporate limits of the Municipality. (A.O.)

(b) This section does not apply when firearms are used in self defense, in the discharge of official duty or when otherwise lawfully authorized.

(1) A person is allowed to act in self-defense, defense of another, or defense of that person's residence. If, at the trial of a person who is accused of an offense that involved the person's use of force against another, there is evidence presented that tends to support that the accused person used the force in self-defense, defense of another, or defense of that person's residence, the prosecution must prove beyond a reasonable doubt that the accused person did not use the force in self-defense, defense of another, or defense of that person's residence, as the case may be.

(Ord. 67-2019, Passed 6-25-19.)

(c) Whoever violates this section is guilty of a misdemeanor of the fourth degree.

549.13 BLASTING; PERMIT AND BOND.

(a) It is the purpose of this section to provide minimum standards for safety to life, limb and property, for the general public, welfare and for safe practices in the use of explosives for blasting purposes in the construction industry and related operations including drilling and preparation for blasting.

(b) The section shall apply to every construction project, including demolition, maintenance and repair work, where explosives are used for blasting purposes and compliance with the requirements herein contained shall be necessary on all such projects.

(c) No person shall blast or carry on any blasting operations within the City, without first having obtained a permit from the Director of Public Safety. The applicant for such permit shall file with the Director of Public Safety a bond deemed adequate in each case by the Director and approved by the Director of Law, which bond shall become available in the payment of any damages arising from the neglect of the contractor, his agent or employees.

(d) The Director of Public Safety shall make such rules and regulations, to have the force and effect of law, which may be required to facilitate the administration and enforcement of the provisions of this section to provide safety to life and limb of persons and the preservation of property. The rules and regulations formulated by the Director of Public Safety shall be published and a copy filed with the Clerk of Council and the same are hereby adopted and incorporated as fully as if set out at length herein, and from the date this section shall take effect, the provisions thereof shall be controlling within the limits of the City.

(Ord. 7-65, Passed 1-26-65.)

(e) Whoever violates this section is guilty of a misdemeanor of the third degree.

549.14 REGISTRATION TO CARRY HANDGUN. (REPEALED)

(EDITOR'S NOTE: Former Section 549.14 was repealed by Ordinance 67-2019, passed June 25, 2019.)

549.15 POSSESSING REPLICA FIREARM IN SCHOOL.

(a) No person shall knowingly possess an object in a school safety zone if both of the following apply:

(1) The object is indistinguishable from a firearm, whether or not the object is capable of being fired.

(2) The person indicates that the person possesses the object and that it is a firearm, or the person knowingly displays or brandishes the object and indicates that it is a firearm.

(b) (1) This section does not apply to any of the following:

A. An officer, agent, or employee of this or any other state or the United States who is authorized to carry deadly weapons or dangerous ordnance and is acting within the scope of the officer's, agent's, or employee's duties;

B. A law enforcement officer who is authorized to carry deadly weapons or dangerous ordnance;

C. A security officer employed by a board of education or governing body of a school during the time that the security officer is on duty pursuant to that contract of employment;

D. 1. Any person not described in subsections (b)(1)A. to (b)(1)C. of this section who has written authorization from the board of education or governing body of a school to convey deadly weapons or dangerous ordnance into a school safety zone or to possess a deadly weapon or dangerous ordnance in a school safety zone and who conveys or possesses the deadly weapon or dangerous ordnance in accordance with that authorization, provided both of the following apply:

a. Either the person has successfully completed the curriculum, instruction, and training established under Ohio R.C. 5502.703, or the person has received a certificate of having satisfactorily completed an approved basic peace officer training program or is a law enforcement officer;

b. The board or governing body has notified the public, by whatever means the affected school regularly communicates with the public, that the board or governing body has authorized one or more persons to go armed within a school operated by the board or governing authority;

2. A district board or school governing body that authorizes a person under subsection (b)(1)D. of this section shall require that person to submit to an annual criminal records check conducted in the same manner as Ohio R.C. 3319.39 or Ohio R.C. 3319.391.

E. Any person who is employed in this state, who is authorized to carry deadly weapons or dangerous ordnance, and who is subject to and in compliance with the requirements of Ohio R.C. 109.801, unless the appointing authority of the person has expressly specified that the exemption provided in subsection (b)(1)E. of this section does not apply to the person.

(2) This section does not apply to premises upon which home schooling is conducted. This section also does not apply to a school administrator, teacher or employee who possesses an object that is indistinguishable from a firearm for legitimate school purposes during the course of employment, a student who uses an object that is indistinguishable from a firearm under the direction of a school administrator, teacher or employee, or any other person who, with the express prior approval of a school administrator, possesses an object that is indistinguishable from a firearm for a legitimate purpose, including the use of the object in a ceremonial activity, a play, re-enactment or other dramatic presentation, school safety training, or a ROTC activity or another similar use of the object.

(3) This section does not apply to a person who conveys or attempts to convey a handgun into, or possesses a handgun in, a school safety zone if, at the time of that conveyance, attempted conveyance, or possession of the handgun, all of the following apply:

A. The person does not enter into a school building or onto school premises and is not at a school activity.

B. The person has been issued a concealed handgun license that is valid at the time of the conveyance, attempted conveyance, or possession or the person is an active duty member of the armed forces of the United States and is carrying a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in Ohio R.C. 2923.125(G)(1).

C. The person is in the school safety zone in accordance with 18 U.S.C. § 922(q)(2)(B).

D. The person is not knowingly in a place described in Ohio R.C. 2923.126(B)(1) or (B)(3) to (8).

(4) This section does not apply to a person who conveys or attempts to convey a handgun into, or possesses a handgun in, a school safety zone if at the time of that conveyance, attempted conveyance, or possession of the handgun all of the following apply:

A. The person has been issued a concealed handgun license that is valid at the time of the conveyance, attempted conveyance or possession or the person is an active duty member of the armed forces of the United States and is carrying a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in Ohio R.C. 2923.125(G)(1).

B. The person leaves the handgun in a motor vehicle.

C. The handgun does not leave the motor vehicle.

D. If the person exits the motor vehicle, the person locks the motor vehicle.

(c) Whoever violates this section is guilty of illegal possession of an object indistinguishable from a firearm in a school safety zone. Except as otherwise provided in this division, illegal possession of an object indistinguishable from a firearm in a school safety zone is a misdemeanor of the first degree. If the offender previously has been convicted of a violation of this section, illegal possession of an object indistinguishable from a firearm in a school safety zone is a felony to be prosecuted under appropriate state law.

(d) (1) In addition to any other penalty imposed upon a person who is convicted of or pleads guilty to a violation of this section, and subject to subsection (d)(2) of this section, if the offender has not attained nineteen years of age, regardless of whether the offender is attending or is enrolled in a school operated by a board of education or for which the State Board of Education prescribes minimum standards under Ohio R.C. 3301.07, of the suspension. If the offender is not a resident of this State, the court shall impose a class four suspension of the nonresident operating privilege of the offender from the range specified in Ohio R.C. 4510.02(A)(4).

(2) If the offender shows good cause why the court should not suspend one of the types of licenses, permits or privileges specified in subsection (d)(1) of this section or deny the issuance of one of the temporary instruction permits specified in subsection (d)(1) of this section, the court in its discretion may choose not to impose the suspension, revocation or denial required in subsection (d)(1) of this section, but the court, in its discretion, instead may require the offender to perform community service for a number of hours determined by the court.

(e) As used in this section, "object that is indistinguishable from a firearm" means an object made, constructed or altered so that, to a reasonable person without specialized training in firearms, the object appears to be a firearm.

(ORC 2923.122(C) - (G))

549.16 DEFACING IDENTIFICATION MARKS OF A FIREARM; POSSESSING A DEFACED FIREARM.

(a) No person shall do either of the following:

(1) Change, alter, remove, or obliterate the name of the manufacturer, model, manufacturer's serial number, or other mark or identification on a firearm.

(2) Possess a firearm knowing or having reasonable cause to believe that the name of the manufacturer, model, manufacturer's serial number, or other mark of identification on the firearm has been changed, altered, removed, or obliterated.

(b) (1) Whoever violates subsection (a)(1) of this section is guilty of defacing identification marks of a firearm. Except as otherwise provided in this subsection, defacing identification marks of a firearm is a misdemeanor of the first degree. If the offender previously has been convicted of or pleaded guilty to a violation of subsection (a)(1) of this section, defacing identification marks of a firearm is a felony and shall be prosecuted under appropriate State law.

(2) Whoever violates subsection (a)(2) of this section is guilty of possessing a defaced firearm. Except as otherwise provided in this subsection, possessing a defaced firearm is a misdemeanor of the first degree. If the offender previously has been convicted of or pleaded guilty to a violation of subsection (a)(2) of this section, possessing a defaced firearm is a felony and shall be prosecuted under appropriate State law.

(ORC 2923.201)

549.17 CONCEALED HANDGUN LICENSES; POSSESSION OF REVOKED OR SUSPENDED LICENSE; ADDITIONAL RESTRICTIONS; POSTING SIGNS PROHIBITING POSSESSION.

(a) Possession of a Revoked or Suspended Concealed Handgun License.

(1) No person, except in the performance of official duties, shall possess a concealed handgun license that was issued and that has been revoked or suspended.

(2) Whoever violates this subsection (a) is guilty of possessing a revoked or suspended concealed handgun license, a misdemeanor of the third degree.

(ORC 2923.121(B), (C))

(b) Additional Restrictions. Pursuant to Ohio R.C. 2923.126:

(1) A concealed handgun license that is issued under Ohio R.C. 2923.125 shall expire five years after the date of issuance. A licensee who has been issued a license under that section shall be granted a grace period of thirty days after the licensee's license expires during which the licensee's license remains valid. Except as provided in subsection (b)(2) and (b)(3) of this section, a licensee who has been issued a concealed handgun license under Ohio R.C. 2923.125 or 2923.1213 may carry a concealed handgun anywhere in this state if the license is valid when the licensee is in actual possession of a concealed handgun. The licensee shall give notice of any change in the licensee's residence address to the sheriff who issued the license within forty-five days after that change.

(2) A valid concealed handgun license does not authorize the licensee to carry a concealed handgun in any manner prohibited under Ohio R.C. 2923.12(B) or in any manner prohibited under Ohio R.C. 2923.16. A valid license does not authorize the licensee to carry a concealed handgun into any of the following places:

A. A police station, sheriff's office, or state highway patrol station, premises controlled by the bureau of criminal identification and investigation; a state correctional institution, jail, workhouse, or other detention facility; any area of an airport passenger terminal that is beyond a passenger or property screening checkpoint or to which access is restricted through security measures by the airport authority or a public agency; or an institution that is maintained, operated, managed, and governed pursuant to Ohio R.C. 5119.14(A) or Ohio R.C. 5123.03(A)(1);

B. A school safety zone if the licensee's carrying the concealed handgun is in violation of Ohio R.C. 2923.122;

C. A courthouse or another building or structure in which a courtroom is located if the licensee's carrying the concealed handgun is in violation of Ohio R.C. 2923.123;

- D. Any premises or open air arena for which a D permit has been issued under Ohio R.C. Chapter 4303 if the licensee's carrying the concealed handgun is in violation of Ohio R.C. 2923.121;
- E. Any premises owned or leased by any public or private college, university, or other institution of higher education, unless the handgun is in a locked motor vehicle or the licensee is in the immediate process of placing the handgun in a locked motor vehicle or unless the licensee is carrying the concealed handgun pursuant to a written policy, rule, or other authorization that is adopted by the institution's board of trustees or other governing body and that authorizes specific individuals or classes of individuals to carry a concealed handgun on the premises;
- F. Any church, synagogue, mosque, or other place of worship, unless the church, synagogue, mosque, or other place of worship posts or permits otherwise;
- G. Any building that is a government facility of this state or a political subdivision of this state and that is not a building that is used primarily as a shelter, restroom, parking facility for motor vehicles, or rest facility and is not a courthouse or other building or structure in which a courtroom is located that is subject to subsection (b)(2)C. of this section, unless the governing body with authority over the building has enacted a statute, ordinance, or policy that permits a licensee to carry a concealed handgun into the building;
- H. A place in which federal law prohibits the carrying of handguns.
- (3) A. Nothing in this subsection (b) shall negate or restrict a rule, policy, or practice of a private employer that is not a private college, university, or other institution of higher education concerning or prohibiting the presence of firearms on the private employer's premises or property, including motor vehicles owned by the private employer. Nothing in this subsection (b) shall require a private employer of that nature to adopt a rule, policy, or practice concerning or prohibiting the presence of firearms on the private employer's premises or property, including motor vehicles owned by the private employer.
- B. 1. A private employer shall be immune from liability in a civil action for any injury, death, or loss to person or property that allegedly was caused by or related to a licensee bringing a handgun onto the premises or property of the private employer, including motor vehicles owned by the private employer, unless the private employer acted with malicious purpose. A private employer is immune from liability in a civil action for any injury, death, or loss to person or property that allegedly was caused by or related to the private employer's decision to permit a licensee to bring, or prohibit a licensee from bringing, a handgun onto the premises or property of the private employer.
2. A political subdivision shall be immune from liability in a civil action, to the extent and in the manner provided in Ohio R.C. Chapter 2744, for any injury, death, or loss to person or property that allegedly was caused by or related to a licensee bringing a handgun onto any premises or property owned, leased, or otherwise under the control of the political subdivision. As used in this division, "political subdivision" has the same meaning as in Ohio R.C. 2744.01.
3. An institution of higher education shall be immune from liability in a civil action for any injury, death, or loss to person or property that allegedly was caused by or related to a licensee bringing a handgun onto the premises of the institution, including motor vehicles owned by the institution, unless the institution acted with malicious purpose. An institution of higher education is immune from liability in a civil action for any injury, death, or loss to person or property that allegedly was caused by or related to the institution's decision to permit a licensee or class of licensees to bring a handgun onto the premises of the institution.
- C. 1. a. Except as provided in subsection (b)(3)C.2. of this section and Ohio R.C. 2923.1214, the owner or person in control of private land or premises, and a private person or entity leasing land or premises owned by the state, the United States, or a political subdivision of the state or the United States, may post a sign in a conspicuous location on that land or on those premises prohibiting persons from carrying firearms or concealed firearms on or onto that land or those premises. Except as otherwise provided in this division, a person who knowingly violates a posted prohibition of that nature is guilty of criminal trespass in violation of Ohio R.C. 2911.21(A)(4) and is guilty of a misdemeanor of the fourth degree. If a person knowingly violates a posted prohibition of that nature and the posted land or premises primarily was a parking lot or other parking facility, the person is not guilty of criminal trespass under Ohio R.C. 2911.21 or under any other criminal law of this State or criminal law, ordinance, or resolution of a political subdivision of this State, and instead is subject only to a civil cause of action for trespass based on the violation.
- b. If a person knowingly violates a posted prohibition of the nature described in this division and the posted land or premises is a child day-care center, type A family day-care home, or type B family day-care home, unless the person is a licensee who resides in a type A family day-care home or type B family day-care home, the person is guilty of aggravated trespass in violation of Ohio R.C. 2911.211. Except as otherwise provided in this division, the offender is guilty of a misdemeanor of the first degree. If the person previously has been convicted of a violation of this division or any substantially equivalent state law or municipal ordinance, or of any offense of violence, if the weapon involved is a firearm that is either loaded or for which the offender has ammunition ready at hand, or if the weapon involved is dangerous ordnance, the offender is guilty of a felony to be prosecuted under appropriate state law.
2. A landlord may not prohibit or restrict a tenant who is a licensee and who on or after September 9, 2008 enters into a rental agreement with the landlord for the use of residential premises, and the tenant's guest while the tenant is present, from lawfully carrying or possessing a handgun on those residential premises.
3. As used in subsection (b)(3)C. of this section:
- a. "Residential premises" has the same meaning as in Ohio R.C. 5321.01, except "residential premises" does not include a dwelling unit that is owned or operated by a college or university.
- b. "Landlord", "tenant", and "rental agreement" have the same meanings as in Ohio R.C. 5321.01.
- (4) A person who holds a valid concealed handgun license issued by another state that is recognized by the Attorney General pursuant to a reciprocity agreement entered into pursuant to Ohio R.C. 109.69 or a person who holds a valid concealed handgun license under the circumstances described in Ohio R.C. 109.69(B) has the same right to carry a concealed handgun in this state as a person who was issued a concealed handgun license under Ohio R.C. 2923.125 and is subject to the same restrictions that apply to a person who has been issued a license under that section that is valid at the time in question.
- (5) A. A peace officer has the same right to carry a concealed handgun in this State as a person who was issued a concealed handgun license under Ohio R.C. 2923.125, provided that the officer when carrying a concealed handgun under authority of this section is carrying validating identification. For purposes of reciprocity with other States, a peace officer shall be considered to be a licensee in this State.
- B. An active duty member of the armed forces of the United States who is carrying a valid military identification card and documentation of successful completion of firearms training that meets or exceeds the training requirements described in Ohio R.C. 2923.125(G)(1) has the same right to carry a concealed handgun in this state as a person who was issued a concealed handgun license under Ohio R.C. 2923.125 and is subject to the same restrictions as specified in this subsection (b).
- C. A tactical medical professional who is qualified to carry firearms while on duty under Ohio R.C. 109.771 has the same right to carry a concealed handgun in this state as a person who was issued a concealed handgun license under Ohio R.C. 2923.125.
- (6) A. A qualified retired peace officer who possesses a retired peace officer identification card issued pursuant to subsection (b)(6)B. of this section and a valid firearms requalification certification issued pursuant to subsection (b)(6)C. of this section has the same right to carry a concealed handgun in this state as a person who was issued a concealed handgun license under Ohio R.C. 2923.125 and is subject to the same restrictions that apply to a person who has been issued a license issued under that section that is valid at the time in question. For purposes of reciprocity with other states, a qualified retired peace officer who possesses a retired peace officer identification card issued pursuant to subsection (b)(6)B. of this section and a valid firearms requalification certification issued pursuant to subsection (b)(6)C. of this section shall be considered to be a licensee in this state.
- B. 1. Each public agency of this State or of a political subdivision of this State that is served by one or more peace officers shall issue a retired peace officer identification card to any person who retired from service as a peace officer with that agency, if the issuance is in accordance with the agency's policies and procedures and if the person, with respect to the person's service with that agency, satisfies all of the following:
- a. The person retired in good standing from service as a peace officer with the public agency, and the retirement was not for reasons of mental instability.
- b. Before retiring from service as a peace officer with that agency, the person was authorized to engage in or supervise the prevention, detection, investigation, or prosecution of, or the incarceration of any person for, any violation of law and the person had statutory powers of arrest.
- c. At the time of the person's retirement as a peace officer with that agency, the person was trained and qualified to carry firearms in the performance of the peace officer's duties.
- d. Before retiring from service as a peace officer with that agency, the person was regularly employed as a peace officer for an aggregate of 15 years or more, or, in the alternative, the person retired from service as a peace officer with that agency, after completing any applicable probationary period of that service, due to a service-connected disability, as determined by the agency.
2. A retired peace officer identification card issued to a person under subsection (b)(6)B.1. of this section shall identify the person by name, contain a photograph of the person, identify the public agency of this state or of the political subdivision of this State from which the person retired as a peace officer and that is issuing the identification card, and specify that the person retired in good standing from service as a peace officer with the issuing public agency and satisfies the criteria set forth in subsections (b)(6)B.1.a. to (b)(6)B.1.d. of this section. In addition to the required content specified in this subsection, a retired peace officer identification card issued to a person under subsection (b)(6)B.1. of this section may include the firearms requalification certification described in subsection (b)(6)C. of this section, and if the identification card includes that certification, the identification card shall serve as the firearms requalification certification for the retired peace officer. If the issuing public agency issues credentials to active law enforcement officers who serve the agency, the agency may comply with subsection (b)(6)B.1. of this section by issuing the same credentials to persons who retired from service as a peace officer with the agency and who satisfy the criteria set forth in subsection (b)(6)B.1.a. to (b)(6)B.1.d. of this section, provided that the credentials so issued to retired peace officers are stamped with the word "RETIRED".
3. A public agency of this state or of a political subdivision of this State may charge persons who retired from service as a peace officer with the agency a reasonable fee for issuing to the person a retired peace officer identification card pursuant to subsection (b)(6)B.1. of this section.
- C. 1. If a person retired from service as a peace officer with a public agency of this state or of a political subdivision of this state and the person satisfies the criteria set forth in subsections (b)(6)B.1.a. to (b)(6)B.1.d. of this section, the public agency may provide the retired peace officer with the opportunity to attend a firearms requalification program that is approved for purposes of firearms requalification required under Ohio R.C. 109.801. The retired peace officer may be required to pay the cost of the course.
2. If a retired peace officer who satisfies the criteria set forth in subsections (b)(6)B.1.a. to (b)(6)B.1.d. of this section attends a firearms requalification program that is approved for purposes of firearms requalification required under Ohio R.C. 109.801, the retired peace officer's successful completion of the firearms requalification program requalifies the retired peace officer for purposes of subsection (b)(6) of this section for five years from the date on which the program was successfully completed, and the requalification is valid during that five-year period. If a retired peace officer who satisfies the criteria set forth in subsections (b)(6)B.1.a. to (b)(6)B.1.d. of this section satisfactorily completes such a firearms requalification program, the retired peace officer shall be issued a firearms requalification certification that identifies the retired peace officer by name, identifies the entity that taught the program, specifies that the retired peace officer successfully completed the program, specifies the date on which the course was successfully completed, and specifies that the requalification is valid for five years from that date of successful completion. The firearms requalification certification for a retired peace officer may be included in the retired peace officer identification card issued to the retired peace officer under subsection (b)(6)B. of this section.
3. A retired peace officer who attends a firearms requalification program that is approved for purposes of firearms requalification required under Ohio R.C. 109.801 may be required to pay the cost of the program.
- (7) As used in subsection (b)(6) of this section:
- A. "Governing body." Has the same meaning as in Ohio R.C. 154.01.
- B. "Government facility of this State or a political subdivision of this State" means any of the following:
1. A building or part of a building that is owned or leased by the government of this State or a political subdivision of this State and where employees of the government of this State or the political subdivision regularly are present for the purpose of performing their official duties as employees of the State or political subdivision;
2. The office of a deputy registrar serving pursuant to Ohio R.C. Chapter 4503 that is used to perform deputy registrar functions.
- C. "Qualified retired peace officer" means a person who satisfies all of the following:
1. The person satisfies the criteria set forth in subsections (b)(6)B.1.a. to (b)(6)B.1.d. of this section.
2. The person is not under the influence of alcohol or another intoxicating or hallucinatory drug or substance.
3. The person is not prohibited by Federal law from receiving firearms.
- D. "Retired peace officer identification card" means an identification card that is issued pursuant to subsection (b)(6)B. of this section to a person who is a retired peace officer.
- E. "Tactical medical professional." Has the same meaning as in Ohio R.C. 109.71.
- F. "Validating identification." Means photographic identification issued by the agency for which an individual serves as a peace officer that identifies the individual as a peace officer of the agency.
- (ORC 2923.126)
- (c) **Posting of Signs Prohibiting Possession.** Each person, board, or entity that owns or controls any place or premises identified in Ohio R.C. 2923.126(B) as a place into which a valid license does not authorize the licensee to carry a concealed handgun, or a designee of such a person, board, or entity, shall post in the following one or more conspicuous locations in the premises a sign that contains a statement in substantially the following form: "Unless otherwise authorized by law, pursuant to the Ohio Revised Code, no person shall knowingly possess, have under the person's control, convey, or attempt to convey a deadly weapon or dangerous ordnance onto these premises.
- (ORC 2923.1212)

553.01 DEFINITIONS.

Acoustical terminology used throughout these regulations is that most recently approved as American Standard Acoustical Terminology by the American National Standards Institute; except as may be specified otherwise herein.

- (a) "Person" means any individual, partnership, association, firm, syndicate company, trust, corporation, department, bureau or agency or any other entity recognized by law as the subject of rights and duties.
- (b) "Noise pollution" means the presence of that amount of acoustic energy for that period of time necessary:
- (1) To cause temporary or permanent hearing loss in persons exposed;
 - (2) To be otherwise injurious, or tend to be, on the basis of current information, injurious to the public health or welfare;
 - (3) To cause a nuisance;
 - (4) To interfere with domestic tranquility, that is, the comfortable enjoyment of life and property or the conduct of business; or
 - (5) To exceed standards or restrictions established herein or pursuant to the granting of any permit by Council.
- (c) "Noise level" or "sound-pressure level", in decibels, means 10 times the common logarithm of the ratio of the time-mean-square pressure of the sound to the reference mean-square sound pressure. The reference mean-square sound pressure shall be 4×10^{-8} microbars squared. (20 micropascal squared)
- (d) "dBA" mean the A-weighted sound-pressure level in decibels, as measured by a sound-level meter complying with the provisions of the American Standard for General Purpose Sound Level Meters, American National Standards Institute, properly calibrated, and operated on the "A" weighting network.
- (e) "Noise source" means any person or animal, or mechanical, electrical or thermal device which radiates acoustic energy.
- (f) "Mobile noise source" means any source, other than an individual, of acoustic energy in motion relative to a fixed position.
- (g) "Stationary noise source" means any source, other than an individual, of acoustic energy in a fixed position.

(Ord. 31-76. Passed 4-27-76.)

553.02 GENERAL PROHIBITION OF NOISE EMISSIONS.

No person or persons owning, leasing or controlling the operation of any source or sources of noise, including an animal or animals, shall willfully, negligently or through failure to take necessary precautions, permit the establishment or continuation of a condition of noise pollution.

(Ord. 31-76. Passed 4-27-76.)

553.03 NOISE FROM PERSONS OR STATIONARY NOISE SOURCES IN RESIDENTIAL ZONING DISTRICTS OR AFFECTING RESIDENTIAL OR INSTITUTIONAL PROPERTY.

- (a) No persons shall create or cause to be emitted from his person, or from any stationary noise source, any noise which causes or results in a noise level equal to, or exceeding, 55 dBA measured at any lot line of any lot located in any residential zoning district or in residential or institutional use elsewhere.
- (b) Notwithstanding the prohibition in subsection (a), no person shall cause unreasonable noise to be made which is audible in any residential zoning district or in residential or institutional use elsewhere. For purposes of this section, "unreasonable noise" shall be defined as follows, but such enumerations shall not be deemed to be exclusive:

- (1) Horns, signaling devices, etc. The sounding of any horn or signaling device on any motor vehicle, motorcycle or other vehicle except as a danger warning; the creation by means of any such sounding of any such device for an unnecessary and unreasonable period of time.
 - (2) Radios, phonographs, etc. The use or operation of any radio receiving set, musical instrument, phonograph or other machine or device for the producing or reproducing of sound in such manner as to disturb the peace, quiet and comfort of a neighboring inhabitants, or at any time with louder volume than is necessary for convenient hearing for the person or persons who are in the room, vehicle or chamber in which such machine or device is operated and who are voluntary listeners thereto. Such operation between the hours of 9:00 p.m. and 7:30 a.m. in such manner as to be audible at a distance of fifty feet from the building, structure or vehicle in which it is located shall be prima facie evidence of violation of this section.
 - (3) Loudspeakers, amplifiers for advertising. The use of any radio receiving set, musical instrument, phonograph, loudspeaker, sound amplifier or other machine or device for the producing or reproducing of sound which is cast upon the public streets for the purpose of commercial advertising or attracting the attention of the public.
- (Ord. 135-97. Passed 12-9-97.)
- (4) Exhausts. The discharge into the open air of any steam engine, stationary internal combustion engine, motorboat, motor vehicle, motorcycle, motorized bicycle, all-terrain vehicle, or other such similar motorized device except through a muffler or other device which will effectively prevent loud or explosive noises therefrom.
- (Ord. 44-2003. Passed 8-12-03.)
- (5) Shouting. The shouting and crying of peddlers, hawkers, vendors and others which disturb the peace and quiet of the neighborhood.
 - (6) Heavy equipment. The use of heavy earth-moving and construction equipment in close proximity to residential dwellings during the hours of 7:00 p.m. to 7:30 a.m. The above regulations shall apply except in periods of emergency, as determined by the Director of Public Safety and upon permit issued by the Director of Public Safety.
 - (7) Lawn mowers, power-driven lawn and garden equipment and other tools. The operation of a lawn mower, power-driven lawn and garden equipment and power-driven tools and excessive hammering or pounding within 300 feet of any dwelling unit before 7:30 a.m. or after 9:00 p.m.

(Ord. 135-97. Passed 12-9-97.)

553.04 NOISE FROM PERSONS OR STATIONARY NOISE SOURCES IN COMMERCIAL AND INDUSTRIAL ZONING DISTRICTS.

No person shall create or cause to be emitted from his person, or from any stationary noise source, any noise which causes or results in a noise level equal to, or exceeding 60 dBA measured at any lot line of any lot located in any Commercial or Industrial Zoning District other than a lot in residential or institutional use.

(Ord. 31-76. Passed 4-27-76.)

553.05 NOISE FROM MOBILE NOISE SOURCES.

No person shall create or cause to be emitted from any mobile noise source, other than his person, any noise which causes or results in a maximum noise level equal to, or exceeding 85 dBA at a distance equal to, or greater than, 50 feet from the closest point of the source, except for trucks exceeding 10,000 pounds gross vehicle weight, for which the maximum allowable noise level shall be 90 dBA at a distance equal to, or greater than, 50 feet from the closest point of the source.

For other measurement distances the following table shall apply:

Measurement Distance in feet	50	40	30	20
Maximum Permissible Noise Level in dBA	85	87	90	93
For trucks exceeding 10,000 pounds gross vehicle weight, permissible noise levels in the preceding table shall be increased by 5 dBA.				

(Ord. 31-76. Passed 4-27-76.)

553.06 MUFFLERS.

No person shall modify or change the exhaust muffler, intake muffler or any other noise abatement device of a motor vehicle in a manner such that the noise, measured in dBA emitted by the motor vehicle is increased above that emitted by the vehicle as originally manufactured. No person shall operate a motor vehicle with an inoperative or defective muffler.

(Ord. 31-76. Passed 4-27-76.)

553.07 NOISE IN PLACES USED FOR ENTERTAINMENT.

No person or persons owning, leasing or controlling the operation of any place used for entertainment shall willfully, negligently or through failure to take necessary precautions, permit the imposition or continuation of a sound pressure (noise) level exceeding 85 dBA on any member of the audience by such person or by any person engaged or employed by such person.

(Ord. 31-76. Passed 4-27-76.)

553.08 NOISE ARTIFICIALLY AMPLIFIED.

Noise artificially amplified must be confined to the premises of origin and may be so amplified only within buildings.

(Ord. 31-76. Passed 4-27-76.)

553.09 FEDERAL NOISE EMISSION STANDARDS.

In those instances where Federal Noise Emission Standards are established for any noise source, then those Noise Emission Standards shall also be applicable to the same or similar noise sources existing under conditions, such as noninterstate commerce, where the Federal Standards would not otherwise apply. Federal Noise Emission Standards shall supersede in all conflicts with this chapter when the Federal Standards are less stringent.

(Ord. 31-76. Passed 4-27-76.)

553.10 CONFLICT WITH OTHER REGULATIONS.

These noise control regulations shall not relieve any person from complying with other laws, statutes, codes, regulations or ordinances of the City.

(Ord. 31-76. Passed 4-27-76.)

553.11 VARIANCES.

Council may grant variances after public hearing or may reject applications on review without a hearing. Variances thus granted may be effective for no longer than one year.

(Ord. 31-76. Passed 4-27-76.)

553.99 PENALTY.

Whoever violates any provision of this chapter is guilty of a minor misdemeanor, provided the offender has not previously been convicted of a violation of this chapter. If the offender has previously been convicted of any violation of this chapter, then such subsequent violation shall be a misdemeanor of the second degree. (See Section 501.99 for penalties applicable to any misdemeanor classification.)

703.01 EXHIBITION DEFINED.

As used in this chapter, "exhibition" means and includes circuses, menageries, sideshows, animal shows, amusement shows, arts and crafts displays, antique shows and displays, and other similar amusement enterprises or enterprises directed toward the sale of such materials, including arts and crafts materials and antiques, which are open to the public, whether or not an admission fee is charged.

(Ord. 12-77. Passed 7-5-77.)

703.02 LICENSE REQUIRED.

No person shall conduct or operate any exhibition that is open to the public without first having obtained a license therefor in the manner set forth in this chapter.

(Ord. 12-77. Passed 7-5-77.)

703.03 LICENSE APPLICATIONS; BOND.

(a) Applications for the license required in Section 703.02 shall be made in writing to the Mayor. If the erection of tents, temporary buildings or structures is contemplated in conjunction with the operation of such amusement or exhibition, specifications, plat plans and such other data as may be required shall accompany such application in duplicate, and the same shall be approved by the Commissioner of Building and the Fire Chief before a license shall be issued. The application for a license shall contain the following:

- (1) The name of the person, firm or corporation or organization sponsoring or operating such amusement or exhibition.
 - (2) The permanent residence address of the applicant, the name and permanent address of the business and such additional information as may be needed for the proper guidance of City officials in the issuance of the license applied for, including a federal employer identification, state employer identification or social security number.
 - (3) The location to be used.
 - (4) The length of time for which such license is to be issued, including dates of use, which shall not exceed four days.
 - (5) The hours desired to be open, but limited to 11:00 p.m. on weekdays and Saturday and limited to 10:00 p.m. on Sunday for all activities, except those conducted within a permanent structure and enclosure, which activities may be conducted up to, but not later than 12:00 midnight.
 - (6) No public address system shall be used beyond 9:00 p.m. on any day except for use in connection with a main drawing, if any, in which such public address system may be used for no more than thirty minutes between the hours of 9:00 p.m. and 10:00 p.m. and in no event later than 10:00 p.m.
 - (7) A list of the concessions, games and mechanical and amusement devices.
 - (8) Provisions made for sanitary facilities shall be in compliance with the Building Code.
 - (9) Evidence of full compliance with Ohio State Workers' Compensation Law.
 - (10) Such other pertinent information as might enable the Mayor, or a person authorized by him, to determine that the assemblage for such amusement or exhibition is not against the public morals, convenience, safety, health or welfare of the community.
- (b) The application shall be accompanied by a bond of one thousand dollars (\$1,000) guaranteeing that no assembly or disassembly of booths, rides, stands or equipment will occur between the hours of 10:00 p.m. and 7:00 a.m. the following morning and further conditioned upon compliance by applicant with the terms and conditions contained in the application.
- (c) The bond shall be secured by cash or a surety company authorized to do business in the state and shall be subject to approval by the Director of Law. Such bond shall provide the forfeiture of the entire one thousand dollars (\$1,000) in the event of violation, or noncompliance.

(Ord. 72-88. Passed 9-21-88.)

703.04 LICENSE FEE.

The applicant shall pay a fee of one hundred dollars (\$100.00) for the license required in Section 703.02 at the time the application is filed. If the permit is not issued or if the application is withdrawn, the fee shall be refunded.

(Ord. 72-88. Passed 9-21-88.)

703.05 INSURANCE.

The license required in Section 703.02 shall not be issued for conducting an amusement or exhibition until the applicant therefor has placed on file with the Finance Director a certificate of insurance indicating that there is in effect public liability insurance covering any damages that may result from the use and operation of any and all devices and facilities in connection with such exhibition. Such insurance shall include the City as named insured and shall be in the minimum amount of one million dollars (\$1,000,000) for each person and five million dollars (\$5,000,000) for each accident. Such requirement shall not apply to exhibitions of inanimate objects for sale.

(Ord. 72-88. Passed 9-21-88.)

703.06 EXEMPTION.

The license required in Section 703.02 shall be required but no fee shall be charged for any amusement or exhibition sponsored by or given for the benefit of any organization referred to in Section 183.03 of these Codified Ordinances, provided that there is full compliance with the provisions of Chapter 183 of these Codified Ordinances.

(Ord. 12-77. Passed 7-5-77.)

703.07 NONISSUANCE TO PAST OFFENDERS AUTHORIZED.

It shall be cause for the refusal to issue the license required in Section 703.02 to any applicant when it appears that the location at which the amusement or exhibition is to be held has been the subject of three prior separate individual violations occurring upon such premises, whether brought about by the property owner or persons using the premises.

(Ord. 12-77. Passed 7-5-77.)

703.08 COMPLIANCE WITH OPERATING REGULATIONS REQUIRED.

In addition to the other requirements set forth in this chapter, the applicant shall furnish suitable evidence of his intention and ability to comply with the following conditions:

- (a) The operator and sponsor of the exhibition shall each be wholly responsible for maintaining order and for keeping the site clean and free of trash, papers and other debris. Trash containers, adequate in number, shall be placed in convenient locations for the use of the public.
- (b) No ride shall be placed in operation for public use until adequate safeguards have been placed to protect both operators and the general public from inadvertently coming into contact with moving parts, belts, motor gears, electrical switches and other possible or potential hazards.
- (c) Any vehicles, trailers or vans used for the housing of animals, materials, wares, merchandise or other belongings of the exhibitor shall be parked in such a location as to prohibit the conspicuous placement of such vehicle, van or trailer overnight and, when not in use for the particular exhibition, and in compliance with other provisions of these Codified Ordinances.
- (d) The license required in Section 703.02 to be issued for each exhibitor shall be prominently displayed on the outside of each vehicle, van, booth or trailer after such license has been issued by the City.

(Ord. 12-77. Passed 7-5-77.)

703.09 LICENSE REVOCATION.

The license required in Section 703.02 may be revoked by the Mayor at any time during the life of such license for any violation by the licensee of any of the provisions of these Codified Ordinances relating to such license, the subject matter of the license or any false information given upon the application for the license. Such revocation of the license may be in addition to any fine imposed for such violation and Section 741.19 of

these Codified Ordinances shall specifically apply in this instance.

(Ord. 12-77. Passed 7-5-77.)

703.10 RESPONSIBILITY OF PROPERTY OWNER.

In the event that any property owner within the City permits a violation to continue after notification of such violation, such property owner shall be deemed to have committed the violation which he permits to continue.

(Ord. 12-77. Passed 7-5-77.)

703.11 PERMIT ISSUANCE.

Applications for the license required in Section 703.02 shall be filed at least two weeks prior to the date of use, and the Mayor or his appointee shall cause the license to be issued immediately upon satisfying himself that all the conditions herein required have been complied with.

(Ord. 72-88 Passed 9-21-88.)

703.12 ADDITIONAL PROTECTION CHARGE.

When, in the opinion of the Mayor, the amusement or exhibition will attract sufficient pedestrian and vehicular traffic as to necessitate the employment of additional police and firemen, then the applicant shall deposit a sum, in addition to the fee herein charged which is estimated to be sufficient to pay for such additional expense. If the deposit is greater than the sum necessary to pay such expense, then the remainder shall be refunded. If the amount deposited is insufficient to pay the additional expense, then the applicant shall reimburse the City in an amount equal to the overage.

(Ord. 72-88. Passed 9-21-88.)

703.13 INSPECTION.

The Chief of the Department of Fire or other member thereof authorized by him shall make such inspections of the premises as he may deem necessary and shall make such orders with respect to removal of combustible materials or structures as are required for the protection of the persons attending such assemblage.

(Ord. 72-88. Passed 9-21-88.)

703.14 LOCATION OF MECHANICAL AMUSEMENT DEVICE RESTRICTED.

No amusement or exhibition shall be permitted to install or operate any mechanical amusement device within 1,000 feet of any residential building.

(Ord. 72-88. Passed 9-21-88.)

703.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree. A separate offense shall be deemed committed each day during or on which a violation occurs or continues.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 705

Detergents

705.01 Definitions.

705.02 Labeling.

705.03 Limitations.

705.99 Penalty.

CROSS REFERENCES

Water pollution - see Ohio R. C. 715.08, 743.24 et seq.

Labeling of hazardous substances - see Ohio R. C. Ch. 3716

Prohibited discharges into sewers - see S. & P. S. 931.03

705.01 DEFINITIONS.

As used in this chapter:

- (a) "Synthetic detergent" or "detergent" means any cleaning compound which is available for household use, laundry use, other personal uses or industrial use, which is composed of organic and inorganic compounds, including soaps, water softeners, surface active agents, dispersing agents, foaming agents, buffering agents, builders, fillers, dyes, enzymes and fabric softeners, whether in the form of crystals, powders, flakes, bars, liquids, sprays or any other form.
- (b) "Polyphosphate builder" or "phosphorous" means a water softening and soil suspending agent made from condensed phosphates, including pyrophosphates, triphosphates, tripolyphosphates, metaphosphates and glassy phosphates, used as a detergent ingredient, but shall not include "polyphosphate builders" or "phosphorous" which is essential for medical, scientific or special engineering use under such conditions and regulations as may be prescribed, after hearing, by the Commissioner of Environmental Control.
- (c) "Recommended use level" means the amount of synthetic detergent or detergent which the manufacturer thereof recommends for use per wash load, at which level the synthetic detergent or detergent will effectively perform its intended function.
- (d) "Machine dishwasher" means equipment manufactured for the purpose of cleaning dishes, glassware and other utensils involved in food preparation, consumption or use, using a combination of water agitation and high temperature.
- (e) "Dairy equipment", "beverage equipment" and "food processing equipment" means that equipment used in the production of milk and dairy products, foods and beverages, including the processing, preparation or packaging thereof for consumption.
- (f) "Industrial cleaning equipment" means machinery and other tools used in cleaning processes during the course of industrial manufacturing, production and assembly.

(Ord. 82-71. Passed 1-25-72.)

705.02 LABELING.

No person, firm or corporation shall sell, offer or expose for sale, give or furnish any synthetic detergent or detergent, whether in the form of crystals, powders, flakes, bars, liquids, sprays or any other form, in the City as of February 1, 1972, unless the container, wrapper or other packaging thereof is clearly labeled with respect to its polyphosphate builder or phosphorus ingredient content clearly and legibly set forth thereon in terms of percentage of phosphorus by weight, expressed as elemental phosphorus per container, wrapper or other packaging thereof, as well as grams of phosphorus, expressed as elemental phosphorus, per recommended use level.

(Ord. 82-71. Passed 1-25-72.)

705.03 LIMITATIONS.

(a) No person, firm or corporation shall sell, offer or expose for sale, give or furnish any synthetic detergent or detergent containing more than eight and seven-tenths percent of phosphorus by weight, expressed as elemental phosphorus, within the City as of February 1, 1972. It shall also be unlawful for any person, firm or corporation to sell, offer or expose for sale, give or furnish any synthetic detergent or detergent which requires a recommended use level of such synthetic detergent or detergent which contains more than seven grams of phosphorus by weight expressed as elemental phosphorus, within the City as of February 1, 1972. Notwithstanding the foregoing provisions of this section, synthetic detergents or detergents manufactured for use in machine dishwashers, dairy equipment, beverage equipment, food processing equipment and industrial cleaning equipment shall not be subject to the limitations set forth herein.

(b) The concentration of phosphorus by weight, expressed as elemental phosphorus in any synthetic detergent or detergent shall be determined by the current applicable method prescribed by the American Society for Testing and Materials (A.S.T.M.)

(Ord. 82-71. Passed 1-25-72.)

705.99 PENALTY.

Whoever violates, disobeys, omits, neglects or refuses to comply with, or resists or opposes the enforcement of, any of the provisions of this chapter, except when otherwise specifically provided, is guilty of a misdemeanor of the first degree. A separate offense shall be deemed committed each day during or on which such person continues or permits any such violation, or fails to comply with the notification of such violation.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 709

Fortunetelling

709.01 License required.

713.01 DEFINITIONS.

As used in this chapter:

- (a) "Person" means individuals, associations of individuals, partnerships or corporations, who or which conduct sales for a commission or other remuneration.
- (b) "Public sale" means any sale and delivery or offer of sale and delivery of any household furniture, furnishings, equipment, goods, wares or merchandise from, in, about or upon any premises, property or residence zoned for residential use within the City to which the general public is invited pursuant to any advertisement or notice by newspaper, mail or individual flyer or otherwise.
- (c) "Garage sale" means a sale of household goods, equipment, utensils, appliances, personal clothing or effects or other similar personal property, including such sales commonly termed "basement sales" or "house sales."

(Ord. 122-78. Passed 11-28-78.)

713.02 LICENSE REQUIRED.

No person shall conduct, hold or permit a public sale or garage sale within a residential district of the City without first having obtained a license therefor from the City pursuant to the provisions of this chapter.

(Ord. 122-78. Passed 11-28-78.)

713.03 LICENSE APPLICATIONS AND ISSUANCE.

The license required in Section 713.02 shall be issued by the Mayor or a person acting and authorized to act on his behalf upon the payment of the license fee and the submission of an application containing the following information:

- (a) The name and permanent address of the applicant;
- (b) A description of the property to be sold and an estimate of its sale value;
- (c) The name and address of all persons who will be associated or engaged in such public sale; and
- (d) The name and address of the party for whom the sale is being held.

(Ord. 122-78. Passed 11-28-78.)

713.04 LICENSE FEE; EFFECTIVE PERIOD; LIMITATION ON NUMBER OF SALES.

- (a) The fee for the license required in Section 713.02 shall be three dollars (\$3.00) for each sale, payable in advance.
- (b) Licenses shall be valid only for the period of the sale indicated thereon, not to exceed three consecutive days.
- (c) No more than two sales per year shall be permitted at the same location.

(Ord. 122-78. Passed 11-28-78.)

713.05 TRAFFIC SUPERVISION DURING SALE REQUIRED.

The applicant for the license required in Section 713.02 shall furnish to the Mayor evidence that an arrangement has been made for adequate traffic supervision to prevent traffic congestion at the time and place of the sale.

(Ord. 122-78. Passed 11-28-78.)

713.06 DISPLAY OF LICENSE UPON DEMAND.

Every person licensed under this chapter shall have his license in his possession at all times when conducting a public sale within a residential district of the City and shall display the same upon demand of any police officer of the City or upon demand of any person who attends such public sale.

(Ord. 122-78. Passed 11-28-78.)

713.07 ADVERTISING UPON THE PREMISES.

No person shall place more than one sign advertising such sale, such sign not to exceed two feet by two feet on the property where the sale is conducted. No person shall place any other such sign off the premises for such sale.

(Ord. 122-78. Passed 11-28-78.)

713.08 SALE HOURS; MERCHANDISE RESTRICTION.

No person shall conduct a public sale or garage sale, before 9:00 a.m. of any day or after 9:00 p.m. of any day, or sell any household furniture, furnishings, equipment or goods that were brought into the residence or onto the property for the sole purpose of selling the same at such sale.

(Ord. 122-78. Passed 11-28-78.)

713.09 LICENSE REVOCATION; DENIAL FOR PREVIOUS CONVICTION.

A license issued pursuant to this chapter may be revoked by the Mayor, after notice and hearing, for any of the following reasons:

- (a) Fraud, misrepresentation or any false statement made to the Police Division in furnishing the information required by Section 713.05;
- (b) Fraud, misrepresentation or any false statement contained in the application for a license;
- (c) A conviction of the licensee for violation of any provisions of this chapter;
- (d) Conviction of the licensee of any felony or crime involving moral turpitude; or
- (e) Conducting a public sale in any unlawful manner or in such manner as to constitute a breach of the peace.

No person who is convicted of a violation of any of the provisions of this chapter shall be granted a license for a garage sale for a period of five years next following the date of such conviction.

(Ord. 122-78. Passed 11-28-78.)

713.10 EXEMPTION.

The fee required in Section 713.04 shall not apply to any public sale conducted solely for or on behalf of any charitable, educational or religious institution when the person conducting such sale receives no compensation therefor.

(Ord. 122-78. Passed 11-28-78.)

713.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree. A separate offense shall be deemed committed each day during or on which a violation occurs or continues.

(Ord. 76-2003. Passed 9-23-03.)

723.01 PURPOSE AND APPLICABILITY.

(a) It is the purpose of this chapter to establish standards for the licensing and regulation of computerized sweepstakes devices, and the sweepstakes/internet cafes within which they are located and operated. This chapter is designed to prevent safety and fire hazards, prevent disturbances, preserve the peaceful enjoyment of neighboring establishments and residences, and prevent gambling and other criminal behavior in and about sweepstakes/internet cafes within the City.

(b) This chapter shall apply immediately to all sweepstakes/internet cafes, as defined in this chapter, that commence operation after the effective date of this chapter. All sweepstakes/internet cafes in existence at the time of enactment of this chapter shall come into compliance with all sections of this chapter no later than thirty (30) days after its effective date.

(Ord. 35-2011. Passed 8-9-11.)

723.02 DEFINITIONS.

For the purpose of this chapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning:

- (a) "Computerized sweepstakes device" means any computer, machine, game or apparatus which, upon the insertion of a coin, token, access number, magnetic card, or similar object, or upon the payment of anything of value, may be operated by the public generally for use as a contest of skill, entertainment or amusement, whether or not registering a score, and which provides the user with a chance to win anything of value that is not de minimus, on a per play basis, or any cash payout or anything that could be redeemed, directly or indirectly, for any cash payout, and which is not gambling under state or local laws. Machines designated for use by the State Lottery Commission are not computerized sweepstakes devices for purposes of this chapter. "De minimus", as used in this section, shall mean less than ten dollars (\$10.00).
- (b) "Sweepstakes/internet cafe" means any premises upon which any computerized sweepstakes device is located for the use or entertainment of the public, whether or not such premises has other business purposes of any nature whatsoever.

(c) "Operator" means any person or entity that owns, controls, or operates a sweepstakes/internet café.
(Ord. 35-2011. Passed 8-9-11.)

723.03 LICENSE APPLICATION AND REQUIREMENTS.

- (a) No operator shall operate or conduct a sweepstakes/internet café without first obtaining a license from the Director of Public Safety or his designee. Every operator shall make an application in writing to the Director of Public Safety or his designee, which application shall set forth the following:
- (1) The legal name under which the business is to be conducted;
 - (2) The location where the business is to be conducted, with a description of the premises, including a scaled diagram;
 - (3) The name, address, and date of birth of all managers, supervisors, and other employees;
 - (4) The name, address, and date of birth (if applicable) of the owner(s) of the computerized sweepstakes devices; and
 - (5) The name, address, date of birth, and principal occupation of every person with an interest in the sweepstakes/internet café. The following persons are deemed to have an interest in the sweepstakes/internet café:
 - A. In a sole proprietorship, each individual owner(s).
 - B. In firm or partnership, each member of the firm or partnership.
 - C. In a corporation, each director, officer and shareholder owning more than twenty-five percent (25%) of the outstanding shares.
 - (6) The name, description, model number and serial number of each computerized sweepstakes device on the premises and any other device on the premises that is necessary to the operation of the computerized sweepstakes device.
 - (7) A list of each separate thing of value that may be given out, with an estimated cash value, and each separate cash amount that may be given out, and the odds of winning the same for the participation in any game, activity, program, scheme or play, use or participation in any way in a computerized sweepstakes device or participating in any other activity or promotion in the sweepstakes/internet café, whether or not the determination of the giving of the thing of value or the delivery of the thing of value occurs totally within the confines of the sweepstakes/internet café premises or requires some event, occurrence or happening at another location.
 - (8) The name and address of any and all persons, businesses or organizations that provide games, computer software, equipment, or services or operate devices linked to the computerized sweepstakes devices or to devices necessary to operate the devices, whether any such devices are sold, leased or licensed.
 - (9) The tax account number of the business from the Regional Income Tax Agency (RITA).
- (b) No person, organization or entity shall make a false or incorrect statement in an application for a license. The operator shall have a continuing duty to inform the Director of Public Safety or his designee as to changes in the information required in this section. No operator shall operate or conduct a sweepstakes/internet café at any time unless the information on file with the Director of Public Safety or his designee is current and accurate.
- (c) If an application is not approved, the City shall notify the applicant in writing with reason(s) for rejection.
- (d) The Director of Public Safety or his designee shall not issue a license to any person, organization or entity if any of the persons with an interest in the business or if any of the employees of the business have been convicted of a violation of a federal, state, or local law pertaining to gambling or other crimes of moral turpitude within five years preceding the application. All owners, employees and persons having an interest in the sweepstakes/internet café, as set forth in Section 723.03(a)(5), shall consent to a criminal history check commissioned by the City as part of the application for a license.
- (e) As a prerequisite to the issuance of such license, an inspection shall be made of the premises by the City and the premises must be in compliance with all applicable fire regulations. The sweepstakes/internet café shall be open to inspection and viewing of operations by law enforcement officers, Division of Building, Housing and Zoning personnel, and by Division of Fire personnel at all times of operation. No operator shall fail to immediately permit entry to any such City officials.
- (f) Failure of any operator to pay a license fee or a device fee for a computerized sweepstakes device, as set forth in Section 723.05, shall be grounds for suspension or revocation of the license for the establishment. Any computerized sweepstakes devices being operated without a valid license for the premises may be seized and forfeited to the City.
(Ord. 35-2011. Passed 8-9-11.)

723.04 LOCATION.

- (a) No license shall be granted to a sweepstakes/internet café located within five hundred (500) feet from the boundaries of a parcel of real estate having situated on it a school, public library, public playground, church, or religious institution.
- (b) This section shall not apply to any sweepstakes/internet café locations in existence at the effective date of this chapter, and shall not apply to any duly licensed sweepstakes/internet café locations in existence at the time a school, public library or public playground moves within five hundred (500) feet of said sweepstakes/internet café. Any change in location will remove said sweepstakes/internet café from this exception. "Change in ownership" in the case of a partnership or corporation for the purpose of this section means more than fifty percent change in partners or shareholders from the partners or shareholders owning the partnership or corporation as of the date the school, public library, church, religious institution or public playground moves within five hundred (500) feet of said sweepstakes/internet café.
- (c) The sweepstakes/internet café must comply with all zoning and other regulations of the City of Richmond Heights Codified Ordinances.
(Ord. 35-2011. Passed 8-9-11.)

723.05 LICENSE FEE; TRANSFER AND DISPLAY.

- (a) The annual license fee, payable to the City at the time of application and annually thereafter, shall be five thousand dollars (\$5,000.00) for each sweepstakes/internet location per year, commencing on January 1 of each year and ending on December 31 of each year. The annual license fee shall be paid before January 1 of each year. In the event an applicant applies for an initial license under this chapter where the license goes into effect after January 1 of a given year, the Five Thousand Dollar application fee shall be prorated on a per diem basis from the date the license goes into effect through December 31 of that year. In the event that an application is denied under this chapter, one-half of the license fee shall be returned to the applicant and the remainder shall be retained by the City as a nonrefundable application fee. In the event that a license is revoked or suspended hereunder, no portion of the license fee shall be returned. In the event the State of Ohio law explicitly pre-empts the City's authority to license under this chapter, the applicant shall be entitled upon request to a refund of the license fee which refund shall be prorated on a per diem basis from the effective date of the State of Ohio's pre-emption of the City's authority to license under this chapter through December 31 of that year.
- (b) In addition to the annual license fee, each computerized sweepstakes device shall be registered with the City and subject to a device fee of five hundred dollars (\$500.00) for each device on the premises for each year. Device fees shall be paid initially upon preliminary approval of the license application and as a prerequisite to receiving the license, and then annually before January 1 for each subsequent year ending on December 31 of each year. In the event an applicant applies for an initial license under this chapter where the license goes into effect after January 1 of a given year, the device fee for each device shall be prorated on a per diem basis from the date the license goes into effect through December 31 of that year. Device fees shall not be refundable, except that in the event the State of Ohio explicitly pre-empts the City's authority to impose the device fee of this subsection, the applicant upon request shall receive a refund of the device fee which refund shall be prorated on a per diem basis from the effective date of the State of Ohio's pre-emption of the City's authority to charge the device fee under this subsection through December 31 of that year.
- (c) After the initial device fees are paid pursuant to subsection (b) of this section, the device fee shall be paid for each computerized sweepstakes device brought to the facility before the device is put into use. For purposes of determining device fees, each device that is operable by one or more persons is a separate device.
- (d) Licenses issued under this chapter shall not be transferable to any other person, partnership, corporation, or other entity and the business may be conducted only at the location for which the license is issued. The license must be so placed as to be made conspicuously visible and shall list each sweepstakes/internet device with serial number.
- (e) Failure to register any computerized sweepstakes device before placement on the premises is an unclassified misdemeanor and the operators shall each be liable for a mandatory fine of one hundred fifty dollars (\$150.00) for each day the device is not registered, and said fine shall not be reduced or suspended.
(Ord. 35-2011. Passed 8-9-11.)

723.06 REVOCATION; HEARING PROCEDURE.

- (a) The license may be suspended or revoked at any time by the Director of Public Safety or his designee after a hearing and upon satisfactory proof that a violation of the federal, state or local laws or ordinances, including those of this chapter, has occurred on the premises of the sweepstakes/internet café. In addition to any license suspension, the City may assess the licensee a penalty fee of not less than five hundred dollars (\$500.00) nor more than one thousand five hundred dollars (\$1,500.00) for any violation of this chapter. Each day a continuing violation exists shall constitute a separate violation for purpose of assessing penalty fees. Suspensions, revocations and assessments of penalty fees is in addition to and separate from any criminal liability and does not preclude criminal prosecution for any violation of this chapter or other City, state or federal laws.
- (b) The Director of Public Safety or his designee shall investigate all complaints and potential violations of this chapter with the aid of law enforcement as needed. If the Director of Public Safety or his designee finds substantial evidence to support a violation of this chapter, he shall conduct a hearing.
- (c) The Director of Public Safety or his designee shall provide the licensee and the owner of the computerized sweepstakes devices, as listed on the license application, with prior written notice of the hearing and a statement of the alleged violation at least ten (10) days in advance of the hearing. The licensee shall have the right to be represented by counsel and have the right to examine and cross-examine witnesses and introduce evidence. The Director of Public Safety or his designee shall render a decision the day of hearing unless additional time is needed. If additional time is needed, the decision shall be in writing to the licensee.
- (d) In the event of a decision and ruling adverse to the licensee, the licensee shall have the right to appeal such decision and ruling to the Zoning Board of Appeals within twenty (20) days of the receipt of the decision of the Director of Public Safety or his designee. The Zoning Board of Appeals shall set the matter for a public hearing and provide written notice to the appellant at least ten (10) days in advance of the hearing. The decision of the Zoning Board of Appeals shall be the final decision of the City on the violation(s) and may be appealed to a court of competent jurisdiction under authority of, and pursuant to, the provisions of the Ohio Revised Code. (Ord. 35-2011. Passed 8-9-11.)

723.07 HOURS OF OPERATION.

No sweepstakes/internet café shall be operated between the hours of 1:00 a.m. and 9:00 a.m. No operator shall permit any person to operate any computerized sweepstakes device between the hours of 1:00 a.m. and 9:00 a.m.
(Ord. 35-2011. Passed 8-9-11.)

723.08 PROHIBITED CONDUCT.

- No operator of a sweepstakes/internet café by himself/herself/itself, directly or indirectly, or by any servant, agent or employee, shall permit or fail to take active steps to eliminate or prevent the following activities from occurring on the licensed premises:
- (a) Permit any disorderly conduct upon the premises or permit the premises to become a gathering place for disorderly persons of any type;
 - (b) Permit gambling in any form or the possession or use of gambling paraphernalia upon the premises;
 - (c) Permit sale, possession or use of alcoholic beverages upon the premises;
 - (d) Permit the possession or use of any unlawful drug, narcotic or controlled substance;
 - (e) Permit the public streets, sidewalks, alleys or walkways adjacent to the premises to become littered or permit inside or outside walkways to become obstructed in any manner so that pedestrian traffic is hindered;
 - (f) Permit the premises or the activity conducted thereon to become a public nuisance to the surrounding environs or violate the public peace;
 - (g) Permit any computerized sweepstakes device to be operated at any time the premises is not open for business;
 - (h) Permit the premises to become overcrowded so as to constitute a hazard to the health or safety of persons therein or to be in violation of any of the City's fire codes or other regulatory codes;
 - (i) Permit any computerized sweepstakes device to be offered to the public for operation unless fully operable and in safe operating condition;
 - (j) Permit the premises to be open for business without displaying the licenses therefore in a conspicuous place thereon;
 - (k) Permit the operation of any unlicensed computerized sweepstakes device upon the premises; and
 - (l) Permit any violation of any ordinance of the City or statute of the federal or state government to take place upon the premises.
(Ord. 35-2011. Passed 8-9-11.)

723.09 MISCELLANEOUS REGULATIONS.

- (a) Every sweepstakes/internet café shall have an adult who is twenty-one years of age or over on the premises and supervising at all times the computerized sweepstakes devices during all hours of operation.
- (b) The interior of the sweepstakes/internet café shall provide a minimum area of forty (40) square feet per computerized sweepstakes device in each room in which such devices are located.
- (c) No persons under the age of eighteen (18) years shall be permitted on the premises of any sweepstakes/internet café.
- (d) The operator shall require a photo identification of every person to whom anything of value is given, for any single event for which there is a chance of winning a thing of value or cash with a dollar value in excess of ten dollars (\$10.00) in connection with the sweepstakes/internet café and shall record the person's name, date of birth, and home address and a description of the thing of value given, a stated dollar value of the thing given, the date and time of the giving and which computerized sweepstakes device is involved in the circumstances of the giving by the serial number or other identifying description of the device. If the thing of value or cash given for any single event for which there is a chance of winning has a dollar value of six hundred dollars (\$600.00) or more, the operator shall also include in the record a copy of the recipient's photo identification

and the recipient's social security number. By the second Tuesday of each month the operator shall cause to be delivered to the City's Tax Administrator a copy of the record containing the information set forth above for the preceding month. The operator and the City shall not disclose the social security number of any person to anyone except as required by the laws of the City, the State of Ohio and the United States government.

- (e) The operator shall post in a conspicuous place on the premises in the room where the computerized sweepstakes devices are located in no less than twenty point type the following:
- (1) Each separate thing of value that may be given, with estimated value, and each separate dollar amount that might be given in association with the use of computerized sweepstakes device, on a per play basis;
 - (2) The odds of winning, as stated in the filing with the City pursuant to Section 723.03(a)(7); and
 - (3) A complete statement of the rules and conditions pertaining to the giving of any prizes, cash or anything of value to any person, whether or not the determination of the giving of the thing of value or the delivery of the thing of value occurs totally within the confines of the premises or requires some event, occurrence or happening at another location.
- (f) The operator shall keep a complete set of all records of the operations of the sweepstakes/internet cafe at the premises at all times, including all federal, state and local tax records, all records of payments and receipts, all records of expenses and revenues of the operation, all banking records, all contracts, leases and agreements affecting the premises, equipment and operation, all personnel records and all other records pertaining to the business. Records shall be maintained and made available for inspection by the City for ten (10) years.
- (g) It is the intent of this chapter that operators are strictly liable for any violations of this chapter.
- (h) No person shall be denied any license or the right to use a licensed computerized sweepstakes device under this chapter in the City because of race, color, creed, sex, religious belief or natural origin.

(Ord. 35-2011. Passed 8-9-11.)

723.10 SEVERABILITY.

In the event any provision of this chapter shall be declared by a court of competent jurisdiction to be invalid or unconstitutional, such decision shall not affect the validity of this chapter as a whole or any part thereof other than the part so declared to be invalid or unconstitutional. (Ord. 35-2011. Passed 8-9-11.)

723.99 PENALTY.

Whoever violates any provision of this chapter for which a specific penalty is not otherwise stated shall be guilty of a misdemeanor of the first degree and may be subject to the fines and penalties thereof. A separate offense shall be deemed committed each day during or on which a violation occurs or continues. In addition to the penalties set forth herein, the license for the sweepstakes/internet cafe may be permanently revoked. (Ord. 35-2011. Passed 8-9-11.)

CHAPTER 725

Mechanical Amusement Devices

- 725.01 Definition.**
725.02 License required.
725.03 Application for license.
725.04 Issuance of the license; fee.
725.05 Transfer of license.
725.06 Distance from school; display of license.
725.07 Giving of prizes, awards.
725.99 Penalty; license revocation.

CROSS REFERENCES

Exhibiting gambling devices for gain - see GEN. OFF. 513.08
Enticing minor to play for money - see GEN. OFF. 529.02
Sweepstakes/Internet cafes - see BUS. REG. Ch. 723

725.01 DEFINITIONS.

For the purpose of this chapter "mechanical amusement device" means a machine, other than a "computerized sweepstakes device" as defined under Chapter 723, which, upon the insertion of a coin, slug, token or other device, operates or may be operated for use as a game, contest or amusement of any description, or which may be used for any game, contest or amusement and which contains no automatic pay-off device for the return of money, coins, merchandise or tokens, checks or tickets redeemable in money or anything of value.

(Ord. 36-2011. Passed 8-9-11.)

725.02 LICENSE REQUIRED.

No person shall display or exhibit a mechanical amusement device within the corporate limits without having first obtained a license therefor from the Director of Public Safety or his designee. A separate license shall be required for each mechanical amusement device displayed at any one time.

(Ord. 25-2010. Passed 5-25-10.)

725.03 APPLICATION FOR LICENSE.

Application for a license to display a mechanical amusement device must be made to the Director of Public Safety or his designee upon such forms as shall be prepared therefor by the Director. The application must be made by the owner or proprietor of the business or place at which the mechanical amusement device is to be displayed. Application shall state the name of the owner of the place of business, the address of the place for which the license is applied, the residence address of owner, the serial number and name of the manufacturer of the mechanical amusement device, the owner of the mechanical amusement device, the nature of the business in conjunction with which the mechanical amusement device is to be displayed and such other information as may be required by the Director of Public Safety or his designee.

(Ord. 25-2010. Passed 5-25-10.)

725.04 ISSUANCE OF THE LICENSE; FEE.

Upon the approval of the application and upon the payment of the annual license fee of:

Mechanical amusement device \$50.00 per machine

a license to display one mechanical amusement device shall be issued to the applicant. The license fee shall be for the fiscal year beginning January 1, of the calendar year or for any unexpired portion of the fiscal year. The license shall entitle the licensee therein named to display at or upon the premises therein described one mechanical amusement device.

(Ord. 25-2010. Passed 5-25-10.)

725.05 TRANSFER OF LICENSE.

A separate license shall be required for every mechanical amusement device which is displayed by any person at any one time, but any licensee may change from the display of one approved mechanical amusement device to the display of another approved mechanical amusement device at any time. A license issued under the provisions of this chapter shall not be transferred from one person to another person, but the license may be transferred by the licensee therein named from the place specified in the license to another place owned by the licensee, should the licensee move his business from the address specified in the license, to another location.

(Ord. 25-2010. Passed 5-25-10.)

725.06 DISTANCE FROM SCHOOL; DISPLAY OF LICENSE.

No license shall be issued for the display of a mechanical amusement device at a place which is within 500 feet from any premises occupied by any school building. It shall be the duty of the licensee to conspicuously display the license issued hereunder.

(Ord. 25-2010. Passed 5-25-10.)

725.07 GIVING OF PRIZES, AWARDS.

No person by himself, by another person or otherwise, directly or indirectly, shall give any prize, award, merchandise, gift or anything of value greater than ten dollars (\$10.00) to any player or to any operator of any mechanical amusement device or to any contestant for any type of score on the device for a single play of the device and the value of the prize, award, merchandise, gift or something of value for multiple plays of the device or devices by any player, operator or contestant shall not exceed one hundred dollars (\$100.00). Cash shall not be given to any player, operator, or contestant of a device.

(Ord. 25-2010. Passed 5-25-10.)

725.99 PENALTY; LICENSE REVOCATION.

Whoever violates this chapter is guilty of a minor misdemeanor. Each and every day during which the violation shall continue shall constitute a separate offense. In addition to the penalty, the Director of Public Safety is authorized to revoke the license held by any person who shall have been convicted for a violation of this chapter.

(Ord. 25-2010. Passed 5-25-10.)

CHAPTER 726

Recovery of Costs of Emergency Actions

- 726.01 Purpose and scope.**
726.02 Definitions.
726.03 Liability.
726.04 Services of other governmental bodies or parties.
726.05 Procedure.

CROSS REFERENCES

Commercial and heavy vehicles - see TRAF. Ch. 339
Transportation of radioactive materials - see TRAF. Ch. 349

726.01 PURPOSE AND SCOPE.

The purpose of this chapter is to provide for compensation to the City for costs incurred in investigating, mitigating, minimizing, removing or abating unauthorized spills, releases or discharges of materials into or upon the environment within the territorial jurisdiction or responsibility of the City, and which spills, releases or discharges require emergency action to protect the public health or safety or the environment.

(Ord. 144-90. Passed 10-23-90.)

726.02 DEFINITIONS.

As used in this chapter:

- (a) "Common carrier by motor vehicle" has the same meaning as in Ohio R.C. 4919.75(E) or 4912.02(A), as appropriate.
- (b) "Contract carrier by motor vehicle" has the same meaning as in Ohio R.C. 4919.75(F) or 4923.02(A), as appropriate.
- (c) "Costs" include, but not be limited to, all direct and incidental costs, including personnel costs, incurred by or on behalf of the City in connection with the investigation, mitigation, minimization, removal or abatement of an unauthorized spill, release or discharge, in the following respects:
 - (1) Operating any vehicle, apparatus or equipment used in connection with any such incident;
 - (2) Sanitizing, cleaning and/or repairing any vehicle, apparatus, equipment or apparel used in connection with any such incident;
 - (3) Testing any spilled, released or discharged material, or any vehicle, apparatus, equipment or apparel used in connection with any such incident;
 - (4) Storing any spilled, released or discharged material;
 - (5) Disposing of any spilled, released or discharged material, or any vehicle, apparatus, equipment, apparel or goods rendered unusable as a result of any such incident;
 - (6) Replacing any vehicle, apparatus, equipment, apparel or goods lost or rendered unusable as a result of any such incident; and
 - (7) Any costs incurred by any private party or governmental body, or subdivision thereof, whose assistance is requested by the City in the event of an unauthorized spill, release or discharge, and who submits a written

invoice to the City setting forth its costs incurred in responding to the incident.

- (d) "Material" has the same meaning as in Ohio R.C. 3745.13, and any regulations promulgated or matters decided thereunder, as appropriate.
- (e) "Motor vehicle" means any automobile, truck, tractor, trailer, semi-trailer, motorbus, or any other self-propelled vehicle not operated or driven on fixed tracks.
- (f) "Private motor carrier" has the same meaning as in Ohio R.C. 4923.02.
- (g) "Railroad" has the same meaning as in Ohio R.C. 4907.02.
- (h) "Unauthorized spill, release or discharge" has the same meaning as in Ohio R.C. Chapter 3745, any regulations promulgated or matters decided thereunder, and shall include, but not be limited to, any spilling, leaking, pumping, pouring, emitting, emptying, discharging, releasing, injecting, escaping, leaching, dumping or disposing of any material, into or upon the environment, which may endanger the public health or safety or the environment. The term does not include any spill, release or discharge that is in compliance with Ohio R.C. Chapters 1509, 3704, 3734 or 6111 and rules adopted thereunder, or the terms and conditions of a current and valid permit or license.

(Ord. 144-90. Passed 10-23-90.)

726.03 LIABILITY.

(a) Any person or corporation responsible for causing or allowing an unauthorized spill, release or discharge of material into or upon the environment is liable to the City for disaster services rendered, and all incidental and related costs. The costs shall be paid by the person or entity responsible for causing or allowing the unauthorized spill, release or discharge of materials into or upon the environment that requires emergency action to protect the public health or safety or the environment.

(b) If an unauthorized spill, release or discharge occurs from a motor vehicle or train being operating by, or on behalf of, a common carrier by motor vehicle, contract carrier by motor vehicle, private motor carrier, or railroad, a claim or civil action shall be submitted to or brought against, as appropriate, and the costs of the emergency action shall be recovered from, the motor carrier or railroad regardless of whether the motor carrier or railroad was responsible for causing or allowing the unauthorized spill, release or discharge to occur.

(c) Costs recoverable under this chapter shall accrue commencing with the first notification to the City of an incident involving, or which may involve, or subsequently proves to involve an unauthorized spill, release or discharge.

(Ord. 144-90. Passed 10-23-90.)

726.04 SERVICES OF OTHER GOVERNMENTAL BODIES OR PARTIES.

(a) The Fire Chief, or his designated officers or firemen, shall have the authority to request the assistance of any other governmental body, or agency or division thereof, in the event of an unauthorized spill, release or discharge at a location within the territorial jurisdiction or responsibility of the City.

(b) The Fire Chief, or his designated officers or firemen, shall have the authority to request the assistance of any expert, consultant or contractor in the event of an unauthorized spill, release or discharge at a location within the territorial jurisdiction or responsibility of the City.

(Ord. 144-90. Passed 10-23-90.)

726.05 PROCEDURE.

(a) The Fire Chief, or his designated representative, shall keep a record of the City's costs for investigating, mitigating, minimizing, removing or abating the unauthorized spill, release or discharge, including any incidental costs. A Schedule of Charges used to determine such costs shall be kept on file in the Fire Department and made available for inspection by the public during normal working hours. The Schedule shall be revised, as necessary, to reflect increases and decreases in the value of the items listed.

(b) Not less than thirty days before bringing civil action for the recovery of costs pursuant to this section and Ohio R.C. 3745.13, the Law Director shall submit to the responsible party a written itemized claim for the total certified costs incurred by the City and a written notice that, unless the amount is paid to the City within thirty days after the date of mailing of the claim and notice, the Law Director shall bring a civil action for that account.

(Ord. 144-90. Passed 10-23-90.)

CHAPTER 729

Oil and Gas Wells

729.01 Definitions.

729.02 License required.

729.03 Unitized lease required.

729.04 State permit required.

729.05 License applications.

729.06 Equipment on site.

729.07 License fee.

729.08 Number of licenses.

729.09 Distance requirements.

729.10 Necessity of contract with surface owner.

729.11 Issuance or refusal of permit.

729.12 Bond.

729.13 Public liability and property damage and medical payment insurance.

729.14 Permitting escape of mud, water or oil.

729.15 Drilling without permit.

729.16 Well workover.

729.17 Rules for drilling and producing operations.

729.18 Release from bond.

729.19 Penalty; equitable remedy.

729.01 DEFINITIONS.

As used in this chapter:

- (a) "Person" means any natural person, individual, firm, partnership, association, corporation, club, society, co-operative, trust, municipal corporation or political subdivision whatsoever.
- (b) "Well" means any hole or bore to any sand, formation, strata or depth, which is drilled, bored, sunk, dug or put down for the purpose of either exploring for or ascertaining the existence of any oil, gas, liquid hydrocarbon, or any of them, or for the purpose of producing and recovering any oil, gas, liquid hydrocarbon, or any of them.
- (c) "Oil" means any liquid hydrocarbon, regardless of gravity, capable of being produced from a drilling unit in liquid form at the well by ordinary production methods and which is not the result of the condensation of gas after it leaves the reservoir.
- (d) "Gas" means natural gas including all of its constituent elements, which elements include, but are not limited to, gasoline, condensate, distillate, butanes, propanes and other lighter hydrocarbons.
- (e) "Oil well" means any well which produces one barrel or more of oil to each 100,000 cubic feet of gas.
- (f) "Gas well" means a well producing gas and which produces no oil, or less than one barrel of oil for each 100,000 cubic feet of gas.
- (g) "Workover" means working over a well and shall be considered the act of reentering a well for any purpose after it is initially completed or abandoned, other than for well servicing.
- (h) "Well servicing" includes installation or servicing of artificial lift equipment and the removal of tubing obstructions such as paraffin and sand.
- (i) "Licensee" means the person to whom is issued a license for the drilling and operation of a well under this chapter, and his or its administrators, executors, heirs, successors and assigns.
- (j) All technical or oil and gas industry words or phrases used in this chapter and not specifically defined in this chapter shall have the meaning customarily attributable thereto by prudent operators in the oil and gas industry.

(Ord. 120-77. Passed 11-22-77.)

729.02 LICENSE REQUIRED.

No person shall commence to drill a well for oil and/or gas within the City without first having wholly complied with all provisions of this chapter and having obtained a drilling license, which shall expire ninety days after the date of issuance.

(Ord. 120-77. Passed 11-22-77.)

729.03 UNITIZED LEASE REQUIRED.

No license shall be issued for oil and/or gas drilling where the ownership of the proposed minimum of ten-acre tract or unit is made up of more than one parcel of land as shown on the most recent tax duplicate map, unless the application is accompanied with copies of a proper lease executed with all the owners of land within the proposed ten-acre tract or unit and a copy of the unitized lease agreement, as executed, is furnished. When a person serves as agent, a certified copy of his appointment shall accompany the application. The area of all dedicated public streets and alleys shall be excluded in all calculations used to determine the area of such ten-acre tract or unit.

(Ord. 120-77. Passed 11-22-77.)

729.04 STATE PERMIT REQUIRED.

No license for drilling for oil and/or gas within the City shall be issued until the applicant has first obtained a permit for oil and/or gas drilling from the Division of Mines, State Department of Industrial Relations. A copy of such permit shall be included with each application.

(Ord. 120-77. Passed 11-22-77.)

729.05 LICENSE APPLICATIONS.

Any person desiring to drill, complete and operate a well for oil and/or gas within the City shall present an application in duplicate therefor to the Mayor, which application shall be in writing, be signed by the applicant or some person duly authorized to sign the same for the applicant, and shall state:

- (a) The date of such application;
- (b) The name and address of the applicant and, if the applicant is a corporation, the state of incorporation, and, if the applicant is a partnership, the names and addresses of the general partners;
- (c) The number of the drilling unit, the particular lot and block, number of tract in the drilling unit on which the proposed well is to be located and the exact location of the proposed well by dimensions from the lines of the unit lease;
- (d) The type of the well, whether oil or gas, and the proposed depth of the well;
- (e) The proposed complete casing program of the well;
- (f) The exact and correct number of square feet in the lease or unitized lease over which the applicant has control of oil rights or gas rights, and the applicant shall be required to own in fee, or hold under lease or

drilling contract from the owner of not less than ten acres, and all of the lots and lands shall be contiguous. Lots and lands across a public street shall be deemed as being contiguous. The area of all roads, streets, public ways and alleys shall not be included in determining the area of the unit.

(g) Each application for a license shall be accompanied by a map prepared by an Ohio registered surveyor showing and containing the following data:

- (1) The subject tract of land or drilling unit upon which the well is to be drilled, which shall show all parcels or tracts of land for which a lease has been obtained;
- (2) The location of the proposed well and the proposed location of oil storage tanks on the subject tract of land or drilling unit established by a field survey, showing the distance in feet from the proposed well site and all storage tanks to the boundary lines of the subject tract or drilling unit and distances to all residence buildings within 250 feet of proposed well or oil storage tank locations; the proposed well location shall also be designated by plane coordinates as provided in Ohio R. C. Chapter 157. Coordinates may be established by map scale to the nearest fifty feet.
- (3) The location of drilling or producing wells which are within 460 feet of the proposed well or 230 feet from the boundaries of the subject tract or drilling unit and a showing of the distances between such drilling or producing wells and the proposed well and between such drilling or producing wells and the nearest boundary of the subject tract or drilling unit;
- (4) The exact location of the proposed well with respect to the drilling unit boundaries and with respect to the boundaries of the lease or unitized lease on which the applicant has secured the rights from the owner to drill, designation of lots, blocks or tracts owned or controlled by the applicant within the drilling unit and the distances from the well location to all parks, streets, alleys or other public property, residences, commercial buildings and structures situated within 250 feet of the well location; and
- (5) The location, size and inclination of all drainage facilities, tile, ditches, etc., which lie within the work limits of the proposed well site and storage tank site.

(Ord. 120-77. Passed 11-22-77.)

729.06 EQUIPMENT ON SITE.

No person shall place any equipment, material, drilling rigs, etc., on any site until all necessary licenses or permits have been obtained.

(Ord. 120-77. Passed 11-22-77.)

729.07 LICENSE FEE.

The charge for each gas and/or oil drilling license shall be one thousand dollars (\$1,000) and shall be paid when the application for such permit is made. The purpose of this fee is to defray the expenses of administration and enforcement of regulatory ordinances concerning the drilling of oil and/or gas wells within the City and to defray the expenses of oil and/or well sites.

(Ord. 120-77. Passed 11-22-77.)

729.08 NUMBER OF LICENSES.

No more than one license for oil and/or gas drilling shall be issued for each ten acres of a tract of land. In the case of a nonproducing well, an additional license may be issued.

(Ord. 120-77. Passed 11-22-77.)

729.09 DISTANCE REQUIREMENTS.

No drilling license shall be issued and no oil and/or gas well shall be drilled within 200 feet of any dwelling, residential or mercantile building, school, church, hospital, theater, assembly hall or building in which the public is invited or within 100 feet of any building of any kind without first obtaining permission in writing from the owner or owners of any interest therein of such dwelling, residential or mercantile building, school, church, hospital, theater, assembly hall or building in which the public is invited, and from the owner or owners of any interest therein of any and all such buildings of any kind within such 100 feet. No license shall be issued where the proposed well location is closer than 230 feet from the boundary line of the ten-acre tract for which proper leases have been obtained. No well location shall be closer than 230 feet to the boundary line of any party or owner not joining the unitized lease agreement.

(Ord. 120-77. Passed 11-22-77.)

729.10 NECESSITY OF CONTRACT WITH SURFACE OWNER.

Neither this chapter nor any license issued hereunder shall be interpreted to grant any right or license to the licensee to enter upon, use or occupy in any respect for the drilling or operation of any well on any surface land except by the written contract of the surface owner, unless the licensee obtained such right in an oil and gas lease, or other contract. Nor shall it limit or prevent the free right of the owner to contract for the amount of damages, rights or privileges with respect to his own land and property.

(Ord. 120-77. Passed 11-22-77.)

729.11 ISSUANCE OR REFUSAL OF PERMIT.

(a) If, after an application or supplemental application is filed pursuant to this chapter, it is found by the Mayor to comply in all respects with the provisions of this chapter, and the drilling and operation or deepening and operation of a well is not prohibited by the provisions of this chapter, then the Mayor shall issue a license for the drilling and operation or deepening and operation of the well applied for. The granting and issuance of a license for a well on a drilling unit, as provided in this chapter, shall automatically operate as a rejection and denial of all other pending applications for a well to be completed upon the drilling unit involved, or any portion thereof.

(b) In the event the Mayor should deny the applicant a license to drill or deepen a well, an appeal to Council may be made by such applicant by filing written notice of appeal with Council. Such appeal shall be heard by Council within thirty days after the filing date.

(c) Each license issued under this chapter shall:

- (1) By reference have incorporated therein all provisions of this chapter with the same force and effect as if this chapter were copied verbatim in such license;
- (2) Specify definitely the location of the well and the number of the drilling unit in which the well is to be located;
- (3) Specify that drilling shall begin within ninety days from the date of the license or such license shall be forfeited, provided that such forfeiture shall not affect the right of the applicant to apply for another license; and
- (4) Specify that such license shall remain in full force and effect until such well is abandoned.

(d) Such license shall not be issued until the provisions of Sections 729.12 and 729.13 are complied with. Such license, in duplicate originals, shall be signed by the licensee. One original of the license, duly executed, shall be delivered to the licensee and one original of the license, duly executed, shall be retained and filed by the Mayor, and when so filed, shall constitute the licensee's drilling and operating license and the contractual obligation of the licensee to comply with the terms of such license, of the bond provided for in Section 729.12 and of this chapter.

(Ord. 120-77. Passed 11-22-77.)

729.12 BOND.

If the issuance of a license is authorized, the same shall not be issued until the applicant files with the Finance Director a bond executed by the licensee as principal and by a good and sufficient corporate surety company licensed to do business in the State as surety and whose name appears on the current list published by the United States Treasury Department of accepted sureties on Federal bonds, conditioned that the principal obligor will drill and operate such well in strict accordance with the provisions of this chapter and that the principal will remedy any and all damages to streets, curbs, gutters, water lines, fire hydrants and other public property, occasioned in any manner by his drilling of such well. Such bond shall inure to the benefit of the City, shall be in a form to comply with this section, shall be in the amount of twenty thousand dollars (\$20,000) and shall be approved by the Law Director. A licensee shall not be required to post additional bond if he has approved bonds on file with the City as required by this section totaling forty thousand dollars (\$40,000).

Failure to keep such bond in full force and effect, in accordance with the provisions of this section shall cause a revocation of the license and shall be unlawful and punishable in accordance with the provisions of this chapter.

(Ord. 120-77. Passed 11-22-77.)

729.13 PUBLIC LIABILITY AND PROPERTY DAMAGE AND MEDICAL PAYMENT INSURANCE.

The license shall not be issued until the applicant also files with the Mayor a memorandum copy or certificate of a policy of public liability and property damage insurance, issued by an insurance company authorized to do business in the State, to be approved by the Law Director. The amount of such policy of insurance for liability for bodily injury or death of one person shall not be less than two hundred thousand dollars (\$200,000) for any one occurrence, not less than six hundred thousand dollars (\$600,000) for injuries to more than one person in any one occurrence and the amount of such policy for damage to property of others shall not be less than two hundred thousand dollars (\$200,000). Medical payment insurance shall be in the limits of five thousand dollars (\$5,000) per person per occurrence and an aggregate amount of twenty-five thousand dollars (\$25,000) for injuries to more than one person in any single occurrence. The terms and conditions of such policy covering such operations are to be such as to assure persons against loss by liability imposed by law by reason of any accidental personal injury, death or medical payment to any person other than the assured or his employees, or by reason of any such loss or damage of property of any person other than the assured or his employees. Each policy of insurance shall contain a provision obligating the insurer to give Council written notice of cancellation not less than thirty days prior to the date of cancellation. The applicant shall, upon request of the Mayor, submit the original or a certified copy of any policy for inspection at any time.

Irrespective of the requirements as to insurance to be carried, the insolvency, bankruptcy or failure of any insurance company carrying insurance for any applicant or licensee hereunder, or the failure of any such company to pay claims accruing, shall not be held to waive any of the provisions of this chapter. The applicant shall pay promptly all premiums for such insurance in strict accordance with its obligations to its carrier and maintain such coverage in full effect so long as the license is in effect.

Failure to keep such policy in full force and effect in accordance with the provisions of this section shall be unlawful and shall be punishable in accordance with the provisions of this chapter.

(Ord. 120-77. Passed 11-22-77.)

729.14 PERMITTING ESCAPE OF MUD, WATER OR OIL.

No person shall permit to escape any mud, water, oil, slush or other waste matter related to the drilling or operating of any oil and/or gas well into any adjoining lots upon which the licensee does not have contractual rights to use the surface, or upon leases not owned by the licensee or into the alleys, streets, gutters or sewers of the City. Within fifteen days after the completion or abandonment of any oil or gas well, the mud and other similar matter and materials used in connection with the drilling and operations thereon shall be removed from the premises.

(Ord. 120-77. Passed 11-22-77.)

729.15 DRILLING WITHOUT PERMIT.

No person acting either for himself or as agent, employee, independent contractor or servant of any other person shall commence to drill, drill or operate any oil or gas well within the City or work upon or assist in any way in the prosecution or operation of such well without a license for the drilling and operation of such well having first been issued in accordance with the provisions of this chapter.

(Ord. 120-77. Passed 11-22-77.)

729.16 WELL WORKOVER.

Any person operating any well for oil or gas within the City may perform any well workover operations, except drilling deeper, without a prior license, provided that the operator complies with all safety rules set forth in this chapter, and no additional license fees shall be required for such work. However, no well workover shall be started or performed without first informing the Mayor. It shall not be necessary to inform the Mayor when well servicing is to be performed, except for swabbing operations.

(Ord. 120-77. Passed 11-22-77.)

729.17 RULES FOR DRILLING AND PRODUCING OPERATIONS.

No person engaged in the drilling and operation of oil and/or gas wells within the City shall fail to comply with the following rules and regulations:

- (a) In order to enable the holder of each license to move oil, gas, water or other products to or from each drilling unit within the City, the holder of each license issued under this chapter for the drilling and operation of a well for oil or gas in the City shall apply to Council for an easement on, over, under, along or across the streets, sidewalks, alleys and other property in the City for the purpose of constructing, laying, maintaining, operating, repairing, replacing and removing pipe lines so long as production or operation may be continued under any license issued pursuant to this chapter, provided such licensee shall:
 - (1) Not interfere with or damage existing water, sewer or gas lines or the facilities of public utilities, located on, under or across the course of such rights of way;
 - (2) Furnish the City Engineer with a plat showing the location of such pipe lines;
 - (3) Construct such lines or cause the same to be constructed out of new or reconditioned pipe in accordance with directions of the Mayor and properly cased and vented if under a street; and

- (4) Grade, level and restore such property to the same surface condition, as nearly as practical, as existed when operations for the drilling of the well were first commenced.
- (b) Any violation of the law of the State or any rule, regulation or requirement of any State or Federal regulatory body having jurisdiction in reference to drilling, completing, equipping, operating, producing, maintaining or abandoning any oil or gas well or related appurtenances, equipment or facilities, or in reference to fire wall, fire protection, blowout protection, safety protection or convenience of persons or property, shall also be a violation of this chapter and shall be punishable in accordance with the provisions hereof.
- (c) No person engaged in drilling or operating any well shall permit gas to escape or be vented into the air unless such gas is flared and burned. All gas flared and burned from a torch, pipe or other burning device, within the City shall be done in such manner so as not to constitute a fire hazard to any property. The location of the torch, pipe or other burning device, the construction thereof, the maintenance thereof and the operation thereof shall at all times be in full compliance with such regulations as may from time to time be issued by the Fire Chief.
- (d) No person shall use or operate in connection with the drilling or working over of any well within the City any wooden derrick or steam-powered rig, or permit any drilling rig or derrick to remain on the premises or drilling site for a period longer than sixty days after completion or abandonment of the well. All engines shall be equipped with effective mufflers of adequate size and type to match the engine used.
- (e) Two dual-controlled, fluid-operated blowout preventers with working pressures equal to the maximum anticipated wellhead pressures shall be used for all drilling or completion operations involving the use of drill pipe or tubing after the surface casing has been set. The mechanical operation of the preventers shall be checked every twenty-four hours and shall be tested with pump pressure with enough frequency to insure good working order at all times.
- (f) No oil, waste water, sludge water or salt water, produced or used in connection with the drilling operation or production of oil or gas wells, shall be disposed of within the City or shall be emptied into any sanitary sewer, storm sewer or surface drainage. However, temporary repositories for salt water, waste or sludge water and basic sediment and water may be constructed of concrete, steel or other material and, in the latter case, such pits for temporary deposits shall be so constructed that no seepage will result therefrom and that surface water resulting from water drainage or rain cannot drain into such pit, and provided that disposal of salt water may be made in a well drilled for that purpose or an abandoned oil well, further provided that approval for such disposal is first obtained from the Chief Inspector of the Oil and Gas Division of the Division of Mines, Department of Industrial Relations of the State.
- (g) All trucks hauling oil, sludge water, salt water, petroleum products or byproducts shall be closed and leakproof at all times and the intake vent and outlet valves and pump connections shall be watertight and leakproof. The operation of any truck engaged in the hauling of any of the products or by-products mentioned in this section, which permits leakage, seepage or drainage of such products or by-products, salt water or sludge water, is unlawful and the driver or operator of such truck shall be subjected to the penalties provided in this chapter. No person engaged in the hauling of salt water shall permit his truck, vehicle or other instrument of conveyance to overflow or leak while loading or after loading.
- (h) No well shall be drilled or worked over in the City without the bore holes at all times being filled with drilling fluid of a weight and viscosity as a reasonably prudent operator would use to keep the well under control at all times.
- (i) No person in connection with the drilling or working over operations of any well within the City shall conduct any swabbing operations or take and complete any drill stem test except during daylight hours. Drill stem tests may be conducted only if the well effluent during the test is produced through an adequate oil and gas separator to storage tanks, and the effluent remaining in the drill pipe at the time the tool is closed is flushed to the surface by circulating drilling fluid down the annulus and up the drill pipe. The Mayor shall be informed before drill stem testing or swabbing is performed so that a City representative may be present during such operations.
- (j) All completed wells within the City shall be equipped with Christmas tree fittings and wellhead connections, with a rated working pressure equal to or greater than the surface shut-in pressure of the well. All wellhead connections shall be assembled and tested prior to installation by a fluid pressure which shall be equal to the test pressure of the fitting employed.
- (k) Whenever any well is abandoned within the City, it shall be the obligation of the licensee to plug such well in accordance with the rules and regulations of the Department of Industrial Relations, Division of Mines, and to take any and all additional provisions or precautionary measures prescribed by the State in connection with abandonment and plugging of the well. It shall be the further obligation of the licensee or the operator of the well to cut the surface casing off at least six feet below the surface of the ground and to place at least a twenty-five foot cement plug in the top of the casing and to weld the top of the casing completely shut. The resulting hole in the ground shall be completely filled to the surface of the ground and duly tamped.
- (l) No person shall use, construct or operate in connection with any oil producing well within the City any crude oil storage tanks, except to the extent of two steel tanks for oil storage, not exceeding 500-barrel capacity each and so constructed and maintained as to be vapor-tight and each surrounded with a well compacted earthen fire wall at such distance from the tanks as will, under any circumstances, hold and retain at least two and one-half times the maximum capacity of such tank. A licensee may use, construct and operate a steel conventional separator, and such other steel tanks and appurtenances as are necessary for treating oil with each of such facilities to be so constructed and maintained as to be vapor-tight. Each oil and gas separator shall be equipped with both a regulation pressure relief safety valve and a bursting head.
- (m) No person within the City shall install any fired vessel or open flame nearer than 150 feet to any well or storage tank.
- (n) Before any actual drilling commences within the City, there shall be constructed completely around the work area, in no case exceeding an area of one acre, a farm type fence (10-47"-12"-9 ga. top and bottom - 11 ga. filler) not less than four to six feet in height. Access to the site shall be through proper gates which shall be closed when not being used for supply of material or other facilities.
- (o) All producing wells, wellheads, tank batteries, pumping units and equipment appurtenant thereto within the City shall be enclosed and protected by a six-foot galvanized or aluminum chain link type fence with matching type gates and effectively screened with evergreen plantings to the approval of the Mayor.
- (p) The premises shall be kept in a clean and sanitary condition, free from rubbish of every character, at all times during the drilling operation and as long thereafter as oil and/or gas is being produced therefrom. All licensee's premises shall be kept clear of high grass, weeds and combustible trash or any other rubbish or debris that might constitute a fire hazard within a radius of 100 feet around any oil tank or producing well, or to the limits of the premises, whichever is the lesser.
- (q) Within thirty days after any oil and/or gas well within the City has been completed for the production of oil and/or gas, or within thirty days after the same is abandoned for the reason that a dry hole is found, the licensee shall remove the excess sludge or mud and fill all pits and excavations and level off the surface of the working area and the licensee shall not allow any accumulation of sludge or oil or other offensive or dangerous substances to accumulate and shall keep his premises in a sanitary and slightly condition. The licensee shall restore any disturbed drainage facilities and leave the premises in such a condition that no pooling of surface water will result.
- (r) Printed signs reading "DANGER, NO SMOKING ALLOWED" or similar words shall be posted in conspicuous places on each well, storage tank or battery of tanks, within the City.
- (s) Material, equipment, tools or pipe used for either drilling or producing operations at the well shall not be delivered to or removed from the well site except between the hours of 7:00 a.m. and 7:00 p.m. of any day except in case of emergency.
- (t) No person shall block, encumber or close up any streets or alleys in any drilling or production operations, except pursuant to an ordinance duly passed by Council permitting a temporary closing of a street or alley.
- (u) There shall be constructed from the public street to the drilling work area a driveway and turnaround area. Such driveway and turnaround area shall be constructed of gravel or plank of sufficient thickness as determined by the City Engineer to support equipment and trucks using such drive. Vehicles delivering supplies and material shall stay on the surfaced drive to prevent tracking of dirt or mud onto streets. Such driveways shall be kept in good repair and free from dust.
- (v) All pumps and equipment operated in conjunction with a producing well shall be operated with electric motors and no internal combustion engines shall be permitted.
- (w) All oil removed from the site of a producing well shall be removed from the site between the hours of 7:00 a.m. and 7:00 p.m. (Ord. 120-77. Passed 11-22-77.)

729.18 RELEASE FROM BOND.

If and when any license terminates and becomes inoperative as provided for in this chapter, or if and when the licensee files with the Mayor written notice of his election to surrender his license and abandon the premises covered thereby, then, if no claims or lawsuits under the bond are pending or have been filed within six months after such license has terminated, become inoperative or written notice of election to surrender has been filed, the Mayor shall return the bond furnished by the licensee in connection with such license. If claims are pending or are filed within such time, upon the satisfaction or defeat of such claims or lawsuits, such bond shall thereupon be returned to the licensee.

(Ord. 120-77. Passed 11-22-77.)

729.99 PENALTY; EQUITABLE REMEDY.

- (a) Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree. A separate offense shall be deemed committed each day during or on which a violation occurs or continues.
- (b) The Law Director is further authorized to seek injunctive relief against any violation of any provision of this chapter or of any amendments thereto in any proper court of law or equity.

(Ord. 76-2003. Passed 9-23-03.)

732.01 DEFINITION.

For the purpose of this chapter, "pawnbroker" means any person, firm or corporation who lends money on deposit of pledges of personal property or who purchases property or chases in action on condition of selling them back again at a stipulated price.

(Ord. 20-76. Passed 3-9-76.)

732.02 LICENSE APPLICATION; NOTICE.

No person, firm or corporation shall engage in or carry on the business of a pawnbroker in the City until he has first obtained a license to engage in and carry on such business. Every applicant for a license shall make an application in writing to the Chief of Police, which application shall set forth the name under which the business is to be conducted, and the name of every person interested in the business and the location where the business is to be carried on. The application must be made by the person or persons who are to carry on the business and must contain references of at least two other citizens of the City as to the character of the applicant or applicants. The Chief shall cause notice of the filing of such application to be published in a newspaper at least twice, after which the Chief may grant the application and issue the license.

(Ord. 20-76. Passed 3-9-76.)

732.03 LICENSE FEE; NAME; LOCATION.

Licenses for carrying on the business of a pawnbroker shall be issued annually and expire annually on December 31. The license fee shall be one thousand dollars (\$1,000) for each year. The license shall contain the name under which the business is to be conducted, the name of every person interested in the business and the location where the business is to be carried on. Licenses issued under this chapter shall not be transferable to any other person and the business may be conducted only at the location for which the license is issued.

(Ord. 20-76. Passed 3-9-76.)

732.04 BOND OF LICENSEE.

Every licensee under this chapter shall execute and file a bond in the sum of one thousand dollars (\$1,000) with the surety to the satisfaction of the Director of Law that such licensee will conform to the requirements of law and ordinances of the City.

(Ord. 20-76. Passed 3-9-76.)

732.05 REGISTER OF ITEMS, LOANS, ETC.; INSPECTION; IDENTIFICATION.

A person so licensed shall keep a correct list and description, in a book for that purpose, of each article pledged or deposited by him, or on which advances of money have been made, or which has been purchased by him. He shall also enter in such book the name and place of residence of each depositor and the date and hour when the deposit was made. Such registry shall also contain an entry setting forth the interest to be charged and the amount of money loaned. Entries shall be written in ink in the English language and no entry shall be erased, obliterated or defaced. Such book at all times shall be open to the inspection of the Chief of Police, or to any person deputized by him; to any police officer deputized by him, or to the Mayor or any person deputized by him. Upon demand of any of them such person so licensed shall produce and show any article thus listed and described which is in his possession.

Every pawnbroker shall also take a full face photo of any person who pledges or sells any property, and shall obtain and attach to the photograph proper identification, including but not limited to a photograph of either a driver's license or social security card of the person who pledges or sells the property. The photograph and identification shall be attached to or, if kept separately, indexed to the entry in books and forms that describe the transaction.

(Ord. 20-76. Passed 3-9-76.)

732.06 DAILY REPORT OF LICENSEE.

Every such licensed dealer shall on every weekday before noon, make out a report on a blank to be furnished by the Police Division for that purpose, a legible and correct copy of the record required to be kept, containing a clear description of all personal property, bonds, notes or other securities, received on deposit or purchased during the preceding day, with the hour at which the article was received, and a description of the person by whom it was left in pledge, or from whom purchased. Such report shall be delivered to the Chief of Police, or his authorized representative, or shall be mailed to such address as the Chief may designate.

(Ord. 20-76. Passed 3-9-76.)

732.07 MINIMUM HOLDING PERIOD.

Bonds, notes, securities or personal property received on deposit, purchase or pledge by such pawnbroker shall not be sold, redeemed or removed from his place of business for twenty- four hours after the copy and statement provided in Section 732.08 hereof has been delivered.

(Ord. 20-76. Passed 3-9-76.)

732.08 RECEIPTS.

A receipt shall be given to every pledger at the time the property is received, which receipt shall contain the name and address of the pledger, a description of the property received, the amount of money loaned, the rate of interest, the date and hour when the property was received and the date when the loan is due. A true copy of such receipt shall be kept by the licensee pawnbroker. When payments are made by the pledger, receipt for the payments shall be given by him, which receipt shall show the amount previously paid and the balance due. A true copy of such receipt shall be kept by the licensed pawnbroker.

(Ord. 20-76. Passed 3-9-76.)

732.09 INTEREST, STORAGE CHARGES, ETC.

The rate of interest that may be charged on money advanced by pawnbrokers shall not exceed the rate of eight percent per annum and shall be computed on the amount of money actually advanced and no interest shall be collected in advance. A pawnbroker may charge one-half percent per month of the amount of the money loaned to cover the cost of storage and insurance of the articles pawned. The rate of interest and the percentage for storage and insurance allowed to be charged in this section shall include all the compensation the pawnbroker may receive and no other charges of any kind shall be made except in the case of foreclosure.

(Ord. 20-76. Passed 3-9-76.)

732.10 FORECLOSURE; SALE; NOTICE.

After the expiration of twelve months after the maturity of the pledge the pawnbroker may proceed to sell the pawned property in the manner herein provided. At least ten days notice must be given the pledger by mail before the date of sale, and a notice of the proposed sale shall be published in a newspaper printed in and of general circulation within the City at least once, which publication shall be made at least ten days before the date of sale. The sale shall be by public auction and by an auctioneer approved by the Chief of Police. From the proceeds of the sale there shall be deducted the amount of the loan, the accrued interest and the expense of the sale, and the balance shall be paid to the pledger. If after diligent attempt, the pledger cannot be found, the balance due to the pledger shall be deposited with and held by the City until the pledger presents his claim for such balance to the City. If the balance is not claimed within ninety days, such balance shall be forfeited into the City's General Fund.

(Ord. 20-76. Passed 3-9-76.)

732.11 HOURS OF OPERATION.

A person licensed hereunder shall not receive on deposit or purchase personal property, bonds, notes, securities or articles, property or things before the hour of 7:00 a.m. nor after the hour of 8:00 p.m. during the time and months that Eastern Standard Time is in effect, and from 6:00 a.m. nor after the hour of 9:00 p.m. during the time and months that Daylight Savings Time is in effect.

(Ord. 20-76. Passed 3-9-76.)

732.12 MINORS; INTOXICATED OR SUSPICIOUS PERSONS; OTHER BUSINESSES.

A person so licensed shall not take or receive in pawn or pledge for money lent, or take, receive or purchase property, bonds, notes, securities or articles from a minor, or the ownership of which is in or is claimed by a minor, or may be in the possession or under the control of a minor, or a person appearing to be intoxicated or known to be a notorious thief or known to have been convicted of larceny or burglary. A person so licensed shall not receive, take or purchase any article of or pertaining to firearms. A person so licensed shall not carry on another business or avocation in the building in which pawnbroking is carried on, nor employ a person under the age of eighteen years, a convicted felon, or a person convicted of a misdemeanor involving moral turpitude, to take pledges in pawn.

(Ord. 20-76. Passed 3-9-76.)

732.13 PLEDGER OF MECHANICS' TOOLS TO PROVE OWNERSHIP AND IDENTITY.

When any person presents to any pawnbroker for the purpose of pledging the same as security for a loan any implements or tools commonly used by mechanics, the pawnbroker shall require such person to give proof that he is the owner of the tools so offered as a pledge, and when the tools so offered are stamped with the name or any initials or symbols, the pawnbroker shall require the person offering such tools or implements to produce the stamp by which such name, initials or symbols were imprinted, or if unable to produce such stamp, the person shall be required to establish his identity.

(Ord. 20-76. Passed 3-9-76.)

732.14 REVOCATION OF LICENSE.

The Chief of Police, upon conviction of a person for the violation of any of the provisions of this chapter or of any penal statute relating to pawnbrokers, shall revoke his license.

(Ord. 20-76. Passed 3-9-76.)

732.99 PENALTY.

Any person or persons, either for themselves or as an officer, agent or employee of any person, firm or corporation, who violates any provision of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

741.01 DEFINITIONS.

Whenever used in this chapter, the following words shall be as herein defined unless a different meaning clearly appears from the context:

- (a) "Canvassing" or "canvasser" or "solicitation" or "solicitor" includes any person who calls at residences or places of business without the invitation or previous consent of the owner(s) or occupant(s) of such premises for the purpose of any one or more of the following activities:
 - (1) Seeking to obtain orders for the purchase of goods, wares, merchandise, foodstuffs or services of any kind, character or description whatever, for either present or future delivery; or
 - (2) Seeking to obtain prospective customers for application or purchase of insurance of any type, kind or character; or
 - (3) Seeking to obtain subscriptions to books, magazines, periodicals, newspapers and every other type or kind of publication;
 - (4) Seeking to obtain contributions or to sell any goods, articles or services of any kind for the support or benefit of any charitable, religious or nonprofit association, organization, corporation or project; or
 - (5) Seeking to obtain from an occupant of any residence an indication of such occupant's belief in regard to any social, political or religious matter; or
 - (6) Seeking to influence the personal belief of the occupant of any residence in regard to any social, political or religious matter; or
 - (7) Taking of a poll or census by any person, firm or corporation other than a governmental body or agency thereof.
- (b) "Canvasser for charitable or religious purposes" means any person who calls at residences or places of business without the invitation or previous consent of the owner(s) or occupant(s) of such premises for the purpose of soliciting or receiving contributions or pledges for charitable or religious purposes, or to offer or attempt to sell, or request a donation for, any advertisement, advertising space, book card, change, coupon, device, magazine, merchandise, ticket, token, flag, souvenir, foodstuff, service or any other article or thing in connection with which any appeal is made for any charitable or religious purpose, or when or where in connection with any such sale, donation or contribution, any statement is made that the whole or any part of the proceeds of any such sale will go to or be donated to any charitable or religious purpose.
- (c) "Charitable" includes the words patriotic, philanthropic, social service, welfare, eleemosynary, benevolent, education, civic, fraternal, veteran's, medical and social research, either actual or purported.
- (d) "Contribution" includes the words gift, food, clothing, money, property or donations of any kind, including those made under the guise of a loan of money or property.
- (e) "Person" means any individual, firm, partnership, corporation, company, association, joint stock company, church, religious sect, religious denomination, society, organization or league, or any combination of them, and includes any trustee, member, receiver, assignee, agent or other representative thereof.
- (f) "Religious" and "religion" as used herein shall not include the word charitable, but shall be given their commonly accepted definitions.
- (g) "Religious organization" means any church, body of communicants or group that is not organized or operated for profit that gathers in common membership for regular worship and religious observances.
- (h) "Residence" means every separate living unit occupied for residential purposes by one or more persons, contained within any type of building or structure.
(Ord. 43-92. Passed 6-23-92.)

741.02 LICENSE REQUIRED.

No person shall peddle or solicit without having an unrevoked license from the City to do so, valid and in effect at the time.

(Ord. 820-59. Passed 7-6-59.)

741.03 LICENSE ISSUANCE.

Licenses shall be issued by the Chief of Police upon the applicant's complying with the following provisions:

- (a) Giving his name, present address and his permanent address;
- (b) Giving a brief description of the nature of the business and the kinds of goods or property to be peddled or solicited;
- (c) Paying the license fee required by this chapter for such license;
- (d) Giving the name and address of the licensed employer and exhibiting credentials showing he is an authorized employee or representative of such licensed employer, in the event the application is for an employee's license.

(Ord. 37-89. Passed 4-25-89.)

741.04 REGISTRATION REQUIRED.

Every person who desires to peddle or solicit shall register in a registration book provided for that purpose in the Division of Police, his name and address, the name and address of the person whom he represents, the names and addresses of at least two references as to his moral character, honesty and integrity, a brief description of the nature of the business in which he is engaged and the kind of goods or property to be peddled or solicited for, if any. Such person shall furnish his fingerprints and thumbprints to be taken by the Division of Police.

No person shall be registered and no permit be issued except upon such person's exhibiting a valid license for peddling or soliciting, or a clearance from the license collector stating that no license is required.

Such registration shall be valid for a period of one year and such person must register at the end of each year by period.

As evidence of compliance with the provisions of this section, the Division of Police shall issue to each person who complies a permit which shall show the name and address of such person, the name of the person he represents or by whom he is employed, if any, and the kind of goods or property to be peddled or solicited for.

No person shall peddle or solicit without having complied with the provisions of this section.

(Ord. 820-59. Passed 7-6-59.)

741.05 LICENSE FEE.

(a) Every person desiring a solicitor's or peddler's license shall pay to the City a license fee of sixty dollars (\$60.00) per year, payable in advance. A six month's license may be issued upon the payment of thirty dollars (\$30.00).

(b) Any individual having a valid solicitor's or peddler's license and who actually peddles or solicits himself, may have licenses issued to his employees in accordance with subsection (c).

(c) Employees of any licensed solicitor or peddler shall pay to the City a license fee of fifteen dollars (\$15.00) per year, payable in advance. A six month employee's license may be issued upon the payment of seven dollars and fifty cents (\$7.50).

(Ord. 820-59. Passed 7-6-59.)

741.06 LICENSE TO BE CARRIED; DISPLAY.

Every solicitor or peddler licensed under this chapter shall have his license in his immediate possession at all times when peddling or soliciting and when so peddling or soliciting shall display the same upon demand of any police officer of the City and upon demand of any person to whom he is peddling or soliciting.

(Ord. 820-59. Passed 7-6-59.)

741.07 PERMIT TO BE CARRIED; DISPLAY.

Every solicitor or peddler at all times while engaged in peddling or soliciting shall have in his immediate possession the permit issued to him under the provisions of Section 741.04 and when so peddling or soliciting shall display the same upon demand of any police officer of the City and upon demand of any person to whom he is peddling or soliciting.

(Ord. 820-59. Passed 7-6-59.)

741.08 TIME LIMIT ON CANVASSING OR SOLICITATION.

It is unlawful and shall constitute a nuisance for any person to go upon any premises and ring the doorbell upon or near any door of a residence located thereon, or rap or knock upon any door, or create any sound in any manner calculated to attract the attention of any occupant of such residence, for the purpose of securing an audience with the occupant(s) thereof and to engage in canvassing as defined in Section 741.01, prior to 9:00 a.m. or after 9:00 p.m., Monday through Sunday or on a State or national holiday.

(Ord. 43-92. Passed 6-23-92.)

741.09 NOTICE PROHIBITING CANVASSING OR SOLICITATION.

Notice by the owner(s) or occupant(s) of any residence or place of business of the determination to refuse to receive any uninvited canvassers or solicitors shall be given by displaying a weatherproof card, decal or sign not less than three inches by two inches in size nor more than thirty square inches in total surface area upon or near the main entrance door to the residence or place of business, indicating such determination by the owner or occupant, containing the words "No Solicitors Invited" or "No Soliciting", with letters at least one-fourth inch in height with reference to this section of the Codified Ordinances. Any such sign which complies with the requirements of this section shall be exempt from any additional or different requirements contained in the provisions of the Planning and Zoning Code.

(Ord. 43-92. Passed 6-23-92.)

741.10 FALSE REPRESENTATION.

No peddler or solicitor shall represent by words, writing or action that he is some other peddler or solicitor, that he is a partner, employee or agent of any peddler or solicitor when in fact he is not the partner, agent or employee of such peddler or solicitor, or that he is the employee, representative, agent or partner of any person when in fact he is not the employee, representative, agent or partner of such person.

(Ord. 820-59. Passed 7-6-59.)

741.11 UNNECESSARY NOISE.

No peddler or solicitor shall cry his wares in a loud voice or use any noise-producing device other than a soft chime, the limit of audibility of which shall be one hundred feet from the source of such sounds, nor shall any peddler commit any breach of peace in crying his wares or soliciting the sale of his products.

(Ord. 820-59. Passed 7-6-59.)

741.12 SALES ON PUBLIC GROUND.

No person shall sell or distribute on the streets, alleys, parks or other public grounds of the City any goods, wares or merchandise.

(Ord. 820-59. Passed 7-6-59.)

741.13 METAL TAG FOR VEHICLES. (REPEALED)

(EDITOR'S NOTE: Former Section 741.13 was repealed by Ordinance 37-89, passed April 25, 1989.)

741.14 LICENSES AND PERMITS NONTRANSFERABLE.

(a) Licenses and permits issued pursuant to this chapter shall not be assigned or transferred, nor shall they, or either of them, be used by any person other than the person to whom they were issued, except as herein provided. No person shall transfer, loan or permit the use of his license or permit by any other person, except as herein provided.

(b) Where a person who is not himself soliciting or peddling, has taken out licenses for bona fide employees, and such licenses are issued in the names of the employer and the employee, the license may be transferred subject to the following conditions:

- (1) The license and the permit must be presented to the Police Chief.
- (2) The permit is to be retained by the Police Chief.
- (3) A notation must be made upon the license to indicate its transfer from one employee to another.

- (4) The new employee must comply with the provisions of Section 741.04.
(Ord. 37-89. Passed 4-25-89.)

741.15 LICENSE EXCEPTIONS.

The provisions of Sections 741.02 and 741.05 shall not apply to the following:

- (a) Any person soliciting or peddling anything which such person has personally manufactured or produced. This exemption shall apply only to natural persons.
- (b) Any farmer, poultryman or horticulturist soliciting or peddling his own produce. This exemption shall apply only to natural persons and shall not apply to farmers, poultrymen or horticulturists who buy goods for resale, as well as selling their own produce.
- (c) Any person soliciting for personal services to be performed by the person so soliciting. This exemption shall apply only to natural persons.
- (d) Any natural person soliciting or peddling for or selling tickets for any religious, charitable, school, educational or veteran's organization.
- (e) Any peddling of or soliciting for the sale of religious or educational publications and books.

(Ord. 820-59. Passed 7-6-59.)

741.16 EMPLOYEE'S LICENSE PROHIBITED FOR EXEMPTED PERSONS.

No employee's license shall be issued under the provisions of subsection (b) of Section 741.05 to any employee of any solicitor or peddler exempted from the payment of a license fee by the provisions of Section 741.15. Every employee of such solicitor or peddler shall obtain a license and pay the fee required by subsection (a) of Section 741.05.

(Ord. 820-59. Passed 7-6-59.)

741.17 EXEMPTIONS.

The prohibitions contained in this chapter shall not apply to any persons selling or delivering newspapers, to any duly authorized solicitor soliciting the purchase of goods, wares, merchandise or gifts for or on behalf of any recognized educational, civic, religious or charitable organization nor to any person specifically exempted by law, except as to those provisions contained in this chapter relating to registration requirements of those hereby permitted to conduct such solicitations and except as otherwise provided in this chapter.

(Ord. 43-92. Passed 6-23-92.)

741.18 REVOCATION OF LICENSE; APPEAL.

Licenses issued pursuant to this chapter may be revoked by the Mayor after notice and hearing, for any of the following causes:

- (a) Fraud, misrepresentation or any false statement contained in the application for a license.
- (b) Fraud, misrepresentation or any false statement made to the Division of Police in furnishing the information required by Section 741.04.
- (c) Any violation of this chapter.
- (d) Conviction of the licensee of any felony or crime involving moral turpitude.
- (e) Conducting the soliciting or peddling in an unlawful manner or in such a manner as to constitute a breach of the peace or to be a menace to the health, safety or general welfare of the people of the City.
- (f) Conducting the soliciting or peddling by motor bicycles, bicycles, scooters or motorcycles.

Notice of the hearing for revocation of a license shall be given in writing, stating the grounds of the complaint and the time and place of hearing. Such notice shall be mailed, postage prepaid, to the licensee at the address given on the application for the license, at least five days prior to the date set for the hearing.

Any person aggrieved by the decision of the Mayor shall have the right to appeal to Council. Such appeal shall be taken by filing with the Clerk a written statement of the grounds for the appeal within fourteen days after notice of the decision by the Mayor has been given.

Council shall set the time and place for hearing such appeal, and notice of such time and place shall be given by the Clerk in the manner hereinabove provided for notice of hearing of revocation by the Mayor.

(Ord. 820-59. Passed 7-6-59.)

741.19 PROSECUTION FOR VIOLATION.

Conviction and punishment of any person for peddling or soliciting without a license shall not excuse or exempt such person from the payment of any license fee due or unpaid at the time of such conviction and nothing in this chapter shall prevent criminal prosecution for any violation of any provision of this chapter.

(Ord. 820-59. Passed 7-6-59.)

741.20 CHARITABLE OR RELIGIOUS PURPOSES.

(a) Registration Required. No person shall act as a canvasser for charitable or religious purposes in this City without first having registered as such with the Police Chief. No fee shall be required. However, the Police Chief shall issue a registration certificate to each applicant and such certificate shall be carried on the person of the registrant at all times when engaged in such canvassing, solicitation or sales and shown on request of any police officer or any person of whom a request for contribution or offer to sell is made. Each canvasser or solicitor shall provide a written receipt and, if applicable, a statement attesting to the organization's exempt status under Section 501 of the Federal Internal Revenue Code if requested to do so by the person making a contribution or purchase. Such receipt shall show the name of the organization, amount of the contribution and the date and shall be signed by the solicitor.

An organization which desires to place a number of canvassers or solicitors for charitable or religious purposes in the City simultaneously may make a group application to cover all of them, however, separate registration certificates shall be issued to each or, in lieu thereof, a separate information card shall be issued to each canvasser or solicitor by the registered organization. Such information card shall include, at a minimum, the name of the registered organization; a description of the purpose of the solicitation; the period for which the registration was issued; the name of the canvasser or solicitor; a brief description of the canvasser or solicitor, such as age, weight and height; the signature of the canvasser or solicitor and the signature of a member of the registered organization.

(b) Registration Application; Contents. Application for a certificate of registration shall be made upon a form provided by the Police Chief. Each application shall contain, among other information, the name, address and the phone number of the person completing the application; the name, address and telephone number of the organization for which he purports to act; the name of an officer or other official of the organization; the nature of the charitable or religious purpose to which the contributions, donations or sale proceeds will be applied in the case of canvassers for charitable or religious purposes; the compensation, if any, which he or other canvassers are to receive for their services; and such other information as the Police Chief may require.

(c) Thirty-Day Limitation. In no case shall any registration certificate for canvassers for charitable or religious purposes or door-to-door salespersons in interstate commerce be valid for more than a thirty-day period. The certificate of registration shall state the expiration date thereof.

(d) Exceptions. The provisions of this section shall not apply to solicitations conducted only among the members of the entity or organization conducting the canvassing or to those in the form of collections or contributions at the regular assemblies, meetings or services of any such established charitable or religious organization.

(e) Registration Revocation. Any registration issued hereunder shall be revoked by the Police Chief if the holder thereof is convicted of a violation of any of the provisions of this chapter, or has made a false material statement in the application.

Immediately upon such revocation, written notice thereof shall be given by the Police Chief to the holder of the registration in person or by certified U.S. mail addressed to his or her residence address as set forth in the application. Immediately upon the giving of such notice the license shall become null and void.

(f) Fraudulent Solicitations Prohibited.

- (1) No person, canvasser or solicitor shall make or perpetrate any misstatement, deception or fraud in connection with any solicitation of any contribution for any charitable purpose.
- (2) No person having entered into an agreement to conduct any solicitation in behalf of any person for any charitable purpose shall fail to remit or pay to the party entitled thereto the proceeds of such solicitation in accordance with the true terms of the agreement.

(Ord. 43-92. Passed 6-23-92.)

741.21 CANVASSING OR SOLICITATION IN VIOLATION OF NOTICE.

It is unlawful and shall constitute a trespass for any person to go upon any premises and ring the doorbell upon or near any door, or rap or knock upon any door or create any sound in any other manner calculated to attract the attention of any occupant of such residence or place of business for the purpose of securing an audience with; the occupant(s) thereof and engage in canvassing as defined in Section 741.01 in defiance of the notice exhibited at the residence or place of business in accordance with the provisions of Section 741.09.

(Ord. 43-92. Passed 6-23-92.)

741.22 PROHIBITION OF TELEPHONE SOLICITATION.

(a) The practice of telephoning any private residence or dwelling in the City without having been requested or invited to do so by the owner or occupant for the purpose of soliciting orders for the sale of goods or services, for the purpose of soliciting the purchase of goods or services, for the purpose of soliciting a contract or agreement to purchase goods or services, for the purpose of soliciting the sale of such owner's property where such homeowner has not indicated a desire to be so solicited, or for the purpose of any commercial solicitation which results or is intended to result in the sale of goods or services, regardless of the form, guise or method of such solicitation, is prohibited.

(b) Any practice or act prohibited by this section shall be deemed to have occurred or to have been committed either at the place at which the telephone call was made or at the place at which the telephone call was received.

(Ord. 68-92. Passed 8-25-92.)

741.99 PENALTY.

Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 743

Ice Cream Trucks

743.01 Definitions.

743.02 License required.

743.03 Inspection and equipment required.

743.04 Insurance.

743.05 Restrictions.

743.06 Duties of approaching chieles.

743.99 Penalty.

743.01 DEFINITIONS.

As used in this section:

- (a) "Ice cream truck" means every motor vehicle from which ice cream, popsicles, ice sherbets or frozen desserts of any kind are dispensed for purposes of retail sale on the City's streets.
- (b) "Operator" means every person, firm, partnership, or corporation who or which owns, leases, contracts or in any other fashion permits a person to operate upon the City's streets any ice cream truck for the purpose of vending.

- (c) "Person" means every driver and/or passenger of an ice cream truck.
(d) "Vend" or "vending" means offering ice cream, popsicles, ice sherbets or frozen desserts for sale from a motor vehicle on the City's streets.
(Ord. 38-2011. Passed 7-12-11.)

743.02 LICENSE REQUIRED.

- (a) No operator shall perform or cause to be performed vending activities as defined in this chapter without having an unrevoked license from the City to do so.
(b) Licenses under this section will be issued by the Chief of Police upon an application form provided by the City being accurately completed by an operator and meeting the requirements and restrictions set forth in this chapter, including the annual inspection required by Section 743.03. (Ord. 38-2011. Passed 7-12-11.)

743.03 INSPECTION AND EQUIPMENT REQUIRED.

(a) Any person vending from ice cream trucks on the City's streets shall have any vehicle used for such vending inspected by the City's Division of Police for safety and for equipment required by this Section 743.03. Said inspection for safety may include, but may not be limited to, inspection of all lights, tire tread, mirrors, and any other features deemed relevant to safety by the City's Division of Police. The inspection shall be conducted annually prior to the issuance of a license, as required in this chapter, and at such other times as the Division of Police deems necessary in order to assure compliance with this chapter.

(b) The inspection provided for in subsection (a) hereof shall take place before any license is issued. Such license will not be issued unless all vehicles to be used by the applicant for vending are equipped with the following:

- (1) Two six-inch or larger flashing amber lights in front and on top of the vehicle;
- (2) Two six-inch or larger flashing amber lights in the rear and on top of the vehicle;
- (3) Front and rear vehicle signs with the words "Slow-Children" displayed in eight-inch black letters on a yellow background;
- (4) A stop signal arm that can be extended horizontally from the left side of the truck duplicating the design, as set forth in the State Manual of Uniform Traffic Control Devices. This arm shall be red and white in color and shall contain two alternately flashing lights three to five inches in diameter at the top and bottom thereof, visible at 300 feet to the front and rear in normal sunlight upon a straight level street. The two lights facing to the front shall be red and the two lights facing to the rear shall be red. The bottom of the signal arm shall be 42 inches above the highway.
The driver of an ice cream truck stopped on the streets for the purpose of vending shall actuate the special flashing lights and extend the stop signal arm. These lights and the stop signal arm shall not be used when the truck is in motion, nor at any time the truck is stopped for a purpose other than vending;
- (5) A convex mirror mounted on the front so that the driver in his or her normal seating position can see the area in front of the truck obscured by the hood;
- (6) Once issued, the license must be prominently displayed in plain view at all times that the vehicle is in operation within the City; and
- (7) Each applicant will pay the non-refundable fee of one hundred dollars (\$100.00) for such license for that calendar year.
(Ord. 38-2011. Passed 7-12-11.)

743.04 INSURANCE.

(a) No license shall be issued to an operator or person selling from an ice cream truck unless a certificate is furnished to the City showing that the vendor is carrying the following minimum amounts of insurance: general commercial liability insurance in an amount of not less than one million dollars (\$1,000,000) for injuries, including those resulting in death, resulting from any one occurrence and on account of any one accident, and property damage insurance in an amount of not less than one hundred thousand dollars (\$100,000) for damages on account of any one accident or occurrence.

(b) Insurance certificates shall contain an agreement signed by the insurance company that prior to modification, cancellation or termination of the subject policy, advance written notice of at least thirty (30) days shall be sent to the City's Division of Police by said insurance company.
(Ord. 38-2011. Passed 7-12-11.)

743.05 RESTRICTIONS.

- (a) A person shall vend only when the ice cream truck is lawfully stopped.
(b) A person shall vend only from the side of the truck away from moving traffic and as near as possible to the curb or side of the street. Double parking is prohibited. For purposes of this Section 743.05, "double parking" shall mean stopping the truck for the purpose of vending products alongside of another vehicle already parked parallel to the curb.
(c) A person shall not vend to a person standing in the roadway.
(d) Ice cream trucks shall be limited to travel only on public streets when vending products. Travel within public parks and vending on the portion of any street which is adjacent to public park property is prohibited.
(e) The operator of any ice cream truck which traverses the streets of the City for the purpose of vending products shall submit to the City's Division of Police, prior to commencing business each year, or as requested hereafter, a detailed listing of the routes to be traveled each day by said motor vehicle. The Division of Police shall approve or disapprove such routes within 30 days thereafter. Any routes not approved by the Division of Police shall not be utilized by said operator. Disapproval of a route shall be only for traffic safety or other safety reasons. There shall be no vending on Richmond Road, Highland Road, Monticello Boulevard, Chardon Road, Trebisky Road, White Road, Brush Road, and Wilson Mills Road, as well as within 100 yards of any school boundary. There shall be no vending between sunset, as defined in a newspaper of general circulation within Cuyahoga County, and 10:00 a.m. the following day.
(e) No person convicted of any of the following crimes, in any jurisdiction, shall be permitted to operate or be a passenger on a vehicle for vending within the City: any sex crime, domestic violence crime, any crime against or involving a minor, any crime of violence. No person who has been convicted of three or more moving traffic offenses in any jurisdiction within the last two years shall be permitted to operate an ice cream truck. No license, as required in this chapter, shall be issued to any owner or operator of such vehicle until driving records of every operator of such vehicle are provided to the Division of Police and approved by the Chief of Police.
(f) The applicant shall supply to the City, proof of a criminal record check. Such criminal history shall be obtained by the applicant by obtaining a set of fingerprints, which shall be sent to the Ohio Bureau of Criminal Investigation for such record check. The results of said record check from the Ohio Bureau of Criminal Investigation shall be supplied to the Division of Police with the license application for review. This provision applies to all persons as defined in Section 743.01(c).
(g) The applicant shall supply the City, if applicable, the proper permit from the County Board of Health for vending food products.
(h) The driver of an ice cream truck shall not back up an ice cream truck to make or attempt to make a sale.
(Ord. 38-2011. Passed 7-12-11.)

743.06 DUTIES OF APPROACHING VEHICLES.

- (a) The driver of a vehicle meeting or overtaking, from either direction, an ice cream truck stopped on the street, shall stop no less than 25 feet from the front or rear of said truck when the flashing lights and stop signal arm as provided for in division (d) of this section are in use. After stopping, a driver may proceed past such truck at a reasonable and prudent speed, not exceeding 15 miles per hour, and shall yield the right-of-way to any pedestrian who crosses the roadway to or from the ice cream truck.
(b) The driver of vehicle on a street with separate roadways separated by a divider of any kind need not stop upon meeting or passing an ice cream truck that is located on the other parallel roadway. (Ord. 38-2011. Passed 7-12-11.)

743.99 PENALTY.

- (a) Whoever violates or fails to comply with any of the provisions of this chapter is guilty of a misdemeanor of the fourth degree for a first offense and shall be fined not more than two hundred fifty dollars (\$250.00) or imprisoned not more than 30 days, or both, if an individual person, and if not an individual person, shall be fined not more than one thousand dollars (\$1,000) for each offense. For any subsequent offense, such person is guilty of a misdemeanor of the first degree and shall be fined not more than one thousand dollars (\$1,000) or imprisoned not more than 180 days, or both, if an individual, and shall be fined not more than five thousand dollars (\$5,000), if an organization, subject to the provisions of Sections 501.11 and 501.12 of the General Offense Code, for each offense. A separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.
(b) The conviction and punishment of any person for peddling or soliciting without a license shall not excuse or exempt such person from the payment of any license fee due or unpaid at the time of such conviction, and nothing in this chapter shall prevent a criminal prosecution for any violation of any provision of this chapter.
(Ord. 38-2011. Passed 7-12-11.)

CHAPTER 749

Housing Delivery System

749.01 Purpose.

749.02 Definitions.

749.03 Exemptions.

749.04 Unlawful discriminatory housing practices.

749.05 Unlawful discriminatory housing practices against persons with disabilities.

749.06 Fair Housing Review Board; creation, duties, responsibilities.

749.07 Complaints.

749.08 Investigation of complaints.

749.09 Conciliation.

749.10 Injunctive relief.

749.11 Pattern or practice of discrimination.

749.12 Other judicial relief.

749.13 Intimidation or interference in housing.

749.14 Scope/severability.

749.99 Penalty.

Unlawful discriminatory practices - see Ohio R.C. 4112.02

749.01 PURPOSE.

It is hereby declared to be the purpose of this chapter to provide, within constitutional limitations, for fair housing throughout the City, to assure that all persons have full and equal opportunity to consider all available housing for themselves and their families within the City without being discriminated against on the basis of race, color, religion, sex, ancestry, handicap, familial status or national origin, and to promote a stable, racially integrated community.
(Ord. 91-2006. Passed 11-14-06.)

749.02 DEFINITIONS.

- (a) "Board" means the Fair Housing Review Board.
(b) "Covered multi-family dwellings" means buildings consisting of four or more units, if such buildings have one or more elevators, and ground floor units in other buildings consisting of four or more units.
(c) "Discriminate" or "discrimination" means to segregate or separate persons in a particular manner solely or in part because of race, religion color, sex, national origin, age, disability or handicap, familial status or ancestry. However, it does not include special outreach efforts conducted by, or under the authority of units of local government or non-profit fair housing corporations or agencies to administer the programs and activities relating to housing and urban development in a manner which affirmatively furthers the policy of this chapter.
(d) "Dwelling" means a building or structure, or part thereof, used or designed or intended to be used for residential purposes.
(e) "Handicap" means a physical or mental impairment that substantially limits one or more major life activities, including the functions of caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working; a record of a physical or mental impairment; or being regarded as having a physical or mental impairment, but such term does not include current, illegal use of or addition to, a controlled substance, as defined in 21 U.S.C. Section 802. The term "disabled" or "disability" may be used in place of, or may be interchangeable with, the term "handicap."
(f) "Familial status" refers to the status of:
(1) One or more individuals (who have not attained the age of 18 years) being domiciled with:

- A. Parent or other person having legal custody of such individual or individuals; or
- B. The designees of such parent or other persons having such custody, with the written permission of such parent or other persons.
- (2) Any person who is pregnant or is in the process of securing legal custody of any individual who has not attained the age of eighteen years.
- (g) "Housing accommodations" or housing or dwelling means any building which is used or occupied or is intended be used or occupied as the home residence, dwelling unit, or sleeping place of one or more individuals, groups, or families whether or not living independently of each other, and any vacant land zoned residential and offered for sale or lease. It also includes any housing accommodations held or offered for sale or rent by a real estate broker.
- (h) "Housing for older persons" means housing: (1) Provided under any State or Federal program that the Secretary of HUD determines is specifically designed and operated to assist elderly persons (as defined in the State or Federal program); or (2) Intended for, and solely occupied by, persons sixty-two (62) years of age or older; or (3) Intended and operated for occupancy by at least one person fifty-five (55) years or older per unit. The determination as to whether housing qualifies as housing for older persons under this subsection shall be consistent with regulations promulgated by the Secretary of HUD, providing at least the following factors: (a) The existence of significant facilities and services specifically designed to meet the physical or social needs of older persons, or if the provision of such facilities and services is not practicable, that such housing is necessary to provide important housing opportunities for older persons; and (b) That at least eighty percent (80%) of the units are occupied by at least one (1) person fifty-five (55) years of age or older per unit; and (c) The publication of, and adherence to, policies and procedures which demonstrate an intent by the owner or manager to provide housing for persons fifty-five (55) years of age or older. Housing shall not fail to meet the requirements of housing for older persons by reason of: (i) Persons residing in such housing as of the date of enactment of the Fair Housing Act of 1988 who do not meet the age requirements of this subsection; provided that the new occupants of such housing meet such age requirements; or (ii) Unoccupied units; provided that such units are reserved for occupancy by persons who meet the age requirements of this subsection.
- (i) "Lending institutions" means any bank, savings and loan association, insurance company, or other organization or person regularly engaged in the business of lending money, guaranteeing loans for profit, or otherwise providing financial assistance or insurance in connection with the purchase, sale or rental of dwellings.
- (j) "Person" means one (1) or more individuals, corporations, partnerships, associations, labor organizations, legal representatives, mutual companies, joint stock companies, trusts, unincorporated organizations, trustees, trustees in bankruptcy, receivers or fiduciaries.
- (k) "Protected group" or "protected class" refers to persons who are or may be discriminated against on the basis of race, religion, color, sex, national origin, disability or handicap, familial status or ancestry.
- (l) "Purchase" means to obtain a dwelling through sale.
- (m) "Real Estate Broker" means a real estate agent or salesperson, or a limited real estate broker or salesperson, as defined in Ohio R.C. 4735.01.
- (n) "Rent" or "Rental" means to lease, sublease, assign or otherwise grant or obtain the right to occupy a dwelling not owned by the occupant in return for consideration, or a contract or option to do any of the foregoing.
- (o) "Sale" or "Sell" means to convey, exchange, transfer or assign legal or equitable title to, or beneficial interest in, a dwelling in return for consideration, or a contract or option to do any of the foregoing.
- (p) "Sexual orientation" means a person's actual or perceived homosexuality, bisexuality or heterosexuality, by orientation or practice.
- (q) "Unlawful discriminatory housing practice" means any act prohibited by Section 749.04 and/or 749.05.

(Ord. 91-2006. Passed 11-14-06.)

749.03 EXEMPTIONS.

The provisions of this chapter shall not:

- (a) Prohibit a religious organization, association or society, or any nonprofit institution or organization operated, supervised or controlled by or in conjunction with a religious organization, association or society, from limiting the sale, rental or occupancy of dwellings which it owns or operates for other than a commercial purpose to persons of the same religion, or from giving preference to such persons, unless membership in such religion is restricted on account of race, color, or national origin. Nor shall anything in this chapter prohibit a private club not in fact open to the public, which as an incident to its primary purpose or purposes provides lodgings which it owns or operates for other than a commercial purpose, from limiting the rental or occupancy of such lodgings to its members or from giving preference to its members, provided such club does not discriminate in its membership policies on the basis of race, color, religion, sex, ancestry, handicap, familial status or national origin.
- (b) Require any person selling or renting property to modify such property in any way at his or her expense, provided that such person does not refuse to permit reasonable modifications by a disabled person, which are necessary for that person to fully enjoy the premises in which he or she resides, when such modifications are made at the expense of the disabled person, which permission may be reasonably based on the disabled person's promise to restore the premises to the condition in which it previously existed before granting permission for such modification, nor shall this chapter be construed to relieve any disabled person of any obligation generally imposed on all persons regardless of disability in a written lease, rental agreement, or contract of purchase or sale, or to forbid distinctions based on the inability to fulfill the terms and conditions, including financial obligations, of the lease, agreement, or contract, so long as such distinctions are not based on the disability, or on the landlord's refusal to make reasonable modifications in the lease, agreement, or contract conditions for the purpose of denying a disabled person equal opportunity to use and enjoy the premises.
- (c) Prohibit restricting the sale or rental of a dwelling on the basis of handicap when such a dwelling is authorized, approved, financed or subsidized in whole or in part for the benefit of persons of a handicap by a unit of state, local or federal government, so long as such restrictions do not discriminate against otherwise qualified handicapped persons.
- (d) Require that a dwelling be made available to a person whose tenancy would constitute a direct threat to the health or safety of other individuals or whose tenancy would result in substantial physical damage to the property of others.
- (e) Prohibit the application of any reasonable local, State or Federal restrictions regarding the maximum number of occupants permitted to occupy a dwelling.
- (f) With regard to familial status, apply to dwellings provided under any State or Federal program specifically designed and operated to assist elderly persons, as defined in the State or Federal program, or to housing for older persons provided that HUD has determined that such program or housing is exempt, which determination shall be conclusive.
- (g) Prohibit a person engaged in the business of furnishing appraisals of real property to take into consideration factors other than membership in a protected class.

(Ord. 91-2006. Passed 11-14-06.)

749.04 UNLAWFUL DISCRIMINATORY HOUSING PRACTICES.

It shall be unlawful to:

- (a) Refuse to sell or rent, after the making of a bona fide offer, or to refuse to negotiate for the sale or rental of, or otherwise make unavailable or deny a dwelling to any person because of membership in a protected class.
- (b) Discriminate against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the furnishing of facilities, services or privileges in connection with the occupancy, ownership or use of any housing accommodations, including the sale of fire, extended coverage, or homeowners insurance, because of membership in a protected class or because of the racial composition of the neighborhood in which the housing accommodations are located.
- (c) Make, print, circulate, or publish, or cause to be made, printed, or published, any written or oral notice, statement, or advertisement, with respect to the sale or rental of a dwelling that indicates any preference, limitation, or discrimination based on membership in a protected class or an intention to make such preference, limitation, or discrimination. Discriminatory notices, statements and advertisements include, but are not limited to:
 - (1) Using words, phrases, photographs, illustrations, symbols, or forms which convey that dwellings are available or not available to a particular group of persons because of membership in a protected class.
 - (2) Expressing to agents, brokers, employees, prospective sellers or renters or any other persons a preference for or limitation on any purchaser or renter because of membership in a protected class.
 - (3) Selecting media or locations for advertising the sale or rental of dwellings which deny particular segments of the housing market information about housing opportunities because of membership in a protected class.
 - (4) Refusing to publish advertising for the sale or rental of dwellings, or requiring different charges or terms for such advertising because of membership in a protected class.
 - (d) Represent to any person because of membership in a protected class that any dwelling is not available for inspection, sale, or rental when such dwelling is in fact available.
 - (e) For profit, to induce or attempt to induce any person to sell or rent any dwelling by representations regarding the entry or prospective entry into the neighborhood of a person or persons of a particular protected class.

Prohibited actions under this section include, but are not limited to:

 - (1) Engaging for profit in conduct (including uninvited solicitations for listings) which conveys to a person that a neighborhood is undergoing or is about to undergo a change in persons of a particular protected class, in order to encourage persons to offer a dwelling for sale or rental.
 - (2) Encouraging, for profit, any person to sell or rent a dwelling, through assertions that the entry or prospective entry of persons of a particular protected class can or will result in undesirable consequences for the project, neighborhood or community, such as a lowering of property values, an increase in criminal or antisocial behavior, or a decline in the quality of schools or other services or facilities.
 - (3) Soliciting or entering into any agreement for the sale, lease or listing for sale or lease of any real property within the City/Village (on the ground of loss of value) due to the present or prospective entry into any neighborhood of any person or persons of any particular protected class.
 - (4) Distributing or causing to be distributed, written material or statements designed to induce any person to sell or lease real property because of any alleged or actual, present or prospective change in the race, color, religion, sex, handicap, familial status, national origin or ancestry of persons in the municipality or neighborhood.
 - (5) Making any representation concerning the listing for sale or the anticipated listing for sale or the sale of any real property for the purpose of inducing or attempting to induce the sale or listing for sale of any real property, that the presence or anticipated presence of persons of any particular protected class in the area will or may result in the lowering of real property values in the block, neighborhood or area in which the property is located.
 - (f) Discriminate, in connection with borrowing or lending of money, guaranteeing or purchasing loans, accepting mortgages, or otherwise financing the purchase, construction, improvement, repair or maintenance of a dwelling, or the making or purchasing of loans or the provision of other financial assistance secured by residential real estate, because of membership in a protected class. Such discrimination includes, but is not limited to:
 - (1) Denying or delaying any of the services normally offered by such an institution, including the processing of a loan or other financial assistance;
 - (2) Making a transaction unavailable;
 - (3) Varying the terms or conditions, or otherwise discriminating in the fixing of the amount, interest rate, duration, or other terms or conditions of a loan or other financial assistance;
 - (4) Providing any person with any service which is different from, or provided in a different manner than, that which is provided to other persons similarly situated;
 - (5) Refusing to purchase or impose different terms or conditions on loans or other debts or securities which support the purchase, construction, improvement, repair or maintenance of a dwelling, or which are secured by residential real estate; and
 - (6) Denying or vary the terms and conditions of a loan on the basis that a specific parcel of real estate offered as security is located in a specific geographical area.
 - (g) Discriminate in the appraisal of the value of real estate or in the sale of insurance in connection with a real estate transaction because of membership in a protected class.
 - (h) Impose different sale prices or rental charges for the sale or rental of a dwelling upon any person because of membership in a protected class.
 - (i) Use different qualification criteria or applications, or sale or rental standards or procedures, such as income standards, application requirements, application fees, credit analysis or sale or rental approval procedures or other requirements, because of membership in a protected class.
 - (j) Evict tenants because of their membership in a protected class or because of a tenant's guest's membership in a protected class.
 - (k) Enter into a listing agreement which discriminates against any person because of membership in a protected class.
 - (l) Deny any person access to or membership or participation in any multiple-listing service, real estate brokers organization or other service, organization, or facility relating to the business of selling or renting dwellings or to discriminate against any person in the terms or conditions of such access, membership or participation because of membership in a protected class. Prohibited actions under this section include, but are not limited to:
 - (1) Setting different fees for access to or membership in a multiple-listing service based on membership in a protected class.
 - (2) Denying or limiting benefits accruing to members in a real estate brokers organization because of membership in a protected class.
 - (3) Imposing different standards or criteria for membership in real estate or rental organizations based on membership in a protected class.
 - (4) Establishing board or multi-listing service boundaries, residence or office, location or other membership requirements which have the effect of excluding persons from membership because of membership in a protected class.
 - (5) Refusing to hire or contract with any person because of membership in a protected class.
 - (m) Restrict or attempt to restrict, because of membership in a protected class, the choices of a person by words or acts in connection with buying or renting a dwelling so as to perpetuate, or tend to perpetuate, segregated housing patterns, or to discourage or obstruct integrated housing. Prohibited actions under this section, which are generally referred to as unlawful steering practices, include, but are not limited, to the following:
 - (1) Discouraging the purchase or rental of a dwelling because of membership in a protected class by exaggerating drawbacks or failing to inform any person of desirable features of a dwelling or of a community, neighborhood, or development, so as to perpetuate, or tend to perpetuate, segregated housing patterns, or to discourage or obstruct integrated housing.
 - (2) Communicating to any prospective purchaser that he or she would not be comfortable or compatible with existing residents of a community, neighborhood or development because of membership in a protected

- class so as to perpetuate, or tend to perpetuate, segregated housing patterns, or to discourage or obstruct integrated housing.
- (3) Assigning any person to a particular section of a community, neighborhood or development, or to a particular floor of a building, because of membership in a protected class so as to perpetuate, or tend to perpetuate, segregated housing patterns, or to discourage or obstruct integrated housing.
- (4) Failing to inform any person of available housing opportunities in a particular section of a community, neighborhood or development, or in a particular building or particular floor of a building, because of membership in a protected class, so as to perpetuate, or tend to perpetuate, segregated housing patterns, or to discourage or obstruct integrated housing.
- (n) Perform any act of discrimination with the intention or effect of restricting or limiting the housing choice of any person.
- (o) Aid or abet acts performed in violation of this chapter.
- (p) Coerce, intimidate, threaten, or interfere with any person in the exercise or enjoyment of, or on account of his having exercised or enjoyed, or on account of his having aided or encouraged any other person in the exercise or enjoyment or any right granted or protected by this chapter.
- (q) Solicit any owner to sell or rent or list residential property at any time after such person has provided notice that such owner does not desire to sell, rent, or list such residential property. For the purposes of this subsection, notice must be provided as follows:
 - (1) The notice may be given by the owner personally or by a third party in the owner's name, either in the form of an individual notice or a list, provided it complies with subsection (q)(2)B. below.
 - (2) Such notice shall be explicit as to whether each owner on the notice seeks to avoid both solicitation for listing and sale, or only for listing, or only for sale, as well as the period of time for which any avoidance is desired. The notice shall be dated and either of the following shall apply:
 - A. Each owner shall have signed the notice; or
 - B. The person or entity preparing the notice shall provide an accompanying affidavit to the effect that all the names on the notice are, in fact, genuine as to the identity of the persons listed and that such persons have requested not to be solicited as indicated.
- (3) The individual notice or notice in the form of a list with the accompanying affidavit shall be served personally or by certified or registered mail, return receipt requested.

749.05 UNLAWFUL DISCRIMINATORY HOUSING PRACTICES AGAINST PERSONS WITH DISABILITIES.

- (a) It shall be unlawful to:
 - (1) To make an inquiry to determine whether an applicant for a dwelling; a person intending to reside in that dwelling after it is sold, rented or made available; or any person associated with that person has a disability, or to make an inquiry as to the nature or severity of a disability of such a person.
 - (2) To refuse to permit, at the expense of the disabled person, reasonable modifications of existing premises occupied or to be occupied by such person if such modifications may be necessary to afford such person full enjoyment of the premises; except that, in the case of a rental, the landlord may, where it is reasonable to do so, condition permission for a modification on the renter agreeing to restore the interior of the premises to the condition that existed before the modifications, reasonable wear and tear excepted.
 - (3) To refuse to make reasonable accommodations in rules, policies, practices, or services, when such accommodations may be necessary to afford such person equal opportunity to use and enjoy the dwelling, including public and common use areas.
 - (4) In connection with the design and construction of covered multi-family residential property for first occupancy on and after March 13, 1991, fail to design and construct such residential real property in such a manner that:
 - A. The public use and common use portions of such residential real property are readily accessible to and usable by persons with disabilities;
 - B. All the doors designed to allow passage into and within all premises within such dwellings are sufficiently wide to allow passage by disabled persons in wheelchairs; and
 - C. All premises within such dwellings contain the following features of adaptive design:
 - 1. An accessible route into and through the dwelling;
 - 2. Light switches, electrical outlets, thermostats, and other environmental controls in accessible locations;
 - 3. Reinforcements in bathroom walls to allow later installation of grab bars; and
 - 4. Usable kitchens and bathrooms such that an individual in a wheelchair can maneuver about the space.
- (b) It shall be an unlawful discriminatory housing practice to construct multi-family covered dwellings that do not provide for accessibility and usability for physically disabled or handicapped persons in compliance with applicable state or federal law, whichever is controlling.
- (c) However, this section does not prohibit the following inquiries, provided these inquiries are made of all applicants, whether or not they have disabilities:
 - (1) Inquiry into the applicant's ability to meet the requirements of ownership or tenancy.
 - (2) Inquiry to determine whether an applicant is qualified for a dwelling available only to persons with disabilities or to persons with a particular type of disability.
 - (3) Inquiry to determine whether an applicant for a dwelling is qualified for a priority available to persons with disabilities or to persons with a particular type of disability.
 - (4) Inquiry to determine whether an applicant for a dwelling is a current illegal abuser or addict of a controlled substance.
 - (5) Inquiry to determine whether an applicant has been convicted of the illegal manufacture or distribution of a controlled substance.

749.06 FAIR HOUSING REVIEW BOARD; CREATION, DUTIES, RESPONSIBILITIES.

- (a) There is hereby created a Fair Housing Review Board (hereinafter referred to as "FHRB"), consisting of (3) members, who shall be residents of the City and who shall each serve for a term of three (3) years. However, the FHRB shall become effective and the terms of all three FHRB members shall commence on the first day of January following the enactment of this section. The initial term of one member shall be for one year, the initial term for one member shall be two years and the initial term for the third member shall be for three years. Thereafter, all terms shall be for a full-term of three years. Each member shall be appointed by the Mayor of the municipality with the advice and consent of a majority vote of the Council. The Chairperson and co-Chairperson shall be elected annually by a majority of FHRB. FHRB members shall be compensated as may be provided by the Council.
- (b) FHRB shall have and execute with respect to all dwellings and persons subject to this chapter the power to render from time to time, but not less often than every twelve months, a written report to municipal officials of its activities and recommendations with respect to fair housing practices, which written report shall be made public after submission to the Mayor and Council.
- (c) FHRB shall adopt, promulgate, amend and rescind, after approval of the Mayor and Council, such rules and regulations a may be necessary and desirable to carry out the purpose of this chapter.

(Ord. 91-2006. Passed 11-14-06.)

749.07 COMPLAINTS.

- (a) Any aggrieved person may allege that a violation of this section has occurred by filing with FHRB, within one hundred eighty (180) days of the alleged violation, a sworn, written complaint setting forth his or her grievance. The complaint shall state the name and address of the aggrieved party (hereinafter the complainants), the name and address of the person(s) alleged to have committed an unlawful discriminatory housing practice (hereinafter referred to as the "respondent") and the particular facts thereof and such other information as may be required by FHRB. Upon the filing of a complaint, FHRB shall acknowledge the receipt of the complaint and serve notice thereof to the complainant, which notice shall also contain information as to the time limits and choice of forum provided in this chapter.
- (b) Within fifteen (15) calendar days after a complaint has been received by FHRB, FHRB shall serve, or cause to be served, in person, or by certified mail, a copy of the complaint on the respondent alleged to have violated Section 749.04 and/or 749.05. Along with the service of the complaint, the notice shall advise the respondent in writing of his or her procedural rights and obligations pursuant to this chapter. The respondent may file with FHRB an answer to the complaint.

(Ord. 91-2006. Passed 11-14-06.)

749.08 INVESTIGATION OF COMPLAINTS.

- (a) FHRB, within thirty (30) days after a complaint has been received, shall commence an investigation and shall determine that either:
 - (1) There are reasonable grounds to believe that an unlawful discriminatory housing practice has occurred, in which case FHRB shall then initiate the conciliation process set forth in Section 749.09; or
 - (2) There are no reasonable grounds to believe that an unlawful discriminatory housing practice has occurred, in which case the FHRB shall dismiss the complaint by preparing a written notice of dismissal, within five (5) days, by serving a copy of the notice of dismissal by certified mail on the parties. The notice of dismissal shall advise the complainant of his or her right of appeal under this section. Within fourteen (14) days of receipt of notice of dismissal, the complainant may appeal by filing a written request with FHRB for a review of the complaint. By a majority vote, FHRB may reverse the dismissal and refer the complaint to conciliation, pursuant to Section 749.09.
- (b) FHRB shall complete the investigation within one hundred (100) days after receipt of the complaint, unless impracticable, in which case FHRB shall inform, in writing, the complainant and the respondent of the reasons why the investigation cannot be completed within the time prescribed.
- (c) FHRB may be assisted in the investigation by a fair housing agency or other organization or person under contract with the City.

(Ord. 91-2006. Passed 11-14-06.)

749.09 CONCILIATION.

- (a) FHRB may act as conciliator in carryout the procedures set forth in this section or may employ any qualified person to serve as conciliator.
- (b) If FHRB has made a determination pursuant to Section 749.08 that there are reasonable grounds to believe that an unlawful discriminatory housing practice has occurred, or at such other time after a complaint has been filed, as appropriate, the FHRB shall:
 - (1) Notify the complainant and respondent of the time, place, and date of the conciliation conference at least ten (10) days prior thereto, and both parties shall appear at the conciliation conference in person or by attorney; and
 - (2) Attempt to resolve the complaint by methods of conference, conciliation and persuasion with all interested parties and such representatives as the parties may choose to assist them. Conciliation conferences shall be informal, and nothing said or done during such conferences shall be made public unless the parties agree thereto in writing.
 - (3) The terms of conciliation agreed to by the parties shall be reduced to writing and incorporated into a consent agreement to be signed by the parties, subject to approval by FHRB:
 - A conciliation agreement negotiated by the FHRB may include, but is not limited to:
 - A. Sale, exchange, lease, rental, assignment, or sublease of real property to a person;
 - B. Extension to all persons of the full and equal enjoyment of the advantages, facilities, privileges and services of the respondent;
 - C. Reporting as to the manner of compliance;
 - D. Posting of notices in conspicuous places in the respondent's place of business in a form prescribed by the court or the FHRB; and
 - E. Payment to the complainant of actual damages, including compensation for humiliation and embarrassment, and reasonable attorney fees.
 - (4) The terms of the conciliation agreement shall be made public, unless the complainant and the respondent agree otherwise and FHRB determines that disclosure is not required to further the purposes of this chapter.
- (c) If the complaint has not been resolved by conciliation within sixty (60) days after it has been received, the FHRB shall refer the complaint to the Ohio Civil Rights Commission.

(Ord. 91-2006. Passed 11-14-06.)

749.10 INJUNCTIVE RELIEF.

At any time after the filing of a complaint referred to in Section 749.07, FHRB may request the Director of Law to petition the appropriate court for temporary or preliminary relief pending final determination of the proceedings under this chapter, or as otherwise necessary to carry out the purposes of this chapter, including an order or decree restraining the respondent from doing or causing any act which would render ineffectual any order or action made pursuant to this chapter by FHRB.

(Ord. 91-2006. Passed 11-14-06.)

749.11 PATTERN OR PRACTICE OF DISCRIMINATION.

Whenever the FHRB has reasonable cause to believe that any person or persons are engaged in a pattern or practice of resistance to a person or persons' full enjoyment of the rights granted by this chapter, or that any group of persons has been denied any of the rights granted by this chapter and the denial raises an issue of public policy, the FHRB may refer the matter to the Director of Law for commencement of a civil action in a court of competent jurisdiction on behalf of the City. The Director of Law may seek any relief considered necessary to ensure the full enjoyment of the rights granted by this chapter.

(Ord. 91-2006. Passed 11-14-06.)

749.12 OTHER JUDICIAL RELIEF.

The City, the complainant, or any person aggrieved by a violation of any provision of this chapter may at any time within one (1) year from the date of the alleged violation and in lieu of proceeding with the administrative process set forth in this chapter, apply to any court of competent jurisdiction for appropriate relief including, but not limited to:

- (a) Injunctive relief or an order otherwise compelling compliance with this chapter;
 - (b) Compensatory damages and/or punitive damages;
 - (c) Reasonable attorneys' fees and costs to complainant and/or the City as applicable; and/or
 - (d) Such other or further relief as is appropriate for the enforcement of this chapter and elimination of violations thereof.
- (Ord. 91-2006. Passed 11-14-06.)

749.13 INTIMIDATION OR INTERFERENCE IN HOUSING.

No person, whether or not acting under color of law, shall by force or threat of force attempt to injure, intimidate or interfere with any of the following:

- (a) Any person because of membership in a protected class and because that person is or has been selling, purchasing, renting, financing, occupying, contracting, or negotiation for the sale, purchase, rental, financing, occupation of any housing accommodations, or applying for or participating in any service, organization, or facility relating to the business of selling or renting housing accommodations;
 - (b) Any person because that person is, has been, or is considering:
 - (1) Participating, without discrimination on account of membership in a protected class, in any activities, services, organization or facilities described in subsection (a) hereof; and
 - (2) Affording another person or class of persons opportunity or protection so to participate;
 - (c) Any person because that person is, has been, or is considering lawfully aiding or encouraging other persons to participate, without discrimination on account of membership in a protected class, in any of the activities, services, organizations or facilities described in subsection (a) hereof, or participating lawfully in speech or peaceful assembly opposing any denial of the opportunity to so participate.
- (Ord. 91-2006. Passed 11-14-06.)

749.14 SCOPE/SEVERABILITY.

- (a) The provisions of this chapter shall apply to all housing accommodations located within the territorial limits of the City of Richmond Heights.
- (b) If any provision of this chapter is held to be unconstitutional or otherwise invalid by any court of competent jurisdiction, the remaining provisions of the chapter shall not be invalidated.

(Ord. 91-2006. Passed 11-14-06.)

749.99 PENALTY.

- (a) Whoever violates Section 749.13 of this chapter is guilty of a misdemeanor of the first degree.
 - (b) The FHRB may not initiate any criminal proceeding arising under this chapter. However, nothing in this section shall prevent such Board from referring a possible criminal violation to the appropriate authorities.
- (Ord. 91-2006. Passed 11-14-06.)

CHAPTER 757

Picnics and Clambakes

- 757.01 Written report required.**
- 757.02 Application requirements.**
- 757.03 Fees.**
- 757.99 Penalty.**

CROSS REFERENCES

Disturbing the peace - see GEN. OFF. 509.02
Littering - see GEN. OFF. 517.08

757.01 WRITTEN REPORT REQUIRED.

Any person proposing to conduct or sponsor a picnic, clambake or other gathering of adults or more than fifty persons, on privately owned property within the City, shall report such proposal in writing to the Chief of Police not later than twenty-four hours prior to the time of such proposed picnic, clambake or other gathering.

(Ord. 468-54. Passed 6-1-54.)

757.02 APPLICATION REQUIREMENTS.

Such report shall contain the name and address of the person or the names and the addresses of the person or persons representing the group or association, the location where the picnic, clambake or other gathering is proposed to be held, the date and hours during which the same is expected to continue and the number of persons expected or invited to attend. Such report shall also contain full information as to whether or not any alcoholic beverage is expected to be sold or dispensed on the premises, where and when the picnic, clambake or other gathering is proposed to be held.

(Ord. 468-54. Passed 6-1-54.)

757.03 FEES.

The Chief of Police shall charge and collect a fee of ten dollars (\$10.00) for each report so received and, in addition thereto, an amount sufficient to defray the cost of furnishing police supervision as hereinafter set forth for picnics, clambakes or gatherings:

Number of Adults	Number of Police to	
to attend	be Assigned	Rate per Hour
100 to 500	one	\$ 5.50
500 to 1,000	two	11.00
	to be determined	
1000 and over		5.50 per man hour
	by Police Chief	

(Ord 30-61. Passed 11-21-61.)

757.99 PENALTY.

Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 761

Landlord Tenant Relations

- 761.01 Definitions.**
- 761.02 Return of security deposit.**
- 761.03 Security deposit held in trust.**
- 761.04 Statement of condition of premises.**
- 761.05 Tenant to have copy of these provisions.**
- 761.06 Provisions cannot be waived.**
- 761.99 Penalty.**

761.01 DEFINITIONS.

As used in this chapter:

- (a) "Tenant" means a person entitled under a rental agreement to residential use and occupancy of real property to the exclusion of others.
- (b) "Landlord" means the owner of real property for residential use and occupancy, his agent, or any person authorized by him to manage the premises or to receive rent from the lessee under a rental agreement.
- (c) "Premises" include a dwelling unit for residential use and occupancy consisting of more than two rental units, and the structure of which it is a part, and facilities and appurtenances therein, and grounds, areas and facilities for the use of the lessees generally or whose use is promised the lessee.
- (d) "Rental agreement" means all agreements or leases, written or oral, which establish or modify the terms, conditions, rules, regulations, or any other provisions concerning the residential use and occupancy of real property, including the premises, by one of the parties.
- (e) "Security deposit" means any deposit of money or property, regardless of its denomination, whose primary function is to secure performance under a rental agreement.

(Ord. 112-74. Passed 12-10-74.)

761.02 RETURN OF SECURITY DEPOSIT.

Any rental agreement which includes a provision for the payment of a security deposit by the tenant to the landlord is deemed to contain a covenant by the landlord to return to the tenant within thirty days of the termination of the rental agreement, the amount of the security deposit less any amount reasonably due as follows:

- (a) The security deposit may be applied to the payment of accrued rent.
 - (b) The security deposit may be applied to extraordinary deterioration of the premises other than normal wear of the property, its components and/or appliances. Damages of deterioration shall not include the normal cleaning and sanitary measures which are required for a change of occupancy.
- (Ord. 112-74. Passed 12-10-74.)

761.03 SECURITY DEPOSIT HELD IN TRUST.

Any money which is deposited or advanced by the tenant as a security deposit continues to be the money of the tenant until applied to payment of accrued rent or repairs, and shall be held in trust by the landlord and shall not be mingled with the landlord's personal moneys.

(Ord. 112-74. Passed 12-10-74.)

761.04 STATEMENT OF CONDITION OF PREMISES.

- (a) The landlord shall provide to each new tenant and a tenant that is renewing a lease a statement signed by both the landlord and the new or renewing tenant as to the condition of the premises as of the time the tenant is to occupy the premises. Such statement shall contain any items which need to be repaired, including, but not limited to any and all outstanding violations of the Richmond Heights Codified Ordinances, and the timetable for such repair which is mutually agreed upon by the landlord and tenant.
 - (b) The landlord shall maintain a copy of the signed statement required by subsection (a) of this section for a period of two (2) years after its execution and shall immediately produce a copy of any such statement to the City's Building Official upon the Building Official's request.
 - (c) The landlord shall post a copy of this Section 761.04 in a place in the leased premises where a tenant can readily see and review this section.
- (Ord. 15-2023. Passed 3-14-23.)

761.05 TENANT TO HAVE COPY OF THESE PROVISIONS.

The landlord shall present to each new tenant a copy of this chapter prior to occupying any premises.

(Ord. 112-74. Passed 12-10-74.)

761.06 PROVISIONS CANNOT BE WAIVED.

Rights created by this chapter cannot be waived or modified by agreement.

(Ord. 112-74. Passed 12-10-74.)

761.99 PENALTY.

(a) Whoever violates or fails to comply with any of the provisions of this chapter is guilty of a misdemeanor of the first degree and shall be fined or imprisoned or both for each offense in accordance with Section 501.99 of the General Offenses Code. Unless otherwise provided, a separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(b) The application of the penalty provided in subsection (a) of this section shall not be deemed to prevent the enforced removal of prohibited conditions or the exercise or application of any other equitable remedy.

(Ord. 15-2023. Passed 3-14-23.)

CHAPTER 763

Tenant's Right to Pay to Stay

763.01 Definitions.

763.02 Tenant's right to pay to stay prior to the filing of an eviction action for non-payment of rent.

763.03 Tenant's right to pay to stay prior to an eviction judgment for non-payment of rent.

763.04 Rent receipt required.

763.05 Other causes for eviction.

763.06 Reasonable late fees.

763.07 Severability.

763.01 DEFINITIONS.

(a) "Tenant" means a person entitled under a rental agreement to the use and occupancy of a residential premises to the exclusion of others.

(b) "Tender" means an offer of payment that is equivalent to the actual production or remittance of the money and includes any emergency rental assistance vouchers from an accredited social service, nonprofit, governmental, or quasi-governmental agency that guarantees the payment of past due rent, reasonable late fees, and court costs.

(c) "Court costs" means filing fees and costs assessed by the municipal court that include, but are not limited to, costs to file, costs for data entry, costs for court appearances, costs for serving summons and subpoenas, and costs associated with court transcripts and copying papers and exhibits. (Ord. 81-2023. Passed 6-27-23.)

763.02 TENANT'S RIGHT TO PAY TO STAY PRIOR TO THE FILING OF AN EVICTION ACTION FOR NON-PAYMENT OF RENT.

If the tenant tenders all past due rent with reasonable late fees to the landlord prior to the filing of an action under Ohio Revised Code 1923 and the landlord refuses the tender, the tenant's tender of all past due rent with reasonable late fees shall be an affirmative defense to any action filed by the landlord against the tenant for nonpayment of rent.

(Ord. 81-2023. Passed 6-27-23.)

763.03 TENANT'S RIGHT TO PAY TO STAY PRIOR TO AN EVICTION JUDGMENT FOR NON-PAYMENT OF RENT.

If the tenant tenders all past due rent with reasonable late fees and court costs to the landlord prior to a judgment and the landlord refuses the tender, the tenant's tender of all past due rent, reasonable late fees and court costs shall be an affirmative defense to the eviction action filed by the landlord against the tenant for nonpayment of rent.

(Ord. 81-2023. Passed 6-27-23.)

763.04 RENT RECEIPT REQUIRED.

The landlord shall provide the tenant with a signed receipt for all payments made under this chapter. (Ord. 81-2023. Passed 6-27-23.)

763.05 OTHER CAUSES FOR EVICTION.

This chapter in no way limits the ability of a landlord to initiate an eviction action for reasons other than solely for non-payment of rent.

(Ord. 81-2023. Passed 6-27-23.)

763.06 REASONABLE LATE FEES.

No landlord may charge a tenant late fees that are not reasonable late fees. If a rental agreement includes a provision that authorizes the landlord to assess the tenant a fee for late payment of the monthly rent, to be considered "reasonable late fees" the total amount of that late payment fee for any month may not exceed the larger of: (i) twenty-five dollars (\$25.00); or (ii) five percent (5%) of the monthly contract rent. This section shall only be applicable to rental agreements entered into after the effective date of this section.

(Ord. 81-2023. Passed 6-27-23.)

763.07 SEVERABILITY.

If any provision of this Chapter 763 is found to be unconstitutional or otherwise invalid by any court of competent jurisdiction, that invalidity shall not affect the remaining provisions of this chapter which can be implemented without the invalid provisions and, to this end, the provisions of this chapter are declared to be severable. Richmond Heights City Council hereby declares that it would have adopted this chapter and each provision thereof, irrespective of whether any one or more provisions is found invalid, unconstitutional or otherwise unenforceable.

(Ord. 81-2023. Passed 6-27-23.)

CHAPTER 773

Roadside Stands

773.01 Location of stands.

773.02 Parking facilities.

773.99 Penalty.

CROSS REFERENCES

Power to inspect food products - see Ohio R. C. 715.46

Sales of goods and services within right of way of interstate and other State highways - see Ohio R. C. 5515.07

Sales on public ground - see BUS. REG. 741.12

Peddling and soliciting license exceptions - see BUS. REG. 741.15

773.01 LOCATION OF STANDS.

No sales yard, container, stand or structure which is used to exhibit or display produce or products for sale shall be placed, located or maintained less than thirty feet from the traveled or hard surface of any street, road or highway in the City.

(Ord. 253. Passed 9-15-47.)

773.02 PARKING FACILITIES.

Each sales yard, container, stand or structure so operated or maintained shall have, adjacent thereto, a lot or driveway of sufficient area to provide adequate facilities for the parking of vehicles of prospective customers.

(Ord. 253. Passed 9-15-47.)

773.99 PENALTY.

Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 783

Snow Plow Operators

783.01 Permit required.

783.02 Permit applications; fee; effective period.

783.03 Depositing snow on public streets or treelawns.

783.99 Penalty.

CROSS REFERENCES

Placing injurious material or obstruction in street - see TRAF. 311.01

783.01 PERMIT REQUIRED.

No person shall remove snow, by means of a snow removal vehicle, from private driveways or parking lots in the City without first having obtained a snow plow permit from the Police Department.

(Ord. 11-94. Passed 9-27-94.)

783.02 PERMIT APPLICATIONS; FEE; EFFECTIVE PERIOD.

Prior to issuance of the permit required in Section 783.01, the applicant shall furnish the year, make, model and license plate number of the vehicle to be used, and the name, address and telephone number of the owner and/or operator employed. Each applicant shall pay the sum of ten dollars (\$10.00) for such permit for each vehicle, which sum shall cover the period from October 15 to April 15 of each year.

(Ord. 11-94. Passed 9-27-94.)

783.03 DEPOSITING SNOW ON PUBLIC STREETS OR TREELAWS.

(a) No person shall discharge or deposit any snow by truck, plow, blower or by any other means, onto the roadway, except for accumulations which are necessary residuals of street or roadway cleaning operations by public authority.

(b) No person removing snow from any driveway or sidewalk within this City shall deposit the same on the pavement or sidewalk of any public street or on any treelawn in any public street, except upon the treelawn or property of the premises from which the snow was removed.

(Ord. 11-94. Passed 9-27-94.)

783.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 787

Video Surveillance Systems For Apartment Complexes

- 787.01 Video Surveillance Systems required for Apartment Complexes.**
- 787.02 Access to media.**
- 787.03 Minimum technological standards.**
- 787.04 Minimum coverage standards, site assessment, signage.**
- 787.05 Inspections.**
- 787.06 Enforcement; civil penalties.**
- 787.07 Exemptions.**
- 787.08 Appeal process.**
- 787.09 Severability.**

787.01 VIDEO SURVEILLANCE SYSTEMS REQUIRED FOR APARTMENT COMPLEXES.

Every apartment complex in the City is required to install a video surveillance system. For the purposes of this chapter, "apartment complex" shall mean any building or group of buildings comprised of three or more individual rental units. Any apartment complex which installed surveillance systems prior to the effective date of this chapter must ensure the systems are in full compliance with this chapter. Video surveillance systems shall be in operation twenty-four (24) hours a day, seven (7) days a week, and shall meet the minimum technological standards established in this chapter. (Ord. 103-2021. Passed 12-14-21.)

787.02 ACCESS TO MEDIA.

If a crime occurs, or if the owner or management of an apartment complex believes a crime has occurred, the owner or management shall immediately contact the City's Division of Police and shall provide immediate access to the media containing the recorded event to the Division of Police. The apartment complex shall retain the continuous digital images recorded by its system(s) for not less than thirty (30) days. (Ord. 103-2021. Passed 12-14-21.)

787.03 MINIMUM TECHNOLOGICAL STANDARDS.

The video surveillance system must be capable of delineating on playback of the system the activity and physical features of persons or areas within the premises and must be able to record such images on a form of media as approved by the Division of Police upon inspection thereof. Additional minimum technological standards required for video surveillance systems may be established by resolution of the City Council, which may be updated periodically. The Division of Police shall review the video surveillance system standards annually to ensure that they are consistent with current technology, and shall recommend appropriate updates to Council. If the video surveillance system is web-enabled or has wireless capability, the Division of Police shall be provided the ability to access the live system upon initiation by the apartment complex during incidents requiring a police response or intervention. (Ord. 103-2021. Passed 12-14-21.)

787.04 MINIMUM COVERAGE ST AND ARDS, SITE ASSESSMENT, SIGN AGE.

The video surveillance system shall have, at a minimum, a camera at each exterior entrance and exit positioned to capture faces of people entering and exiting. The placement of cameras included in video surveillance systems required under this chapter must be approved by the Division of Police. The Division of Police will conduct an assessment of video surveillance systems at each site required to install a video surveillance system, and upon approval of the installation, will issue an approval notice which will be placed in plain view inside the premises. This approval notice will also inform residents and visitors of the existence of the video surveillance system. (Ord. 103-2021. Passed 12-14-21.)

787.05 INSPECTIONS.

The video surveillance system shall be subject to regular inspection by the Division of Police, which shall be authorized to inspect at all reasonable times any video surveillance system to determine if the system conforms with this chapter and regulations adopted by Council resolution. If the video surveillance system does not so conform the apartment complex owner must take immediate steps to bring the system into conformance. (Ord. 103-2021. Passed 12-14-21.)

787.06 ENFORCEMENT; CIVIL PENALTIES.

- (a) Apartment complexes subject to the mandatory requirements of this chapter shall have six (6) months from the effective date of this chapter to comply with the regulations set forth in this chapter.
- (b) The violation of any provision of this chapter by any owner or management of an apartment complex subject to this chapter shall result in a notice of violation from the Division of Police. The Division of Police is authorized to investigate all alleged violations. Violators shall have thirty (30) days after receipt of the notice to provide proof of compliance to the Richmond Heights Division of Police. If the violation continues after the thirty (30)-day period, the Chief of Police or his/her designee shall issue a citation against the violator and the violator shall pay a fine in the amount of five hundred dollars (\$500.00).
- (c) In addition to the foregoing, the violation of any provision of this chapter shall be and is hereby declared to be a public nuisance and contrary to the public interest and shall, at the discretion of the City, create a cause of action for injunctive relief.
- (d) For purposes of this chapter, each day that a violation continues shall be a separate violation. (Ord. 103-2021. Passed 12-14-21.)

787.07 EXEMPTIONS.

An apartment complex which is required to install a video surveillance system may, on an annual basis, apply to the Division of Police for an exemption from the provisions of this chapter. The may exempt an apartment complex for a period of twelve (12) months if the Chief of Police or his/her designee finds that the apartment complex has or will undertake alternate security procedures which are substantially equal to or more effective in preventing criminal activity and in assisting in the apprehension of the perpetrators of crime or for the protection of residents and the community. The Chief of Police may also authorize alternate procedures on an experimental basis. Such an exemption shall carry a maximum duration of twelve (12) months, and an owner or management must reapply for an exemption at the end of the exemption period or bring the system into conformance with this chapter. The Chief of Police may also authorize temporary extensions of time for installation when an apartment complex owner or management demonstrates that it is temporarily unable to comply for good cause shown. (Ord. 103-2021. Passed 12-14-21.)

787.08 APPEAL PROCESS.

- (a) Any apartment complex found to be in violation of this chapter by the Chief of Police or his/her designee shall have the right to a hearing before the Zoning Board of Appeals.
- (b) The Chief of Police or his/her designee shall give the applicant written notice of the violation. The notice shall set forth the grounds for the violation, and shall inform the owner or management of the apartment complex that he/she has ten (10) days from the date of mailing of the notice to file a written request for a hearing before the Zoning Board of Appeals.
- (c) Within ten (10) days of mailing of the written notice of violation by the Chief of Police or his/her designee, the owner or management of the apartment complex may appeal by requesting a hearing before the Zoning Board of Appeals. Such a request must be made in writing and must set forth the specific grounds for the appeal. If the owner or management of the apartment complex files a timely request for a hearing, the Zoning Board of Appeals shall set a time and place for the hearing within ten (10) days thereafter. All parties involved shall have the right to offer testimonial, documentary and tangible evidence bearing on the issues, to be represented by counsel, and to confront and cross-examine any witness against them. The decision of the Zoning Board of Appeals as to whether there was a violation of this chapter shall be in writing, is final and shall be rendered within ten (10) days of the conclusion of the hearing. (Ord. 103-2021. Passed 12-14-21.)

787.09 SEVERABILITY.

If any section, subsection, sentence, clause or phrase of this chapter is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this chapter. The City Council hereby declares that it would have passed the ordinance codified in this chapter, and each and every section, subsection, sentence, clause or phrase not declared invalid or unconstitutional without regard to whether any portion of this chapter would be subsequently declared invalid or unconstitutional. (Ord. 103-2021. Passed 12-14-21.)

CHAPTER 791

Emergency Alarm Systems

- 791.01 Purpose.**
- 791.02 Authority to install alarms.**
- 791.03 Alarm users permit required.**
- 791.04 Registration of alarm installer personnel.**
- 791.05 Equipment regulations.**
- 791.06 Local alarms.**
- 791.07 Alarms connected directly to Police Department.**
- 791.08 Automatic telephone dialing alarm systems prohibited.**
- 791.09 False alarms.**
- 791.10 Nonliability of City.**
- 791.99 Penalty.**

False alarms - see GEN. OFF. 509.07

791.01 PURPOSE.

The purpose of this chapter is to protect the emergency services of the community from misuse and to protect the general public from a dangerous situation caused by alarm systems which malfunction. The purpose of this chapter is to further protect the integrity of alarm systems installed in the City.

(Ord. 11-86. Passed 3-25-86.)

791.02 AUTHORITY TO INSTALL ALARMS.

- (a) Any resident or lawful business located within the City may be equipped with an emergency alarm system for the purpose of detecting and signaling the presence of a fire or unauthorized intrusion only upon compliance with the provisions of this chapter.
- (b) Pre-existing alarms or installations are subject to the requirements of this chapter including those relating to the issuance of permits.

(Ord. 11-86. Passed 3-25-86.)

791.03 ALARM USERS PERMIT REQUIRED.

- (a) No person shall operate an alarm system without a valid alarm user permit.
 - (1) Alarm user permits may be acquired from the Richmond Heights Police Department upon application and payment of a ten dollar (\$10.00) registration fee.
- (b) Applications for alarm permits shall be made on forms provided by the Police Department. Each application shall be accompanied by a fee of ten dollars (\$10.00). The application shall state the name, address and telephone number of the applicant's property to be serviced by the alarm and the name, address and telephone number of the applicant's residence, if different. If the applicant's alarm is serviced by an alarm company, then the applicant shall also include the name, address and telephone number of that company.
- (c) If a business has one or more alarm systems protecting two or more separate structures having different addresses, a separate permit shall be required for each structure.
- (d) A decal with the alarm user's permit number will be issued with the alarm user permit. The decal must be prominently posted on or near the front entrance to the premises so that the information provided on the decal is visible from the outside of the structure.
- (e) Each application shall list an emergency telephone number of the user or his representative to permit prompt notification of alarm calls and facilities assisting the police in the inspection of the property. Changes in emergency telephone numbers shall be kept current and failure to provide updated information may constitute grounds for revocation of the permit.
- (f) Each holder of an alarm user permit shall immediately notify the Police Department in writing of any and all changes in the information on file with the City regarding such permit. Failure to do so shall constitute grounds for revocation of the permit. (Ord. 11-86. Passed 3-25-86.)

791.04 REGISTRATION OF ALARM INSTALLER PERSONNEL.

Each of the alarm agents of an alarm business shall submit to the City Police Department the following information upon forms provided by the Police Department:

CROSS REFERENCES

- (a) The agent's or employee's name, current residential address and age.
- (b) The number of the agent's or employee's current Ohio driver's license.
- (c) The agent's or employee's fingerprint record.
- (d) A recent photograph of such agent or employee.
- (e) A copy of any alarm installer agent permit issued to the agent or employee by any other municipality or governmental agency.
- (f) Three character references.
- (g) The agent's or employee's employers during the past three years.
- (h) Any criminal record convictions.

(Ord. 11-86. Passed 3-25-86.)

791.05 EQUIPMENT REGULATIONS.

- (a) All equipment used in installations for which a permit is required shall meet the applicable standards of the Underwriters Laboratories and the National Fire Protection Association. The applicant may be required to submit evidence of the reliability and suitability of the equipment to be installed.
- (b) The sensory mechanism used in connection with such devices must be adjusted to suppress false indications of fire or intrusion so that the device will not be activated by impulses due to transient pressure change of water pipes, short flashes of light, wind noises, such as rattling or vibrating doors or windows, vehicular noises adjacent to the installation or other forces unrelated to genuine alarms.
- (c) All alarm systems shall have a backup power supply that will become effective in the event of power failure or outage in the source of electricity from the utility company.
- (d) All components comprising such device must be maintained by the owner or lessee in good repair to assure reliability of operation.
- (e) Each alarm equipment supplier that sells or leases to a person an automatic protection device which is installed on such person's premises within the City shall furnish such person with instructions as to the manner in which the device operates, along with maintenance instructions.
- (f) Each alarm equipment supplier shall also furnish the Chief of Police or his authorized representative with a copy of the instructions as to the way the device operates. If the Chief of Police or his authorized representative finds such to be incomplete, unclear or otherwise inadequate, he may require the alarm equipment supplier to have the same revised to meet his approval and then promptly have copies distributed to the persons for whom installations of such devices are made.
- (g) Each alarm equipment supplier that sells or leases to a person an automatic protection device which is installed on such person's premises within the City for which a permit is required under this chapter must provide for receiving calls for service directly or through an agent on a twenty-four hour basis seven days a week and shall respond to such calls within eight hours of the time they are received.
- (h) At the time of installation each alarm equipment supplier shall furnish to the person for whom an automatic protection device has been installed written information as to how service can be obtained at any time, including the telephone number to call the service. Such person shall be responsible for having the device repaired as quickly as possible after he learns, either from his own sources or from notification by the City, that the device is not working properly.
- (i) All equipment, the use of or installation of which is subject to this chapter shall be maintained in good operating condition. The Chief of Police or the Chief of the Fire Department may require that repairs be made whenever he has determined that such are necessary to assure proper operation.
- (j) All alarm systems will have an automatic reset which silences the annunciator within twenty minutes after activation and which will not sound again as a result of the same event that resulted in the original activation.

(Ord. 11-86. Passed 3-25-86.)

791.06 LOCAL ALARMS.

A permit for the installation of a local alarm which, when activated, sounds a horn, bell, buzzer or other type of audible alarm, shall be required if the sound created by the alarm is audible beyond the premises being served. The Police Department shall issue a permit for such alarm provided the intensity of sound does not exceed 85 decibels at a distance of ten feet beyond the building line being served and, upon the payment of any permit fees required by this chapter.

(Ord. 11-86. Passed 3-25-86.)

791.07 ALARMS CONNECTED DIRECTLY TO POLICE DEPARTMENT.

- (a) Upon proper application by any person to connect installed equipment to the Police Department to receive emergency alarms, the Police Chief or his authorized representative may issue a permit for such connection.
- (b) Connection to the Police Department alarm panel shall be contingent upon the applicant having obtained permission from the company which maintains the alarm panel in the station to make such connection, provided that such company shall not deny permission if the equipment is compatible, and proper charges are paid to the company.
- (c) No unit shall be installed or connected unless it is approved by the Fire Prevention Officer if designed to detect smoke or fire or by the Police Chief, or his designated representative, if designed to detect unauthorized intrusion, holdup or panic. The responsible officer or his representative shall inspect and approve the electrical installation or, upon failure to approve, shall state the reasons therefor, which the person making the installation shall forthwith correct.
- (d) The City will, within its capabilities, endeavor to accommodate every reasonable application for connection to the police/fire alarm panels.

(Ord. 11-86. Passed 3-25-86.)

- (e) Each alarm connected to the police/fire alarm panel shall be charged an annual fee as established in Section 1501.08 of these Codified Ordinances. The Director of Finance is authorized, empowered and directed to bill such amounts upon certification by the Chief of Police and/or Fire that an installation to the Municipal Police or Fire Department is being maintained. Failure of the user to pay this annual charge within thirty days of the date of billing shall result in disconnection of the alarm.

(Ord. 128-89. Passed 9-26-89.)

791.08 AUTOMATIC TELEPHONE DIALING ALARM SYSTEMS PROHIBITED.

No person shall sell, offer for sale, install, maintain, lease, operate or assist in the operation of an automatic telephone dialing alarm system over any telephone lines exclusively used by the public to directly request emergency service from the Police or Fire Departments.

(Ord. 11-86. Passed 3-25-86.)

791.09 FALSE ALARMS.

- (a) False alarm charges shall be made as follows:
 - (1) Residential users. No charge shall be made for any false alarms during the first ninety days from installation or the first false alarm thereafter annually or for a false alarm to which there is no response by the Police or Fire Department. A charge of ten dollars (\$10.00) shall be made for a third false alarm annually and a charge of twenty-five dollars (\$25.00) shall be made for each additional false alarm.
 - (2) Business users. A charge of twenty-five dollars (\$25.00) shall be made for each of the first three false alarms annually and a charge of fifty dollars (\$50.00) shall be made for each false alarm thereafter annually.
- (b) Residential and business false alarm charges shall apply whether the alarm is received from an automatic device or from one connected directly to the Police station or Fire station under this chapter. Any charge for a false alarm remaining unpaid thirty days after the date of the mailing of the invoice for same shall be cause for cancellation of the alarm and the permit therefor by the Chief of Police.

(Ord. 11-86. Passed 3-25-86.)

791.10 NONLIABILITY OF CITY.

The issuance of any permit or permits under the authority of this chapter shall not constitute an acceptance by the City of any liability to maintain equipment, to answer alarms or for anything in connection with installation, use or operation of the systems regulated by this chapter. This governmental service shall not be an acceptance by the City of any liability in contract, negligence or otherwise to provide any protection whatsoever.

(Ord. 11-86. Passed 3-25-86.)

791.99 PENALTY.

Unless otherwise specifically provided in this chapter, a violation of any provision of this chapter shall be a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 793

Automated External Defibrillators Required at Physical Fitness Facilities

793.01 Required installation and definitions.

793.02 Installation standards.

793.03 Training.

793.04 Inspection.

793.01 REQUIRED INSTALLATION AND DEFINITIONS.

- (a) The installation of automated external defibrillators ("AEDs") is required at all physical fitness facilities.
- (b) For purpose of this chapter, the term "automated external defibrillator" means a portable electronic apparatus used to counteract atrial or ventricular fibrillation by application of a brief electric shock to the heart and designed to be automated such that it can be used by persons without substantial medical training who are responding to a cardiac emergency.
- (c) For purposes of this chapter, the term "physical fitness facilities" is defined as a place of business, whether for profit or not for profit, with equipment and facilities for exercising and improving physical fitness.

(Ord. 51-2012. Passed 7-10-12.)

793.02 INSTALLATION STANDARDS.

- (a) AEDs required by this chapter shall be installed in sufficient numbers and in locations so that an AED device shall be accessible, at a minimum, within three (3) minutes in the event of an emergency, in accordance with American Heart Association recommendations and any guidelines and requirements established by the City's Chief of Fire and authorized by the Director of Public Safety.
- (b) For new business occupancies, the City's Division of Building, Zoning and Housing will notify the Division of Fire, the Chief of Fire, or their designee during the building plans review process to review and approve the number and installation locations for AED devices and shall inspect the establishment to confirm the AED devices have been installed as approved prior to the issuance of a certificate of occupancy.

(Ord. 51-2012. Passed 7-10-12.)

793.03 TRAINING.

The installation and maintenance of the AED device(s) and periodic training on the use of the AED device(s) shall be the responsibility of the owner of the physical fitness facility.

(Ord. 51-2012. Passed 7-10-12.)

793.04 INSPECTION.

All AED installations at physical fitness facilities shall be subject to periodic inspections by the City's Division of Fire or its designee.

(Ord. 51-2012. Passed 7-10-12.)

CHAPTER 795

Video Service Providers

795.01 Fees.

795.01 FEES.

(a) Subject to Ohio Senate Bill 117 going into legal effect, in accordance with the requirements of Ohio R.C. 1332.32 enacted thereby, all video service providers providing video service in the City pursuant to a video service authorization obtained from the Director of the Ohio Department of Commerce shall pay Video Service Provider Fees ("VSP Fees") in the amount of five percent (5%) of gross revenues received from providing video service in the City, which gross revenue base shall include advertising revenues. The VSP Fee shall be paid quarterly, not sooner than forty-five (45) days nor later than sixty (60) days after the end of each calendar quarter.

(b) No later than ten (10) days from receipt of notice from a video service provider that it will begin providing video service in the City pursuant to a state-issued video service authorization, the Mayor is authorized and directed to provide such video service provider with notice of the VSP Fee as determined by this Council above, which notice shall be delivered in a manner that provides for proof of timely delivery.
(Ord. 93-2007. Passed 8-28-07.)

901.01 SCOPE OF CHAPTER; DEFINITIONS.

- (a) The purpose and intent of this Chapter is to:
- (1) Manage reasonable access to the City's Right-of-Way by utility and other Service Providers and ensure their compliance with the ordinances, rules and regulations of the City.
 - (2) Conserve the limited physical capacity of the Right-of-Way held in trust by the City for the benefit of the public.
 - (3) Assure that the City fairly and responsibly protects the public health, safety and welfare.
 - (4) Enable the City to discharge its public trust consistent with rapidly evolving federal and State regulatory policies, industry competition and technological development.
- (b) For the purpose of this Chapter, and the interpretation and enforcement thereof, the following words and phrases shall have the following meanings, unless the context of the sentence in which they are used shall indicate otherwise:
- (1) Affiliate means a Person that (directly or indirectly) owns or controls, is owned or controlled by, or is under common ownership or control with another Person.
 - (2) Capital Improvement means an addition made to enhance the value or extend the useful life of an existing System or Facilities, including Construction, Reconstruction, installation, rehabilitation, renovation, improvement, enlargement and extension of Facilities, but not including ordinary or Routine Maintenance.
 - (3) City means the City of Richmond Heights, Ohio.
 - (4) City Engineer means the engineer of the City who is duly-appointed by the Mayor and approved by the City Council.
 - (5) Construct, Constructing, Construction, etc. means installing, repairing, replacing or removing any Facility, regardless of the methods employed, including Excavation.
 - (6) Construction Permit or Permit means a permit issued pursuant to Section 901.08 of this Chapter.
 - (7) Emergency means an unforeseen occurrence or condition calling for immediate action.
 - (8) Excavate, Excavating or Excavation means cutting, sawing, breaking, drilling into, boring under, or otherwise altering any Public Street or sidewalk pavement, and/or digging, drilling into or boring under any unpaved portion of the Right-of-Way, including any other work or activity which disturbs the existing surface or subsurface structure, composition, or soil compaction.
 - (9) Excess Capacity means the volume or capacity in any existing or future Facility in the Right-of-Way that is or will be available for use for additional Facilities.
 - (10) Facilities or Facility means the plant, equipment and property, including but not limited to, cables, fibers, wires, lines, pipes, conduits, ducts, pedestals, antennae, electronics, poles, pipes, mains, plant, equipment and other appurtenances located under, on or above the surface of the ground in the Right-of-Way of the City and used or to be used to operate a System to transmit, receive, distribute, provide or offer a service, publicly or privately.
 - (11) Lane Obstruction means the blocking or diverting of vehicular and/or pedestrian traffic from a street or sidewalk for the purpose of Constructing, Excavating, maintaining or operating any Facility, including (A) the lifting or removing of manhole or handhole covers, and (B) the opening or accessing of at-grade or pole-mounted cabinets, pedestals, transformers, power supplies, amplifiers, splice enclosures, traps or other Facilities.
 - (12) New Service Orders means the connection from the Service Provider's existing Facilities on private property for the purpose of providing a new Service to a customer in the City.
 - (13) Occupancy, Occupy or Use means, with respect to the Right-of-Way, to place a tangible thing in the Right-of-Way for any purpose, including, but not limited to, Constructing, repairing, positioning, maintaining or operating lines, poles, pipes, conduits, ducts, equipment or other structures, appurtenances or Facilities necessary to operate, or relating to, a System for the delivery of Services or private services over the Right-of-Way.
 - (14) ODOT means the Ohio Department of Transportation.
 - (15) Other Ways means the highways, streets, alleys, Utility Easements or other rights-of-way within the City, but under the jurisdiction and control of a governmental entity other than the City.
 - (16) Overhead Facilities means utility poles that extend more than eight (8) feet above the surface of the Rights-of-Way and wires, cables and other such equipment running between and on such poles more than eight (8) feet above the surface of the Rights-of-Way, including the underground supports and foundations for such Facilities.
 - (17) Person means and includes corporations, companies, associations, joint stock companies or associations, firms, partnerships, limited liability companies, trusts and individuals and includes their lessors, trustees and receivers.
 - (18) Public Easement means any easement under the jurisdiction and control of the City and acquired, established, dedicated or devoted for public purposes, including utility purposes.

- (19) Public Street means the paved and unpaved portion of any street, road, boulevard, drives, highway, freeway, parkway, lane court, alley or other Right-of-Way in which the City has an interest in law or equity and which has been acquired, established, dedicated or devoted to street purposes.
- (20) Public Way Fee means a fee levied to recover the costs incurred by the City and associated with the Occupancy or Use of a Right-of-Way as provided in Chapter 4939 of the Ohio Revised Code.
- (21) PUCO or Public Utilities Commission of Ohio means the State Administrative agency, or lawful successor, authorized to regulate and oversee certain Public Service Providers and Services in the State of Ohio.
- (22) Reconstruct, Reconstruction, etc. means substantial physical change to or Capital Improvement of all or a portion of an existing System or Facilities including, but not limited to, the addition or alteration of Facilities to accommodate the provision of an additional Service or Services, and a change in location, or additional locations, of Facilities along the same Right-of-Way involving Construction in Public Streets, Utility Easements, or Right-of-Way.
- (23) Right-of-Way means the surface of, and the space within, through, on, across, above or below, any Public Street, public road, public highway, public freeway, public lane, public path, public alley, public court, public sidewalk, public boulevard, public parkway, public drive, Public Easement and any other land dedicated or otherwise designated for a compatible public use, which is owned or controlled by the City but excludes a private easement.
- (24) Routine Maintenance means repair, upkeep, replacement or restoration of existing Facilities located in the Right-of-Way that requires no more than three (3) working days to complete, is not an Emergency and does not include Excavation of the Right-of-Way.
- (25) Service means the offering of water, sewer, electric, gas, telephone, telecommunications, cable television, video, information or other utility- like service directly to the public, or to such classes of users as to be effectively available to the public, or a class of private users, regardless of the Facilities used.
- (26) Service Provider means any Person who, pursuant to the consent to Occupy or Use the Right-of-Way pursuant to Section 901.02 of this Chapter, directly or indirectly owns, controls, operates or manages Facilities within the City's Right-of-Way, used or to be used for the purpose of operating a System to: (i) offer Service to the public within the City or outside of the City's boundaries or (ii) transmit, receive, distribute or provide telecommunications or other services between or among private buildings or facilities where there is no service offered to the public.
- (27) State means the State of Ohio.
- (28) Surplus Space means that portion of the Usable Space on a utility pole that has the necessary clearance from the Facilities of other Public Service Providers using the pole, as required by the orders and regulations of PUCO and other applicable State and local orders and regulations, to allow its use by an additional Service Provider for a pole attachment.
- (29) System means a network of Facilities for the transmission and/or distribution of a particular Service.
- (30) Trenchless Technology means the use of directional boring, horizontal drilling and micro-tunneling and other techniques in the Construction of underground portions of Facilities that result in the least amount of disruption and damage to the Right-of-Way as possible.
- (31) Underground Facilities means that portion of a System located under the surface of the ground, excluding the underground foundations or supports for Overhead Facilities.
- (32) Usable Space means the total distance between the top of a utility pole and the lowest possible attachment point that provides the minimum allowable vertical clearance as specified in the orders and regulations of the PUCO.
- (33) Utility Easement means any easement owned by a Service Provider and acquired, established, dedicated or devoted for the purpose of providing Service to the public. (Ord. 89-2007. Passed 11-13-07.)

901.02 CONSENT TO OCCUPY OR USE THE RIGHT-OF-WAY.

- (a) Consent Required to Occupy Right-of-Way. No Person shall Occupy or Use the Right-of-Way without obtaining prior consent from the City to do so.
- (b) Persons Required to Apply for Consent to Occupy or Use Right-of-Way.
- (1) The following Persons shall apply to the City for consent to Occupy or Use the Right-of-Way on a form provided by the City Engineer if such Person:
- Does not currently have an existing System or Facilities in the City's Right-of-Way and desires to Construct a System or Facilities in the Right-of-Way;
 - Had an existing System or Facilities in the Right-of-Way on July 2, 2002 and does not have presumed initial consent under Section 901.02(c)(1) below; or
 - Has initial presumed consent or City consent to Occupy or Use the Right-of-Way for an existing System or Facilities, but is planning
 - A Capital Improvement or Reconstruction of existing Facilities; or
 - To Construct additional Facilities or an additional System anywhere in the City.
- (c) Initial Consent Presumed.
- (1) A Person with existing Facilities in the Right-of-Way on July 2, 2002 Chapter shall be presumed to have initial consent for those Facilities to Occupy or Use the Right-of-Way if such Person:
- Is subject to jurisdiction by the PUCO;
 - Has a valid franchise agreement with the City to provide Cable Services or other Services in the City, and/or
 - Is any other Person whose existing Facilities lawfully Occupied the Right-of-Way on July 2, 2002.
- (2) Initial presumed consent for Occupancy or Use of the Right-of-Way is limited to the Service Provider's existing Facilities.
- (3) Any Service Provider with initial presumed consent to Occupy or Use the Rights-of-Way shall file an Initial Registration with the City within ninety (90) days of the effective date of this Chapter, on a form provided by the City Engineer, which shall include the information required by Section 901.02(d) of this Chapter.
- (4) A Person with initial presumed consent must comply with the requirements of this Chapter with respect to the ongoing Occupancy or Use of the Right- of-Way including, but not limited to, the Insurance, Indemnity, Performance Bond and Registration requirements of Sections 901.04(a), (b) and (c) and 901.05 of this Chapter.
- (d) Application for Consent to Occupy or Use the Right-of-Way and Initial Registration of Service Providers with Initial Presumed Consent. The application for Consent to Occupy or Use the Right-of-Way and/or initial registration pursuant to Section 901.02(c) for Service Providers with initial presumed consent to Occupy or Use the Right-of-Way shall include the following information with respect to the applicant's or Service Provider's planned or existing System and/or Facilities in the Right-of-Way as well as plans for any planned Capital Improvements or Reconstruction for the following twelve (12) months:
- The identity, legal status and federal tax identification number of the applicant, including all Affiliates of the applicant or Service Provider that will Use or Occupy the Right-of-Way or are in any way responsible for Facilities located in the Right-of-Way.
 - The name, address and telephone number of the local officer, agent or employee responsible for the accuracy of the application or initial registration and available at all reasonable times to be notified in case of emergency.
 - A general description of the Service provided or to be provided by the applicant or Service Provider over its System or Facilities. Where Services are or will be provided by a nonaffiliated provider, the applicant or Service Provider shall identify that provider.
 - A description of the type of transmission medium used, or to be used, by the applicant or Service Provider to operate a System.
 - A map and/or description of the existing or proposed Facilities in the City's Right-of-Way:
 - The map and/or description shall be in sufficient detail to identify:
 - The location and route of the applicant's or Service Provider's Facilities or proposed Facilities.
 - The location of all known existing Overhead and/or Underground Facilities in the Right-of-Way along the route or proposed route of the applicant's or Service Provider's Facilities or proposed Facilities that is sufficient to show the impact of the applicant's Facilities on other existing Facilities.
 - The location of all known overhead and underground Utility Easements.
 - Upon written request of a Service Provider, the City Engineer may modify the requirements of this subsection (d)(5), if in his or her reasonable discretion such modification serves the purposes of this Chapter and the City's need to manage its public Rights-of-Way.
 - A Service Provider may designate any portion or portions of the maps and/or information provided under this subsection (d)(5) as proprietary and/or a trade secret so as to remain confidential. In this event, the City shall seek to maintain the confidentiality of such maps and/or information; provided, however, that such information is subject to applicable public records laws and exceptions thereto. The City shall provide a Service Provider with written notice of any proposed inspection or disclosure prompted by a public records request related to the Service Provider's maps and/or information the Service Provider has designated to be confidential. The Service Provider shall have three (3) business days from the written notice to object to any public records disclosure and to agree in writing to defend and indemnify the City with respect to any litigation under the Ohio Public Records Act to compel disclosure and all costs thereof.
- (6) Evidence that the applicant or Service Provider has complied, or will comply, with the Indemnification, Insurance, Performance Bond and Construction Bond requirements of this Chapter.
- (7) Information sufficient to determine that the applicant or Service Provider has received any certificate of authority required by the PUCO, FCC or other applicable State or Federal Agency to operate a System and provide Services in the City.
- (8) Written acknowledgement of receipt of a copy of this Chapter.
- (9) Such other information as the City Engineer may reasonably require that is relevant to the Provider's Use or intended Use of the Right-of-Way.
- (e) City Consent or Denial for Occupancy or Use of the Right-of-Way.
- (1) The City shall grant or deny, in writing, a Person's application for consent to Occupy or Use the Right-of-Way within sixty (60) days of the date on which the Person filed the application with the City.
- The City may withhold, deny or delay its consent to a Person's application to Occupy or Use the Right-of-Way based on the Person's failure to possess the financial, technical and managerial resources necessary to protect the public health, safety and welfare, or for other reasons based on the health, safety and welfare of the City and in accordance with Ohio law.
 - If the City denies a Person's application to Occupy or Use the Right-of-Way, the City shall provide its reasons in writing for denying the application, and shall provide any information reasonably requested by that Person necessary to obtain the City's consent to Occupy or Use the Right-of-Way.
- (2) The City's grant of consent for a Person to Occupy or Use the Right-of- Way shall be in the form of a Right-of-Way Occupancy Certificate which shall set forth the specific terms of the City's consent for such Person to Occupy or Use the Right-of-Way.
- (f) Application to Existing Franchise or Agreement. For purposes of this Chapter, an effective Franchise or Agreement shall be deemed consent authorizing the Occupancy or Use of the Right-of-Way to the extent described in the Franchise. Any Occupancy or Use of the Right-of- Way beyond that authorized by the Franchise or Agreement shall require additional consent for such additional Occupancy or Use. Service Providers shall comply with all other provisions of this Chapter except if there is a direct conflict between a specific provision in the Franchise or Agreement and the provisions of this Chapter, the Franchise or Agreement shall control.

(Ord. 89-2007. Passed 11-13-07.)

901.03 ANNUAL REGISTRATION OF SERVICE PROVIDERS.

- (a) Annual Registration Required. All Service Providers with consent to Occupy or Use the Right-of-Way as provided in Section 901.02 shall register with the City each calendar year between January 1 and January 31 on a form provided by the City Engineer. Service Providers who file an Initial Registration after November 13, 2007, but before December 31, 2007, need not file an Annual Registration for calendar year 2008.
- (b) Purpose of Annual Registration. The purpose of Annual Registration is to assist the City in monitoring use of the Right-of-Way; to maintain an accurate and current database of information concerning Service Providers that Occupy or Use the Right-of-Way; and to assist the City in managing the Right-of-Way in a manner that best serves the public health, safety and welfare.
- (c) Information Required for Annual Registration. Registration forms will be provided by the City and shall require the following information:
- Any material changes to the information the Service Provider provided the City in the application for consent to Occupy or Use the Right-of-Way or Initial Registration, including, but not limited to:
 - The identity, legal status, and federal tax identification number of the Service Provider, including any Affiliates.
 - The name, address and telephone number of the local officer, agent or employee responsible for the accuracy of the Service Provider's registration statement and available at all reasonable times to be notified in case of emergency.
 - Evidence that the Service Provider is in compliance with the Insurance, Indemnity and Performance Bond requirements pursuant to Section 901.04 of this Chapter.
 - Information regarding, and a preliminary Construction schedule and completion date for, any Capital Improvements the Service Provider plans in the Right-of-Way for the following twelve (12) months.
 - Any other information the City Engineer may reasonably require relevant to the Service Provider's Occupancy or Use of the Right-of-Way.
- (d) Service Provider's Facilities Maps.
- The City shall have the right to access and review all the Service Provider's maps and/or as-built plans showing the location of its Facilities in the City's Rights-of-Way, upon ten (10) days notice to the Service Provider.
 - Upon written request by the City Engineer, each Service Provider shall work in good faith with the City Engineer to provide, in a reasonable time and manner, maps and/or as built plans in a format compatible with the City's current and/or future mapping system.
 - The Service Provider may designate any portion or portions of the maps and/or as-built plans provided under this subsection (d) as proprietary and/or a trade secret so as to remain confidential. In this event, the City shall seek to maintain the confidentiality of such maps and/or as-built plans; provided, however, that such information is subject to applicable public records laws and exceptions thereto. The City shall provide a Service Provider with written notice of any proposed inspection or disclosure prompted by a public records request related to the Service Provider's maps and/or as-built plans the Service Provider has designated to be confidential. The Service Provider shall have three (3) business days from the written notice to object to any public records disclosure and to agree in writing to

defend and indemnify the City with respect to any litigation under the Ohio Public Records Act to compel disclosure and all costs thereof.

(e) Registration to be Kept Current. In addition to Annual Registration, each Service Provider shall keep the required registration information current at all times.
(Ord. 89-2007 11-13-07.)

901.04 INSURANCE, BOND AND INDEMNIFICATION.

(a) Service Provider Insurance. As a condition of the consent to Occupy or Use the Right-of-Way, a Service Provider must secure and maintain, at a minimum, the following liability insurance policies insuring the Service Provider and naming the City, its elected and appointed officers, officials, agents, employees and representatives as additional insureds:

- (1) Comprehensive general liability insurance with limits not less than
 - A. Five million dollars (\$5,000,000) for bodily injury or death to each Person;
 - B. Five million dollars (\$5,000,000) for property damage resulting from any one accident; and
 - C. Five million dollars (\$5,000,000) for all other types of liability.
- (2) Automobile liability for owned, non-owned and hired vehicles with a limit of three million dollars (\$3,000,000) for each Person and three million dollars (\$3,000,000) for each accident.
- (3) Worker's compensation within statutory limits and employer's liability insurance with limits of not less than one million dollars (\$1,000,000).
- (4) Comprehensive form premises-operations, explosions and collapse hazard, underground hazard and products completed hazard with limits of not less than three million dollars (\$3,000,000).
- (5) The liability insurance policies required by this Section shall be maintained by the Service Provider throughout the period of time during which the Service Provider is Occupying or Using the Right-of-Way, or is engaged in the removal of its Facilities. Each such insurance policy shall contain the following endorsement:
"It is hereby understood and agreed that this policy may not be canceled nor the intention not to renew be stated until sixty (60) days after receipt by the City, by registered mail, of a written notice addressed to the City Engineer of such intent to cancel or not to renew."
- (6) Within sixty (60) days after receipt by the City of said notice, and in no event later than thirty (30) days prior to said cancellation, the Service Provider shall obtain and furnish to the City replacement insurance policies meeting the requirements of this Section.
- (7) Upon written application to, and written approval by, the City Engineer, a Service Provider may be self-insured to provide all of the same coverages as listed in this Section; except that all coverages for Workers' Compensation shall be in compliance with State law. No approval for self-insurance shall be given until the City Engineer has made a complete review of the Service Provider's financial ability to provide such self-insurance. As part of the review process, the City Engineer may require, and the self-insurance applicant shall provide, any and all financial documents necessary to make a valid determination of the applicant's ability to meet the needs of this Chapter.

(b) General Indemnification. Each application for consent to Occupy or Use the Right-of-Way, and each annual registration, shall include, to the extent permitted by law, the Service Provider's express undertaking to defend, indemnify and hold the City and its elected and appointed officers, officials, employees, agents, representatives and subcontractors harmless from and against any third party claims (including all damages, losses and expenses, reasonable attorney's fees and costs of suit or defense, arising out of, resulting from or alleged to arise out of or result from the negligent, careless or wrongful acts, omissions, failures to act or misconduct of the Service Provider or its Affiliates, officers, employees, agents, contractors or subcontractors relating to the Service Provider's Occupancy or Use of the Right-of-Way, whether such acts or omissions are authorized, allowed or prohibited by this Chapter. A Service Provider, however, will have no obligation to defend, indemnify or hold the City and its elected and appointed officers, officials, employees, agents, representatives and subcontractors harmless from their own negligence.

(c) Performance Bond. As a condition of consent to Occupy or Use the Right-of-Way, and to ensure the full and complete compliance with, and performance under this Chapter, including any costs, expenses, damages or loss the City pays or incurs because of any failure attributable to the Service Provider to comply with the codes, ordinances, rules, regulations or permits of the City, each Service Provider shall, in the amount of fifty thousand dollars (\$50,000), or such lesser amount as the City Engineer may determine to be necessary, (i) provide an unconditional letter of credit, or other instrument acceptable to the City, or (ii) furnish and file with the City a Performance Bond running to the City in the required amount from a company licensed to do business in the State of Ohio; which performance bond or letter of credit or other instrument shall be maintained at the sole expense of the Service Provider so long as any of the Service Provider's Facilities are located within the City's Right-of-Way.

- (1) Before claims are made against the Performance Bond or letter of credit or other instrument, the City shall give written notice to the Service Provider:
 - A. Describing the act, default or failure to be remedied, or the damages, cost or expenses which the City has incurred by reason of the Service Provider's act or default;
 - B. Providing a reasonable opportunity for the Service Provider to remedy the existing or ongoing default or failure, if applicable;
 - C. Providing a reasonable opportunity for the Service Provider to pay any monies due the City before the City makes a claim against the Performance Bond or letter of credit or other instrument;
 - D. That the Service Provider will be given an opportunity to review the act, default or failure described in the notice with the City Engineer.
- (2) Service Providers shall maintain the full value of the Performance Bond or letter of credit or other instrument regardless of claims against the Performance Bond or letter of credit or other instrument made by, or paid to, the City.
- (3) Any draw upon the Performance Bond or letter of credit to recover the City's costs related to a Service Provider's use of the Right-of-Way shall be considered Public Way Fees as that term is defined in this Chapter and Chapter 4939 of the Ohio Revised Code and shall be assessed by the City Engineer in accordance with Chapter 4939 and any other applicable law.

(Ord. 89-2007. Passed 11-13-07.)

901.05 GENERAL RIGHT-OF-WAY USE REGULATIONS.

(a) Rights Conveyed. Consent granted to or initially presumed of a Service Provider to Occupy or Use the Right-of-Way under Section 901.02:

- (1) Shall be limited to a grant to Occupy or Use the specific Right-of-Way and defined portions thereof including the specific System or Facilities and location along the Right-of-Way;
- (2) Shall not confer any exclusive right, privilege, license or franchise to Occupy or Use the Right-of-Way of the City to operate a System for delivery of Services or any other purposes; and
- (3) Shall not convey any right, title or interest in the Right-of-Way, but shall be deemed consent only to Occupy or Use the Right-of-Way for the limited purposes granted by the consent. Further, no consent shall be construed as any warranty of title.

(b) Maintenance of Facilities. Each Service Provider shall maintain its System or Facilities in good and safe condition and in a manner that complies with all applicable federal, State and local requirements.

(c) Maintenance of Landscaping or Other Aesthetic Requirements. A Service Provider with a Construction Permit that includes a landscaping, screening and/or other aesthetic requirement in connection with the placement of any structure or item above the ground in the Right-of-Way, shall maintain the landscaping, screening and/or other aesthetic requirement, on a continuing basis, in the manner specified in the Construction Permit or other manner as approved in writing by the City Engineer.

(d) Safety Procedures. A Service Provider or other Person acting on its behalf shall use suitable barricades, flags, flagmen, lights, flares and other measures as necessary and in accordance with applicable State and local requirements for the safety of all members of the general public and to prevent injury or damage to any Person, vehicle or property by reason of such work in or affecting such Right-of-Way or property.

(e) Interference with the Rights-of-Way. No Service Provider may locate or maintain its Facilities so as to unreasonably interfere, as determined by the City Engineer, with the use of the Right-of-Way by the City, by the general public or by other Persons authorized to use or be present in or upon the Right-of-Way. All such Facilities shall be moved by the Service Provider, temporarily or permanently, as determined by the City Engineer.

(f) Damage to Public and Private Property. No Service Provider nor any Person acting on the Service Provider's behalf shall take any action or permit any action to be done which may impair or damage any City Property, Right-of-Way, Other Ways or other public or private property located in, on or adjacent thereto.

(g) Restoration of Right-of-Way, Other Ways and City Property.

- (1) When a Service Provider, or any Person acting on its behalf, does any Construction, Reconstruction, Excavation, Routine Maintenance, Emergency Work or any other work in or affecting any Right-of-Way, Other Ways or City Property, it shall, after the work is completed and at its own expense, promptly remove any obstructions from and restore such ways or property, within ten (10) to thirty (30) days, at the City Engineer's discretion, to as good a condition as existed before the work was undertaken, unless otherwise directed by the City.
- (2) If weather or other conditions prevent the complete restoration required by this Section, the Service Provider shall temporarily restore the affected ways or property as directed by the City Engineer, at the Service Providers' sole expense. The Service Provider shall promptly undertake and complete the required permanent restoration when weather or other conditions no longer prevent permanent restoration.

(h) Duty to Provide Information. Within ten (10) days of a written request from the City Engineer, each Service Provider shall:

- (1) Furnish the City with documentation sufficient to show that the Service Provider has complied with all requirements of this Chapter.
- (2) Make available for inspection by the City, at reasonable times, all books, records, maps and other documents, maintained by the Service Provider with respect to its Facilities in the Right-of-Way.

(i) Leased Capacity. A Service Provider shall have the right, without prior City approval, to lease capacity or bandwidth to an unaffiliated Service Provider, provided that when a lessee has physical access to the leased Facilities:

- (1) The Service Provider shall notify the City of the lease agreement within thirty (30) days of such lease agreement.
- (2) The lessee has complied with the applicable requirements of this Chapter.
- (j) Assignments or Transfers of Consent. Consent to Occupy or Use the Right-of-Way may be, directly or indirectly, transferred, assigned or disposed of by sale, lease, merger, consolidation or other act of the Service Provider, by operation of law or otherwise, without consent of the City; provided that with respect to any transactions (including transactions between Affiliated entities) that singularly or collectively result in a change of twenty-five percent (25%) or more of the ownership or ultimate working control of a Service Provider, of the ownership or working control of the Service Provider's Facility, or of control of the capacity or bandwidth of the Service Provider's System, Facilities or substantial parts thereof, the transferor and transferee shall comply with the following:

- (1) Notify the City of the proposed transfer before the date of transfer; and
- (2) The transferee shall fully comply with this Chapter within sixty (60) days of the transfer, including, but not limited to providing the City with all information required by the Initial Registration required by Section 901.02(d) of this Chapter.

(k) Revocation of Consent. Subject to Section 901.05(k), consent granted by the City to Occupy or Use the Right-of-Way of the City, or a Construction Permit, may be revoked for any one of the following reasons:

- (1) Construction, Reconstruction or operation or Excavation at an unauthorized location.
- (2) Construction, Reconstruction or operation in violation of City safety and/or Construction requirements.
- (3) Material misrepresentation or lack of candor by or on behalf of a Service Provider in any application or registration required by this Chapter.
- (4) Failure to relocate or remove Facilities, or failure to restore the Right-of-Way, as required by this Chapter.
- (5) Insolvency or bankruptcy of the Service Provider.
- (6) Violation of material provisions of this Chapter.

(l) Notice of Violation and Duty to Cure. In the event that the City Engineer believes that grounds exist for revocation of consent to Occupy or Use the Right-of-Way or Construction Permit, he or she shall give the Service Provider written notice of the apparent violation or noncompliance, providing a short and concise statement of the nature and general facts of the violation or noncompliance, and providing the Service Provider a reasonable period of time not exceeding thirty (30) days to furnish evidence:

- (1) That corrective action has been, or is being actively and expeditiously pursued, to remedy the violation or noncompliance;
- (2) That rebuts the alleged violation or noncompliance; and/or
- (3) That a lesser penalty or sanction would better serve the public interest.

(Ord. 89-2007. Passed 11-13-07.)

901.06 LOCATION, RELOCATION AND REMOVAL OF FACILITIES.

(a) Location of Facilities. All Facilities shall be Constructed, Reconstructed, installed and located in accordance with the following terms and conditions:

- (1) Overhead Facilities. A Service Provider with permission to install Overhead Facilities shall install its Facilities on pole attachments to existing utility poles only, and then only if Surplus Space is available. Except for Overhead Facilities as provided herein, no Facilities shall be located above ground in a Right-of-Way without the express written permission of the Planning Commission.
- (2) Underground Facilities. Whenever the existing electric, cable, telecommunications and other similar Facilities are located underground in a Right-of-Way, a Service Provider with permission to Occupy the same Right-of-Way with the electric, cable, telecommunications or other similar Facilities, must also locate its Facilities underground. Facilities shall be installed within an existing compatible underground duct or conduit whenever Excess Capacity exists within such Facility.

(b) Relocation or Removal of Facilities. Within thirty (30) days following written notice from the City, a Service Provider shall, at its expense, temporarily or permanently remove, relocate, change or alter the position of any Facilities in the Right-of-Way whenever the City determines that such removal, relocation, change or alteration is reasonably necessary for:

- (1) The Construction, Reconstruction, maintenance or installation of any City or other public improvement in or upon the Right-of-Way.
- (2) The operations of the City or other governmental entity in or upon the Right-of-Way.

Notwithstanding the above, no Service Provider shall be required to bear the expense of removal, relocation, change or alteration of position of any Facilities if such requirement would be prohibited by law.

(c) **Removal of Unauthorized Facilities.** Within thirty (30) days following written notice from the City, any Service Provider or other Person that owns, controls or maintains any unauthorized System, Facility or related appurtenances in the City's Right-of-Way shall, at its own expense, remove those Facilities or appurtenances from the Right-of-Way or shall, at the City's option, arrange to sell the System, Facilities or appurtenances to the City. After the thirty (30) days have expired, the City may remove the Facilities or appurtenances from the Right-of-Way at the other party's expense. A System or Facility is unauthorized and subject to removal in the following circumstances:

- (1) Upon revocation of the Service Provider's consent to Occupy or Use the Right-of-Way;
 - (2) If the System or Facility was Constructed, Reconstructed, operated or maintained without the consent to do so, except as otherwise provided by this Chapter;
 - (3) Upon abandonment of a Facility in the Right-of-Way of the City, with the exception of underground facilities abandoned in a manner authorized and approved by the City Engineer;
 - (4) If the System or Facility was Constructed or Reconstructed, or any Excavation of a Right-of-Way was performed, without prior issuance of a required Construction Permit, except as otherwise provided by this Chapter;
 - (5) If the System or Facility was Constructed, Reconstructed, operated or maintained, or any Excavation of a Right-of-Way was performed, at a location not permitted pursuant to the City's consent for the Provider to Occupy or Use the Right-of-Way or Construction Permit; or
 - (6) If the Service Provider fails to comply with, or cure a violation of, a material requirement of this Chapter.
- (d) **Emergency Removal or Relocation of Facilities.** The City retains the right and privilege to cut or move any Facilities, or stop work on any Construction, Reconstruction, or Excavation, located in the Right-of-Way, as the City Engineer may determine to be necessary, appropriate or useful in response to any need to protect the public health, safety or welfare.
- (Ord. 89-2007. Passed 11-13-07.)

901.07 NOTICE OF WORK, ROUTINE MAINTENANCE AND EMERGENCY WORK.

- (a) **Notice of Work.** Except in case of Emergency, as provided in Section 901.07(c), or for Routine Maintenance as provided in Section 901.07(b), no Service Provider, or any Person acting on the Service Provider's behalf, shall commence any work in the Right-of-Way of the City or Other Ways without twenty-four (24) hours advance notice to the City, obtaining a Construction Permit pursuant to Section 901.08, if required, and complying with the consent and registration requirements of Section 901.02.
- (b) **Routine Maintenance and New Service Orders.**
- (1) A Service Provider need not obtain a Construction Permit or notify the City prior to or after commencing any Routine Maintenance or New Service Orders that do not include the Construction in, or Excavation or Lane Obstruction of, a Right-of-Way or closing of a Public Street.
 - (2) For Routine Maintenance and New Service Orders that require the Service Provider to cause a Lane Obstruction in a Public Street for more than four (4) hours, the Service Provider shall provide the City with forty-eight (48) hours advance notice prior to commencing the Routine Maintenance or New Service Order, and shall submit a drawing showing the planned traffic maintenance and indicating how the Service Provider will meet all requirements of ODOT's Manual of Traffic Control Devices or other applicable ODOT regulations.
 - (3) A Service Provider performing Routine Maintenance shall otherwise comply with the requirements of this Chapter.
- (c) **Emergency Work.** In the event of the need for any unexpected repair or Emergency work, a Service Provider may commence such Emergency response work as required under the circumstances, provided that for Emergency work that requires Excavation of a Right-of-Way or Lane Obstruction or closing of a Public Street, the Service Provider shall notify the City Engineer as promptly as possible before commencing such Emergency work, or as soon as possible thereafter if advance notice is not practicable.
- (Ord. 89-2007. Passed 11-13-07.)

901.08 CONSTRUCTION PERMIT AND STANDARDS.

- (a) **Construction Permit.**
- (1) No Construction Permit is required for Routine Maintenance and New Service Orders that do not include Excavation in a Public Street.
 - (2) No Person shall commence or continue with the Construction or Reconstruction of Facilities or Excavation in the Right-of-Way without obtaining a Construction Permit from the City Engineer as provided in this Section, including but not limited to the following circumstances:
 - A. The Construction of a new System or Reconstruction of Facilities to provide a new Service;
 - B. The extension of a Service Provider's System in the Right-of-Way in an area of the City not currently serviced by that Service Provider; not including New Service Orders unless a Public Street will be Excavated;
 - C. Any Construction, Reconstruction or replacement of Facilities or New Service Orders in the Right-of-Way requiring more than one (1) working day to complete; or
 - D. Any Construction, Reconstruction or New Service Orders requiring the Excavation of a Public Street, including the replacement of a pole.
 - (3) No Construction Permit shall be issued for the Construction or Reconstruction of Facilities, or Excavation, in the Right-of-Way unless the Service Provider has obtained consent from the City to Use or Occupy that portion of the Right-of-Way and filed a current registration pursuant to Sections 901.02 and 901.03 of this Chapter.
 - (4) The City Engineer may waive or modify, as reasonably required, the construction permit requirements for Service Providers with Underground Facilities whose routine maintenance of Facilities requires Excavation.
- (b) **Construction Permit Applications.** Applications for Construction Permits shall be submitted upon forms provided by the City and be accompanied by relevant drawings, plans and specifications in sufficient detail and include the following information:
- (1) A preliminary construction schedule.
 - (2) **Above-Ground Facilities.**
 - A. If the applicant is proposing to Construct or Reconstruct Overhead Facilities:
 1. Evidence that Surplus Space is available for locating its Facilities on existing utility poles along the proposed route;
 2. The location and route of all Facilities to be located or installed on existing utility poles.
 - B. If the Applicant is proposing to install above-ground Facilities that are not Overhead Facilities, the location of all known existing underground utilities, conduits, ducts, pipes, mains and installations that are in the Right-of-Way in the proposed location of and/or along the route of the proposed above-ground Facilities.
 - (3) **Underground Facilities.**
 - A. If the applicant is proposing new Underground Facilities in existing ducts, pipes or conduits in the Right-of-Way, information in sufficient detail to identify:
 1. The Excess Capacity currently available in such ducts or conduits before the installation of the applicant's Facilities.
 2. The Excess Capacity, if any that will exist in such ducts or conduits after installation of the applicant's Facilities.
 - B. If the applicant is proposing new Underground Facilities in new ducts or conduits to be Constructed in the Right-of-Way:
 1. The location and depth proposed for the new ducts or conduits; and
 2. The Excess Capacity that will exist in such ducts or conduits after installation of the applicant's Facilities.
 - C. The location and route of all Facilities to be located under the surface of the ground, including the line and grade proposed for the burial at all points along the route which are in the Right-of-Way. Included with the installation shall be magnetic and florescent tape placed at a minimum of one (1) foot to a maximum of two (2) feet above the entire Facility as installed for the purpose of locating the Facility during future Construction activities, or other such location device as approved by the City Engineer. The tape shall be marked with the type of Facility installed.
 - D. The location of all known existing underground utilities, conduits, ducts, pipes, mains and installations that are in the Right-of-Way along the underground route proposed by the applicant.
 - (4) The location(s), if any, for interconnection with the Facilities of other Service Providers.
 - (5) The construction methods to be employed to protect existing structures, fixtures and Facilities in or adjacent to the Right-of-Way.
 - (6) The structures, improvements, Facilities, and obstructions, if any, that the applicant proposes to temporarily or permanently remove or relocate, and any necessary plans for their restoration.
 - (7) The impact of Construction or Reconstruction of Facilities on trees and landscaping in or adjacent to the Right-of-Way along the route proposed by the applicant, together with a landscape plan for protecting, trimming, removing, replacing and restoring any trees, landscaping or areas disturbed during Construction.
 - (8) Information to establish that the applicant has obtained all other governmental approvals and permits to Construct and operate the Facilities and to offer or provide the Services.
 - (9) An attestation that the Facilities will be Constructed or Reconstructed, or the Right-of-Way Excavated, in accordance with all applicable codes, rules and regulations.
 - (10) Any other information the City Engineer may reasonably request related to the Service Provider's application for a Construction Permit.
- (c) **Construction Codes.** Facilities shall be Constructed, Reconstructed and Excavated in accordance with all applicable federal, State and local codes, rules, regulations and technical codes including, but not limited to, the National Electrical Safety Code.
- (d) **Issuance of Permit.** Within ten (10) business days after submission of all plans and documents required of the applicant, the City Engineer, if satisfied that the applications, plans and documents comply with all requirements of this Chapter, shall issue a Construction Permit authorizing the Construction or Reconstruction of the Facilities, or Excavation in the Right-of-Way, subject to such further conditions, restrictions or regulations affecting the time, place and manner of performing the work as the City Engineer may deem necessary or appropriate. The ten (10) business day period shall begin after the City Engineer deems all submissions to be complete and in accordance with the requirements of this Chapter.
- (e) **Modification of Construction Schedule.** The Service Provider may modify the construction schedule at any time provided that forty-eight (48) hours advance notice is given to the City Engineer. The Service Provider shall further notify the City Engineer and the Ohio Utility Protection Service (OUPS) not less than forty-eight (48) hours in advance of any Excavation or work in the Right-of-Way.
- (f) **Least Disruptive Technology.** To the extent reasonably possible, all Facilities shall be Constructed or Reconstructed in the manner resulting in the least amount of damage and disruption of the Right-of-Way. Unless otherwise authorized by the City Engineer for good cause, Service Providers Constructing or Reconstructing Underground Facilities shall utilize Trenchless Technology, including, but not limited to, horizontal drilling, directional boring, and microtunneling, if technically and/or technologically feasible.
- (g) **Compliance with Permit.** All Construction practices and activities shall be in accordance with the Construction Permit and approved final plans and specifications for the Facilities. The City Engineer shall have access to the work and such further information as he or she may require to ensure compliance with such requirements. Field changes may be approved by the City Engineer if such changes are determined to be necessary due to site conditions or other changed circumstances.
- (h) **Display of Permit.** The Service Provider shall maintain a copy of the Construction Permit and approved plans at the construction site, which shall be displayed and made available for inspection by the City Engineer whenever Construction work is occurring.
- (i) **Noncomplying Work.** Upon order of the City Engineer, all work that does not comply with the Permit, the approved plans and specifications for the work, or the requirements of this Chapter, shall immediately cease and be immediately removed and/or corrected by the Service Provider.
- (j) **Record Drawings.** Within sixty (60) days after completion of Construction, the Service Provider shall provide the City with two (2) complete sets of plans, drawn to scale and certified to the City as accurately depicting the location of all Facilities Constructed pursuant to the Permit. If required by the City, the Service Provider shall submit the Record Drawings in a digital format compatible with the City's computer software, in accordance with Section 901.05(f).
- (k) **Restoration of Improvements.** Upon completion of any Construction work, the Service Provider shall promptly repair any and all Rights-of-Way, property improvements, fixtures, structures and Facilities which were damaged during the course of Construction, and restore them as nearly as practicable to their prior condition.
- (l) **Landscape Restoration.** All trees, landscaping and grounds removed, damaged or disturbed as a result of the Construction, Reconstruction, installation, maintenance, repair or replacement of Facilities must be replaced or restored as nearly as may be practicable, to the condition existing prior to performance of work, except to the extent that tree trimming is necessary to prevent the interference of tree branches with Overhead Facilities.
- (m) **Responsibility of Owner.** The owner of the Facilities to be Constructed or Reconstructed and, if different, the Service Provider, are responsible for performance of and compliance with all provisions of this Section.
- (Ord. 89-2007. Passed 11-13-07.)

901.09 RECOVERY OF CITY COSTS OF MANAGING THE RIGHT-OF-WAY.

- (a) **Purpose.** The purpose of this Section 901.09 is to provide for the recovery of all direct and indirect costs and expenses actually incurred by the City and associated with a Service Provider's Occupancy or Use of the Right-of-Way and related to the enforcement and administration of this Chapter.
- (b) **Recovery of Costs.** Any City costs related to a Service Provider's Occupancy or Use of the Right-of-Way and recovered pursuant to this Chapter shall be considered Public Way Fees as that term is defined in this Chapter and Chapter 4939 of the Ohio Revised Code. Public Way Fees shall be assessed by the City Engineer in a manner that is in accordance with Chapter 4939 of the Ohio Revised Code and any other applicable law.
- (1) City costs related to a Service Provider's Occupancy or Use of the Right-of-Way which may be recovered include, but are not limited to, administrative costs associated with applications for consent to Occupy or Use the Right-of-Way, initial and annual registration and issuance and enforcement of construction permits.
 - (2) City costs related to a Service Provider's use of the Right-of-Way and recovered pursuant to this Chapter from the Performance Bond, letter of credit and/or Construction Bond shall be considered Public Way Fees

and shall be assessed by the City Engineer in accordance with Chapter 4939 and any other applicable law.

(c) **Regulatory Fees and Compensation Not a Tax.** The regulatory fees and costs provided for in this Chapter are separate from, and additional to, any and all federal, State, local and City taxes as may be levied, imposed or due from a Service Provider, its customers or subscribers, or on account of the lease, sale, delivery or transmission of Services.
(Ord. 89-2007. Passed 11-13-07.)

901.10 MISCELLANEOUS PROVISIONS.

(a) **Variance.** Upon application of a Service Provider, the Planning Commission shall hear and decide requests for a variance from a requirement, or requirements, of this Chapter. In determining the merits of an application for a variance, the Planning Commission shall consider all relevant factors including, but not limited to, the purpose of the requirement from which a variance is requested, whether the requirement is necessary or appropriate to protect the interests of the City, the health safety and welfare of the City's residents, the purposes and intent of this Chapter and the extent of the hardship the Service Provider will bear if the Planning Commission does not grant the requested variance. The Planning Commission shall issue a written decision setting forth its reasons for granting or denying the variance.

(b) **Preemption by State and Federal Law.** Except as may be preempted by applicable State or Federal laws, rates, regulations, and orders, this Chapter shall apply and be controlling over each Service Provider with Facilities in the Rights-of-Way.

(c) **Exemption for City-Owned or Operated Facilities.** Except as otherwise required by law, nothing in this Chapter shall be construed to apply the provisions of this Chapter to Facilities owned or operated by the City or any of its operations.

(d) **Private Facilities.** Persons who wish to use the Right-of-Way of the City for Facilities that provide service not available to the general public shall obtain consent from the City pursuant to Section 901.02, register pursuant to Section 901.03, obtain a Construction Permit (if applicable) pursuant to Section 901.07 and comply with all provisions of this Chapter.

(e) **Application to Existing Code Provisions.** In the event of a direct conflict between any provision of this Chapter and any other section of the City's Codified Ordinances, the provisions of this Chapter shall apply.

(f) **Severability.** If any section, subsection, sentence, clause, phrase, or other portion of this Chapter, or its application to any Person, is, for any reason, declared invalid, in whole or in part by any court or agency of competent jurisdiction, that decision shall not affect the validity of the remaining portions hereof.

(g) **Remedies.** Nothing in this Chapter shall be construed as limiting any judicial remedies that the City may have, at law or in equity, for enforcement of this Chapter.
(Ord. 89-2007. Passed 11-13-07.)

901.99 PENALTIES AND OTHER REMEDIES.

(a) **Criminal Penalties.** Any Person found guilty of violating, disobeying, omitting, neglecting or refusing to comply with any of the provisions of this Chapter shall be guilty of a misdemeanor of the fourth (4th) degree. A separate and distinct offense shall be deemed committed each day on which a violation occurs or continues.

(b) **Civil Violations and Forfeiture.**

- (1) In lieu of the criminal penalties set forth above, the City Engineer may make an initial finding of a civil violation by the Service Provider for violating, disobeying, omitting, neglecting or refusing to comply with any of the provisions of this Chapter.
- (2) The Civil Forfeiture shall be in an amount payable to the City of not less than one hundred dollars (\$100.00) nor more than five hundred dollars (\$500.00) for each offense. A separate and distinct offense shall be deemed committed each day on which a violation occurs or continues.
- (3) An action for civil forfeiture shall be commenced by providing the Service Provider with written notice describing in reasonable detail the Service Provider's alleged violation of one or more provisions of this Chapter and the amount of the penalty that will be assessed against it.
- (4) The Service Provider shall have fifteen (15) days subsequent to receipt of the notice of violation in which to correct the violation before the City may assess penalties against the Service Provider. The time in which to cure the violation may be extended by the City if additional time is required to correct the violation; provided that the Service Provider commences corrective action within seven (7) days of the notice of violation and proceeds with reasonable diligence.
- (5) The Service Provider may dispute the alleged violation by providing the City with written notice within five (5) days of receipt of the notice of violation, setting forth in reasonable detail the reasons for its dispute. The City shall set a date for hearing of the alleged violation no sooner than thirty (30) days and no later than sixty (60) days from receipt of the notice of dispute.
- (6) The City shall issue a written decision on the Service Provider's alleged violation within thirty (30) days of the hearing, which decision shall be final and subject to the administrative appeal procedures under Ohio law. If the City finds after hearing that the alleged violation(s) did occur, the penalty shall be assessed starting fifteen (15) days from the notice of violation and shall continue until the violation has been corrected.

(c) **Other Remedies.** Nothing in this Chapter shall be construed as limiting any judicial remedies that the City may have, at law or in equity, for enforcement of this Chapter.
(Ord. 89-2007. Passed 11-13-07.)

CHAPTER 903

Sidewalks

903.01 Permit required; fee.

903.02 Width.

903.03 Supervision.

903.04 Specifications.

903.05 Establishment of grades; fee.

903.06 Annual sidewalk inspections.

903.07 Criteria for sidewalk inspections.

903.99 Penalty.

CROSS REFERENCES

Sidewalks and gutters - see Ohio R.C. 729.01 et seq.

Construction or repair at owner's expense - see Ohio R.C. 729.01 et seq.

Notice to construct or repair - see Ohio R.C. 729.03 et seq.

Sidewalk obstructions; damage or injury - see GEN. OFF. 517.04

Repair and drainage of sidewalks - see GEN. OFF. 517.05 , 517.06

Cutting curbs - see S. & P.S. Ch. 901

Construction - see P. & Z. 1103.08

903.01 PERMIT REQUIRED; FEE.

No person shall construct or repair a sidewalk or a driveway across a sidewalk without first obtaining a permit therefor from the Building Inspector. A separate permit shall be obtained for each property involved and all permits shall be valid only for the year in which issued. The fee for the permit shall be seventy-five dollars (\$75.00).
(Ord. 93-2008. Passed 11-25-08.)

903.02 WIDTH.

All sidewalks shall have a minimum width of not less than five feet. Where the existing width of walks is greater than five feet, all newly constructed walks must be of the same width as the existing walk. Where a width of greater than five feet for walks has been established, even though there are no walks in, all new construction must be to the greater width.

903.03 SUPERVISION.

The construction and repair of all sidewalks shall be done under the supervision of the Building Inspector.

(Ord. 30-61. Passed 11-21-61.)

903.04 SPECIFICATIONS.

Specifications for the construction or repair of sidewalks must be strictly adhered to by the permittee. Copies of the specifications are available at the office of the Building Inspector.

(Ord. 30-61. Passed 11-21-61.)

903.05 ESTABLISHMENT OF GRADES; FEE.

The grade for all sidewalks shall be established by the City Engineer to insure that the grade will be in conformity with the topography of the adjacent land, allow proper drainage of surface water and allow the construction of sewers at reasonable depths.
(Ord. 93-2008. Passed 11-25-08.)

903.06 ANNUAL SIDEWALK INSPECTIONS.

An inspection of the sidewalks within the City shall be conducted by the Building Department once each calendar year at a time designated by the Department to facilitate compliance with standards for sidewalk maintenance and repair required in the Codified Ordinances. The results of each annual sidewalk inspection shall be put into a written report and a copy of the same shall be placed on file with the Building Department, City Engineer and the Clerk of Council for review and further action by Council. Each property owner shall be notified of any defective or condemned portion of sidewalk, if any, and the requirement to repair the same.

(Ord. 83-89. Passed 5-10-90.)

903.07 CRITERIA FOR SIDEWALK INSPECTIONS.

The inspection of the sidewalks within the City as required by Section 903.06 shall be conducted based on the following criteria for condemning sidewalks or portions thereof:

- (a) Height differential between portions of sidewalk one inch or more.
- (b) Multiple cracks in block creating three or more distinct pieces. (Block is scored area, usually five feet by five feet.)
- (c) A abrupt dip or raised area in walk being two and three quarter inches or more from a straight line grade within a ten foot distance.
- (d) Spalled or scaled surface over fifty percent (50%) or more of surface area.
- (e) Gaps or missing areas in walk exceeding one and one-half inch wide crack.
- (f) Loose, rocking or missing sidewalk areas.
- (g) Blocks having reverse cross slopes sloping away from street or sloped reverse from intended slope and causing impounding of mud or water.
- (h) Too severe a slope, exceeding three-fourths inch vertical in a one foot horizontal area.
- (i) Surface too smooth, surface slippery when wet and/or dry, such as a smooth steel plate, or smooth steel troweled concrete.
- (j) Obstructions in sidewalk areas such as stumps, stones, private sign posts or any unauthorized obstruction in the sidewalk area.
- (k) Water, gas or other valve boxes, etc., that are not to proper grade.
- (l) Defective columns, supporting walls or slab for support of slab or slab over sub- space or other "bridged" open area.

(Ord. 83-89. Passed 5-10-90.)

903.99 PENALTY.

Any person violating any provision of this chapter is guilty of a misdemeanor of the first degree.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 905

Driveway Culverts; Roadside Ditches

- 905.01 Permit for installation required; regulations.**
- 905.02 Permit for changes.**
- 905.03 Fee for culvert pipe installation.**
- 905.04 Fee for grade changes.**
- 905.99 Penalty.**

CROSS REFERENCES

Sidewalks and gutters - see Ohio R. C. 729.01 et seq.
Repair and drainage of sidewalks - see GEN. OFF. 517.05 , 517.06
Specifications for public and private roads - see P. & Z. Ch. 1103

905.01 PERMIT FOR INSTALLATION REQUIRED; REGULATIONS.

Before installing any driveway culvert along a roadside ditch within the dedicated portion of any public street within the City, the owner of the abutting property shall first obtain written permission from the Building Inspector to make such installation. The length, diameter and type of material of such culvert, the depth and level of such culvert shall first be approved by the Building Inspector and the installation of such culvert shall be subject to the approval and inspection of the Building Inspector.

(Ord. 30-61. Passed 11-21-61.)

905.02 PERMIT FOR CHANGES.

No person shall fill in, cover, regrade or alter the course or grade of any ditch or otherwise change the grade of a ditch, tree lawn or any portion of a dedicated street within the City without first having obtained permission from the Building Inspector. Any such filling in, covering, grading or alteration shall be subject to the approval and inspection at all times of the Building Inspector.

(Ord. 30-61. Passed 11-21-61.)

905.03 FEE FOR CULVERT PIPE INSTALLATION.

Every person making an installation of a driveway culvert pipe shall pay the sum of ten dollars (\$10.00).

(Ord. 30-61. Passed 11-21-61.)

905.04 FEE FOR GRADE CHANGES.

Every person otherwise filling in, covering, regrading or altering the course or grading of a drainage ditch or in any manner changing the grade of a ditch, tree lawn or other portion of a dedicated street, shall first pay the sum of fifteen dollars (\$15.00).

(Ord. 30-61. Passed 11-21-61.)

905.99 PENALTY.

Whoever violates any provision of this chapter shall be guilty of a misdemeanor of the first degree.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 907

House Numbering

- 907.01 Uniform system; Official Map.**
- 907.02 Assignment of numbers.**
- 907.03 Compliance required.**
- 907.99 Penalty.**

CROSS REFERENCES

Power to regulate building numbering - see Ohio R. C. 715.26

907.01 UNIFORM SYSTEM; OFFICIAL MAP.

A uniform system of numbering houses and structures located along all north-south streets within the City, as shown on the Official Map, as revised on February 16, 1959, is hereby adopted.

(Ord. 806-59. Passed 4-6-59.)

907.02 ASSIGNMENT OF NUMBERS.

The Building Commissioner is authorized to assign such uniform numbers to residents who shall request the same.

(Ord. 806-59. Passed 4-6-59.)

907.03 COMPLIANCE REQUIRED.

Every dwelling in the City shall have posted in a conspicuous manner the identifying house number thereof which has been assigned to such dwelling by the Building Commissioner. The numerals for the house number shall be not less than three and one-half inches in height. The house number shall be mounted on the front elevation of the dwelling in the vicinity of the primary entrance door so that it is clearly visible from the public right-of-way on which such dwelling is located. The house number may not be located on any exterior doors. A house number may be painted on the right-of-way curbing, and/or may be displayed on a post light or any other exterior structure, but these shall not be considered a substitute for the number that shall be mounted on the front elevation of the dwelling.

(Ord. 158-93. Passed 1-1 1-94.)

907.99 PENALTY.

Any owner, agent, lessee or tenant of any dwelling in the City who, after written notification by the Building Commissioner of maintaining an illegible or unreadable house number sign, fails to correct the condition in accordance with the requirements of this chapter and within ten days of such notification is guilty of a misdemeanor of the first degree.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 911

Trees, Shrubs and Bushes

- 911.01 Definitions.**
- 911.02 City Arborist's jurisdiction and duties.**

- 911.99 Penalty.**

CROSS REFERENCES

Power to regulate shade trees and shrubbery - see Ohio R.C. 715.20
Assessments for tree planting or maintenance - see Ohio R.C. 727.011
Malicious destruction - see Ohio R.C. 2909.02
Removal of noxious weeds - see GEN. OFF. 517.11

911.01 DEFINITIONS.

For the purposes of this chapter the following terms, phrases, words and their derivations shall have the meaning given herein. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number and words in the singular number include the plural number. The word "shall" is always mandatory and not merely directory.

- (a) "City" means the City of Richmond Heights, Ohio.
- (b) "City Arborist" means the Director of Public Service or a specifically assigned member of his staff.
- (c) "Person" means any person, firm, partnership, association, corporation, company or organization of any kind.
- (d) "Street tree" or "tree" means a tree in a public place, except where otherwise indicated.
- (e) "Public place" means any public street, public highway, public park or any property owned or held by the City within the boundaries of the City.
- (f) "Arboriculture" or "tree preservation" means and includes the treating, spraying, pruning, maintaining and any other care or work intended for the strengthening of trees, and the removal and prevention of tree pests, blights and diseases of any and all kinds.

(Ord. 38-64. Passed 12-22-64.)

911.02 CITY ARBORIST'S JURISDICTION AND DUTIES.

The Director of Public Service and Properties shall, by virtue of his office, be the City Arborist.

- (a) Scope of Authority. The Director of Public Service and Properties is hereby given full jurisdiction, authority, control, supervision and direction over all trees which now or which may hereafter exist upon any public place in this City and over all trees which exist upon any private property in this City when such trees constitute a menace to the City.
 - (1) Issuance of permits. The Director of Public Service and Properties is also given full jurisdiction, authority and control in connection with the issuing of permits hereinafter provided for.
 - (2) Delegation of duties and authority. In the exercise of any or all powers herein granted, the Director of Public Service and Properties shall have the authority to delegate all or such part of his power and duties with respect to supervision and control of trees to his subordinates and assistants in the employ of the City as he may from time to time determine.
- (b) Order to Preserve or Remove. The Director of Public Service and Properties shall have the authority and it shall be his duty to order the trimming, preservation or removal of trees or plants upon private property when he shall find such action necessary to public safety or to prevent the spread of disease or insects to public trees and places.

(Ord. 38-64. Passed 12-22-64.)

911.03 MASTER STREET TREE PLAN ADOPTED.

There is hereby adopted for the City a Master Street Tree Plan Public Document showing varieties of species of all trees to be planted in the public right of way of all streets within the City. The plan is contained under separate cover attached to this chapter and incorporated in this chapter by reference as if fully set forth herein. No person shall hereafter plant, transplant or move any public tree on or to any street of the City except to a location where it will be in conformance to the Master Street Tree Plan and the species or variety therein designated.

(Ord. 38-64. Passed 12-22-64.)

911.04 PERMIT REQUIRED; CONDITIONS.

(a) Tampering with Trees in Public Places. No person shall plant, remove, destroy, cut, prune, treat, break, climb, injure or spray any tree existing on any public place in this City, or authorize or procure any person to do so, or remove or tamper with any device placed for the protection of any such tree, or attach any rope, wire, chain, sign or other device placed for the protection of such tree, or authorize or cause the same to be done, except having first obtained written permission from the Director of Public Service and Properties to do so.

(b) Permit Specifications; Support Posts. Such permit, when granted for the planting of any tree on any public place in this City, shall designate the species of tree to be planted, the required spacing and required minimum planting size, as specified in the Master Street Tree Plan for the City, as such plan now exists or as it may be amended from time to time. All newly planted trees, whether installed by the abutting property owner or contractor, shall be supported by a ninety-six inch iron fence post placed on the street side of the tree. No person shall guy any tree less than four inches in caliper with wires or rope. For trees over four inches in caliper, special permission must be obtained and the permittee must assume liability for accidents occurring therefrom.

(c) Application Data. The application for permit herein required shall state the number and kind of trees to be trimmed, sprayed, preserved, removed or planted, the kind of treatment to be administered, and such other information as the Director of Public Service and Properties shall find reasonably necessary to a fair determination of whether a permit should be issued hereunder.

(d) Standard for Issuance. The Director of Public Service and Properties shall issue the permit provided for herein when he finds that the desired action or treatment is necessary and that the proposed method and workmanship are satisfactory.

(e) Supervision. The Director of Public Service and Properties shall have the authority and it shall be his duty to supervise all work done under a permit issued in accordance with the terms of this chapter.

(f) Conditions. The Director of Public Service and Properties shall have the authority to affix reasonable conditions to the grant of a permit hereunder.

(g) Exemptions. No permit shall be required to cultivate, fertilize or water public trees or shrubs. The Director of Public Service and Properties may authorize any person to do any work or act described in subsection (a) hereof without written permit whenever he determines that such work or act will not be detrimental to the public interest and will be in accord with the spirit and other requirements of this chapter.

(Ord. 38-64. Passed 12-22-64.)

911.05 GENERAL TREE AND SHRUB REGULATIONS.

(a) Injury to Trees and Shrubs Prohibited. No person shall, without the consent of the owner in the case of a private tree or shrub, or without a written permit from the Director of Public Service and Properties in the case of a public tree or shrub, do, or cause to be done by others, any of the following acts:

- (1) Secure, fasten or run any rope, wire, sign or other device or material to, around or through a tree or shrub;
- (2) Break, injure, mutilate, deface, kill or destroy or permit any fire to burn where it will injure any tree or shrub;
- (3) Permit any toxic chemical, gas, smoke, salt, brine, oil or other injurious substance to seep, drain or be emptied upon or about any tree or shrub;
- (4) Excavate any ditch, tunnel or trench or lay any drive within a radius of not closer than three feet from any tree or shrub;
- (5) Erect, alter, repair or raze any building or structure without placing suitable guards around all nearby public trees or shrubs which may be injured or defaced, or where the injury or defacement may arise, in connection with or by reason of such an operation. Quality of the guard shall be determined by the Director of Public Service and Properties;
- (6) Knowingly permit any unprotected electric service wires to come in prolonged contact with any public tree or shrub; or
- (7) Remove any guard, stake or other device or material intended for the protection of a public tree or shrub or close or obstruct any open space about the base of a public tree or shrub designed to permit access of air, water and fertilizer, as described in Section 911.09 hereof.

(b) Trimming of Trees. The Director of Public Service and Properties shall and he is hereby directed to keep all trees standing upon any public place in this City trimmed so that the branches of such trees projecting over any public sidewalk, private driveway or into any public street beyond the curb line, shall not conflict with the public welfare.

(c) Trimming of Trees on Private Property. All trees standing upon private property in this City having branches projecting into public highways or public places shall, under the supervision of the Director of Public Service and Properties, be kept trimmed by the owner or occupant of such private property to such an extent that the lowest branches of such trees shall not come within nine feet of the ground where they overhang any public sidewalk or public place or thirteen feet over a public highway.

(d) Obstruction of View at Intersections Prohibited. Notwithstanding any other provision of this chapter, no person shall maintain, plant or permit to remain on any private or public premises situated at the intersection of two or more streets or alleys in the City any hedge, tree, shrub or other growth which may obstruct the view of the operator of any motor vehicle approaching such intersection to the extent that such operator is unable to observe other vehicles or pedestrians approaching or crossing such intersection. Any such hedge, tree, shrub or growth is hereby declared to be a public nuisance.

(Ord. 38-64. Passed 12-22-64.)

911.06 CERTAIN TREES PROHIBITED IN PUBLIC PLACES.

Any silver maple, honey locust, poplar, basswood, box elder, catalpa or willow upon private property in the City, in such close proximity to any public place as will permit the roots of such tree to penetrate through or under the surface of any public place, is hereby declared to be a public nuisance and may be abated by the Director of Public Service and Properties as provided in Sections 911.02 (b) and 911.08 .

(Ord. 38-64. Passed 12-22-64.)

911.07 PRESERVATION AND REMOVAL OF TREES ON PUBLIC PROPERTY.

The Director of Public Service and Properties shall have the right to trim any tree existing on any public place in the City so as to insure the public safety or to preserve the function or beauty of such public place. He shall further have the right to remove any such tree, or any part thereof, which is in an unsafe condition or which, by reason of its location or nature, is injurious or detrimental to other public improvements in the City, or is infected with any injury, fungus, insect or other pest or disease which cannot otherwise be controlled. Such infested or infected tree is a public nuisance.

(Ord. 38-64. Passed 12-22-64.)

911.08 PROCEDURE UPON ORDER TO PRESERVE OR REMOVE.

When the City Arborist shall find it necessary to order the trimming, preservation or removal of trees or plants upon private property, as authorized in Sections 911.02 (b) and 911.05 (c) herein, he shall serve a written order to correct the dangerous condition upon the owner, operator, occupant or other person responsible for its existence.

(a) Method of Service. The order required herein shall be served in one of the following ways:

- (1) By making personal delivery of the order to the person responsible;
- (2) By leaving the order with some person of suitable age and discretion upon the premises;
- (3) By affixing a copy of the order to the door at the entrance of the premises in violation;
- (4) By mailing a copy of the order to last known address of the owner of the premises, by registered mail; or
- (5) By publishing a copy of the order in local paper once a week for three successive weeks.

(b) Time for Compliance. The order required herein shall set forth a time limit for compliance, dependent upon the hazard and danger created by the violation. In cases of extreme danger to persons or public property, the City Arborist shall have the authority to require compliance immediately upon service of the order.

(c) Appeal from Order. A person to whom an order hereunder is directed shall have the right, within twenty-four hours of the service of such order, to appeal to the Mayor, who shall review such order within three days and file his decision thereon. Unless the order is revoked or modified, it shall remain in full force and be obeyed by the person to whom directed. No person to whom an order is directed shall fail to comply with such order within ten days after an appeal shall have been determined.

(d) Failure to Comply. When a person to whom an order is directed shall fail to comply within the specified time, the City Arborist shall remedy the condition or contract with others for such purpose and charge the cost thereof to the person to whom the order is directed. The person remedying a condition under a contract made hereunder shall be authorized to enter premises for that purpose.

(e) Failure to Pay Cost; Interest. If the cost of remedying a condition is not paid within ten days after receipt of a statement therefor from the City Arborist, such cost shall be levied against the property upon which the hazard exists, as a special assessment. The levying of such assessment shall not affect the liability of the person to whom the order is directed to fine and imprisonment as herein provided. Such special assessment shall be collected in the manner provided in Ohio R.C. 727.30 and 727.38, with a forfeiture of five percent and interest for failure to pay at the time fixed by the assessing ordinance.

(Ord. 38-64. Passed 12-22-64.)

911.09 STONE OR CONCRETE ON GROUND ADJACENT TO TREE TRUNK.

No person shall place or maintain upon the ground in any public place any stone, concrete, brick or other impervious material or substance in such a manner as may obstruct the free access of air and water to the roots of any tree upon any public place in this City, without first having obtained written permission. Unless otherwise provided for, there shall be maintained about the base of the trunk of each such tree at least nine square feet of open ground for every three inches in diameter, for every two inches of increase of such diameter, there shall be an increase of at least one square foot of open ground.

(Ord. 38-64. Passed 12-22-64.)

911.10 MOVING OF TREES; BOND.

All moving of trees upon any public place in this City made necessary by the moving of a building or structure or any other private enterprise shall be done under the supervision, and with the written permission, of the City Arborist, and at the expense of the applicant or person seeking the removal of such tree. Such applicant, as one of the conditions to obtaining such permission, shall deposit with the City such sum in cash as the City Arborist may determine and specify to cover all of the cost of moving and replacing such tree, if the conditions of such permission require the replacement thereof. However, in lieu of such cash deposit the City Arborist may, in his discretion, accept a good and sufficient bond in like amount conditioned upon the payment of all the cost of such moving and replacing.

(Ord. 38-64. Passed 12-22-64.)

911.11 DUTIES OF PRIVATE OWNERS.

It shall be the duty of any person growing a tree within a public highway or responsible for trees growing on property abutting on public places supporting trees or plants to:

- (a) Trim his trees so as not to cause a hazard to public places or interfere with the proper lighting of public highways by the street lights, and so that the minimum clearance of any overhanging portion thereof shall be nine feet over footways and thirteen feet over vehicular ways;
- (b) Treat or remove any tree or plant so diseased or insect-ridden as to constitute a hazard to trees or plants in public places; and
- (c) Remove and refrain from planting any of the species mentioned in Section 911.06 .

(Ord. 38-64. Passed 12-22-64.)

911.12 AUTHORITY OF CITY ARBORIST TO ENTER PRIVATE PROPERTIES.

The City Arborist shall have the authority to enter upon private premises at all reasonable times for the purpose of examining any tree or shrub located upon or over such premises and carrying out any of the provisions of this chapter.

(Ord. 38-64. Passed 12-22-64.)

911.13 INTERFERENCE WITH CITY ARBORIST PROHIBITED.

No person shall prevent, delay or interfere with the City Arborist or his agents, employees or servants while they are engaged in carrying out any work or activities authorized by this chapter.

(Ord. 38-64. Passed 12-22-64.)

911.14 REGULATIONS FOR TREES IN TREE LAWNS.

(a) For purposes of this section, a "tree lawn" is defined as the area located between the curb of the public street and the edge of the public sidewalk, or in the event a public sidewalk does not exist, to the edge of the public right-of-way which has been dedicated to the City for public purposes.

(b) Trees in tree lawns shall be planted at intervals of not more than thirty-five feet nor less than twenty-five feet on centers, and shall have an initial diameter of two inches, measured at six inches above ground level. Trees shall be planted at least forty feet away from street intersections.

- (c) Trees shall be planted in tree lawns in accordance with the "Planting Site Requirements for Small, Medium and Large Trees" of the Division of Forestry of the Ohio Department of Natural Resources.
- (d) The trees planted in tree lawns shall be species which are resistant to damage, insect and disease, and not interfere with underground and overhead utilities, sidewalks and street lighting.

Suggested species are:

Red Maple (*Acer Rubrum* var., including Celebration)
Sugar Maple (*Acer Saccharum* var.)
Red Oak (*Quercus Rubra* var.)
Thornless Honey Locust (*Gleditsia Tri. Inermis* var.)
American Linden (*Tillia Americana* var.)
Littleleaf Linden (*Tillia Cordata* var.)
White Ash (*Fraxinus American* var.)
Green Ash (*Fraxinus Pennsylvanica* var.)
Zelcova Tree (*Zelkova Serrata* var.)
Common Hackberry (*Celtis Occidentalis* var.)

In addition to the foregoing list, the "Master List" of Street Trees compiled by the Division of Forestry of the Ohio Department of Natural Resources shall be utilized.

(Ord. 27-96. Passed 5-14-96.)

911.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each such offense and each day during which the violation shall continue shall be held and deemed to be a separate offense.

(Ord. 76-2003. Passed 9-23-03.)

Small Cell Design Guidelines - see S. & P.S. Ch. 915

913.01 OVERVIEW AND PURPOSE; DEFINITIONS.

- (a) The purpose of this Chapter is to:
- (1) Provide standards for the construction, installation, modification, operation, and removal of Facilities and Wireless Support Structures in the City's Right-of-Way to protect the health, safety, and welfare of the citizens of the City;
 - (2) Preserve the character of the City, including the City's neighborhoods, downtown, other business districts and historic districts and protect property values;
 - (3) Give guidance to wireless telecommunications providers to assist such companies in the timely, efficient, safe, and aesthetically-pleasing installation of Facilities and Wireless Support Structures; and
 - (4) To exercise the City's home rule authority and, to the extent legally permitted, not to conflict with or preempt applicable state and federal law; and
 - (5) Facilitate deployment of small cell Facilities and advanced wireless communications within the City in a manner that complies with the requirements of this Chapter and does not materially inhibit such deployment or the provision or availability of advanced wireless communications.
- (b) For the purpose of this Chapter, and the interpretation and enforcement thereof, the following words and phrases shall have the following meanings, unless the context of the sentence in which they are used shall indicate otherwise:
- (1) "Applicant" means any person or entity who submits an Application pursuant to this Chapter.
 - (2) "Application" means the form issued by the Commissioner of Building, Zoning and Housing, to be submitted by an Applicant to obtain a Small Cell Use Permit from the City to Collocate a Small Cell Facility and/or to construct, maintain, modify, operate, or replace a Wireless Support Structure.
 - (3) "Accessory Equipment" means equipment used in conjunction with a Small Cell Facility and generally at the same location of the Small Cell Facility, including, but not limited to, electric meters, concealment elements, telecommunications demarcation boxes, grounding equipment, power transfer switches, cut-off switches, and vertical cable runs.
 - (4) "City" means City of Richmond Heights.
 - (5) "Collocation" or "Collocate" means to install, mount, maintain, modify, operate, or replace wireless Facilities on a Wireless Support Structure.
 - (6) "Design Guidelines" means standards applicable to Small Cell Equipment and Wireless Support Structures in the Right-of-Way, established in Chapter 915.
 - (7) "Eligible Facilities or Eligible Support Structure Request" means any request for modification of an existing support structure or base station that does not substantially change the physical dimension of such support structure involving Collocation of new Facilities; removal of Facilities; or replacement of Facilities. A substantial change means:
 - (A) A modification that changes the physical dimension of a Wireless Support Structure by increasing the height of the Wireless Support Structure by more than ten percent (10%) or more than ten (10) feet, whichever is greater; and/or by adding an appurtenance to the body of the Wireless Support Structure that would protrude from the edge of the Wireless Support Structure by more than six (6) feet;
 - (B) The installation of more than the standard number of equipment cabinets for the technology involved or the installation of more than (4) cabinets, whichever is less;
 - (C) The installation for any new ground-mounted equipment cabinets if there are no existing ground-mounted equipment cabinets;
 - (D) Any excavation or deployment outside of the current site of the Facility;
 - (E) Removal of any concealment elements of the Facilities or the Wireless Support Structure; and
 - (F) Any change that does not comply with this Chapter, the Design Guidelines set forth in Chapter 915, or state or federal law and regulations.The threshold for measuring increases that may constitute a substantial change are cumulative, measured from the Facilities as originally permitted (including any modifications that were reviewed and approved by the City prior to the enactment of the federal Spectrum Act on February 22, 2012.)
 - (8) "Facilities" means Small Cell Facilities, Accessory Equipment, and Wireless Support Structures.
 - (9) "Facilities Operator" means the person or entity responsible for the installation, operation, maintenance, replacement, and modification of Facilities. Facilities Operator includes:
 - (A) Operators;
 - (B) Applicants who applied for consent to Collocate a Small Cell Facility or to construct, maintain, modify, operate, or replace a new Wireless Support Structure pursuant to Ohio Revised Code Section 4939.031(E) and who have obtained a Small Cell Use Permit; and
 - (C) Applicants who applied for consent to Collocate a Small Cell Facility or to construct, maintain, modify, operate, or replace a new Wireless Support Structure pursuant to Ohio Revised Code Section 4939.033 and who have obtained a Small Cell Use Permit.
 - (10) "Operator" means a wireless service provider, cable Operator, or a video service provider that operates a Small Cell Facility and provides wireless service, including a wireless service provider, cable operator, or a video service provider that provides information services as defined in the federal "Telecommunications Act of 1996," 110 Stat. 59, 47 U.S.C. 153(20), and services that are fixed in nature or use unlicensed spectrum.
 - (11) "Public Way" or "Right-of-Way" means the surface of, and the space within, through, on, across, above or below, any public street, public road, public highway, public freeway, public lane, public path, public alley, public court, public sidewalk, public boulevard, public parkway, public drive, public easement, and any other land dedicated or otherwise designated for a comparable public use, which is owned or controlled by the City or other public entity or political subdivision.
 - (12) "Small Cell Facility" means a wireless facility:
 - (A) That meets both of the following requirements:
 - (i) Each antenna is located inside an enclosure of not more than six (6) cubic feet in volume or, in the case of an antenna with exposed elements, the antenna and all of its exposed elements can fit within an enclosure of not more than six (6) cubic feet in volume; and
 - (ii) All other wireless equipment associated with the facility is cumulatively not more than twenty-eight cubic feet in volume. The calculation of equipment volume shall not include electric meters, concealment elements, telecommunications demarcation boxes, grounding equipment, power transfer switches, cut-off switches, and vertical cable runs for the connection of power and other services.
 - (B) That includes a "Small Wireless Facility," which is a type of Small Cell Facility (i) in which each antenna is located within an enclosure of not more than three (3) cubic feet in volume or, in the case of an antenna with exposed elements, the antenna and all of its exposed elements can fit within an enclosure of not more than three (3) cubic feet in volume, (ii) where such antenna is associated with a structure (a) fifty (50) feet or less in height, including the antenna, or (b) that is not more than ten percent (10%) taller than adjacent structures, or (c) is not extended in height by more than ten percent (10%) or to a height exceeding fifty (50) feet, whichever is greater, and (iii) which also otherwise satisfies the definition of "Small Wireless Facilities" found in the FCC's Small Cell Order adopted September 26, 2018, FCC 18-133.
 - (13) "Small Cell Equipment" means a Small Cell Facility and all Accessory Equipment.
 - (14) "Small Cell Use Permit" means the permit granted by the City authorizing the Applicant to Collocate a Small Cell Facility or to construct, maintain, modify, operate, or replace a Wireless Support Structure in the Right-of-Way.
 - (15) "Wireless Support Structure" means a pole, such as a monopole, either guyed or self-supporting, street light pole, traffic signal pole, a fifteen-foot or taller sign pole, or utility pole capable of supporting Small Cell Facilities. As used in this Chapter, "Wireless Support Structure" excludes the following except in connection with a Small Wireless Facility, in which case the following are not excluded:
 - (A) A utility pole or other facility owned or operated by a municipal electric utility; and
 - (B) A utility pole or other facility used to supply traction power to public transit systems, including railways, trams, streetcars, and trolleybuses.

(Ord. 52-2019. Passed 5-14-19.)

913.02 CONSENT REQUIRED.

- (a) Any person or entity seeking to Collocate a Small Cell Facility in the Right-of-Way, or to construct, maintain, modify, operate, or replace a Wireless Support Structure in the Right-of-Way, shall first file a written Application for a Small Cell Use Permit with the Commissioner of Building, Zoning and Housing ("Commissioner") in accordance with the requirements in this Chapter, Design Guidelines set forth in Chapter 915 of this

Code, Ohio Revised Code Chapter 4939, and all applicable state and federal laws and regulations.

(b) Applicants are strongly encouraged to contact the Commissioner and request a pre-Application conference. This meeting will provide an opportunity for early coordination regarding proposed Facilities, locations, design, Application submittal, and the approval process in order to avoid any potential delays in the processing of an Application and deployment of Facilities in the City.

(c) A Small Cell Use Permit granted under this Chapter shall not convey any right, title or interest in the Right-of-Way, but shall be deemed a permit only to use and occupy the Public Ways for the limited purposes and term stated in the permit, this Chapter, and the Design Guidelines forth in Chapter 915 of this Code. Further, no Small Cell Use Permit shall be construed as any warranty of title.
(Ord. 52-2019. Passed 5-14-19.)

913.03 PERMIT APPLICATION TYPES.

Applicants shall classify their Application as one of the following types:

- (a) Type 1: Eligible Facilities Requests.
- (b) Type 2: Application for Collocation of Small Cell Equipment on a Wireless Support Structure that does not constitute an Eligible Facilities Request.
- (c) Type 3: New Wireless Support Structure. Such applications address construction, modification, replacement, or removal of a Wireless Support Structure within the Right-of-Way. At the time of Application, Applicants shall certify that Small Cell Equipment will be placed on the Wireless Support Structure within 180 days from the date the Small Cell Use Permit is issued.
- (d) For Type 2 and Type 3 Applications, Applicants shall indicate whether the Application is or is not for a Small Wireless Facility.
(Ord. 52-2019. Passed 5-14-19.)

913.04 CONSOLIDATED CONSENT APPLICATIONS.

(a) Pursuant to Ohio Revised Code Section 4939.0312, an Applicant may file one consolidated application for up to thirty (30) individual small cell Facilities or thirty (30) individual Wireless Support Structures as long as the facilities or structures for which consent is requested are substantially similar.

- (1) Small Cell Facilities shall be considered substantially similar when the Small Cell Equipment is identical in type, size, appearance and function.
- (2) Wireless Support Structures shall be considered substantially similar when the Wireless Support Structures are identical in type, size, appearance and function and are to be located in a similar location.
- (3) Applications for Facilities and Wireless Support Structures cannot be commingled.
- (b) The City may, at its discretion, require separate Applications for any Small Cell Facilities or Wireless Support Structures that are not substantially similar.
- (c) Although applications for Small Wireless Facilities may be filed on a consolidated basis, applications involving Small Wireless Facilities may not be commingled with applications for other Small Cell Facilities or Wireless Support Structures. The limit on the number of applications that may be filed in a consolidated application pursuant to Section 913.04(a) shall not apply to applications involving Small Wireless Facilities.
(Ord. 52-2019. Passed 5-14-19.)

913.05 APPLICATION FEE.

- (a) The fee for each application is Two Hundred Fifty Dollars (\$250.00). The fee is adjusted upward by ten percent (10%) every five years, rounded to the nearest Five (5) Dollars, beginning in the year 2023.
- (b) An Application shall not be deemed complete until the fee is paid.
- (c) If Applications are consolidated, then the fee shall be the sum resulting from the fee set forth in subsection (a) multiplied by the total number of Facilities or Wireless Support Structures included in the consolidated Application.
(Ord. 52-2019. Passed 5-14-19.)

913.06 ATTACHMENT FEE.

- (a) In addition to the Application Fee, an annual fee shall be paid to the City for each Small Cell Facility attached to a municipally-owned Wireless Support is Two Hundred Dollars (\$200.00). The fee is adjusted upward by ten percent (10%) every five years, rounded to the nearest five (5) dollars, beginning in the year 2023.
- (b) The first-year attachment fee shall be paid when the collocation is complete, and no later than January 1 each year thereafter. The first-year attachment fee shall not be prorated, regardless of the date that the collocation is complete.
(Ord. 52-2019. Passed 5-14-19.)

913.07 REQUIRED APPLICATION MATERIALS.

The Applicant must submit the following documentation with each Application.

- (a) Completed Application form including the identity, legal status and federal tax identification number of the Applicant, as well as all affiliates and agents of the Applicant that will use or be, in any way, responsible for the Facilities.
- (b) The name, address, and telephone number of the local officer, agent, or employee responsible for the accuracy of the application to be notified in case of emergency.
- (c) Fully dimensional scaled site plan (scale no smaller than one inch equals forty (40) feet). The site plan must include:
 - (1) The exact proposed location of the Facilities within the Right-of-Way;
 - (2) All existing Facilities with all existing transmission equipment;
 - (3) The location of all overhead and underground public utilities, telecommunications, cable, water, sanitary sewer, and storm water drainage utilities in the Public Way within one hundred (100) feet surrounding the proposed Facilities.
 - (4) The legal property boundaries within one hundred (100) feet surrounding the proposed Facilities;
 - (5) Indication of distance between the Facilities and existing curbs, driveways, sidewalks, trees, utilities, other poles, and existing buildings within one hundred (100) feet surrounding the proposed Facilities; and
 - (6) Access and utility easements within one hundred (100) feet surrounding the proposed Facilities.
- (d) Elevation drawings (scale no smaller than one inch equals ten (10) feet) of the proposed Facilities.
- (e) Evidence that the Applicant provided notice by mail to all property owners within 300 feet of the proposed Facilities prior to submitting the Application. The notice shall include:
 - (1) Name of the Applicant;
 - (2) Estimated date Applicant intends to submit the Application;
 - (3) Detailed description of the proposed Facilities and the proposed location; and
 - (4) Accurate, to-scale photo simulation of the proposed Facilities. Scale shall be no smaller than one inch equals forty (40) feet.
- (f) A preliminary installation/construction schedule and completion date.
- (g) Structural calculations prepared, stamped and signed by an engineer licensed and registered by the State of Ohio showing that the Wireless Support Structure can accommodate the weight of the proposed small cell equipment.
- (h) Analysis demonstrating that the proposed Facilities do not interfere with the City's public safety radio system, traffic and emergency signal light system, or other City safety communications components. It shall be the responsibility of the Applicant to evaluate, prior to making the Application for a Small Cell Use Permit, the compatibility between the existing City infrastructure and Applicant's proposed Facilities.
- (i) A landscape plan that demonstrates screening of proposed small cell equipment.
- (j) Drawings of the proposed Facilities. For all equipment depicted, the Applicant must also include, if applicable:
 - (1) The manufacturer's name and model number;
 - (2) Physical dimensions, including, without limitation, height, width, depth and weight with mounts and other necessary hardware; and
 - (3) The noise level generated by the equipment, if any.
- (k) If the Applicant is not an Operator, then the Applicant must provide proof that the Applicant has been engaged by a wireless service provider who will be the end-user of the Facilities. (Ord. 52-2019. Passed 5-14-19.)

913.08 APPLICATION REVIEW.

- (a) Applications shall be evaluated in the timeframes as follows:
 - (1) Type 1 Applications: sixty (60) days
 - (2) Type 2 Applications: ninety (90) days, except that for Small Wireless Facilities, the timeframe for a Type 2 Application shall be 60 days.
 - (3) Type 3 Applications: 120 days, except that for new Wireless Support Structures upon which a Small Wireless Facility is to be mounted, the timeframe for a Type 3 Application shall be ninety (90) days.
- (b) Applications shall be reviewed for completeness. If the Application is incomplete, then the Applicant will be notified of the insufficiency, and the timeframes set forth in subsection (a) shall be tolled until the Application is made complete, as described below:
 - (1) To toll the time period for incompleteness, the City must provide written notice to the Applicant, specifically identifying all missing documents or information, within thirty (30) days after receiving the Application, except that where an Applicant has indicated that the Application is for a Small Wireless Facility, or a Wireless Support Structure upon which a Small Wireless Facility is to be mounted, the written notice shall be provided within ten (10) days after receiving the Application.
 - (A) In the case of a proper and timely initial written notice of incompleteness provided concerning an Application involving a Small Wireless Facility pursuant to subsection (b)(1), the time period set forth in subsection (a) shall be deemed never to have started running at all until Applicant provides a supplemental submission.
 - (2) The time period set forth in subsection (a) will begin to run again when the Applicant provides a supplemental submission in response to the City's notice of incompleteness issued pursuant to subsection (b), but may be tolled again if the City notifies the Applicant in writing, within ten (10) days of receiving a supplemental submission, that the Application remains incomplete and identifies which items specified in the original notice of incompleteness are still missing. Timely notice by the City of the deficiencies in a supplemental submission tolls the time period set forth in subsection (a) until the Applicant supplies the specified information.
- (c) The timeframes set out in subsection (a) may be tolled by mutual agreement between the Applicant and the City. The timeframes in subsections (a)(2) and (a)(3) may also be tolled as follows, except that where an Applicant has indicated that the Application is for a Small Wireless Facility, the provisions of subsections (c)(1) and (c)(2) below do not apply:
 - (1) If the City receives between fifteen (15) and thirty (30) applications in a thirty-day period, then the City may toll for an additional twenty-one (21) days beginning with the sixteenth (16th) application.
 - (2) If the City receives more than thirty (30) applications in a thirty-day period, then the City may toll for an additional fifteen (15) days for every fifteen (15) applications received., up to a maximum tolling period of ninety (90) days, as indicated below:

(A) Applications 31-45:	36 additional days
(B) Applications 46-60:	51 additional days
(C) Applications 61-75:	66 additional days
(D) Applications 76-90:	81 additional days
(E) Applications 91+:	90 additional days
 - (3) When an Applicant submits an underground area waiver request pursuant to Section 913.13(d) of the Codified Ordinances, in which case the City may toll for an additional thirty (30) days.
 - (d) If two Applicants request to Collocate on the same Wireless Support Structure or two Wireless Support Structures are proposed within a distance that would violate the spacing requirements set forth in Section 913.16, then the Commissioner may resolve the conflict in any reasonable and nondiscriminatory manner.
 - (e) If a request for consent is denied, the City shall provide, in writing, its reasons for denying the request, supported by substantial, competent evidence. The denial of consent shall not unreasonably discriminate against the Applicant. Grounds for denying an Application may include, but are not limited to:
 - (1) Failure to provide information required under Section 913.07;
 - (2) Failure to comply with Design Guidelines set forth in Chapter 915;
 - (3) Failure to provide financial surety pursuant to Section 913.15;
 - (4) Failure to remove abandoned Facilities as required under Section 913.12;
 - (5) Conflict with the historic nature or character of the surrounding area;
 - (6) Conflict with planned future improvements in the Right-of-Way; and
 - (7) Failure to comply with generally applicable health, safety, and welfare requirements. (Ord. 52-2019. Passed 5-14-19.)

913.09 PERMITTING PROCESS, DURATION, AND TERMINATION.

- (a) Upon approval of its Application, an Applicant shall receive a Small Cell Use Permit indicating that the City has granted the Applicant consent to occupy the Right-of-Way.
- (b) A Small Cell Use Permit issued to an Operator shall have duration of no longer than ten (10) years. Permits may be renewed for five year terms.
- (c) A Small Cell Use Permit issued to a Facilities Operator who is not an Operator shall have a term or ten (10) years or the duration of the Facilities Operator's agreement with a wireless service provider provided pursuant to Section 913.06(k), whichever is shorter.
- (d) A Small Cell Use Permit shall not be renewed if the Facilities Operator or the Facilities are not in compliance with all applicable laws and regulations.
- (e) Pursuant to Ohio Review Code Section 4939.0314(E), a Small Cell Use Permit shall be deemed terminated if the Facilities Operator has not completed construction of the Facilities or has failed to attach Small Cell Equipment to a Wireless Support Structure within 180 days of issuance of the permit, unless the delay is caused by:
 - (1) Make-ready work for a municipally-owned Wireless Support Structure; or

- (2) The lack of commercial power or backhaul availability at the site, provided that the Operator has made a request for commercial power or backhaul services within sixty (60) days after the Small Cell Use Permit was granted.

If the additional time to complete the installation exceeds three hundred sixty days (360) after the issuance of the Permit, then the Permit shall be deemed terminated regardless of the cause of the delay.

(f) A Small Cell Use Permit for a new Wireless Support Structure shall be deemed terminated if the Facilities Operator fails to attach Small Cell Equipment to the new Wireless Support Structure within 180 days of issuance of the Small Cell Use Permit.

(g) If the Facilities Operator fails to remit the annual attachment fee required pursuant to Section 913.10, then the Small Cell Use Permit will expire on the ninetieth (90th) day from the date the annual attachment fee was due.

(h) At any time and upon service of a sixty (60)-day advance written notice to the City, a Small Cell Use Permit may be terminated by the Facilities Operator.

(i) Upon termination of a Small Cell Use Permit, the Facilities Operator shall restore and rehabilitate all City-owned Wireless Support Structures and the Right-of-Way to their former condition and utility.

(j) The City shall not issue any refunds for any amounts paid by the Facilities Operator upon termination of the Permit.

(Ord. 52-2019. Passed 5-14-19.)

913.10 ANNUAL REGISTRATION.

Facilities Operators shall comply with the annual registration requirements set forth in Section 901.03 of this Code.

(Ord. 52-2019. Passed 5-14-19.)

913.11 NONCONFORMING FACILITIES.

(a) Facilities in the Right-of-Way that are legally in existence on the date of the adoption of this Chapter but that do not comply with the requirements of this Chapter may remain in the Right-of-Way but shall be considered a Nonconforming Facility.

(b) Any person or entity who owns or operates a Nonconforming Facility shall register such facility pursuant to Section 901.03 of this Code within ninety (90) days of the date this ordinance takes effect.

(c) If a Nonconforming Facility is damaged or destroyed beyond repair, any replacement Facility must be designed in accordance with all provisions of this Chapter, the Design Guidelines established in Chapter 915, and state and federal law and regulations.

(Ord. 52-2019. Passed 5-14-19.)

913.12 ABANDONED AND DAMAGED FACILITIES.

(a) A Facilities Operator shall provide written notice to the City of its intent to discontinue use of any Facilities. The notice shall include the date the use will be discontinued. If Facilities are not removed within three hundred sixty five (365) days from the date the use was discontinued, the Facilities shall be considered a nuisance and the City may remove the Facilities at the expense of the Facilities Operator.

(b) In the event that Facilities are damaged, the Facilities Operator shall promptly repair the damaged Facilities. Damaged Facilities shall be repaired no later than thirty (30) days after obtaining written notice that the Facilities are damaged. If the damaged Facilities are not repaired within thirty (30) days, then the damaged Facilities shall be considered a nuisance and the City may repair or remove the Facilities at the expense of the Facilities Operator.

(Ord. 52-2019. Passed 5-14-19.)

913.13 INSURANCE REQUIREMENTS.

Facilities Operators shall comply with the insurance requirements set forth in Section 901.04 of this Code. (Ord. 52-2019. Passed 5-14-19.)

913.14 INDEMNIFICATION.

A Facilities Operator shall indemnify, protect, defend, and hold the City and its elected officials, officers, employees, agents, and volunteers harmless against any and all claims, lawsuits, judgments, costs, liens, losses, expenses, fees to include reasonable attorney fees and costs of defense, proceedings, actions, demands, causes of action, liability and suits of any kind and nature, including personal or bodily injury or death, property damage or other harm for which recovery of damages is sought, to the extent that it is caused by the negligence of the Operator who owns or operates Small Cell Facilities and wireless service in the Right-of-Way, any agent, officer, director, representative, employee, affiliate, or subcontractor of the Operator, or their respective officers, agents, employees, directors, or representatives while installing, repairing, maintaining or removing Facilities in the Right-of-Way.

(Ord. 52-2019. Passed 5-14-19.)

913.15 FINANCIAL SURETY.

(a) Each Facilities Operator must procure and provide to the City a bond, escrow, deposit, letter of credit, or other financial surety in an amount sufficient to cover the cost of removal of all Facilities owned or operated by the Facilities Operator.

(b) The City may, in its sole discretion, draw on the financial surety to remove abandoned Facilities, remove or repair damaged Facilities, or to repair damage to any City property caused by the Facilities Operator or its agent. In such event, the Facilities Operator shall cause the financial surety to be replenished to its prior amount within ten (10) business days after City notifies the Facilities Operator that it has drawn on the financial surety.

(Ord. 52-2019. Passed 5-14-19.)

913.16 RESERVED SPACE.

The City reserves the right to install, and permit others to install, Facilities in the Right-of-Way. The City may reserve space in the Right-of-Way and on Wireless Support Structures for future utility, safety, or transportation uses. Such space may be reserved in an ordinance or plan approved by the Mayor, City Council, Building Commissioner, or Planning Commission. (Ord. 52-2019. Passed 5-14-19.)

913.17 REMOVAL OR RELOCATION OF FACILITIES.

(a) The City may require a Facilities Operator to remove or relocate Facilities to accomplish construction and maintenance activities. The Facilities Operator shall remove or relocate the Facilities at no cost to the City. If the Facilities Operator fails to remove or relocate the Facilities within ninety (90) days of receiving a request to do so from the City, then the City may remove the Facilities at Facilities Operator's sole cost and expense, without further notice to the Facilities Operator.

(b) If the Facilities are placed in a location other than the location approved by the City, the Facilities Operator shall relocate the Facilities within thirty (30) days of receiving notice that the Facilities are located improperly.

(Ord. 52-2019. Passed 5-14-19.)

913.18 NOTICE OF WORK.

A Facilities Operator shall notify the Commissioner of all nonemergency work within ten (10) calendar days prior to performing any upgrades or maintenance on any Facilities, regardless of whether the work requires any permit or consent from the City.

(Ord. 52-2019. Passed 5-14-19.)

913.19 CONSTRUCTION PERMIT.

(a) Facilities Operators are required to obtain a construction permit pursuant to Section 901.08 of this Code prior to commencing any of the following activities:

- (1) Collocation of small cell equipment on a Wireless Support Structure;
- (2) Replacement, modification, repair, or maintenance of small cell equipment;
- (3) Construction, replacement, modification, repair, or maintenance of a Wireless Support Structure associated with a small cell facility; and
- (4) Any excavation of the Right-of-Way in connection with the activities described in this subsection (a).

(Ord. 52-2019. Passed 5-14-19.)

913.20 WAIVER.

It is within the reasonable discretion of the Mayor to waive any portion or portions of this Chapter, as permitted or warranted under state and federal law, where strict compliance with such requirements, in the judgment of the Mayor, is not necessary or appropriate to protect the City's interests and the purposes and intent of this Chapter.

(Ord. 52-2019. Passed 5-14-19.)

913.99 PENALTIES; EQUITABLE REMEDIES.

(a) Any Facilities Operator or other person or entity acting as the agent of a Facilities Operator found guilty of violating, disobeying, omitting, neglecting or refusing to comply with any of the provisions of this Chapter shall be fined not less than One Hundred Dollars (\$100.00) nor more than Five Hundred Dollars (\$500.00) for each offense. A separate and distinct offense shall be deemed committed each day during or on which a violation occurs or continues.

(b) The City may revoke the Small Cell Use Permit of any Facilities Operator who violates, disobeys, omits, neglects, or refuses to comply with any provisions of this Chapter or the Design Guidelines set forth in Chapter 915 or as promulgated by the City.

(c) Nothing in this Chapter shall be construed as limiting any judicial remedies that the City may have, at law or in equity, for enforcement of this Chapter.

(Ord. 52-2019. Passed 5-14-19.)

Use of public ways for small cell wireless facilities and wireless support structures - see S. & P.S. Ch. 913

915.01 OVERVIEW AND PURPOSE, DEFINITIONS.

(a) The purpose of these Design Guidelines is to:

- (1) Protect the health, safety, and general welfare of the citizens of the City;
- (2) Preserve the character of the City's, including the City's neighborhoods, business districts and historic districts and to protect property values;
- (3) Give guidance to wireless telecommunications providers to assist such companies in the timely, efficient, safe, and aesthetically pleasing installation of Facilities; and
- (4) To exercise the City's home rule authority and, to the extent legally permitted, not to conflict with or preempt applicable state and federal laws.

(b) For the purpose of this chapter, and the interpretation and enforcement hereof, the following words and phrases shall have the following meanings, unless the context of the sentence in which they are used shall indicate otherwise:

- (1) "Applicant" means any person or entity who submits an Application pursuant to this Chapter.
- (2) "Application" means the form issued by the Commissioner of Building, Zoning, and Housing, to be submitted by an Applicant to obtain a Small Cell Use Permit from the City to Collocate a Small Cell Facility

- and/or to construct, maintain, modify, operate, or replace a Wireless Support Structure.
- (3) "Accessory Equipment" means equipment used in conjunction with a Small Cell Facility and generally at the same location as, or in proximity to, the Small Cell Facility including, but not limited to, electric meters, concealment elements, telecommunications demarcation boxes, grounding equipment, power transfer switches, cut-off switches, and vertical cable runs.
 - (4) "City" means City of Richmond Heights
 - (5) "Collocation" or "Collocate" means to install, mount, maintain, modify, operate, or replace wireless Facilities on a Wireless Support Structure.
 - (6) "Design Guidelines" means the standards established in this Chapter 915.
 - (7) "Facilities" means Small Cell Facilities, Accessory Equipment, and Wireless Support Structures.
 - (8) "Facilities Operator" means the person or entity responsible for the installation, operation, maintenance, replacement, and modification of Facilities. Facilities Operator includes:
 - (A) Operators;
 - (B) Applicants who applied for consent to Collocate a Small Cell Facility or to construct, maintain, modify, operate, or replace a new Wireless Support Structure pursuant to Ohio Revised Code Section 4939.031(E) and who have obtained a Small Cell Use Permit; and
 - (C) Applicants who applied for consent to Collocate a Small Cell Facility or to construct, maintain, modify, operate, or replace a new Wireless Support Structure pursuant to Ohio Revised Code Section 4939.033 and who have obtained a Small Cell Use Permit.
 - (9) "Historic district" means a building, property, or site, or group of buildings, properties, or sites that are either of the following:
 - (A) Listed in the national register of historic places or formally determined eligible for listing by the keeper of the national register, the individual who has been delegated the authority by the federal agency to list properties and determine their eligibility for the national register, in accordance with section VI.D.1.a.i-v of the nationwide programmatic agreement codified at 47 C.F.R. part 1, Appendix C;
 - (B) A registered historic district as defined in section 149.311 of the Ohio Revised Code.
 - (10) "Operator" means a wireless service provider, cable operator, or video service provider that operates a Small Cell Facility and provides wireless service, including a wireless service provider, cable operator, or a video service provider that provides information services as defined in the "Telecommunications Act of 1996," 110 Stat. 59, 47 U.S.C. 153(20), and services that are fixed in nature or use unlicensed spectrum.
 - (11) "Public Way" or "Right-of-Way" means the surface of, and the space within, through, on, across, above or below, any public street, public road, public highway, public freeway, public lane, public path, public alley, public court, public sidewalk, public boulevard, public parkway, public drive, public easement, and any other land dedicated or otherwise designated for a comparable public use, which is owned or controlled by the City or other public entity or political subdivision.
 - (12) "Small Cell Facility" means a wireless facility:
 - (A) That meets both of the following requirements:
 - (i) Each antenna is located inside an enclosure of not more than six (6) cubic feet in volume or, in the case of an antenna with exposed elements, the antenna and all of its exposed elements can fit within an enclosure of not more than six (6) cubic feet in volume; and
 - (ii) All other wireless equipment associated with the facility is cumulatively not more than twenty-eight (28) cubic feet in volume. The calculation of equipment volume shall not include electric meters, concealment elements, telecommunications demarcation boxes, grounding equipment, power transfer switches, cut-off switches, and vertical cable runs for the connection of power and other services.
 - (B) That includes a "Small Wireless Facility," which is a type of Small Cell Facility (i) in which each antenna is located within an enclosure of not more than three (3) cubic feet in volume or, in the case of an antenna with exposed elements, the antenna and all of its exposed elements can fit within an enclosure of not more than three (3) cubic feet in volume, (ii) where such antenna is associated with a structure (a) fifty (50) feet or less in height, including the antenna, or (b) that is not more than ten percent (10%) taller than adjacent structures, or (c) is not extended by more than ten percent (10%) or to a height exceeding fifty (50) feet, whichever is greater, and (iii) which also otherwise satisfies the definition of "Small Wireless Facilities" in the FCC's Small Cell Order adopted September 26, 2018, FCC 18-133.
 - (13) "Small Cell Equipment" means a Small Cell Facility and all Accessory Equipment.
 - (14) "Small Cell Use Permit" means the permit granted by the City authorizing an Applicant to Collocate a Small Cell Facility or to construct, maintain, modify, operate, or replace a Wireless Support Structure in the Right-of-Way.
 - (15) "Underground Area" means an area in the Right-of-Way where existing electric utilities, cable facilities, telecommunications facilities and other facilities, other than structures and facilities owned by the City or a transit authority, are located underground.
 - (16) "Wireless Support Structure" means a pole, such as a monopole, either guyed or self-supporting, street light pole, traffic signal pole, a fifteen-foot or taller sign pole, or utility pole capable of supporting Small Cell Facilities. "Wireless Support Structure" excludes all of the following, except in connection with a Small Wireless Facility, in which case the following are not excluded:
 - (A) A utility pole or other facility owned or operated by a municipal electric utility; and
 - (B) A utility pole or other facility used to supply traction power to public transit systems, including railways, trams, streetcars, and trolleys.
 (Ord. 51-2019. Passed 5-14-19.)

915.02 GENERAL STANDARDS.

- (a) Facilities shall not be installed unless the Facilities are compliant with these Design Guidelines, Chapter 913 of the Codified Ordinances and any Application requirements, and all applicable local, state, and federal laws.
 - (b) A Facilities Operator shall not construct, maintain, modify, operate, or replace any Facilities not clearly depicted in an Application for a Small Cell Use Permit.
 - (c) All work shall be performed in a professional manner consistent with the highest standards of workmanship.
 - (d) Facilities shall be maintained in good and safe condition and in a manner that complies with all applicable federal, state and local requirements.
 - (e) Facilities shall not be installed in any location that causes any interference with the City's public safety radio system, traffic and emergency signal light system, or other City safety communications systems or system components.
 - (f) The City may propose an alternative location for proposed Facilities up to one hundred (100) feet from the proposed location or within a distance that is equivalent to the width of the Public Way, whichever is greater. The Facilities Operator shall utilize the alternative location unless the Facilities Operator shows that the alternative location is not technically feasible or would materially inhibit the provision of wireless services by the Facilities Operator within the City.
 - (g) Facilities shall not interfere with existing or planned street trees.
 - (h) Signage shall be mounted on all new Facilities providing the Facilities Operator's name, an emergency contact phone number, an informational contact number, and all other information required by law. Unless otherwise prohibited by law, signage shall be discreet in color and shall match the Facilities and surrounding area and font size used on the sign shall be no smaller than 9 point font and no larger than 14 point font.
 - (i) Unless otherwise required by law, all manufacturer stickers and decals shall be removed from Facilities.
 - (j) Facilities shall be camouflaged using existing land forms, vegetation, and structures to screen the Facilities from view and to blend in with the surrounding built and natural environment.
 - (k) The City may require the Facilities Operator to incorporate additional concealment elements before approving an Application. Concealment elements may include, but shall not be limited to, fencing, public art, strategic placement, and placement within existing or replacement street furniture.
 - (l) Facilities shall not have any flashing lights, sirens or regular noise other than a cooling fan that may run intermittently.
 - (m) All hardware, including antenna mounting brackets and hardware, antenna mounting posts, cables, shrouds and other equipment mounted shall be painted in a color designated by the City, and the color shall match the Facilities. The City may require the Facilities Operator use a different, non-matching color on a case-by-case basis when the City determines a non-matching color would better fulfil the purposes of these Design Guidelines.
 - (n) A Facilities Operator shall remove or paint over any graffiti on the Facilities at Facility Operator's sole expense as soon as practicable, but no later than ten (10) days from the date the Facilities Operator receives notice of the graffiti.
- (Ord. 51-2019. Passed 5-14-19.)

915.03 SPECIFICATIONS FOR COLLOCATION.

- (a) Small Cell Equipment shall not interfere with the primary purpose of a Wireless Support Structure.
 - (b) Small Cell Equipment to be attached to a Wireless Support Structure shall be attached at least six (6) feet above ground level. If Small Cell Equipment is projecting toward the street then the Small Cell Equipment shall be installed no less than sixteen (16) feet above ground level.
- (Ord. 51-2019. Passed 5-14-19.)

915.04 ANTENNAS.

- (a) Antennas and Accessory Equipment must be capable of fitting within an enclosure not larger than six (6) cubic feet in volume.
- (b) Antennas and Accessory Equipment shall not increase the overall height of an existing Wireless Support Structure by more than five (5) feet; provided, however, that the permissible increase in height resulting from collocation or installation of a Small Wireless Facility on a Wireless Support Structure shall be as provided in Section 915.01(b)(12) of these Design Guidelines.
- (c) Antennas mounted on a Wireless Support Structure shall be enclosed inside the Wireless Support Structure whenever possible and otherwise within a canister, shroud, or other enclosure. All Accessory Equipment associated with the antenna shall be concealed and shall not visibly protrude from the shroud or canister.
- (d) The width of the canister or other shroud encasing the antenna and Accessory Equipment shall not exceed the width of the narrowest portion of the Wireless Support Structure.
- (e) The enclosure or shroud shall be painted to match or complement the Wireless Support Structure.
- (f) Antennas shall be installed in a manner that minimizes the visual impact to the general public.
- (g) Antennas shall not impair light or views from adjacent window(s).
- (h) Antennas located on the exterior of a Wireless Support Structure shall be top-mounted on a Wireless Support Structure. The City may approve a side-mounted antenna if, in the City's discretion, the side-mounted antenna would be more appropriate given the built environment, neighborhood character, overall site appearance or would promote the purposes in these Design Guidelines. (Ord. 51-2019. Passed 5-14-19.)

915.05 WIRELESS SUPPORT STRUCTURE-MOUNTED EQUIPMENT.

- (a) All Wireless Support Structure-mounted Small Cell Equipment other than the antenna(s) and electric meter must be concealed within an equipment cabinet.
 - (b) Equipment cabinets shall be mounted flush to the Wireless Support Structure.
 - (c) Equipment cabinets shall be stacked together on the same side of the Wireless Support Structure and oriented away from any windows and doorways to minimize visual impacts thereupon.
 - (d) The equipment cabinets must be non-reflective and painted, wrapped or otherwise colored to match the Wireless Support Structure.
- (Ord. 51-2019. Passed 5-14-19.)

915.06 GROUND-MOUNTED SMALL CELL EQUIPMENT.

- (a) The City shall not approve the proposed location of ground-mounted Small Cell Equipment unless the Applicant
 - (1) Proposes the ground-mounted equipment in connection with a Collocation; and
 - (2) Shows that the equipment cannot be feasibly placed on the Wireless Support Structure or in an underground vault.
 - (b) If technically feasible, Small Cell Equipment should be located in a vault buried underground rather than being ground-mounted. If underground placement is not technically feasible or would materially inhibit the provision of wireless services by the Applicant within the City, ground-mounted Small Cell Equipment shall be contained in a shroud or cabinet.
 - (c) All ground-mounted Small Cell Equipment shall be installed in a manner that minimizes the visual and ingress/egress impact to the general public.
 - (d) Ground-mounted Small Cell Equipment shall be placed as far as practicable from pedestrian sidewalks and shall neither block nor be placed within the sidewalk in any way.
- (Ord. 51-2019. Passed 5-14-19.)

915.07 CABLES.

- (a) All cables, conduit and wiring shall be located inside conduit and inside the Wireless Support Structure or an equipment cabinet.
- (b) Excess cables and wiring shall not be spooled, coiled or otherwise stored on the exterior of the Wireless Support Structure unless within an enclosure. Cables shall not be externally visible. (Ord. 51-2019. Passed 5-14-19.)

915.08 ELECTRICAL METERS.

- (a) Facilities Operators shall use flat-rate electric service when available in order to eliminate the need for a meter.
- (b) If a meter is required, then Facilities Operators shall use the smallest and least intrusive electric meter available. If not prohibited by the electric service provider, the electric meter shall be painted to match the Wireless Support Structure.

(Ord. 51-2019. Passed 5-14-19.)

915.09 UTILITY LINES.

Service lines shall be undergrounded to avoid additional overhead lines. The undergrounded cables and wires must transition directly into the Wireless Support Structure base without any external junction box.
(Ord. 51-2019. Passed 5-14-19.)

915.10 SPECIFICATIONS FOR REPLACEMENT OF WIRELESS SUPPORT STRUCTURES.

- (a) A Facilities Operator shall be required to replace an existing Wireless Support Structure in the following circumstances:
- (1) The Wireless Support Structure upon which the Applicant has proposed to Collocate Small Cell Equipment is deemed incapable of bearing the added weight of the Small Cell Equipment; or
 - (2) An existing Wireless Support Structure is located within 100 feet or less of the proposed site of a new Wireless Support Structure but the existing Wireless Support Structure is incapable of bearing the additional weight of the Small Cell Equipment.
- (b) Designs for replacement of Wireless Support Structures shall be as architecturally similar as possible to the existing Wireless Support Structure to be replaced unless otherwise approved or required by the City.
- (1) All luminaire mast arms shall be the same length, arch, and style as the original luminaire arm, unless otherwise specified by the City.
 - (2) The City may require the Facilities Operator to install a new metal Wireless Support Structure rather than a new wood support structure.
- (c) The overall height of a replacement Wireless Support Structure, including proposed Collocated antenna, shall not be more than forty (40) feet in height above ground level; provided, however, that the height of a Wireless Support Structure upon which a Small Wireless Facility is to be mounted shall be as provided in Section 915.01(b)(12) of this Chapter. Notwithstanding the foregoing limitation, the overall height of a replacement Wireless Support Structure, including proposed Collocated antenna, shall not be more than thirty-five (35) feet in height above ground level in the R-1 Single-Family Residential District, R-2 Single-Family Residential District, R-3 Single-Family Residential District, RTF Two-Family Residential District, RMF-1 Multiple-Family Residential District, RS Senior Housing District, O-S Office-Service District, and B-1 Local Business District, so long as there is no Wireless Support Structure or utility pole taller than thirty feet located within three-hundred (300) feet of the location of the proposed replacement Wireless Support Structure; provided, however, that if a Small Wireless Facility is to be mounted upon it, the Facilities Operator may request a height consistent with Section 915.01(b)(12).
- (d) All existing signs, traffic signals, emergency signal detection units, video detection cameras, video cameras, crosswalk service buttons, crosswalk signals, and any other pedestrian or traffic devices shall be reinstalled or replaced with new units by the Facilities Operator and installed at no cost to the City.
- (e) The concrete Wireless Support Structure foundation for the original Wireless Support Structure shall be removed either partially or completely by the Facilities Operator as instructed by the City.
- (1) If partially removed, the original Wireless Support Structure foundation shall be taken back to a level that is twelve (12) inches below the existing grade and covered with four (4) inches of one-half (½) inch to three-quarter (¾) inch compose of rock material. The remaining eight (8) shall be native soil and landscaped with natural vegetation that is the same as the surrounding vegetation.
 - (2) If the entire original Wireless Support Structure foundation must be removed, then all foundation materials (concrete, rebar, metals, bolts, etc.) shall be removed. The type of backfill material and compaction required is: (a) one-half (½) sack slurry for the entire depth in paved areas, and (b) one-half (1/2) sack slurry for the entire depth except the top twelve (12) inches will be native soil in landscaped areas with natural vegetation that is the same as the surrounding vegetation.
- (Ord. 51-2019. Passed 5-14-19.)

915.11 SPECIFICATIONS FOR NEW WIRELESS SUPPORT STRUCTURES.

- (a) New Wireless Support Structures shall be designed and constructed to accommodate at least two sets of Small Cell Equipment on the same Wireless Support Structure.
- (b) New Wireless Support Structures shall maintain a distance of three hundred (300) feet from existing monopoles, or utility poles.
- (c) In non-residential districts, new Wireless Support Structures shall be located at the shared property line between two residential parcels where the parcels intersect the Right-of-Way.
- (d) In non-residential districts, new Wireless Support Structures shall be located between tenant spaces, storefront bays, or adjoining properties at the shared property lines where the parcels intersect the Right-of-Way.
- (e) New Wireless Support Structures shall not interfere with any metered parking space.
- (f) A new Wireless Support Structure shall not be located in front of a building entrance or exit.
- (g) The overall height of a new Wireless Support Structure, including proposed Collocated antenna, shall not be greater than forty (40) feet in height above ground level; provided, however, that the height of a Wireless Support Structure upon which a Small Wireless Facility is to be mounted shall be as provided in Section 915.01(b)(12). Notwithstanding the foregoing limitation, the overall height of a replacement Wireless Support Structure, including proposed Collocated antenna, shall not be more than thirty-five (35) feet in height above ground level in the R-1 Single-Family Residential District, R-2 Single-Family Residential District, R-3 Single-Family Residential District, RTF Two-Family Residential District, RMF-1 Multiple-Family Residential District, RS Senior Housing District, O-S Office-Service District, and B-1 Local Business District, so long as there is no Wireless Support Structure or utility pole taller than thirty feet located within three-hundred (300) feet of the location of the proposed new Wireless Support Structure; provided, however, that if a Small Wireless Facility is to be mounted upon it, the Facilities Operator may request a height consistent with Section 915.01(b)(12) of this Chapter.
- (h) The City may require the Facilities Operator to install a metal Wireless Support Structure rather than a wood Wireless Support Structure.
- (Ord. 51-2019. Passed 5-14-19.)

915.12 HISTORIC DISTRICT REGULATIONS.

Except antennas, all Small Cell Equipment to be located in the Right-of-Way in Historic Districts shall be located in an underground vault or shall be subject to such reasonable, technologically feasible, and non-discriminatory design or concealment measures as the City may specify, as long as such measures do not have the effect of prohibiting or materially inhibiting the Facilities Operator's provision of reasonable service in the City. Such measures are not considered part of the small cell facility for purposes of facility size restrictions in this Chapter or Chapter 913 of the Codified Ordinances. A waiver submitted pursuant to Section 913.13(d) will be considered if the requirements are shown to be technologically infeasible.
(Ord. 51-2019. Passed 5-14-19.)

915.13 UNDERGROUND AREA REGULATIONS.

- (a) Whenever any existing electric utilities, cable facilities, telecommunications facilities or other facilities are located underground within a Public Way of the City, the Facilities Operator must also locate its Facilities underground.
- (b) A Facilities Operator may replace an existing Wireless Support Structure or Collocate Small Cell Facilities on an Existing Wireless Support Structure even if the Wireless Support Structure is located in an Underground Area.
- (c) A Facilities Operator shall not install a new Wireless Support Structure in an Underground Area.
- (d) An Operator may apply to the Board of Zoning Appeals for a waiver of the underground placement requirement if the requirement prevents the Operator from achieving its service objective, the requirement has the effect of prohibiting the provision of reasonable service in the Village, and the Operator's objective of providing reasonable service in the Village cannot be met by placing Facilities at:
- (1) A location in the public Right-of-Way where the prohibition does not apply;
 - (2) A utility easement the service provider has the right to access; and
 - (3) Other suitable locations or structures made available by the City at reasonable rates, fees and terms.
- (e) Submission of a waiver request pursuant to subsection (d) is subject to the Facilities Operator's agreement to toll the timeframes set forth in Section 913.08(a) of the Codified Ordinances by thirty (30) days. (Ord. 51-2019. Passed 5-14-19.)

915.14 DISCRETIONARY WAIVER.

It is within the Mayor's reasonable discretion to waive any portion or portions of this Chapter, as permitted or warranted under state and federal law, where strict compliance with such requirements, in the Mayor's judgment, are not necessary or appropriate to protect the City's interests and the purposes and intent of this Chapter.
(Ord. 51-2019. Passed 5-14-19.)

915.99 PENALTIES; EQUITABLE REMEDIES.

- (a) Any Facilities Operator or other person or entity acting as the agent of a Facilities Operator found guilty of violating, disobeying, omitting, neglecting or refusing to comply with any of the provisions of this Chapter shall be fined not less than one hundred dollars (\$100.00) nor more than five hundred dollars (\$500.00) for each offense. A separate and distinct offense shall be deemed committed each day during or on which a violation occurs or continues.
- (b) If a Facilities Operator fails to comply with these Design Guidelines, Chapter 913 of the Codified Ordinances, or the provisions of Chapter 4939 of the Revised Code, the City may terminate the Facility Operator's Small Cell Use Permit.
- (c) Nothing in this Chapter shall be construed as limiting any judicial remedies that the City may have, at law or in equity, for enforcement of this Chapter.
(Ord. 51-2019. Passed 5-14-19.)

TITLE THREE - Utilities

Chap. 931 . Sewers.
Chap. 933 . Septic Tanks.
Chap. 935 . Water.

CHAPTER 931

Sewers

- 931.01 Sewer inspection photographs.**
931.02 Mandatory connection to public sewer.
931.03 Prohibited discharges.
931.04 Time limitation for connection.
931.05 Utility relocation costs; penalty.
931.99 Penalty.

CROSS REFERENCES

Power to regulate water closets and privies - see Ohio R. C. 715.40
Compulsory sewer connections - see Ohio R. C. 729.06
Untreated sewage - see Ohio R. C. 3701.59
Septic tanks - see S. & P. S. Ch. 933

931.01 SEWER INSPECTION PHOTOGRAPHS.

- (a) The Director of Public Service and Properties is hereby directed, prior to final approval of any newly installed sewer system and/or reconstructed sewer, to require that any and all contractors cause to be made photographs of the entire sewer system installed, showing thereby that the sewer system has been constructed upon a sound engineering basis and that the sewer system is free of any and all accumulations of foreign substance and nature and that the passage and flow of sewage and storm water is free and clear.
- (b) Upon inspection of such photographs and if satisfied that such sewer is free and clear of all foreign substance and there is nothing present to prevent free flow of sewage and storm waters, the Director of Public Service and Properties is hereby authorized to approve the same as a final inspection, placing in safekeeping all photographs for future reference by the City.
- (c) The cost of such photographing and photographs shall be entirely paid for by the contractor or developer of such land and/or sewer system, and such photographs shall remain the property of the City.

(Ord. 35-64. Passed 10-13-64.)

931.02 MANDATORY CONNECTION TO PUBLIC SEWER.

No owner, agent, lessee, tenant or occupant of any lot or parcel of land located within the City shall establish, construct, maintain or permit to remain a privy, cesspool, septic tank or other receptacle for sanitary sewage or excreta, or a connection to a private sewer, ditch or other outlet, if such lot or parcel of land is accessible to a public sanitary sewer constructed and used for the purpose of conveying sanitary sewage. When such public sanitary sewer is available or is hereafter made available, a connection to such public sewer shall be established and used by such owner, agent, lessee, tenant or occupant, unless a specific exemption by reason of undue hardship or exceptional circumstances is granted by the Zoning Board of Appeals and confirmed by Council.

(Ord. 125-68. Passed 12-17-68.)

931.03 PROHIBITED DISCHARGES.

No owner, agent, lessee, tenant or occupant of any lot or parcel of land located within the City shall discharge into the sanitary sewers of the City any roof water, surface or subsoil drainage or other clean waste water, or discharge into the storm sewers or drains of or within the City any sanitary sewage or industrial wastes.

(Ord. 125-68. Passed 12-17-68.)

931.04 TIME LIMITATION FOR CONNECTION.

Any owner, agent, lessee, tenant or occupant of any lot or parcel of land located within the City shall have three months from the effective date of this chapter (Ordinance 125-68, passed December 17, 1968) or three months from the date a sanitary sewer becomes available to his property to comply with the provisions of this chapter before he shall be deemed to be in violation thereof, and thereafter the City shall charge the sewer rental rates established by law and applicable thereto.

(Ord. 125-68. Passed 12-17-68.)

931.05 UTILITY RELOCATION COSTS; PENALTY.

(a) Whenever it is necessary, either by reason of any directive or order from a state agency to the City or upon the determination of Council after independent study, to construct or reconstruct any storm sewer or sanitary sewer within the right-of-way of any City street in order to protect or promote the public health, safety or general welfare, any existing mains, lines or conduits of any public utility within said right-of-way shall be relocated at the sole cost of the utility to enable the construction or reconstruction of any such storm sewer or sanitary sewer.

(b) The failure of any public utility to commence the required relocation within thirty days from written notification from the City of the necessity for such relocation, or the failure of any public utility to diligently pursue the relocation, shall subject the utility to a penalty of two hundred fifty dollars (\$250.00) per day in addition to any civil remedy sought by the City.

(Ord. 122-94. Passed 12-13-94.)

931.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each offense. A separate offense shall be deemed to have been committed each period of twenty-four hours such violation shall continue after a period of thirty days following the original conviction. (Ord. 76-2003. Passed 9-23-03.)

CHAPTER 933

Septic Tanks

933.01 Definitions.

933.02 Approval of plans.

933.03 Issuance of permits.

933.04 Abandonment when sewer made available.

933.05 Septic tank to sanitary sewer conversion.

933.99 Penalty.

CROSS REFERENCES

Power to construct sewerage system - see Ohio R.C. 715.40, 717.01
Regulations to control house sewers and connections - see Ohio R.C. 729.51
Mandatory connection to public sewer - see S. & P. S. 931.02

933.01 DEFINITIONS.

For the purpose of this chapter, the following definitions shall apply:

- (a) "Board of Health" means the Cuyahoga County District Board of Health.
- (b) "Department of Buildings" means the Building Inspector or his authorized assistant.
- (c) "Sewage" means the liquid wastes from plumbing fixtures including the wastes from water closets, urinals, lavatories, baths, sinks, laundry tubs, floor drains and other sanitary fixtures.
- (d) "Septic tank" means a watertight receptacle for receiving sewage from a sewer to which plumbing fixtures are tributary and it is synonymous to sewage tank, water cesspool and tank.
- (e) "Leaching field" means an open, jointed system of tile through which the effluent of the septic tank is distributed beneath the surface for absorption into the soil.

(Ord. 746-58. Passed 1-20-58.)

933.02 APPROVAL OF PLANS.

No building permit shall be issued until the plans, specifications and plot plan have been submitted to the Board of Health and written approval thereof has been received from the Board by the Department of Buildings. Fees required by the Board of Health shall be paid before any action is taken on referring the matter.

(Ord. 746-58. Passed 1-20-58.)

933.03 ISSUANCE OF PERMITS.

After receipt of the approval letter from the Board of Health, the Department of Buildings may issue a building permit and a permit for the installation of a septic tank and filtration bed, providing the same does not violate any provision of this chapter or of any other ordinance of the City.

(Ord. 746-58. Passed 1-20-58.)

933.04 ABANDONMENT WHEN SEWER MADE AVAILABLE.

When a sanitary sewer is made available, septic tanks and other sewage disposal devices or equipment on such property shall be abandoned and the sewage discharged directly from the building to the sanitary sewer through a watertight connection sewer or other permitted treatment device. The abandoned septic tank or other device or equipment for treating or disposing of sewage shall be thoroughly cleaned and disinfected and filled to the ground surface with earth, ashes or other suitable filling material.

(Ord. 746-58. Passed 1-20-58.)

933.05 SEPTIC TANK TO SANITARY SEWER CONVERSION.

(a) Sewer Conversion Permit.

- (1) No person shall convert a septic tank or other private sanitary sewage system to a public sanitary sewer system without first obtaining a sewer conversion permit from the Department of Building, Zoning and Housing.
- (2) Applications for a sewer conversion permit shall be made by the owner of the subject property or by the contractor for the property owner, who shall be registered by the City, but with the property owner's signature also on the application. The application shall be accompanied by two (2) copies of a site plan identifying the location of the septic tank, and the direction and location of the proposed tie-in into the public sanitary sewer main from the building. The site plan shall identify the type of sewer pipe to be installed, the diameter of the sewer pipe, the size and location of all cleanouts and the type of bedding and backfill material.
- (3) Upon the application for a sewer conversion permit, it shall be indicated whether work in the interior of the subject building is required. If such interior work is required, two (2) copies of a detailed drawing of the scope of the interior work shall be submitted to the Building Commissioner.
- (4) Upon application for a sewer permit conversion permit, the Building Commissioner, or his/her designee, shall inform the applicant that the applicant must obtain all approvals for the connection to the public sewer from the Cuyahoga County Sanitary Engineer. Prior to issuance of the City's sewer conversion permit, the applicant must provide proof to the Building Commissioner of the approval(s) required by the Cuyahoga Sanitary Engineer.
- (5) In addition to the foregoing, and prior to the City's sewer conversion permit being issued, the applicant shall also obtain from the Cuyahoga County Board of Health a "Household Sewage System Abandonment Permit", or similar type permit, and provide proof to the Building Commissioner of said permit issuance.

(b) Inspection.

- (1) Prior to the issuance of a sewer conversion permit, an onsite inspection, which shall include an interior inspection of the subject building, must be performed by the Building Commissioner, or his/her authorized designee. After all sewer work is complete, the Building Commissioner, or his/her designee, is authorized to perform an exterior and/or interior inspection. The purpose of these inspections is to determine whether there is an interconnection between the storm water and sanitary waste removal systems. In the event testing is necessary, as determined by the sole discretion of the Building Commissioner, to ascertain whether there is said interconnection, the applicant shall be responsible for the cost of such testing in addition to the permit fee set forth in subsection (a)(1) hereof.
- (2) Upon inspection and approval of all exterior and interior work by the Building Commissioner, or his/her designee, the sewer facilities shall be backfilled and seeded.

(Ord. 77-2005. Passed 12-13-05.)

933.99 PENALTY.

Whoever installs a septic tank or other device or equipment for the treating or disposing of sewage without obtaining a permit therefor or violates any of the provisions of this chapter, or refuses to abide by any rule or regulation of the Department of Buildings or the Board of Health, as provided herein, is guilty of a misdemeanor of the first degree and each day such violation continues shall constitute a separate offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 935

Water

935.01 Water use emergency.

935.99 Penalty. (Repealed)

935.01 WATER USE EMERGENCY.

(a) Upon notice from the City of Cleveland, Division of Water of the Department of Public Utilities, that a shortage of the water supply exists which threatens the public health and safety and that the shortage makes it necessary to curtail water use within all or any part of the City, the Mayor shall proclaim a water use emergency throughout all or any part of the City.

(b) A water use emergency proclamation shall specify:

- (1) The geographic area affected by the water use emergency.
- (2) The length of time the emergency shall be in effect. Such time shall not exceed seven (7) days; and
- (3) The degree of water use curtailment.

(c) During a water use emergency, the Mayor may order a water use curtailment by prohibiting unnecessary use or consumption of water during all or specified hours of the day and/or may order that specified premises curtail unnecessary use or consumption of water on specified days only as the Mayor shall determine to be necessary.

(d) A proclamation of a water use emergency shall become effective at the time of issuance by the Mayor. Notice thereof shall be given to a newspaper of general circulation in the City and shall be reported to a local radio and television stations for broadcast.

(e) As used in this section, unnecessary use or consumption means the use or consumption of water for purposes other than personal health, safety, sanitation and bodily consumption. Unnecessary use or consumption of water includes but is not limited to sprinkling or watering lawns, other land irrigation, the washing of automobiles, houses or other structures and the use of water for recreational purposes such as the maintenance of swimming pools. The use of water for private construction such as the mixing and curing of concrete, the puddling of backfill in excavations, the moistening of masonry walls preparatory to pointing or sealing and other similar uses is not an unnecessary use or consumption of water. The use of water to scrub and rinse areas such as hardsurfaced drives, garage floors, patios and similar uses where necessary for the purpose of sanitation and the protection of health is not an unnecessary use and consumption of water.

(f) No person or entity shall, during a water use emergency, use water in violation of the terms and conditions of the Mayor's water use emergency proclamation.

(g) Whoever violates this section is guilty of a minor misdemeanor and shall be fined not more than one hundred dollars (\$100.00). Whoever violates this section having been previously convicted of a violation of this section is guilty of a misdemeanor of the third degree and shall be fined not more than five hundred dollars (\$500.00) or imprisoned not more than sixty (60) days, or both. A separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

935.99 PENALTY. (REPEALED)

(EDITOR'S NOTE: Former Section 935.99 was repealed by Ordinance 97-2023, passed June 27, 2023.)

951.01 DEFINITIONS.

For the purposes of this chapter, the following terms, words and their derivations shall have the meanings given herein. Provided it is not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number and words used in the singular number include the plural number.

(a) "Garbage" means putrescible animal and vegetable wastes resulting from the handling, preparation, cooking and consumption of foods.

(b) "Rubbish" means all nonputrescible, combustible and noncombustible solid wastes, including paper, wrapping, cardboard, metallic and plastic containers, yard clippings, leaves, wood, glass, building materials, market and industrial wastes, tree stumps, tree limbs and logs, bedding, appliances, toys, abandoned automobiles.

(c) "Refuse" means all putrescible and nonputrescible, combustible and noncombustible solid wastes other than garbage and rubbish.

Top soil, fertilizer and soil conditioners used for gardening or farming do not constitute garbage, refuse, rubbish, litter or other waste material provided such use does not become a nuisance or menace to the public health.

(Ord. 103-2020. Passed 10-27-20.)

951.02 DUMPING, DEPOSITING, STORAGE OF GARBAGE AND RUBBISH.

(a) No person shall dump, deposit or store, or permit to be dumped, deposited or stored, any garbage, refuse, rubbish, litter or other waste material of any kind on any public or private property.

(b) Landfilling may be permitted for noncombustible, nonputrescible, nonmetallic, nonsynthetic fill material consisting of loose soil, concrete, asphalt paving materials, stone, concrete blocks and similar solid or inert material upon application to the Zoning Board of Appeals setting forth the landfill conditions, including the purpose and area to be filled, time required, and any other pertinent facts which are the basis for the request. The Board shall have the authority to provide safeguards for the Municipality by designating the length of time of such special permit; the hours and days that landfilling is permitted; prescribing of a fence or watchman; and any other conditions which may be deemed necessary in view of the nature of the individual request.

(c) The placing of garbage, refuse, rubbish, litter or other waste material in covered receptacles specifically designed for that purpose shall not constitute the deposit of garbage, refuse, rubbish, litter or other waste material on public or private property, provided such receptacles are regularly emptied and maintained and do not become a nuisance or menace to the public health.

(d) Overflowing garbage or refuse containers, scattered garbage, and rubbish piles on premises in the city are prohibited. All garbage rubbish containers and dumpsters shall be covered. Garbage, trash and refuse may not be piled so that it is above the top of the container or stored alongside any container or outside any dumpster enclosure. Premises owners and/or occupants may be cited and are responsible for a violation of this section. The city may remove or cause to remove any garbage or rubbish in violation of this section and the cost thereof shall be assessed to the owner or occupant.

(e) Notice of violation, shall be issued in accordance to Section 951.03, and will be given to the owner, occupant, tenant, manager, property manager, rental agency or other responsible person if such persons are readily known. Within any three-month period, the first notice of violation will be sent followed by citation and/or other enforcement action if the violation is not corrected or abated within twenty-four (24) hours of written notice. Additional similar violations within any three-month period will be sent a citation without notice.

(Ord. 103-2020. Passed 10-27-20.)

951.03 REMOVAL OF GARBAGE AND RUBBISH.

The owner or person in control of any private property shall at all times maintain his premises free of garbage, rubbish, refuse, litter or other waste material of any kind which is not contained in covered receptacles which are regularly emptied and maintained and which do not become a nuisance or menace to public health.

(a) Notice to Remove. The Building Inspector, Director of Public Service, Chief of Police or their authorized designees, are authorized and empowered to notify and order the owner of any property occupied or unoccupied, within the City, or the agent of such owner, to properly dispose of garbage, rubbish, refuse, litter or other waste material of any kind which was dumped, or stored by such owner or some other person in violation of Section 951.02 hereof. Such notice and order shall be delivered personally, or posted in a conspicuous place in or about the structure affected by such notice.

(b) Action Upon Noncompliance. Upon the failure, neglect or refusal of any owner or agent so notified to properly dispose of such garbage, rubbish, refuse, litter, mattresses, furniture or other waste material within twenty-four (24) hours after written notice provided for in subsection (a) herein, the Director of Public Service, or his designee, is authorized and empowered to collect or otherwise dispose of such garbage, rubbish, refuse, litter, mattresses, furniture or other waste material by the City, which will be charged to the owner as set forth in subsection (d) below. Refuse containers will be forfeited.

(c) Within any three-month period, the first notice to remove will be sent followed by citation and/or other enforcement action if the violation is not corrected or abated within 24 hours of written notice provided for in subsection (a) above. Additional violations within any three-month period will be sent a citation without notice.

(d) Charge to be Included in Tax Bill. When the City has effected the removal or collection of such garbage, rubbish, refuse, litter, mattresses, furniture or other waste material, or has contracted for its removal, the actual cost of such removal plus accrued interest at the rate of eight percent per annum from the date of completion of the removal, shall be charged to the owner of such property until paid by such owner. The property owner shall be charged a minimum charge of two-hundred and seventy-five dollars (\$275.00). In addition to the two hundred seventy-five dollar (\$275.00) minimum charge, an additional charge of seventy-five dollars (\$75.00) per man hour, (per man) will be charged until the waste, refuse or rubbish is removed from the property. The charges will also include any hauling or drive time per man hour required to remove the rubbish, litter, or refuse from the property. A bill will be posted in a conspicuous location on the property. Payment shall be made to the City of Richmond Heights within thirty (30) days of the date of the bill. Any bill that is not paid within thirty (30) days shall be charged an additional seventy-five dollar (\$75.00) administrative fee each month the bill goes unpaid until the bill is placed on the property taxes of the property owner as a tax lien for collection by the Director of Finance.

(e) Charges Constitute Lien. Where the full amount of the charges to the City provided in subsection (d) herein is not paid by such owner within thirty days from the date of the completion of the removal, then such charges assessed against such property shall become a lien thereon and shall be collected in the same manner as other special assessments according to law.

(f) Nothing herein shall be construed to limit the authority of the Director of Law to undertake any action or to seek any other remedies or sanctions available.

(Ord. 103-2020. Passed 10-27-20.)

951.04 RULES AND REGULATIONS FOR NONBURNABLE RUBBISH PICKUP.

The following rules and regulations are established for nonburnable rubbish pickup:

(a) All refuse containers shall be at the curb side for pickup by 7:30 a.m. on the day designated for pickup.

(b) Refuse containers shall be not more than the twenty (20) gallon size and weigh not more than fifty (50) pounds, tapered and with handles. Straight sided containers, such as oil or cardboard drums, shall not be permitted. Containers not of regulation type shall be picked up, disposed of and not returned.

(c) Refuse containers shall contain only nonburnables. Garbage and burnable waste shall be disposed of in dwelling incinerators. Building materials such as rock and earth are not household rubbish and will not be picked up.

(d) Grass clippings, prunings and leaves shall be placed in tapered containers for pickup with other nonburnable rubbish. Aerated containers are recommended. Plastic, canvas or burlap bags will not be returned.

(e) The City will pick up cut trees with a diameter not greater than three and one-half (3½) inches and no longer than two (2) feet in length. Branches not more than two and one-half (2½) inches in diameter and twigs must be bundled and securely tied with biodegradable twine not exceeding two (2) feet in diameter and four (4) feet in length per bundle and not more than forty (40) pounds. Bundles must be away from obstacles such as fire hydrants, utility poles and maintain a safe line of sight distance for pedestrian and vehicular traffic. Bundles must be placed between the curb and sidewalk or at the edge of the roadway, not in the curb line or on the pavement. The collection of large amounts of brush resulting from tree removal requires the use of a tree removal service or landscape service.

(f) You must notify the City of Richmond Heights trash hauler for any, large non-burnable items, such as refrigerators, washers, sinks and furniture, which shall be dismantled as much as possible for pickup.

(g) No pickup shall be made from within a home, garage or other building. All dogs on property shall be kept leashed during pickup.

(h) All rubbish should be placed on the tree lawn not later than 7:30 a.m. of the designated pickup day. Trash containers may be placed on the tree lawn the evening before pickup, but not before sundown.

(i) Empty containers must be removed from the tree lawn as soon as possible. Responsibility for containers is beyond the control of the City.

(j) The Director of Public Service and Properties is authorized to promulgate further rules and regulations not inconsistent with the foregoing to regulate nonburnable rubbish pickup. All such rules and regulations are to be approved by the Mayor.

(Ord. 103-2020. Passed 10-27-20.)

951.05 PLACEMENT AND STORAGE OF CONTAINERS; ENFORCEMENT PROCEDURE.

(a) Placement of Refuse Containers. Collection shall be one day per week only at the curbside of dedicated public streets on the days designated by the Director of Service. Containers must be placed for collection at the curbside in the tree lawn area adjacent to the premises to be served on the day of collection designated for each such premises and each of such containers shall not exceed fifty (50) pounds in combined weight of container and contents. Containers shall not be stacked one on top of the other and shall not be placed upon any public curb, street, sidewalk, driveway or private yard or walk area, but shall be arranged in clusters extending not more than five (5) feet parallel to the curb in the tree lawn area and with access aisles extending on both sides of each cluster in the tree lawn area at least five (5) feet parallel to the curb of the dedicated public streets. On the day of garbage collection, animals which annoy, harass or threaten the collector must be confined.

(b) Refuse containers, waste or rubbish not placed in containers shall not be placed for collection in front of any building, by the owner, agent, lessee or occupant of that building, prior to 6:00 p.m. on the evening immediately preceding the day for refuse collection.

(c) Empty refuse containers are not permitted to remain in the front of any building by the owner, agent, lessee or occupant of that building for a period in excess of twelve (12) hours from the time of collection by the City.

(d) Refuse containers may not be stored along or in front of any building line which is parallel with any street line on which the building fronts, except after 6:00 p.m. on the evening immediately preceding the day for refuse collection and for twelve (12) hours immediately following refuse collection by the City or its agent. During the months of November through March, waste containers may be placed for collection after 4:00 p.m. in the evening immediately preceding the day for refuse collection.

(e) Rubbish, refuse or garbage not placed in containers shall be stored in the rear of the residence or in a location and manner where they cannot be seen from the street, where practical.

(f) No owner, operator, occupant of any property or any other responsible party shall violate subsections (a) through (e) of this section. If there is a violation, the violation shall be enforced as follows:

(1) The Building Inspector, Director of Public Service, Chief of Police or their authorized designees, are authorized to issue notices and citations to the owner, operator, occupant, of any property maintained in violation of this section, or to any other responsible party.

(2) The official shall personally deliver the notice of violation or post the notice of violation in a conspicuous location on the property. The notice shall state the time when the notice was issued and shall indicate the nature of the violation and that the violation must be corrected within twenty-four (24) hours after posting.

(3) No person who has been issued such a notice shall fail to comply with said notice.

(4) Whenever an owner, operator, occupant of any property or any other responsible party fails to comply with the notice within twenty-four (24) hours, the City is authorized to remove and dispose of the waste and/or empty waste containers. Waste containers will be forfeited. The property owner shall be charged a minimum charge of two-hundred and seventy-five dollars (\$275.00). In addition to the two hundred seventy-five dollars (\$275.00) minimum charge, an additional charge of seventy-five dollars (\$75.00) per man hour, (per man) will be charged until the waste, refuse or rubbish is removed from the property. The charges will also include any hauling or drive time per man hour required to remove the rubbish, litter or waste from the property. A bill will be posted in a conspicuous location on the property. Payment shall be made to the City of Richmond Heights within thirty (30) days of the date of the bill. Any bill that is not paid within 30 days shall be charged an additional seventy-five dollar (\$75.00) administrative fee each month the bill goes unpaid until the bill is placed on the property taxes of the property owner as a tax lien for collection by the Director of

Finance.

(g) Charges Constitute Lien. Where the full amount of the charges to the City provided in subsection (f)(4) herein is not paid by such owner within thirty days from the date of the completion of the removal, then such charges assessed against such property shall become a lien thereon and shall be collected in the same manner as other special assessments according to law.

(h) Nothing herein shall be construed to limit the authority of the Director of Law to undertake any action or to seek any other remedies or sanctions available.
(Ord. 103-2020. Passed 10-27-20.)

951.06 REFUSE COLLECTION PROHIBITED EXCEPT BY AUTHORIZED CITY PERSONNEL.

(a) No person, except personnel authorized by the City, shall collect rubbish, garbage or paper placed on the tree lawn of the streets of the City by householders residing thereon, for City collection.

(b) No person shall remove, appropriate or otherwise take any garbage, refuse, rubbish or other materials deposited on or around tree lawns for collection by the Municipal residential curbside recycling program except for authorized agents of the Municipality.
(Ord. 103-2020. Passed 10-27-20.)

951.07 COLLECTION, DISPOSAL AND RECYCLING PRACTICES AND FEES.

(a) All garbage, rubbish and refuse accumulated in the Municipality by occupants of one-family, two-family and attached one-family dwellings, as defined in Section 1223.03 of the City's Planning and Zoning Code, shall be accumulated by the occupants and collected by the authorized collection entity holding a contract with the City, and the City is authorized to charge, or cause to be charged, a fee to the owners of the single-family, two-family and attached one-family dwellings for such collection and for the disposal and/or recycling of such garbage, rubbish, and refuse.

(1) Direct Billing for Collection Fee. The collection fee, provided for in subsection (a) above, may be invoiced to the owners of the residential dwellings. If the owner of the residential dwelling fails to make payment of any fee charged for garbage, rubbish and refuse collection within sixty (60) days of the date of an invoice to the owner for such fee:

A. The Director of Finance shall report to the City Council the failure by the owner to make payment and the amount owed; and

B. Upon its receipt of the report of the amount owed in subpart (A) above, the Council shall make written return to the Fiscal Officer of Cuyahoga County of the City's action to collect the owner's past due payment for garbage, rubbish, and refuse collection with a statement of the amount owed for said service, plus a fifty dollar (\$50.00) administrative fee, and a description of the premises of the owner for which the service was rendered for the purpose of making the same a lien upon the lands of said premises and to be collected as other taxes and returned to the General Fund of the City.
(Ord. 66-2012. Passed 9-11-12.)

(2) Collection, Disposal and/or Recycling Fees Placed on Tax Duplicate. Notwithstanding the provisions of subsection (1) above, the City shall be authorized to certify any collection, disposal and/or recycling fees provided for in subsection (a), regardless of amount commencing with such fees to be incurred by the City on and after January 1, 2013, to the Fiscal Officer of Cuyahoga County to be placed on the tax duplicate for each single-family, two-family and attached one-family dwelling in the City for the purpose of making the same a lien upon the lands of said premises and to be collected as other taxes and returned to the General Fund of the City. The Director of Finance shall, no later than the date required by the County Fiscal Officer for receipt of certification of assessments each year, advise Council of the next year's estimated costs for collection, disposal and/or recycling and the projected assessment for each premises. In calculating said costs, the Director of Finance may factor in the delinquency percentage experienced by the County Fiscal Officer in the prior tax collection cycle. A listing of all parcels and collection, disposal and/or recycling fees shall be certified to the County Fiscal Officer in time for such fees to be added to the tax duplicate and collected in the next tax collection cycle.
(Ord. 86-2019. Passed 9-10-19.)

(b) Notwithstanding the other provisions of this section, the City has in the past and may continue to place a condition upon the approval of certain residential housing developments to the effect that the City shall not be responsible for the collection and disposal of garbage, rubbish and refuse from the dwellings in such developments, and the cost thereof, and may require such developments to include such a provision in the covenants, restrictions, rules and/or regulations of governing the development.

(c) All other garbage, rubbish and refuse accumulated at properties with other than single-family, two-family or attached one-family dwellings including, but not limited to, those residences subject to subsection (b) hereof, commercial, industrial, institutional, and other business establishments, and apartment buildings, shall legally and appropriately dispose of their own garbage, rubbish and refuse at their own expense.

(d) The method of accumulation, keeping and disposition of garbage, rubbish and refuse shall be in accordance with the terms and provisions of this chapter regardless of how the costs of disposition of the same are paid.
(Ord. 66-2012. Passed 9-11-12.)

951.08 HOURS OF COLLECTION AND TRANSPORTATION.

(a) No person owning or driving a vehicle hauling solid waste shall cause the collection, transportation or transfer of such waste other than between the hours of 6:00 a.m. and 7:00 p.m. No collection, transportation or transfer shall occur on Saturdays after 4:00 p.m. or on Sundays. Application for exceptions to this provision may be made to the Director of Public Service, on a form provided by the Director. Such exceptions shall be granted only where the applicant is able to demonstrate circumstances of great practical difficulty in the collection and transportation of solid waste in areas where there is heavy daytime vehicular and pedestrian traffic and a concentration of commercial activity.

(b) Whoever violates any provision of Section 951.08 or participates in such violation shall be fined not more than two hundred fifty dollars (\$250.00) for a first offense and not more than five hundred dollars (\$500.00) for a second or additional offense.
(Ord. 103-2020. Passed 10-27-20.)

951.99 PENALTY.

(a) Whoever violates any provisions of Section 951.02, Section 951.05 or Section 951.06 (a) or participates in such violation is guilty of a misdemeanor of the first degree. Each separate dumping, depositing, collecting or storage of garbage, rubbish, refuse, litter or other waste material of any kind shall be considered a separate offense. The offender shall in addition to any fine or other penalty imposed be required to pay the costs of removal of such garbage, rubbish, refuse, litter or other waste material.

(b) Whoever violates Section 951.06 (b) or participates in such violation is guilty of a misdemeanor of the first degree. Each separate removal, appropriation or other taking shall be considered a separate offense.
(Ord. 103-2020. Passed 10-27-20.)

CHAPTER 952

Branch Chipping Services

952.01 Branch chipping services.

952.02 Branch chipping service fee.

952.01 BRANCH CHIPPING SERVICES.

(a) The City will provide branch chipping services to residents for disposal of tree limbs from single-family residential properties resulting from residential yard work and that have fallen from severe storm damage. All by-products from a contractor or tree service shall be disposed of by the contractor or tree service. Branch chipping by the City is subject to weather conditions and the availability of City equipment and service crews. Residents may be required to pay a fee for branch chipping pursuant to Section 952.02.

(b) Chipping services are subject to the following:

(1) Branches shall be placed in the tree lawn and shall not obstruct the sidewalk or views for traffic safety purposes;

(2) Branches shall be no larger than three and one half (3 ½) inch in diameter;

(3) Branches shall be of a size that is manageable for one person;

(4) Branches shall be stacked reasonably untangled, with all branches facing in one direction;

(5) Shrubbery with roots, stumps, vines, thorny plants, lumber, posts and other non-tree material shall not be placed in the pile with branches for chipping;

(6) No material generated at a location other than the residence from which it is collected shall be placed on the tree lawn in front of that residence for purposes of branch chipping.

(c) Residents shall notify the Department of Public Service when they have branches to be chipped. The Department of Public Service will advise the resident that branch chipping may be subject to a fee under Section 952.02.

(1) If branches are placed on the tree lawn but the Department of Public Service has not been notified by a resident that the branches are to be chipped, then the Department of Public Service may chip the branches only if chipping is not subject to a fee under Section 952.02.

(2) If branches are placed on the tree lawn, the Department of Public Service has not been notified by a resident that the branches are to be chipped, and chipping the branches would likely result in assessment of a fee under Section 952.02, then the Director of Public Service or his/her designee shall cause written notice to be served upon the owner, lessee, agent or tenant of the property along with an estimated City fee for chipping. The notice shall notify the resident to either: (i) contact the Department of Public Service and affirmatively consent to branch chipping for a fee under Section 952.02; or (ii) immediately remove the branches from the tree lawn. Such notice shall be delivered either personally to the owner of the property or a person of suitable age at the subject property, by regular, first-class mail, or by posting the notice at a conspicuous place upon the subject property. If consent to chipping is not provided and the branches are not removed within five (5) days after service of the notice, then the City may charge a fee for chipping the branches pursuant to Section 952.02(c).

(d) Any materials placed out for collection shall be presumed to belong to and be the responsibility of the owner, tenant or occupant of any dwelling or premises in front of which, or adjacent to which, the materials are placed.
(Ord. 143-2017. Passed 2-13-18.)

952.02 BRANCH CHIPPING SERVICE FEE.

(a) The fee for branch chipping shall be twenty five dollars (\$25.00) for every fifteen (15)-minute block of time the branch chipping service is being provided or rendered. The Mayor or Director of Public Service may suspend the fee for good cause, at their sole discretion, such as when extreme weather conditions result in excessive amounts of downed branches.

(b) No fee shall be charged if the total time of service is fifteen (15) minutes or less unless:

(1) The branches are a by-product of a contractor's services or a tree service.

(2) Material placed for branch chipping does not meet the specifications of Section 952.01(b).

(c) Residents who have consented to or requested a branch chipping service or who have failed to remove branches from their tree lawn five (5) days after receiving notice pursuant to Section 952.01(c) shall be invoiced for branch chipping services on a monthly basis via regular, first-class mail. Residents shall pay the invoice no later than thirty (30) days of receipt. If the services are not paid after the resident has been invoiced for at least three (3) consecutive months, then, upon the receipt of a statement of costs incurred, Council shall give written notice to the Fiscal Officer of Cuyahoga County with a statement of the charges for its services, the amount paid for the performing of the labor and a proper description of the premises for the purpose of making the same a lien upon the lands and to be collected as other taxes and returned to the Municipality for placement into the General Fund.
(Ord. 143-2017. Passed 2-13-18.)

CROSS REFERENCES

Recreation Board - see ADM. Ch. 151

Disorderly conduct and peace disturbance - see GEN. OFF. Ch. 509

Littering - see GEN. OFF. 521.08

Criminal damaging or endangering - see GEN. OFF. 541.03

Criminal mischief - see GEN. OFF. 541.04

953.01 DEFINITIONS.

As used in this chapter:

- (a) "Meeting" means an assembly for the sole purpose of conducting business.
- (b) "Engagement" means any activity, including meetings.
- (c) "Resident" means, with respect to an individual, an applicant who lives in the City or is a full-time employee of the School Board or City of Richmond Heights.
- (d) "Sanctioned organization" means a group or organization as defined in Section 953.02 .
- (e) "Lodge" means the City-owned and operated community building located at the north end of Richmond Heights Park known as the Kiwanis Lodge. The Kiwanis Lodge contains the following distinct rentable spaces:
 - (1) South Wing: The original building, called the Kiwanis Hall;
 - (2) North Wing: The upper level, being the 1978/1979 addition, called the Senior Hall;
 - (3) Basement: The lower level of the 1978/1979 addition.
- (f) "Administrative Authority" means the Richmond Heights Mayor or his designated representative.
(Ord. 65-91. Passed 9-10-91.)

953.02 ORGANIZATIONS PERMITTED TO USE FACILITIES.

The following sanctioned organizations serving the City of Richmond Heights are eligible to use the Kiwanis Lodge of the City:

- (a) Recreation Board Programs.
- (b) Youth Groups:
 - Richmond Heights: Little League
 - Key Club

 - Welcome Wagon
 - Richmond Heights Alumni Class Reunions
 - Lions Club of South Euclid
 - Hillcrest League of Women Voters.
 - Richmond Heights - Monday
- (f) Departments of the City of Richmond Heights. Any individual resident of the City shall also be so eligible, subject to the approval of the Administrative Authority and subject to the conditions hereinafter provided in this chapter. A resident is one who lives in the City six months or longer, and is twenty-one years of age or older. For purposes of this chapter only, any business entity located in the City shall be eligible to use the Lodge for social and recreational or educational activity.
(Ord. 65-91. Passed 9-10-91.)

953.03 PRIORITY USE OF LODGE.

Sanctioned organizations shall have preferential privilege regarding the scheduling of meeting or engagement dates, provided that these organizations submit a calendar of requested dates one year in advance on an annual rolling calendar basis. In the event of conflict, the following organizations shall have priority:

- (a) First, Senior Citizens;
- (b) Second, American Legion Post 775; and
- (c) Third, Kiwanis.

Any other conflicts in scheduling shall be subject to the decision of the Administrative Authority.

(Ord. 44-80. Passed 4-8-80.)

953.04 PROHIBITED USES.

The Administrative Authority will, when determined necessary, require as a condition of issuing a permit for the use and rental of the facilities in the Lodge upon a reasonable belief that the purpose for which the premises are sought to be used and rented would be prohibited by law, that such use and occupancy by the applicant would result in excessive noise or damage to real or personal property in or about such premises, or that such use and rental would be detrimental to the health, safety and welfare of the City and the inhabitants thereof.

(Ord. 23-80. Passed 2-26-80.)

953.05 PERMIT REQUIRED; APPLICATIONS.

- (a) The Administrative Authority is hereby authorized to issue a permit for the use and rental of the facilities in the Lodge, upon written application therefor in such form as is prescribed by the Authority, upon the terms and conditions and subject to charges hereinafter provided in this chapter.
- (b) All applications for a permit shall be subject to the approval of the Administrative Authority after an application is properly completed.
- (c) An application containing false information or any false statements regarding the application by the applicant will render the application invalid.

(Ord. 65-91. Passed 9-10-91.)

953.06 AUXILIARY POLICE; FEES.

(a) The Administrative Authority will, when determined necessary, require as a condition of issuing a permit for the use and rental of the facilities of the Lodge that one or more auxiliary policemen of the City shall be hired by the applicant to be present during the hours specified by the Administrative Authority and such auxiliary policemen shall be paid at the rates set forth herein. Notwithstanding the foregoing, an auxiliary policeman of the City shall be hired by the applicant to be present at all times during all events which commence after 3:00 p.m. and any use of the facilities at which over 100 persons attend shall require the applicant to hire two (2) auxiliary policemen to be present at all times, which auxiliary policemen shall be paid at the rates set forth herein. The Administration Authority may waive this requirement in its sole discretion upon special written request by an applicant.

(b) In the event auxiliary police are required as set forth in this section and appear at the time of the scheduled event, they shall receive a minimum of three hours of the applicable rate in any case where the event meeting or engagement is cancelled. Any amounts required to be paid to auxiliary police in accordance with the rates set forth herein shall be paid in advance and shall be paid directly to the auxiliary policemen in attendance.

(Ord. 88-00. Passed 12-12-00.)

- (c) The rate of compensation for the use of auxiliary policemen is hereby established at sixteen dollars (\$16.00) per hour for each officer.

(Ord. 49-2006. Passed 6-27-06.)

953.07 FEES.

- (a) The fees set forth in this section shall be charged for use of Lodge facilities. The fee will cover a rental of the facilities for a maximum of ten (10) consecutive hours, including set up and clean up time.

(Ord. 88-00. Passed 12-12-00.)

- (b) Deposits set forth in 953.07 (h) shall accompany the permit application and shall be retained to cover additional cleaning charges or damages. The balance shall be refunded upon the approval of the Administrative Authority.

(c) All fees shall be paid to the City at the time the application is approved or is determined by the Administrative Authority. "Sanctioned organizations" who use the Lodge at a "no cost" fee shall be required to pay opening and closing costs.

(d) The organization or individual holding a permit may cancel the same by giving notice, in writing, to the Administrative Authority one month in advance of the date and time for which the permit is issued. If such advance notice is not given, the organization or individual to whom the permit is issued shall forfeit the deposit.
(Ord. 65-91. Passed 9-10-91.)

(e) The fees for the use of the Lodge shall be as set forth in the following table:

<u>Fees for "sanctioned organizations", Monday through Thursday.</u>				
	<u>Kiwanis Hall</u>	<u>Senior Hall</u>	<u>Vets Hall</u>	
A. Recreation Board programs	N/C	N/C	N/C	
B. Youth groups (953.02)	N/C	N/C	N/C	
C. Church groups (953.02)	\$40.00	\$60.00	\$50.00	
D. All Richmond Heights school system auxiliary organizations	40.00	60.00	50.00	
E. Civic organizations	40.00	60.00	50.00	
F. Departments of the City of Richmond Heights	40.00	60.00	50.00	

<u>Fees for "sanctioned organizations", Friday, Saturday, Sunday.</u>				
	<u>Kiwanis Hall</u>	<u>Senior Hall</u>	<u>Vets Hall</u>	
A. Recreation Board programs	N/C	N/C	N/C	
B. Youth groups	N/C	N/C	N/C	
C. Church groups	\$85.00	\$150.00	\$125.00	
D. All Richmond Heights school system auxiliary organizations	85.00	150.00	125.00	
E. Civic organizations	85.00	150.00	125.00	
F. Departments of the City of Richmond Heights	85.00	150.00	125.00	

- (3) Fees for additional openings and closings. Fees for openings and closings of the Lodge shall be twenty dollars (\$20.00) for each opening or closing after the initial opening and closing.
- (4) Fees for additional time exceeding the ten-hour maximum. An additional fee shall be paid for any time the Lodge facilities are used beyond the ten (10)-hour maximum rental time established in subsection (a) above as follows:
- A. \$25.00 per hour, or portion thereof, for use of the Kiwanis Hall;
 - B. \$40.00 per hour, or portion thereof, for use of the Senior Hall; and
 - C. \$50.00 per hour, or portion thereof, for use of both the Kiwanis Hall and the Senior Hall.

(Ord. 88-00. Passed 12-12-00.)

(f) The Senior Citizens Club of Richmond Heights shall be exempt from all fees. For services rendered in the construction of the Lodge addition, the American Legion Post 775 shall be exempt from fee charges for use of the basement and the Kiwanis Club shall be exempt from fee charges for use of the Kiwanis Hall and shall have priority use of such rooms.

- (Ord. 65-91. Passed 9-10-91.)
- (g) The following fees shall apply to "resident private engagements":

<u>Day of Use</u>	<u>Kiwanis Hall</u>	<u>Senior Hall</u>	<u>Both Halls</u>
Monday through Thursday	\$150.00	\$300.00	\$400.00
Friday, Saturday, Sunday and holidays	200.00	350.00	500.00

- (Ord. 49-2006. Passed 6-27-06.)
- (h) Deposits:

<u>Day of Use</u>	<u>Kiwanis Hall</u>	<u>Senior Hall</u>	<u>Both Halls</u>
Monday through Thursday	\$ 50.00	\$ 50.00	\$ 75.00
Friday, Saturday, Sunday	250.00	250.00	400.00

- (Ord. 2-02. Passed 1-15-02.)
- (i) The following civic organizations shall be allowed two events per year without charge for the community's benefit:

Richmond Heights:	Boosters Club
	Parent Teacher Organization
	Kiwanis Club
	American Legion Post 775

- (Ord. 65-91. Passed 9-10-91.)
- (j) All users of the Lodge facilities, other than the "sanctioned organizations" set forth in Section 953.02, shall pay an extra fee of \$100.00 for use of kitchen/food preparation facilities. (Ord. 18-2009. Passed 3-10-09.)

- 953.08 RULES AND REGULATIONS.**
- The following rules and regulations shall govern the use of the Lodge and/or the adjacent picnic and parking facilities.
- (a) Any devices, such as electrical, plumbing or otherwise, brought on or added by the organization or persons using the Lodge, may be added or connected only with the permission of the Director of Public Service and Properties or the Mayor.
 - (b) All interior furnishings or equipment shall be kept inside and used only for the purpose intended. All exterior furnishings or equipment shall be used only for the purpose intended.
 - (c) No decorations, furniture or special equipment by the group or organization using the building shall be permitted in or about the premises unless approved by the Director of Public Service and Properties or the Mayor.
 - (d) The kitchen, if used, and all papers, garbage or rubbish shall be neatly cleaned up and put in the containers provided outside. All furniture or special equipment furnished by the group or organization using the building shall be removed on the same date that the building is used by such group or organization.
 - (e) Vehicular parking for members of groups using the Lodge shall be limited to the parking areas designated.
 - (f) All youth activities shall be adequately chaperoned with adult supervision.
 - (g) Any permit issued shall be governed by the current set of rules established by the City and posted at the Lodge. A copy shall be provided with each permit issued.

- (Ord. 102-85. Passed 10-8-85.)
- (h) Rowdiness, disorderly conduct, discourteous behavior of attendees toward others, including City employees, and malicious destruction of property in or about the building are hereby prohibited. At the sole discretion of the Administrative Authority, such actions may result in the denial of future use and rental of the Lodge facilities by the permit holders and/or attendees involved in such actions.

- (Ord. 88-00. Passed 12-12-00.)
- (i) The maximum capacity of the Lodge when used pursuant to the provisions of this chapter shall be as provided in the following table:

<u>Facility</u>	<u>Use</u>	
	<u>Concentrated</u>	<u>Unconcentrated</u>
	<u>(chairs only, nonfixed)</u>	<u>(tables and chairs)</u>
Kiwanis Hall	240	100
Basement	360	185
Senior Hall	390 (including dance area)	164
		300 (including dance area)

- (Ord. 49-2006. Passed 6-27-06.)
- (j) Charitable organizations may lawfully conduct gambling activities provided it meets each and every following condition:
- (1) It has in its possession (and produces a copy of the same) a letter from the U.S. Internal Revenue Service stating that the charitable organization is exempt from Federal income taxes under Section 501(a) of the Internal Revenue Code at the time of the gambling event.
 - (2) Only the price of the prizes won by participants are deducted from the gambling proceeds.
 - (3) All other gambling proceeds are used by or transferred to a tax exempt organization having Section 501(a) certificate or as described in Section 501 of the Internal Revenue Code.
 - (4) The event is not conducted within ten hours of a bingo game conducted on the premises for amusement purposes only pursuant to Ohio R.C. 2915.02(D)(1) or Richmond Heights Codified Ordinances Section 517.02 (c).

- (5) The activity or game of chance does not include craps for money, roulette for money or the use of slot machines, all of which are illegal.
- (k) A charitable organization, as defined in Section 501(a) of the Internal Revenue Code, may conduct poker games, use punch boards or conduct other games of chance (except craps for money, roulette for money or the use of slot machines) provided it meets all of the following conditions:
 - (1) The organization has in its possession a letter from the Internal Revenue Service saying that it is exempt from Federal income taxes (under Section 501(a) IRC) at the time of the event.
 - (2) The games/events are held at a festival of the organization that lasts four consecutive days or less and occurs not more than twice a year.
 - (3) Only the price of the prizes won by participants is deducted from the gambling proceeds.
 - (4) All of the rest of the money is used by or transferred to a tax exempt organization (under Section 501(a) IRC or described in Section 501 IRC).
 - (5) The event is not conducted within ten hours of a bingo game conducted for amusement purposes.
 - (6) The charitable organization does not pay the operators, conductors or assistants operating or conducting the gambling any compensation or gratuity.

(Ord. 102-85. Passed 10-8-85.)

- (l) The sale of alcoholic beverages shall be permitted at the Lodge only by groups or organizations who have obtained and submitted a permit for the sale under existing Ohio Liquor Laws. Any event, meeting or engagement at the Lodge facilities at which alcoholic beverages are being consumed shall cease service of any alcoholic beverages no later than 11:30 p.m. and the event, meeting or engagement must end no later than 12:00 midnight.

(Ord. 49-2006. Passed 6-27-06.)

- (m) Any person desiring to rent any of the Lodge facilities must be twenty-one years of age or older.

- (n) Any right or privilege granted to any person, persons or organization to use the Kiwanis Lodge or any part thereof is personal and exclusive and shall not be transferred to any other person or organization.

(Ord. 9-88. Passed 5-24-88.)

- (o) Any individual household of the City or business entity located in the City shall be eligible to use the Lodge and apply for a permit for such use for only two engagement dates during any calendar year. This provision shall not apply to the sanctioned organizations listed in Section 953.02 .

(Ord. 10-02. Passed 4-9-02.)

953.09 JANITORIAL SERVICES.

The Administrative Authority is hereby authorized to contract for part-time janitorial services as needed for necessary maintenance of the Kiwanis Lodge. Such janitor shall be paid for actual hours worked and as approved in writing by the Director of Public Service and Properties.

(Ord. 65-91. Passed 9-10-91.)

953.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 955

Ambulance Emergency Squad Service

955.01 Services in exchange for insurance company proceeds.

955.02 Ambulance Billing Service Fund.

CROSS REFERENCES

Emergency medical service - see Ohio R.C. 4731.82 et seq.

Vehicle operation at stop sign or signal - see TRAF. 331.20

Right of way - see TRAF. 331.21

Pedestrians to yield - see TRAF. 371.08

955.01 SERVICES IN EXCHANGE FOR INSURANCE COMPANY PROCEEDS.

The City will provide ambulance emergency squad services for a City resident or nonresident of the City. Effective June 1, 2002, the City will provide ambulance emergency squad services in exchange for an assignment of insurance company proceeds available to users of the service who are City residents, and for City residents, will accept as full payment the amount set forth on the Medicare fee schedule or the fee schedule of the resident's insurance plan for the services provided. The City will not charge or collect any amount of money from City residents in excess of the insurance payments received. The City will charge nonresidents of the City the City's usual and customary fee.

(Ord. 38-2002. Passed 4-23-02.)

955.02 AMBULANCE BILLING SERVICE FUND.

- (a) The Finance Director shall establish an enterprise fund, to be called the Ambulance Billing Service Fund, into which all sums collected pursuant to this chapter will be deposited. Disbursements from such Fund shall be used for operating expenses and capital expenditures associated with the Division of Fire. Notwithstanding the foregoing, fifty thousand dollars (\$50,000.00) shall be retained in such Fund for necessary capital expenditures.

(Ord. 11-2009. Passed 2-10-09.)

- (b) "Capital expenditures," as used in this section, means expenditures for items having a value of one thousand dollars (\$1,000) or more, with an estimated useful life greater than one year. Capital expenditures are expected to include replacement of Fire Division vehicles, emergency medical equipment, building renovations associated with ambulance services and communication systems of ambulance services.

(Ord. 38-2002. Passed 4-23-02.)

CHAPTER 957

Cable Television

957.01 Adoption of FCC rate regulation rules and customer service standards; comment at public hearings or meetings.

957.02 Confidential operator information procedures.

957.03 Procedural rules and regulations for implementation of rate regulation and penalties.

957.04 Cable television customer protection standards and penalties.

CROSS REFERENCES

Unauthorized connections - see Ohio R.C. 4933.42

957.01 ADOPTION OF FCC RATE REGULATION RULES AND CUSTOMER SERVICE STANDARDS; COMMENT AT PUBLIC HEARINGS OR MEETINGS.

There is hereby adopted for enforcement by the City the Federal Communications Commission Rate Regulation Rules as amended on August 27, 1993, and the Customer Service Rules as amended on April 7, 1993, pursuant to the Communications Act, or the most current amendments thereof, including all additions, deletions, and amendments made subsequent hereto. Any interested party may comment on these rules and procedures at any public hearing or meeting called to supplement or amend said rules for customer service and basic rate regulation.

(Ord. 14-94. Passed 5-10-94.)

957.02 CONFIDENTIAL OPERATOR INFORMATION PROCEDURES.

There is hereby adopted by the City the confidential operator information procedures contained in 47 CFR Section 0.459 and as hereafter amended for purposes of audits authorized by any present or future cable franchise authorized by the City and basic rate regulation by the City. The City shall be substituted for the Commission therein. The Mayor shall be substituted for the Bureau or Office Chief therein. The Law Director shall be substituted for the General Counsel therein.

(Ord. 14-94. Passed 5-10-94.)

957.03 PROCEDURAL RULES AND REQUIREMENTS FOR IMPLEMENTATION OF RATE REGULATION AND PENALTIES.

- (a) There are hereby established the following procedural rules and requirements for all cable television franchisees operating within the City of Richmond Heights on and after the effective date of this chapter:

- (1) The following procedures shall only apply to the regulation of basic rates and services and the equipment and installation used to receive basic services. Hereinafter the term "rates" shall mean cable television charges for basic services and equipment and installation used to receive basic services.
- (2) Thirty days prior to any increase in rates, the company shall notify the Mayor and Council and all affected subscribers in writing of the proposed rate increase. All necessary supporting documents showing why the increase is necessary shall be provided at this time.
- (3) The franchising authority shall review the information and notify the cable company within thirty days that the request is either approved, disapproved, or that additional time and/or additional information is required before a decision can be made. If additional time is needed, the franchising authority shall have an additional ninety days to act if the cable company requests an increased based on the benchmark rates, or an additional 150 days to act if the request is based on a cost of service showing. Proper notice shall be provided of the franchising authority's decision.
- (4) Any interested party may provide written comment regarding the proposed rates after the Mayor has received notice of a proposed rate increase and before the franchising authority makes a final determination concerning the proposal.
- (5) The rate increase cannot take effect while the City is reviewing the request.
- (6) If the franchising authority requests additional information as to the proposal, the cable company must provide said information within five calendar days.
- (7) All information provided to the franchising authority shall be considered public unless the cable company requests the information to be kept confidential and said request is consistent with State and Federal law and Section 957.02 .
- (8) The franchising authority shall make its decision in writing, notify the cable company of its decision, and post a public notice of said decision. No retroactive rate increases are permitted without prior approval of the Federal Communications Commission.

- (b) Increasing rates or eliminating long-standing discounts without the franchising authority's permission shall be punishable by a fine of one thousand dollars (\$1,000) per day of each violation and a full credit with interest to all affected subscribers.

(Ord. 14-94. Passed 5-10-94.)

957.04 CABLE TELEVISION CUSTOMER PROTECTION STANDARDS AND PENALTIES.

- (a) All cable operators within the City of Richmond Heights shall be subject to the following customer service standards:

- (1) **Cable system office hours and telephone availability.**
 - A. The cable operator shall maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week. Trained company representatives will be available to respond to customer telephone inquiries 24 hours a day.
 - B. Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty seconds. These standards shall be met no less than ninety percent (90%) of the time under normal operating conditions, measured on a quarterly basis.
 - C. The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.
 - D. Under normal operating conditions, the customer will receive a busy signal less than three percent (3%) of the time.
 - E. Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located. "Conveniently located" means no more than a 15-minute drive in each direction to the office. To meet this requirement, satellite bill-paying and equipment drop-off locations can be used by the cable operator.
- (2) **Installations, outages and service calls.** Under normal operating conditions, each of the following four standards will be met no less than ninety-five percent (95%) of the time measured on a quarterly basis.
 - A. Standard installations will be performed within seven business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.
 - B. Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes known. The

- cable operator must begin actions to correct other service problems the next business day after notification of the service problem.
- C. The "appointment window" alternatives for installations, service calls and other installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. (The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.)
- D. An operator may not cancel an appointment with a customer after the close of business on the business day prior to the schedule appointment.
- E. If a cable operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at the time which is convenient for the customer.
- (3) Communications between cable operators and cable subscribers.
- A. Notifications to subscribers.
- The cable operator shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request:
 - Products and services offered;
 - Prices and options for programming services and conditions of subscription to programming and other services;
 - Installation and service maintenance policies;
 - Instructions on how to use the cable service;
 - Channel positions of programming carried on the system; and
 - Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.
 - Customers will be notified of any changes in rates, programming services or channel positions as soon as possible through announcements on the cable system and in writing. Notice must be given to subscribers a minimum of thirty days in advance of such changes if the change is within the control of the cable operator. In addition, the cable operator shall notify subscribers thirty days in advance of any significant changes in other information required by the preceding paragraph.
- B. Billing.
- Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium service charges and equipment charges. Bill will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.
 - In case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within thirty days.
- C. Refunds. Refund checks will be issued promptly, but no later than either:
- The customer's next billing cycle following resolution of the request or thirty days, whichever is earlier; or
 - The return of the equipment supplied by the cable operator if service is terminated.
- D. Credits. Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted. Credits shall be automatically given for all service interruptions as soon as the cable operator is informed of the interruption and can verify it. A separate telephone call to ask for the credit will no longer be necessary.
- (4) Late Fees. Late fee charges will be the same as other utility companies charge in this area, but not greater than one and one-half percent (1.5%) per month on the outstanding balance. No other late fee shall be charged.
- (5) Definitions.
- A. "Normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.
- B. "Normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the cable operator include, but are not limited to, special promotions, pay-per-view events, rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.
- C. "Service interruption" means the loss of picture or sound on one or more cable channels.
- (b) The penalties and remedies for a violation of the above standards shall be as follows:
- For service interruptions as defined above, automatic credit or a refund, equal to not less than ten dollars (\$10.00), shall be provided to any and all affected subscribers;
 - For any violation of the above standards, specific performance and reimbursement to the franchising authority for all legal and/or administrative expenses in compelling specific performance;
 - Intentional violations of the above standards not corrected within thirty days shall be regarded as a failure to perform a material term of the franchise agreement and shall be considered within the franchise performance evaluation portion of the franchise renewal process;
 - Any other penalty or remedy afforded by local, state, or federal law or regulation.
- (c) The foregoing cable television customer service standards shall be effective at the earliest time permitted by law.
- (Ord. 14-94. Passed 5-10-94.)

CHAPTER 959

Use of Parks by Large Groups/Organizations

- 959.01 Definitions.**

CROSS REFERENCES

959.01 DEFINITIONS.

As used in this chapter:

- "Meeting" means an assembly for the sole purpose of conducting business.
- "Engagement" means any activity, including meetings.
- "Resident" means, with respect to an individual, an applicant who lives in the City or is a full-time employee of the School Board or City of Richmond Heights.
- "Sanctioned organization" means a group or organization as defined in Section 959.02.
- "Parks" means Richmond Park on Highland Road (except the Kiwanis Lodge) and DeSan Park on Trebisky Road or some portion of these Parks.
- "Administrative Authority" means the Mayor of the City or his/her designated representative.
- "Playing Field(s)" means any outdoor open area(s) in a Park which is used for a team sporting event. (Ord. 96-2016. Passed 10-25-16.)

959.02 ORGANIZATIONS ELIGIBLE TO USE FACILITIES.

The following sanctioned organizations serving the City of Richmond Heights are specifically eligible to reserve Park facilities or a portion thereof for an engagement by a group of thirty (30) or more persons:

- City Recreation Board Programs.

- Youth Groups:

Richmond Heights: Little League
Key Club
Amateur Sports

(f) Departments of the City of Richmond Heights.

(g) Any individual resident of the City who will be present at the Park, with a group of thirty (30) or more persons shall also be eligible, subject to the approval of the Administrative Authority and subject to the conditions hereinafter provided in this chapter. A resident is one who lives in the City six months or longer, and is twenty-one years of age or older. For purposes of this chapter only, any business entity located in the City with a group of thirty (30) or more persons shall also be eligible to use and reserve Park facilities for social, recreational or educational engagements.

(Ord. 43-2004. Passed 5-11-04.)

959.04 PERMIT REQUIRED; APPLICATIONS.

(a) Any group of persons eligible to use a Park that is greater than thirty (30) persons, or any other group regardless of size using a Playing Field at a Park, shall have been issued a permit therefor prior to use of a Park in compliance with this section.

(b) Any group of persons eligible to use the Parks, or a portion thereof, that exceeds seventy-five (75) persons on a weekend or legal holiday or exceeds one hundred (100) persons on any other day must also apply for and reserve the Kiwanis Lodge at Richmond Park pursuant to the requirements of Chapter 953.

(c) The Administrative Authority is hereby authorized to issue a permit for the use of Park facilities upon written application therefor in such form as is prescribed by the Administrative Authority and upon the terms and conditions and subject to charges hereinafter provided in this chapter.

(d) All applications for a permit shall be subject to the approval of the Administrative Authority after an application is properly completed.

(e) An application containing false information or any false statements regarding the application by the applicant will render the application invalid.

(Ord. 96-2016. Passed 10-25-16.)

959.05 PROHIBITED USES.

The Administrative Authority shall have the right to reject an application for use of the Park facilities upon a reasonable belief that the purpose for which the Park is sought to be used would be prohibited by law, that such use and occupancy by the applicant would result in excessive noise or damage to real or personal property in or about such premises, or that such use and rental would be detrimental to the health, safety and welfare of the City, the inhabitants thereof, or the users of the Parks.

(Ord. 43-2004. Passed 5-11-04.)

959.06 AUXILIARY POLICE; FEES.

(a) The Administrative Authority may, when determined necessary by the Administrative Authority, require as a condition of issuing a permit for the use of the Park facilities that one or more auxiliary police officers of the City be hired by the applicant to be present during the hours specified by the Administrative Authority, and such auxiliary police officers shall be paid at the rates set forth herein. Notwithstanding the foregoing, an auxiliary police officer of the City shall be hired by the applicant to be present at all times during all engagements which commence after 3:00 p.m. Any use of the parks at which over 100 persons attend shall require the applicant to hire two auxiliary police officers to be present at all times, which auxiliary police officers shall be paid at the rates set forth herein. The Administrative Authority may waive this requirement only in writing and in its sole discretion upon special written request by an applicant.

(b) In the event auxiliary police are required as set forth in this section and appear at the time of the schedule event, they shall receive a minimum of three hours at the applicable rate in any case where the event, meeting or engagement is cancelled or the duration of which is less than three hours. Any amounts required to be paid to auxiliary police in accordance with the rates set forth herein shall be paid in advance and shall be paid directly to the auxiliary police officers in attendance.

(c) The rate of compensation for the use of auxiliary police officers is hereby established at fifteen dollars (\$15.00) per hour for each officer.

(Ord. 43-2004. Passed 5-11-04.)

959.07 FEES.

(a) No fees shall be charged for the use of Park facilities, except for fees for use of the Kiwanis Lodge building, and for fees for use of any Playing Field which shall be established by the Administrative Authority.

(b) A deposit of \$100.00 shall accompany the permit application and shall be retained to cover additional cleaning charges or damages. The balance shall be refunded upon the approval of the Administrative Authority.

(c) All deposits shall be paid to the City at the time the application is approved or is being determined by the Administrative Authority.

(d) The organization or individual holding a permit may cancel the same by giving notice, in writing, to the Administrative Authority one month in advance of the date and time for which the permit is issued. If such advance notice is not given, the organization or individual to whom the permit is issued shall forfeit the deposit.

(Ord. 96-2016. Passed 10-25-16.)

959.08 RULES AND REGULATIONS.

The following rules and regulations shall govern the use of the Parks and/or the adjacent picnic and parking facilities.

(a) Any devices, such as electrical, plumbing or otherwise, brought on or added by the organization or persons using the Parks, may be added or connected only with the permission of the Director of Public Service and Properties or the Mayor.

(b) Vehicular parking for members of groups using the Parks shall be limited to the parking areas designated.

(c) All youth activities shall be adequately chaperoned with adult supervision at a minimum ratio of one adult for every twenty children or, if the Administrative Authority so determines, a lesser number of children per adult chaperone.

(d) Any permit issued shall be governed by the current set of rules established by the City. A copy shall be provided with each permit issued.

(e) Rowdiness, disorderly conduct, excessive noise, discourteous behavior of attendees toward others, including City employees, and malicious destruction of property in or about the Parks are hereby prohibited. At the sole discretion of the Administrative Authority, such actions may result in the denial of future use of the Parks by the permit holders and/or attendees involved in such actions.

(f) The maximum capacity of the facilities when used pursuant to the provisions of this chapter shall be as determined by the Administrative Authority.

(g) The Administrative Authority has the discretion to designate certain areas of the Parks for picnicking, games and other activities by a sanctioned organization that is subject to the permit required by this chapter.

(h) Sanctioned organizations that are subject to the permit required by this chapter are also subject to all other park regulations of the City, including but not limited to Section 151.05.

(Ord. 43-2004. Passed 5-11-04.)

959.09 CLEANUP.

All cleanup of the Park shall be completed by the permittee immediately at the conclusion of the engagement and subject to forfeiture of the deposit for failure to do so.

(Ord. 43-2004. Passed 5-11-04.)

959.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a minor misdemeanor.

(Ord. 42-2009. Passed 7-14-09.)

1101.01 SHORT TITLE.

This Title One shall be known and may be cited as the "Subdivision Regulations of the Municipality" or just "these Regulations."
(Ord. 120-91. Passed 8-9-93.)

1101.02 APPLICATION.

The rules and regulations governing plats and subdivisions of land contained herein shall apply within the corporate limits of the Municipality.
(Ord. 120-91. Passed 8-9-93.)

1101.03 INTERPRETATION; CHAPTER.

The provisions of these Regulations shall be held to be the minimum requirements adopted for the promotion of the health, safety and welfare of the people of the Municipality. These Regulations are not intended to repeal, abrogate, annual or in any manner interfere with any existing laws, zoning ordinances, covenants or rules, provided, however, that where these Regulations impose a greater restriction that is required by such existing laws, covenants or rules, the provisions of these Regulations shall govern.

(Ord. 120-91. Passed 8-9-93.)

1101.04 PURPOSE.

These Regulations are adopted to secure and provide for the coordination of streets within a subdivision with existing streets, roads or highways, for the proper amount of open spaces for traffic, circulation and utilities, and for the avoidance of future congestion of population detrimental to the public health, safety or welfare; to provide for the construction of streets and other facilities deemed necessary or appropriate in the public interest; to insure and promote sound community growth; to protect against deterioration and obsolescence and to safeguard the interests of the owners or occupants of property, the subdividers and local government.
(Ord. 120-91. Passed 8-9-93.)

1101.05 AMENDMENTS

These Regulations may be amended from time to time as provided by law.
(Ord. 120-91. Passed 8-9-93.)

1101.06 DEFINITIONS.

As used in these Regulations:

- (a) "Building setback line" means the line indicating the minimum horizontal distance between the street and line and building or any covered porch extending in front of the main foundation wall, not including steps.
- (b) "Engineer" means the Municipal Engineer or other designated person or persons officially authorized to represent the Municipality.
- (c) "Planning Commission" or "Commission" means the Planning and Zoning Commission of the Municipality.
- (d) "Easement" means a grant by a property owner of the use, for a specific purpose or purposes, of a strip or parcel of land to the general public, a corporation or to a certain person or persons.
- (e) "Lot," "sublot" and "inlot" means a piece or parcel of land abutting on a street whose area is sufficient to furnish an appropriate building site for the intended use in conformity with the requirements of the Zoning Code and those of these Regulations and which is shown on the final record plat.
- (f) "Outlot" and "fractional lot" means a piece or parcel of land forming a part of the tract being withheld and not intended as an inlot but shown on the final record plat.
- (g) "Master Plan" means the comprehensive plan or a part thereof as adopted by the Planning Commission, providing recommendations for the location and development of major streets, local streets, public parks, building sites and utilities and indicating other community objectives.
- (h) "Street Plan or Thoroughfare Plan" means the official plan of highways, primary and secondary thoroughfares and parkways, designated as such on the Land Use Plan adopted by the Planning Commission, and including the proposed opening, widening or extension of any streets or roads which have been declared necessary by Council in the public interest.
- (i) "Park and Playground Plan" means the official plan of parks, playgrounds or other open public grounds, designated as such on the Land Use Plan adopted by the Planning Commission.
- (j) "Arterial street" means a public street which is primarily for moving fast or heavy traffic between large or intensively developed districts.
- (k) "Collector street" means a street supplementary to and connecting arterial streets to local streets.
- (l) "Local street" means a street primarily for access to abutting residential properties and to serve local needs.
- (m) "Plat" means a map of a tract or parcel of land.
- (n) "Subdivision" means:
 - (1) The division of any parcel of land shown as a unit or as contiguous units on the last preceding tax roll, into two or more parcels, sites or lots, any one of which is less than five acres, for the purpose, whether immediate or future, of transfer of ownership, provided, however, that the division or partition of land into parcels of more than five acres not involving any new streets or easements of access, and the sale or exchange of parcels between adjoining lot owners, where such sale or exchange does not create additional building sites, shall be exempted; or
 - (2) The improvement of one or more parcels of land for residential, commercial or industrial structures or groups of structures involving the division or allocation of land for the opening, widening or extension of any street or streets, except private streets serving industrial structures; the division or allocation of land as open spaces for common use by owners, occupants or leaseholders or as easements for the extension and maintenance of public sewer, water, storm drainage or other public facilities.
- (o) "Person" means any individual, firm, partnership, association, corporation, company or organization of any kind.
- (p) "Subdivider" mean a person who has applied for approval of or has duly recorded a plat for the subdivision of a tract of land.
- (q) "Mayor" means the Mayor of the Municipality as provided by the Charter.
- (r) "Preliminary plan" means the preliminary drawings indicating the proposed layout of a subdivision to be submitted to the Commission for its approval.
- (s) "Subdivision Regulations" or "these Regulations" means the ordinances codified herein as Title One of this Part Eleven, Planning and Zoning Code.
- (t) "Zoning Code" means those ordinances codified herein as Title Five of Part Eleven, Planning and Zoning Code.
(Ord. 120-91. Passed 8-9-93.)

1101.07 SEPARABILITY.

If any section, paragraph, subdivision, clause, phrase or provision of these Regulations is adjudged invalid or held unconstitutional, the same shall not affect the validity of these Regulations as a whole or any part or provision thereof other than the part so decided to be invalid or unconstitutional.
(Ord. 120-91. Passed 8-9-93.)

Proposed street improvement requirements - see P. & Z. 1101.03

1103.01 IMPROVEMENTS REQUIRED BEFORE DEDICATION.

No road, street, highway, lane, boulevard or other way may be accepted for dedication within the City unless it has been improved in accordance with the specifications hereinafter set forth.

(Ord. 538-55. Passed 4-4-55.)

1103.02 IMPROVEMENT OF PRIVATE WAYS.

No person, firm or corporation shall lay out any private road, street, highway, lane, boulevard or other way for access to more than one dwelling house or to one or more apartment buildings, or sell or offer for sale without deed restriction prohibiting use for residential or apartment purposes, more than one lot or parcel of land fronting on any private road, street, highway, lane or boulevard, until such private road, street, highway, lane or boulevard has been improved with five foot sidewalks, street lights, trees, pavement, water mains and sewers built or installed in conformity with the standard specifications for same on file in the office of the Engineer, as hereinafter set forth.

(Ord. 11-64. Passed 4-21-64.)

1103.03 INSPECTIONS; DEPOSIT FUND.

(a) The Engineer shall review and approve all plans, profiles, cross-sections, specifications and other pertinent work details before any pavement, water, sewer or utility construction has begun, and shall periodically field inspect such construction in progress. The owner, contractor, developer or utility, prior to the commencement of any construction hereunder, shall deposit with the Director of Finance an amount equal to the estimated cost of review and inspections, or a minimum amount of five hundred dollars (\$500.00) to cover review and inspection costs, unless such minimum deposit is reduced by written approval of the Engineer due to the size of the project. Whenever the balance of the deposit is reduced below three hundred dollars (\$300.00), to pay the cost of the Engineer's review and inspections, an additional deposit shall be made by such owner, contractor, developer or utility.

(b) During construction projects reviewed and/or inspected by the Engineer, the Engineer shall submit a monthly report on a form deemed appropriate by the Engineer and the Director of Finance of all the hours of professional services performed by the Engineer for the project, including the hours spent performing inspections. The Director of Finance shall maintain records of professional services rendered by the Engineer, including all invoicing. When the project is completed, the Engineer shall submit a final invoice indicating the complete engineering costs associated with the project to the Director of Finance.

(c) Upon receiving written notification of completion of the project from the owner, contractor, developer or utility and only after obtaining approval from both the Engineer and the Commissioner of Building, Zoning and Housing, the Director of Finance shall refund any unused portions of the deposit.

(d) In the event that the necessary funds are not submitted as herein described for the review and inspection services set forth above, or in cases where the cost of the Engineer's review and inspections has exceeded the deposited amount, the Commissioner of Building, Zoning and Housing shall cause an invoice for services rendered to be served upon the owner of record via regular, first-class mail in the amount reported by the Engineer, plus a charge of \$75.00 for the administrative costs incurred by the Division of Building, Zoning and Housing, the Department of Finance, and various legal costs for each invoice so served. The Commissioner shall also report all unreimbursed engineering and inspection expenses and administrative charges to Council at an appropriate time.

(e) Upon the receipt of the statement of unreimbursed costs incurred and administrative charges, Council shall make written notice to the Fiscal Officer of Cuyahoga County of the City's action under the preceding subsection with a statement of the unreimbursed costs for the Engineer's services and any administrative charges under this section and a proper description of the premises for the purpose of making the same a lien upon the lands and to be collected as other taxes and returned to the City to be deposited in the City's Inspection Deposit Fund and/or the General Fund.

(Ord. 144-2017. Passed 3-13-18.)

1103.04 DEFINITIONS.

For the purpose of this chapter, the following definitions shall apply:

- (a) "City" means the City of Richmond Heights, Ohio.
- (b) "Engineer" means the Engineer of Richmond Heights.
- (c) "Inspector" means an Inspector appointed by the City.
- (d) "Owner" means any person, firm or corporation as outlined in Section 1103.03 .

(Ord. 538-55. Passed 4-4-55.)

1103.05 PAVEMENT SPECIFICATIONS.

(a) Variations. Should the owner elect any other type of base or wearing surface than that set forth herein, or elect to change any other specification contained herein, the owner shall submit to the Engineer a complete detailed specification, prepared by a registered engineer, covering the desired changes. Any such change shall only be used after it has been approved in writing by the Engineer and by resolution of Council. The owner shall deposit with the Clerk a certified check in the amount determined by Council as sufficient to pay all charges by the Engineer for inspection and approval of plans and of construction.

(b) Drainage. The owner shall, before beginning construction work, furnish definite plans and profiles satisfactory to Council and the Engineer showing the definite location of work to be done, a lay-out of the street drainage system and materials to be used and profiles showing gradients of street drainage ditches and structures, together with limits of areas draining into such ditches and structures. All plans, specifications, profiles, determinations of drainage sizes, etc. must be prepared by a registered engineer evidenced by affixing of his official seal thereto.

(Ord. 538-55. Passed 4-4-55.)

(c) Drainage Structures. The owner shall construct, at intervals of not more than 350 feet apart, on the high side of street intersections and at low spots, drainage structures as shown on a typical cross-section or an equal approved by Council. Should the topography of surrounding territory preclude removal of storm water at locations specified above, the owner's plan shall show a storm sewer system which shall be satisfactory to the City and the Engineer. On any ditches having gradients of over two percent, the owner shall provide suitable means, satisfactory to the City and the Engineer, to prevent erosion in such ditches. Ditches shall be allowed only as swales for the collection of rear yard run-off.

(Ord. 11-64. Passed 4-21-64.)

(d) Grading. The owner shall grade the street to the width shown on the cross-section including slopes and subgrade for pavement. All old pavement, shale, rock, slag, cinders, concrete or asphalt driveways included with the limits of construction, trees, stumps, sod, loam, old culvert walls, sluices or any other objectionable materials encountered during the progress of work shall be removed from the roadway area, including returns, to the full depth of subgrade. Grading shall include formation of all slopes, embankments and filling as herein specified and as shown on such cross-section.

- (1) Waste. If the amount excavated is in excess of the amount required in embankments and for authorized filling on adjacent lands, the excess material shall be disposed of by the owner in other places, outside the limits of the work, having first obtained permission from the recipient for such disposal.
- (2) Rolling. All earth filling and embankments in the road bed shall be thoroughly consolidated by rolling in layers not exceeding one foot in depth. Both filling and embankments and the subgrade shall be compacted with an approved roller weighing not less than ten tons, except upon the subgrade, where, in the opinion of the Engineer, such a roller can not be satisfactorily operated, in which case a lighter roller, meeting the approval of the Engineer, may be used, and tamping in such a manner and to such extent that additional rolling and tamping do not add to the density of the subgrade. The roller shall be so operated as to roll the entire roadway, returns and intersections at least three times and additional operations where ordered.
- (3) Subgrade. If any spongy, vegetable or any other objectionable matter is found in the road bed below the subgrade, such material shall be removed and the space filled with stone fragments, slag, sand or gravel and shall be carefully rammed or rolled in order to make such filling compact, solid and true to the surface of the subgrade.
- (4) Template. The subgrade shall be brought to the required crown by use of suitable tools and checked with the template furnished by the owner. The template used in checking the cross-section of the subgrade shall conform to the specified cross-section of the roadway, shall be of a design and construction satisfactory to the Engineer and must be operated by guides to insure uniformity of elevations. The area in intersections shall be graded by staking into sections not more than ten feet square and conforming the subgrade to such governing points.

(Ord. 538-55. Passed 4-4-55.)

- (5) Completion and approval of subgrade. Upon completion and approval of the forming of the subgrade, a four-inch I-22 granular sub-base shall be placed in conformance with Ohio State Highway Material and Specifications requirements.

(Ord. 11-64. Passed 4-21-64.)

(e) Reinforced Concrete Pavement. Upon the prepared subgrade, as herein specified, there shall be laid a reinforced concrete pavement, true to line, grade and camber shown on the cross-section, and the thickness shown on the plans or proposal.

- (1) Cement. The cement used in concrete shall be of approved brand and shall meet the requirements of the Tentative Specifications for Air-Entraining Portland Cement for Concrete Pavements of the American Society for Testing Materials, Designation C 175 (Type 1A). The tensile strength requirements shall govern. When the cement is delivered in packages, the name and brand of the manufacturer of the cement and the type shall be plainly marked thereon. A sack of cement shall contain ninety-four pounds and a barrel of cement shall consist of 376 pounds net.
- (2) Sand. The sand used for concrete shall be natural sand composed of clean, hard, durable, uncoated particles of stone, well graded from coarse to fine, free from lumps of clay and all organic matter. It shall show not over four percent loss on decantation by weight. It shall be uniformly graded from that which will pass a No. 4 sieve to that which will not pass a No. 100 sieve and at least one-third of the material shall be retained upon a No. 30 sieve.
- (3) Coarse aggregate. The coarse aggregate shall consist of crushed limestone or air-cooled blast furnace slag having clean, hard, strong, durable and uncoated particles. It shall be free from an injurious amount of soft, friable, thin, elongated or laminated particles or pieces, alkali, organic or other deleterious matter. The maximum percentages of such deleterious substances shall not exceed one percent which can be removed by decantation nor more than five percent, in total, of coal, clay lumps, soft fragments, alkali, friable or laminated pieces.
 - A. Physical properties. The percentage of wear shall not be over six percent for limestone or fifteen percent for slag; modified abrasion loss shall not be over twenty-four percent for both limestone and slag.
 - B. Soundness. When tested in accordance with the Tentative Method of Test for Soundness of Aggregates by Use of Sodium Sulfate, American Society for Testing Materials Designation C88, the weighted average loss in five cycles shall not exceed twelve percent for both limestone and slag.
 - C. Coarse aggregate shall be mechanically crushed and screened into No. 3 and No. 4 sizes, Ohio State Highway Specifications, and combined by weighing each size into the batch separately with size No. 4 having a ratio of from thirty-five percent to fifty percent of the total. The weight of slag per cubic foot, in compacted aggregate, shall not be less than sixty-five pounds.
- (4) Mix. Concrete shall consist of a mixture of Air-Entraining Portland Cement, coarse aggregate, sand and water, proportioned in accordance with the requirements of this specification. Cement shall be measured by weight and shall be weighed on a balance or scale separate from those used to weigh the other ingredients. Aggregates shall be measured by weight. Batch weights shall be based on surface dried materials and shall be corrected to take into account the weight of surface water contained in the aggregates. Water shall be measured by volume or weight. Total or maximum water shall be considered as that including added water and absorbed (surface) water in aggregates. Concrete shall be Class "D", Ohio State Highway Specifications, and shall be proportioned as follows:

Minimum cement, bags per one cubic yard of concrete	6-1/2
Maximum water, gallons per bag of cement	5-1/2
Minimum compressive strength, pound per square inch at twenty-eight day	3,500
Proportion by volume, cement to total aggregate	1 to 5-1/4

The weights in pounds of dry aggregates per sack (ninety-four pounds) of Air-Entraining Portland Cement shall be as follows:

	Fine Aggregate (lbs.)	Coarse Aggregate (lbs.)	Total (lbs.)
Limestone	180	300	480
Slag	195	245	440

The weights used in this table of aggregates are based on specific gravities of 2.65 for sand and limestone and of 2.30 for slag.

The slump range in inches, shall be not less than two inches nor more than three inches when finished by ordinary methods and shall be not less than one inch nor more than one and one-half inches when finished by use of a vibrating machine. Slump shall be determined in accordance with the Standard Method of Slump Test for Consistency in Portland Cement Concrete, American Society for Testing Materials Designation C 143.

- (5) Concrete test specimens. Two test cylinders, six inches in diameter and twelve inches high shall be made from each 2000 square yards of pavement or fraction thereof, placed each day from concrete which is being incorporated in the work, if so ordered by the Engineer. These cylinders shall be made and tested by a reputable laboratory selected by the Engineer, shall be made in accordance with the Standard Method of Making and Storing Compressing Test Specimens of Concrete in the Field, A.S.T.M. Designation C 31, and then tested in accordance with the Standard Method of Test for Compressive Strength of Molded Concrete Cylinders, A.S.T.M. Designation C 39. The minimum compressive strength of concrete at twenty-eight days shall be 3, 500 pounds per square inch. The owner shall pay all costs for such tests.
- (6) Type of concrete. Only ready-mixed concrete will be used and allowed in the concrete pavement. In this operation the cement, sand and limestone or slag shall be loaded and mixed with water added. All concrete shall be thoroughly mixed in a batch-type mixer of approved type for at least one and one-half minutes. Only enough water shall be used to secure hydration and the batch shall be of uniform and workable consistency and in no case shall the slump be less than two inches nor more than three inches except when vibrating machines are used, in which case the slump shall be not less than one inch nor more than one and one-half inches. The concrete mixture shall be transported to the site of work in portable-type mixers mounted on motor trucks. The mixing device shall be operated so as to revolve at the rate of from twelve to twenty-four revolutions per minute. There shall be no segregation of the mixed concrete when it is delivered on the site of work. Concrete shall be mixed not to exceed one hour before placing, unless otherwise permitted by the Engineer. If ordered by the Engineer, the owner must provide planking over which the concrete mixer trucks can back over the prepared subgrade. Any rutting of the subgrade must be repaired by reshaping the surface, filling any depressions with fine granulated slag or slag screenings and then thoroughly rolling to firm compaction.
- (7) Work in freezing weather. Unless otherwise specified, concrete when deposited shall have a temperature of not less than fifty degrees Fahrenheit, nor more than 115 degrees Fahrenheit. In freezing weather, suitable means shall be provided for maintaining the concrete at a temperature of forty-five degrees Fahrenheit for a period of not less than seven days. Construction must stop if the temperature falls to thirty-six degrees Fahrenheit. No frozen materials shall be used in the concrete nor shall concrete be laid on frozen ground. Any concrete which may be damaged by frost action shall be replaced by the owner at his own expense.
- (8) Forms. The owner must use steel forms of an approved section for both straight and radial work, if concrete integral curb is used or if the owner elects to install sandstone curb after the concrete pavement is constructed. The steel forms must be clean and coated with a suitable oil before the placing of concrete. The forms must be securely braced and held to the exact line and grade of street and when tested with a ten-foot straight-edge shall show no variance of more than one-eighth of an inch from true plane. The forms must be supported on thoroughly compacted material for their entire length. The space to be filled with concrete must be free from all rubbish or debris at the time the concrete is placed. The forms shall not be removed until twenty-four hours after the concrete pavement has been placed.
- (9) Checking subgrade. The owner shall furnish and use a subgrade template, as described in subsection (d)(4) herein, upon the road bed immediately ahead of the concrete work. Any corrections in the surface of the subgrade must be made with hand tools and the filling of depressions must be made with concrete, crushed stone or slag. Earth or other soft material shall not be used in rectifying subgrade depressions after rolling has been completed. This checking of subgrade shall be a part of the owner's obligation and must at all times be kept at least twenty feet ahead of the concrete being laid.
- (10) Spraying. During dry weather the subgrade shall be kept moist by spraying, but on clay soil such operations must be done during the noon period or after the day's work, in order to allow excess water to be absorbed. Whenever spraying is specified it contemplates the use of a device that will throw finely divided jets of water over relatively large areas. The flooding of materials of surfaces by solid streams of water will not be allowed.
- (11) Placing. Upon the prepared subgrade, and only when the subgrade is moist, the mixed concrete shall be deposited rapidly to the required depth and for the entire width of the pavement sections in successive batches and in a continuous operation. The use of intermediate forms or bulkheads between joints will not be permitted except as shown on the plans or otherwise specified. While being deposited the concrete shall be vigorously manipulated with spades or other suitable tools to prevent the formation of voids or honeycombed sections. Special attention shall be given to the compacting of the concrete against forms, curbs, street castings and joints. In the event of an interruption in the delivery of concrete or any mechanical difficulties which result in stopping concrete operations for more than thirty minutes, a transverse construction joint shall be formed as specified. Any concrete which has been delivered in quantities in excess of that needed to form this intermediate transverse joint shall not be used. Before any reinforcing fabric is placed, the concrete shall be struck off so that its surface will conform to a surface parallel with and two inches below the finished surface of the pavement. On this surface the welded wire fabric reinforcement shall be placed and so securely held that it shall remain to a uniform depth of two inches below the finished surface during the placing of the subsequent concrete. Immediately after the placing of the welded wire fabric reinforcement, the top two inches of concrete shall be placed. In no event shall more than forty-five minutes elapse between the placing of the concrete below the reinforcement and that above the reinforcement. Sufficient concrete shall be used so that after being thoroughly consolidated by tamping, ramming, machine or hand finishing, as specified in subsections (e)(12) and (e)(15) herein, the concrete shall have a depth of at least the thickness shown on the plans or proposal.
- (12) Machine finishing. Unless otherwise specified or permitted, and immediately after the concrete is placed, the surface of the concrete shall be brought to the proper grade and crown and thoroughly compacted by a mechanical, self propelled finishing machine of the type approved by the Engineer and meeting the requirements of Section CE-9 of the Construction and Material Specifications of the Ohio Department of Highways, a copy of which is on file in the office of the Engineer. The finishing machine shall be operated over each section of the pavement two or more times and at such intervals as are required to produce the specified results. During the operation of striking off the concrete surface, a uniform grade of concrete approximately three inches in depth shall be maintained ahead of the strike-off for its entire width. The finishing machine shall not be operated beyond the point where the three-inch depth of the surplus concrete can be maintained except where necessary in making joints. After the first operation of the finishing machine, additional concrete shall be added as required, porous spots shall be redressed, and the surface restrocked by the finishing machine. Porous spots shall not be eliminated by tamping or grouting. The elevation and arrangement of the strike-off and spreads shall be such that a finished pavement having the specified crown and thickness will be secured. The concrete adjacent to transverse joints shall be thoroughly compacted by means of an approved internal vibrator. The vibrators used for this purpose shall be of the pneumatic, gas-driven or electric type and shall be operated at a frequency of not less than 3200 pulsations per minute. At the time the concrete is placed and spread, it shall be thoroughly spaded and vibrated at the forms, curbs, bulkheads, center joints and elsewhere unless otherwise specified or permitted. The surface of the concrete shall be tested before the final belting, using an approved standard straight-edge, ten feet in length, and a template cut to the proper section. Irregularities exceeding one-fourth of an inch shall be corrected before the initial set has developed in the concrete. After the compacting of the concrete and when the surface has been brought to the proper grade, cross-section and smoothness, it shall be finished by the use of a canvas or rubber belt, or a thin wooden board not less than eight inches in width and approximately one foot shorter than the width of the pavement slab. The finishing belt may be either hand or mechanically operated. The finishing belt or board shall be worked with a crosswise and longitudinal motion until all surface irregularities are eliminated and all surplus water removed. Care shall be observed in the use of the finishing belt or board not to permit the edges to dig into the surface of the concrete or to work the crown out of the pavement. The finished surface of the concrete shall not vary more than one-fourth of an inch from the specified contour. In rainy weather the concrete shall be protected as soon as it is finished with canvas supported above the surface of the pavement. As soon as the concrete has hardened sufficiently, the edges of the longitudinal, construction and expansion joints shall be carefully finished with an edging tool having a radius of one-fourth of an inch except as otherwise directed.
- (13) Broom finish. After the edging of the joints has been completed and before the concrete has had its initial set, the surface of the pavement shall be given a broom finish. The broom shall be of an approved type, not less than eighteen inches in width, of fiber or flat wire, and not more than five inches in length. The strokes shall be from center to edge of slab, one stroke per width of broom, with adjacent strokes slightly overlapped. The broom shall be operated so as not to tear the concrete and as to produce regular corrugation not over one-eighth of an inch in depth. The surface of the concrete, after completion of the brooming, shall be uniform in appearance and shall be to the specified grade, elevation and contour. It shall be free from surplus water, rough or porous spots, irregularities or depressions and any objectionable features resulting from the operation of the broom.
- (14) Surface gauge. The top surface of concrete pavement must conform with a template having the camber shown on the cross-section plan for improvement. The template must be set with reference to forms or curbs and be supported upon them while in use. The setting of subgrade and surface templates must be checked by staking gutters, the center of the pavement and intermediate points every two feet for concrete depth, using the curb or form for grade and placing stakes to indicate the full thickness of concrete. The finished surface of the concrete pavement shall not vary more than one-fourth of an inch from the specified contour nor more than one-fourth of an inch when tested with a ten-foot straight-edge laid parallel to the center line of pavement. Irregularities exceeding one-fourth of an inch shall be immediately corrected. All depressions or projections discovered shall be corrected before the initial set has developed in the concrete.
- (15) Hand finishing. When specifically permitted by the Engineer, the concrete pavement may be finished and brought to the proper crown and grade by the use of a strike-board or template. Immediately after the concrete is placed, it shall be thoroughly consolidated by ramming, using iron-faced tampers of approximately thirty-six square inches in surface area and weighing not less than forty pounds. The concrete shall then be finished and thoroughly compacted by tamping with a heavy steel-shod wooden template and the entire surface shall be worked over until a uniform consolidation is obtained. After the compacting of the concrete has been completed, the striking template shall be operated forward with a combined longitudinal and transverse motion, without raising either end off the side forms, producing an even surface true to line and grade. The surface shall then be finished as specified above under subsection (e)(13) herein.
- (16) Curing. Within one hour after the concrete has been tamped and gauged for the cross-section and longitudinally, the owner shall cover the surface with heavy burlap or canvas and keep such protective covering in place and well moistened for at least twenty-four hours. The concrete surface shall be kept damp by spraying with water after 4:00 p.m. each day for one week after the concrete has been laid. Forenoon spraying will be ordered for the first three days if it is hot and dry. No traffic shall be permitted upon the surface of the concrete pavement for seven days after the base has been laid. The owner must maintain suitable and adequate barricades and red lights at night during this period. When the average temperature is below fifty degrees Fahrenheit, sprinkling may be discontinued except when the surface shows signs of drying too rapidly. If at any time the temperature is apt to drop below thirty-six degrees Fahrenheit, any completed pavement, laid less than ten hours, shall be protected by placing a covering of canvas, straw or other suitable material over the newly laid concrete in such a manner as to leave an air space between the surface or concrete and protective cover. Disturbance of the enclosed air shall be prevented as much as possible by weighing the canvas or other covering with timbers, sand or earth. (Ord. 538-55. Passed 4-4-55.)
- (17) Transparent film method of curing. After the concrete has been properly placed and finished as specified, and when so permitted by the Engineer or specified, concrete pavements shall be cured by the use of an epoxy chlorinated rubber curing compound meeting the requirements of Tri-Kote Concrete Treatment (TK-18) or equal and shall contain a fugitive die. This material shall also meet both Type 1 and Type 2 of New Interim Federal Specifications, (TT-C-00800) (GSA-FSS). The preliminary curing by the use of wet burlap or canvas may be omitted when this type of curing is followed. The curing material shall be supplied uniformly by means of an approved pressure spray distributor at the rate of one gallon to each 300 square feet of surface, and it shall be so applied that the concrete surface is completely coated and sealed at one application and is not marred. The curing material shall be applied immediately after the concrete surface to be cured has been finished and before any marked hydration has occurred. After the surface has been coated, it shall be protected from all traffic or abrasive action from any source. Complete duplicate spraying outfits shall be on the site of the work where this method of curing is adopted before concreting is started. Before the curing compound is sprayed upon the pavement, the owner must cover all joints with a strip of burlap not less than twelve inches wide and shall then cure the concrete in and adjacent to the joint by the method of water curing as specified in subsection (e)(16) herein. The rest of the pavement may then be cured by the transparent film method. The owner shall erect suitable barricades and take adequate precautions to keep all traffic or paving operations off the concrete until the expiration of seven days from the time of application of the curing compound. (Ord. 66-66. Passed 7-11-66.)
- (18) Depth. The concrete pavement shall have a thickness or depth of at least the thickness shown on the plans or proposal, with its top surface, as specified, to finished grade, but in no case less than seven inches, except industrial roads which shall in no case be less than nine inches.
- (19) Width. The minimum pavement widths for the finished grade of road from curb line to curb line shall be as follows:

	Feet
Residential road	26
Arterial residential road	28
Industrial road	28
Apartment road	26
Arterial apartment road	2 roads 18-feet wide and separated by a 10-foot wide median.

(Ord. 11-64. Passed 4-21-64.)

(f) Steel Reinforcement. The steel reinforcement shall be of the open mesh type welded wire fabric manufactured for concrete reinforcement, with the cross ties firmly welded to the longitudinal wires, and meeting the requirements of the Standard Specifications for Welded Steel Wire Fabric for Concrete Reinforcement, A.S.T.M. Designation A 185. This mesh must weigh at least fifty-eight pounds per hundred square feet. It shall be thoroughly cleaned of mill rust and scale and of coatings that will destroy or reduce the bond. It shall be cut into sections, flattened and have all bends and buckles smoothed out before placing it in the concrete base. Successive sheets of mesh must be overlapped at least one-half the distance between wires. The width and length of reinforcement shall clear the edge of the concrete slab and all contraction and expansion joints by three inches. The contract price per measured square yard for reinforced concrete pavement of the specified thickness shall cover all cost of material and the placing of same in the concrete pavement.

(g) Joints. Expansion, contraction, longitudinal key and construction joints shall be made in accordance with the standard and detail plans and as herein specified. The plane of all joints shall be at right angles to the surface of the pavement.

(1) Longitudinal key joints. These specifications contemplate the construction of the concrete base in two halves by separate concreting operations, and longitudinal joints of the key type shall be installed along the center line of the pavement. This type of joint shall be constructed by the use of a form either of metal or other suitable material to the dimensions shown on plan. Maximum error in alignment is one-half of an inch in fifty feet.

Tie bars of five-eighths of an inch round, deformed bars, of billet steel shall be installed at intervals of five feet along such center line of pavement, except where such location coincides with transverse joints. They shall be held firmly in place by means of a device satisfactory to the Engineer. They shall be four feet along extending two feet on each side of the center line pavement and shall be placed in the center of the concrete slab and at right angles to the center line of the pavement. The tie bars must be straight when placed. Prior to placing concrete for the adjacent half of the pavement, any bent bars shall be straightened by means of a pipe slipped over the free end of the bar. Key joints shall be painted with two coats of bituminous material as per the requirements of the State Highway Specifications, Section M-5.6 F-2 before the second half of the pavement is poured.

(2) Construction joints. At the end of each day's concreting operations or at any time when the placing of the concrete is suspended for forty-five minutes or more, transverse construction joints shall be constructed. These joints shall be formed by means of a well-braced bulkhead, conforming to the camber of the cross-section, constructed so as to permit dowel bars to extend through the joint. The dowel bars shall be three-fourths of an inch round, straight, smooth bars free from buring and flattening at the ends, with one half coated with suitable bituminous material or with an oil such as 600 W. No dowel socket or expansion cap will be required when used in such construction joints. No construction joint shall be placed closer than seven and one-half feet to a parallel joint. The dowels shall be fifteen inches long, extending seven and one-half inches on each side of the joint, and shall be held by proper supports so as to be in the center of the concrete slab and perpendicular to the joint. They shall be spaced fifteen inches on centers with end spaces not less than three inches nor more than ten and one-half inches.

(3) Transverse contraction joints. Impressed contraction joints shall be constructed at forty-foot intervals from the expansion joints with not less than seven nor more than fifteen joints constructed between expansion joints. No such contraction joint shall be placed closer than seven and one-half feet to a construction joint. In such cases the construction joint shall take the place of the contraction joint.

The contraction joint shall be of the impressed type made by forming in the surface of the slab a slot one-fourth of an inch wide at the bottom and three-eighths of an inch wide at the top. The slot shall be two and three-fourths inches in depth. The impressing device shall be removed as soon as the concrete has set sufficiently to preclude the possibility of injury to the concrete.

The groove formed by the impressing device shall be kept free from dirt or foreign matter until the filler is placed as hereinafter directed. Dowel bars shall be used and installed as specified in subsection (g)(2) herein.

(4) Transverse expansion joints. Transverse expansion joints shall be placed at intervals of from 280 feet to 600 feet in length. Dowel bars, as specified in subsection (g)(2) herein, shall be used, but for the expansion joint shall be equipped with a neat fitting metal cap at one end.

The joint shall be constructed of a premolded bituminous material meeting with the requirements of the State Highway Specifications Section M-10.01, having a width of three-fourths of an inch, and shall be constructed in such a manner that the finished joints will be perpendicular to the center line of the street and to the surface of the pavement. The premolded material shall be installed before the concrete is placed and shall be held rigidly in position by any means acceptable to the Engineer that will conform to these requirements. Extreme care shall be observed in placing concrete on both sides of all joint material, and any device used in maintaining such material in position shall be carefully withdrawn before the concrete has attained a hardened condition. Load transfer devices shall be placed as shown on the detailed plans. Unless otherwise specified, plain dowel bars filled with caps shall be placed on fifteen-inch centers and shall be firmly held in alignment by suitable chairs or other acceptable supporting devices.

(5) Sealing joints. All joints shall be sealed with bituminous filler meeting the requirements of the State Highway Specifications Section M-5.6 F-1. Immediately before pouring the bituminous seal material, an application of kerosene shall be made to the area of the concrete that will be in contact with the seal material. The application of kerosene shall be by pressure spray, brush or swab.

(h) Integral Concrete Curb. Integral concrete curbs shall be constructed in accordance with the Standard Specifications for Concrete Curb but modified to meet the dimensions as shown on detail plans.

When the integral curbs are constructed, all transverse joints shall be spaced the same as and shall be continuous with the joints in the pavement. Integral curb shall be dropped four inches at all driveway openings.

Concrete for integral curb shall be placed when the concrete in the pavement is still plastic and the concrete curb and the concrete pavement shall be firmly bonded together. In cases where it is not practicable, on account of the presence of finishing equipment to place integral curb while the pavement concrete is still plastic, bond may be secured by means of steel dowels placed vertically at one-foot centers and in a line at the center of the proposed integral curb. These dowels shall be five-eighths of an inch round, deformed bars of billet steel and shall extend to within one and one-half inches of the subgrade and four inches above the pavement surface when placed.

As soon as the concrete has set sufficiently to avoid being displaced, but before it has become hardened, the concrete surface shall be removed for a depth of one inch below the pavement surface and for a width of the proposed curb plus the width of the fill between the curb surface and the pavement surface.

Immediately before placing the concrete for the curb, the surface upon which the curb is to be placed shall be carefully treated with a one part Portland Cement to two parts sand mortar carefully worked into the surface by brushing.

(i) Curb Drains. After the pavement has been constructed, drains shall be constructed in a trench excavated along the outer edge of pavement to the depth shown on plans or otherwise ordered.

The drain shall be four-inch vitrified sewer pipe, hub and spigot pattern, conforming to all the requirements of the "Specification for Standard Strength Clay Pipe" A.S.T.M. Designation C 13 and shall be laid to a true line and grade. The soil at the bottom of trench shall be shaped to give full support to the lower quarter of the pipe. Care shall be observed to excavate bell holes and in all cases "first class bedding" will be required.

Joints in bell and spigot drain pipe shall be wrapped with a strip of coarse burlap eight inches wide and long enough to encircle the pipe and leave a lap of eight inches, which lap must come on top of the pipe.

After laying the pipe and properly protecting the joints, as above specified, the trench shall be filled with No. 46 broken stone or slag to within four inches of the surface of the ground. This filling must be carefully and thoroughly tamped as placed, special care being taken to work the filling around the pipe.

All drains shall be connected with catchbasins by means of a four-inch vitrified sewer pipe curve and a four-inch vitrified sewer pipe.

(j) Resetting Street Castings. Street castings, such as manhole and catchbasin rings and covers, valve box tops, etc., which are found not to conform with the finished grade of pavement shall, when so ordered by Engineer, be reset to such grade. This work shall include removing the casting, trowelling sufficient mortar, composed of one part Portland Cement and three parts sand, to bring the casting, when reset to proper line and grade, or to remove the present mortar or top course of brick and then bring the casting to proper line and grade with sufficient mortar as above specified, or to add additional course or courses of brick and then bring the casting to a proper line and grade as aforesaid.

(k) Special Requirements.

(1) Patents. All compensation for any patented invention, article or arrangement that is used upon, or in anyway connected with the construction, erection or maintenance of the work, or any part thereof, embraced in this contract and these specifications, shall be included in the prices stipulated in this contract for this work and the owner must protect and save harmless the City, in which this work is being done, against any and all demands of such claims.

(2) Water. Should the owner require water from existing mains for the construction of any part of the work specified herein, he shall make application to the proper authority to obtain such water and shall conform to all regulations governing quantity, method of measurement and payment for water used.

(3) Street openings. The City, in which the work included in this contract is located, shall have the right to remove any pavement, to lay or relay any gas, water, sewer lines, conduits or connections or to build or rebuild any sewers, catchbasins, water mains or conduits during the progress of the work, before its completion or during the period of paving guarantee after its completion.

(4) Flushing. The owner shall, at his own expense, sweep or flush the pavement as directed by the Engineer, for the purpose of inspection after completion of and again before release from guarantee.

(5) Barricades. The owner must maintain barricades at all cuts in the pavement or grade and at all materials, rollers or other equipment standing in the roadway. Red lights must be maintained upon barricades and at all other danger points between the hours of sunset and sunrise. The owner will be held responsible for all neglect that leads to damage or injury to person or property by reason of the construction herein contemplated.

(6) Inspection. An inspector for this construction will be appointed by the City. Before commencing work on this construction, the owner must give two days notice to the Engineer. The Inspector must be on the job at all times while construction is being carried on and check every operation.

(Ord. 538-55. Passed 4-4-55.)

1103.06 WATER SPECIFICATIONS.

(a) Cast-Iron Water Pipe and Fittings.

(1) All water pipe and fittings shall be of a pattern and character approved and adopted by the Departments of Water and Heat of the City of Cleveland and must be of a superior quality of iron, tough and even grain, free from cracks, sand holes or defects of any nature.

(2) All pit-cast pipes shall be manufactured in all respects in accordance with, and shall meet the requirements of, the latest "Standard Specifications for Cast-Iron Pipe and Special Fittings", as adopted by the American Water Works Association, which specifications unless hereinafter modified are made a part of these specifications.

(3) All pit-cast pipes and fittings shall be of the size and classes noted on the respective contract drawings.

(4) In lieu of pit-cast pipe above, the owner will be permitted to furnish centrifugal cast pipe. The metal shall have a modulus of rupture of not less than 18,000 pounds and a tensile strength of not less than 40,000 pounds and shall be for Class 200 or 250 pipe. Pipe may be furnished in twelve, sixteen or eighteen-foot lengths.

(5) All cast-iron pipe and fittings, unless otherwise shown or required, shall have mechanical type joints similar to the U. S. Joint, American Cast Iron Pipe Company, Doublex Simplex Joint, Clow National "C. N. " Joints, or equal. Lugged pipe shall be used where "tied distances" are shown on the alignment drawings. High Strength Cast Iron Tee Head Bolts, Hex Nuts and Glands shall be furnished and used in these joints. The cast-iron bolts shall have a minimum tensile strength of 50,000 pounds per square inch.

(6) Gaskets shall be of rubber with a duck tip or other equally effective protection against uneven distortion of the gasket.

(7) All specials, valves, hydrants and other accessories shall have bell and spigot caulked lead joints.

(8) Where fittings are shown which are not covered by the above specifications they, in such particulars as are lacking thereon, shall conform to the dimensions and otherwise meet the specifications for the respective type which are carried in the latest revisions to the latest edition of the "Handbook of Cast Iron Pipe Research Association" or which are otherwise shown on the contract drawings.

(9) In case centrifugal pipe is used, the owner shall provide for the proper type bells and spigots to secure standard joints of the same depth and thickness as provided by the standard pit-cast pipe.

(10) Wherever changes in line and grades of the main as shown on the drawings are not standard fitting deflections, the owner will be permitted to submit details using combinations of standard fittings and small deflections (not to exceed a maximum of one-half inch joint opening) in the adjoining lengths of pipe. Pipe to be installed with air-cocks or drains shall be cast with bosses thereon, and drilled and tapped for two-inch connections, and plugged in the shop with cast iron threaded plugs, before shipment.

(11) Closure pieces shall be accurately measured and cut in the field and installed using solid type long pattern sleeves as shown or as required.

(12) Tests, inspection, reports and analyses of tests of samples for all materials shall be furnished by The City of Cleveland Department of Water and Heat. The owner shall furnish the Engineer with a list of inspected and numbered pipe and fittings.

(b) Special Castings.

(1) Weight. No special castings shall be accepted, the weight of which shall be less than Class "D", standard weight, as adopted by the Cleveland Water Department, by more than ten percent.

(2) Payments. All castings, upon which a price is not fixed by this contract, shall be paid for at the contract price per pound. The contract price for special castings shall be additional to the measurement of pipe line, which measurement shall be continuous and inclusive of all special castings on such line.

(c) Coating: Applications. All water pipe and special castings, after thorough cleaning, shall be coated inside and outside with a suitable asphaltum or other approved impervious preparation applied at a temperature of 300 degrees Fahrenheit. The pipe shall be handled in such a manner that a minimum amount of damage to the coating will result. All cast iron pipe or fittings, the coating of which has been damaged in shipping or handling, shall have the damaged portion well cleaned and painted with three field coats of Inertel 50 or Bitumestec 50 or equivalent before being placed in the work. The owner shall thoroughly coat all exposed parts of nuts and bolts, as above specified, after the pipe has been laid and before backfilling has been placed. All field coating shall be furnished by the owner.

(d) Alignment and Grade.

(1) General. All water pipe shall be laid and maintained to the required lines and grade, with fittings, valves and hydrants at the required locations, with the joints centered and spigots home and with all valve and hydrant stems plumb. All necessary lines and grades shall be given to the owner by the Engineer within a reasonable time after notice by the owner of the time and place he intends to work. All

- stakes, once set by the Engineer, must be protected by the owner and if it is necessary to reset and regrade any stakes which have been disturbed, the owner must pay to the Engineer all such costs.
- (2) Subsurface explorations. The owner, at his own expense, shall determine the location of existing subsurface structures within the limits of the water trench by such explorations and excavations as may be necessary after he has made an examination of all available records.
 - (3) Grade bars and depth of cover. The owner shall furnish all material and labor to set grade bars every fifty feet. Every pipe shall be laid at each end to line and grade indicated by a line drawn between the grade bars. Unless otherwise indicated on the plan, all water pipe shall be laid to a depth of six feet measured from the established street grade or the surface of the permanent improvement to the top of the pipe.
- (e) Excavation and Preparation of Trench.
- (1) Width. The minimum width of unsheeted trench shall be eighteen inches and, for water pipe ten inches or larger, at least one foot greater than the diameter of the pipe. The maximum clear width of trench shall be not more than two feet greater than the diameter of the pipe except by consent of the Engineer.
 - (2) Pipe foundation. Unless otherwise specified, the trench shall have a flat bottom conforming to grade so that the barrel of pipe shall have full bearing throughout its length. If subgrade is soft and cannot support the pipe, the objectionable subgrade material shall be removed and replaced with suitable fine earth or bank sand thoroughly compacted.
 - (3) Pipe clearance in rock. Ledge rock, boulders, large stones and shale shall be removed to a clearance of at least six inches below all parts of the pipe, valves or fittings and to a clear width of six inches on each side of all pipe and appurtenances. Excavations below subgrade shall be refilled to subgrade with fine earth or bank sand thoroughly compacted.
 - (4) Blasting procedure. Blasting for excavation will be permitted only after securing the written approval from the Police Chief of the City who shall fix the time during which blasting may be done and what protective measures must be used to insure safety to adjacent property. The owner shall be responsible for any damage resulting from blasting. The owner's method of procedure relative to blasting shall conform to State laws and to local City ordinances.
 - (5) Bell holes required. Bell holes of ample dimensions shall be dug in earth trenches at each joint to permit the jointing to be made properly. Adequate clearance for properly jointing pipe in rock or shale trenches shall be provided at bell holes.
 - (6) Braced and sheeted trenches. Wherever necessary to prevent caving, excavations in sand, gravel, sandy soil or other unstable material shall be adequately sheeted and braced. Where sheeting and bracing are used, the trench width shall be increased accordingly. Trench sheeting shall remain in place until the pipe has been laid, tested for defects and repaired, if necessary, and the earth around it compacted to a depth of one foot over the top of the pipe. Sheetting left in the trench by order of the Engineer will be paid for at price bid per 1,000 (M) feet.
 - (7) Drainage. The owner shall, when ordered by the Inspector, construct tight bulkheads across the trench and provide pumps suitable for the removal of any water which may be encountered or which may accumulate in the trenches. In no case shall trench water be permitted to rise upon or flow through the water main.
 - (8) Existing water courses. The owner shall, at his own expense, provide for the protection and securing of a continuous flow in any open water courses, ditches or pipes encountered during the progress of the work and shall repair any damage that may be done by reason of them.
 - (9) Road surfaces, curbing, driveways and sidewalks. The owner shall remove all pavements, road surfaces, curbing, driveways and sidewalks within the line of excavation. The owner shall make all cuts by channeling machine, hand-operated pneumatic tools or by such other methods as will furnish a clean cut in the pavement and base without undue shattering. All concrete curbing, driveways or sidewalks within the lines of excavation shall be broken at the owner's expense and in accordance with the rules and regulations of the City in which the work is done. The use of a "pear" or weight dropped on the pavement for breaking will not be allowed except by written permission of the Engineer.
 - (10) Excavating by machine or by hand. The use of excavating machinery will be permitted except in places where operation of the same will cause damage to trees, buildings or existing structures above or below ground; in which case hand methods shall be employed. All work must be done in open trench. No tunneling, boring or forcing will be allowed without special permit. The excavated material must be so piled as to not endanger the work, obstruct driveways and sidewalks nor interfere with proper drainage.
 - (11) Barricades, guards and safety provisions. In order to protect persons and property, adequate barricades, construction signs, torches, red lanterns and guards as required, shall be placed and maintained during progress of construction work and until it is safe for traffic to use the trenched highway. The work shall be conducted so that the least interference with traffic will result. Suitable bridges shall be provided over open trenches at street intersections and driveways.
 - (12) Operating valves. The operation of all gate valves on existing mains for making connections, tests or for any other cause shall be done by the City in which the work is located or by the Water Department of the City of Cleveland. The owner shall give sufficient notice to the City or to the Division of Water so that the work may be done with the minimum of inconvenience to the public and delay to the owner. All consumers affected by such operation shall be notified by the owner at least one hour before the operation and advised of the probable time when the service will be restored.
- (f) Laying Cast Iron Pipe.
- (1) General. The owner shall provide proper implements, tools and facilities for the safe and convenient prosecution of the work. All pipe and fittings shall be carefully lowered into the trench by means of derricks, ropes or other suitable equipment so as to prevent damage to the pipe, fittings or the coating. Before lowering and while suspended the pipe shall be inspected for defects and rung with a light hammer to detect cracks. Any defective, damaged or unsound pipe and fittings shall be rejected and replaced with a sound pipe or fitting in a satisfactory manner by the owner at his own expense. All dirt or foreign matter shall be removed from pipe before being lowered into the trench and shall be kept clean during and after laying.
 - (2) Laying the pipe. The spigot shall be centered in the bell, the pipe shoved into position and brought into true alignment, secured there with earth tamped around the pipe except at the bell holes. Bells shall face the direction of laying, however, on appreciable grades, they shall face uphill. Where necessary to deflect pipe from a straight line, either vertical or horizontal, the degree of deflection shall be approved by the Engineer. Whenever it is necessary to cut the pipe, this shall be done in a neat and workmanlike manner without damage to the pipe, leaving the end smooth and at right angles to the axis of the pipe. No payment will be made for the portion of the pipe cut off and not used in the line. At times when the pipe laying is not in progress, the open ends shall be closed by approved means and no trench water shall be permitted to enter the pipe.
- (g) Lead Joints.
- (1) General. Before laying the pipes, all lumps, blisters and excess coating material shall be removed from both bell and spigot ends, wire brushed and wiped clean and dry. Sterilized yarning material, as above specified handled to avoid contamination, shall be applied dry and firmly pressed into the joint. The yarning material shall be long enough to reach entirely around the pipe with ends overlapping not less than two inches. The ends shall meet on opposite sides of the pipe and not on the top or bottom. If necessary, successive strands of yarning material shall be driven home separately, thoroughly packed and hammered into the joint.
 - (2) Depth of jointing material. For lead joints, a space of not less than two and one-half inches in depth shall be left in the bell in a pipe of twenty inches or less. Lead joints in sleeves shall be cast solid to the full length of the sleeve.
 - (3) Specifications for lead. Lead shall be used for caulking purposes and shall contain not less than 99.73 percent pure lead. Impurities shall not exceed the following limits:
- | Impurities | Percent |
|-----------------------------------|---------|
| Arsenic, antimony, tin (together) | 0.015 |
| Copper | 0.08 |
| Zinc | 0.002 |
| Iron | 0.002 |
| Bismuth | 0.25 |
- The producer's name or identifying mark shall be cast or stamped on each piece of lead.
- (4) Proper heat for lead. Lead shall be heated in a melting pot kept near the joint to be poured, brought to a proper temperature such that when stirred it will show a rapid change of color and that when poured into the joint space it will insure a perfect joint. Before pouring the lead, all scum shall be removed.
 - (5) Position of joint runner. The joint runner shall fit snugly against the face of the bell and the outside of the pipe and shall be dammed with clay at the pouring gate to provide for filling the joint even with the top of the bell.
 - (6) Caulking lead joints. Each joint shall be made with one pour, filling the joint space. After cooling to the temperature of the pipe, lead joints shall be caulked by means of pneumatic or hand tools, by competent workmen, until thoroughly compacted, making watertight joints without overstraining the bells.
- (h) Line Valves.
- (1) Type and fittings. Line valves shall be set at points indicated on plans. All valves shall be of a pattern approved and adopted by the Water Department of the City of Cleveland, and fitted with boxes having square caps marked "Water Valve" and set to the established grade of the street. No. 2 bases will be required for all valve boxes ranging from four inches to eight inches. No. 3 bases must be used on boxes ranging from ten to sixteen inches.
 - (2) Setting valves, valve boxes, fittings and blow-offs. Gate valves and pipe fittings shall be set by the owner and jointed to new pipe as heretofore specified. Cast iron valve boxes shall be firmly supported and maintained centered and plumb over the wrench nut of the gate valve with the box cover flush with the surface of the finished pavement or such other level as directed. All geared valves and such other valves as may be designated on contract drawings shall be set in masonry valve vaults with the wrench nuts readily accessible for operation through the manhole opening. Vaults shall be constructed in a manner that will permit minor valve repairs and afford protection to the pipe from impact where it passes through the pit walls.
- (i) Hydrants.
- (1) General. The four-inch or six-inch hydrants shall be City of Cleveland standard and shall conform to the City's specifications on file in Room 605 Auditorium Garage Building, Cleveland 14, Ohio.
 - (2) Location. When placed behind the curb, the center of the hydrant barrel shall be at least three feet from the gutter face of the curb. When set in lawn space, between the curb and sidewalk, or between the sidewalk and property line, there shall be a clearance of at least six inches between the sidewalk and any portion of the hydrant or nozzle cap.
 - (3) Position of nozzles. All hydrants shall stand plumb with the nozzle pointing toward the curb and at an angle of forty five degrees therefrom. Where the hydrant branch piping is parallel with, or not at right angles to the curb, the owner shall release the swivel head bolts and adjust the hydrant nozzles to face the curb at a proper angle. Hydrants shall be set to conform with the established grade with the top of the frost casing at least four inches above grade.
 - (4) Connection to main. Each hydrant shall be connected to the main pipe with a cast iron branch controlled by an independent gate valve of the same size as the hydrant. Drainage shall be provided at the base of each hydrant by filling around the elbow with coarse gravel or crushed stone to at least six inches above the waste opening. Wherever hydrants are set in rock, clay or other impervious soil, the trench shall be widened and deepened on each side of the hydrant base and this space filled compactly with coarse gravel or broken stone mixed with coarse sand of sufficient quantity to absorb all water to be drained from the hydrant when the valve is closed. Each hydrant shall be set on a stone slab or similar foundation and the base of the hydrant well braced against unexcavated earth at the end of the trench with stone slabs or concrete backing, or it shall be tied to the pipe with suitable rods or clamps as directed by the Engineer. Hydrants shall be thoroughly cleaned of dirt or foreign matter before setting. All hydrants must conform with specifications of the Cleveland Water Department and are subject to its detailed test and inspection.
- (j) Plugging Dead Ends. Standard plugs shall be inserted into the bell ends of pipes, tees, crosses and caps jointed to spigot ends of pipes and fittings in the manner specified above and secured with clamps where directed by the Engineer.
- (k) Connections to Existing Mains. Wherever new mains are to be interconnected with existing mains, the owner shall remove plugs, caps from outlet fittings or ends of existing distribution mains, and where necessary cut out a portion of the existing main for such purpose. The owner shall install all pipe required to complete the connection to the new main and to restore service in the existing main. Where the connection is to be by means of a pressure tap, branch sleeve and valve, the owner shall do all necessary excavation and backfilling and arrange with and pay the Water Department of the City of Cleveland for all necessary labor and material to make such a connection. The price bid by the owner shall include all such costs.
- (l) Anchorage of Bends, Tees and Plugs. Reaction or thrust backing shall be applied on all pipe lines eight inches or larger in diameter at all tees, plugs, caps and at bends deflecting twenty-two and one-half degrees or more, and movement prevented by attaching suitable steel rods or clamps as directed by the Engineer. Reaction or thrust backing shall be of Class "A" concrete and be placed between solid ground and the fitting to be anchored. The area of bearing on pipe and on ground in each instance shall be that required by the Engineer. All such costs shall be included in the price bid for a special or fitting.
- (m) Hydrostatic Tests.
- (1) General. After the pipe has been laid complete with all fittings and specials properly caulked and before backfilling is placed around the joints, it shall be subjected to a hydrostatic test pressure of at least seventy-five pounds per square inch above normal operating pressure but not less than 100 pounds per square inch. This test shall continue for at least thirty minutes and be maintained until a thorough examination of all joints has been made.
 - (2) Procedure. Each valved or otherwise isolated section of pipe shall be slowly filled with water and the specified test pressure, measured at the point of lowest elevation, shall be applied by means of a pump connected to the pipe in such a manner satisfactory to the Engineer. The tests shall be made by an inspector from the Cleveland Water Department which shall supply the gauges and meters. The pump, pipe connection and all other apparatus shall be furnished by the owner. All air shall be expelled from the pipe before applying test pressure.
 - (3) Examination Under Pressure. During the test all pipe, fittings, specials and joints shall be carefully examined. Any joints showing leakage shall be recaulked until tight. Cracked or defective pipe, fittings or

specials discovered in consequence of this test shall be removed and replaced with sound material and the test repeated until satisfactory to both the inspector from the Cleveland Water Department and the Engineer.

- (4) Draining main after testing. After a section of pipe has been tested satisfactorily, the owner shall drain the same. In cold weather, immediately after testing a section of pipe, the owner shall open all valves, air-cocks, by-passes and drain bonnets of all valves and take all other precautions necessary to prevent freezing.
- (n) Preliminary Flushing Procedure. Before being placed in service, all dirt and foreign matter shall be removed from the new water main or extensions to existing mains by a thorough flushing through the hydrants or by other approved means. Each valved section of newly laid pipe shall be flushed independently. This shall be done after the pressure test and may be done before or after the trench has been backfilled.
- (o) Chlorination.
- (1) General. Following preliminary flushing, the newly laid water pipe shall be chlorinated. The processes of chlorinating, the method of procedure, the chlorinating agent and the rate of application shall be determined by the Cleveland Water Department. The owner shall pay to the Division of Water of the City of Cleveland for chlorination or sampling of the water the rate of five cents (5¢) per linear foot for the first thousand feet, and three cents (3¢) per foot thereafter of the water main proper, with a minimum charge of twenty-five dollars (\$25.00). The owner shall furnish the necessary labor for excavating and backfilling which will be required for the installation of taps for injecting the chlorine solution operating pumps and flushing mains.
- (2) Final flushing and testing. Following chlorination, all treated water shall be thoroughly flushed from the newly laid pipe at its extremities until the replacement water throughout its length shall, upon test both chemically and bacteriologically, be proven equal to the water quality served the public from the existing water supply system. All costs for chlorination and flushing of mains shall be at the expense of the owner.
- (p) Curb Connections.
- (1) General. In such locations as may be indicated by the Engineer, the owner shall excavate for house connection between the water main and a point three three feet beyond the curb line. The connection shall be standard extra heavy lead pipe or copper pipe conforming in all respects to the specifications and requirements of the Cleveland Water Department and of the size indicated on the plan or bid blank.
- (2) Tapping. The owner shall arrange with the Water Department of the City of Cleveland to make the pressure tap, install the corporation cock and furnish any other material which the Department elects to supply. The connection shall be blocked up with stone, brick or concrete to insure a firm support for such coupling and resist all settlements in backfilling. The blocking shall be held firmly in place by fine dry earth firmly tamped around it. Where excavation is in sand, clay or light earth, the water curb connection must be laid in a trench separate from any sewer lines. In rock or shale the water curb connection may be laid in the same trench which contains the sewer pipe providing the trench is of sufficient width and an eight-inch shelf is provided on which to lay the connection. At the curb end of the connection, a shut-off valve shall be connected, mounted on a blocking of stone, brick or concrete to resist settlement and with the curb box mounted and maintained plumb over the gate valve nut, with the top of box at the finished grade of lawn space.
- (q) Backfilling.
- (1) Exempt of backfill. The backfill includes all backfilling, ramming, puddling or rolling as required, the regrading of adjacent disturbed areas, the replacing of drains and other surface and subsurface structures, the placing and maintaining of temporary sidewalks and driveways, furnishing of suitable backfill material if necessary, reseeding lawns and replacing of trees and shrubbery damaged by the owner and all appurtenant work incidental thereto.
- (2) Backfill material. Backfill may be made from excavated material from the trench if the same is satisfactory to the Engineer. Only fine dry earth or bank sand shall be used under, around and to a depth of at least two feet above any pipe, fitting, special or curb connection. No slag, ashes, rubbish, broken concrete, stones larger than three inches in greatest dimension or other deleterious or objectionable material may be used in backfill. No backfill shall be done during freezing weather except by permission of the Engineer and no backfill shall be made when the material already in the trench is frozen nor shall frozen material be used in backfill.
- (3) Sand backfill. Where ordered by the Engineer the excavated material shall be removed from the site of work and bank sand, containing not more than ten percent by weight of loam or clay and free from all deleterious or objectionable material used. If required, this sand backfill shall be thoroughly compacted by mechanical tamping in layers of not more than six inches or by flooding as may be directed by Engineer. Sand for backfill, if ordered, will be paid for at the contract price set forth in the proposal.
- (r) Additional Concrete. Whenever, in the opinion of the Engineer, additional concrete is required over and above that required by the plans or specified elsewhere herein, he may order the owner to install or place additional concrete and when so ordered the same shall be placed and paid for under the item "additional concrete".
- (s) Clearing Street and Repairs.
- (1) General. Upon completion of backfilling, or at such other time as ordered by the Engineer, the owner shall remove from the site of the work all surplus material, tools, equipment and construction sheds. All surplus excavated material shall be removed and deposited upon lands abutting the improvement if such fill is requested by the property owner. If no filling of abutting property is desired, the owner shall dispose of such surplus wherever he can arrange for rights to fill. The surface of the street shall be left smooth.
- (2) Repairs. The owner, at his own expense, shall repair any and all damage he has caused to the street or adjoining property and shall save free and harmless the principal in this contract from all suits for damages to persons or property arising from or caused by this construction.
- (t) Restoration of Sidewalks, Curbing and Paving. All pavements, road surfaces, sidewalks, driveways or curbs which the owner is required to replace shall, at the expiration of the period of maintenance, be replaced in the same manner as the original installation or as specified by the Engineer and the cost of such replacement shall be borne by the owner, unless otherwise specified.
- (u) Final Repairs. Four months after the final measurements have been taken, the Engineer shall make an examination of all surfaces where water mains have been constructed and shall note any depressions due to breakage, settlements, washouts or other causes that may be attributed to the construction of water mains. Upon written order from the Engineer, the owner shall again go over the work and repair breaks, refill depressions, remove any surplus that has previously been left upon the trenches or make other repairs or replacements which are necessary to place all the work in a first class condition.
- (v) Special Requirements.
- (1) Protection of underground and surface structures. Unless otherwise specified or shown on the plans, the owner shall, at his own expense, support, protect, maintain and, if necessary, repair or replace to the complete satisfaction of the owners thereof, all underground and surface utility structures, drains, sewers, culverts, water pipes and other such obstructions encountered in the progress of the work which cross the sewer trench or which run parallel with and outside the limits of the sewer trench as described in Section 1103.07 (c). Such responsibility on the part of the owner shall be in effect whether or not such obstructions are shown on the plans. Unless otherwise specified, all underground utility structures, drains, sewers, culverts, water pipes and other such obstructions which run substantially parallel with the sewer trench and which are encountered within the limits of the sewer trench and which are not shown on the plans shall be replaced or repaired by the owner at the expense of the owners thereof at prices to be agreed upon in writing by the Engineer and owner.
- (2) Care of work. The work must be prosecuted and material placed in such a manner as to offer the least possible obstruction to traffic. All pipe lines shall be securely plugged at the close of each day's work to avoid any earth, rock or refuse entering the pipe.
- (3) Conformance with regulations. The owner shall conform to all rules and regulations pertaining to laying and care of water pipes as adopted by Council and the Water and Heat Departments of the City of Cleveland. The work will be subject at all times to inspection by such Water Department and the inspector.
- (4) Time. The owner shall proceed with the construction of the water main as soon as practicable and shall proceed with the time specified in this contract.
- (5) Use of Main. The City authorities shall have the right to connect, or to grant permits to connect houses with the water main, as soon as such main shall have been laid and given the initial test. The granting of such permits for the use of mains shall not be construed as an acceptance of the work nor shall the owner be allowed special compensation for connections made with such mains or for other use of the mains by the City or authorized individuals before final acceptance of the work.
- (Ord. 538-55. Passed 4-4-55)

1103.07 SEWER SPECIFICATIONS.

- (a) Materials.
- (1) General. Unless otherwise specified, all materials used in the work shall conform to the requirements of the current specifications of the American Society for Testing Materials, and shall be tested in accordance with the current specifications or current methods of testing of the American Society for Testing Materials, where specifications and methods of testing have been adopted, revised or proposed for such materials. It is understood that wherever the word "current" is used relative to the specifications and methods of testing of the American Society for Testing Materials, it refers to the standard or tentative standard of that Society bearing the latest date.
- No material shall be used until it has been inspected and approved on the site of the work. When required by the Engineer, any or all materials entering into the construction of any work under this contract shall be tested by a reputable testing laboratory at the owner's expense. Such inspection shall not relieve the material or workmanship which may have passed the Engineer and shall be at all times liable to rejection when discovered, until the final completion of the work.
- (2) Portland Cement. Portland Cement furnished or used shall conform to the following requirements:
- A. Portland Cement for general construction purposes shall conform to the requirements specified for Type I of the "Standard Specifications for Portland Cement", A.S.T.M. Designation: C 150.
- B. Portland Cement - High Early Strength shall conform to the requirements specified for Type III of the "Standard Specifications for Portland Cement", A.S.T.M. Designation: C 150.
- C. Portland Cement - Air-Entraining shall conform to the requirements specified for Type IA of the "Tentative Specifications for Air-Entraining Portland Cement", A.S.T.M. Designation: C 175.
- Portland Cement shall be delivered to the site of the work in unbroken cloth or paper sacks, with the name and brand of the manufacturer and the type under these specifications, marked thereon. Cement shall be stored in such a manner as to fully protect it from moisture and exposure to the weather. Cement which has become caked, partially set or otherwise deteriorated or contaminated shall not be used in the work.
- (3) Mortar sand. Mortar sand shall be composed of clean, hard, durable particles of stone, uncoated with clay or organic matter and free from lumps of these materials. It shall conform to the following specific requirements for grading:

Sieve Passing No.	Percent
4	100
16 not less than	95
100 not over	10
and Clay and Silt, by weight not over	3

- (4) Concrete sand. Concrete sand shall be composed of clean, hard, durable particles of stone uncoated with clay or organic matter and free from lumps of such materials. It shall conform to the following requirements for grading:

Sieve Passing No.	Percent
3/8	100
4	95 to 100
16	45 to 95
50	10 to 30
100	2 to 10
and Clay and Silt, by weight not over	3

- (5) Coarse aggregate. Coarse aggregate for concrete work may be broken stone, blast furnace slag or gravel. It shall be clean, free from loam, clay, silt, organic matter or other injurious impurities. Stone shall be hard limestone, trap rock or granite. Slag shall be air-cooled blast furnace slag, clean, sound, uniform in density and free from thin, elongated or glassy pieces and must weigh not less than 1800 pounds per cubic yard. Gravel shall be clean silica, screen-washed, sound and hard and acceptable to the Engineer. Any material used shall be so placed when delivered that it will not become contaminated by earth, grass or other foreign substance. For use in concrete pipe or in work less than eight inches thick, all aggregate shall pass a one-inch screen and be retained on a one-quarter inch screen. For larger work the aggregate shall range from a size which will pass a two-inch screen and be retained on a one-quarter inch screen. The voids in loosely placed aggregate shall not exceed forty-five percent.
- (6) Cinders. Cinders shall be only those from a power plant and not those from stoves or household furnaces. They shall be black and free from clinkers, unburned coal, glue dust and rubbish.
- (7) Water. All water required in the execution of this contract must be provided by the owner at his own expense. Water containing sewage, clay, oil or filth must not be used.
- (8) Brick. Brick used in the construction of catchbasins, manholes, inverts, junctions and sewers shall be smooth, sound, tough, with straight sharp edges, flat surfaces and shall be uniform in quality, cross-section and dimensions. If made from surface clay or fire clay, they shall be burned hard entirely through the brick. If No. 2 shale brick is used, it shall be thoroughly vitrified, and shall show not to exceed eight

percent absorption when kiln dried then immersed in water for twenty-four hours. All brick shall be thoroughly sprinkled with water before laying. All sewer brick shall have a width of four inches, a length of eight and one-half inches and a depth of two and one-half inches, three inches or three and one-half inches. Lugged brick, cored brick or brick having recesses or openings extending through or partly through the body of the brick may not be used.

- (9) Vitrified sewer pipe. All vitrified sewer pipe, slants and specials shall be of the bell and spigot pattern, salt-glazed, circular, vitrified earthenware made from shale or fire clay, free from fire-checks, blisters or other imperfections. Unless otherwise specified, all pipe, slants and specials shall conform to the requirements specified in the "Standard Specifications for Standard Strength Clay Sewer Pipe", A.S.T.M. Designation: C-13. Where specified or called for in the plans, all pipes, slants and specials shall conform to the requirements specified in the "Standard Specifications for Extra-Strength Clay Sewer Pipe", A.S.T.M. Designation: C-200.
- (10) Lumber. Lumber for sheeting, sheet piling, forms, bracing or bridging must be of good quality and of a size and strength suitable for properly protecting the work and workman from danger, and for securing the best possible conditions for construction. Any material deemed unsuitable or unsafe by the Engineer must be removed at once from the work. Lumber for grillage under the foundation of the sewer must be of good quality, hardwood lumber, sound, square-edged and free from warp, loose knots or other defects.
- (11) Reinforcing steel. Reinforcing steel shall conform to all the requirements of "Standard Specifications for Billet Steel Bars for Concrete Reinforcement", A.S.T.M. Designation: A-15, or to the requirements of "Standard Specifications for Rail Steel Bars for Concrete Reinforcement", A.S.T.M. Designation: A-16. All reinforcing bars shall be deformed, in conformance with the requirements of "Tentative Specifications for Minimum Requirements for the Deformation of Deformed Steel Bars for Concrete Reinforcement", A.S.T.M. Designation: A 305. Welded steel wire fabric shall conform to all the requirements of "Standard Specifications for Welded Steel Wire Fabric for Concrete Reinforcement", A.S.T.M. Designation: A-185. All reinforcing steel shall be of new stock and free from scale, rust, oil, paint or coatings of any kind.
- (12) Manhole and catchbasin castings. Castings for manhole caps and covers and for catchbasin tops shall conform in design to the standard plans on file in the office of the Engineer. All castings shall be true to pattern and free from cracks, gas holes, flaws and excessive shrinkage. Surfaces shall be free from burnt-on sand and shall be reasonably smooth. Runners, fins, risers and other risers and other cast-on pieces shall be removed. All castings shall be tough and of even grain. All parts of castings shall be thoroughly coated with a suitable asphaltum or other impervious preparation as may be acceptable to the Engineer. All castings shall be commercially machineable and, in case of manholes and catchbasins, the frame and cover shall, if necessary, be so machined that it will be impossible to rock the cover after it has been sealed in the proper position in the frame.
- (13) Cast iron manhole steps. Manhole steps furnished under these specifications shall conform in design to the standard plans on file in the office of the Engineer. They shall be true to pattern and surfaces shall be free from cracks, flaws, fins and burnt-on sand, and shall be reasonably smooth. They shall be coated with a suitable asphaltum or other impervious preparation acceptable to the Engineer. Cast iron for manhole steps shall conform to all the requirements of Class 30 of "Standard Specifications for Gray Iron Castings", A.S.T.M. Designation: A 48.
- (14) Cast iron pipe. Cast iron pipe and fittings shall be bell and spigot pattern, flanged or standardized mechanical joint, as specified or called for on the plans. All cast iron pipe and fittings shall conform to the "Standard Specifications of the American Water Works Association" or to the requirements of "Federal Specifications for Cast Iron Pipe", No. WW-P-421. All cast iron pipe shall be of the class, weight or type as called for on the plans or otherwise specified.
- (15) Joining material for bell and spigot cast iron pipe. Yarn for lead joints shall be of the best quality jute or oakum, closely twisted in one piece for each joint. Lead for pipe joints shall be pure, soft and malleable, free from dross and capable of being caulked into the joints without cracking.
- (16) Concrete pipe.
A. Nonreinforced concrete pipe. Concrete pipe furnished or used under this classification shall conform to the requirements of the "Standard Specifications for Concrete Sewer Pipe", A.S.T.M. Designation: C 14.
B. Reinforced concrete sewer pipe. Concrete pipe furnished or used under this classification shall conform to the requirements of the "Standard Specifications for Reinforced Concrete Sewer Pipe", A.S.T.M. Designation: C 75.
C. Reinforced concrete culvert pipe. Concrete pipe furnished or used under this classification shall conform to the requirements of the "Standard Specifications for Reinforced Concrete Culvert Pipe", A.S.T.M. Designation: C 76.
(Ord. 538-55. Passed 4-4-55.)
- (17) Joining material for concrete pipe. All storm sewer and sanitary sewer pipe shall have premium joints.
- (b) Alignment, Grade and Design.
(1) General. All sewer pipe shall be laid and maintained to the required lines and grade, with "Y" branches, "T" Branches, slants and openings left for manholes at the required locations and with all joints centered and all spigots home. All necessary lines and grades shall be given to the owner by the Engineer within a reasonable time after notice by the owner of the time and place he intends to work.
(2) Grade bars. The owner shall furnish all material and labor to set grade bars every fifty feet. Every pipe shall be laid at each end to line and grade indicated by a line drawn between the grade bars, by using a rod or pole of fixed length as a gauge between the working line and the pipe in the trench. A plumb bob shall be used to check the line of pipe. If the grades are flat and the Engineer so orders, the owner shall place intermediate bars between those set at the stakes of the Engineer, to avoid sag in the working line.
(3) Design. The storm frequency design criteria for storm sewers shall be as follows:

Frequency (years)

Commercial, industrial, apartments

10

Residential

5

(Ord. 11-64. Passed 4-21-64.)

(c) Excavation and Preparation of Trench.

- (1) Width. The minimum width of unsheeted trench shall be at least one foot wider than the outside diameter of pipe at the spring line. The maximum clear width of trench shall be not more than two feet greater than the outside diameter of the pipe at the spring line except by consent of the Engineer.
- (2) Depth. The depth of the excavation for the sewer or other structure herein specified shall be such that they can be built to proper grade, due allowance being made for the bottom masonry work and timber foundations. Where grillage is used, the bottom excavation shall be level transversely and have the same longitudinal inclination as that of the sewer. In order to place the longitudinal stringers or sleepers, only enough excavation shall be done to place the same in position, the earth between such sleepers in no case is to be excavated deeper than the bottom of grillage planks. When no grillage is used, the bottom excavation shall be such as to exactly fit the wooden invert, the outside contour of the masonry, or be left horizontal transversely. Should the owner excavate beyond the limits herein specified, the space so caused alongside or below the masonry of the sewer shall be completely filled with masonry, if such is used in the sewer construction, or with class "C" concrete and the cost of such masonry or concrete shall be included in the contract unit price for the sewer complete in place.
- (3) Blasting procedure. Blasting for excavation will be permitted only after securing the written approval from the Chief of Police who shall fix the time during which blasting may be done and what protective measures must be used to insure safety of adjacent property. The owner shall be responsible for any damage resulting from blasting. The owner's method of procedure relative to blasting shall conform to State Laws and to local City ordinances.
- (4) Braced and sheeted trenches. Wherever necessary to prevent caving, excavations in sand, gravel, sandy soil or other unstable material shall be adequately sheeted and braced. Where sheeting and bracing is used, the trench width shall be increased accordingly. Trench sheeting shall remain in place until the pipe has been laid and the earth around it compacted to a depth of one foot over the top of pipe. Sheetting left in the trench by order of the Engineer will be paid for at price bid per 1000 (M) feet.
- (5) Drainage. The owner shall, when ordered by the inspector, construct tight bulkheads across the trench and provide pumps suitable for the removal of any water which may be encountered or which may accumulate in the trenches. In no case shall the water be permitted to rise upon or flow through the sewer until permitted by the inspector.
- (6) Existing watercourses. The owner shall, at his own expense, provide for the protection and securing of a continuous flow in open watercourses, ditches or pipes encountered during the progress of the work and shall repair any damage that may be done by reason of them.
- (7) Road surfaces, curbing, driveways and sidewalks. The owner shall remove all pavements, road surfaces, curbing, driveways and sidewalks within the lines of excavation. The owner shall make all cuts by a channeling machine, hand operated pneumatic tools or by such other methods as will furnish a clean cut in the pavement and base without undue shattering. All concrete curbing, driveways or sidewalks within the lines of excavation shall be broken up and removed by the owner. All such work as above designated shall be done at the owner's expense and in accordance with the rules and regulations of the City in which the work is done. The use of a "pear" or weight dropped on the pavement for breaking will not be allowed except by written permission of the Engineer.
- (8) Excavation by machine or by hand. The use of excavation machinery will be permitted except in places where the operation of the same will cause damage to trees, buildings or existing structures above or below ground; in which case hand methods shall be employed. All work must be done in open trench, no tunneling, boring or forcing will be allowed without a special written permit from the Engineer. The excavated material must be so piled as not to endanger the work, obstruct driveways and sidewalks nor interfere with proper drainage.

(d) Laying Vitrified Pipe.

- (1) General. All vitrified pipe for use in sanitary or storm sewers shall conform to the specifications for vitrified pipe in subsection (a)(9) herein. Unless otherwise specified or called for on the plans, all vitrified pipe shall be "standard strength", A.S.T.M. Designation C-13. All vitrified pipe shall be carefully laid to the lines and grades given by the Engineer, without offsets or unevenness at the joints. Grades shall be taken from established batter boards and a "top line", and the owner shall always maintain the "top line" for a distance covering three grade stakes, and shall also maintain three adjacent batter boards in place. A straight planed measuring pole, about one and one-half inches square, with an iron bracket on the bottom, shall be furnished by the owner at each place where pipe laying is in progress, together with strong "top line" cord and plumb bob. All pipe shall be laid with bells uphill.
- (2) Joints. Unless otherwise specified or called for on the plans, all vitrified pipe shall be joined with precast bituminous joints, made in the following manner:
Each pipe shall be fitted with a die-cast tapered collar of an approved bituminous compound on the spigot end of the pipe, and a die-cast lining or ring of similar compound in the socket of the pipe. The collar and ring shall be of such size as to assure a tight fit when the spigot is shoved firmly into the socket portion of the pipe. All pipe must be dry and clean when the lining and collar are cast, and the compound must be poured at a temperature high enough to procure proper adhesion to the pipe.
All collars and rings shall be inspected before the pipes are laid, and no pipe shall be used if either collar or ring shows any void or unfilled space. No jute or other caulking material will be permitted. When laying the pipe, the lining and collar shall be painted with an adhesive or solvent which shall cause their surfaces to become plastic or tacky and, when the pipes are shoved firmly together, solvent, congeal and become one homogenous body. The collar and ring shall be free from any foreign material which will prevent proper adhesion of the bituminous surfaces forming the joint. The die-cast bituminous joint shall be that manufactured under the name of "Slipseal", or an approved equal.
- (3) Construction; single pipe sewers. In earth excavation, unless otherwise specified or called for on the plans, the bottom of the trench shall be excavated to fit the outside periphery of the lower quarter of the pipe, with holes being dug for the bells, and the pipe having full bearing on the bottom of the trench throughout its length. Should the trench not be excavated neatly, all space below the pipe must be filled with Class "C" concrete, extending up around the sides of the pipe so that the lower third of the pipe is supported its entire length, and the cost of such concrete bedding shall be included in the contract unit-price for the sewer complete in place.
In no case shall material be placed under the bell to secure proper grade.
In case of eighteen-inch pipe or larger, a suitable device shall be used to maintain the pipe in a horizontal position while entering the spigot into the bell of the preceding pipe.
In rock, shale or any unyielding material, or where called for on the plans or when ordered by the Engineer, the bottom of the trench shall be excavated at least three inches below the bottom of the pipe, and the pipe shall then be bedded in Class "C" concrete extending up around the sides of the pipe so that the lower third of the pipe is supported its entire length. Where ordered by the Engineer or where specified or called for on the plans, the entire pipe shall be encased in Class "C" concrete. Such concrete encasement shall have minimum dimensions of three inches below and above the outside of the pipe, and extending laterally to the walls of the trench as excavated. Payment for such concrete bedding or encasement shall be made at the contract unit price for concrete bedding. Care shall be taken to prevent the precast bituminous joints from coming into contact with the fresh concrete until after they have been joined.
The trench space each side of the pipe and for a distance of twelve inches above the top thereof shall be backfilled with suitable fine earth, slag or bank sand and thoroughly compacted before any backfilling by machinery is allowed.
The draining of the trench shall be so effected that no water can run through newly laid pipe, nor accumulate in the trench until after the concrete has thoroughly set. All concrete work shall be set up hard before any backfilling work is started.
In no case shall more than 200 feet of trench be opened in advance of pipe laying operations, unless ordered by the Engineer.
All sewers shall be tightly closed at open ends at the completion of each day's work.

(e) Laying Concrete Pipe.

- (1) General. All concrete pipe for use in sewers shall conform to the specifications for concrete pipe in subsection (a)(16) herein and shall be of the class or type called for on the plans, or otherwise specified.
- (2) Joints. Unless otherwise specified or called for on the plans, all concrete pipe shall be joined with an approved plastic bituminous jointing compound as specified in subsection (a)(17) herein.
- (3) Construction; single pipe sewers. Except as otherwise specified herein, concrete pipe shall be laid in accordance with specifications for vitrified pipe in so far as the same may be applicable. Satisfactory means shall be used to hold the pipe in line while the pipes are being joined, and due precaution shall be taken to insure that the spigot end of the pipe being laid is pushed home into the groove of the preceding pipe. A derrick with an approved hoisting lift and hook shall be used to lower concrete pipe into the trench. In earth excavation, unless otherwise specified or called for on the plans, the bottom of the trench shall be nearly formed to fit the contour of the pipe. Should the trench not be excavated neatly, all space below the pipe must be filled with Class "C" concrete, extending up around the sides of the pipe so that the lower third of the pipe is supported its entire length, and the cost of such concrete bedding shall be included in the contract unit price for the sewer complete in place.
- In rock, shale or any unyielding material, or where called for on the plans, or where ordered by the Engineer, the bottom of the trench shall be excavated at least three inches below the bottom of the pipe, and the pipe shall then be bedded in Class "C" concrete extending up around the sides of the pipe so that the lower third of the pipe is supported its entire length. Payment for such concrete bedding shall be made at the contract unit price for concrete bedding set forth in the proposal.
- Tongue and groove pipe shall be laid with the groove end upstream. The groove end of the first pipe shall be thoroughly cleaned and a layer of bituminous jointing compound applied to the lower half of the groove. The tongue end of the second pipe shall then be inserted into the groove end of the first pipe and shoved home. Sufficient jointing compound shall be used to cause the compound to be squeezed out on the interior and exterior surfaces of the pipes when the pipes are shoved together, and all of the angular space of the joint must be completely filled. The joints shall be troweled smooth, on both interior and exterior surfaces of the pipe, throughout their circumference. In applying the bituminous jointing compound, no admixtures of any kind, such as cement or sand, shall be added to or mixed with the compound. The Compound shall be prepared or mixed strictly in accordance with the manufacturer's directions. Proper precautions shall be taken to prevent water, mud, fresh concrete, or other foreign substances from coming into contact with the jointing compound during jointing operations. All pipe joints must be dry when the compound is applied.
- Previous to being lowered into the trench, each pipe shall be carefully inspected and those not meeting the specified requirements shall be either destroyed or immediately removed from the site of the work. Pipes having minor defects not sufficiently serious to cause rejection shall be so laid as to bring such defects in the top half of the sewer. No pipe shall be laid within ten feet of the machine excavating the trench nor within forty feet of any place where blasting is being done. The trench space each side of the pipe, and for a distance of twelve inches above the top thereof, shall be backfilled with suitable fine earth, slag or bank sand and thoroughly compacted before any backfilling by machinery is allowed.
- (f) Dual Sewer Construction. In the construction of dual sewers, the sanitary and storm sewers shall be constructed as above specified for vitrified pipe and concrete pipe, or as shown on the plans. The sanitary sewer trench outside the pipe shall be completely filled with Class "C" concrete, with a minimum of three inches of concrete below the bottom of the pipe, and a minimum of six inches of concrete on each side of the pipe, and extending up to the bottom of the storm sewer. The storm sewer pipe shall be laid on a cradle of Class "C" concrete, with a minimum of three inches below the bottom of the pipe, and extending up around the sides of the pipe to the limits shown on the plans. If the sanitary or storm sewer trench is excavated below or beyond the limits above specified, the entire space so excavated shall be filled with Class "C" concrete.
- In dual sewer construction, the sanitary and storm sewers shall be laid with a horizontal distance of eight inches between the outsides of the pipe barrels.
- The sewer trench shall be backfilled with fine earth, slag or bank sand of thoroughly compacted, to a height of twelve inches above the top of the storm sewer, before any backfilling by machinery is allowed.
- In placing concrete cradles or fill, the methods used shall be such as to prevent mud, earth, clay or other foreign materials from becoming mixed with the concrete.
- In no case shall "dry-mix" concrete be placed in the trench without permission of the Engineer.
- The cost of concrete bedding or encasement for dual sewers shall be included in the contract unit price paid for sewers, and no additional compensation will be allowed for this item.
- (g) Backfilling.
- (1) Extent of Backfill. The backfilling includes all backfilling, ramming, puddling or rolling as required, the regrading of adjacent disturbed areas, the replacing of drains and other surface and subsurface structures, the placing and maintaining of temporary sidewalks and driveways, furnishing of suitable backfill material if necessary, reseeding lawns and replacing trees and shrubbery damaged by the owner and all appurtenant work incidental thereto.
- (2) Backfill material. Only fine earth, slag or bank sand shall be used for backfilling along the sides of the sewer, and to a height of twelve inches over the top of the sewer. Should, in the opinion of the Engineer, the material excavated from the trench be unsuitable for backfilling immediately over the sewer, the owner shall, at his own expense, secure suitable material from other sources. The backfilling material shall be brought up evenly on both sides of the sewer and thoroughly compacted by tamping or ramming before any dumping from cars or buckets is permitted.
- All backfilling must be laid in horizontal layers, of a depth required by the Engineer, and thoroughly compacted by methods satisfactory to the Engineer. No pieces of rock larger than one cubic foot in volume shall be used in backfill, and all rock particles used in backfill shall be entirely surrounded by fine material. If ordered by the Engineer, the entire trench shall be puddled by flooding with water from a fire hose or conducted along the sewer trench by means of a ditch excavated for that purpose, or by addition of water during backfilling.
- No backfilling shall be made during freezing weather except by permission of the Engineer, and no fill shall be made when the material already in the trench is frozen, nor shall frozen material be used in backfilling.
- (3) Sand backfill. Where ordered by the Engineer, the excavated material shall be removed from the site of the work and bank sand containing not more than ten percent by weight of loam or clay and free from all deleterious or objectionable material shall be used for backfilling. If required, this sand backfill shall be compacted by tamping in layers of not more than six inches, or by flooding, as may be directed by the Engineer. Sand for backfill, when ordered by the Engineer, will be paid for at the contract price set forth in the proposal.
- (h) Disposal of Surplus Excavated Material. All surplus excavated material shall be removed and deposited upon lands abutting the improvement if such fill is requested by the property owners. If no filling of abutting property is desired, the owner shall dispose of such surplus wherever he can arrange for rights to fill.
- (i) Drainage of Trenches. The sewer trench must in all cases be kept substantially free from storm, surface and subsoil water or sewage, so that all masonry and joints may have ample time to set and harden. No joints shall be made under water. If necessary to accomplish this, in the opinion of the Engineer, the owner shall fill the bottom of the trench with a three-inch layer of crushed slag or stone screenings and install a tile underdrain, embedded on all sides in not less than three inches of crushed slag or stone screenings. All joints of this drain shall be covered with strips of burlap or other cloth of proper porosity. This work shall be paid for at the price bid for the same only when installed upon the written order of the Engineer.
- (j) Manholes. All manholes shall be built in accordance with construction plans on file at the office of the Engineer. They shall be built of two and one-half by four by eight and one-half inches shale brick laid in Portland Cement mortar with bricks arranged radially as headers, forming a wall nine inches thick. In deep manholes the wall shall be thirteen inches thick below a point twelve feet from the surface. All brick composing manholes shall be laid in full mortar beds with no mortar joint appearing on the inner surface of the manhole exceeding three-eighths of an inch thick.
- The top of the walls of manholes shall be properly leveled off with mortar so as to form a flat surface upon which the cast iron manhole ring is to rest and the manhole shall be carried to proper height above the sewer.
- The entire outer surface of manholes shall be plastered with a smooth coating of Portland Cement mortar at least one-half inch in thickness.
- The owner shall furnish and set in mortar, upon the top of each manhole, a cast iron manhole ring and cover, ventilated or solid as required, circular in form and cast with the word "sewer" in raised letters. Unless otherwise specified, or shown on the plans, the design, dimensions and weight of the manhole ring and cover shall conform with the standard plans on file in the office of the Engineer.
- Cast iron steps, as specified in subsection (a)(13) herein, shall be built into each manhole and shall be continued downward along the interior side of the manhole to a level three feet above the bottom of the sewer. Such steps shall be built into the brick work in a manner satisfactory to the Engineer and shall be spaced not more than fifteen inches apart.
- (k) Drop Manholes. Where shown on the plans, drop manholes of the design shown shall be constructed. Drops shall be encased in concrete to the full dimensions shown and the cost of such concrete encasement shall be included in the contract unit price for the manhole, complete in place.
- (l) Catchbasins. Catchbasins shall be built in accordance with the plans for the same on file in the office of the Engineer. Brick used in constructing them shall be of shale as specified for manholes.
- Unless otherwise specified, or shown on the plans, the design, dimensions and weight of catchbasin covers shall conform with the standard plans on file in the office of the Engineer.
- The catchbasins and connections shall be cleaned out before final acceptance of the work. The owner shall test the catchbasin with water when so directed by the Engineer.
- (m) Inlets. Inlets shall be built in accordance with the standard plan on file in the office of the Engineer. The cover shall be the same as used on catchbasins, unless otherwise specified.
- (n) Bulkheads. Bulkheads shall be constructed by the owner at such locations along the sewers as shown on construction plans. They shall be built of brick masonry, nine inches thick, unless otherwise specified.
- (o) Mortar. Cement mortar used in brick masonry, stone masonry, foundations and all underground construction, unless otherwise specified, shall be composed of one part Portland Cement and three parts sand. Mortar for grouting shall be composed of one part Portland Cement and two parts sand.
- The ingredients must be proportioned by measurement and not by estimation. They must be thoroughly mixed dry in a suitable tight box, after which the proper quantity of clean water shall be gradually added and then hoed or worked until a uniform mixture is secured. No greater quantity of mortar is to be prepared than is required for immediate use, and any that has set shall not be retempered or used in any way.
- No lime or other admixtures of any description shall be used unless so specified or permitted by the Engineer.
- (p) Concrete.
- (1) General. Concrete shall consist of a mixture of Portland Cement, aggregates and water, proportioned in accordance with the requirements of this specification.
- (2) Proportions. In proportioning concrete materials, one bag (sack) of cement shall be considered as being one cubic foot volume and ninety-four pounds weight.
- Total maximum water shall be considered as that including added water and absorbed (surface) water in the aggregates.
- Cement shall be measured by weight and shall be weighed on a balance or scale separate from those used to weigh the other ingredients.
- Aggregates shall be measured by weight. Batch weights shall be based on surface-dried materials and shall be corrected to take into account the weight of surface water contained in the aggregates.
- Water shall be measured by volume or weight. Concrete shall be of two classes, Class "A" and Class "C", and shall be proportioned as follows:

	Class "A"	Class "C"
Maximum water, gallons per bag of cement	6-3/4	8
Minimum cement, bags per one cubic yard of concrete	5-3/4	4-1/2
Minimum compressive strength, pounds per square inch at twenty-eight days	3,000	2,000
Proportion by volume, cement to total aggregate	1 to 5-1/4	1 to 7

The proportions of fine and coarse aggregates shall be such as to produce the maximum density consistent with proper workability.

Class "A" concrete shall be used for all retaining walls, culverts, special structures, manhole and catchbasin base slabs, and where otherwise specified or shown on the plans.

Class "C" concrete shall be used for all sewer pipe bedding or cradles, concrete filling and where otherwise specified or shown on the plans.

- (3) Mixing. All concrete shall be thoroughly mixed in a batch mixer of approved type for at least one and one-half minutes. By permission of the Engineer, a hand mixing may be done in case of emergency or when small quantities of concrete are required and where the use of a mixer is impracticable. The use of "ready-mixed" concrete will be permitted, providing it conforms with all the specifications for concrete contained herein. Concrete so mixed must be mixed, handled and transported so as to cause no segregation of materials when deposited, and shall be mixed not to exceed one hour before placing, unless otherwise permitted by the Engineer. The use of concrete, cement or mortar which has been partially hardened or set will not be permitted.
- (4) Forms. Forms of substantial material shall be erected and removed by the owner, and the cost of the same shall be included in the contract price per cubic yard of concrete. All material used for facing against the concrete shall be surfaced and shall be securely held to line by timbers or studding so that no bulging or spreading results from the pouring of the concrete. When required by the Engineer, forms for surfaces of concrete to be exposed in the finished work shall be surfaced with Masonite, Prestwood or plywood. Forms shall be tight so as to prevent water and cement from escaping. Bolts or tie rods shall be used to tie the forms together and shall be so made and placed that they will leave no metal within one inch of the surface of concrete. Wiring of forms will be allowed only by permission of the Engineer.
- (5) Placing concrete. Earth foundation beds shall have all loose material removed and shall be inspected by the Engineer before any concrete is placed. When water collects in the excavation, it shall be removed before any concrete is placed therein. When there is a continuous flow of water into the excavation, a power-driven pumping unit, of approved design, shall be provided.
- Concrete shall be handled from the mixer to place as rapidly as practicable and in a manner that will prevent segregation. Concrete shall not be dropped from a greater height than six feet. The concrete shall be thoroughly spaded against the forms or vibrated with mechanical vibrators, as the Engineer may direct. All reinforcement shall be carefully and accurately set and rigidly held in place. Construction joints shall be scrubbed with wire brushes or cleaned with a steam jet, and well grouted before adding new concrete.
- (6) Work in freezing weather. Unless otherwise specified, concrete when deposited shall have a temperature of not less than fifty degrees Fahrenheit, nor more than 115 degrees Fahrenheit. In freezing weather, suitable means shall be provided for maintaining the concrete at a temperature of forty-five degrees Fahrenheit for a period of not less than seven days. Methods of heating shall be subject to approval of the Engineer.

Any concrete which may be damaged by frost action shall be replaced by the owner at his own expense.

(7) Protection and curing. All concrete shall be protected and shall be properly cured by sprinkling or by covering with wet burlap or cotton mats, sisalkraft paper or 100 percent sulphate Kraft paper cemented with a suitable bituminous material for a period of not less than seven days, unless otherwise permitted by the Engineer.

(q) Branch Connections and Risers. Vitrified Y-branches, of the size specified, shall be installed at the locations shown on the plans, or as directed by the Engineer. Where concrete pipe is used for the main sewer construction, vitrified pipe "Y" saddle slants shall be used. All Y- branches and slants shall be firmly supported by a fill of Class "C" concrete, extending from the bottom of the sewer trench to a point three inches above the hub of the spur of the Y-branch or slant. Openings at the outer end shall be closed with vitrified stoppers and sealed with an approved bituminous compound. When required, on account of the depth of the sewer, branches shall be built up vertically with vitrified riser pipes to a point at least nine feet below the top of the curb or ground surface, using bends wherever necessary. The riser pipes shall be recessed into the bank of the sewer trench and encased with Class "C" concrete for their full height. The cost of concrete encasement for risers, and the cost of concrete supports for Y-branches and slants, shall be included in the contract unit price for those items. All material and workmanship shall conform to the specifications for vitrified pipe sewers.

(r) Service Curb Connections. Sewer service curb connections shall be constructed as shown on the plans, and shall be laid in accordance with the specifications for vitrified pipe sewers from the main sewer to a point three feet back of the curb line.

Wherever test "T"s are installed, the same shall be encased in Class "C" concrete to a point opposite the top of the upper sewer.

All curb connections shall be closed at the outer end with vitrified stoppers, sealed with approved bituminous jointing compound.

Where concrete encasement of curb connections is specified, or called for on the plans, the cost of such concrete encasement shall be included in the contract unit price for curb connections.

(s) Leakage Tests for Sewers. All sewers constructed under these specifications shall be tested for leakage, in the following manner:

(1) Single sewer construction. As soon as a section of sewer has been constructed between manholes, and the manholes have been completed, a suitable plug manufactured for that purpose shall be inserted in the sewer at the lower manhole, and the section filled with water to a head of at least one foot above the top of the sewer pipe in the upper manhole. The drop in head at the upper manhole shall not exceed one-half inch for eight-inch sewers to two inches for thirty-inch sewers for the last thirty minutes of a period of one hour.

(2) Dual sewer construction. In testing dual sewers for leakage, the storm sewer in the lower manhole of each section shall be plugged as above specified, and the sanitary sewer shall be plugged on the downstream side of the lower manhole and on the upstream side of the upper manhole. The storm sewer shall then be filled with water to a head of at least one foot above the top of the storm sewer pipe in the upper manhole. The increase in head at the lower sanitary manhole shall not exceed one-half inch in the thirty minute period following filling of the storm sewer.

In making the above tests, all equipment and labor shall be furnished by the owner and the cost thereof shall be included in the price per linear foot of sewer.

Any section of sewer showing leakage in excess of the amounts above specified shall be repaired or replaced at the expense of the owner.

(t) Service Markings. Wherever a stone or concrete sidewalk or curb exists, service connections shall be indicated by witness signs cut into the sidewalk or curb. Each riser, slant or "Y" connection left plugged at the sewer shall be evidenced by a triangle and each sewer curb connection plugged at the curb shall be evidenced by an arrow.

(u) Leakage Test for Water Mains. Wherever sewer work is adjacent to a water main, tests of the main shall be made at the owner's expense, upon completion of the sewer work along each section of water main between line valves to determine if any leakage has been caused by the owner's operations. In case leakage is shown by the test, the owner shall have the same repaired at his own expense.

(v) Additional Concrete. Whenever, in the opinion of the Engineer, additional concrete is required over and above that required by the plans or specified elsewhere herein, he may order the owner to install or place additional concrete and when so ordered, the same shall be placed and paid for under the item "additional concrete".

(w) Clearing Street, Cleaning Up and Repairs. The owner shall remove surplus excavated material or construction materials as the work progresses, and shall keep the street in a safe and convenient condition for travel. Before final acceptance of the work, the owner shall, by means of a drag or by flushing, as directed by the Engineer, clear the sewers of any mortar, bituminous compound, dirt or other refuse that may have been left or accumulated in the sewers. All manholes, inlets and other structures shall be cleared of all forms, scaffolding, centering, surplus mortar, rubbish or dirt, and left in a clean and proper condition.

All surplus material, tools, equipment and temporary buildings shall be removed from the site of the work, and all street surfaces, gutters, walks, lawns, rights of way or other property shall be restored to as good a condition as originally found.

The owner, at his own expense, shall repair any and all damage he has caused to the street or adjoining property and shall save free and harmless the principal in this contract from all suits for damages to persons or property arising from or caused by this construction.

(x) Restoration of Sidewalks, Curbing and Paving. All pavements, road surfaces, sidewalks, driveways or curbs which the owner is required to replace shall, at the expiration of the period of maintenance, be replaced in the same manner as the original installation or as specified by the Engineer and the cost of such replacement shall be borne by the owner, unless otherwise specified.

(y) Final Repairs. Four months after the final measurements have been taken, the Engineer shall make an examination of all surfaces where sewers have been constructed, and shall note any depressions due to breakage, settlements, washouts or other causes that may be attributed to the construction of sewers. Upon written order from the Engineer, the owner shall again go over the work and repair breaks, refill depressions, remove any surplus that has previously been left upon the trenches, or make other repairs or replacements which are necessary to place all the work in first class condition.

(z) Special Requirements.

(1) Protection of underground and surface structures. Unless otherwise specified or shown on the plans, the owner shall, at his own expense, support, protect, maintain and, if necessary, repair or replace to the complete satisfaction of the owners thereof, all underground and surface utility structures, drains, sewers, culverts, water pipes and other such obstructions encountered in the progress of the work which cross the sewer trench or which run parallel with and outside the limits of the sewer trench as defined in subsection (c) herein. Such responsibility on the part of the owner shall be in effect whether or not such obstructions are shown on the plans.

Unless otherwise specified, all underground utility structures, drains, sewers, culverts, water pipes and other such obstructions, which run substantially parallel with the sewer trench and which are encountered within the limits of the sewer trench as defined in subsection (c) herein and which are not shown on the plans, shall be replaced or repaired by the owner at the expense of the owners thereof at prices to be agreed upon in writing by the Engineer and owner.

(2) Time. The owner shall begin the construction of sewers as soon as practicable, unless otherwise ordered by the Engineer, and in all cases he shall begin the construction within five days after receipt of written notice from the Engineer to do so. He shall prosecute the work diligently, effecting completion of the work within the time limits of this contract.

(Ord. 538-55. Passed 4-4-55.)

1103.08 SIDEWALKS, TREES AND STREET LIGHTS.

(a) Sidewalks.

(1) Width and depth. All sidewalks shall be a minimum width of five feet, a minimum depth of four inches and of such line and grade as determined by the Engineer.

(2) Materials. All sidewalks shall be constructed of Class "A" concrete and shall be proportioned as follows:

Maximum water, gallons per bag of cement	6-3/4
Minimum cement, bags per one cubic yard of concrete	5-3/4
Minimum compressive strength, pounds per square inch at twenty-eight days	3,000
Proportion by volume, cement to total aggregate	1 to 5-1/4

(b) Trees. All trees shall be of the type and nature specified in the Master Tree Plant Ordinance of the City and the density shall be at least one tree per lot excepting corner lots which shall have at least three trees per lot consisting of one tree on the front of such lot and two trees on the side of such lot.

(c) Street Lights. The owner shall install or cause to be installed at his own expenses street lights at all intersections and at long pavement curves as determined by the City Engineer.

(Ord. 11-64. Passed 4-21-64.)

1103.09 UNDERGROUND FACILITIES IN NEW SUBDIVISIONS; BOND.

(a) In new subdivisions, all gas distribution mains, telephone cables, electric power and street lighting wires, conduits or cables to serve lots in such subdivision shall be constructed underground and upon easements provided for utilities, ten feet in width adjacent to and parallel with the road right of way of such subdivision, except gas pipe lines may be installed within the road right of way and gas mains, wires, conduits or cables owned by or on the customer's property, need not be located upon easements.

(b) All gas distribution mains, underground telephone cables, electric power and street lighting wires, conduits or cables shall be constructed in accordance with the standards required in Administrative Order No. 72 of The Public Utilities Commission of Ohio or of other regulations of the Public Utilities Commission of Ohio.

(c) Bases must be provided for the ultimate installation of street lighting standards on minor streets by the electric utility serving the subdivision at a minimum mounting height for luminaires of fifteen feet and spaced no farther apart than every fourth lot.

Bases must be provided for the ultimate installation of street lighting standards on major or collector streets by the electric utility serving the subdivision to provide lighting intensity meeting the minimum recommendations of American Standard Practice for Roadway Lighting.

Until used, the wiring in such bases shall be safely insulated and/or de-energized.

(d) The preliminary plat with respect to any new subdivision shall be submitted to all utility companies serving the subdivision, as well as the Building Inspector, for their recommendation.

(e) Utility easements at least ten feet in width for gas distribution mains, telephone, electric power and street lighting distribution lines and facilities shall be provided on all front lot lines adjacent to and parallel with the road right of way.

(f) Prior to granting final approval, the subdivider shall have installed or shall have furnished adequate bond for the ultimate installation in accordance with the requirements of this chapter as follows:

(1) Underground telephone cables.

(2) Underground distribution cables for power and street lighting from a common distribution system, and the equipment and housing necessary in the operation of the distribution system.

(3) Adequate provision for street light lamps and standards in accordance with a design approved by Council.

(g) Council may authorize a variance from these regulations when undue hardship may result from strict compliance. In granting any variance, Council shall prescribe only conditions that are deemed necessary or desirable for the public interest and finds that there are special circumstances or conditions affecting the property such that the strict application of the provisions of this chapter would deprive the applicant of the reasonable use of his land.

(Ord. 15-67. Passed 2-28-67.)

1103.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree. Each day any violation hereof continues shall constitute a separate offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1105

Administration, Enforcement and Penalty

1105.01 Approving agency.

1105.02 Jurisdiction.

1105.03 Compliance required.

1105.04 Recording of plat.

1105.05 Sale of land in subdivision.

1105.06 Conveyance of interests in land.

1105.07 Nonacceptance for public use and maintenance.

1105.08 Acceptance rests with Council.

1105.09 Miscellaneous plat approval; no plat required.

1105.10 Vacation of plats or parts thereof.

1105.11 Vacation of street, alley or open areas.

1105.12 Land subject to inundation.

1105.13 Responsibility of public agencies to provide service.
1105.14 Building permits; sale and lease of lots.
1105.15 Reserve strips; stub-end streets or thoroughfares.
1105.16 Modifications and exceptions.
1105.18 Conditions of modification or exceptions.
1105.19 Standard forms for execution.
1105.99 Penalty; equitable remedy.

CROSS REFERENCES

Violations of rules and regulations - see Ohio R.C. 711.102

1105.01 APPROVING AGENCY.

The Regulations shall be administered by the Planning Commission acting as a recommending agency, and the City Council as the final approving agency, except as may be otherwise provided in these Regulations.
(Ord. 120-91. Passed 8-9-93.)

1105.02 JURISDICTION.

These Regulations shall be applicable to any person engaged in the platting, transfer or recording of land and more particularly to the owner or agent of the owner engaged in the division or improvement of land as a subdivision and in platting or the replatting of land, wherever such land may be situated within the corporate limits of the Municipality.
(Ord. 120-91. Passed 8-9-93.)

1105.03 COMPLIANCE REQUIRED.

No person shall subdivide by deed, plat, instrument of conveyance or otherwise, any tract of land within the Municipality except in conformity with the provisions of these Regulations.
(Ord. 120-91. Passed 8-9-93.)

1105.04 RECORDING OF PLAT.

No plat of any subdivision shall be entitled to record in the County Recorder's office or have any validity until it has been approved in the manner prescribed herein. In the event any such unapproved plat is recorded, it shall be considered invalid and Council shall institute proceedings to have the plat stricken from the records of the County.
(Ord. 120-91. Passed 8-9-93.)

1105.05 SALE OF LAND IN SUBDIVISION.

No owner or agent of the owner of any land located within a subdivision shall transfer, sell, agree to sell or negotiate to sell any land by reference to, exhibition of, or use of, a plan or plat of a subdivision before such plan or plat has been approved and recorded in the manner prescribed herein. The description of such lot or parcel by metes and bounds in the instrument of transfer or other documents used in the process of selling or transferring shall not exempt the transaction from the provisions of these Regulations.
(Ord. 120-91. Passed 8-9-93.)

1105.06 CONVEYANCE OF INTERESTS IN LAND.

Approval of the final plat by the Planning Commission and Council, as provided for herein, and recording of such plat with the County Recorder, shall be sufficient conveyance to vest in the Municipality a fee simple title to all streets, commons, parks or other parcels of land as therein offered for public use, and shall be sufficient conveyance to vest in the Municipality any easement for public utility or other purposes, as therein offered for public use. In order to more clearly define the interest being conveyed, the plat shall be drawn to show by hatching, cross-hatching, or other form of line shading, the exact locations of all easements and shall have written thereon a statement that the Municipality is the grantee of such easements, a description of the uses for which the easement is granted, and a statement that for the use of such easements, permits shall be issued by and regulations shall be prescribed by the Municipality, and, in the case of commons, parks or other parcels of land therein offered for public use, a general warranty deed conveying to the Municipality a fee simple title to such lands shall also be provided by the subdivider.
(Ord. 120-91. Passed 8-9-93.)

1105.07 NONACCEPTANCE FOR PUBLIC USE AND MAINTENANCE.

Such approval of a plat referred to in Section 1105.06 shall not be construed as an acceptance or an establishment by the public of the dedication of any street, highway, way or open space shown upon the plat for public use.
(Ord. 120-91. Passed 8-9-93.)

1105.08 ACCEPTANCE RESTS WITH COUNCIL.

The acceptance or establishment of such streets or open spaces for public use rests with Council. It shall not be competent for the Engineer to place his endorsement on a plat so as to constitute an acceptance of a street for public use by the Municipality as provided in Ohio R.C. 711.091 until such time as Council has enacted an ordinance accepting such street or streets for use by the Municipality.
(Ord. 120-91. Passed 8-9-93.)

1105.09 MISCELLANEOUS PLAT APPROVAL; NO PLAT REQUIRED.

Notwithstanding the provisions set forth herein, a proposed division of a parcel of land along an existing public street, not involving the opening, widening or extension of any street or road, and involving no more than five lots after the original tract has been completely subdivided, may be submitted to the Planning Commission without the plat. The Commission acting through the Engineer, as its designated representative, may recommend that Council approve the proposed conveyance if they are satisfied that such division is not contrary to any applicable platting, subdividing or zoning regulations, which includes the Major Street Plan; or any rule or regulation which the Planning Commission may have adopted for the processing of such divisions or the conduct of its business. The applicant shall submit a plat map showing the division of such land in its correctness and shall contain information as is pertinent to its determination hereunder. When the Engineer and Council are satisfied that the information submitted is sufficient for their determination, they shall decide upon such plat. Evidence of approval by the Planning Commission will be indicated by a stamp or statement reading "Approved by the Planning Commission and Council, City of Richmond Heights, Ohio - No Plat Required." The plat of the division which has been thus stamped, dated and signed by both the Clerk of Council and the Engineer shall constitute approval under this section.

If such conveyance is not submitted for recording in the office of the County Recorder within sixty days of such approval, the approval as provided for herein shall be null and void.
(Ord. 120-91. Passed 8-9-93.)

1105.10 VACATION OF PLATS OR PARTS THEREOF.

In the case of vacation of a plat or parts thereof, as previously recorded in the office of the Recorder of Cuyahoga County, Ohio, the same general procedure, rules and regulations shall apply as for a new plat. The title of the vacation shall indicate just what is being vacated, and the final map shall include enough of the surrounding plat or plats to show its relation to adjoining areas. Council may vacate any subdivision plat in the event the improvements depicted thereon have not been substantially commenced within a period of three years following the record of the plat with the County Recorder.
(Ord. 120-91. Passed 8-9-93.)

1105.11 VACATION OF STREET, ALLEY OR OPEN AREAS.

In case of a street, alley or the vacation of a commons or other open grounds, such vacation shall be submitted to the Planning Commission for review and recommendation thereon prior to consideration by Council.
(Ord. 120-91. Passed 8-9-93.)

1105.12 LAND SUBJECT TO INUNDATION.

Land subject to inundation or flood hazards by storm water, or any swamp or marsh lands, shall not be platted for residential occupancy, nor for such other uses including streets, wells or septic systems, as may increase danger to health, life or property or aggravate the flood hazard. Such land within the plat should be withheld or otherwise set aside for such uses as will not be endangered by periodic or occasional inundation, all in accordance with Chapter 1315.
(Ord. 120-91. Passed 8-9-93.)

1105.13 RESPONSIBILITY OF PUBLIC AGENCIES TO PROVIDE SERVICE.

If the Engineer or the Cuyahoga County Sanitary Engineer finds upon inspection that any of the improvements being installed and constructed, or upon completion, are not in accordance with the plans, specifications or plat in the form in which they were approved, the responsibility of the Municipality and/or the County to provide services and utilities shall cease.
(Ord. 120-91. Passed 8-9-93.)

1105.14 BUILDING PERMITS; SALE AND LEASE OF LOTS.

When the improvements within a proposed public street or within an existing public street do not conform to the standards and specifications as adopted by the City for the construction of public streets, curbs, gutters, sidewalks, street lights, water mains, storm sewers, sanitary sewers, and other utility mains, piping and other facilities, the City may require complete or partial installation of such improvements and may make such installations a condition precedent to the sale or lease of lots in such subdivisions or the issuance of a building permit for the improvements of such lot or lots thereon, and, further, may require, in lieu of actual construction, a performance bond or other guarantee of security for the purpose of assuring the installation of such improvements deemed necessary or appropriate in the public interest.
(Ord. 120-91. Passed 8-9-93.)

1105.15 RESERVE STRIPS; STUB-END STREETS OR THOROUGHFARES.

Narrow reserve strips of land, commonly called devil strips, which are intended by the owner of a plat to prevent access to streets or the extension of sewer, water or storm drain lines from one plat to another are prohibited. The Planning Commission or the Engineer acting for it, shall not authorize the division of any land, nor shall any building or use permit be issued by any Municipal official for a building or structure proposed at the terminal or closed end of any stub-ended street or major thoroughfare which division would tend to prevent the appropriate extension of such stub-ended street or thoroughfare into abutting or adjoining territory.
(Ord. 120-91. Passed 8-9-93.)

1105.16 MODIFICATIONS AND EXCEPTIONS.

Where the Planning Commission finds in any particular or specific case, due to unusual topography or other exceptional conditions not common to other areas similarly situated, that extraordinary or undue hardships may result from strict compliance with any requirement of these Regulations, it may recommend that Council relax such requirement to the extent deemed just and proper, so as to relieve such difficulty or hardship, provided that such relief will not have the effect of nullifying or impairing the intent and purpose of these Regulations, the Street Plan or the Zoning Code or jeopardize the safety or health of the community. Modifications thus granted, with the reasons therefor, shall be entered in the minutes of the Commission and submitted to Council for final approval.

1105.17 LARGE SCALE DEVELOPMENTS.

The general principles of design and the minimum requirements for the laying out of subdivisions may be varied by the Planning Commission, subject to approval by Council, in the case of a subdivision large enough to constitute a more or less self-contained neighborhood to be developed in accordance with a comprehensive plan safeguarded by appropriate restrictions, which, in the judgment of the Commission, makes adequate provision for all essential community requirements. However, no modification shall be recommended by the Commission which would conflict with the proposals of the Major Street Plan or the intent and purpose of such general principles of design and minimum requirements.
(Ord. 120-91. Passed 8-9-93.)

1105.18 CONDITIONS OF MODIFICATION OR EXCEPTIONS.

(a) Subject to the approval of Council, the Planning Commission may recommend variances and modifications as provided for in this chapter. In recommending such variances and modifications, the Commission may require such conditions as will, in its independent judgment, secure substantially the objectives of the standards or requirements so varied or modified.

(b) Before deciding upon any such modification or exceptions, the Council may give notice to abutting property owners or other persons substantially interested in the proposed change, or it may hold a public hearing thereon.
(Ord. 120-91. Passed 8-9-93.)

1105.19 STANDARD FORMS AND EXECUTION.

The Planning Commission may prepare, adopt and distribute standard forms from time to time for the execution of construction agreements, posting of bonds, title insurance, inspection fees and other administrative procedures essential to the carrying out of this chapter. However, the following criteria is hereby adopted for performance bonds, maintenance bonds and indemnity insurance:

(a) Performance Bond.

- (1) One hundred ten percent of the Engineer's estimate of the cost of construction of the storm and sanitary sewers, water systems, streets, sidewalks, street lighting systems and facilities and appurtenances thereto;
- (2) An amount, as determined by the Engineer, to cover the engineering fee commensurate with the work performed; and
- (3) An amount, as determined by the Engineer, to cover the inspection fee.

(b) Maintenance Bond. The maintenance bond shall be of such amount as determined by the Engineer and for such periods for each improvement as follows:

- (1) Streets, sidewalks, pavement and facilities appurtenant thereto: two years from the date of acceptance by the City of such facilities;
- (2) Storm and sanitary sewers, water systems, street lighting systems and facilities appurtenant thereto: two years from the date of acceptance by the City of such facilities and appurtenances; or
- (3) Temporary roads: in an amount determined by the Engineer and for a period of time as determined by the Council.

(c) Insurance. The subdivider shall furnish such insurance as is deemed necessary by the Council which shall indemnify and save harmless the City from any all liability arising by reason of the unimproved conditions of the streets of such subdivision which may arise or grow out of the construction or installation of such facilities when undertaken. The insurance shall be of such duration as determined by the Council, but shall in no case be allowed to expire earlier than the effective period of any maintenance bond. A copy of the insurance policy shall remain at all times with the Clerk of Council.

(Ord. 120-91. Passed 8-9-93.)

1105.99 PENALTY; EQUITABLE REMEDY.

(a) Whoever offers for sale, enters into a contract of sale, sells, transfers or otherwise disposes of land before all the requirements of these Subdivision Regulations are complied with, or who neglects or refuses to comply with, or otherwise violates any provision of these Subdivision Regulations, is guilty of a misdemeanor of the first degree for each lot or part of a lot sold, offered for sale, transferred or otherwise dealt with in violation of any of the provisions of these Subdivision Regulations. A separate offense shall be deemed committed each day during or on which a violation occurs or continues.

(b) In addition to the foregoing penalty and in addition to the remedies otherwise provided by law, the Law Director is hereby authorized to institute an appropriate action or proceeding in law or equity to prevent any such violation, or to restrain, correct or abate any such violation.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1107

Preliminary Plan Procedure

1107.01 Assistance.

1107.02 Purpose.

1107.03 Layout.

1107.04 Layout requirements.

1107.05 Filing.

1107.06 Deposit for investigation and approval of plats.

1107.07 Disbursement of deposit.

1107.08 Approval.

1107.09 Time limit.

1107.10 Form and size.

1107.12 Other required information.

CROSS REFERENCES

Plat and contents - see Ohio R.C. 711.01 et seq.

Lot numbering and revision - see Ohio R.C. 711.02, 711.06, 711.28 et seq.

1107.01 ASSISTANCE.

Prior to the preparation of the preliminary plan, the subdivider should seek the assistance of the Building Commissioner in order to become familiar with the subdivision requirements and with the major street plans and maps affecting the territory in which the proposed subdivision is located.

(Ord. 120-91. Passed 8-9-93.)

1107.02 PURPOSE.

The purpose of the preliminary plan is to show all the facts which may enable the Planning Commission and other public officials to determine whether the proposed layout of the land is satisfactory from the standpoint of the public interest.

(Ord. 120-91. Passed 8-9-93.)

1107.03 LAYOUT.

The layout should be made by a qualified technician, trained in the design and planning of subdivision developments.

(Ord. 120-91. Passed 8-9-93.)

1107.04 LAYOUT REQUIREMENTS.

All required engineering and surveying work must be performed by or under the supervision of a registered engineer or surveyor in accordance with the provisions of Ohio R.C. Chapter 4733, the Engineers and Surveyors Registration Act. No owner or agent of the owner of any land within the jurisdiction of these Regulations shall transfer any lot, parcel or tract of land from or in accordance with a plat of a lot, parcel or tract of land from or in accordance with a plat of a subdivision before such plat has been approved by the Planning Commission and Council, with such approval endorsed in writing on the plat, or before the same has been recorded in the office of the County Recorder. In addition, no such person shall proceed with any work on the proposed subdivision, including grading, which may affect the arrangement of streets or utilities or which changes the natural course of surface drainage, until he has obtained tentative approval of the proposed subdivision plat and has executed the required agreement and has posted bond as hereinafter set forth.

(Ord. 120-91. Passed 8-9-93.)

1107.05 FILING.

The subdivider or his agent shall submit to the Building Commissioner at least eight black or blue on white prints of the preliminary subdivision layout and supporting drawings for the installation of the required improvements. The Building Commissioner shall submit the preliminary documents to the Engineer and other officials as may be involved for report thereon.

(Ord. 120-91. Passed 8-9-93.)

1107.06 DEPOSIT FOR INVESTIGATION AND APPROVAL OF PLATS.

At the time of filing the application for the approval of any plat, or at the time plans and specifications for any improvement are submitted to the Building Commissioner for approval, there shall be deposited with the Finance Director an amount of money sufficient, in the opinion of the Engineer, to cover the cost and expense of such investigation as may be necessary to determine whether such proposed allotment conforms to these Regulations or its improvements have been made or are being installed in accordance with the requirements of these Regulations and the plans and specifications approved by the Engineer.

(Ord. 120-91. Passed 8-9-93.)

1107.07 DISBURSEMENT OF DEPOSIT.

The cost and expense of such investigation made by the Engineer or his assistants shall be paid from such deposit upon itemized bills rendered by the Engineer. In case such expenditures exceed such deposit, the excess shall, upon demand by the City, be paid by the owner forthwith to the Finance Director. In case the deposit exceeds such expenditure, the balance will be refunded to the applicant within a reasonable time after the completion of such investigation.

(Ord. 120-91. Passed 8-9-93.)

1107.08 APPROVAL.

The Planning Commission shall consider the preliminary plan with the reports and recommend that Council either approve, disapprove or withhold formal action thereon within such further time as the applying party may agree to. The ground for refusal or approval, including citation of or reference to the rule or regulation violated, shall be stated upon the records. The Council will normally indicate its tentative approval by notation on one copy of such plans for the subdivider's record.

(Ord. 120-91. Passed 8-9-93.)

1107.09 TIME LIMIT.

Approval of the preliminary plan shall be effective for a maximum period of twelve months unless, upon application of the developer, the Council grants an extension. If the final plan has not been recorded within this time limit, the preliminary plan must again be submitted to the Commission for approval.

(Ord. 120-91. Passed 8-9-93.)

1107.10 FORM AND SIZE.

The preliminary plan shall be clearly and legibly drawn. The size of maps shall not be less than eight and one-half by eleven inches nor more than thirty-six by forty-eight inches. Subdivisions of six acres or less shall be drawn at a minimum scale of one inch equals fifty feet. All others shall be drawn at a minimum scale of one inch equals 100 feet, unless otherwise authorized by the Engineer.

(Ord. 120-91. Passed 8-9-93.)

1107.11 PLAN CONTENTS.

The preliminary plan shall contain the following information:

- (a) The proposed name of the subdivision. The name shall not duplicate any other recorded plan or subdivision in the Municipality or County;
- (b) The tract designation according to real estate records of the County and approximate acreage within the subdivision;
- (c) The lot lines, approximate dimensions and lot numbers;
- (d) The name and addresses of the subdivider, owner and surveyor;
- (e) The scale of plan, north point and date;
- (f) The boundaries of the subdivision indicated by a heavy line with the approximate dimensions and bearings thereof;
- (g) The location, widths and names of existing or proposed streets, within or adjacent to the tract, railroad right-of-way, easements, parks, permanent buildings, section and corporation lines. New street names shall not duplicate any existing street names within the Municipality;
- (h) The names of adjacent subdivisions and owners of adjoining parcels or unsubdivided land;
- (i) The zoning classification and district boundaries and proposed front yard building setback lines;
- (j) The existing contours with intervals of not more than five feet where the slope is greater than ten percent, and not more than two feet where the slope is less than ten percent. However, one-foot contours are recommended and will be required in relatively flat topography. Elevations shall be based on sea level data;
- (k) The high water elevations in the vicinity of streams or lakes; exact location and character of any swamp or marsh lands; and
- (l) The drainage channels, wooded areas, power transmission poles and lines and any other significant physical features.

(Ord. 120-91. Passed 8-9-93.)

1107.12 OTHER REQUIRED INFORMATION.

The following information shall also be required.

- (a) A statement of the proposed use of the building sites or lots so as to reveal the type of residential development with the number of dwelling units; the type and extent of business, industry, institution or other structures and their effect on traffic flow through streets, public service facilities, fire or health hazards, or congestion of population;
 - (b) Any existing or proposed covenants and restrictions;
 - (c) The source of water supply and provisions for sewage disposal and storm drainage; and
 - (d) An indication of all parcels of land intended to be dedicated or temporarily reserved for public use, or to be reserved in the deeds for the common use of property owners in the subdivision, with the purpose, conditions or limitations of such reservations.
- (Ord. 120-91. Passed 8-9-93.)

CHAPTER 1109

Final Plat Procedure

- 1109.01 Conformity required.**
- 1109.02 Filing.**
- 1109.03 Approval.**
- 1109.04 Time limit.**
- 1109.05 Approval not acceptance of dedication.**
- 1109.06 Streets must be accepted by Council before Engineer approves plat.**
- 1109.07 Recording of plat.**
- 1109.08 Form and size.**
- 1109.09 Map contents.**

CROSS REFERENCES

Approval by Planning authority - see Ohio R.C. 711.09

1109.01 CONFORMITY REQUIRED.

The final plat of the subdivision shall conform to the approved preliminary plan. It may constitute only that portion of the preliminary plan which the subdivider proposes to record and develop at that particular time, provided that such portion conforms with all the requirements of these Regulations.

(Ord. 120-91. Passed 8-9-93.)

1109.02 FILING.

After receiving notice from the Clerk of Council that the preliminary plan has been approved by Council, the subdivider may then proceed to prepare and file with the Building Commissioner:

- (a) Copies of the final plat of the subdivision as required and specified herein;
- (b) Street cross-sections, profiles, specifications and other construction drawings for the installation of the required public improvements;
- (c) Inspection fees as hereinafter set forth;
- (d) Title insurance in the amount of one thousand dollars (\$1,000), meeting the approval of the Law Director, covering the lands to be dedicated and showing the title to such dedicated streets or land good in the name of the Municipality;
- (e) The construction agreement, performance bond and maintenance bond as required and specified below:
 - (1) Should it not be desirable or possible for the subdivider to do all work herein required to place the streets and other improvements in an acceptable condition prior to the submission of the final plat to the Commission for approval, then such final plat may nevertheless be approved, provided that a construction agreement, performance bond and maintenance bond acceptable to the Law Director is given for the purpose of assuring the installation of such improvements deemed by the Commission to be necessary and appropriate in the public interest. The amount of such performance guarantee shall be sufficient to cover the cost of all improvements or uncompleted portions thereof, based on an estimate furnished or acceptable to the Engineer and satisfactory to the Law Director. Such performance agreement and security may be made under such conditions and time limitations as the City may determine; or
 - (2) In the event the subdivider desires to complete the required improvements or a part thereof before seeking final plat approval, he must prepare and file with the Building Commissioner all of the above-listed plat requirements including the execution of the construction agreement but the subdivider need not post the performance bond. Construction under this latter procedure shall be withheld until after the Planning Commission and Council have reviewed all of these required final plat documents and has formally authorized the subdivider to construct and install the improvements subject to further certification by the Engineer and final plat approval set forth in Section 1109.03. Upon completion of the streets and other required improvements, application may be made to the Engineer for certification that all such improvements as specified in the agreement have been satisfactorily installed.

(Ord. 120-91. Passed 8-9-93.)

1109.03 APPROVAL.

The Building Commissioner shall distribute copies of the final drawings to the Engineer or such other officials as maybe involved for report thereon. When the Engineer is satisfied that the final plat documents are completed he shall submit such documents to the Council with the reports and his recommendations thereon. The Council shall either approve, disapprove or withhold formal action thereon within such further time as the applying party may agree to. The Council's approval shall be indicated by notation on the tracing of the final plat. If disapproved, the ground for disapproval of the final plat of the subdivision shall be stated on the record of the Council, including reference to the regulation violated by the plat.

(Ord. 120-91. Passed 8-9-93.)

1109.04 TIME LIMIT.

Approval of the Council required by Section 1109.03, or the refusal to approve, shall take place within ninety days after the submission of the final plat for approval or within such further time as the applying party may agree to; otherwise such plat is deemed approved, and the certificate of the Council, as to the date of the submission of the plat for approval and the failure to take action thereon within such time, shall be issued on demand and shall be sufficient in lieu of the within endorsement or other evidence of approval required by this chapter. The ground of refusal or approval of any plat submitted, including citation of or reference to the rule or regulations violated by the plat, shall be stated upon the records of the Council.

(Ord. 120-91. Passed 8-9-93.)

1109.05 APPROVAL NOT ACCEPTANCE OF DEDICATION.

Approval of a plat by the Council shall not be an acceptance by the public of the dedication of any street, highway or other way or open space upon the plat.

(Ord. 120-91. Passed 8-9-93.)

1109.06 STREETS MUST BE APPROVED BY COUNCIL BEFORE ENGINEER APPROVES PLAT.

The Engineer shall not approve a plat constituting an acceptance of a street for public use by the Municipality as provided in Ohio R.C. 711.091 until such time as Council has enacted an ordinance accepting such street for public use by the Municipality.

(Ord. 120-91. Passed 8-9-93.)

1109.07 RECORDING OF PLAT.

The final plat of the subdivision, when approved by the Council, shall have such approval endorsed thereon. Such tracing shall be retained by the Municipality until it is delivered to the County Recorder for record and until the subdivider has furnished one photolithoprint or other acceptable reproduction for the record file of the Engineer. All fees required in connection with the recording or reproduction of the plat shall be paid by the subdivider.

(Ord. 120-91. Passed 8-9-93.)

1109.08 FORM AND SIZE.

The final plat of the subdivision shall be clearly and legibly drawn in India ink on tracing cloth or other acceptable material. The size and scale shall conform to the same specifications as for the preliminary plan.

(Ord. 120-91. Passed 8-9-93.)

1109.09 MAP CONTENTS.

The final plat shall contain the following information:

- (a) The name of the subdivision; its location by municipality, section, town, range, township, county, state; the scale, date and north point;
 - (b) The tract and plat boundary lines, with length of courses to 1/100 foot and bearings to minutes and seconds. When required by the Engineer, all calculations and field notes shall be submitted for review;
 - (c) The bearings and distances to the nearest established street lines, section corners or other recognized permanent monuments;
 - (d) The municipal, township, county or section lines accurately tied to the lines of the subdivision by distances and bearings;
 - (e) The names and right-of-way width of each street;
 - (f) The length of all arcs, chords and chord bearings, radii, internal angles, points of curvature and tangent bearings;
 - (g) All easements for rights-of-way provided for public services or utilities and any limitations of such easements;
 - (h) All easements of access or open spaces established for common use of the occupants or owners within the plat;
 - (i) Accurate outlines of any areas to be dedicated or temporarily reserved for public use with the purpose indicated thereon;
 - (j) The precise location and description of all monuments;
 - (k) All lot numbers and lines to identify each inlet or site and all inlots, outlots or fractional lots within such plat, with precise property dimensions in feet and hundredths and with bearings or angles to street lines. All inlots or sites shall be numbered consecutively starting with the number one or with the next larger number in case of an addition to an already recorded plat by the same owner. In case of replats or the vacation of a plat, the developer shall consult with and follow the instructions of the County Recorder or Auditor as may be involved;
 - (l) The minimum or intended building setback lines on all sublots or sites;
 - (m) Protective covenants shall normally be shown on the plat or they may be recorded as a part thereof in the form of separate instrument provided appropriate reference thereto is plainly shown on the plat;
 - (n) Certification by a registered, professional civil engineer or surveyor to the effect that the plat represents a correct survey made by him and that all the monuments shown thereon actually exist, and that their location, size and material are as shown;
 - (o) A notarized certification by the owner of his adoption of the plat, and dedication of streets and/or public open spaces; and
 - (p) Space for the statement of approval by the Planning Commission with one line for the date and signature;
 - (q) All of the above required signatures should be written with India ink.
- (Ord. 120-91. Passed 8-9-93.)

CROSS REFERENCES

Specifications for public and private roads - see P. & Z. Ch. 1103

1111.01 CONFORMITY WITH MAJOR STREET PLAN.

The arrangement, character, width, grade and location of all streets shall conform to the Major Street Plan for the opening, widening or extension of any street, road or major thoroughfare as adopted by the Planning Commission or otherwise by ordinance of Council, in the public interest. Whenever a tract to be subdivided includes any part of such thoroughfare as approved or shown on the adopted plan such part shall be dedicated to the public for street purposes by the subdivider.
(Ord. 120-91. Passed 8-9-93.)

1111.02 CONTINUATION OF EXISTING STREETS.

Proposed streets shall, as near as practicable, provide for the continuation, connection or projection of streets in surrounding areas or conform to the plan for the neighborhood as may be adopted by the Planning Commission.
(Ord. 120-91. Passed 8-9-93.)

1111.03 CIRCULATION.

The street pattern shall provide ease of circulation within the subdivision, but the minor streets therein shall be so laid out that their use by through traffic will be discouraged. Insofar as practical, the street arrangement should provide proper access to schools, playgrounds, transportation and other community features. New street openings shall generally be prohibited within 600 feet of any major intersection or crossing such as those formed by a railroad and a highway, two or more highways or from the head of any major bridge, grade separation structure or like facilities, as measured along the centerline from the intersection or from such structure.

(Ord. 120-91. Passed 8-9-93.)

1111.04 STREET INTERSECTIONS.

Streets shall intersect one another at an angle as near to a right angle as possible and no intersection of streets at angles less than sixty degrees shall be approved.

(Ord. 120-91. Passed 8-9-93.)

1111.05 STREET JOGS.

Street jogs shall be avoided whenever possible. However, where permitted, those over ten feet shall be at least 125 feet apart as measured along the centerline offsets.

(Ord. 120-91. Passed 8-9-93.)

1111.06 HALF-STREETS.

Half-streets shall be prohibited. In case a half-street is adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.

(Ord. 120-91. Passed 8-9-93.)

1111.07 TOPOGRAPHICAL AND CULTURAL FEATURES.

(a) In sloping terrain, streets shall generally run parallel to the contour of the land or preferably cross at a slight angle therewith. The general objectives are to avoid steep street grades, heavy concentrations of storm surface runoff, abnormal differential in building elevations at opposite sides of the street and excessive grading operations. Appropriate treatment shall be given to encourage the preservation of existing views, wooded areas, creeks and other attractive natural features of the plat.

(b) Where an approved plan designates an area to be preserved as natural areas, prior to clearing the land, the designated natural areas shall be protected during the entire construction period of improvements with orange vinyl latticed construction fencing of a minimum height of four (4) feet, secured with metal t-posts, demarcating the approved limits of clearing on the site. Where the established limits of clearing run through a tree of nine (9) inches or more diameter at breast height (DBH), the fencing shall circle the tree no closer than six (6) feet from the trunk or other methods approved by the Building Commissioner. The applicant shall be responsible for maintenance of the fencing at all times.
(Ord. 26-2006. Passed 3-28-06.)

1111.08 ALLEYS.

Alleys in residential developments will generally be prohibited. Service driveways will be required in commercial and industrial developments except where other provisions for suitable access and off-street loading and unloading is assured.

(Ord. 120-91. Passed 8-9-93.)

1111.09 PORTION OF TRACT; TOPOGRAPHY AND SKETCH LAYOUT.

Where the plat to be submitted includes only a part of the tract owned by the subdivider, the Council may require a topography and sketch layout of the future street system on the subdivided portion.

(Ord. 120-91. Passed 8-9-93.)

1111.10 DEAD-END STREETS.

Dead-end streets designed to be permanent shall be prohibited. In case a street over 150 feet in length is to be temporarily stub-ended, an interim turnaround will be required. A notation shall be placed on the final recorded plat that such temporary or interim turnaround area shall automatically be vacated upon authorized extension and construction of the street. The terminal end shall be extended to the boundary lines of the subdivision.

(Ord. 120-91. Passed 8-9-93.)

1111.11 CUL-DE-SAC STREETS.

The length of a cul-de-sac street shall normally not be greater than 600 feet as measured from its intersection with another street to the start of the circular turnaround area. A "T" or "Y" shaped paved space may be approved in the place of the required turning circle. The terminal device shall not be extended to any boundary line and normally shall be at least 100 feet therefrom.

(Ord. 120-91. Passed 8-9-93.)

1111.12 RELATION TO MAJOR STREETS.

Where a subdivision abuts or contains an existing or proposed arterial street, involving heavy volumes of high speed vehicular traffic, the Planning Commission may require marginal collector streets, a nonaccess reservation along the rear property and such other treatment as may be necessary for adequate protection of the proposed industrial, commercial or residential development to assure separation of through and local traffic. Before requiring any marginal streets or reverse frontage arrangements, the Commission shall take into account and decide upon the physical location of the major public utility lines as they relate to the existing and potential development along both side of the highway.

(Ord. 120-91. Passed 8-9-93.)

1111.13 DEVELOPMENT ALONG RAILROADS.

Industrial, commercial or residential building sites along railroads should normally have extra lot depth to permit deep setbacks for such building development and uses. The streets or roads serving such development shall be so located as not to interfere with the possible future construction of grade crossing or grade separation facilities along adjacent major traffic routes.

(Ord. 120-91. Passed 8-9-93.)

1111.14 PUBLIC SITES AND OPEN SPACES.

(a) Where a proposed park, playground, school or other public use shown on the Land Use Map is located in whole or in part in a subdivision, the Council may require the dedication or reservation of such area within the subdivision in which the Council deems such requirement to be reasonable.

(b) In the absence of provision in the Land Use Map, or in the absence of provision in such Map for the dedication of public land for the purposes as set forth herein, the subdivider shall be required to dedicate to public use, land suitably located and adequate for parks, playgrounds, schools or other public purposes, for local or neighborhood uses, in an amount not less than five percent of the total area of the subdivision, exclusive of streets or alleys, sidewalks and easements, or in lieu thereof, when deemed appropriate by the Council the subdivider shall be required to deposit with the Municipality such moneys as represent five percent of the fair market value of the land being subdivided, such value to be determined as of the date of the filing of the preliminary plan with the Commission. The basic evaluation shall be the prevailing market price of similar land in the immediate vicinity of the land being subdivided. This money shall be deposited with the Finance Director, accounted for separately, and used for the acquisition of land for the purpose set forth herein including, but not limited to, the development of the same, and shall be deposited in a fund which is hereby created, known as the Park Development Fund.

(Ord. 120-91. Passed 8-9-93.)

1111.15 TYPICAL STREET STANDARDS.

The Planning Commission will determine the required minimum dimensional standards of all rights-of-way, pavements, sidewalks and other public improvements but shall consider the advice and recommendations of the Engineer in doing so. The typical street requirements shall be as follows:

	Road	Feet
(a)	Residential	26
	Industrial	30
	Apartment	30

(b) Easements. Easements across lots or centered on rear or side lot lines shall be provided for utilities where necessary and shall be at least ten feet wide. Easements shall also be provided for watercourses, channels or streams, and shall be adequate for the purpose.

(Ord. 120-91. Passed 8-9-93.)

1111.16 MINIMUM AND MAXIMUM GRADES.

Minimum grades on any street shall be one-half of one percent (.5%) at gutters for purposes of drainage and not more than six percent for major streets nor ten percent for minor streets wherever feasible. Streets shorter than 600 feet shall be not more than twelve percent.

(Ord. 120-91. Passed 8-9-93.)

1111.17 STREET ALIGNMENT.

(a) Vertical. The profile grades for major streets shall be connected by vertical curves of a minimum length equivalent to at least forty times the algebraic difference between the rates of grade, expressed in feet per

hundred; for secondary and minor streets, at least twenty times.

(b) Minimum Horizontal Radii of Centerline Curvature.

Type of Street	Degrees	Feet
Major	12	475
Secondary	19	300
Minor	28	200
Cul-de-sac	58	100

A tangent at least 100 feet long shall be introduced between reverse curves on major or collector streets and at least fifty feet on minor streets.

(c) Visibility.

(1) Minimum vertical visibility (measured four and one-half feet eye level to eighteen inches tail light) shall be:

- 500 feet on main thoroughfares;
- 300 feet on secondary thoroughfares;
- 200 feet on minor streets; and
- 100 feet on streets shorter than 600 feet.

(2) Minimum horizontal visibility shall be:

- 300 feet on main thoroughfares;
- 200 feet on secondary thoroughfares; and
- 100 feet on all other streets, as measured on such centerlines.

(Ord. 120-91. Passed 8-9-93.)

1111.18 INTERSECTIONS.

Property lines at street intersections shall be rounded with a radius of at least twenty feet for residential and thirty feet for industrial or major street intersections and curbs or edges of street pavements shall be rounded by radii of at least thirty-seven feet for residential and fifty-five feet for industrial or major street intersections.

(Ord. 120-91. Passed 8-9-93.)

1111.19 BLOCKS.

(a) Block lengths should usually not exceed 1,600 to 1,800 feet or be less than 600 feet. Pedestrian crosswalks may be required under certain conditions, but should be avoided through proper block length and street arrangement whenever possible.

(b) The width of a block shall normally be sufficient to allow two tiers of lots or to provide building sites suitable to the special needs of the type of use contemplated.

(c) The depth and width of properties laid out or reserved for commercial and industrial purposes shall be adequate to provide for the off-street parking and service facilities required by the type of use and development contemplated. The permanent reservation of suitable buffer and easement areas may be required where deemed essential. Such areas shall normally be made a part of abutting lots or building sites.

(Ord. 120-91. Passed 8-9-93.)

1111.20 LOTS.

(a) Size, Shape and Orientation. The lot size, width, depth, shape orientation shall be appropriate for the location of the subdivision and type of development and use contemplated. A length and width ratio of approximately two to one is considered desirable. Lot depth in relation to width shall normally not exceed a ratio of three to one.

(b) Lot Dimensions. Lots shall conform in size to at least the minimum area and width requirements specified in the Zoning Code of the particular use district in which it is located. Business and industrial sites should be sufficient in width and depth to allow for proper vehicular access and appropriate parking area and spacing.

(c) Corner Lots. Corner lots for residential use shall normally be platted wider than interior lots to permit appropriate building setback from, and orientation to, both streets.

(d) Side Lot Lines. Side lot lines shall normally be at right angles to the street or radial to curved streets, except when natural or cultural features suggest other suitable and appropriate locations.

(e) Double Frontage Lots. Double frontage lots shall be avoided except where essential to provide separation of residential development from major arteries or specific disadvantages of topography.

(f) Building Setback Line.

(1) Building setback lines shall conform to the requirements specified in the Zoning Code for the use district in which it is located.

(2) The established setback for detached accessory buildings at the rear of a corner lot shall not be closer to the street than the existing or established setback line for the main building on the adjoining lot.

(g) Access to Streets. Every lot shall abut on a public street.

(Ord. 120-91. Passed 8-9-93.)

CHAPTER 1113

Required Improvements

1113.01 Subdivider's responsibilities.

1113.02 Specifications, supervision and inspection.

1113.03 Inspection costs.

1113.04 Recommendation and approval.

1113.05 Streets and sidewalks.

1113.06 Sidewalks.

1113.07 Seeding and protection.

1113.08 Storm drainage.

1113.09 Sewage disposal.

1113.10 Water supply.

1113.11 Survey monuments.

1113.12 Street signs.

1113.13 Street lighting and electric and telephone lines.

1113.14 Trees.

1113.15 Planning Commission to set actual standards.

CROSS REFERENCES

Cornerstones and permanent markers - see Ohio R.C. 711.03, 711.14

1113.01 SUBDIVIDER'S RESPONSIBILITIES.

Unless otherwise expressly indicated, the subdivider, through his engineer, shall prepare and furnish all plans, specifications, cost estimates and other essential documents necessary for the construction and installation of the required improvements. Further, the subdivider shall agree at his own cost and expense to do all work, furnish all the materials and labor necessary to construct and complete the required improvements in a good and substantial manner to the satisfaction of the Engineer.

(Ord. 120-91. Passed 8-9-93.)

1113.02 SPECIFICATIONS, SUPERVISION AND INSPECTION.

The specifications of the Municipality shall in all respects govern all construction work. The work shall be done under Municipal supervision and inspection. It shall be completed within the time fixed or agreed upon by the Council.

(Ord. 120-91. Passed 8-9-93.)

1113.03 INSPECTION COSTS.

The cost of Municipal inspection shall be paid by the subdivider. An amount of money estimated by the Engineer for such purpose shall be deposited in advance with the Treasurer or otherwise provided for in the construction agreement and bond requirements hereinbefore mentioned. The required fee shall normally be not less than two percent (2%) and not more than four percent (4%) of the total estimated cost of the required improvements.

(Ord. 120-91. Passed 8-9-93.)

1113.04 RECOMMENDATION AND APPROVAL.

It shall be competent for the Engineer to recommend the final plat of the subdivision, to the person or persons making the same, to the effect that, whenever the required improvements are properly made or otherwise secured as hereinbefore mentioned, the Engineer will pass upon and recommend to the Planning Commission and Council that such plat, if otherwise conforming to these Regulations, be approved.

(Ord. 120-91. Passed 8-9-93.)

1113.05 STREETS AND SIDEWALKS.

(a) Streets, sidewalks and appurtenances shall be constructed so as to serve the entire subdivision and such installation shall conform to the provisions of the General Plan and in accordance with applicable standard specifications of the Municipality.

(b) In the case where widening, improving or abandoning of existing streets is deemed necessary by the Municipality, the subdivider shall perform such work as is necessary at his own expense.

(Ord. 120-91. Passed 8-9-93.)

1113.06 SIDEWALKS.

The Planning Commission shall require that sidewalks be constructed on one or both sides of streets irrespective of the width of lot, where they are essential to pedestrian movement and safety. Sidewalks shall be constructed in all instances along secondary or main highways as indicated in the Major Street Plan and these Regulations.

(Ord. 120-91. Passed 8-9-93.)

1113.07 SEEDING AND PROTECTION.

Berms, ditches and slopes resulting from the opening, widening or extension of any street grading or improvement operations shall be protected against soil erosion by seeding or other protective methods.

(Ord. 120-91. Passed 8-9-93.)

1113.08 STORM DRAINAGE.

Storm drainage, including drain tile around basements, shall not be permitted to empty into any sanitary sewer. Where a public storm water sewer is reasonably accessible, as determined by the Planning Commission, the subdivider shall connect with such storm drainage outfall system and shall do such grading and provide such drainage structures, including lateral connections, as may be required by the Engineer. Where a public storm water system is not reasonably accessible as determined by the Commission, but where the plans for the storm water drainage system of the district in which the subdivision is located have been prepared and officially approved, the subdivider shall install drainage facilities as may be required by the Engineer in conformity with such official plans. If the subdivision is in an area where public storm water system is not available, the subdivider shall do such grading and provide such drainage structures as may be required by the Engineer. Whenever the construction of streets and the necessary storm water system in a subdivision are such that the direction of storm water flow is diverted and affects surrounding properties, the subdivider shall obtain sufficient drainage easements to provide adequate disposal of the storm water.

(Ord. 120-91. Passed 8-9-93.)

1113.09 SEWAGE DISPOSAL.

(a) Sanitary Sewers. If a subdivision can be reasonably served by the extension of an existing public sanitary sewer, as determined by the Planning Commission, the subdivider shall provide a system of sanitary sewer

mains and shall provide lateral connections for each lot or potential building site. Where the subdivision is located within a sanitary sewer district but a public sanitary sewer is not immediately or reasonably accessible:

(1) The Commission may, after obtaining and considering reports from the local or State Board of Health agencies involved, refuse to permit the area to be developed if the proposed use is deemed detrimental to the health and general welfare of the surrounding community; or

(2) The Commission may recommend that Council approve the subdivision plat provided the sanitary sewer mains and lateral connections are installed and appropriate provision and arrangements can be made for the construction, operation and maintenance of an interim group sewage disposal facility pending permanent connection to the public sanitary system. Group sewage disposal systems shall meet the requirements of the State Department of Health.

(b) Individual Septic Tank Facilities. Generally, the installation of septic tanks shall not be permitted on residential sites of less than two acres in area. In the event the installation of individual disposal systems is considered, the suitability of the soil characteristics, surface, drainage, topography and potential density or character of development shall be the criteria for determining whether or not the installation of individual septic tank disposal systems is feasible. It shall be the responsibility of the subdivider to furnish the topographical map and other information and data and to obtain or perform all tests in accordance with the requirements of the local or State Board of Health. The septic tank and disposal field shall conform to the requirements of the Cuyahoga County General Health District.

All sanitary sewage shall be emptied into the septic tank and no tile field shall empty in any manner into open ditches, roadside ditches, lakes, streams or any other body of water, nor shall the effluent be permitted to seep to the surface of the ground.

(Ord. 120-91. Passed 8-9-93.)

1113.10 WATER SUPPLY.

(a) Public Water Supply. Where a public water supply is within a reasonable distance, as determined by the Planning Commission, the subdivider shall construct a system of water mains and fire hydrants and connect with such public water supply and provide a connection for each lot or potential building site. Where a public water supply is not available, the subdivider shall provide for individual wells for each lot in the subdivision.

(b) Test Wells. At least one test well shall be made in the area being platted for each 100 lots or for each twenty-five acres of area, whichever is the smaller. In the cases where copies of the lot of existing wells located within the area being platted are available, this may be submitted in lieu of making test wells. Test wells shall be at least twenty-five feet in depth and shall produce safe potable drinking water at a rate of not less than five gallons per minute.

A copy of the well log which includes the name and address of the well driller shall be submitted with the preliminary documents to the Engineer.

(c) Location and Construction of Individual Private Wells. Individual private wells shall be located at least twenty-five feet from property lines, thirty feet from all septic tanks, approximately 100 feet from all tile disposal fields and other sewage disposal facilities, ten feet from all cast-iron sewer lines, thirty feet from any vitrified sewer tile lines, and shall not be located within flood plain.

(1) As a precaution against seepage, a water tight seal shall be provided around the pump mounting.

(2) All abandoned wells shall be sealed in a manner that will render them watertight. In all cases where it has been determined that the individual water supplies from private wells are not feasible, a public water distribution system will be required.

(d) Public Water Distribution Systems. Public wells and other public water distribution system shall meet the requirements of the State Department of Health and the City of Cleveland Division of Water.

(Ord. 120-91. Passed 8-9-93.)

1113.11 SURVEY MONUMENTS.

A complete survey shall be made by a registered surveyor. The traverse of exterior boundaries of the tract and of each block, when computed from field measurements on the ground, shall close within a limit of error of one foot to 10,000 feet of the perimeter before balancing the survey.

(a) The corners of each lot shall be marked with iron rods three-fourths of an inch in diameter by two feet in length or as specified by the Engineer.

(b) Monuments shall be placed at all block corners, angle points, points of corners, intersections and at intermediate points along streets as required by the Engineer. The monuments shall be of such material, size and length as may be approved or specified by the Engineer.

(Ord. 120-91. Passed 8-9-93.)

1113.12 STREET SIGNS.

The subdivider shall place on deposit or arrange as a part of the bond agreement, sufficient funds to cover the cost of purchase, delivery and installation of all required street name signs. Such signs shall conform to the standards adopted by the Municipality.

(Ord. 120-91. Passed 8-9-93.)

1113.13 STREET LIGHTING AND ELECTRIC AND TELEPHONE LINES.

The subdivider shall install all street lighting and electric and telephone lines in accordance with the specifications of the Municipality. All such lines shall be installed underground in accordance with such specifications.

(Ord. 120-91. Passed 8-9-93.)

1113.14 TREES.

The subdivider shall plant trees within the street right-of-way in accordance with the specifications of the Municipality.

(Ord. 120-91. Passed 8-9-93.)

1113.15 PLANNING COMMISSION TO SET ACTUAL STANDARDS.

All minimum standards contained in this chapter shall be subject to determination by the Planning Commission of the actual standards to be met. The Planning Commission shall consider the advice and recommendation of the Engineer in doing so.

(Ord. 120-91. Passed 8-9-93.)

1121.01 TITLE.
This Code shall be known as the “Zoning Code for the City of Richmond Heights, Ohio”.

(Ord. 72-72. Passed 8-31-72.)

1121.02 PURPOSE AND INTENT.

The purpose of this Zoning Code and the intent of the legislative authority in its adoption is to promote and protect the public health, safety, convenience, comfort, prosperity and the general welfare of the City by regulating the use of buildings, other structures and land for residences, public facilities, institutions, business and services; by regulating and restricting the bulk, height, design, percent of lot occupancy and location of buildings; by regulating and limiting population density; and, for the aforementioned purposes, to design districts of such number and dimensions to carry out the objectives of the Master Plan; and to provide procedures for the administration and amendment of this Code.

This Zoning Code is intended to achieve, among others, the following objectives:

(a) To protect the character and values of residential, institutional and public uses, business, commercial and industrial uses, and insure their orderly and beneficial development;

- (b) To provide adequate open spaces for light, air and outdoor uses, and prevent excessive concentration of population;
- (c) To regulate and control the location and spacing of buildings in relation to the site and the surrounding property;
- (d) To regulate the intensity of uses in relation to streets, to reduce the interference with traffic movement so as to improve public safety;
- (e) To guide the future development of the City in accordance with the objectives of the Master Plan; and
- (f) To accomplish the specific intents and goals set forth in the introduction to the respective chapters of this Zoning Code.

(Ord. 72-72. Passed 8-31-72.)

1121.03 RELATION TO OTHER LAWS.

The provisions of this Zoning Code shall supplement any and all laws of the State, ordinances of the Municipality or any and all rules and regulations promulgated by authority of such law or ordinance relating to the purpose and scope of this Zoning Code.

The provisions of this Code shall not annul or in any way interfere with existing deed or plat restrictions, easements or other agreements between persons, codes, laws, rules, regulations or permits previously adopted or issued except those ordinances or sections thereof which are contrary to and in conflict with this Code.

Wherever this Code imposes greater restrictions upon the use of buildings or land, the height or bulk of buildings, or requires larger land or building areas, yards or other open spaces than are otherwise required or imposed by other deed or plat restrictions, codes, laws, ordinances, rules or regulations, this Zoning Code shall control; and conversely, other regulations shall control where they impose greater restrictions than this Code.

(Ord. 72-72. Passed 8-31-72.)

1121.04 INTERPRETATION.

In interpreting and applying the provisions of this Zoning Code, such provisions shall be held to be the minimum requirements for the promotion of public health, safety, convenience, comfort, prosperity and general welfare and shall be liberally construed to further the underlying purposes, objectives and intent set forth throughout this Zoning Code.

(Ord. 72-72. Passed 8-31-72.)

1121.05 ESSENTIAL SERVICES.

Essential services shall be permitted as authorized and regulated by law and other ordinances of the City, it being the intention hereof to exempt essential services from the provisions of this Zoning Code.

(Ord. 72-72. Passed 8-31-72.)

1121.06 ADMINISTRATIVE OFFICIALS; COMPLIANCE WITH CODE.

The administration of this Zoning Code is conferred upon the Director of Public Safety, the City Engineer, the Building Inspector, the Planning and Zoning Commission, the Zoning Board of Appeals, the City Landscape Architect and the Architectural Board of Review. Compliance with the provisions of this Code shall be obtained by:

- (a) Applying for and the issuance of a building permit along with a zoning certificate; and if applicable, an appeal for interpretation of a provision of the Zoning Code or for a variance;
- (b) Periodical inspection during construction;
- (c) Issuance of a certificate of occupancy upon completion of the work;
- (d) Enforcement after violations.

(Ord. 72-72. Passed 8-31-72.)

1121.07 RETENTION OF JURISDICTION.

In all instances where a review and/or a finding by any City agency is required under the provisions of this Zoning Code, that agency shall retain jurisdiction over such review and/or finding and any variation from the review and/or finding shall require approval from that agency.

(Ord. 72-72. Passed 8-31-72.)

1121.08 VALIDITY.

Should any chapter, section, clause or provision of this Zoning Code be declared by a court of competent jurisdiction to be invalid, the same shall not affect the validity of this Code as a whole or part thereof other than the part so declared to be invalid.

(Ord. 72-72. Passed 8-31-72.)

1121.09 BUILDING PERMIT REQUIRED.

No building or structure shall be erected, added to or structurally altered until a permit therefor has been issued by the Commissioner of Building. No such building permit shall be issued for any building where such construction, addition or alteration or use thereof would be in violation of any of the provisions of this Zoning Code. Any permit issued in conflict with the provisions of this Zoning Code shall be null and void and of no effect whatsoever.

(Ord. 22-76. Passed 5-11-76.)

1121.10 VERIFICATION; LAPSE OF APPLICATION.

All applications for building permits shall be verified by at least one of the owners or lessees of the property for which the permit would apply attesting to the truth and correctness of all facts and information presented with the application and included in the application.

Any application which remains dormant by reason of failure of the applicant to pursue the issuance of a permit for a period of six months shall become null and void and, upon the expiration of such time, the Building Commissioner shall so notify the applicant and return the application and any plans, documents or papers filed to the applicant.

(Ord. 22-76. Passed 5-11-76.)

1121.11 ZONING CHANGE PENDING; BUILDING PERMIT.

Whenever legislation has been introduced in Council for a change or amendment of the Zoning Code or Map involving a change of zoning from a less restricted district to a more restricted district, no zoning certificate or building permit shall be issued and no application for a permit shall be accepted within 120 days from the date of the introduction of such zoning amendment legislation which would authorize the construction of a building or the establishment of a use which would become nonconforming under the contemplated Zoning Map or Code amendment.

In the event such legislation is not enacted within 120 days, the Building Commissioner is authorized to accept applications and issue permits regardless of the pendency of such legislation.

(Ord. 22-76. Passed 5-11-76.)

1123.01 GENERAL TERMS.

For the purpose of clarification, certain terms used in this Zoning Code shall be interpreted as follows:

"Person" includes a firm, association, organization, partnership, trust, company or corporation as well as an individual; the present tense includes the future tense, the singular number includes the plural and the plural number includes the singular; the word "shall" is mandatory; "may" is permissive; "used" or "occupied" includes the words "intended", "designed" or "arranged" to be "used" or "occupied". Terms not herein defined shall have the meaning customarily assigned to them.

(Ord. 72-72. Passed 8-31-72.)

1123.02 LETTERS A-B.

For the purpose of this Zoning Code, certain terms are defined as follows:

- (a) **Alley.** "Alley" means a dedicated public way less than fifty feet in width affording a secondary means of access to abutting property and not intended for general traffic circulation.
- (b) **Attic.** "Attic" means the space between the ceiling beams of the top habitable floor and the roof.
- (c) **Automotive servicing and minor repair.** "Automotive servicing and minor repair" includes the following activities: the changing of oil and other lubrication; tuning of motors; minor wheel and brake adjustment; similar minor servicing and repair; installation of wheels, tires, brakes and accessories; washing, waxing, polishing and interior cleaning but not a self-service auto laundry as defined and regulated herein. Activities included within the definition "automotive major repair" are not included within the meaning of "automotive servicing and minor repair".
- (d) **Automotive major repair.** "Automotive major repair" means major automotive repairs including, but not limited to: the removal or replacement of major mechanical parts such as the motor, transmission, differential, axles; replacement of body parts and glass; replacement of exhaust system parts; body and frame repair, painting, welding; upholstering work and similar activities.

(Ord. 69-2002. Passed 9-24-02.)

- (e) **Bar or Tavern.** "Bar" or "Tavern" means a place of business dispensing beer, wine, spirituous liquors, or mixed beverages by the drink for on-site consumption, and in which the sale of food products for on-site consumption is incidental or secondary to dispensing of said drinks.

- (f) **Banquet Facility.** "Banquet facility" means a place of business at which the principal activity is service of food and beverage to large groups of people as opposed to individual table service as in a restaurant. A banquet facility is typically rented for purposes of special events such as weddings, meetings, or other large group activities.

(Ord. 5-2007. Passed 3-13-07.)

- (g) **Basement.** "Basement" means that portion of a building which is partly or wholly below grade, but so located that the vertical distance from the average grade to the ceiling is less than four feet six inches. A basement shall not be counted as a story.
- (h) **Block.** "Block" means an area of land bounded by streets, public or common land or other definite limits.
- (i) **Board of Appeals.** "Board of Appeals" means the Zoning Board of Appeals of the City of Richmond Heights.
- (j) **Buffer Strip.** "Buffer strip" means a strip of land of definite width and location reserved for planting of shrubs and trees to serve as an obscuring screen.
- (k) **Building.** "Building" means any structure, either temporary or permanent, having a roof and used or built for the shelter or enclosure of persons, animals, chattels or property of any kind.
 - (1) "Accessory building" means a building subordinate to the main or principal building on the lot and used for the purposes customarily incidental to those of the main building.
 - (2) "Height of a building" means the vertical distance from the established grade at the center of the front of the building to the highest point of the roof surface, if a flat roof, to the deck line for mansard roofs, and to the mean height level between the eaves and ridge for gable, hip and gambrel roofs.

- (3) "Building line" means a line parallel to and measured from the front lot line and which defines the minimum required front setback line.
- (4) "Principal building" means a building in which is conducted the primary use of the lot on which it is situated.
- (Ord. 69-2002. Passed 9-24-02.)

1123.03 LETTERS C-D.

As used in this Zoning Code:

- (a) Charter. "Charter" means the Charter of the City of Richmond Heights, including all amendments thereto.
- (b) City. "City" means the City of Richmond Heights.
- (c) Clerk. "Clerk" means the duly acting and qualified Clerk of the City.
- (d) Code. "Code" means the Zoning Code of the City.
- (e) Commission. "Commission" means the Planning and Zoning Commission of the City. (Ord. 72-72. Passed 8-31-72.)
- (f) Computerized Sweepstakes Device. "Computerized sweepstakes device" means any computer, machine, game or apparatus which, upon the insertion of a coin, token, access number, magnetic card, or similar object, or upon the payment of anything of value, may be operated by the public generally for use as a contest of skill, entertainment or amusement, whether or not registering a score, and which provides the user with a chance to win anything of value that is not de minimus, on a per play basis, or any cash payout or anything that could be redeemed, directly or indirectly, for any cash payout, and which is not gambling under state or local laws. Machines designated for use by the State Lottery Commission are not computerized sweepstakes devices for purposes of this chapter. "De minimus", as used in this section, shall mean less than ten dollars (\$10.00). (Ord. 37-2011. Passed 8-23-11.)
- (g) Conditional Use. "Conditional use" means a use which may be permitted in specific districts subject to compliance with certain standards and explicit conditions set forth in this Zoning Code and the granting of a conditional use permit.
- (h) Condominium, Joint Ownership. "Joint ownership condominium" means ownership in common (undivided interest) with others of a parcel of improved land and certain parts of the building which are held for the use and enjoyment by the occupants (such as yards, walls, floors, basements, hallways, elevators and all other related common elements), together with individual ownership in fee of a particular unit or apartment in such building and any private land attached thereto for the exclusive use of the joint owners.
- (i) Council. "Council" means the City Council of the City of Richmond Heights.
- (j) Court. "Court" means an open unoccupied space other than a yard and bounded on at least two sides by a building. A court extending to the front lot line or front yard, or the rear lot line or rear yard is an outer court. Any other court is an inner court.
- (k) Cul-de-sac. "Cul-de-sac" means a street, one end of which connects with another street and the other end of which terminates in turning facilities for vehicles.

(Ord. 72-72. Passed 8-31-72.)

- (l) Day Care Center. "Day care center" means a building or structure where care, protection, and supervision are provided for individuals on a regular basis away from their primary residence for less than 24 hours a day, with or without compensation and with or without stated educational purposes. The term includes, but is not limited to, facilities commonly known as day-care centers, day nurseries, nursery schools, preschools, play groups, day camps, summer camps, and centers for mentally retarded children, but specifically excludes any family day care home (as defined by the Ohio Revised Code) or group home.
- (Ord. 5-2007. Passed 3-13-07.)
- (m) Development Area. "Development area" means a tract of land of five acres or more which may be subsequently subdivided into parcels of less than five acres. The development area may be owned by or controlled by one or more parties who are acting with the single purpose of developing contiguous parcels in accordance with the provisions of a single zoning district.
- (n) Display, Outside. "Outside display" means the outdoor standing or placement of immediately useable goods which are available for sale, lease or rental and which are displayed in such a manner as to be readily accessible for inspection and removal by the potential customer.
- (o) District. "District" means a portion of the incorporated area of the City within which certain regulations and requirements or various combinations thereof apply under the provisions of this Code.
- (p) Drainage Way. "Drainage way" means the land required for construction or maintenance of storm water sewers or required along a drainage ditch, natural stream or watercourse.

(Ord. 72-72. Passed 8-31-72.)

- (q) Drive-Through Facility. "Drive-through facility" means an accessory use which involves sale or delivery of goods or services to customers in the customers' vehicles or which involves delivery or return of goods to the site by customers in their vehicles. In a typical drive-through facility, one or more lanes are provided for customer-driven vehicles stacked or lined up for service or delivery or for access to a service window or drop off structure. A drive-through facility may also include an area in which customers park their vehicles and receive goods or services while seated in the vehicles. The areas and structures included in a drive-through facility may include the stacking lanes, parking spaces used while waiting for delivery of goods, menu boards, speakers, service windows, vending or service machines, and drop off containers. Examples of drive-through facilities include drive-through or drive-in restaurants, drive-up bank tellers, drive-up automatic teller machines, book or videotape drop-offs, car wash, parcel or material pickup, and postal or private delivery service boxes.

(Ord. 5-2007. Passed 3-13-07.)

- (r) Dwelling, Multiple-Family or Multi-Family. "Multiple-family or multi-family dwelling" means a building or portion thereof, designed exclusively for occupancy by three or more families, living independently of each other with each unit having a separate entrance or at least one entrance to a common hall leading to the exterior.
- (s) Dwelling, Multiple-Family or Multi-Family Low Rise. "Multiple-family or multifamily low rise dwelling" means a multi-family dwelling not more than two stories in height.
- (t) Dwelling, Multiple-Family or Multi-Family Medium Rise. "Multiple-family or multi-family medium rise dwelling" means a multi-family dwelling of at least three but not more than six stories in height and for which elevator service is required.
- (u) Dwelling, One-Family. "One-family dwelling" means a building designed exclusively for and occupied exclusively by one family, which is not physically attached to any other dwelling unit.
- (v) Dwelling, Attached, One-Family. "Attached one-family dwelling" means and includes single-family dwelling units, not exceeding six, which are physically attached one to another by common or adjoining vertical walls, which have individual heating and plumbing systems and which are or may be individually owned and may be rented or may be sold as condominiums. Each dwelling unit shall have direct access from outdoors from at least the front and rear or side of the unit.
- (w) Dwelling, Two-Family. "Two-family dwelling" means a building designed exclusively for occupancy by two families living independently of each other.
- (x) Dwelling Unit. "Dwelling unit" means a building or portion thereof, designed for occupancy by one family for residential purposes and having cooking, living, sleeping, bathing and toilet facilities.
- (y) Dwelling Unit, Efficiency Type. "Efficiency type dwelling unit" means a dwelling unit consisting of not more than one room in addition to kitchen and sanitary facilities and containing not less than 600 square feet of useable floor area.

(Ord. 72-72. Passed 8-31-72.)

- (z) Conditional Zoning. "Conditional zoning" means the imposition of reasonable, binding conditions on the use of a specific property offered by an applicant and accepted by the Municipality, such conditions being in addition to the regulations provided for a particular zoning district or zone by the overall zoning ordinance.

(Ord. 56-88. Passed 1-10-89.)

1123.04 LETTERS E-F.

As used in this Zoning Code:

- (a) Easement. "Easement" means a grant by a property owner of the use of land for a specific purpose, by the general public, a corporation or another person.
- (Ord. 72-72. Passed 8-31-72.)
- (b) Entertainment Facilities, Indoor. "Indoor entertainment facilities" shall mean a building or part of a building devoted to providing entertainment indoors for a fee, including, but not limited to, such activities as music, live performances, and games - e.g., pinball, video arcades, computer games, billiards, table games and similar small scale entertainment and amusements.
- (Ord. 20-2015. Passed 3-24-15.)
- (c) Essential Services. "Essential services" means the erection, construction, alteration or maintenance by public utilities or municipal departments or commissions of underground or overhead gas, electricity, steam or water transmission or distribution systems, collection, communication, supply or disposal systems, including towers, poles, wires, mains, drains, sewers, conduits, cables, fire-alarm boxes, police call-boxes, traffic signals, hydrants and other similar equipment and accessories in connection therewith but not including buildings, reasonably necessary for the furnishing of adequate service by such public utilities or municipal departments or commissions or for the public health or safety or general welfare. This phrase also means the use of land, buildings and structures for municipal facilities that have been approved by Council after receiving a report and recommendation from the Planning and Zoning Commission.
- (d) Family. "Family" means any number of persons living together in a room or rooms comprising a single housekeeping unit, doing their cooking on the premises and related by blood or marriage, and including the

domestic employees thereof. (cf. Section 1123.05 (i) Household)

- (e) Farm. "Farm" means a parcel or parcels of contiguous unplatted land of not less than ten acres which is directly farmed or used in the normal pursuits of agriculture by one farmer and which may include establishments operating as greenhouses, nurseries, orchards or apiaries.
- (f) Floor Area of Dwelling Units.
- (1) One-family dwelling units. The floor area of one-family dwelling units means the sum of the horizontal areas of each story of the dwelling unit measured from the exterior faces of the exterior walls. The floor area measurement shall not include the areas of basements, unfinished attics, attached or unattached garages, breezeways and enclosed and unenclosed porches.
- (2) Attached single-family and two-family dwelling units. The floor area of attached single-family and two-family dwelling units means the sum of the horizontal floor areas measured from the exterior face of enclosing walls and the centerline of party walls. The area of basements, unfinished attics, attached or unattached garages, breezeways and enclosed or unenclosed porches shall not be included.
- (3) Multi-family dwelling units. The floor area of multi-family dwelling units means the sum of the horizontal floor areas solely within a dwelling unit measured from the interior faces of enclosing and party walls. The area of basements, utility rooms, general storage rooms, garages and porches shall not be included.
- (g) Floor Area, Useable. "Useable floor area" means the sum of the horizontal floor areas of all the floors of the building or structure and of all accessory buildings measured from the interior face of the exterior walls and which may be made useable for human habitation but excludes the horizontal floor area of heater rooms, mechanical equipment rooms, attics, unenclosed porches, light and elevator shafts, public corridors, public stairwells and public toilets.
- (h) Frontage. "Frontage" means that portion of any property abutting a street. A corner lot and a through lot have frontage on both abutting streets.
(Ord. 72-72. Passed 8-31-72.)

1123.05 LETTERS G-K.

As used in this Zoning Code:

- (a) Garage, Private. "Private garage" means an accessory building or part of the main building used principally for the storage of private passenger motor vehicles, or solely for the private use of the owner or occupant of the principal building on a lot, or of their family or domestic employees and having not more than one story of fifteen feet in height. No service for remuneration may be conducted within the structure.
- (b) Garage, Repair. "Repair garage" means a main or accessory building used or designed for repairing motor vehicles or a service garage if accessory to an automobile salesroom.
- (c) Garage, Storage. "Storage garage" means an accessory building, other than a private garage, used for the parking or temporary storage of passenger automobiles and in which no service shall be provided for remuneration.
(Ord. 72-72. Passed 8-31-72.)
- (d) Garden Center. "Garden center" means a place of business where retail garden and yard products are sold to the consumer, including such products as plants, seeds, planting materials (such as soil, mulch, fertilizer) in containers only, garden hardware and equipment, tools, and related seasonal products such seasonal decorations.
(Ord. 5-2007. Passed 3-13-07.)

- (e) Gasoline Service Station. "Gasoline service station" means a place for the dispensing, sale or offering for sale of motor fuels directly to users of motor vehicles, together with the sale of minor accessories and the servicing of and minor repair of motor vehicles.
- (f) Grade. "Grade" means a ground elevation established for the purpose of regulating the number of stories and the height of the building. The building grade shall be the level of the ground adjacent to the walls of the building if the finished grade is level. If the ground is not entirely level, the grade shall be determined by computing the average elevation of the ground for each face of the building, and taking the average of the total averages.
- (1) "Established street grade" means the elevation established by the City at the street curb in front of the lot.
- (2) "Finished grade" means the elevation of the finished surface of the ground adjoining the building after final grading and normal settlement.
- (3) "Natural grade" means the elevation of the undisturbed natural surface of the ground prior to any excavation or fill.
(Ord. 72-72. Passed 8-31-72.)
- (g) Gross Leasable Area. "Gross leasable area" means the total floor area designed for tenant occupancy and exclusive use, not including any areas used in common by tenants of a shopping center. Gross leasable area shall be expressed in square feet and shall be measured from the centerline of joint partitions and from outside wall faces.
- (h) Homes Association. "Homes association" means an incorporated, nonprofit organization operating under recorded land agreements through which each lot owner of a development area is a member, and each lot is subject to charges for a proportionate share of the expenses for the organization's activities such as maintaining the common property.
- (i) Hospital. "Hospital" means an installation used primarily for the inpatient medical, surgical, obstetrical or pediatric care and treatment of sick and disabled persons.
- (j) Hotel. "Hotel" means a building or part of a building, or a group of buildings containing rental units designed for or occupied primarily by transients. The term shall include, but not be limited to, any such building or building group designated as a motor lodge, motor inn, motel or any other title intended to identify it as providing lodging, for compensation.
- (k) Household. "Household" means any group of persons occupying a single dwelling unit; however, any group of persons, not related by blood or marriage, but inhabiting a single dwelling unit shall, for the purpose of this Zoning Code, be considered to constitute one family for each five persons, exclusive of domestic employees contained in such group.
- (l) Housing for the Elderly. "Housing for the elderly" means an installation other than a hospital, hotel or nursing home which provides dwelling units primarily for persons sixty years of age or older.
- (m) Junk Yard or Junk Storage. "Junk yard or junk storage" means the outdoor standing or placement of waste or scrap materials including but not limited to scrap iron or other metals, cans, automobiles, machinery, paper, rubber, rags, tires, lumber, concrete products, building materials or bottles.
(Ord. 69-98. Passed 9-8-98.)

1123.06 LETTERS L-M.

As used in this Zoning Code:

- (a) Landscaping. "Landscaping" means the treatment of the ground surface with lawn, other horticultural materials, walkways or suitable decorative surfacing approved by the City Landscape Architect and provided that any landscaped areas shall not be used for vehicular parking.
- (b) Loading Space. "Loading space" means an off-street space on the same lot with a building or group of buildings, for temporary parking of a commercial vehicle while loading and unloading merchandise or materials.
- (c) Lot. "Lot" means a parcel of land abutting a dedicated public street on which a principal building and its accessories may be placed, together with the required open spaces.
- (1) Lot, corner. "Corner lot" means a lot of which at least two adjacent sides abut a street, provided that such two sides intersect at an angle of not more than 135 degrees. A lot abutting upon a curved street or streets shall be considered a corner lot if the tangents to the curve at its points of beginning within the lot or at the points of intersection are not more than 135 degrees. In the case of a corner lot with a curved street line, the corner shall be considered to be that point of the street and lot line nearest to the point of intersection of the tangents herein described.
- (2) Lot depth. "Lot depth" means the mean horizontal distance of a lot measured between the front and rear lot lines.
- (3) Lot, interior. "Interior lot" means a lot other than a corner lot.
- (4) Lot, through. "Through lot" means a lot having front and rear lot lines abutting a street.
- (5) Lot width. "Lot width" means the horizontal distance of a lot measured along the building line at right angles to the mean lot depth line. Width of front lot line is measured on the street line or from the projections of such lines for corner lots.
- (d) Lot of Record. "Lot of record" means a parcel of land delineated and numbered on a plat recorded with the Cuyahoga County Recorder.
- (e) Lot Line.
- (1) Lot line, front. In the case of a lot abutting upon one street, the front lot line is the line separating such lot from such street. In the case of a corner or through lot, one such line shall be elected to be the front lot line for the purpose of this Zoning Code, provided it is so designated by the building plans filed for approval with the Director of Public Safety and the Planning and Zoning Commission.
- (2) Lot line, rear. The rear lot line is that boundary which is opposite and most distant from the front lot line. In the case of a lot pointed at the rear, the rear lot line shall be that assumed line parallel to the front lot line, not less than ten feet long, lying farthest from the front lot line and wholly within the lot.
- (3) Lot line, side. A side lot line is any lot boundary line not a front lot line or a rear lot line. A side lot line separating a lot from a street is a side street lot line. A side lot line separating a lot from another lot or lots is an interior lot line.

THROUGH, INTERIOR
& CORNER LOTS

LOT AREA = TOTAL HORIZONTAL AREA
(DEPTH X WIDTH)

LOT COVERAGE = PERCENT OF LOT OCCUPIED
BY BUILDING

INTERIOR LOT LAYOUT

(f) Map. "Map" means a drawing showing geographic, topographic or other physical features of the land.

(g) Master Plan. "Master Plan" means the plan and statement of the objectives and recommendations for the general location and extent of desirable future land development, community facilities and street plans for the City, officially accepted and duly adopted.

(Ord. 72-72. Passed 8-31-72.)

- (h) Medical Marijuana. Medical marijuana means marijuana that is cultivated, processed, dispensed, tested, possessed or used for a medical purpose.
- (1) Cultivator. Cultivator means an entity that has been issued a certificate of operation by the Ohio Department of Commerce to grow, harvest, package, and transport medical marijuana as permitted under Chapter 3796 of the Ohio Revised Code.
- (2) Dispensary. Dispensary means an entity licensed pursuant to Sections 3796.04 and 3796.10 of the Ohio Revised Code and any rules promulgated thereunder to sell medical marijuana to qualifying patients and caregivers.
- (3) Medical marijuana entity. Medical marijuana entity means a licensed medical marijuana cultivator, processor, dispensary or testing laboratory.
- (4) Processor. Processor means an entity that has been issued a certificate of operation by the Ohio Department of Commerce to manufacture medical marijuana products.
- (5) Testing laboratory. Testing laboratory means an independent laboratory located in Ohio that has been issued a certificate of operation by the Ohio Department of Commerce to have custody and use of controlled substances for scientific and medical purposes and for purposes of instruction, research or analysis.
- (Ord. 11-2017. Passed 2-28-17.)
- (i) Mobile Home. "Mobile home" means a dwelling designed for transportation after fabrication on streets or highways on its own wheels, on a flatbed or other trailer, ready for occupancy except for minor operations, connections to utilities and the like.
- (j) Motel. "Motel" means a building or buildings of attached, semidetached or detached rental units containing a bedroom and a bathroom providing facilities for overnight lodging primarily for the public traveling by motor vehicle, for compensation.
- (k) Municipality. "Municipality" means the City of Richmond Heights, Ohio.
- (Ord. 72-72. Passed 8-31-72.)

1123.07 LETTERS N-S.

As used in this Zoning Code:

- (a) Nonconforming Building. "Nonconforming building" means a building or portion thereof lawfully existing at the effective date of this Zoning Code (Ordinance 72-72, passed August 31, 1972) or amendments thereto, that does not conform to the provisions of this Zoning Code and/or the use regulations of the district in which it is located.
- (b) Nonconforming Lot. "Nonconforming lot" means a lot existing lawfully at the time the Zoning Code or an amendment thereto, became effective but which does not conform to the lot area, width, access or other requirements of the district in which it is located.
- (c) Nonconforming Use. "Nonconforming use" means a use of a building or land existing lawfully at the time the Zoning Code, or amendments thereto, became effective but which does not conform to the main or accessory use regulations of the district in which it is located.
- (d) Nursing Home. "Nursing home" means an installation other than a hospital, having as its primary function the rendering of nursing care for extended periods of time to persons afflicted with illness, injury or infirmity.
- (e) Parking. "Parking" means the standing or placement of motor vehicles currently used to transport people, goods or materials in the conduct of normal daily activities.
- (f) Parking Space. "Parking space" means the area required for parking an automobile which shall be a minimum of nine feet six inches wide and twenty feet long, but not including drives and aisles.
- (g) Pedestrian Way. "Pedestrian way" means a dedicated public right of way solely for pedestrian circulation.
- (h) Planning Commission. "Planning Commission" means the Planning and Zoning Commission of the City of Richmond Heights.
- (i) Plat. "Plat" means a map of a lot, parcel or subdivision on which the lines of each element are shown by accurate distances and bearings.
- (Ord. 72-72. Passed 8-31-72.)
- (j) Public Utility. "Public utility" means any person, firm, corporation, municipal department, board or commission duly authorized by law to furnish, and furnishing to the public, under specific governmental regulation of its operations including, but not limited to, government regulation of the rates charged to consumers, manner of the provision of its services, and siting of its facilities, the following services: electric, gas, steam, telephone, telegraph, transportation, water, or sewage disposal; and which services are necessary and essential to the public health and safety, which entities by necessity must locate certain facilities in the public rights-of-way, and which entities possess the power of eminent domain.
- (Ord. 17-97. Passed 4-22-97.)
- (k) Recreational Vehicles and Equipment.
- (1) Travel trailer. "Travel trailer" means a vehicular, portable structure, built on a chassis designed to be used as a temporary dwelling for travel, recreational and vacation uses, permanently identified "travel trailer" by the manufacturer.
- (2) Pick-up camper. "Pick-up camper" means a structure designed primarily to be mounted on a pickup or truck chassis and with sufficient equipment to render it suitable for use as a temporary dwelling for travel, recreational or vacation uses.
- (3) Motorized home. "Motorized home" means a portable dwelling designed and constructed as an integral part of a self-propelled vehicle.
- (4) Folding tent trailer. "Folding tent trailer" means a canvass folding structure, mounted on wheels and designed for travel and vacation use.
- (5) Boats and boat trailer. "Boats and boat trailer" means boats, floats and rafts, plus the normal equipment to transport the same on the highway.
- (Ord. 72-72. Passed 8-31-72.)
- (l) Restaurant. "Restaurant" means a place of business where food and beverages are prepared and assembled as meals and sold for consumption on the premises or in another location. The term "restaurant" does not include a grocery store, bakery, or other business in which the primary activity is preparation and sale of separate food items for off-premises consumption.
- (Ord. 5-2007. Passed 3-13-07.)
- (m) Right of Way. "Right of way" means all of the land included within an area which is dedicated, reserved by deed, or granted by easement for street purposes.
- (1) Roadway. "Roadway" means the pavement measured between curbs; that portion of a right of way available for vehicular travel, including parking lanes.
- (2) Tree lawn. "Tree lawn" means that portion of a right of way lying between the exterior line of the roadway and the outside right-of-way line.
- (n) Setback. "Setback" means the distance required to obtain the minimum front, side and rear open space provisions of the Zoning Code. Front yard setback shall be measured from the building line to the existing or proposed street right-of-way line, whichever is greater. If the Zone Map imposes a greater setback than the number of feet indicated in Chapter 1173, the Zone Map distance shall control.

(Ord. 72-72. Passed 8-31-72.)

- (o) Shopping Center. "Shopping center" means a group of commercial establishments, in separate or in common ownership, in which the land is planned, developed and operated as a single unit with a unified design of structures, parking, access drives, landscaped areas, and other common areas and facilities.
- (p) Sign. "Sign" means the use of any words, numerals, figures, devices, designs or trademarks by which anything is made known, such as to show an individual, firm, profession, business, product or message and which are visible to the general public.
- (q) Site, Building. "Building site" means the parcel or parcels of land which may be or shall be occupied by one or more buildings or structures for the uses permitted within a zoning district.
- (r) Site Plan. "Site plan" means a general plan illustrating the proposed use, layout and design for a building site, which shall delineate the following:
- (1) The dimensions of all lot and property lines, showing the relationship of the subject property to abutting properties. Such dimensions shall be shown in a scale of not less than 1 inch = 20 feet if the subject property is less than three acres and 1 inch = 100 feet if three acres or more.
- (2) The date, north point and scale.
- (3) The location of all existing and proposed structures on the subject property and all existing structures within 100 feet of the subject property.
- (4) The location of all existing and proposed drives and parking areas.
- (5) The location and right-of-way widths of all proposed and existing streets within the building site and all abutting streets and alleys.
- (6) The topography of the site designating contours at not less than one foot intervals.
- (7) Any area or areas to be preserved as open spaces.
- (8) Plans for sanitary sewerage and storm drainage facilities and all other utility installations and connections, including proposed exterior lighting fixtures.
- (9) The names and addresses of the architect, planner, designer or engineer responsible for the preparation of the site plan.
- (s) Storage, New Vehicle. "New vehicle storage" means the standing or placement of new operable automobiles or trucks not previously used.
- (t) Storage, Outside. "Outside storage" means the outdoor standing or placement of useable and potentially useable goods or equipment other than for display and not including waste or scrap materials.
- (u) Story. "Story" means that portion of a building between one floor level and the ceiling next above it which meets the requirements of the Building Code for a habitable room, but not including a basement as defined in this chapter.
- (v) Street. "Street" means a public way for purposes of vehicular travel, including the entire area within the rights of way. The term includes, but is not limited to, avenue, alley, boulevard, drive, highway, road and freeway. Streets shall be classified and further defined as follows:
- (1) Arterial street (major thoroughfare). "Arterial street" means a public street which is primarily for moving fast or heavy traffic between large or intensively developed districts and which has a right-of-way width of not less than eighty feet.
- (2) Collector street (secondary thoroughfare). "Collector street" means a street supplementary to and connecting arterial streets to local streets and which has a right-of-way width of more than sixty feet and less than eighty feet.
- (3) Local street. "Local street" means a street primarily for access to abutting residential properties and to serve local needs and which has a right-of-way width of not more than sixty feet.
- (w) Street Plan or Thoroughfare Plan. "Street plan" means the plan which shows the general location and extent of existing, planned and proposed streets and other transportation facilities for the City, duly adopted or officially accepted, separately or as a part of the Master Plan.
- (x) Structure. "Structure" means anything constructed or erected, the use of which requires location on or under the ground or attachments to something having location on the ground.
- (Ord. 70-98. Passed 9-8-98.)
- (y) Sweepstakes/Internet Cafe. "Sweepstakes/internet cafe" means any premises upon which any computerized sweepstakes device is located for the use or entertainment of the public, whether or not such premises has other business purposes of any nature whatsoever. (Ord. 37-2011. Passed 8-23-11.)
- (z) Subdivision. "Subdivision" means the division of any parcel of land shown as a unit or as contiguous units on the last preceding records of the County Auditor, into two or more sites or lots, any one of which is less than five acres for the purpose, whether immediate or future, of transfer of ownership or building development. Subdivision also includes the improvement of one or more parcels of land for residential, business or industrial structures or groups of structures, involving the division or allocation of land for the opening, widening or extension and maintenance of public sewers, drainage, water supply or other public facilities and the division or allocation of land as open spaces for common use by owners, occupants or lease holders.
- (Ord. 70-98. Passed 9-8-98.)

1123.08 LETTERS T - Z.

As used in the Zoning Code:

- (a) Tavern or Bar. "Tavern" or "Bar" means a place of business dispensing beer, wine, spirituous liquors, or mixed beverages by the drink for on-site consumption, and in which the sale of food products for on-site consumption is incidental or secondary to dispensing of said drinks.
- (Ord. 5-2007. Passed 3-13-07.)
- (b) Trailer Court, Trailer Camp. "Trailer court" and "trailer camp" means any plot of ground upon which two or more trailer coaches are parked or where public parking space for two or more trailer coaches is provided with facilities for incidental occupancy.
- (c) Use. "Use" means any purpose for which buildings, other structures or land may be arranged, designed, intended, maintained or occupied or any activity, occupation, business, profession or operation conducted in a building, other structure, or on land.
- (d) Use, Accessory. "Accessory use" means a use subordinate to the principal use and for purposes clearly incidental to those of the principal use.
- (e) Use, Principal. "Principal use" means the primary use to which the premises are devoted and the primary purpose for which the premises are used.
- (f) Yard. "Yard" means that portion of the open area on a lot extending between the building and the nearest lot line or between certain uses and the nearest lot line as required in the Zoning Code.
- (1) Yard, front. "Front yard" means an open space extending the full width of a lot and of a uniform depth measured horizontally at right angles to the front lot line, unoccupied from the ground upward, except as

hereinafter specified.

- (2) **Yard, rear.** "Rear yard" means an open space extending the full width of a lot and of a uniform depth measured horizontally at right angles to the rear lot line, unoccupied from the ground upward, except as hereinafter specified.
- (3) **Yard, required.** "Required yard" means the minimum yard required between a lot line and building line or the line of any parking area or any other use requiring a yard in order to comply with the zoning regulations of the district in which the zoning lot is located. A required yard shall be open and unobstructed from the ground upward except for projections on buildings as permitted in the Zoning Code and except for walks, landscaping and other yard or site features.
- (4) **Yard, side.** "Side yard" means an open space extending from the front yard to the rear yard and of a uniform width measured horizontally at right angles to the side lot line and unoccupied from the ground upward, except as hereinafter specified.
- (g) **Zoning Variance.** "Zoning variance" means a modification of the literal provisions of this Zoning Code, granted when strict enforcement of this Code would cause practical difficulty or undue hardship owing to the circumstances unique to the individual property on which the variance is granted. The crucial points of a variance are practical difficulty, undue hardship and unique circumstances applying to the specific property involved. A variance is not justified unless all elements are present in each case.
- (h) "Zoning Code" or "this Code" means Ordinance 72-72, passed August 31, 1972, as amended, codified herein as Title Five of Part Eleven - Planning and Zoning Code.
(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1125

Districts and Map

1125.01 Intent.

1125.02 Division into districts.

1125.03 Zone Map.

1125.04 District boundary lines.

1125.05 Public utility facilities.

1125.06 Access to structures.

1125.07 Moving of structures.

1125.08 Easement use.

1125.09 Prohibited uses.

1125.10 Zoning of vacated areas.

CROSS REFERENCES

Basis of districts - see Ohio R. C. 713.10

District defined - see ZON. 1123.03 (m)

Building moving prohibited - see ZON. 1171.03 (b)

Sign regulations for all districts - see ZON. 1179.06

1125.01 INTENT.

Except as hereinafter provided, no building or land or part thereof located in the City shall be used, altered, constructed, reconstructed, moved within or into the City except in conformity with the provisions of this Zoning Code which apply to the district in which it is located.

(Ord. 72-72. Passed 8-31-72.)

1125.02 DIVISION INTO DISTRICTS.

For the purpose of this Zoning Code the City is hereby divided into the following zoning districts:

Title	Abbreviation	(Formerly)
PUBLIC FACILITIES DISTRICT	PF	
RESIDENTIAL ZONING DISTRICTS		
Single-Family	R-1	U-1
Single-Family	R-2	
Single-Family	R-3	
Two-Family	RTF	U-2
Multiple-Family (Low Rise)	RMF-1	U-3D
Multiple-Family (Medium Rise)	RMF-2	U-3C
Senior/Adult	RS-1	
NONRESIDENTIAL ZONING DISTRICTS		
Office-Service	O-S	
Neighborhood Business	B-1	U-5
Regional Business	B-2	U-5
General Business	B-3	U-6
Office-Industrial	I-1	U-4
Industrial	I-2	U-4
OVERLAY ZONING DISTRICT		
Wireless Telecommunication Tower Overlay	WTTO	

The above classification of districts shall not be construed as an enumeration of the most restrictive to least restrictive districts except for the specific applications set forth in this Zoning Code.

(Ord. 15-97. Passed 4-22-97.)

1125.03 ZONE MAP.

The districts and abbreviations designated in Section 1125.02 and the locations and boundaries of the districts are established on a map entitled "Zone Map of the City of Richmond Heights, Ohio", dated June, 1972. The map and all notations, references, schedules and other information shown thereon are hereby made a part of this Zoning Code as if the matters and information set forth by the Map were all fully set forth and described herein.

(Ord. 72-72. Passed 8-31-72.)

1125.04 DISTRICT BOUNDARY LINES.

The district boundary lines of the Zone Map unless shown otherwise, are recorded lot lines, the center lines of streets or such lines extended and the limits of the City, provided, however:

- (a) Where the district boundary line is shown by dimension or relationship as being located a specific distance from and/or parallel to a street line, the distance shall control; or
- (b) Where a district boundary line divides a parcel of land, the location of such boundary, unless related to fixed points on the property boundary, shall be determined by scale and each part of the parcel shall comply with the regulations of the district in which it is located; or
- (c) Where a district boundary line does not coincide with any of the aforesaid lines and where it is not located by dimensions or fixed points shown on the Map, it shall be determined by the scale appearing thereon and in cases of other uncertainties, Council shall approve the exact location after application to and recommendation of the Planning and Zoning Commission.

(Ord. 72-72. Passed 8-31-72.)

1125.05 PUBLIC UTILITY FACILITIES.

In all zoning districts except industrial, public utility facilities and uses (without storage yards) when operating requirements necessitate the locating of such buildings and facilities within the district in order to serve the immediate vicinity, shall be permitted after review and approval of the site plan and upon a finding by the Planning and Zoning Commission that the use will not be injurious to the surrounding neighborhood and not contrary to the spirit and purpose of this Zoning Code.

(Ord. 72-72. Passed 8-31-72.)

1125.06 ACCESS TO STRUCTURES.

Every building or structure hereafter erected or moved shall be on a lot abutting a public street or permanent easement having a right of way not less than sixty feet in width.

(Ord. 72-72. Passed 8-31-72.)

1125.07 MOVING OF STRUCTURES.

All structures or parts of structures to be moved within or into the City shall require approval from the Planning and Zoning Commission and the Architectural Board of Review. Any application for a permit to move a building or structure within or into the City shall designate the proposed location of the building or structure and the secretary for the Planning and Zoning Commission of the City shall notify the abutting residents and those within five building lots on each side of the property, upon both sides of the street, of the date, time and place at which the Planning and Zoning Commission and the Architectural Board of Review shall review the application for approval to move the building or structure to the proposed location. In the event the proposed location is a corner lot, notification shall be given to all residents within five building lots of the intersection for each street forming the intersection. Such notice shall be in writing and delivered by first class mail or personal service at least fourteen days prior to the date of the hearing at which the application for moving shall be considered. Approval of the location of the building or structure shall be based upon a specific finding in writing that the structure or part of the structure will not be injurious to the surrounding neighborhood and not contrary to the spirit and purpose of this Zoning Code.

(Ord. 72-76. Passed 8-30-76.)

1125.08 EASEMENT USE .

Erection of permanent structures on easements for public utilities is prohibited. "Permanent structure" means and includes a garage or other building but shall not include a fence, retaining wall, free-standing wall, concrete walk, paving or any similar object which will prevent or interfere with the free right or opportunity to use or make the easement accessible for essential services.

(Ord. 72-72. Passed 8-31-72.)

1125.09 PROHIBITED USES.

No junk yards and no automobile trailer camps or tourist cabins shall be established in any zoning district. Automobile trailers, recreational vehicles, tourist cabins, similar portable dwellings or tents shall not be permitted to be used or occupied as dwellings in any zoning district.

(Ord. 72-72. Passed 8-31-72.)

1125.10 ZONING OF VACATED AREAS.

Whenever any street or portion thereof is vacated, such street or portion thereof shall automatically be classified in the same zoning district as the property to which it is attached.

(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1131

PF Public Facilities District

1131.01 Intent.

1131.02 Permitted uses.

1131.03 Yard, area and bulk requirements.

1131.04 Off-street parking.

1131.05 Walls and landscaping.

1131.06 Signs and lighting.

1131.07 Site plan review.

CROSS REFERENCES

Hospital defined - see ZON. 1123.05 (g)

Permitted signs - see ZON. 1179.04 (a)

1131.01 INTENT.

Public Facilities Districts are established in order to achieve, among others, the following purposes:

- (a) To provide a proper zoning classification for governmental, civic, welfare and recreational facilities in proper locations.
- (b) To protect such public and semipublic facilities and institutions from the encroachment of other uses and to make such uses compatible with adjoining residential uses.
- (c) To provide an environment for the proper functioning of public facilities in relation to the Master Plan and plans for community facilities.

(Ord. 72-72. Passed 8-31-72.)

1131.02 PERMITTED USES.

Buildings and land shall be used and buildings shall be designed, erected, altered, moved or maintained in a Public Facilities District only for the uses set forth as follows:

- (a) Governmental, Municipal and other governmental buildings and uses for administrative functions and use by the public.
- (b) Civic, Art galleries, libraries, museums, places for public assembly, memorials and churches.
- (c) Educational, Primary and secondary public, private or parochial schools.
- (d) Hospitals and Nursing Homes, As defined in Chapter 1123 of the Zoning Code.
- (e) Recreational, Public parks, recreational fields and playgrounds, swimming pools and golf courses.
- (f) Permitted Accessory Uses, Garages, parking, maintenance facilities and signs as hereinafter regulated.

(Ord. 108-90. Passed 10-23-90.)

1131.03 YARD, AREA AND BULK REQUIREMENTS.

Except as herein provided, yard, area and bulk requirements shall be regulated as set forth in Chapter 1173 .

The minimum distance between any two buildings within any PF District shall be regulated by the building distance formula set forth in Section 1147.07 .

(Ord. 72-72. Passed 8-31-72.)

1131.04 OFF-STREET PARKING.

Off-street parking shall be as required in Chapter 1175 .

(Ord. 72-72. Passed 8-31-72.)

1131.05 WALLS AND LANDSCAPING.

Walls and/or landscaping shall be as required in Chapter 1177 .

(Ord. 72-72. Passed 8-31-72.)

1131.06 SIGNS AND LIGHTING.

Signs and lighting shall be permitted only when in conformity with the provisions as set forth in Chapter 1179 .

(Ord. 72-72. Passed 8-31-72.)

1131.07 SITE PLAN REVIEW.

(a) No building or structure shall be erected on land used in a PF Public Facilities District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Planning Commission sixty days after the site plan has been presented to the Commission.

- (b) When recommending the approval of a site plan for a PF District, the Planning Commission may recommend and Council may impose such additional conditions as are necessary to secure the following objectives:
 - (1) That all the development features including the principal and accessory buildings, open spaces, service roads, buffer strips, set backs, driveways and parking areas are located so as to encourage pedestrian and vehicular traffic safety; and
 - (2) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the subject development.

(Ord. 36-81. Passed 9-8-81.)

CHAPTER 1135

R-1 and R-2 Single-Family Residential Districts

1135.01 Intent.

1135.02 Permitted uses.

1135.03 Residential Cluster Development (RCD).

1135.04 Yard, area and bulk requirements.

1135.05 Off-street parking.

1135.06 Walls and landscaping.**1135.07 Signs and lighting.****CROSS REFERENCES**

Floor area of single-family dwelling unit defined - see ZON. 1123.05 (e)

Side yards for attached single-family dwellings - see ZON. 1173.05 (e)

Location of accessory buildings - see ZON. 1173.05 (k)

Erection of single-family dwelling on nonconforming land - see ZON. 1181.04

1135.01 INTENT.

R-1 and R-2 Single-Family Residential Districts are intended to regulate the use of dwellings and their accessory activities in relation to districts having compatible characteristics, and to regulate the density of the population to avoid congestion, maintain adequate services, obtain proper light, air and privacy, and to promote the most beneficial use of land in accordance with the Master Plan of the City.

The regulations in this chapter shall apply to all R-1 and R-2 Districts.

(Ord. 72-72. Passed 8-31-72.)

1135.02 PERMITTED USES.

In the R-1 and R-2 Districts, no building or structure or part thereof shall be erected, altered, moved or used, or land used, in whole or in part, except as otherwise provided in this chapter for one or more of the following specified uses:

- (a) One-family dwellings.
- (b) Farms; buildings erected, altered or moved onto farms shall conform to all provisions of this chapter.
- (c) Churches. (Ord. 72-72. Passed 8-31-72.)
- (d) Public and private schools offering courses in general education and not operated for profit, state-certified day care centers or pre-schools provided that they are located within a permitted school or church, publicly owned buildings, libraries and parks, upon recommendation of the Planning and Zoning Commission and approval by Council, upon a finding that the use complies with the standards and criteria as follows:
 - (1) That the proposed use shall be in accordance with the objectives of the land use plan; shall be located so as to have access only on an arterial or secondary street; and may be located only on a local street provided that the extent and intensity of the proposed development will not substantially increase the volume and type of traffic movements on the local street;
 - (2) That the proposed use is necessary to serve the neighborhood or the residential community at large; that the need cannot be served satisfactorily or that its environment would not be compatible if located in a nearby less restrictive district;
 - (3) That the depth of the front yard and of the rear yard and the width of the side yards shall each be not less than 100 feet; and
 - (4) That the location, design and operation of such use will not discourage the appropriate development or impair the value of the surrounding residential areas

(Ord. 73-91. Passed 9-10-91.)

- (e) Community buildings, golf courses, country clubs or similar civic or social clubs but not a residential club or a club operated as a commercial enterprise, after approval granted by the Planning and Zoning Commission upon a finding that the use complies with the standards and criteria as follows:

- (1) That the proposed use shall be in accordance with the objectives of the land use plan and shall be located so as to have access only on an arterial street or major thoroughfare;
 - (2) That the proposed use is necessary to serve the neighborhood or the residential community at large; that the need cannot be served satisfactorily or that its environment would not be compatible if located in a nearby less restrictive district;
 - (3) That the depth of the front yard and of the rear yard and the width of side yards shall each be not less than 100 feet; and
 - (4) That the location, design and operation of such use will not discourage the appropriate development or impair the value of the surrounding residential areas.
- (f) Picnic grounds, athletic fields or similar areas for physical and outdoor exercises, and recreation areas which shall not be operated for a profit, provided such use is on open land and does not impair the residential appearance or character of such land, only after approval of the use and site development plan is granted by the Planning and Zoning Commission for a period not to exceed two years, upon a finding that the use complies with the standards and criteria as follows:
 - (1) That the proposed use shall be in accordance with the objectives of the land use plan; shall be located so as to have access only on an arterial street or major thoroughfare;
 - (2) That the proposed use is necessary to serve the neighborhood or the residential community at large; that the need cannot be served satisfactorily or that its environment would not be compatible if located in a nearby less restrictive district;
 - (3) That the subject property will act as a buffer or transitional area between a residential development and a nonresidential development;
 - (4) That the location, design and operation of such use will not discourage the appropriate development or impair the value of the surrounding residential areas; and
 - (5) That any capital improvements upon the subject property shall be of a temporary nature to preclude any unreasonable financial loss should the grant not be renewed upon expiration.

(Ord. 72-72. Passed 8-31-72.)

- (g) Accessory buildings or uses customarily incident to any of the above permitted uses, such as private garages and open parking facilities, private gardens, recreational and storage uses and structures, pools, fences and walls. One or two private garages for each residential lot in which there can be housed a maximum of three passenger vehicles shall be considered a legal accessory use.

(Ord. 114-77. Passed 11-22-77.)

- (h) A home-centered profession, occupation, or business (collectively referred to in this subsection as a "business") may be conducted only as an accessory use on a lot where a dwelling unit is being occupied and being used as a dwelling unit, provided that all of the following standards are maintained:

- (1) Home businesses that employ or engage persons in furtherance of the business at any time during a calendar year, other than a resident of the subject premises who is a member of the immediate family residing on the premises, must register the business with the City's Division of Building, Zoning and Housing (the "Division") on an annual basis and prior to January 31 of each year. An annual registration fee of fifty dollars (\$50.00) is required. A principal of the business shall supply the following information in the annual registration form supplied by the Division:
 - A. The official legal name of the business and the form of business entity;
 - B. The names of all principals and employees, whether fulltime, part-time or seasonal; if the nature of the business is seasonal, an estimate of the number of employees that will be employed during any particular season shall be given with the estimated period(s) of employment;
 - C. A description of the nature and operations of the business;
 - D. The federal tax identification number for the business; and
 - E. The number and types of vehicles used for the business, which information in the registration shall be updated in writing to the City's Division within thirty days of any change in the vehicles being used for the business taking place at the subject premises.
- (2) The business shall be conducted wholly within the dwelling unit, except:
 - A. Vehicles used in the furtherance of the business and all employees' vehicles must have a valid State of Ohio registration and license plate and may only park behind the imaginary line extending across the front of the main building on the lot to the side property lines of the lot (the "front building line"). On corner lots facing two public streets, there shall be no parking of such vehicles in a front yard or a side yard facing a public street, including the area of such side yard extended to the rear property line. One such vehicle, however, is permitted to be parked in the driveway of the lot if it otherwise meets the requirements of the Codified Ordinances of the City. There shall be no parking of such vehicles on a public street.
 - B. All vehicles and trailers associated with the business must be parked out of sight from all public rights-of-way and from other residential properties and parked in either an enclosed building or on pavement in an area as described in subsection (2)A. above and screened from view. Such screening shall consist of planted material that provides a year round, continuous visual screen to an initial height of at least six (6) feet. At a minimum such planted areas shall consist of two (2) staggered rows of evergreen (non-deciduous) vegetation. Landscaped earth mounds and fencing may supplement the planted screen in order to achieve the required screen density and height. The Commissioner of the Division or his/her designee shall determine the effectiveness of the selected screening. These screening requirements shall not apply where natural or man-made barriers exist which provide screening equivalent to that required herein as determined by the Commissioner of the Division or his/her designee. Screening shall be maintained in good condition at all times. All earth mounds and fences shall comply with the provisions of the City's Codified Ordinances.
 - C. There shall be no staging of business equipment, materials, and/or employees at the premises for the purpose of preparing to perform business activities off of the premises, except for one period of thirty (30) consecutive minutes in the a.m. hours of a day and for one period of thirty (30) consecutive minutes in the p.m. hours of a day and which shall not occur before 7:00 a.m. or after 8:00 p.m. All staging shall occur only behind the front building line. For purposes of this Section, "staging" is defined as loading or preparing materials or equipment to conduct business and employee participation in that activity but only by the number of employees permitted by subdivision (3) below.
 - D. There shall be no storage of business merchandise, supplies, refuse, spoils, or equipment outside of a completely enclosed building.
- (3) The number of business vehicles and the number of employees who do not reside at the premises and are not members of the immediate family residing at the premises that shall be permitted to be on the premises for purposes of conducting any activity related to the business shall be as follows:
 - A. For lots less than 15,000 square feet in area, there shall be no more than one vehicle and one employee.
 - B. For lots from 15,000 square feet to less than 43,000 square feet in area, there shall be no more than two vehicles and two employees.
 - C. For lots from 43,000 square feet to less than 60,000 square feet in area, there shall be no more than three vehicles and three employees.
 - D. For lots greater than 60,000 square feet in area, there shall be no more than four vehicles and four employees.
- (4) No business shall be permitted to operate in any portion of any dwelling unit or lot where the conduct of such business is or will be disruptive to neighboring property owners or occupants by reason of excessive noise, early or late hours of business activity, the intensity of the business activity, or where mechanical, electrical or motorized equipment used in furtherance of the business causes any disturbance, smoke, heat, glare, dust, odor, noise or other environmental pollution of any kind beyond the lot where the home business is located. The regulation of noise shall be as set forth in the City's Codified Ordinances.
- (5) There shall be no direct sales on the premises of merchandise or products manufactured, stored, or transferred on the premises, except for the sale of fruits and vegetables grown on the premises and by advance appointment only for the sale of small items made or produced on the premises, such as baked goods, individual custom-made clothing, goods made of cloth or similar materials, arts and crafts items, computer software, and similar items that can be hand-carried off of the premises by a single person. The provision of services to consumers on the premises shall be by advance appointment only. Open house-type events for a business are prohibited
- (6) There shall be no exterior alterations made to the dwelling unit or to an accessory structure for home business purposes which will change the appearance of the dwelling and accessory structure so as to indicate from the exterior that the building or buildings are being used for any purpose other than a residential use.
- (7) There shall be no sign, display, or other indications visible from outside any building on the premises that would indicate that the lot is being used, even in part, for any purpose other than that of a residential dwelling, except that a "Sign Plate", as defined in this Code, not to exceed two square feet in area, that is attached to the wall of the main building on the lot is permitted with no restriction on its content. The maximum size of a Sign Plate or the number thereof, as permitted by this Code, shall not be varied in any manner.
- (8) Except for child day care homes, motor vehicles shall only bring clients or customers to or from the home business between 9:00 a.m. to 9:00 p.m. daily. All such vehicles visiting the home business shall be parked on private property and comply with all other provisions of the Codified Ordinances of the City.
- (9) There shall be no excavating or earth moving equipment or no vehicles with a hauling capacity of over two tons permitted on a lot.

(Ord. 77-2010. Passed 12-14-10.)

- (i) On a parcel of land of less than ten acres, the growing and selling of produce and the keeping of bees, animals and fowl shall be permitted under this chapter, provided the same is produced entirely on such parcels of land and does not become a nuisance or detrimental to the public health, general welfare or safety of the community.
- (j) Animals, including fowl, other than pets, shall be housed in accessory buildings. No building or buildings shall be used or built for the housing of animals or fowl, other than pets, on the front half of any lot nor nearer than 175 feet to any adjoining dwelling, nor nearer than fifty feet to the dwelling of the owner thereof, and no animals which are or shall be in any way destructive, dangerous or detrimental to the public health, general welfare or safety of the community shall be kept, harbored or housed in any section of the City.

(Ord. 72-72. Passed 8-31-72.)

1135.03 RESIDENTIAL CLUSTER DEVELOPMENT (RCD).

(a) **Purpose.** The purpose of this section is to permit and regulate the development of one-family dwellings and attached one-family dwellings in a planned, clustered arrangement compatible with uses permitted in the district, in locations within the district where clustered development contributes to and does not detract from the character and function of the district, and in compliance with an approved development plan.

- (b) Permitted Districts. A residential cluster development may be permitted, by approval of the City Council, in an R-1 or R-2 Single Family Residential District in compliance with all provisions of this Section 1135.03 .
- (c) Uses. The uses which may be established within a Residential Cluster Development (which may be hereinafter referred to as an "RCD") are limited to the following:
- (1) One-family dwelling;
 - (2) Attached one-family dwelling, with no more than three (3) one-family dwellings attached to each other; no more than twenty-five percent (25%) of the dwelling units approved in an RCD shall be in attached one-family dwellings;
 - (3) Accessory buildings and uses as permitted in the District and as approved in the development plan; and
 - (4) Home occupations as permitted in the District.
- (d) General Standards. A Residential Cluster Development shall only be constructed in conformance with a development plan which, at a minimum, complies with the following general standards:
- (1) All structures and uses within the RCD shall be designed, located, and constructed in a manner which minimizes adverse impacts on abutting and nearby areas zoned for residential use. Structure dimensions shall be compatible with those in surrounding residential development.
 - (2) Features such as large open spaces, landscaping, fences and walls, and earth mounds shall be established to buffer or protect abutting and nearby areas zoned for residential use which are of lesser density per acre than the proposed RCD.
 - (3) Vehicular and pedestrian facilities shall be designed, located, and constructed in a manner which minimizes impacts on public vehicular and pedestrian facilities of the district and contributes to their effective functioning.
 - (4) An RCD shall not be permitted where utility demand or traffic generation exceeds the capacity of available infrastructure except where the applicant pays for necessary improvements and City Council finds such expanded infrastructure and improvements suitable in the area in which it is constructed.
 - (5) The RCD plan shall provide for reasonable extension or completion of street systems, walkways, utilities or other public facilities planned for the district in which the RCD is located.
- (e) Land Area for Residential Cluster Development; Phasing.
- (1) The RCD minimum area is five (5) acres of land.
 - (2) The RCD maximum area is forty (40) acres of land.
 - (3) The RCD must have frontage upon, or permanent access approved by City Council to, a public right-of-way.
 - (4) The area of the RCD shall be in one ownership or, if it is in several ownerships, all owners or their authorized representative shall sign all required applications to the Planning Commission for an RCD. Each owner shall be a party to all legal obligations and commitments required for the RCD.
 - (5) Requirements for Phased Development. If the RCD is proposed to be developed in two or more phases, each phase shall be constructed with adequate access, parking, storm water facilities, landscaping, buffers, and other improvements deemed necessary by City Council to ensure that the phases will be individually in compliance with the provisions of this Section 1135.03 , particularly with regard to the protection of the district and adjoining properties.
- (f) Density. Within the area of an RCD and as approved in the development plan, permitted dwelling units may be constructed up to the following maximum gross densities:
- (1) R-1 District: The maximum density permitted in the R-1 District shall be three (3.0) units per gross acre of the total development. The gross density on the developable area shall not exceed five (5.0) dwelling units per acre.
 - (2) R-2 District: The maximum density permitted in the R-2 District shall be three (3.75) units per gross acre of the total development. The gross density on the developable area shall not exceed five (5.0) dwelling units per acre.
 - (3) As used in the foregoing paragraphs, "developable area" means all that area of an RCD excluding those parts which, in their natural, pre- development state:
 - A. Have slopes in excess of 15% in a vertical distance greater than twenty (20) feet;
 - B. Are Category II or III wetlands as defined by the Ohio Environmental Protection Agency;
 - C. Are federally-designated floodplains;
 - D. Are open water bodies which will not be removed by the development;
 - E. Are within the high water level of a natural watercourse; and/or
 - F. Are located or configured in a manner which prohibit their integration into the design and development of the actual cluster dwelling area (e.g., isolated remnants of land).

The Planning Commission may recommend and Council may approve exceptions to the foregoing developable area exclusions where it is found that the exceptions are necessary in the interest of creating a safe and functional cluster development and are not contrary to the public health, safety and general welfare of the City.
 - (4) The Planning Commission may recommend, and City Council may require, a lesser density than provided in subsections (1) and (2) above where it is found that the maximum density is not appropriate due to one or more of the following factors:
 - A. The size, shape, or natural features of the land(s) proposed for the RCD;
 - B. The size, shape, or location of the area proposed for the construction of dwellings; and/or
 - C. Conditions of abutting properties, such as the locations of existing structures or the dimensions of lots.
- (g) Dimensional Standards.
- (1) Floor area. Each dwelling unit shall have a minimum floor area as provided in Section 1173.03 .
 - (2) Lots. An RCD may have a choice of three possible forms of property ownership for dwellings and the land associated therewith: (i) condominium ownership under state law; (ii) de minimus lots; or (iii) lots with lot lines greater than six (6) feet from the foundations of the dwellings. Different special standards may apply to each of these three (3) types of property ownership.
 - A. Each dwelling unit shall be placed on a separate lot except where the entire RCD is established within a single plan for condominium ownership under state law.
 - B. Where lots are established, every lot shall have frontage on a dedicated public street or on a permanent easement of access to a dedicated public street.
 - (3) Exterior setbacks for RCD. The following minimum setbacks shall be required for all buildings, parking areas, active recreation facilities, and other significant structures or uses:
 - A. Setback from a public street right-of-way line which forms a boundary of the RCD: Sixty (60) feet. The setback area shall be permanently landscaped as approved in the development plan.
 - B. Setback from a property line which forms a boundary of the RCD, other than a public street right-of-way line: Fifty (50) feet, except that, if approved in the development plan, the setback may be reduced to thirty-five (35) feet with a combination of landscaping and a board-on-board fence six (6) feet in height constructed along the property line or in a location approved in the development plan.
 - C. In an RCD which is developed with lots as provided in (g)(6) below, an area of land at least twenty-five (25) feet wide shall be located between every lot within the RCD and every lot outside of the RCD. This area shall be permanently landscaped as approved in the development plan and shall be owned by the homeowner's association.
 - (4) Setbacks from new streets in an RCD. The following minimum setbacks shall be required for all buildings:
 - A. Setback from new public street right-of-way line within the RCD: As recommended by the Planning Commission and finally determined by Council on a case-by-case basis, and within the sole discretion of the Council.
 - B. Setback from private street (from back of sidewalk or, if no sidewalk, back of curb): Twenty (20) feet. Garage door setback: Twenty-five (25) feet.
 - (5) Minimum dwelling separation, outdoor living area. Within an RCD which is established as a condominium, or within an RCD with de minimus lots, separations shall be required:
 - A. Except for the attached side(s) of an attached dwelling unit, each building shall be at least fifteen (15) feet from every other building.
 - B. One side of each dwelling unit shall be at least sixty (60) feet from the nearest building (except from a unit to which it is attached).
 - C. Within an RCD with lot lines, subject to site plan approval, one lot line may be located not more than twenty (20) feet from the dwelling for the purpose of constructing an addition, provided such addition will comply with all other provisions of this Code.
 - D. The locations of the minimum separation areas for each dwelling unit, as provided in A. and B. above, shall be drawn on the development plan and shall control the locations of dwellings.
 - E. Outdoor Living Area. An outdoor living area shall be established for each dwelling unit, with dimensions not less than 400 square feet in total area and not greater than fifteen (15) feet from the dwelling unit. Such outdoor living area shall not be part of the outdoor living area of any other dwelling unit, common area, landscaped buffer, preserved wetlands, or slopes over 15%. The outdoor living area shall be located adjacent to the rear or side of the dwelling unit unless otherwise approved in the development plan.
 - F. Except as provided in subsection C above, the lot lines for de minimus lots shall be located coincident with or not more than six (6) feet from the foundations of the dwellings as drawn on the approved final plat. When a dwelling is constructed on an approved de minimus lot and the distance between the foundation and the platted lot line is greater than six (6) feet, then the lot and dwelling shall be deemed to comply with this ordinance.
 - (6) Minimum lots and yards. Within an RCD with lots which have lot lines which are more than six (6) feet from the foundations of the dwellings, the following minimum lots and yards shall be required, in addition to complying with (3) and (4) above:
 - A. Minimum side yards shall be seven and one-half (7.5) feet.
 - B. Minimum front yard shall be twenty (20) feet. However, the garage door shall be a minimum of twenty-five (25) feet from the front lot line.
 - C. Minimum rear yard shall be twenty-five (25) feet.
 - D. The locations of the minimum setback lines for each lot shall be drawn on the development plan and shall control the locations of dwellings.
 - E. Minimum lot area shall be five thousand (5,000) square feet.
 - F. Minimum lot width shall be fifty (50) feet.
 - (7) Maximum height. Maximum height shall be as provided for the District in Sections 1135.04 (c) and 1173.03 .
 - (8) Setbacks from undevelopable areas. All buildings shall be setback at least fifteen (15) feet from the areas excluded from "developable areas" as provided in subsection (f)(3).
- (h) Roads.
- (1) City Council shall determine which streets within an RCD shall be dedicated as public roads and which shall be private roads.
 - (2) A private road shall be constructed in compliance with the standards for public roads established in the Planning and Zoning Code except that a private road may be constructed to lesser standards of width than required by the City's standards in the Planning and Zoning Code where, subsequent to consultation with the City Engineer, the Chief of Fire and the Chief of Police, it is found:
 - A. That the lesser standard is sufficient to serve the character and safety needs of anticipated traffic;
 - B. That the parking demand of the area served is satisfactorily served by other parking facilities and that on street parking will not be necessary;
 - C. That the public health, safety and welfare will be served by the lesser standard; and
 - D. That construction to the lesser standard will not negatively affect the function of the street system of the RCD and the district in which it is located.
 - (3) When a private street or drive is approved as the means of access from a dwelling or lot to a public street, the following language shall be included in the deed for the dwelling or lot:

"The undersigned grantee(s) hereby acknowledge(s) that (he, she, they) understand that the premises described herein relies upon a non- dedicated private street or common drive as its sole means of access to a public street and that no government body is responsible for care and maintenance of the private street or common drive."
 - (4) Sidewalks and treelawns shall be constructed for public roads as required by the Planning and Zoning Code. Sidewalks and treelawns shall be constructed for private roads as approved in the development plan. At a minimum, a sidewalk shall be provided on at least one side of every private street. In lieu of the provision of sidewalks, a trail system may be approved at the sole discretion of the Planning Commission and City Council.
- (i) Parking.
- (1) At least two (2) enclosed parking spaces shall be provided for each dwelling unit, attached to the unit.
 - (2) At least two (2) unenclosed parking spaces shall be provided for each dwelling unit, located within forty (40) feet of the entry to the dwelling unit. Where the driveway is used for parking, the depth of the paved area (outside of any public right-of-way or traveled portion of any private street or drive) shall be at least twenty-five (25) feet.
 - (3) At least one quarter (0.25) unenclosed parking spaces shall be provided for each dwelling unit in a common parking lot or lots or on a public or private street located as approved in the development plan. Common parking areas shall be setback at least twenty (20) feet from any public road and at least ten (10) feet from any dwelling.
- (j) Common Areas.
- (1) Common areas shall be established as required in the development plan.
 - (2) Except where included within a condominium ownership plan, all common areas shall be located on a lot or lots having frontage on a public street or having access thereto via an easement.
 - (3) A minimum of five percent (5%) of the developable area (see subsection (f)(3)), shall be improved as landscaped open space area(s) designed for use by all residents of the RCD. The area(s) may include common recreation facilities, sitting areas, walking or biking trails, picnic areas, gazebos, community rooms, cluster mail stations, or similar facilities as approved in the development plan. The location, shape, features, and other characteristics of the area(s) shall be designed to be accessible to and encourage use by all residents of the RCD. The area(s) shall not include areas otherwise required by

these regulations such as required separation between buildings, RCD exterior setbacks, parking areas, drives, parts of private lots, and similar areas.

The number, size and configuration of the area or areas shall be as approved in the development plan.

(k) **Architectural Standards.** All structures, landscaping, and other features of the RCD shall comply with the standards established in the architectural design plan and guidelines approved in the development plan and as approved by the Architectural Board of Review.

(l) **Homeowner Association.** A homeowner association, condominium association or similar legal entity approved by City Council shall be created to maintain and control common areas and facilities of the RCD. At a minimum, the association's bylaws, covenants and restrictions, or code of regulations shall include all of the following:

- (1) Membership in the association shall be mandatory for all owners of lots and dwelling units.
- (2) The association shall be responsible for control, maintenance, and insurance of all common areas and facilities.
- (3) The association shall have the power to impose assessments on members for the costs of control, maintenance, and insurance of common areas and facilities; shall have the power to place liens against individual lots and dwelling units for failure to pay assessments; and shall have the power to establish and enforce rules and regulations for use and payment of the assessments.
- (4) The association shall have the authority to enforce reasonable rules and regulations governing the use, control, maintenance, and insurance of common areas and facilities.
- (5) The conditions and timing of transfer of control of the association and its assets and liabilities from the developer to the owners of lots and dwelling units shall be clearly stated.
- (6) The association shall only authorize its dissolution or the sale, transfer, or other disposal of any common area of facilities, including common open space, with an affirmative vote of at least seventy-five percent (75%) of its members, and having first established a successor entity to take over the common areas and facilities; and with the approval of City Council.
- (7) Upon its establishment, the association shall convey to the City and other appropriate government bodies the right to entrance, after proper notice, to any common area for emergency purposes or in the event of nonperformance of maintenance or improvements affecting the public health, safety, and welfare. The City shall have the right, after proper notice: to make improvements and to perform maintenance; to proceed against the association for reimbursement of the costs thereof; and to file liens against individual owners of lots and dwellings.
- (8) Any amendments to the foregoing provisions required by subsections (1) through (7) shall be approved by the City Council.
- (9) When a homeowner association is created for an RCD having de minimus lots, the homeowner association shall be perpetually responsible for the maintenance and control of all land on de minimus lots outside of the foundations of the dwellings.

(m) **Procedure for Review and Approval of RCD.**

(1) **Preliminary Approval Procedure.**

A. The applicant shall submit an application to the Planning Commission which shall include, at a minimum, the following:

1. Development plan including:
 - a. Illustration of existing conditions including "developable" and "undevelopable" areas, existing structures and lot lines within one hundred (100) feet of all boundaries of the proposed RCD area;
 - b. Preliminary site plan illustrating all proposed structures and lots, public and private streets, common areas, setbacks and separations;
 - c. Preliminary architectural plans and guidelines;
 - d. Preliminary landscape plans for all common areas; locations of buffers and fences;
 - e. Preliminary utility plan; and
 - f. Preliminary grading and storm water facility plan.
 2. Preliminary Plat. If the RCD is proposed to create lots, a preliminary subdivision plat shall be submitted complying with the requirements of the Planning and Zoning Code. Where a plat is required, approval of the preliminary RCD shall only be granted subject to approval of the preliminary plat.
 3. Draft of proposed bylaws, covenants and restrictions, and code of regulations for condominium or homeowners association.
 4. The Planning Commission may, subsequent to consultation with the City Engineer, require a traffic impact study, prepared by a qualified traffic engineer, projecting the volumes of traffic to be generated by the RCD and evaluating the impacts on streets accessed by the RCD.
- B. The Planning Commission shall review the application and, within sixty (60) days after receipt, make a recommendation to City Council to approve, approve with conditions and amendments, or deny the preliminary application for the RCD.
- C. Within sixty (60) days after receipt of the recommendation of the Planning Commission, City Council shall take action to approve, approve with conditions and amendments, or deny the preliminary application for the RCD.

(2) **Final Approval Procedure.**

- A. Approval by City Council of the preliminary application for the RCD shall authorize the applicant to submit a final application for the RCD. The final application shall be submitted within six (6) months after the approval of the preliminary application or the approval shall lapse.
- B. The applicant shall submit a final application to the Planning Commission which shall include, at a minimum:
1. Detailed Development Plan, conforming with the approved preliminary application, and including:
 - a. Detailed site plan illustrating all proposed structures and lots, easements, rights-of-way, common areas, setbacks and separations, "developable" and "undevelopable" areas;
 - b. Detailed architectural plans and guidelines for all structures;
 - c. Detailed landscape and lighting plans for all common areas; locations of buffers and fences; typical landscape plans for all dwellings;
 - d. Detailed utility construction plans;
 - e. Detailed grading and storm water management plan; and
 - f. Phasing plan. If development of the RCD will be in phases, the area and features of each phase.
 2. Development Agreement committing the applicant to construct within two years the improvements specified in the approved Detailed Development Plan, including financial guarantees for all public improvements and private improvements, including but not limited to: roadways, water lines, sanitary and storm sewers, storm water facilities, sidewalks, walking and biking trails, recreational facilities, and landscaping amenities and screening in common areas (including but not limited to plantings, earthen mounds, fences, walls, planters, benches, mail stations and other such items). Financial guarantees shall be as approved by the City Engineer and the Director of Law. The Development Agreement shall also require from the applicant, or any successor in interest to the RCD, a maintenance bond in an amount equal to twenty percent (20%) of the final construction cost of all improvements, both public and private, to guarantee the workmanship and material for a period of two (2) years following the completion of all improvements and the release of the original financial guarantee.
3. Final Plat. If the RCD is proposed to create lots, a final subdivision plat complying with the requirements of the Subdivision Regulations. Where a plat is required, approval of the final RCD shall only be granted subject to approval of the final plat.
4. Final bylaws, covenants and restrictions, and code of regulations of the condominium or homeowners association, in a recordable format.
- C. The Planning Commission shall review the detailed development plan, development agreement, final plat, bylaws, and deed restrictions of the RCD and within sixty (60) days after receipt, make a recommendation to City Council to approve, approve with conditions and amendments, or deny the aforesaid. Within sixty (60) days after receipt of the recommendation of the Planning Commission, City Council shall take action to approve, approve with conditions and amendments, or deny the aforesaid documents.
- D. In conformance with the provisions of this section and subsequent to completion of all procedures and approvals required herein, the Zone Map shall be marked to indicate the boundaries of the RCD within which the provisions of the approved development plan shall be enforced.
- E. The final bylaws, covenants and restrictions, and code of regulations of the condominium or homeowners association shall be recorded with the County Recorder's Office prior to the issuance of any building permits for the RCD.
- F. Amendment of Plans. An approved, detailed RCD development plan may be amended with the approval of the Planning Commission provided the amendments comply with the approved preliminary development plan. When the Planning Commission determines that an amendment is not consistent with the approved preliminary development plan, the Commission shall make a recommendation to City Council for approval, approval with conditions, or denial.

(Ord. 14-2003. Passed 6-10-03; Ord. 29-2007. Passed 6-27-06.)

1135.04 YARD, AREA AND BULK REQUIREMENTS.

- (a) In R-1 and R-2 Districts, there shall be a front yard, a side yard on each side of every lot and a rear yard. Except as herein provided, the minimum widths and depths shall be as set forth in Chapter 1173 .
- (b) The height and bulk of buildings, the required minimum lot area, the minimum setback requirements, the minimum floor area and the maximum percent of the area of a lot that one-family dwellings together with accessory buildings may occupy shall be set forth in Chapter 1173 .

(Ord. 85-73. Passed 10-23-73.)

(c) **Accessory Buildings.** All accessory buildings, either attached or detached shall be considered as part of the main building in computing the percent of lot coverage in Chapter 1173 . Where a rear yard abuts upon a street (such lot is commonly known as a through lot), accessory buildings shall not occupy any of the minimum required rear yard space. On a corner lot, accessory buildings shall not occupy any of the rear yard lying nearer to the street than the width of the yard required on such lot and abutting on such street.

- (1) A private garage may be an integral part of the main building or it may be attached to the main building. A private garage may be detached from the main building, but shall not exceed one story of fifteen feet in height and shall conform to all yard requirements for a main building. A single-car attached garage and a two-car detached garage, or a two-car attached garage and a single-car detached garage, or a three-car detached or attached garage is permitted, provided that the total number of vehicle spaces does not exceed three and further provided that the total garage size does not exceed 24 by 36 feet. Any garage must have a driveway connected with a street.
- (2) Except for a private garage, all other buildings designed and intended for accessory uses shall conform to the following requirements:
 - A. The maximum height shall be eight feet for a flat roof and eleven feet for a gabled, hip, mansard or gambrel roof.
 - B. On lots 15,000 square feet or less in area, the floor area shall not exceed 120 square feet.
 - C. On lots larger than 15,000 square feet, the floor area shall not exceed one percent of the lot area. However, in no event shall the floor area exceed 240 square feet.
- (3) Not more than one accessory building, whether it is a garage or other accessory use, is permitted on any residential lot.

(Ord. 17-87. Passed 5-12-87.)

1135.05 OFF-STREET PARKING.

Off-street parking shall be as required in Chapter 1175 .

(Ord. 72-72. Passed 8-31-72.)

1135.06 WALLS AND LANDSCAPING.

Walls and/or landscaping shall be as required in Chapter 1177 .

(Ord. 72-72. Passed 8-31-72.)

1135.07 SIGNS AND LIGHTING.

Signs and lighting shall be permitted only when in conformity with the provisions as set forth in Chapter 1179 .

(Ord. 72-72. Passed 8-31-72.)

1139.01 INTENT

The R-3 Single-Family Residential District is intended to permit and to relate to the type, design and layout of attached and detached single-family residential development to the particular site in a manner consistent with the preservation of the property values in established residential areas.

This District is intended to encourage a more efficient and desirable use of land and to provide a greater variety of designs and layouts of single-family buildings, and improve the environment of single-family developments in accordance with the objectives of the Master Plan.

This District is specifically intended to prohibit multiple-family buildings where entry to individual dwelling units is from an interior common area or where individual dwelling units are attached in any way other than by their side walls.

(Ord. 72-72. Passed 8-31-72.)

1139.02 PERMITTED USES.

In an R-3 District, no building or structure or part thereof shall be erected, altered, moved or used or land used, in whole or in part, except as otherwise provided in this chapter for one or more of the following uses:

- (a) All uses permitted in R-1 and R-2 Single-Family Residential Districts.
- (b) Single-family attached dwellings with not more than six attached dwelling units.
- (c) Accessory buildings and uses permitted in R-1 and R-2 Districts.
- (d) Recreational uses, including, but not limited to, parks, swimming pools, pavilions and tennis courts. The entire area of the District shall be treated to service the residents of the District and any accessory buildings, uses or services shall be developed solely for the use of the residents of the District.

(Ord. 72-72. Passed 8-31-72.)

1139.03 GENERAL REQUIREMENTS.

- (a) Ingress and egress to the R-3 District shall be provided only by an arterial or secondary street or freeway service drive.
- (b) All land within the District shall be contiguous and shall not be divided into parts by:
 - (1) An arterial street;
 - (2) Any State or Federal limited access highway; or
 - (3) Any large area of land not included within the District.
- (c) An R-3 District shall contain not less than fifty acres of land.

(Ord. 72-72. Passed 8-31-72.)

1139.04 DENSITY CONTROL.

The density of the dwelling units shall be controlled by the following requirements:

- (a) Not less than thirty-five percent of the total number of dwelling units shall be detached single-family dwellings. There shall be not less than 6,000 square feet of lot area for each attached dwelling unit and not less than 9,375 square feet of lot area for each detached dwelling unit not including any reserved open space or any existing public streets or any public right of way dedications that may be required as a condition of the site plan review.
- (b) There shall be not more than four dwelling units per gross acre of the District. In computing the overall density, the entire area of the District may be used in the computation, including all areas intended for use for streets, dwelling units, recreational areas and other open spaces.

(Ord. 72-72. Passed 8-31-72.)

1139.05 OPEN SPACE AND RECREATIONAL AREAS.

Not less than fifteen percent of the land constituting the R-3 District shall be reserved as contiguous, landscaped open space in which no buildings or structures, other than buildings or structures for recreational uses, shall be constructed. Such open space, including any recreational facilities proposed to be constructed in such space shall be clearly delineated on the site plan together with descriptive data as to the methods to be employed to preserve and maintain such open space. All open space land shown on the site plan must contain legally enforceable reservations and restrictions which will insure the preservation of such land for recreational and similar use in perpetuity and absolutely prohibit development of such open space land, except for the above collective uses for the use of the owners and residents without profit.

Legal title to the open spaces must be transferred to a nonprofit homes association in which the property owners or residents within the district have control when at least fifty-one percent of the number of dwelling units within the District have been occupied.

(Ord. 72-72. Passed 8-31-72.)

1139.06 SUBDIVISION AND DEVELOPMENT.

No land within an R-3 District shall be subdivided so as to conflict with the final development plan. Prior to the issuance of any building permit to the owner, the owner shall provide financial guarantees acceptable to the City in an amount determined by the City Engineer and equal to the estimated total cost of materials and labor required to install or construct the site improvements, including but not limited to, parking areas, drives, walks, malls and yards, outside lighting, grading, drainage and sanitary sewerage systems as determined by the Engineer.

(Ord. 72-72. Passed 8-31-72.)

1139.07 SITE PLAN REVIEW.

- (a) No building or structure shall be erected or land used in any R-3 Single-Family Residential District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Planning Commission within sixty days after the site plan has been presented to the Commission.
- (b) When recommending the approval of a site plan for an R-3 District, the Planning Commission may recommend such additional conditions as are necessary to secure the following objectives:
 - (1) That the site plan shall be in accordance with the objectives of the land use plan;
 - (2) That the proposed land use shall encourage designs in which new buildings will create an orderly arrangement with the landscape which will be in scale with surrounding residential buildings and the environment so as to conserve trees and other natural topographic features;
 - (3) That all the development features including the principal and accessory buildings, open spaces, service roads, driveways and parking areas shall be located so as to encourage pedestrian and vehicular traffic safety; and
 - (4) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the District. (Ord. 72-72. Passed 8-31-72.)

1139.08 YARD, AREA AND BULK REQUIREMENTS.

- (a) Except as herein provided, the height and bulk of buildings, the required minimum lot area, the minimum setback requirements, the minimum floor area of each attached and detached dwelling, and the maximum percent of the area of a lot that each attached and detached dwelling together with accessory buildings may occupy, shall be as set forth in Chapter 1173 .

- (b) No building shall be less than fifty feet from a perimeter line of the District.
- (c) Front yard setbacks may be designed and adjusted to accommodate topographic and natural features of the site and the particular building design. Setbacks from the front property line may be reduced to a minimum of fifty feet, provided that the average depth of the front yards for the entire District area shall be not less than the setback established for the District.

- (d) Side yard requirements between unattached single-family dwellings may be modified by narrowing the side yards adjoining service rooms of the dwelling which do not require side yard windows, thereby attaining greater space and privacy in the opposite side yards. Such compositions may be combined to create a designed pattern of open courts along the streets.

(Ord. 72-72. Passed 8-31-72.)

1139.09 OFF-STREET PARKING.

Off-street parking shall be as required in Chapter 1175 .

(Ord. 72-72. Passed 8-31-72.)

1139.10 WALLS AND LANDSCAPING.

- (a) Except as provided in subsection (b) hereof, walls and/or landscaping shall be as required in Chapter 1177 .
- (b) An unpierced, solid masonry wall shall be required whenever off-street parking areas are adjacent to R-1 or R-2 Single-Family Districts, provided, however, that a buffer strip of not less than thirty feet in width may be permitted upon a finding by the Planning Commission that the buffer strip would provide equal or greater protection to the District from any adverse effects from the use of such parking areas.

(Ord. 72-72. Passed 8-31-72.)

1139.11 SIGNS AND LIGHTING.

Signs and lighting shall be permitted only when in conformity with the provisions set forth in Chapter 1179 .

(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1143

RTF Two-Family Residential District and

RMF-1 Multiple-Family Residential District - Low Rise

- 1143.01 Intent.**
- 1143.02 Permitted uses.**
- 1143.03 General requirements.**
- 1143.04 Site plan review.**
- 1143.05 Dwelling area requirements.**
- 1143.06 Yard, area and bulk requirements.**
- 1143.07 Off-street parking.**

1143.08 Walls and landscaping.

1143.09 Signs and lighting.

CROSS REFERENCES

- Multiple-family dwelling defined - see ZON. 1123.03 (p)
- Multiple-family low rise dwelling defined - see ZON. 1123.03 (q)
- Access to structures - see ZON. 1125.06
- Location of accessory buildings - see ZON. 1173.05 (k)

1143.01 INTENT.

The RTF Two-Family and the RMF-1 Multiple-Family Residential Districts (Low Rise) are designed to provide sites for two-family and multiple-family dwelling structures which will generally serve as zones of transition between nonresidential districts and the lower density single-family districts. The RTF and RMF-1 Districts are further provided to serve the limited needs of the apartment type of unit in an otherwise low density, single-family community.

(Ord. 72-72. Passed 8-31-72.)

1143.02 PERMITTED USES.

In an RTF Two-Family District and an RMF-1 Multiple-Family District, no building, structure or land shall be erected or used except for the following specified uses unless otherwise provided in this chapter:

- (a) All principal uses permitted in single-family residence districts with all the requirements equal to at least the requirement of the most restrictive immediately abutting residential district or if there is none the requirements of the least restrictive residential district shall apply.
- (b) Two-family dwellings, provided such use conforms to all the requirements for RTF Districts set forth in Chapter 1173 .
- (c) Multiple-family dwellings not in excess of two stories in RMF-1 Districts.
- (d) Housing for the elderly, when the following conditions are met:
 - (1) All housing for the elderly shall be provided as a planned development on a site of at least five acres in area and shall provide for the following:
 - A. Cottage type dwelling and/or apartment type dwelling units.
 - B. Common services containing but not limited to a recreational room, central lounge and a workshop.
 - (2) All dwelling units shall consist of at least a living room, bedroom and private bath with stall shower and toilet and each unit shall contain not less than 600 square feet for one bedroom unit and 750 square feet for two bedroom units.
- (3) Such housing shall include the following:
 - A. Nonskid floors.
 - B. Doors of sufficient width to accommodate wheelchairs.
 - C. Electric outlets at levels at least twenty-four inches above the floor.
 - D. Grab bars around bathtubs (where bathtubs are provided), showers and toilets.
 - E. Handle-type spigots and door knobs.
 - F. Emergency signals which ring in adjoining apartments or at a central location.
- (4) For each one dwelling unit there shall be provided not less than 3,500 square feet of land area. Within this area a minimum of 900 square feet per dwelling of contiguous landscaped open space shall be provided apart from the area required for off-street parking and driveways.
- (5) The total coverage for all buildings shall not exceed twenty-five percent of the site.
- (6) The owner shall file with the Cuyahoga County Recorder a covenant, approved as to form by the City Law Director, in which the owner shall covenant on behalf of himself, his heirs, executors and assigns not to use the property for any other use unless the use complies with all requirements of the Zoning Ordinance.
- (e) Accessory buildings and uses customarily incident to any of the above permitted uses such as off-street parking, garages, recreational areas, pools, fences and walls.

(Ord. 72-72. Passed 8-31-72.)

1143.03 GENERAL REQUIREMENTS.

RTF and RMF-1 Districts shall be located so as to have access only to an arterial street; except that access driveways may be permitted to other than an arterial street where the property directly across the street from the driveways and all property abutting such street between the driveways and an arterial street are located in multiple-family or nonresidential use districts.

(Ord. 72-72. Passed 8-31-72.)

1143.04 SITE PLAN REVIEW.

(a) No building or structure shall be erected or land used in any RTF Two-Family or RMF-1 Multiple-Family Residential District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Planning Commission within sixty days after the site plan has been presented to the Commission.

(b) When recommending the approval of a site plan for an RTF or an RMF-1 District, the Planning Commission may recommend such additional conditions as are necessary to secure the following objectives:

- (1) That all the development features including the principal and accessory buildings, open spaces, service roads, driveways and parking areas shall be located so as to encourage pedestrian and vehicular traffic safety; and
- (2) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the subject development.

(Ord. 72-72. Passed 8-31-72.)

1143.05 DWELLING AREA REQUIREMENTS.

Except as herein provided, the minimum rooms and floor area requirements shall be as follows:

(a) All dwelling units in an RMF-1 District shall have at least one living room and one bedroom and kitchen and sanitary facilities. The minimum floor area requirements shall be as follows:

One bedroom unit	800 square feet
Two bedroom unit	1,000 square feet
Three bedroom unit	1,200 square feet
plus 200 square feet for each bedroom over three.	

In addition to the floor area requirements set forth above, at least eighty square feet of general storage space, exclusive of household closets, shall be provided for each dwelling unit.

(b) All dwelling units in an RTF District shall have at least one living room and two bedrooms and kitchen and sanitary facilities. The minimum floor area of each unit shall be 1,400 square feet. A basement containing not less than 700 square feet shall be required.

(Ord. 72-72. Passed 8-31-72.)

1143.06 YARD, AREA AND BULK REQUIREMENTS.

Except as herein provided, yard, area and bulk requirements shall be regulated as set forth in Chapter 1173 .

(a) In an RMF-1 District, garages or other accessory buildings shall be located not less than fifty feet from a side or rear property line where such property line abuts a multiple-family zoning district or a nonresidential zoning district.

(b) The minimum distance between any two buildings within any RMF-1 District shall be regulated by the building distance formula set forth in Section 1147.07 . In no event shall the distance between buildings be less than fifty feet.

(Ord. 72-72. Passed 8-31-72.)

1143.07 OFF-STREET PARKING.

(a) Except as herein provided, off-street parking shall be as required in Chapter 1175 .

(b) No part of any required yard abutting a street and not more than fifty percent of any side or rear yard abutting a single-family residential district shall be used for vehicular parking.

(Ord. 72-72. Passed 8-31-72.)

1143.08 WALLS AND LANDSCAPING.

Walls and/or landscaping shall be as required in Chapter 1177 .

(Ord. 72-72. Passed 8-31-72.)

1143.09 SIGNS AND LIGHTING.

Signs and lighting shall be permitted only when in conformity with the provisions set forth in Chapter 1179 .

(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1144

RS Senior Housing District

1144.01 Intent.

1144.02 Uses.

1144.03 Lot, yard, area and bulk requirements.

1144.04 Off-street parking.

1144.05 Walls and landscaping.

1144.06 Signs and lighting.

1144.07 Site plan review.

1144.08 Variances and modifications.

1144.01 INTENT.

The RS Senior Residence District is established to provide locations for residential facilities which are occupied exclusively by older persons. As provided herein and as documented by site plans approved by the City, these residential facilities may include a variety of dwelling units or other residential arrangements and accessory uses which are consistent with and supportive of the residential activities of older persons and which are compatible with the uses of abutting properties and with the character of the community as a whole. This Chapter includes provisions intended to ensure that these residential facilities are designed and built in a manner which is orderly and of high quality.

(Ord. 16-99. Passed 5-11-99.)

1144.02 USES.

Dwellings and other residential facilities in the RS Senior Residence District shall be designed for and restricted to occupancy by persons aged 60 years or older. Employees who reside in residential facilities in the district are exempted from this age restriction.

- (a) Permitted Uses.
- (1) Dwelling units, which may include one-family, two-family efficiency type, or multiple family dwellings, except that dwelling units shall not be located on individual lots.
 - (2) Residential use facilities which may be other than dwelling units, providing private rooms for sleeping and bathing, but with congregate facilities for dining and other activities.
 - (3) Nursing home, rest home, assisted living facility, or independent living facility.
- (b) Accessory Uses. The following accessory uses are permitted, provided that they are designed and operated solely for use by residents, staff and guests.
- (1) Restaurant and other food service facility, limited retail and personal services, except that advertising to non-resident customers shall be prohibited.
 - (2) Medical care facilities.
 - (3) Indoor and outdoor recreation and leisure facilities.
 - (4) Meeting rooms, social rooms.
 - (5) Signs.
 - (6) Parking and loading.
 - (7) Administration and maintenance facilities.
 - (8) Adult day care center, with a capacity not to exceed 30 persons.
- (Ord. 16-99. Passed 5-11-99.)

1144.03 LOT, YARD, AREA AND BULK REQUIREMENTS.

- (a) Minimum District Area. An RS Senior Residence District shall contain at least three (3) contiguous acres, which may be in one or more lots.
- (b) Minimum Setbacks. The following minimum setbacks shall be required for all buildings, including accessory buildings:
- (1) Front. Minimum 90 feet from the front property line.
 - (2) Side and Rear. Minimum 50 feet from side and rear property lines.
 - (3) Side or rear setback for a parking garage or accessory building not less than fifteen (15) feet, if screened by landscaping.
- (c) Maximum Height. Building height shall not exceed thirty (30) feet and shall not exceed two (2) stories.
- (d) Density. A lot in the RS District shall contain at least 2,000 square feet of land for each dwelling unit located thereon.
- (e) Maximum Lot Coverage. The area of a lot covered by buildings shall not exceed 25% of the total lot.
- (f) Minimum Dwelling Unit Floor Area. A dwelling unit shall contain at least the following minimum floor area, measured as defined at Section 1123.04 (e)(3), "Floor Area of Dwelling Units, Multi-family Dwelling Units":

- (1) Efficiency Type - 400 square feet
 - (2) One-bedroom Unit - 600 square feet
 - (3) Two-bedroom Unit - 800 square feet
- (Ord. 16-99. Passed 5-11-99.)

1144.04 OFF-STREET PARKING

Off-street parking and loading facilities shall be constructed and maintained in conformance with the following provisions and with the provisions of Chapter 1175 . In cases of conflict, the more restrictive provisions shall prevail.

- (a) Parking Spaces. Off-street parking shall be provided as follows:

Facility or use	Spaces required
Independent living without congregate dining	1 space per unit for resident plus .25 space per unit for guests and employees
Independent or assisted living with congregate dining	.5 space per unit for resident plus .25 space per unit for guests plus 1 space for each week day shift employee
Nursing homes	.25 space per bed for guests plus 1 space for each week day shift employee

- (b) Site Plan. The applicant may submit information which projects the parking demand for the proposed use. The City may approve a site plan which provides land for future construction of parking facilities which will comply with the above requirements, but may permit a lesser amount of parking to be constructed, provided that the balance of the required parking area is temporarily retained in landscaped open space. Prior to approval of the site plan, the applicant shall make a commitment to construct the additional parking at such time as the City determines that the parking is necessary for the operation of the use.
- (c) Setbacks and Screening. Unenclosed parking and other paved areas shall be set back at least twenty-five (25) feet from a front, side or rear property line except that the side or rear setback may be reduced to fifteen (15) feet if screened by landscaping and/or fencing as approved by the City. The front parking setback area shall be landscaped as approved by the City.
- (d) Interior Parking Lot Landscaping. A parking lot containing more than twenty (20) parking spaces shall include at least one interior planting island, at least 400 square feet in area, per twenty (20) parking spaces, which shall be landscaped as approved by the City.
- (e) Loading. Loading facilities shall be provided and screened with fencing, walls or landscaping as approved by the City, except that no loading facility shall be located in the front yard and no loading facility shall be located closer than fifty (50) feet to any lot line.

(Ord. 16-99. Passed 5-11-99.)

1144.05 WALLS AND LANDSCAPING.

- (a) All provisions of Chapter 1177 , Walls, Landscaping, and Ecological Preservation, which apply to multiple-family developments, shall apply to development in the RS District.
- (b) A landscaped open space shall be provided for the purposes of outdoor leisure use by residents of the lot. The space shall include at least fifty (50) square feet of area per dwelling unit on the lot and shall not be located in any required building setback area unless approved by the City. The landscaped open space shall be designed to provide access conforming to federal accessibility standards and may include walkways, gardens, sitting areas, outdoor dining areas, swimming pools and similar facilities.
- (Ord. 16-99. Passed 5-11-99.)

1144.06 SIGNS AND LIGHTING.

- (a) All provisions of Chapter 1179 , Signs, which apply to multiple-family developments shall apply to development in the RS District.
- (b) All exterior site lighting shall be designed to eliminate glare and spillover lighting onto adjacent properties.

(Ord. 16-99. Passed 5-11-99.)

1144.07 SITE PLAN REVIEW.

- (a) An owner of land in the RS District shall submit for approval by the City a site plan which describes and illustrates any proposed development and which contains, at a minimum, the information required at Section 1123.07 (p), "Site Plan", and any other information required to determine compliance with the ordinances of the City.
- (b) No building or structure shall be erected or land used in the RS District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Commission within sixty (60) days after the site plan has been presented to the Commission.
- (c) When recommending approval of a site plan for the RS District, the Planning Commission may recommend such additional conditions as are necessary to secure the following objectives:
- (1) That all the development features, including the principal and accessory buildings, open spaces, service roads, driveways, and parking areas shall be located so as to encourage pedestrian and vehicular traffic safety; and
 - (2) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the subject development.
- (Ord. 16-99. Passed 5-11-99.)

1144.08 VARIANCES AND MODIFICATIONS.

- (a) Upon recommendation of the Planning Commission, or upon its own initiative, Council may permit reasonable variances and minor modifications of the plans from the strict interpretation of the provisions of this chapter for any specific project upon specific findings that the variance or modification is:
- (1) Necessary for the preservation and enjoyment of substantial property rights or is necessary to prevent practical difficulty to the proponent of the plan;
 - (2) Not contrary to the spirit and intent of the Zoning Code; and
 - (3) Will not adversely affect adjacent or neighboring properties.
- (b) In authorizing any such variance or modification, Council may attach thereto such conditions regarding the location, character or other features of the proposed structure or use as it may deem necessary in the interest of the furtherance of the purposes of the Zoning Code and in the public interest.

(Ord. 16-99. Passed 5-11-99.)

CHAPTER 1147

RMF-2 Multiple-Family Residential District - Medium Rise

- 1147.01 Intent.**
- 1147.02 Permitted uses.**
- 1147.03 General requirements.**
- 1147.04 Site plan review.**
- 1147.05 Dwelling area requirements.**

CROSS REFERENCES

Multiple-family medium rise dwelling defined - see ZON. 1123.03 (r)
Efficiency apartment defined - see ZON. 1123.03 (w)

1147.01 INTENT.

The RMF-2 Multiple-Family Residential District (Medium Rise) is designed to provide sites for high density multiple dwelling structures adjacent to or abutting major thoroughfares and expressways. This District is further provided to serve the residential needs of persons desiring the apartment type of accommodation with central services as opposed to the residential patterns found in the one-family residential and RMF-1 Multiple-Family Residential Districts. This District is further designed so as to provide a zone of transition between major thoroughfares and high traffic generators and other residential districts through the requirements of lower coverage which, in turn, will result in more open space.

(Ord. 72-72. Passed 8-31-72.)

1147.02 PERMITTED USES.

In an RMF-2 Multiple-Family Residential District no building, structure or land shall be erected or used except for the following specified uses unless otherwise provided in this chapter:

- (a) All principal uses permitted in the RMF-1 Multiple-Family Residential District meeting the requirements set forth for such District with the exception of single- family dwellings which shall be expressly prohibited from this District.
- (b) Multiple-family dwellings in structures in excess of two stories but not exceeding six stories in height.
- (c) Hospitals, except those for criminals and those primarily for the treatment of persons who are mentally ill, when the following conditions are met:
 - (1) All such hospitals shall be developed only on sites at least five acres in area.
 - (2) The proposed site shall have at least one property line abutting an arterial street (a street which has a right-of-way width of not less than eighty feet).
 - (3) The minimum distance of any main or accessory building from bounding lot lines or streets shall be at least 100 feet for front, rear and side yards for all two-story structures. For every story above two the minimum yard distance shall be increased by at least twenty feet.
 - (4) Ambulance and delivery areas shall be obscured from all residential view with an obscuring wall or fence not less than four feet in height. Ingress and egress to the site shall be directly from an arterial street (a street which has a right-of-way width of not less than eighty feet).
 - (5) All ingress to and egress from the off-street parking areas, for guests, employees, staff, as well as any other users of the facility, shall be directly from an arterial street.
- (d) Accessory buildings and uses customarily incident to any of the above permitted uses such as off-street parking, garages, recreational areas, pools, fences and walls.

(Ord. 72-72. Passed 8-31-72.)

1147.03 GENERAL REQUIREMENTS.

- (a) An RMF-2 District shall be located so as to have access only to an arterial street; except that access driveways may be permitted to other than an arterial street where the property directly across the street from such driveways and all property abutting such street between such driveways and an arterial street are located in multiple-family or nonresidential use districts.
- (b) No use on the site shall be developed as a retail business. No identifying sign of any such retail business use in existence after August 31, 1972, shall be made visible from any exterior view.
- (c) The entire area of the site shall be treated to service the residents of the apartment and any accessory buildings, uses or services shall be developed solely for the use of residents of the main building. Uses considered herein as accessory uses include: swimming pools, recreation areas, pavilions, off-street parking, garages and other similar uses.

(Ord. 72-72. Passed 8-31-72.)

1147.04 SITE PLAN REVIEW.

- (a) No building or structure shall be erected or land used in an RMF-2 Multiple- Family Residential District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Planning Commission within sixty days after the site plan has been presented to the Commission.
- (b) When recommending the approval of a site plan for an RMF-2 District, the Planning Commission may recommend such additional conditions as are necessary to secure the following objectives:
 - (1) That all the development features including the principal and accessory buildings, open spaces, service roads, driveways and parking areas shall be located so as to encourage pedestrian and vehicular traffic safety; and
 - (2) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the subject development.

(Ord. 72-72. Passed 8-31-72.)

1147.05 DWELLING AREA REQUIREMENTS.

All dwelling units shall have at least one living room and one bedroom, except that ten percent of the dwelling units in a multiple-family building may be of an efficiency type. The minimum floor area requirements shall be as follows:

Efficiency unit - 600 square feet
One bedroom unit - 800 square feet
Two bedroom unit - 1,000 square feet
Three bedroom unit - 1,200 square feet.

In addition to the floor area requirements set forth above, at least eighty square feet of general storage space, exclusive of household closets, shall be provided for each dwelling unit.

(Ord. 72-72. Passed 8-31-72.)

1147.06 YARD, AREA AND BULK REQUIREMENTS.

Yard, area and bulk requirements shall be regulated as set forth in Chapter 1173 , except that carports or garages may be located within fifty feet of a side or rear property line where such lot line abuts a multiple-family zoning district or a nonresidential zoning district. The distance between buildings on the same lot is regulated by the building distance formula, Section 1147.07 , and where, because of the building arrangement, the formula is not applicable, the minimum distance between buildings shall be fifty feet. In no event shall the distance between buildings be less than fifty feet.

(Ord. 72-72. Passed 8-31-72.)

1147.07 BUILDING DISTANCE FORMULA.

In all RMF-2 Multiple-Family Residence Districts the minimum distance between any two buildings shall be regulated according to the length and height of such buildings.

The formula regulating the required minimum distance between two buildings (referred to as building "A" and building "B") is as follows:
$$S = \frac{L_A + L_B + 2(H_A + H_B)}{4}$$
 WHERE

S = required minimum horizontal distance between any wall of building A and any wall of building B or the vertical prolongation of either.

L_A = total length of building A.

The total length of building A is the length of that portion or portions of a wall or walls of building A from which, when viewed directly from above, lines drawn perpendicular to building A will intersect any wall of building B.

L_B = total length of building B.

The total length of building B is the length of that portion or portions of a wall or walls of building B from which, when viewed directly from above, lines drawn perpendicular to building B will intersect any wall of building A.

H_A = height of building A.

The height of building A at any given level is the height above natural grade level of any portion or portions of a wall or walls along the length of building A. Natural grade level shall be the mean level of the ground immediately adjoining the portion or portions of the wall or walls along the total length of the building.

H_B = height of building B.

The height of building B at any given level is the height above natural grade level of any portion or portions of a wall or walls along the length of building B. Natural grade level shall be the mean level of the ground immediately adjoining the portion or portions of the wall or walls along the total length of the building.

(Ord. 72-72. Passed 8-31-72.)

BUILDING DISTANCE FORMULA

1147.08 OFF-STREET PARKING.

- (a) Except as provided in subsection (b) hereof, off-street parking shall be as required in Chapter 1175.
- (b) No part of any required yard abutting a street and not more than fifty percent of any side or rear yard abutting a single-family residential district shall be used for vehicular parking.

(Ord. 72-72. Passed 8-31-72.)

1147.09 WALLS AND LANDSCAPING.

Walls and/or landscaping shall be as required in Chapter 1177.

(Ord. 72-72. Passed 8-31-72.)

1147.10 SIGNS AND LIGHTING.

Signs and lighting shall be permitted only when in conformity with the provisions set forth in Chapter 1179.

(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1151

O-S Office-Service District, B-1 Local Business District and B-2 Regional Business District

1151.01 Intent.

1151.02 District location standards.

1151.03 Permitted, conditional and specifically prohibited uses.

1151.04 Additional use restrictions.

1151.05 Yard, area and bulk requirements.

1151.06 Off-street parking.

1151.07 Walls and landscaping.

1151.08 Signs and lighting.

1151.09 Site plan review.

1151.10 Mixed Use (MU) development.

CROSS REFERENCES

Outdoor display defined - see ZON. 1123.03(m)

Outside storage defined - see ZON. 1123.07(t)

1151.01 INTENT.

- (a) The O-S Office-Service District is designed to:

- (1) Accommodate various types of office uses performing administrative and professional services.
 - (2) Serve as a transitional use between the more intensive uses of land such as major thoroughfares and/or commercial districts and the less intensive uses of land such as single-family residential.
 - (3) Limit commercial establishments of a retail nature or other activities which generate short-term parking demand and traffic from the general public.
- (b) The B-1 Local Business District is designed to:
- (1) Provide for the day-to-day convenience shopping and service needs of persons residing in the vicinity of the business.
 - (2) Provide for and be characterized as having individual free-standing structures or a grouping of strip stores of a size generally not exceeding 5,000 square feet of floor space for each individual business.

(c) The B-2 Regional Business District is designed to:

(1) Serve the needs of both convenience and comparison shoppers from a geographical area extending beyond the adjacent residential areas.

(2) Be characterized by an integrated or planned cluster of establishments exceeding 25,000 square feet of floor space served by a common parking area and generating large volumes of vehicular traffic.

(Ord. 5-2007. Passed 3-13-07.)

(3) Provide for a complementary combination of residential and nonresidential uses to expand housing options within a pedestrian oriented, vibrant, compact, and unique mixed use environment with a consistent overall appearance, form, pattern and design.

(Ord. 75-2018. Passed 7-24-18.)

1151.02 DISTRICT LOCATION STANDARDS.

(a) A B-1 District shall only be located at the intersection of major thoroughfares.

(b) A B-2 District shall only be located at the intersection of the two major thoroughfares bearing the greatest volumes of traffic, Wilson Mills Road and Richmond Road.

(c) An O-S District shall only be located on property at the intersection of major thoroughfares or abutting a B-1 or B-2 District. All properties in the OS District shall have frontage on a major or secondary thoroughfare.

(Ord. 5-2007. Passed 3-13-07.)

1151.03 PERMITTED, CONDITIONAL AND SPECIFICALLY PROHIBITED USES.

Uses in the O-S, B-1 and B-2 Districts shall be as set forth in Table 1151.03.

Specifically Prohibited Uses		
O-S Office-Service District	B-1 Local Business District	B-2 Regional Business District
Dwelling units of all types are prohibited.	Dwelling units of all types are prohibited.	Dwelling units of all types are prohibited.
Any use which is not listed in this table as a permitted or conditional use for this district is prohibited unless otherwise authorized according to the provisions of this Zoning Code.	Any use which is not listed in this table as a permitted or conditional use for this district is prohibited unless otherwise authorized according to the provisions of this Zoning Code.	Any use which is not listed in this table as a permitted or conditional use for this district is prohibited unless otherwise authorized according to the provisions of this Zoning Code.
Warehousing or indoor storage of goods or materials not incidental to the above permitted uses shall be prohibited.		Dwelling units of all types are prohibited except for those which are permitted in a Mixed Use Development subject to Section 1151.10.

(Ord. 5-2007. Passed 3-13-07; Ord. 37-2011. Passed 8-23-11; Ord. 20-2015. Passed 3-24-15; Ord. 10-2017. Passed 2-28-17; Ord. 11-2017. Passed 2-28-17; Ord. 75-2018. Passed 7-24-18.)

1151.04 ADDITIONAL USE RESTRICTIONS.

(a) No activity shall be conducted in a manner which is obnoxious or offensive by reason of the emission of odor, fumes, dust, smoke, waste, noise or vibration in excess of the performance standards set forth in Section 1171.05.

(b) The outdoor storage, display or sale of goods or materials shall be prohibited except as specifically authorized in this chapter or as authorized by a conditional use permit.

(Ord. 5-2007. Passed 3-13-07.)

(c) New vehicle, light truck, trailer or garden equipment dealerships (sales and service) facilities, as well as new and used automobile, light truck or equipment leasing or renting establishments, shall be considered as a Conditional Use in the B-2 Regional Business District subject to the following conditions:

- (1) A new vehicle dealership as the primary use shall be defined as an establishment primarily engaging in the sale of new motor vehicles including cars, light trucks, light-duty cargo trailers, boats, motorcycles and similar vehicles, along with all equipment related thereto, and shall also include facilities for both major and minor engine repair, body repairing, parts sales, painting and washing and other required services. A new vehicle dealership or new and used vehicle leasing/renting establishment shall have a minimum of 100,000 square feet of total area (including parking, but excluding common entry/exit drives) located on the same or contiguous lot or leased areas. Used car or truck sales may be permitted as an accessory use to a new vehicle dealership as described above but shall be located on portions of the parcel exclusive of the 100,000 square feet used for new vehicle sales.
- (2) A vehicle leasing or rental agency is defined as an establishment primarily engaging in the leasing or rental of new or used motor vehicles, including cars, light trucks, light-duty cargo trailers, boats, motorcycles and similar vehicles. Such establishments may include facilities for the servicing of such vehicles.
- (3) Any vehicles or equipment being stored on the premises that are damaged, partially disassembled, or otherwise not in good running or working order shall be screened from sight from all directions within a building or by solid fencing, walls or other means as approved by the Planning Commission.
- (4) Required minimum areas shall be exclusive of entry drives, safety services access drives, required buffer zones and required setbacks from property lines.
- (5) Facilities for the sale of new vehicles shall not include the sale, rental or leasing of construction, maintenance or farm-related machinery, tractor trailers, recreational (motor) vehicles (RV’s) or mobile homes.
- (6) Parcels shall be considered as contiguous if separated by nothing other than a common-area entrance or exit drive or right-of-way.

(Ord. 10-2017. Passed 2-28-17.)

(d) The following regulations shall apply to uses in the O-S Office Service District:

- (1) No interior display shall be visible from any property line.

(e) The following regulations shall apply to uses in the B-1 Local Business District:

- (1) All business establishments shall be retail or service establishments dealing directly with consumers. All goods produced on the premises shall be sold at retail on the premises where produced.
- (2) All business, servicing or processing, except for off-street parking or loading, shall be conducted within a completely enclosed building, except as specifically permitted under this chapter.

(Ord. 5-2007. Passed 3-13-07.)

1151.05 YARD, AREA AND BULK REQUIREMENTS.

Yard, area and bulk requirements shall be as required in Chapter 1173.

(Ord. 5-2007. Passed 3-13-07.)

1151.06 OFF-STREET PARKING.

Off-street parking shall be as required in Chapter 1175.

(Ord. 5-2007. Passed 3-13-07.)

1151.07 WALLS AND LANDSCAPING.

Walls and/or landscaping shall be as required in Chapter 1177.

(Ord. 5-2007. Passed 3-13-07.)

1151.08 SIGNS AND LIGHTING.

Signs and lighting shall be as required in Chapter 1179.

(Ord. 5-2007. Passed 3-13-07.)

1151.09 SITE PLAN REVIEW.

(a) No building or structure shall be erected or land used in an O-S, B-1, or B-2 District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Planning Commission within sixty (60) days after the site plan has been presented at a public meeting of the Commission.

(b) When recommending the approval of a site plan, the Planning Commission may recommend conditions necessary to secure the following objectives:

- (1) That all development features, including but not limited to the principal and accessory buildings, open spaces, service roads, driveways and parking areas, shall be located to encourage pedestrian and vehicular traffic safety; and
- (2) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the subject development.

(Ord. 5-2007. Passed 3-13-07.)

1151.10 MIXED USE (MU) DEVELOPMENT.

- (a) Purpose. The purpose of this section is to permit and regulate a compact combination of residential and nonresidential uses in a planned mixed use development in compliance with an approved development plan.
- (b) Uses. The uses which may be established within a Mixed Use (MU) Development are limited to the following:
 - (1) Permitted and Conditional Uses as set forth in Section 1151.03 for the B-2 District.
 - (2) Multiple family dwellings as long as such dwellings are located in buildings that are a minimum of two (2) stories and do not exceed four (4) stories in height.
 - (3) Park areas, recreational areas, and pools which shall not be considered to be accessory to the permitted uses in this section.
 - (4) Accessory buildings and uses customarily incidental to any of the above permitted uses such as off-street parking, garages, outdoor dining, fences and walls.

(c) Development Area. The minimum land area required for a MU Development shall be ten acres and shall include a mix of uses so that no one use category exceeds 90% of the total floor area of the MU Development. The 90% maximum of the total floor area of the MU Development being devoted to any one use category may, at the sole discretion of the City Council, be exceeded where the Council finds that the purpose and intent of this section and Section 1151.01 (c) of this Code will be furthered thereby.

(d) Density. The maximum number of dwelling units permitted shall be one dwelling unit per 2,400 square feet of gross land area designated for the MU Development.

(e) Dwelling Unit Area. All dwelling units shall have at least one living room and one bedroom. The minimum floor area requirements shall be as follows:

- (1) Efficiency unit - 600 square feet;
- (2) One bedroom unit - 800 square feet;
- (3) Two bedroom unit - 1,000 square feet; and
- (4) Three bedroom unit - 1,200 square feet.

(f) Dimensional Standards:

- (1) Maximum Lot Width: 300 feet minimum.
- (2) Maximum Height: 65 feet and four (4) stories.
- (3) Minimum Front Yard: 75 feet.
- (4) Minimum Side and Rear Yards: Subject to subdivision (A) below, there is no minimum side setback for non-residential uses. Subject to subdivision (A) below, residential side setback must be at least 15 feet.
 - (A) Where a side yard abuts a single family zoning district, the setback shall be 50 feet. Setback areas abutting a single family zoning district shall be landscaped earth mounding, fencing, walls, hedges, or other plant material sufficient to create a suitable screen or visual buffer as approved in the development plan.
- (5) Building Separation: 35 feet minimum for residential buildings.

(g) Open Space. Each MU development shall designate no less than 10% of the gross development area as open space. Such open space may be for the use and enjoyment of residents or it may be available to the general public. Additionally, structures and buildings for the purpose of active or passive recreation, plazas, outdoor dining and public art may be located in such open space as approved in the development plan.

- (h) Parking and Loading.
- (1) Off-street parking shall conform to the requirements of Section 1175.05 of this Code unless fewer spaces are approved in the development plan.
 - (2) Parking lot landscaping shall be as approved in the development plan.
 - (3) Loading and unloading spaces and facilities shall conform to the requirements of Section 1175.11 of this Code, unless modified by the approved development plan and such spaces and facilities shall be screened with fencing, walls or landscaping as approved in the development plan.
- (i) Signs. All provisions of Chapter 1179 , Signs, which apply to multiple-family developments, shall apply to residential uses in the MU Development. Signs for nonresidential uses shall be as approved in the development plan and shall:
- (1) Contribute to an overall cohesive design, reflect simplicity, and avoid visual clutter.
 - (2) Complement the building, adjacent buildings in the development, and the site by being designed and placed to enhance the architecture.
 - (3) Employ the use of compatible materials and colors of the sign, sign background, and sign frame with the character of the development.
- (j) Lighting. All exterior site lighting shall be designed to eliminate glare and spillover lighting onto adjacent properties and shall be as approved in the development plan.
- (k) Modifications. The Planning Commission may authorize minor modifications of an approved development plan.
- (l) Conflicts. In the event of a conflict between the provisions in this section and other provisions in these Codified Ordinances, the provisions and regulations in this section shall govern. (Ord. 75-2018. Passed 7-24-18.)

1165.01 INTENT.

It has come to the attention of Council that the gasoline industry is presently undergoing various changes resulting in requests for diversified use of traditional gasoline service stations, which uses have not been previously addressed in the Zoning Code. Council desires to enact regulations for such anticipated uses and controls of gasoline service stations for the protection of the public health, safety, welfare and general convenience.

(Ord. 86-82. Passed 11-23-82.)

1165.02 DEFINITIONS.

(a) "Gasoline service station" means a place for the dispensing, sale or offering for sale of motor fuels directly to users of motor vehicles, together with the sale of minor accessories and the servicing of and minor repair of motor vehicles. As used herein, the term "servicing" of motor vehicles shall mean tuning of motors, minor wheel and brake adjustment, waxing and polishing and other minor servicing and repair to the extent of installation of the items enumerated above but specifically prohibiting major automobile repairs including, but not limited to, upholstering work, auto glass work, painting, welding, tire recapping, auto dismantling and auto sales. The washing of automobiles shall be permitted provided that no chain conveyor, blower, steam cleaner, pressurized water systems, or other mechanical device is employed.

(b) "Automobile filling station" means a building or other structure or tract of land intended and used solely for the retail sale of gasoline or other motor fuels and oil into vehicles using the same for fuel or lubrication, provided, specifically that no services or retail sales other than those enumerated in this subsection are to be provided or undertaken on the premises or within any building or structure located thereon.

(c) "Self-service station" means a filling station wherein any person other than a supervisor, employee or attendant may dispense gasoline into his own motor vehicle either at a self-service island or a complete self-service filling station.

(d) "Pump" means an individual nozzle capable of dispensing gasoline into a motor vehicle regardless of the housing of the mechanics for the operation of the pump and regardless of such housings containing one or more nozzles for the dispensation of gasoline. Pump also means a mechanical device used to dispense different grades of gasoline and shall be considered a separate pump for each grade of gasoline dispensed.

(Ord. 86-82. Passed 11-23-82.)

(e) "Self-service auto laundry" means a building or structure used solely for the washing of motor vehicles by individuals on a self-service basis for a fee paid at the time of using the facility. A self-service auto laundry is a building or structure without any chain conveyor or other mechanical device for movement of the motor vehicle and consisting of a bay in which such vehicles may be hand washed and cleaned by members of the public.

(Ord. 48-88. Passed 9-13-88.)

1165.03 GENERAL REQUIREMENTS.

Gasoline service stations and self-service filling stations are a permitted use within a B-3 General Business District provided that a site plan is submitted to and approved by Council after recommendation of the Planning and Zoning Commission and meeting the following minimum requirements:

- (a) Council review and approval shall be for the purpose of maintaining the health, safety and welfare of the community. The Planning and Zoning Commission shall recommend approval of the site plan only after finding that the use is so arranged that the service station will not adversely affect the appropriate development or use of adjacent property and further that the service station will be constructed in accordance with the following development standards:
- (1) The minimum lot area required for a gasoline service station or self-service filling station shall be one acre on a corner lot and 32,500 square feet on an interior lot. A corner lot shall have no less than 200 feet of frontage on either intersecting street. An interior lot shall have a frontage of no less than 180 feet. The maximum lot coverage by structures shall be no more than fifteen percent (15%). A minimum of fifteen percent (15%) of the lot occupied by the gasoline service station or self-service filling station shall be appropriately landscaped and maintained as lawns with trees and shrubs.
 - (2) All buildings shall be set back not less than ninety feet from all existing or proposed street right-of-way lines, whichever is greater.
 - (3) Gasoline pumps, air and water hose stands and other appurtenances shall be set back not less than thirty-five feet from all existing or proposed street right-of-way lines, whichever distance is greater.
 - (4) Driveway widths entering the filling station shall have a maximum width of thirty-five feet.
 - (5) Any driveway approach shall enter the property not less than fifty feet from the intersection formed by the existing or proposed right-of-way lines or extensions thereof, whichever is greater, and not less than fifteen feet from any adjoining property line.
 - (6) Curbs in accordance with standard City specifications as set forth in Chapter 1103 shall be constructed on all streets adjacent to the gasoline service station site.
 - (7) Signs and lighting shall be shielded from residential property.
 - (8) No signs, storage or display of any kind shall be allowed within the street right of way. All signs shall be so located as not to obstruct the view of vehicles.
 - (9) The building itself shall conform to and be harmonious with the architecture of other buildings in the area.
 - (10) The garage doors of the service bays shall not face a main thoroughfare.
 - (11) Each such station shall have provisions for lavatories for both man and women separated by sound proof walls.
 - (12) Each such station shall have a pressurized air hose capable of dispensing air into automobile tires.
- (b) Prohibited activities include, but are not limited to, the following: those activities prohibited under Section 1165.02 and vehicle and trailer renting and leasing, motor vehicle body repair, undercoating, upholstery work and other such activities whose adverse external physical effects would extend beyond the property line. The following uses are also prohibited:
- (1) There shall be no outdoor open display or storage of merchandise other than the usual gasoline pumps, air and water hose stands.
 - (2) There shall be no use of pennants, banners, streamers, whirligigs, balloons, flashing lights or "point of sale" materials.
 - (3) There shall be no dumping of any oil, grease, kerosene, or any other petroleum products or any other similar materials into sewers of any kind.
 - (4) All refuse and storage areas shall be completely enclosed from view from outside areas.
 - (5) There shall be no parking of damaged motor vehicles, except on a temporary basis for seventy-two hours or less. Junk parts and junk vehicles shall not be kept on the outside of the building.

(Ord. 86-82. Passed 11-23-82.)

1165.04 SELF-SERVICE PERMIT REQUIRED; APPLICATION.

No person shall operate a self-service island or self-service filling station without first having obtained a permit therefor from the Fire Prevention Bureau for each gasoline pump to be operated on a self-service basis. The application for such permit shall be in such form and contain such information as shall be determined by the Fire Chief.

(Ord. 86-82. Passed 11-23-82.)

1165.05 SELF-SERVICE PERMIT FEE.

The fee for the permit required in Section 1165.04 shall be twenty-five dollars (\$25.00) for each pump to be used on a self-service basis. Such fee shall be for the fiscal year beginning January 1 of any calendar year or for any unexpired portion thereof.

(Ord. 86-82. Passed 11-23-82.)

1165.06 SELF-SERVICE INSPECTION; OPERATING REGULATIONS.

Prior to the issuance of the permit required in Section 1165.04, the Fire Prevention Bureau shall inspect the pumps and equipment to be used on a self-service basis to determine that the following minimum standards are complied with:

- (a) Each filling station offering self-service shall be under the direct control of a supervisor, employee or attendant at all times when gasoline or other flammable liquids are being dispensed or sold.

(Ord. 86-82. Passed 11-23-82.)

- (b) Gasoline and other flammable liquids shall be dispensed only by a person who is not smoking and who, in the judgment of such supervisor, employee or attendant appears to be able, and competent.

(Ord. 32-99. Passed 6-8-99.)

- (c) A sign, in block letters at least four inches in height, shall be conspicuously displayed on each gasoline pump island where self-service is offered stating that it is a self-service island.
- (d) Signs giving instructions for the operation of gasoline dispensing equipment, in block letters at least one-half inch in height, shall be conspicuously posted at each self-service filling station offering self-service.
- (Ord. 86-82. Passed 11-23-82.)
- (e) A sign bearing the following words in block letters at least two inches in height shall be conspicuously posted on each gasoline pump island where self-service is offered:
- (1) "STOP ENGINE";

- (2) "NO SMOKING";
- (3) "WARNING - IT IS UNLAWFUL AND DANGEROUS TO DISPENSE GASOLINE INTO UNAPPROVED CONTAINERS";
- (4) "PERSONS USING DISPENSERS WITH HOLD-OPEN LATCHES MUST REMAIN AT THE REFUELING POINT DURING REFUELING."

(Ord. 32-99. Passed 6-8-99.)

- (f) All signs required by this section shall be constructed of rigid, weather-resistant material.
- (g) Gasoline dispensing nozzles used by any person other than a supervisor, employee or attendant shall be of an approved automatic closing type without a hold-open latch.
- (h) Dispensers shall be equipped with remote master control devices to shut off all pumps in the event of an emergency. Signs identifying the pump shut-off controls shall be labeled "Emergency Pump Shutoff".
- (i) There shall be at least one foam type extinguisher of a minimum 10-B:C rating for every two dispensing devices and shall be located no further than seventy- five feet away from any dispensing device.
- (j) A two-way public address system shall be provided for direct communication between an attendant stationed at a remote control panel and a customer using a supervised self-service device at any pump island.
- (k) The dispensing area shall at all times be in clear view of the attendant and the placing or allowing of any obstacle to come between the dispensing area and the attendant control area shall be prohibited. The attendant shall at all times be able to communicate with persons in the dispensing area.
- (l) No delivery of any flammable liquids shall be made into portable containers unless the container is constructed of metal or is approved by the authority having jurisdiction, has a tight closure and is fitted with spout or so designed that the contents can be poured without spillage.

(Ord. 86-82. Passed 11-23-82.)

1165.07 ADDITIONAL INSPECTIONS.

The inspections required by Section 1165.06 shall be done on at least an annual basis by the Fire Prevention Bureau and may be done by the Fire Prevention Bureau at any time during the validity of the permit issued hereunder.

(Ord. 86-82. Passed 11-23-82.)

1165.08 PERMIT REVOCATION.

In addition to any other penalties prescribed in this chapter, the Fire Prevention Bureau may immediately revoke any permit issued hereunder and stop the operation of any self-service island or filling station for failure to comply with any provision of this chapter or any rules and regulations promulgated hereunder.

(Ord. 86-82. Passed 11-23-82.)

1165.09 ATTENDANTS.

- (a) Every service station shall have at least one competent attendant on duty during all hours of operation.
- (b) The station operator shall be responsible for instructing attendants as to fire code provisions for the dispensing of motor vehicle fuels and for the operation of dispensing devices, fire extinguishers and public address systems to the satisfaction of the Fire Prevention Bureau.

(Ord. 86-82. Passed 11-23-82.)

1165.10 SELF-SERVICE AUTO LAUNDRY.

- (a) Each building or structure intended for use as a self-service auto laundry shall comply with all building code and fire code requirements as well as having provision made for the recycling or removal of water used in the vehicle washing process.
- (b) Every self-service auto laundry shall have at least one competent station attendant on duty during all hours of operation.
- (c) Prior to the issuance of a permit for a self-service auto laundry a site plan setting forth drainage provisions and waste water disposal shall be submitted to and approved by the City Engineer. Any system for disposal of waste water other than through sanitary sewage lines shall be fully approved by the Ohio Environmental Protection Agency.
- (d) Each self-service auto laundry shall set forth on a conveniently and readily noticeable portion of the auto laundry the directions for use by individuals.
- (e) No self-service auto laundry shall be located within 150 feet of a residentially zoned or used parcel of land.

(Ord. 48-88. Passed 9-13-88.)

1165.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each offense. Each and every day during which the violation continues shall constitute a separate offense.

(Ord. 31-2018. Passed 4-10-18.)

CHAPTER 1167

I-1 Office-Industrial District

- 1167.01 Intent.**
- 1167.02 Permitted uses.**
- 1167.03 Other uses.**
- 1167.04 Use restrictions.**
- 1167.05 General requirements.**
- 1167.06 Site plan review.**
- 1167.07 Yard, area and bulk requirements.**
- 1167.08 Off-street parking.**
- 1167.09 Walls and landscaping.**
- 1167.10 Signs and lighting.**

CROSS REFERENCES

- Outside display defined - see ZON. 1123.03(l)
- Outside storage defined - see ZON. 1123.07(r)
- Nonconforming buildings and land - see ZON. 1181.03 et seq.

1167.01 INTENT.

The purpose of the I-1 Office Industrial District is to provide locations for office development, together with certain compatible, low-impact industrial-type uses.

(Ord. 98-2002. Passed 11-26-02.)

1167.02 PERMITTED USES.

In all I-1 Office Industrial Districts, no building or land, except as otherwise provided in this chapter, shall be erected or used except for one or more of the following specified uses:

- (a) Administrative, executive and managerial office buildings.
- (b) Regional offices or home branch offices for regional, national and international corporations.
- (c) Office buildings for the use of any of the following occupations: law, medicine, engineering, drafting, writing, accounting, broadcasting, investing and other uses similar in nature.
- (d) Data processing and computer centers, including sales, service and maintenance of electronic and data processing equipment.
- (e) Warehousing, assembling and packaging of small electronic instruments and devices, toys, novelties and other small household items. Accessory buildings or uses customarily incidental to any of the above permitted uses, storage garage, off-street parking and permitted signs.
- (f) Cultivation, processing and testing of medical marijuana. Dispensaries of medical marijuana associated with the foregoing uses in this subsection (f) that are located on the same or contiguous lot are a permitted accessory use.

(Ord. 11-2017. Passed 2-28-17.)

1167.03 OTHER USES.

The Planning Commission may recommend and City Council may approve the establishment of additional uses which are not listed in Section 1167.02 and which are:

- (a) Related and reasonably necessary and convenient for the satisfactory and efficient operation of a complete and integrated Office Industrial District; and
 - (b) Similar in character to one or more of the uses permitted by Section 1167.02.
- The proposed use and any proposed conditions shall be fully described in a document submitted with the site plan. The Planning Commission may recommend and Council may approve or require any conditions deemed necessary to ensure the compatibility of the proposed use with the district.

(Ord. 98-2002. Passed 11-26-02.)

1167.04 USE RESTRICTIONS.

- (a) No interior display shall be visible from any property line.
- (b) The outdoor storage or display of goods or materials shall be prohibited irrespective of whether or not such goods are for sale.
- (c) Warehousing or indoor storage of goods or materials not incidental to the above permitted uses shall be prohibited.

(Ord. 98-2002. Passed 11-26-02.)

1167.05 GENERAL REQUIREMENTS.

An I-1 District shall be located with access to an arterial or collector street.

(Ord. 98-2002. Passed 11-26-02.)

1167.06 SITE PLAN REVIEW.

- (a) No building or structures shall be erected on land used in an I-1 Office Industrial District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Planning Commission sixty days after the site plan has been presented to the Commission.

- (b) When recommending the approval of a site plan for an I-1 District, the Planning Commission may recommend such additional conditions as are necessary to secure the following objectives:
 - (1) That all the development features including the principal and accessory buildings, open spaces, service roads, driveways and parking areas shall be located so as to encourage pedestrian and vehicular traffic safety; and
 - (2) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the subject development.

(Ord. 98-2002. Passed 11-26-02.)

1167.07 YARD, AREA AND BULK REQUIREMENTS.

Yard, area and bulk requirements shall be regulated as set forth in Chapter 1173.

(Ord. 98-2002. Passed 11-26-02.)

1167.08 OFF-STREET PARKING.

- (a) Except as provided in subsection (b) hereof, off-street parking shall be as required in Chapter 1175.
- (b) Parking shall be located at least fifty feet from any public right of way, except as follows:
 - (1) Parking may be located in the areas of a lot between twenty-five feet and fifty feet from the right of way where a landscaped earth mound or masonry wall and other landscaping is installed and permanently

maintained in the area between the parking lot and the right of way.

- (2) The height of the mound or wall shall be at least three feet above the grade of the parking.

- (3) Additional planting shall be installed and maintained in the area between the parking lot and the right of way in conformance with a landscape plan submitted by the applicant and approved by the Planning Commission.

(Ord. 98-2002. Passed 11-26-02.)

1167.09 WALLS AND LANDSCAPING.

Walls and/or landscaping shall be as required in Chapter 1177.

(Ord. 98-2002. Passed 11-26-02.)

1167.10 SIGNS AND LIGHTING.

Signs and lighting shall be permitted only when in conformity with the provisions set forth in Chapter 1179.

(Ord. 98-2002. Passed 11-26-02.)

CHAPTER 1169

Conditional Uses

1169.01 Purpose.

1169.02 Conditional uses generally.

1169.03 Application for conditional use permit.

1169.04 Notice and hearing.

1169.05 Review and action by Commission and Council.

1169.06 Issuance, expiration, revocation, transfer.

1169.07 Standards for all conditional uses.

1169.08 Standards for specific conditional uses.

1169.09 Similar uses.

1169.10 Applying standards to pre-existing uses.

CROSS REFERENCES

Regulated uses - see P. & Z. Ch. 1180

Nonconforming uses - see P. & Z. Ch. 1181

1169.01 PURPOSE.

The purpose of this Chapter is to establish standards and procedures for review of uses which have the potential to be compatible with the districts in which they are listed as conditional uses but which, due to the nature of their operation, appearance, or other characteristics, require individual review and control of their location, design, intensity, configuration, and impacts upon the district and the community in order to ensure such compatibility and preservation of the district and community.

(Ord. 5-2007. Passed 3-13-07.)

1169.02 CONDITIONAL USES GENERALLY.

(a) A use listed as a conditional use shall not be permitted by right. The identification of a use as a conditional use in a district shall not establish or imply any rights for approval of the use of any lot, nor shall the approval of a conditional use on one lot establish or imply any rights for approval of the same use on any other lot. Listing as a conditional use shall afford the opportunity to submit an application for a conditional use permit, which may be approved or denied on the basis of the provisions of this Zoning Code.

(b) When a use is listed in this Zoning Code as a conditional use for a district, the conditional use of land, building, or structure shall not be established until a conditional use permit has been reviewed and recommended by the Planning Commission and approved by City Council according to the procedures of this Zoning Code and until the conditional use permit is issued by the Building Commissioner.

(Ord. 5-2007. Passed 3-13-07.)

1169.03 APPLICATION FOR CONDITIONAL USE PERMIT.

An applicant for a conditional use permit shall submit an application to the Building Commissioner. At a minimum, an application shall include the following information:

(a) Use Information:

- (1) A statement of the specific conditional use or uses listed in this Zoning Code for which the application is submitted.
 - (2) A description of the activities proposed on the site, including the goods and services, hours of operation, anticipated number of employees, nature and volume of delivery activity, characteristics of vehicular activity, and other information which clearly documents the nature of the proposed use and its potential impacts.
 - (3) A statement discussing the compatibility of the proposed use with the existing and permitted uses of adjacent properties and with any plans adopted by the City, including an evaluation of the effects on adjoining properties of such elements as traffic circulation, noise, glare, odor, fumes, vibration, and storm water.
 - (4) A statement addressing each of the applicable criteria set forth in Section 1169.07 (Standards for all Conditional Uses) and, as applicable, of Section 1169.08 (Standards for Specific Conditional Uses).
- (b) Site Plan Information: Information and exhibits describing the site and building layout and locations of all structures, paved areas, uses on the lot, and all uses and zoning district designations of adjoining properties and properties across a public right-of-way.
- (c) Additional Information: Upon review of the application, the Planning Commission may find that additional information is necessary to make a determination of the compliance of the proposed use with the provisions of this Zoning Code. The Planning Commission may determine that additional studies or expert advice are necessary to evaluate a proposed conditional use relative to the requirements of this ordinance and shall advise the applicant if such studies or advice are required. The Planning Commission may accept the required studies prepared by qualified professionals engaged by the applicant or may require the applicant to deposit with the City funds as required to pay for such studies.

(Ord. 5-2007. Passed 3-13-07.)

1169.04 NOTICE AND HEARING.

(a) The Planning Commission shall, upon determining that the application for conditional use is complete, set a public and administrative hearing for its next regularly scheduled meeting and shall instruct the Secretary of the Commission to publish notice at least seven (7) days prior to the public hearing.

(b) The Planning Commission shall conduct a public and administrative hearing on the date and time published.

(Ord. 5-2007. Passed 3-13-07.)

1169.05 REVIEW AND ACTION BY COMMISSION AND COUNCIL.

(a) Action by Planning Commission. The Planning Commission shall review the application for conformance with the provisions of this Zoning Code, including the standards set forth in Section 1169.07 (Standards for all Conditional Uses) and, as applicable, of Section 1169.08 (Standards for Specific Conditional Uses), and shall, within a reasonable time after conclusion of the hearing, take one of the following actions:

- (1) Recommend approval of the proposed conditional use permit. In recommending approval, the Planning Commission may recommend appropriate conditions and safeguards which are more strict than the requirements of this Zoning Code, and which are in conformance with the intent and purposes of this Zoning Code for the protection of nearby property and the public health, safety and general welfare.
 - (2) Recommend denial of the application, stating in the motion the reason(s) for recommending denial.
 - (3) The recommendation of the Planning Commission shall be forwarded to City Council.
- (b) Action by Council. Within sixty (60) days (or a longer period with consent of the applicant) after receipt of a Planning Commission recommendation, City Council shall take action to approve, approve with additional conditions, or deny the permit.

- (1) Approval of a conditional use permit by City Council shall authorize the Building Commissioner to issue the conditional use permit.
 - (2) If City Council denies the conditional use permit, then the Clerk of Council shall notify the applicant in writing and no further action shall be taken.
 - (3) If no action is taken by Council within sixty (60) days after receipt of the recommendation of the Planning Commission, then the applicant may deem the application to have been denied.
- (Ord. 5-2007. Passed 3-13-07.)

1169.06 ISSUANCE, EXPIRATION, REVOCATION, TRANSFER.

(a) Upon conclusion of the procedures in 1169.03, 1169.04, and 1169.05, and approval of a conditional use by City Council, the Building Commissioner may issue a conditional use permit.

(b) Expiration of Approval. Approval of a conditional use permit approved by City Council shall expire twelve (12) months from the date of approval unless construction has commenced or the use established. A single extension of the conditional use permit, not to exceed six (6) months, may be granted by City Council after written request by the applicant.

(c) No application for a conditional use permit which has been denied wholly or in part by City Council shall be resubmitted until the expiration of one (1) year or more from the date of such denial, except on grounds of newly discovered evidence or proof of changed conditions which would be sufficient to justify reconsideration by the Planning Commission and Council.

(d) Revocation.

- (1) If the Building Commissioner finds that any provision of this Chapter relating to a conditional use permit is being violated or that any condition, safeguard, or requirement of a conditional use permit is being violated or breached, the Building Commissioner shall send a written notice by certified mail to the owner of the property, indicating the nature of the violation and ordering the action necessary to correct it.
- (2) The notice shall state what action the Building Commissioner intends to take if the violation is not corrected and shall advise that the Building Commissioner's decision or order may be appealed to City Council within ten (10) days of receipt of the notice.
- (3) If no appeal is filed, the Building Commissioner shall take necessary and appropriate action to resolve the violation. If an appeal is filed, all action shall be stayed unless the Building Commissioner prepares a statement, as approved by the Law Director, certifying that the situation poses imminent peril to the public health, safety or welfare of persons or property and that immediate action is warranted.
- (4) If an appeal is filed, City Council shall set a date for hearing. At least ten (10) days prior to the hearing, written notice shall be issued to the property owner.
- (5) Council shall conduct the hearing at the date and time established, shall consider the appeal and the record and shall determine the action to be taken. Council may take any of the following actions:
 - A. Amend the terms of the conditional use permit.
 - B. Revoke the conditional use permit.
 - C. Order the Building Commissioner to take action necessary to correct the violation.
- (6) Notwithstanding the foregoing, in cases when delay would seriously threaten the effective enforcement of this Chapter or pose a danger to the public health, safety, or welfare, the Building Commissioner may seek enforcement without prior written notice.

(e) Transfer of Conditional Use Permit to New Owner of Conditional Use. A conditional use permit shall expire when ownership of the use is transferred to a new owner. A conditional use permit may be transferred to a new owner of the use for which the original permit was granted provided that the new owner shall submit a written request for transfer of the permit. The request shall include a statement ensuring compliance with all conditions of the original permit. The Building Commissioner shall inspect the premises for conformance with the original permit, shall review the record regarding the permit and the operation of the use, and shall transfer the conditional use permit to the new owner if the use is found to conform to the permit conditions or is brought into conformance.

(Ord. 5-2007. Passed 3-13-07.)

1169.07 STANDARDS FOR ALL CONDITIONAL USES.

(a) The Planning Commission shall determine, in making a decision to recommend approval of a conditional use or to deny a conditional use permit, if the proposed use will comply with the general standards in this Section 1169.07 and the specific standards in Section 1169.08 pertinent to each use indicated therein. The Planning Commission may recommend and City Council may approve such additional conditions and safeguards deemed necessary for the general welfare, for the protection of individual property rights and for insuring that the intent and objectives of this Zoning Code will be observed.

(b) The Planning Commission shall review the particular facts and circumstances of each proposed use in terms of the following standards and shall find adequate evidence showing that such use on the proposed

location:

- (1) Will be designed, constructed, operated and maintained so as to be harmonious and appropriate in appearance with the existing or intended character of the general vicinity and that such a use will not change the essential character of the same area;
- (2) Will not be hazardous or unduly disturbing to existing or future neighboring uses;
- (3) Will not be detrimental to property in the immediate vicinity or to the community as a whole;
- (4) Will be served adequately by essential public facilities and services such as roads, police and fire protection, drainage structures, refuse disposal or schools, or that the persons or agencies responsible for the establishment of the proposed use shall be able to provide adequately any such service; and
- (5) Will have vehicular approaches to the property which shall be so designed as not to create an interference with traffic on surrounding public roads.

(Ord. 5-2007. Passed 3-13-07.)

1169.08 STANDARDS FOR SPECIFIC CONDITIONAL USES.

In addition to the Standards for All Conditional Uses in Section 1169.07 above, the following standards shall apply to the specific conditional uses listed in this Section:

- (a) **Banquet Facility in O-S District.** A banquet facility may be permitted in the O-S District subject to the following conditions:
 - (1) All dining and service shall be conducted within a completely enclosed building.
 - (2) Buildings, parking, storage, and all other uses shall be set back at least 50 feet from residential districts.
- (b) **Restaurant, Bar, Tavern.**
 - (1) **Restaurant in O-S District.** A restaurant may be permitted as a conditional use in the O-S District subject to the following conditions:
 - A. All dining and service shall be conducted within a completely enclosed building.
 - B. Restaurant buildings, parking, storage, and all other uses shall be set back at least 50 feet from residential districts.
 - C. Drive-through facility is not permitted.
 - (2) **Restaurant, Bar or Tavern in B-1 District.** A restaurant, bar, or tavern may be permitted as a conditional use in the B-1 District subject to the following conditions:
 - A. Outdoor Dining and Service. All dining and service shall be conducted within a completely enclosed building provided that outdoor dining and service may be conducted in a location at least 100 feet distant from all residential districts. The outdoor dining and service areas shall not exceed two-hundred fifty (250) square feet and shall be enclosed with wood or masonry walls as approved in the conditional use permit. Loudspeakers and live music performance shall not be permitted in the outdoor area.
 - B. Restaurant buildings, parking, storage, and all other uses shall be set back at least 50 feet from residential districts.
 - C. Drive-through facility is permitted in compliance with the standards for drive-through facilities at Section 1169.08(h) and with the following:
 - I. A drive-through facility accessory to a restaurant shall not be permitted nearer than one hundred fifty (150) feet to a residential district.
 - II. A setback of at least ninety (90) feet from the public street right-of-way line is required.
 - III. Vehicular access to the property shall only be permitted from an arterial street. If located on a corner lot, the access shall be at least fifty (50) feet from the intersection of the right-of-way lines.
 - (3) **Restaurant with Outdoor Dining or Service in B-2 District.** A restaurant with outdoor dining or service may be permitted as a conditional use in the B-2 District subject to the following conditions:
 - A. Outdoor dining and service may be conducted in a location at least 100 feet distant from all residential districts.
 - B. The outdoor dining and service areas shall be enclosed with wood or masonry walls as approved in the conditional use permit.
 - C. Loudspeakers and live music performance shall not be permitted in the outdoor area unless it is determined that the sound will not be audible in any residential district.
 - D. Restaurant with drive-through facility shall not be permitted.
- (c) Amusement and Recreation uses such as assembly hall, meeting hall, bowling alley, billiard hall, theater, may be permitted subject to the following condition:
 - (1) Use shall be conducted within an entirely enclosed soundproofed building.
- (d) Veterinary clinics and veterinary hospitals may be permitted subject to the following conditions:
 - (1) The use shall be designed to ensure that it will not create a nuisance in terms of noise, odor, safety, health, or other impacts.
 - (2) All activities associated with the use, except the outdoor waste area, shall be conducted inside a completely enclosed building, including any areas for confinement of animals.
 - (3) An outdoor pet waste area shall be provided for use by client pet owners to allow pets to defecate and urinate. Area shall be located at least fifty (50) feet from any property line. Facility operator shall submit a plan for daily cleaning of the area.
 - (4) Pets may be confined in the facility for short periods necessary for medical recovery, but no pet boarding is permitted.
 - (5) The operator shall identify the nature of all wastes to be generated by the use and shall submit a plan for storage and disposal.
- (e) Hotel and motel uses may be permitted subject to the following conditions:
 - (1) A hotel or motel shall not be located on a lot abutting a residential district.
 - (2) Minimum lot shall be six (6) acres.
 - (3) Overnight parking of autos, pickup trucks, and recreational vehicles and similar vehicles designed for personal travel is permitted. Overnight parking of panel vans, semi tractors and trailers, or other vehicles is not permitted.
 - (4) The operator shall not permit a guest to occupy the hotel for more than thirty (30) consecutive days.
 - (5) Not more than twenty-five percent (25%) of the gross floor area may be used for uses incidental to the rental of rooms, including but not limited to newsstand, gift shop, lounge, or restaurant. Entry to incidental uses shall only be from an interior lobby or hall of the building.
- (f) Gasoline service stations and self-service auto laundries may be permitted subject to the following conditions:
 - (1) Gasoline service stations and self-service auto laundries as controlled by Chapter 1165.
 - (2) Gasoline service stations and self-service auto laundries shall also comply with requirements for drive-through facilities at Section 1169.08(h) below, except that gasoline pumps may be located in front of the principal building.
- (g) Automotive major repair uses may be permitted subject to the following conditions:
 - (1) The applicant shall submit a site plan to the Planning Commission detailing all intended uses and improvements of the lot, including paved areas and buildings, and all other information necessary to determine conformance with the provisions of this Zoning Code. The Commission shall make a report and recommendation to City Council. The zoning certificate shall only be issued in conformance with a site plan approved by City Council.
 - (2) Automotive major repair shall be limited to automobiles, small vans and light trucks. Recreational vehicles, commercial trucks, and other large or heavy vehicles and equipment shall not be repaired on the lot.
 - (3) Landscaping shall be installed and maintained in the following areas as approved in the site plan as follows:
 - A. A landscaped area shall be installed and maintained in all areas abutting the public right of way to a depth of not less than fifteen feet.
 - B. Where any lot line abuts a lot in a nonresidential zoning district, a landscaped area shall be maintained and installed to a width of not less than five feet.
 - C. Where any lot line abuts a lot in a residential zoning district, either:
 1. A solid wall six feet in height shall be installed abutting the property line; or
 2. A wood fence six feet in height shall be installed abutting the property line and all pavement, parking, storage and all other activities shall be set back at least thirty feet from the lot line.
 - (4) Exterior lighting shall only be installed as approved in the site plan.
 - (5) Vehicle doors shall not be located on any side of the building facing a residential zoning district. Vehicle doors shall not be located facing a public street unless the Planning Commission determines that the orientation is unavoidable. Windows and man-doors located on any side of the building facing a residential zoning district shall be self-closing in order to control noise impacts on the residential district.
 - (6) If the lot abuts a residential zoning district, automobile major repair shall not be conducted between the hours of 8:00 p.m. and 7:00 a.m.
 - (7) The following shall only be permitted in locations on the lot indicated on the approved site plan.
 - A. Vehicle parking, including vehicles which are missing body parts or which are severely damaged;
 - B. Storage of vehicle parts and other materials or wastes.
 - (8) Outside operations are prohibited except for hand washing or waxing of vehicles.
 - (9) Outside speakers, bells and similar sound-producing equipment are prohibited.
 - (10) Except as otherwise provided in this Zoning Code, vehicle sales and the exterior display or storage of materials for sale are prohibited.
- (h) Drive-through facilities may be permitted subject to the following conditions:
 - (1) The applicant shall provide a traffic study (which shall be satisfactory to the Planning Commission and City Council in preparer qualifications, content, analysis, conclusions and recommendations) which projects the vehicular use (including but not limited to vehicle types, volumes, and other information) of the proposed facilities and evidences compliance with the provisions of this Zoning Code.
 - (2) Lanes required for vehicle access to, waiting for use of, and service within a drive-through facility shall be designed with sufficient length to accommodate the peak number of vehicles projected to use the facility at any one time, to provide escape/abort lanes for vehicles desiring to leave the stacking lanes or to avoid disabled vehicles, and to minimize impacts on the use of other required parking or drives, impacts on abutting roads, and hazards to pedestrians.
 - (3) Drive-through facilities, their stacking areas, and routes of access shall be located to not interfere with or cause interference with vehicles or pedestrian movement on the public roads or within the site. Stacking areas for drive-through facilities shall not be the sole or primary site egress route. Stacking areas shall not utilize parking or aisles required for access to parking.
 - (4) Drive-through facilities shall be located on that part of a site which is most distant from or most screened from the abutting residential districts. Where site conditions necessitate locating a drive-through facility near to the residential district (and is not otherwise prohibited), the area between the facility and the residential district shall be screened as approved in the conditional use permit.
 - (5) Business establishments with drive-through facilities shall provide a minimum of four (4) stacking spaces per facility and additional spaces determined necessary in the traffic study.
 - (6) Drive-through facilities shall not be located in front of the principal building.
 - (7) The applicant shall eliminate or reduce the impacts of lighting, litter, noise, and exhaust resulting from the facility, especially impacts on nearby residential uses, through proper design of the site, operation of the use, and other methods.
 - (8) Drive-through facilities which utilize microphones or other audible signals shall be designed to minimize sound impacts upon abutting uses and shall not create more than 40 dBA at the property line.
 - (9) Hours of operation shall be as approved with the site plan. Conditions may be established restricting the hours of operation in order to reduce inappropriate impacts on abutting uses and on public street traffic and to ensure compatibility with normal vehicular activity in the district.
 - (10) Drive-through facility accessory to a restaurant shall comply with applicable provisions of Section 1169.08(b).
- (i) Garden centers may be permitted subject to the following conditions:
 - (1) Outdoor sales, storage, or display shall only be permitted in areas identified on the approved site plan. No outdoor sales, storage, or display is permitted within fifty (50) feet of any road right-of-way. The activities shall not occupy any required public or private sidewalk, parking area or driveway.
 - (2) Any outdoor sales, storage, or display area located closer than one hundred (100) feet to a residential district shall, if determined to be visible from the district, be screened by a landscape buffer strip or other means indicated on the approved site plan.
 - (3) Outdoor displays shall be maintained in a neat and orderly fashion.
 - (4) The site plan submitted with an application for a conditional use permit shall indicate the types of merchandise to be displayed and, if applicable, any seasonal changes of display.
 - (5) Outdoor storage shall not include the storage or accumulation of waste products, except as specifically approved in the site plan.
- (j) Day care centers may be permitted subject to the following conditions:
 - (1) The location, orientation, and capacity of dropoff and loading areas shall be sufficient to prevent obstruction of public streets and sidewalks.
 - (2) Sufficient on-site parking shall be provided for staff and visitors.

(Ord. 5-2007. Passed 3-13-07.)
- (k) Sweepstakes/internet cafes may be permitted subject to the following conditions:
 - (1) There shall be a parking standard of one parking space per computerized sweepstakes device in operation on the premises and an additional parking space per employee on duty on the premises.

- (2) No sweepstakes/internet cafe shall be located within five hundred (500) feet from the boundaries of a parcel of real estate having situated on it a school, public library, public playground, church, or religious institution, or within five hundred (500) feet of any establishment that has been issued a liquor permit by the State of Ohio.

This section shall not apply to any duly licensed sweepstakes/internet café in existence at a particular location at the time a school, public library, public playground, or any establishment that has been issued a liquor permit by the State of Ohio is established within five hundred (500) feet of said sweepstakes/internet café.

(Ord. 37-2011. Passed 8-23-11.)

- (f) Retail uses accessory to a permitted or conditionally permitted use in an O-S District may be permitted subject to the following conditions:

- (1) The primary purpose of an accessory retail use shall be to serve customers or employees of a permitted or conditionally permitted principal use of the O-S District.
- (2) The accessory retail use shall be wholly owned and operated as part of the principal use with which it is associated and shall occupy floor area not greater than twenty-five percent (25%) of the floor area of the entire business.
- (3) Access to the accessory retail use shall only be through the space occupied by the principal use.
- (4) The accessory retail use shall not have signs or advertising independent from that permitted for the principal use.

(Ord. 5-2007. Passed 3-13-07.)

1169.09 SIMILAR USE.

An applicant may submit an application for a conditional zoning certificate for a building or use which is not specifically listed as a permitted use or a conditionally permitted use in a district. The Planning Commission shall review the proposed use and recommend to City Council if the proposed use should be approved as a similar use based on the following standards and other applicable provisions of this Zoning Code. Further action by the Commission shall be delayed until Council determines that the proposed use is a similar use and shall be conditionally permitted in the district, at which time the Planning Commission shall proceed to review the application and shall make a recommendation to Council with regard to the conditional use permit and conditions.

- (a) Whether the use has characteristics and impacts consistent with those of one or more of the permitted uses in the district; and the use has characteristics and impacts more consistent with those of the permitted uses of the subject district than with the permitted uses of any other district.
- (b) Whether the establishment of the use in the district will significantly alter the nature of the district.
- (c) Whether the use will create dangers to health and safety or create offensive noise, vibration, dust, heat, smoke, odor, glare, traffic, or other objectionable impacts or influences to an extent greater than normally resulting from permitted uses listed in the subject district.
- (d) Whether the use typically requires site conditions or features, building bulk or mass, parking, or other requirements dissimilar from permitted uses; and whether the typical development of site and buildings for the use is compatible with those required for permitted uses and can be constructed in conformance with the standard regulations for height, lot dimensions, setbacks, etc. of the district. (Ord. 37-2011. Passed 8-23-11.)

1169.10 APPLYING STANDARDS TO PRE-EXISTING USES.

(a) A conditional use permit shall be required for modification of a use (and for modification of the site and structures associated with such use) which was legally existing prior to the effective date of this Chapter 1169 or of subsequent amendments, and which is listed as a conditional use by this Zoning Code or Chapter 1169, or of subsequent amendments thereto.

(b) When an application is submitted for a conditional use permit for modification and continuance of a use legally existing prior to the effective date of this Chapter 1169 or of subsequent amendments, the Planning Commission and Council shall exercise discretion in applying the standards set forth in Sections 1169.07 and 1169.08 which are applicable to the existing use. Such discretion may include waiver or partial application of the standards, subject to a finding or findings that compliance with one or more of the standards is infeasible or impractical.

(Ord. 5-2007. Passed 3-13-07.)

CHAPTER 1171

I-2 Industrial District

1171.01 Intent.

1171.02 Permitted uses.

1171.03 Use restrictions.

1171.04 General requirements.

1171.05 Performance standards.

1171.06 Violations of performance standards.

1171.07 Site plan review.

1171.08 Yard, area and bulk requirements.

1171.09 Off-street parking.

1171.10 Walls and landscaping.

1171.11 Signs and lighting.

CROSS REFERENCES

Storage of unlicensed motor vehicle - see ZON. 1175.10(b)

Mining, soil stripping prohibited - see ZON. 1177.07

1171.01 INTENT.

The purpose of the I-2 Industrial District is to provide locations for warehousing, wholesale and manufacturing establishments where infrastructure is sufficient to support and promote these uses and where their impacts on residential areas can be mitigated.

(Ord. 99-2002. Passed 11-26-02.)

1171.02 PERMITTED USES.

In all I-2 Industrial Districts no building or land, except as otherwise provided in this chapter, shall be erected or used except for one or more of the following specified uses:

- (a) Basic research, design and pilot or experimental product development when conducted within a completely enclosed building.
- (b) Research and office uses related to permitted manufacturing operations.
- (c) Warehousing and wholesale establishments.
- (d) Tool, die, gauge and machine shops.
- (e) The manufacture, compounding, processing, packaging or treatment of such products as cosmetics, pharmaceuticals, toiletries, food products, hardware and household supplies.
- (f) The manufacture, compounding, assembling or treatment of articles or merchandise from the following previously prepared materials: bone, canvas, cellophane, cloth, cork, feathers, felt, fibre, fur, glass, hair, horn, leather, paper, plastics, precious or semiprecious metals or stones; sheet metal excluding large stampings such as automobile fenders or bodies, ferrous and nonferrous metals excluding large castings and fabrications, shell, textiles, tobacco, wax, wire, wood excluding saw and planing mills and yarns.
- (g) The manufacture of pottery, figurines or other similar ceramic products using only previously pulverized clay and kilns fired only by electricity or gas.
- (h) Manufacture of musical instruments, toys, novelties, and metal or rubber stamps or other small molded rubber products, not including pneumatic tires.
- (i) Manufacture or assembly of electrical appliances, electronic instruments and devices, radios and phonographs.
- (j) Laboratories--experimental, film or testing.
- (k) Warehouse, storage and transfer uses and electric and gas service building, public utility buildings, telephone exchange buildings, electrical transformer stations and substations and gas regulator stations; provided that outside storage is not permitted for any of these uses.
- (l) Accessory buildings and uses.
- (m) Off-street parking and loading facilities; parking garages.
- (n) Maintenance and storage only within wholly enclosed buildings.
- (o) Permitted signs.
- (p) Administrative, executive and managerial office buildings.
- (q) Regional offices or home branch offices for regional, national and international corporations.
- (r) Office buildings for the use of any of the following occupations: law, medicine, engineering, drafting, writing, accounting, broadcasting, investing and other uses similar in nature.
- (s) Data processing and computer centers, including sales, service and maintenance of electronic and data processing equipment.
- (t) Cultivation, processing and testing of medical marijuana. Dispensaries of medical marijuana associated with the foregoing uses in this subsection (t) that are located on the same or contiguous lot are a permitted accessory use.
- (u) Accessory buildings or uses customarily incidental to any of the above permitted uses such as storage garage, off-street parking and permitted signs.
- (v) Other Uses. The Planning Commission may recommend and City Council may approve the establishment of additional uses which are not listed above and which are:
- (1) Related and reasonably necessary and convenient for the satisfactory and efficient operation of a complete and integrated Office Industrial District; and
- (2) Similar in character to one or more of the uses permitted by Section 1171.02, (a) through (u).

The proposed use and any proposed conditions shall be fully described in a document submitted with the site plan. The Planning Commission may recommend and Council may approve or require any conditions deemed necessary to ensure the compatibility of the proposed use with the district.

(Ord. 11-2017. Passed 2-28-17.)

1171.03 USE RESTRICTIONS.

(a) In all industrial districts no building shall be erected, altered or moved and no land shall be used for carrying on of manufacturing activities of the character of or similar to tanneries, slaughterhouses, stockyards, glue factories, soap factories, oil refineries, drop forgings or other uses the normal operation of which produce or cause noxious, offensive, unhealthful and harmful odors, fumes, dust, smoke, light, waste, noise or vibration.

(Ord. 99-2002. Passed 11-26-02.)

(b) The processing of raw material for shipment in bulk form to be used in an industrial or commercial operation at another location is prohibited, except for the processing of raw materials for legal pharmaceutical drugs and medical marijuana.

(Ord. 11-2017. Passed 2-28-17.)

(c) No interior display shall be visible from any property line.

(Ord. 99-2002. Passed 11-26-02.)

1171.04 GENERAL REQUIREMENTS.

An I-2 District shall be located with access to an arterial or collector street.

(Ord. 99-2002. Passed 11-26-02.)

1171.05 PERFORMANCE STANDARDS.

No use, otherwise allowed, shall be permitted within the I-2 Industrial District which does not conform to the following standards of use, occupancy and operation, which standards are hereby established as the minimum requirements to be maintained within the area.

- (a) Smoke. No person, firm or corporation shall permit the emission of any smoke from any source whatever to a density greater than that density described as

No. 1 on the Ringelmann Chart; provided, that the following exceptions shall be permitted: smoke, the shade of appearance of which is equal to but not darker than No. 2 on the Ringelmann Chart for a period or periods, aggregating four minutes in any thirty minutes.

Method of Measurement. For the purpose of grading the density of smoke, the Ringelmann Chart, as now published and used by the United States Bureau of Mines, which is hereby made a part of this

chapter, shall be the standard. However, the Umbrascopes readings of smoke densities may be used when correlated with the Ringelmann Chart.

- (b) Dust, Dirt and Fly Ash. No person, firm or corporation shall operate or cause to be operated, maintain or cause to be maintained, any process for any purpose or furnace or combustion device for the burning of coal or other natural or synthetic fuels, without maintaining and operating, while using such process or furnace or combustion device, recognized and approved equipment, means, method, device or contrivance to reduce the quantity of gas or airborne solids or fumes emitted into the open air, which is operated in conjunction with such process furnace or combustion device so that the quantity of gas or airborne solids shall not exceed 0.20 grains per cubic foot of the carrying medium at a temperature of 500 degrees Fahrenheit.

Method of Measurement. For the purpose of determining the adequacy of such devices, these conditions are to be conformed to when the percentage of excess air in the stack does not exceed fifty percent at full load. The foregoing requirement shall be measured by the A.S.M.E. Test Code for dust separating apparatus. All other forms of dust and dirt shall be completely eliminated insofar as escape or emission into the open air is concerned. The Director of Public Safety may require such additional data as is deemed necessary to show that adequate and approved provisions for the prevention and elimination of dust and dirt have been made.

- (c) Noise. The intensity level of the sounds being emitted from any operation within districts regulated by this section shall not exceed the following decibel levels when adjacent to the following types of use districts:

In Decibels	Adjacent Use	Where Measured
50	All Residential Districts	Common Property Line
55	Office-Service District	Common Property Line
55	Neighborhood Business District	Common Property Line
60	Regional Business Districts	Common Property Line
60	General Business Districts	Common Property Line
60	Industrial Office District	Common Property Line
75	Major Street	At Street Line
60	Secondary residential street (residential opposite)	At Street Line

Objectionable noises, due to intermittence, beat frequency or shrillness shall be muffled so as not to become a nuisance to adjacent uses.

Method of Measurement. The sound level, in decibels, measured at the points adjacent to the various use districts shall meet the established levels ninety percent of the time, and shall not exceed the established sound levels by more than ten percent. The sound levels shall be measured with an approved standard sound-level meter incorporating a forty decibel frequency weighting network, or by any method subsequently approved by the U.S. Bureau of Standards.

- (d) Glare and Heat. Such operations producing an intensity of light and heat (such as welding operations and acetylene torch cutting) which would prove detrimental to any person or to the public or endanger the health, comfort or safety of any such person or the public, shall be performed within a completely enclosed building or behind a fence so as to completely obscure the operation from view from any point beyond the property line, except during the period of construction of the facilities to be used and occupied.

- (e) Sewage Wastes. No use or structure shall be established unless connected to an approved public sanitary sewer. Wastes disposed into the sanitary sewer shall comply with the regulations of the authority operating the sewer.

- (f) Odor. The emission of obnoxious odors of any kind shall be unlawful.

Method of Measurement. For the purpose of defining an odor, as such, it is hereby established that at such point where the measurement of the threshold of smell can be achieved, it shall be considered a noxious concentration and shall not be exceeded. These measurements will show the minimum concentration at which the first sensation of odor is had, and shall be made in ounces of the substances per thousand cubic feet of air (example: maximum for ethyl selano mercaptan shall be 18 millionths of an ounce per 1,000 cubic feet of air).

- (g) Gases. The escape or emission of any gas which is injurious or destructive in character shall be unlawful and may be summarily abated.

- (h) Fire and Explosive Hazards. The storage, handling and use of flammable or explosive materials shall be permitted only in structures having incombustible exterior walls, and all operations in connection therewith shall be provided with adequate safety and protective devices against hazards of fire and explosion as well as with adequate fire-fighting and suppression equipment and devices standard to the operation involved.

(Ord. 99-2002. Passed 11-26-02.)

1171.06 VIOLATIONS OF PERFORMANCE STANDARDS.

In every district regulated by the performance standards as set forth in Section 1171.05, any use of any facility or equipment which results in a violation of the performance standards shall be, and is hereby declared to be a violation of this chapter and a nuisance, and the same may be prosecuted under the penal provisions set forth in Chapter 1187.

(Ord. 99-2002. Passed 11-26-02.)

1171.07 SITE PLAN REVIEW.

(a) No building or structure shall be erected or land used in an I-2 Industrial District unless the site plan has been approved by Council. Council shall not approve the site plan unless it receives a report and recommendation from the Planning Commission, but Council may act on the site plan if a report and recommendation is not received from the Planning Commission within sixty days after the site plan has been presented to the Commission.

- (b) When recommending the approval of a site plan for an I-2 District, the Planning Commission may recommend such additional conditions as are necessary to secure the following objectives:

- (1) That all the development features including the principal and accessory buildings, open spaces, service roads, driveways and parking areas shall be located so as to encourage pedestrian and vehicular traffic safety; and

- (2) That the design of such land use will not discourage the appropriate development or impair the value of existing or proposed development in the area surrounding the subject development.

(Ord. 99-2002. Passed 11-26-02.)

1171.08 YARD, AREA AND BULK REQUIREMENTS.

Yard, area and bulk requirements shall be regulated as set forth in Chapter 1173.

(Ord. 99-2002. Passed 11-26-02.)

1171.09 OFF-STREET PARKING.

- (a) Except as provided in subsection (b) hereof, off-street parking shall be as required in Chapter 1175.

- (b) Parking shall be located at least fifty feet from any public right of way, except as follows:

- (1) Parking may be located in the areas of a lot between twenty-five feet and fifty feet from the right of way where a landscaped earth mound or masonry wall and other landscaping is installed and permanently maintained in the area between the parking lot and the right of way.

- (2) The height of the mound or wall shall be at least three feet above the grade of the parking.

- (3) Additional planting shall be installed and maintained in the area between the parking lot and the right-of-way in conformance with a landscape plan submitted by the applicant and approved by the Planning Commission.

(Ord. 99-2002. Passed 11-26-02.)

1171.10 WALLS AND LANDSCAPING.

Walls and/or landscaping shall be as required in Chapter 1177.

(Ord. 99-2002. Passed 11-26-02.)

1171.11 SIGNS AND LIGHTING.

Signs and lighting shall be permitted only when in conformity with the provisions set forth in Chapter 1179.

(Ord. 99-2002. Passed 11-26-02.)

CHAPTER 1172

Wireless Telecommunication Tower Overlay District

1172.01 Intent.

1172.02 Permitted uses.

1172.03 General requirements and performance.

1172.04 Fees.

1172.05 Definitions.

1172.01 INTENT.

(a) The WTTTO Wireless Telecommunication Tower Overlay District is established to provide for the construction and use of wireless telecommunication towers and facilities as a permitted use, conditional use, or accessory use depending upon the specific land areas of the City and circumstances in which they are proposed to be located. The purpose of this Overlay District is to balance the competing interests created by the Federal Telecommunications Act of 1996 (Public Law 104-104) and the interests of the City in regulating wireless telecommunication towers and related facilities for the following reasons: to provide for orderly development within the City; to protect property values; to maintain the aesthetic appearance of the City; to provide for and protect the health, safety and general welfare of the residents of the City; to protect residential properties, parks and open spaces from the adverse effects of towers and related facilities; to promote collocation of wireless telecommunication facilities in order to decrease the number of towers in the City; and to maintain, where possible, the integrity of the existing zoning regulations contained in the Zoning Code.

(b) The Wireless Telecommunication Tower Overlay District regulations shall control and supersede wherever they are inconsistent with other provisions of the Zoning Code. If no inconsistency exists between the provisions of this Overlay District and the provisions of the underlying zoning district, the underlying zoning district regulations and other provisions of this Zoning Code shall remain in full force and effect and shall regulate all land use and development.

(c) The Wireless Telecommunication Tower Overlay District establishes a hierarchy of acceptable land areas for location of wireless telecommunication towers and related facilities through the establishment of such use as a permitted use in certain land areas, as a conditional use in other land areas, or as an accessory use for erection of antennas only, which determination is dependent upon the location and characteristics of such land areas.

(Ord. 12-97. Passed 4-22-97.)

1172.02 PERMITTED USES.

(a) Principally Permitted Uses. A wireless telecommunication tower facility may be permitted on any property owned or controlled by the City under such conditions, standards and regulations as deemed appropriate by action of the City Council.

(b) Conditionally Permitted Uses. A wireless telecommunication tower facility may be permitted in areas other than those areas set forth in subsection (a) hereof as a conditional use only in the areas indicated as a WTTTO District on the Zone Map and upon the approval of the Planning and Zoning Commission, provided the applicant demonstrates compliance with each of the following standards, as well as the standards set forth in Section 1172.03 herein:

- (1) There is no technically suitable space for the applicant's antenna(s) and related facilities reasonably available on an existing tower within the geographic area to be served, including the areas set forth in subsection (a). With the building permit application, the applicant shall list the location of every tower, building or structure and all of the areas set forth in subsection (a) that could support the proposed antenna(s) or area where it would be technically suitable to locate so as to allow it to serve its intended function. The applicant must demonstrate that a technically suitable location is not reasonably available on an existing tower, or a technically suitable location is not available in any area set forth in subsection (a). If another existing tower or an area set forth in subsection (a) is technically suitable, the applicant must demonstrate that it has requested to collocate on the existing tower and the collocation request was rejected by the owner of the tower, or that it has requested the City Council to permit it to locate a tower facility in all technically suitable area(s) set forth in Subsection (a) under reasonable terms and that each request was rejected. In all circumstances, owners of existing towers shall promptly respond in writing to requests for collocation, but in no event shall they respond more than thirty (30) days from the date of receipt of a written request for

collocation. If another telecommunication tower is technically suitable, the applicant must further show that it has offered to allow the owner of that other tower to collocate an antenna(s) on another tower within the City which is owned or controlled by the applicant, if any, on reasonably reciprocal terms and the offer was not accepted.

- (2) As a condition of issuing a conditional building permit to construct and operate a tower in the City, the owner/operator of the telecommunication tower is required to allow collocation until said tower has reached full antenna capacity, but in no event fewer than two (2) additional antenna platforms for two (2) additional wireless telecommunication antenna owners/operators unrelated to the owner/operator of the tower. Agreement to this provision must be included in the applicant's lease with the landowner, if different from the owner/operator of the tower. Written documentation must be presented to the Building Commissioner evidencing that the landowner of the property on which the tower is to be located has agreed to the terms of this subsection (b) as well as all other applicable requirements, regulations and standards set forth in this chapter.
- (3) The color of the tower shall be as required by the Architectural Board of Review.
- (c) Accessory Use. The erection or construction of a wireless telecommunication antenna(s) on an existing wireless telecommunication tower shall be a permitted accessory use as a collocation on such a tower and shall be approved upon submission of an application for a building permit to the Building Commissioner which meets all applicable regulations in Section 1172.03 hereof related to the placement of the wireless telecommunication equipment and related facilities associated with such antenna(s).

(Ord. 12-97. Passed 4-22-97.)

1172.03 GENERAL REQUIREMENTS AND PERFORMANCE.

Except as otherwise provided in this chapter, all wireless telecommunication tower facilities shall comply with the following standards:

- (a) Design. All wireless telecommunication towers shall be of a monopole design, as opposed to a lattice design. Towers and antennas shall be designed to meet all Building Code requirements.
- (b) Maximum Height of Tower and Related Facilities. A wireless telecommunication tower shall be less than 200 feet in height as measured from the average ground level at the base of the tower. The intent of this height restriction is to avoid, if at all possible, the necessity for lighting of the tower. No equipment building for a wireless tower facility shall exceed ten feet in height from building grade.
- (c) Color. Unless otherwise required by the Architectural Board of Review, the color of a wireless telecommunication tower shall be a neutral gray.
- (d) Additional Permitted Use. A wireless telecommunication tower facility may be located on a lot with another use.
- (e) Minimum Lot Area. The minimum lot area shall be the same as that required for the underlying zoning district and the lot area shall be sufficient to provide for all requirements of setbacks, yards and building coverage as specified in the underlying zoning district.
- (f) Location of Tower on the Lot. A wireless telecommunication tower must comply with the setback and yard requirements applicable to buildings in the underlying zone in which it is located. Such tower must be placed upon the lot in such a way as to minimize the visual impact from adjoining streets, roads and properties.
- (g) Spacing. There shall be a separation of at least one quarter mile between wireless telecommunication towers.
- (h) Fencing. Fencing shall be provided for public safety reasons. A fence at least six feet in height, but no greater than eight feet in height, shall be erected completely around the wireless telecommunication tower and any related support facilities. "No Trespassing" signs of no greater than two square feet shall be posted on the fence on four sides of the wireless telecommunication facility with a telephone number of a person to contact in the event of an emergency.
- (i) Buffer Zones. A landscaped buffer area of not less than fifteen feet in depth shall be placed between the wireless telecommunication facilities and the public rights-of-way and any adjacent properties from which a direct view can be had of the facilities, other than the tower itself. The fifteen-foot landscape buffer shall consist of a tight screen fence of hardy evergreen shrubbery not less than six feet in height. The landscaping shall be continuously maintained and promptly restored, if necessary.
- (j) Outdoor Storage. Outdoor storage of any supplies, vehicles or equipment related to the use of the wireless telecommunication facility is prohibited except during the facility construction period and to supply emergency power to the facility only during a power outage.
- (k) Lighting. Except as required by applicable law or this chapter, a wireless telecommunication antenna or a tower shall not be illuminated and lighting fixtures or signs shall not be attached to the antenna or tower. If lighting is required by Federal Aviation Administration ("FAA") regulations, white strobe lights shall not be permitted at night unless no other alternative is permitted by the FAA. Lighting for security purposes shall only be permitted at the wireless telecommunication facility with the prior approval of the Planning and Zoning Commission.
- (l) FCC Compliance. Prior to receiving final inspection by the Building Commissioner and authorization to commence the use, documented certification shall be submitted by the applicant that the wireless communication facility complies with all current Federal Communications Commission ("FCC") regulations for non-ionizing electromagnetic radiation (NIER).
- (m) Advertising. No advertising shall be permitted on the wireless telecommunication facility.
- (n) Time Limit for Commencement and Completion of Construction. After issuance of a building permit to construct a wireless telecommunication facility, the applicant shall commence construction within 180 days and shall complete construction within one year or the building permit shall expire. As a condition of issuance of the permit, the Building Commissioner shall require the applicant and the owner of the property to certify that if construction is not commenced within the 180 days or completed within one year, that the site will be available for another wireless telecommunications facility.
- (o) Removal of Facilities.
- (1) The owner or operator shall agree to remove a nonfunctioning wireless telecommunication facility within six (6) months of ceasing its use. The owner/operator of the antenna and/or tower shall, on no less than an annual basis from the date of issuance of the building permit, file a declaration with the Building Commissioner as to the continuing operation of every facility which is subject to this chapter. The owner/operator of the antenna and/or tower shall sign a written consent agreeing to permit an annual inspection of the wireless telecommunication facility by the Building Commissioner or his designee.
- (2) The owner or operator shall be required, as a condition of issuance of a building permit, to post a cash or surety bond acceptable to the Director of Law of not less than one hundred dollars (\$100.00) per vertical foot from natural grade of the wireless telecommunication tower which bond shall insure that an abandoned, obsolete or destroyed wireless communication antenna or tower shall be removed within six (6) months of cessation of use and abandonment.

(Ord. 12-97. Passed 4-22-97.)

1172.04 FEES.

The Building Commissioner shall collect the fees for applications for building permits as required by this section in accordance with the following schedule:

- (a) New wireless telecommunication tower facility. A fifteen hundred dollar (\$1,500) deposit upon which expenses incurred by the City will be drawn and the balance, if any, returned to the applicant upon final inspection prior to authorization of commencement of the use.
- (b) New wireless telecommunication antenna and related facilities (without a tower) - five hundred dollars (\$500.00).
- (c) Annual inspection fee - one hundred dollars (\$100.00).
- (d) Reimbursement of Expenses. The applicant for a wireless communication tower and/or antenna facility shall be responsible for all expenses incurred by the City for any technical and/or engineering services deemed necessary by the Building Commissioner, the Mayor, the Planning and Zoning Commission, or the Architectural Board of Review to perform the reviews required by this section which are not covered by the fees set forth in this section.

(Ord. 12-97. Passed 4-22-97.)

1172.05 DEFINITIONS.

- (a) "Telecommunication" means technology permitting the passage of information from the sender to one or more receivers in a usable form by means of any electromagnetic system, and specifically includes the term "personal wireless services" as defined by 47 U.S.C. §332(c)(7).
- (b) "Wireless telecommunication antenna" means an antenna system designed to transmit or receive communications as authorized by the Federal Communications Commission (FCC) excluding amateur radio operator antennas.
- (c) "Wireless telecommunication equipment building" means the structure or cabinet in which the electronic receiving and relay equipment for a wireless telecommunication facility is housed.
- (d) "Wireless telecommunication facility" means a facility consisting of the equipment and structures involved in receiving telecommunication or radio signals from a mobile radio communications source and transmitting those signals to a central switching computer which connects the mobile unit with the land based telephone lines.
- (e) "Wireless telecommunication tower" means a tower including but not limited to self-supporting lattice or monopole which elevates the wireless communication antenna and may include accessory transmission and receiving equipment.
- (f) "Monopole" means a single, slender and typically cylindrical, vertical structure to which antennas or antenna support structures are affixed.
- (g) "Lattice" means a framework or structure of crossed metal strips typically resting on three (3) or more members constructed vertically to which antennas are affixed.
- (h) "Substantial evidence" means more than a mere scintilla of evidence. It means such relevant evidence as a reasonable mind might accept as adequate to support a conclusion.
- (i) "Technically suitable" means the location of a wireless telecommunication antenna(s) reasonably serves the purpose for which it is intended within the band width of frequencies for which the owner or operator of the antenna(s) has been licensed by the FCC to operate without a significant loss of communication capability within developed areas of the City.

(Ord. 12-97. Passed 4-22-97.)

CHAPTER 1173

General Provisions; Schedule of Regulations

1173.01 Intent.

1173.02 Yards.

1173.03 Public facility and residential districts.

1173.04 Dimensional standards for nonresidential districts.

1173.05 Schedule of regulations' notes.

CROSS REFERENCES

Floor area defined - see ZON. 1123.04(e)

Yard defined - see ZON. 1123.08(e)

Prohibited uses - see ZON. 1125.09

1173.01 INTENT.

Except as hereinafter provided, no building or land or part thereof located in the City shall be used, altered, constructed, reconstructed, moved within or into the City except in conformity with the provisions of this chapter which apply to the district in which it is located.

(Ord. 72-72. Passed 8-31-72.)

1173.02 YARDS.

- (a) No yard, court or other open space provided about any building for the purpose of complying with the provisions of these regulations shall be used as a yard, court or other open space for any other building existing or intended to exist at the same time.
- (b) Structural projections which extend outside the enclosing walls and which are an integral and functional part of the building design such as cornices, roof overhangs, bay windows and awnings may project into required yards a distance of two feet six inches.
- (c) The depth of the front yard on a single-family residential corner lot shall be not less than the required setback, and the width of the side yard on the side street shall be not less than one-half of the depth of the front yard required for the adjoining lot which fronts on the side street unless the Zone Map shows otherwise, in which case the Zone Map distance shall control.
- (d) All yards which are not used for vehicular parking or other lawful accessory use shall be landscaped in accordance with Chapter 1177.
- (e) In order to promote safe movement of vehicles at and near street intersections and in order to promote more adequate protection of the safety of children, pedestrians, property and other vehicles and occupants, no permanent or temporary fence, wall, shrubbery, sign, vehicle or other obstruction to vision above a height of three feet from the established street grades shall be permitted within the triangular area formed at the intersection of any street right-of-way lines by a straight line drawn between the right-of-way lines at a distance, along each right-of-way line, of forty feet from this point of intersection.

(Ord. 72-72. Passed 8-31-72.)

(Ord. 5-2007. Passed 3-13-07.)

1173.05 SCHEDULE OF REGULATIONS' NOTES.

- (a) For one-story and two-story structures. For every story above two, each side, front and rear yard distance shall be increased by not less than twenty feet.
- (b) The least side yard shall be not less than six feet and shall be that side yard where an attached garage having no habitable living area above the garage is located and any portion of the dwelling behind the garage is only one story in height. Not less than twenty percent of the average width of the lot shall be devoted to side yards, provided, however, that not more than twenty feet in width need be so devoted.
- (c) For one-story units.
- (d) For two-story units or the two uppermost levels of tri-level, (split level) units.
- (e) The total side yard distance between each group of attached single-family dwellings and between any group of attached single-family dwellings and a detached single-family dwelling located within an R-3 District shall be not less than thirty feet.
- (f) Side yards need not refer to spacing between buildings for a planned development for two or more buildings on the same parcel; in such instance the distance between buildings is regulated by the Building Distance Formula as set forth in Section 1147.07, and where because of building arrangement the formula is not applicable, the minimum distance shall be fifty feet.
- (g) Along those side and/or rear property lines which abut a single-family residential district or which are seventy-five feet or less from property zones in a single-family residential district classification as measured along a line which is drawn at right angles to the property line at the point on such line which is closest to such single-family residential district, the minimum yard shall be the greater of (i) 100 feet, or (ii) the yard as determined by the following formula:

$$Y = \frac{L + 2H}{3}$$

Along those side and/or rear property lines which do not have the above described relationship to property zoned in a single-family residential district classification, the minimum required yard shall be determined by the following formula:

$$Y = \frac{L + 2H}{4}$$

The symbols used above shall be defined as follows:

Y = required yard

L = the total length of that portion of a lot line from which when viewed directly from above, lines drawn perpendicular from the lot line will intersect any part of the building other than permitted yard encroachments.

H = height of building as defined in Section 1123.02.

Where a lot line abuts a street, the required front yard (not including any existing or proposed right of way) shall be the greater of: (i) the yard as determined by the formula:

$$Y = \frac{L + 2H}{4}$$

or (ii) the number of feet indicated in the schedule.

(h) As set forth in Sections 1143.05, 1147.05 and 1144.03.

(Ord. 100-2002. Passed 11-26-02.)

- (i) Side and rear yards shall be:
- (1) At least fifteen (15) feet where the lot line abuts a nonresidential district or a multifamily district;
 - (2) At least fifty (50) feet where the lot line abuts a single-family residential district;
 - (3) Provided that where a lot line abuts a single-family residential district, a yard of not less than twenty (20) feet may be permitted, provided that the site development complies with the following:
 - A. Site plan approved by Planning Commission and City Council.
 - B. Masonry wall, not less than six (6) feet in height.
 - C. Minimum of one (1) tree and three (3) shrubs per forty (40) feet of common lot line.
 - D. No building, parking, storage, or other use of the yard.
 - E. No operable windows or doors on side of building facing lot line, except emergency doors required by building or fire codes.
 - F. Roof slope at least 3:12 on of roof side facing residential district.
 - G. Side walls facing residential district shall be conventional residential material such as brick, shingle, or horizontal siding approved in site plan.

(Ord. 5-2007. Passed 3-13-07.)

(j) Where the side or rear yard of a lot abuts a lot in an industrial district, the minimum side and rear yard shall not be less than fifteen feet and not less than a distance equal to the height of the wall.

Where the side or rear yard of a lot abuts a lot in a residential district, the yard shall not be less than 100 feet. The yard may be reduced to fifty feet provided the following improvements are installed in the yard as approved in a site plan:

- (1) A masonry wall, not less than six feet in height, located in a manner to minimize impacts of the use upon abutting residential districts.
- (2) Based on the distance over which the boundaries of the industrial district and the residential district coincide, a minimum of twenty shrubs per 100 linear feet and five trees per 100 linear feet shall be planted in the reduced yard area. No outdoor use (including but not limited to parking and storage) shall be permitted in the reduced yard area.

On a corner lot, the side yard abutting a public right of way shall be not less than fifty feet.
- (k) The setback of the rear yard shall be not less than twenty percent of the depth of the lot, but need not be more than 100 feet.

An unattached accessory building permitted in an R-1, R-2, R-3 and RTF Residential District may be located in a rear yard but not less than twenty feet from any dwelling on an adjoining lot, and not less than ten feet from a rear or side lot line.
- (l) Maximum height shall be seventy-five feet, provided that all parts of the structure which exceed thirty feet shall be set back from residential districts a distance not less than one hundred feet and from all other property lines a distance equal to the minimum yards set forth in the table above but not less than a distance equal to the height of that part of the structure.

(Ord. 100-2002. Passed 11-26-02.)

CHAPTER 1174

Heliports and Helistops

1174.01 Prohibition of landing helicopters other than at heliport or helistop; definitions.

1174.02 Minimum specifications.

1174.03 Rooftop or elevated heliport or helistop.

1174.04 Submission of plans.

1174.05 Approval of heliport or helistop.

CROSS REFERENCES

Municipal airports - see Ohio R.C. 713.02, 717.01, 719.01

Aeronautics - see Ohio R.C. Ch. 4561

Heliports - see OAC Ch. 5501: 1-5

1174.01 PROHIBITION OF LANDING HELICOPTER OTHER THAN AT HELIPORT OR HELISTOP; DEFINITIONS.

(a) No person shall land, discharge, load or takeoff in a helicopter or by other steep gradient aircraft at any place within the City except at a heliport or helistop, the location and construction of which has been approved by the Director of Public Safety and which conforms to the specifications and requirements of this chapter.

(b) For the purposes of this chapter, the following words shall mean:

- (1) "Helicopter" means an air-borne vehicle used for the transportation of persons or material whose support in the air is normally derived from the vertical lift or force produced by airfoils or wings mechanically rotated about an approximately vertical axis.
- (2) "Heliport" means an area used by helicopters or by other steep gradient aircraft which may include passenger and cargo facilities, maintenance, overhaul and fueling services, storage and tie-down space, hangars and other accessory facilities.
- (3) "Helistop" means an area on the ground or on a roof, used by helicopters or steep gradient aircraft for the purpose of picking up or discharging passengers or cargo, but not including fueling service, maintenance or overhaul.

(Ord. 52-87. Passed 7-14-87.)

1174.02 MINIMUM SPECIFICATIONS.

In addition to aviation and structural requirements which may be imposed by proper authority, heliports and helistops, where permitted, shall comply with the following requirements:

- (a) Hard-Surfaced Areas. Every location approved or used as a heliport or helistop shall consist of a hard-surfaced area, free of dust and gravel, not less than 125 feet by 125 feet in size when located on the ground, or not less than sixty feet by sixty feet when located on a level rooftop or elevated platform, which area shall be set aside for exclusive use for such purposes, free of trees, wires and other obstructions, and enclosed by a fence at least three feet in height, and so located as not to obstruct the glide angle of aircraft using such hard-surfaced areas.
- (b) Approach Paths. At least two approach paths free and clear of obstructions shall be available to such heliport and helistop, having a width of at least 1,000 feet at a distance of 1,000 feet from the heliport or helistop, and at 500 feet of elevation, and tapering down to the width of the heliport or helistop. No approach path shall be used and no helicopter or other steep gradient aircraft shall be flown at an elevation of less than 500 feet over a residence building, school or other public building, or closer than 200 feet to any other building, structure, tree or public highway.
- (c) Helistops. No fueling, repairing or maintenance of helicopters or other steep gradient aircraft shall be performed at a helistop, except in case of emergency, and no fuel shall be stored.

(Ord. 52-87. Passed 7-14-87.)

1174.03 ROOFTOP OR ELEVATED HELIPORT OR HELISTOP.

In addition to aviation and structural requirements which may be imposed by proper authority, and to other regulations contained in this chapter, every rooftop or platform heliport and helistop shall be constructed in accordance with the following minimum specifications:

- (a) Material used for a rooftop or elevated heliport or helistop shall be of noncombustible material with a fire resistance rating of not less than two hours.
- (b) No opening or openings in the roof or platform shall be permitted in the immediate landing area.
- (c) At least two approved means of egress, remote from each other, shall be provided from each rooftop landing area. Such egress shall be protected by doors having a Class B rating. All means of ingress and egress shall be identified and illuminated.
- (d) The landing area and all openings shall be diked or curbed to a height of at least four inches so as to confine fuel spillage to its confines.
- (e) Fire extinguishing systems consisting of chemical portable extinguishers, building standpipe systems, or another source of water supply, and at least two hose stations remote from each other, shall be provided subject to detailed specifications and approval of the Fire Chief.
- (f) An auxiliary pole station at or in close proximity to the landing pad, or a master or street box fire alarm directed to the Fire Division of the City shall be installed and maintained in good working order.
- (g) Separate drains for the heliport or helistop shall be provided so that no gasoline or flammable liquids will be permitted to drain into a sewage system. Flammable liquid separators shall be provided.
- (h) "No Smoking" signs shall be installed on the roof or platform.

(Ord. 52-87. Passed 7-14-87.)

1174.04 SUBMISSION OF PLANS.

Every person, firm or corporation intending to establish and use a heliport or helistop within the City shall first submit plans for approval to the Director of Public Safety, consisting of the following:

- (a) A statement as to the intended use of the heliport or helistop, whether public or private, commercial or otherwise, the identity and financial responsibility of the management, frequency of flights and size and manufacture of equipment intended to be used.
- (b) A plan of the proposed site showing dimensions of the entire usable area, dimensions of actual landing and take-off areas, all obstructions within 1,000 feet of the heliport or helistop, indicating their heights, and drawings of flight and approach paths within 1,000 feet of the heliport or helistop.
- (c) A report by a professional engineer approved by the Building Commissioner showing that the roof structure or platform is designed to support concentrated loads on any one square foot equivalent to three-fourths gross weight of the largest helicopter or steep gradient aircraft to be accommodated.

(Ord. 52-87. Passed 7-14-87.)

1174.05 APPROVAL OF HELIPORT OR HELISTOP.

No approval of plans and operations shall be given for such proposed heliport or helistop unless the Director of Public Safety is satisfied that all provisions of this chapter and other provisions of the Codified Ordinances and other pertinent ordinances and regulations will be complied with, that the public safety will be protected, and that the use and enjoyment of neighboring property will not be adversely affected. Every such approval shall be subject to:

- (a) Continuing compliance with the provisions of this chapter and with applicable Federal Aviation Agency regulations;
- (b) The prohibition of smoking within the heliport or helistop area; and
- (c) The right and authority of the Director of Public Safety to cancel such approval and prohibit the use of such heliport or helistop for noncompliance with the provisions of this chapter, or F.A.A. regulations, or for any other reasonable cause or ground, based upon the protection of the public safety, health or welfare.

(Ord. 52-87. Passed 7-14-87.)

CHAPTER 1175

Off-Street Parking

1175.01 Intent.

1175.02 Establishment of regulations.

1175.03 Approval, permits and certificate of occupancy.

1175.04 Measurement units.

1175.05 Schedule of parking requirements.

1175.06 Location of parking facilities.

1175.07 Design, construction and maintenance of facilities.

- 1175.08 Driveways and access.
1175.09 Illumination of parking facilities.
1175.10 Use restrictions.
1175.11 Off-street loading and unloading facilities.
1175.12 Improvements to legal nonconforming drives and parking areas.
1175.13 Residential parking facilities.

CROSS REFERENCES

Off-street parking facilities - see Ohio R.C. 717.05 et seq.
Parking and parking space defined - see ZON. 1123.07(e), (f)
Site plan defined - see ZON. 1123.07(p)
Enclosure of parking areas by buffer strips and masonry walls - see ZON. 1177.02(a)

1175.01 INTENT.

Off-street parking requirements and regulations are established in order to achieve, among others, the following purposes:
(a) To relieve congestion so streets can be utilized more fully for movement of vehicular traffic;
(b) To promote the safety and convenience of pedestrians and shoppers by locating parking areas so as to lessen vehicular movements in the vicinity of pedestrian traffic; and
(c) For such purposes to provide regulations and standards for accessory off-street parking and loading facilities in accordance with the objectives of the Master Plan of the City.

(Ord. 72-72. Passed 8-31-72.)

1175.02 ESTABLISHMENT OF REGULATIONS.

Accessory off-street parking and loading facilities and drives shall be provided for all residential, institutional, office, business and service uses in conformance with the provisions of this chapter prior to the issuance of a certificate of occupancy for such uses.
(a) Whenever a building or use requiring off-street parking is increased in floor area or any other determining unit of measure, and such building or use does exist on the effective date of this chapter. (Ordinance 72-72, passed August 31, 1972) the minimum number of parking spaces required shall be based upon the entire building or use including the addition.
(b) Whenever the use of an existing building is changed to a more intensive use which requires more off-street parking or loading facilities, the minimum number of parking spaces required shall be based upon the more intensive use.
(c) Off-street parking existing at the effective date of this chapter (Ordinance 72-72, passed August 31, 1972) in connection with the operation of an existing building or use shall not be reduced to an amount less than hereinafter required for a similar new building or new use.

(Ord. 72-72. Passed 8-31-72.)

1175.03 APPROVAL, PERMITS AND CERTIFICATE OF OCCUPANCY.

(a) No building or structure shall be erected or used, or land used for off-street parking, loading or driveway purposes for more than three required parking spaces unless a site plan therefor has been approved by the Planning Commission.

(b) On all residential, commercial or industrial parcels, all parking surfaces, including access aisles and parking drives, shall be improved with either concrete or asphalt or with other materials that may be approved by the Planning Commission upon the recommendation of the City Engineer.

(c) No off-street parking or loading facilities shall be constructed without proper permit issued by the Building Inspector.

(d) All driveway and parking surfaces shall be constructed per specifications as follows:

- (1) In commercial and industrial districts, all parking surfaces, including access aisles and parking drives, shall be improved with concrete or asphalt material or, if approved by the Planning Commission, another suitable material. Surfaces designed for automobiles, sport-utility vehicles and light trucks may be constructed of four inches (4") of 4,000 PSI concrete reinforced with 6 x 6, 10 / 10 welded wire fabric or with asphalt consisting of two and a half inches (2.5") of number 402 base coat and two inches (2") of number 404 finish coat installed over a four-inch (4") thick compacted layer of stone aggregate.
- (2) In residentially-zoned districts, driveways and parking surfaces for one-, two- or three-family dwellings, or multi-family dwellings in areas where no heavy-truck traffic - e.g., garbage trucks, delivery vehicles, semi-trailer truck - is expected or permitted shall be paved with concrete or asphalt material, or, if approved by the Planning Commission, another suitable material. Concrete paving shall be a minimum thickness of four inches (4") of 4,000 PSI concrete reinforced with 6 x 6, 10/10 welded wire fabric or approved alternate. Asphalt shall consist of four-inch (4") thick compacted stone aggregate base layer, a minimum one and a half (1.4") thickness of number 402 base coat and a minimum of one-inch of number 404 finish coat. Paving on multi-family parcels in areas supporting heavy-truck traffic, such as access to dumpsters, shall be a minimum of eight inches (8") of reinforced concrete or an asphalt specification approved by the City Engineer.
- (3) All paving in the public right-of-way, including any portion of a public sidewalk included within the driveway areas, shall be Portland Cement Concrete in accordance with Ohio Department of Transportation's Specification No. 499, Class C, with a five percent to seven percent (5% - 7%) percent air entrainment, and a minimum thickness of seven inches (7") in all residentially-zoned districts, or a minimum thickness of nine inches (9") in all commercial or industrial districts. Concrete in the public right- of-way shall be reinforced using a minimum of 6 x 6, 8/8 rigid sheet welded wire fabric, or by a method and with material approved by the City Engineer.
- (4) All driveway and parking surfaces shall be graded to drain and eliminate standing water, provide positive drainage away from buildings and to prevent runoff from going upon adjacent properties, streets and sidewalks.
- (5) The stone aggregate base layer for concrete paving and asphalt paving shall be placed on an approved sub-grade.
- (6) All poured-in-place concrete shall comply with the applicable requirements set forth in the latest editions of the American Concrete Institute (ACI) publications 318 entitled Building Code requirements for Structural Concrete, ACI 325 for the Construction of Concrete Paving, ACI 330 for the installation of unreinforced concrete parking lots and paving, ACI 302.1R entitled Guide to Concrete Floor and Slab Construction, ACI 332R entitled Guide to Residential Cast-in-Place Concrete Construction and/or ACI 360R entitled Guide to Design of Slabs-on-Ground.

(d) An application for a permit to construct, replace or to make major repairs or alterations to a building or parking or loading area, and for a certificate of occupancy for a change in use, shall be accompanied by two sets of site plans drawn to scale and dimensioned, showing that the provisions, schedules and standards for designing parking areas set forth in this chapter will be fully complied with.

(Ord. 77-2016. Passed 8-23-16.)

1175.04 MEASUREMENT UNITS.

Definitions and standards are hereby established for determining required parking and loading facilities, as follows:

- (a) "Off-street parking space" means an open or enclosed area directly accessible from a public street, directly accessible from a drive or aisle, and not less than nine feet six inches wide by twenty feet long, exclusive of all drives, aisles, ramps and turning space.
- (b) "Gross floor area" for determining the parking requirements, means the sum of the horizontal floor areas of all floors of the building or structure and of all accessory buildings, except buildings or structures used for parking, measured from the exterior face of the exterior walls of each building and/or structure.
- (c) "Seats" for places of assembly, means the number of seating units indicated on approved plans or based on six square feet of floor area per seat, exclusive of all aisles.
- (d) "Off-street loading space" means an open or enclosed part of a building, directly accessible to a public street or service drive, used for the loading or unloading of goods and products accessory to the main use and having dimensions not less than ten feet wide by forty feet long exclusive of all drives, aisles, ramps and turning space.
- (e) "Floor area" for determining loading requirements, means the sum of the horizontal floor areas of all the floors of the main building or structure and of all accessory buildings measured from the exterior face of all enclosing walls.

(Ord. 19-97. Passed 3-25-97.)

1175.05 SCHEDULE OF PARKING REQUIREMENTS.

The minimum number of off-street spaces shall be determined in accordance with the following schedule:

	Number of Required	Per Each Unit of
<u>Use</u>	<u>Parking Spaces</u>	<u>Measure as Follows:</u>
(a) <u>Residential</u>		
Single-family, attached and detached	2 enclosed	Dwelling unit.
Multi-family and two-family	2 (1 enclosed)	Dwelling unit.
(b) <u>Public and Community Facilities</u>		
Places of Worship	1	Four seats or eight feet of pew in the main unit of worship.
Convents, homes for the aged, convalescent homes	1	Two beds.
Elementary schools, junior high schools or auditoriums	2	Classroom or one per four seats in auditoriums or assembly area, whichever is greater.
High schools	4	Classroom or one per four seats in auditorium or assembly area, whichever is greater.
Nursery schools, day nurseries, child care centers	1	350 square feet of gross floor area.
Hospitals	1	One bed.
Medical centers or clinics	1	150 square feet of gross floor area.
(Ord. 18-97. Passed 3-25-97.)		
(c) <u>Business Uses.</u>		
Banks, business offices or professional offices or lawyers, architects, engineers or similar or allied professions	1	200 square feet of gross floor area.

Beauty parlor, barber shops	1	200 square feet of gross floor area.
Bowling alleys	6	Per each alley.
Dance halls, exhibition halls and assembly halls without fixed seats	1	100 square feet of gross floor area.
Establishments for sale and consumption on the premises of beverages, food or refreshment	1	Fifty square feet of customer service area or for each two seats, whichever requires the greater number of spaces.
Gasoline service station	1	3,000 square feet of lot area.
Hotel or motel	1	Rental unit and resident unit.
Mortuary establishments	1	Thirty square feet of assembly room used for services, but not less than twenty spaces.
Private clubs, fraternities, dormitories	1	100 square feet of gross floor area.
Professional offices of doctors and dentists	1	200 square feet of gross floor area.
Retail store	1	200 square feet of gross floor area.
Shopping center exceeding 600,000 square feet of gross leasable area (GLA)		5.0spacesper1,000squarefeetf gross leasable area, providedthat: (1) theater use shall not exceed 10% of the total GLA; no additional parking shall be required for the first 750 theater seats; 3 parking spaces shall be provided for each additional 100 seats in excess of the first 750 seats; and (2) food service use shall not exceed 5% of the GLA without providing additional parking as approved by the Zoning Board of Appeals; and (3) office use shall not exceed 10% of the GLA without providing additional parking as approved by the Zoning Board of Appeals.
Theaters and auditoriums	1	Three seats.

(Ord. 68-98. Passed 9-8-98.)

(d) Industrial.

Industrial establishments including manufacturing, research and testing laboratories, creameries, bottling works, printing, plumbing or electrical workshops		600 square feet of gross floor area excluding office area which shall be one space per 200 square feet of gross floor area.
Storage and warehousing	1	1,500 square feet of gross floor area, excluding office area which shall be one space per 200 square feet of gross floor area.

(e) Nonscheduled Buildings or Uses. For buildings or uses not specifically scheduled, the requirements for off-street parking facilities shall be in accordance with a use which the Planning Commission considers as being most similar in nature.

(f) Single and Mixed Uses.

- (1) Two or more buildings or uses may collectively provide the required off- street parking in which case, the required number of parking spaces shall not be less than the sum of the requirements for each individual use, computed separately.
- (2) In cases of dual functioning of off-street parking where operating hours do not overlap, upon appeal, the Board of Appeals may recommend to Council a modification of the requirements.

(Ord. 18-97. Passed 3-25-97.)

1175.06 LOCATION OF PARKING FACILITIES

(a) Required off-street parking for other than residential use shall be either on the same lot or within 200 feet of the building or use it is intended to serve, measured without crossing a major thoroughfare, from the nearest point of the building or use to the nearest point of the required off-street parking facility. The principal use shall be permitted to continue only so long as the off-street requirements of this chapter are complied with, as set forth in Section 1175.05.

(b) Any area once designated as required off-street parking shall not be changed to any other use unless and until equal facilities are provided elsewhere.

(c) Wherever parking facilities are permitted on land other than the lot occupied by the building or use to which it is accessory, such facilities shall be in the same ownership as the zoning lot occupied by the building or use to which the parking facilities are accessory. Such ownership shall be by deed or a long-term lease agreement, and recorded, requiring each such owner to maintain the required number of parking facilities for the duration of the use served as a condition precedent to the continuation of such use.

(d) Accessory parking facilities for residential uses shall be located on the same lot as the dwelling served. Driveways shall not be used for permanent overnight parking within the required front yard.

(e) All required off-street parking for other than residential use shall be located within the same classification of the zoning district as the principal use to which the parking is accessory.

(Ord. 59-74. Passed 6-25-74.)

1175.07 DESIGN, CONSTRUCTION AND MAINTENANCE OF FACILITIES.

Whenever the off-street parking requirements in Section 1175.05 require an off-street parking facility, such off-street parking facility shall be designed, constructed and maintained in accordance with the following standards and regulations:

(a) Design Standards.

- (1) Parking facilities shall be designed and provided as illustrated in a document entitled "Standards for Designing Parking Areas", which is hereby made a part of this section by reference as if fully written out herein. Copies of this document are on file in the City Hall. (See Figure 1 below)
- (2) Parallel parking spaces shall be twenty feet in length with a six foot maneuvering space for each two parking spaces.
- (3) Where parking abuts a sidewalk or other pavement of seven foot minimum width, two feet may be credited toward the total required parking space length dimension (except for parallel parking); provided that no part of such two feet credit shall be part of any public right of way.

FIGURE 1

(b) **Construction Requirements.**

- (1) All parking and loading areas and drives shall be provided with an adequate base and a three-inch asphalt or adequate concrete pavement as specified by the City Engineer. All parking and loading areas and drives shall provide adequate drainage so that all water is drained within the lot on which the parking area or drive is located in such manner that water shall not drain off the parking facility pavement except through the proper sewers.
- (2) Bumper stops, curbing or wheel chocks shall be provided to prevent any vehicle from damaging or encroaching upon any required wall, fence or buffer strips or upon any building adjacent to the parking lot. Curbing shall be installed as specified by the City Engineer.
- (3) Sidewalks within the parking facility area of not less than five feet in width shall be constructed at such line and grade as determined by the City Engineer.
- (4) In order to insure pedestrian safety, sidewalks of not less than seven feet in width may be required by the Planning and Zoning Commission where any driveway or parking area abuts a building.

(c) **Maintenance Requirements.**

- (1) Except for parallel parking all parking spaces shall be clearly striped with double lines twenty-four inches apart to facilitate movement and to help maintain an orderly parking arrangement. Striping shall be maintained and shall be clearly definable at all times, except when weather conditions obscure the visibility of the pavement.
 - (2) Off-street parking areas in all multi-family and nonresidential zoning districts shall be maintained and kept in good repair so as not to be a hazard to the health and safety of occupants, employees or the general public.
- (d) **Maintenance of Exterior Drives, Parking and Auto Maneuvering Areas.** Upon inspection of off-street parking areas, multi-family apartments parking areas, nonresidential zoning district parking areas, driveways, parking and auto maneuvering areas or portions thereof within the City, if the following conditions exist, repair or replacement is required:
- (1) Height differential between portions of driveway pavement of three-quarters of one inch.
 - (2) Multiple cracks within a control joint segmented block of pavement creating three or more pieces and causing the pieces to exhibit a shifting surface.
 - (3) An abrupt dip or raised area having two inches or more deviation from a straight-line grade within a five-foot distance.
 - (4) Loose, cracked, chipped, sealed or deteriorated surface over fifty percent (50%) or more of a surface area.
 - (5) Gaps or missing areas exceeding a one and one-half inch in width.
 - (6) Loose, rocking or missing pavement areas.
 - (7) Pavement blocks having cross slopes reverse from the intended slope and causing ponding of mud or water.
 - (8) A surface that is smooth, or slippery when wet and/or dry, so as to cause a danger to vehicles or pedestrians, such as a smooth steel plate or smooth steel troweled concrete.
 - (9) Water, gas or other valve boxes and cleanouts, etc. that are not within three-quarters of one inch of grade.
 - (10) As applicable, entire pavement blocks replacement is required with no saw cuts smaller than five feet by five feet. All edges that are butted to new concrete shall be saw cut or hand trowel cut. Additionally, all concrete must be installed to industry standards in accordance with ACI 302.1R entitled Guide to Concrete Floor and Slab Construction, ACI 332R, entitled Guide to Residential Cast-in-Place Concrete Construction, and/or ACI 360R entitled Guide to Design of Slabs-on-Ground.

(Ord. 37-2021. Passed 5-11-21.)

1175.08 DRIVEWAYS AND ACCESS.

- (a) All parking facilities shall have access from a clearly limited and defined driveway to a public right of way and shall be planned to interfere as little as possible with the use of adjacent property and with pedestrian and vehicular traffic. Whenever possible, the center line of the access driveways on the frontage street shall be at least fifty feet from the right-of-way lines or extensions thereof, of intersecting streets; and two separate driveways, spaced at not less than 120 feet intervals, shall be provided of which one shall be limited to entrance and one limited to exit. Entrances and exits shall be limited to three lanes. The width of such entrances and exits, measured at the setback line, shall conform to the following schedule:

	Width (in feet)	
	Minimum	Maximum
One Lane	10	12
Two Lanes	18	24
Three Lanes	27	33

In all cases the radius of the edge of the apron shall be at least twelve feet so that a car entering from the curb lane shall be perpendicular to the setback line at the driveway without obstructing vehicles in other traffic lanes.

- (b) All parking spaces shall have access from an aisle on the site. Backing directly onto a street shall be prohibited.
 - (c) Vehicular access to a parking lot shall not be across any zoning district that would not permit the principal use or parking lot.
 - (d) All interior and abutting streets shall have rights of way of a sufficient width to accommodate the vehicular traffic generated by the uses permitted in the district, or adequate provision shall be made at the time of the approval of the traffic plan for such sufficient width of rights of way. The right of way provided to satisfy this condition shall conform with the right-of-way standards as provided in Chapter 1101.
 - (e) The Director of Public Safety may require the posting of such traffic control signs as he/she deems necessary to promote vehicular and pedestrian safety.
- (Ord. 72-72. Passed 8-31-72.)

1175.09 ILLUMINATION OF PARKING FACILITIES.

- (a) Parking areas shall be illuminated to protect the public safety; the lighting fixtures shall be designed and located so as not to reflect direct rays of light in adjoining residential districts and street; intensity shall not be of excessive brightness or cause a safety hazard to users of such parking spaces or occupants of adjoining premises. Expended or inoperative lighting bulbs or implements shall be replaced or repaired within ten days after proper notice has been given to the owner of the parking facility that such bulbs or implements have ceased to be operative.

- (b) Outdoor areas of vacant buildings or structures with the exception of vacant 1, 2 or 3-family dwellings must be illuminated, including parking areas, as required by this section, and all common drives, walkways and sidewalks that such building and structures have with adjacent buildings or structures must be illuminated. A lighting plan for the exterior of vacant buildings or structures and the common drives, walkways, and sidewalks that such buildings or structures have with adjacent buildings or structures must be submitted to the Building Commissioner for approval at least ten (10) days prior to the building become vacant. The interior of the ground floor of any vacant buildings or structures must maintain egress lighting as required by the Ohio Building Code as if the building or structure was occupied.

(Ord. 12-2017. Passed 2-28-17.)

1175.10 USE RESTRICTIONS.

- (a) The required off-street parking area shall be for occupants, employees, visitors and patrons and shall be limited in use to passenger vehicles not exceeding a net weight of three tons. The storage of merchandise, motor vehicles for sale or the repair of vehicles with or without the possibility of remuneration is prohibited in the area.

- (b) No vehicle shall be parked or stored on any property in any zone within the City of Richmond Heights for more than fourteen (14) days unless the vehicle is currently licensed, completely assembled and fully operational.

Historical, off-road or other vehicles not complying with the requirements herein because of the extent of their damage, deterioration, missing or deflated tires or other parts, or which are rusted through or partly through in an area which covers one hundred fifty (150) square inches or more, shall be stored completely within a closed building or shall be removed from the site. No repairs of any vehicle shall be made in the driveway of any residence unless the repairs are minor in nature and the vehicle is owned by the property owner.

- (c) No motor vehicle, camper, boat trailer or similar trailer or item shall be parked on any surface other than an approved, paved, parking surface when stored within any zone in the City of Richmond Heights. In residentially-zoned districts, boats, campers and other recreational vehicles shall be stored on the side or rear yard area behind the front corner of the dwelling unit. (Ord. 76-2016. Passed 10-11-16.)

1175.11 OFF-STREET LOADING AND UNLOADING FACILITIES.

On the same premises with every building, structure or part thereof, erected, altered and occupied for manufacturing, storage, warehouse goods, display, a department store, a wholesale store, a market, a hotel, a hospital, a mortuary, a laundry, a dry cleaning establishment, or other uses similarly involving the receipt or distribution of vehicles or materials or merchandise, there shall be provided prior to the issuance of a certificate of occupancy and maintained on the lot, adequate space for standing, loading and unloading services adjacent to the opening used for loading and unloading. The space shall be designed so that no part of a truck shall project into a public street or sidewalk during the loading and unloading process.

The minimum number of off-street loading and unloading spaces shall be determined in accordance with the following schedule:

Gross Floor Area in Square Feet	Loading and Unloading Spaces Required in Terms of Square Feet of Useable Floor Area
0 to 3,000	None
3,000 to 20,000	One space
20,000 to 100,000	One space plus one space for each 20,000 square feet of excess over 20,000 square feet
100,000 to 500,000	Five spaces plus one space for each 40,000 square feet of excess over 100,000 square feet
Over 500,000	Fifteen spaces plus one space for each 80,000 square feet of excess over 500,000 square feet

Space required and allocated for any off-street loading shall not be used to satisfy the space requirements for off-street parking. No loading space may be on any street frontage and provisions for handling all freight shall be on those sides of any building which do not face on any street or proposed street, except where such areas are obscured, from such street, with a solid masonry wall, not less than six feet in height. (Ord. 72-72. Passed 8-31-72.)

1175.12 IMPROVEMENTS TO LEGAL NONCONFORMING DRIVES AND PARKING AREAS.

(a) No improvements to a legal nonconforming stone or asphalt driveway, by the installation of a new asphalt or concrete surfacing material, shall be constructed without a proper building permit issued by the Division of Building, Zoning and Housing.

(b) The application for a building permit shall be accompanied by two sets of site plans, drawn to scale and dimensioned, showing that the provisions, schedules and standards for designing parking areas set forth in this chapter will be fully complied with. Sufficient topographical details shall be included on the site plans to indicate that the newly installed paved surfaces shall drain to a proper sewer, that storm water and melting ice will not be impounded on the surface, and that drainage shall not present a nuisance to adjacent properties.

(c) Construction details for asphalt or concrete surfacing materials, to be shown on the site plan, shall be as specified by the City Engineer. Copies of these specifications shall be made available by the Division of Building, Zoning and Housing.

(d) All pavement installed within the public right-of-way shall be concrete.

(e) The site plan shall be approved by the Commissioner of Building, Zoning and Housing, and if requested by the Commissioner, the plan shall also be approved by the City Engineer.

(Ord. 65-99. Passed 10-12-99.)

1175.13 RESIDENTIAL PARKING FACILITIES.

On a lot in the R-1, R-2, or R-3 District on which a one-family or two-family dwelling is the principal use, a driveway in the front yard and, on a corner lot, a driveway in the side yard abutting the right-of-way, shall only be permitted which complies with the following:

- (a) The driveway shall be designed and constructed to provide a direct vehicular access from the right-of-way to the door(s) of the private garage in the shortest possible route.
- (b) On an interior lot, the driveway shall only access the public right-of-way in one location on the front lot line. On a corner lot, the driveway may access the public right-of-way in one location on the front lot line and one location on the side street lot line. (Ord. 82-01. Passed 10-23-01.)
- (c) The width of the driveway shall meet the following regulations:
 - (1) The width of the driveway for a one- or two-vehicle residential garage shall not exceed eighteen (18) feet in width;
 - (2) The width of the driveway may be increased to twenty-seven (27) feet when the driveway is for a three-vehicle garage in which the vehicles are to be parked side by side and the maximum twenty-seven (27) feet width shall not begin at a point greater than thirty (30) feet in front of the garage; or
 - (3) The width of the driveway may be increased to a maximum width of 27-feet if all of the following conditions are met:
 - A. The width of the driveway may be increased beginning at the front wall of the garage and extending to a point not exceeding thirty (30) feet in front of the garage. The radius or transition to the existing driveway shall not be included in the permitted thirty (30) feet in front of the garage;
 - B. The additional width of the driveway must be added on the side of the existing driveway opposite the non-garage portion of the front of the dwelling;
 - C. The materials of the additional width of the driveway must match the materials of the existing driveway;
 - D. Drawings and/or sketches must be drawn to scale, submitted to the Division of Building, Housing and Zoning for review and approval, and must show the drainage, materials and layout of both the existing and proposed driveway; and
 - E. Any portion of the driveway shall be set back a minimum of two (2) feet from the adjacent property line.

(Ord. 54-2017. Passed 7-25-17.)

(d) The driveway, and any additional paved area permitted by this section, shall be constructed of concrete, or of similar hard surface material, as approved by the City Engineer.

(e) All pavement shall be graded to direct storm water into a storm water drainage system as approved by the City Engineer.

(f) No other paved area designed for or having the potential for vehicular use shall be permitted.

(g) A building permit may be issued for any residential driveway, or for any additional paved area permitted by this section, only after a detailed site plan, to scale, has been approved by the City Engineer. (Ord. 82-01. Passed 10-23-01.)

CHAPTER 1177

Walls, Landscaping and Ecological Preservation

1177.01 Intent.

1177.02 Establishment of regulations.

1177.03 Standards for walls.

1177.04 Landscape plan review.

1177.05 Standards; landscaping and buffer strips.

1177.06 Inspection by Landscape Architect.

1177.07 Environmental and ecological preservation.

1177.08 Fees.

CROSS REFERENCES

Buffer strip defined - see ZON. 1123.02(f)

Landscaping defined - see ZON. 1123.06(a)

1177.01 INTENT.

(a) The general provisions for walls and landscaping are designed and intended to maintain the character and value of single-family residential districts and to provide protection to these districts from any adverse effects resulting when adjacent property is designated and used for off-street parking in multiple-family or nonresidential use districts.

(b) In addition to the above-stated purpose of this chapter, the provisions of this chapter are designed to encourage and provide a transitional buffer between residential and nonresidential use districts.

(c) It is further the intent of this chapter to prevent undue erosion of the soil, pollution of the atmosphere and natural waterways, interference with drainage and the natural water supply, and an unreasonable loss of oxygen, by limiting the unnecessary removal of trees and vegetation prior to, and during, any construction work. (Ord. 158-89. Passed 3-13-90.)

1177.02 ESTABLISHMENT OF REGULATIONS.

Walls and/or landscaping shall be provided in conformance with the provisions of this chapter which apply to the district in which it is located.

- (a) Whenever open or unenclosed off-street parking or loading facilities in multiple- family or nonresidential districts are located in required rear and side yards which are adjacent to single-family residential districts, an unpierced solid masonry wall shall be required in such multiple-family or nonresidential districts; provided, however, that a buffer strip of not less than thirty feet in width may be permitted in lieu of such wall upon a finding by the Planning and Zoning Commission that the buffer strip would provide equal or greater protection to the single-family residential districts.
- (b) Whenever multiple-family or nonresidential districts abut or are adjacent to single-family residential districts, without being separated by a street, and where the multiple-family or nonresidential district does not have the above described relationship where open or unenclosed parking facilities are located in required yards, there shall provided in the multiple-family or nonresidential district, a buffer strip of not less than thirty feet in width.
- (c) Whenever in this Zoning Code, a solid, unpierced masonry wall or buffer strip is required and would thus be located within forty feet of a street intersection, the wall or buffer strip shall be angled or offset in such manner as to comply with the corner clearance provisions of Section 1173.02, and where the wall or buffer strip is required to be placed within forty feet of a street right of way, the Planning Commission or Council having site plan review may reduce the required height or waive the requirement upon a finding that the wall or buffer strip would constitute a traffic hazard.

(Ord. 72-72. Passed 8-31-72.)

(d) On every lot in the O-S Office-Service District and B-1 Local Business District, a landscaped yard shall be constructed and maintained abutting the public right-of-way, except where interrupted by approved points of vehicular access, and shall meet the following requirements:

- (1) The yard shall be at least twenty (20) feet deep, measured perpendicular to the right-of-way;
 - (2) Wherever parking is located in the yard abutting the public right-of-way, an earth mound, masonry wall, natural rocks, or a combination thereof shall be constructed to a height of at least three (3) feet above street grade with location and orientation which screens the view of parked vehicles.
 - (3) At least one (1) tree and three (3) shrubs shall be installed for each twenty (20) feet of frontage on the right-of-way; and
 - (4) The landscape plan shall be submitted to the Planning Commission for review and approval. The Commission may approve variations to the above requirements for purposes of safety or practicality.
- (e) The following standards shall apply in the B-1 District:
- (1) At least twenty-five percent (25%) of any required front yard shall be landscaped.
 - (2) This landscaping requirement is necessary to maintain the transitional character of the area that this District is intended to preserve.
- (f) The following standards shall apply in the B-2 District:
- (1) Not less than five percent (5%) of the site, exclusive of buildings, shall be landscaped.
 - (2) This requirement is necessary to provide for the safety and welfare of pedestrians in large parking areas and to provide for effective traffic control regulations.

(Ord. 5-2007. Passed 3-13-07.)

1177.03 STANDARDS FOR WALLS.

(a) Wherever in this Zoning Code a solid, unpierced masonry wall is required, the wall shall be erected parallel to and on, or approximately on, the common property line to a height of not less than four feet and not more than six feet measured from the average surface of the off-street parking facilities within the adjacent thirty feet of the multiple-family or nonresidential district.

(b) The wall shall be faced with brick on the side facing the single-family districts. The brick facing is necessary to reduce the possibility of any adverse effects upon the single- family districts that may be caused by the development of off-street parking facilities in the multiple-family or nonresidential districts.

(c) Whenever a solid, unpierced masonry wall is required to be constructed, such wall shall be constructed prior to the issuance of a certificate of occupancy for such multiple- family or nonresidential use.

(Ord. 72-72. Passed 8-31-72.)

1177.04 LANDSCAPE PLAN REVIEW.

- (a) All development plans and site plans for any multiple-family or nonresidential districts, and subdivision plans for any single-family residential districts, with the exception of individual residential lots intended for use for construction of one residential home (subject however to Section 1177.07), shall incorporate in such plans a separate plan showing landscaping which has been prepared by a registered landscape architect. The landscape plans must include size, type, caliper and number of all plantings. Landscape plans shall be reviewed and approved by the City Landscape Architect, the Planning Commission and Council prior to the issuance of any clearing, grading or building permit.
- (b) Each landscape plan shall include a tree plan depicting all trees over four inch caliper currently standing in areas to be disturbed for construction of the buildings, roads and parking areas indicating those proposed to be removed and those proposed to be retained. The plan shall detail what steps will be taken to replace those trees proposed to be removed for clearing and construction.
- (c) No person shall cut down any trees or remove any topsoil, excavate or grade any lot, parcel or piece of land for the purpose of preparing the same for construction of a building or structure until such time as the owner or agent of the property has been issued site plan approval as required by this section or pursuant to a subdivision plan duly approved in accordance with the procedures set forth in the Subdivision Regulations.
- (d) Any tree clearing, topsoil removal, excavation or grading commenced after the receipt of site plan approval or a duly authorized subdivision plan shall be completed within six months from the date of the issuance or approval unless an extension of time for the completion of such activity is granted by the Commission. Any tree clearing, soil removal, excavation or grading which is once commenced and is unable to be completed for reasons beyond the control of the property owner or their agent shall be seeded with grass or otherwise planted to prevent the erosion of soil.
- (e) Whoever violates any provision of this section shall be subject to the penalties set forth in Chapter 1187 of the Zoning Code. In addition thereto the Building Commissioner shall withhold any building permits or stop any work in progress until the violation is corrected by the replacement of like topsoil illegally removed or the replacement with like caliper trees or plantings that have been illegally cut or the property restored to proper grade.

(Ord. 158-89. Passed 3-13-90.)

1177.05 STANDARDS; LANDSCAPING AND BUFFER STRIPS.

Wherever in this Zoning Code landscaping is required, the area required to be landscaped shall be made fertile and planted prior to the date of issuance of a final certificate of occupancy, and thereafter reasonably maintained with permanent plantings and materials equal in characteristics to the suggested plant materials in subsections (c) and (d) below.

- (a) Lot Planting Requirements.
- (1) The unpaved or unimproved portions of all lots in all districts which are not in a natural wooded state or in which the natural state has been disturbed by grading or filling, including but not limited to common areas, easements, disturbed wetlands or riparian areas, required front yards, side yards, rear yards and other open spaces, shall be landscaped with sod, grass or other horticultural materials prior to the date of issuance of a certificate of occupancy. This provision shall not be construed to prohibit private gardening or farming operations.
- (2) There shall be not less than one tree or shrub for each 3,000 square feet of the total lot area exclusive of buffer strip planting requirements, in all zoning districts of the City.
- (b) Buffer Strip Planting Requirements.
- (1) Buffer strips shall be landscaped with sod, grass or other horticultural materials.
- (2) The minimum planting width shall be thirty feet along the common property line.
- (3) Tree and shrub materials shall not be placed closer than four feet from a fence or wall line.
- (4) An evergreen (see subsection (c) hereof) shall be planted at least every ten feet of the length of the buffer strip.
- (5) Three intermediate shrubs (see subsection (d) hereof) shall be planted for each evergreen required in paragraph (4) of subsection (b) hereof.

(Ord. 12-2015. Passed 3-10-15.)

(c)	<u>Suggested Evergreen Planting</u>	<u>Required Size of Planting Stock</u>
	Medium Evergreens	
	juniper	
	red cedar	All medium evergreen plantings shall be a minimum of three to four feet in height.
	American arborvitae	
	(white cedar)	
	Canadian hemlock	
	Narrow Pyramidal Evergreens	
	pyramidal arborvitae	All pyramidal evergreen plantings shall be a minimum of three to four feet in height.
	columnar juniper	
	Irish juniper	
	taxus hicksi	
(d)	<u>Suggested Shrub Plantings</u>	<u>Required Size of Planting Stock</u>
	Tree-like shrubs:	
	flowering crabs	
	Russian olive	
	smoker bush	
	clump birch	All tree-like shrub plantings shall be a minimum of three to four feet in height.
	mountain ash	
	dogwood	
	redbud	
	rose of Sharon	
	Large Deciduous Shrubs:	
	viburnum	
	mock orange	All deciduous shrub plantings shall be a minimum of two to three feet in height.
	lilacs	
	butterfly bush	
	ninebark	
(e)	<u>Trees that are not permitted in off-street parking areas:</u>	
	box elders	poplars and cottonwoods
	soft maples	ailanthus (Chinese tree of heaven)
	fruit trees	ribes (gooseberry)
	nut trees	All thorned trees and shrubs; honey locust, etc.
	willows	
	elms	

(Ord. 72-72. Passed 8-31-72.)

1177.06 INSPECTION BY LANDSCAPE ARCHITECT.

Upon completion of the landscape improvements, the City Landscape Architect shall inspect the work completed. All plant material that does not meet the approved plans and specifications or is not in a viable, growing condition as determined by the City Landscape Architect shall be replaced with plants of the same or equal characteristics and size as originally specified and approved. Such replacements shall be made within six months of the date of inspection by the City Landscape Architect. After one growing season the City Landscape Architect shall again inspect the work completed and determine whether the landscape improvements are in accordance with the approved plans and specifications and, if they are not in accordance, he shall require any replacements necessary to bring the improvements into conformity with the approved plans and specifications.

(Ord. 158-89. Passed 3-13-90.)

1177.07 ENVIRONMENTAL AND ECOLOGICAL PRESERVATION.

(a) No person, firm, association or corporation shall engage in mining, commercial logging, extracting or soil stripping within the City. This section shall not be construed to prohibit construction excavations for building foundations and pipe laying or general site grading and filling for paving and landscaping purposes.

(Ord. 109-91. Passed 8-6-91.)

(b) In order to prevent undue erosion of the soil, pollution of the atmosphere and natural waterways, interference with drainage and the natural supply of water and an unreasonable loss of oxygen, no person, firm, association or corporation shall, prior to the written approval of the Planning Commission, remove or destroy by cutting, burning, bulldozing or by any other means any number of viable trees having a diameter or four inches or more measured at a distance of fourteen inches above the ground level, on any parcel of record.

(1) In order to secure a permit to remove any number of trees, an application for such approval shall be filed with the City Landscape Architect and the Building Inspector. The application shall set forth the name and address of each owner, lessee and person in possession of the lot or parcel upon which the trees are situated, the name and address of each person who shall be engaged in the destruction or removal of such trees, a statement as to whether such work will be performed under a written or oral agreement, as well as the essential terms of the agreement; a statement of the kind, number and dimensions of the trees to be removed, and a legal description of each lot or parcel, or in lieu thereof, a description of sufficient detail so that such lot or parcel may be readily located on the plat map of the City.

- (2) The application shall be forwarded to the Planning Commission by the City Landscape Architect and the Building Inspector together with their report and recommendations thereon.
- (3) The Planning Commission shall review and act on the application at a regular monthly meeting within sixty days after receipt of the application. The Planning Commission shall not approve the granting of a permit if it finds that such removal or destruction of trees is not necessary to facilitate site development and is likely to cause soil erosion, result in pollution or an unreasonably large loss of oxygen, interference with drainage and the natural supply of water, or that it will result in an unsightly and blighted condition. In no event shall the permit allow the removal or destruction of trees, as described in subsection (b) hereof, prior to the time of approval of a preliminary plan of a new subdivision, or if no new subdivision is to be created, prior to the time of the approval of a site plan or the issuing of a building permit for construction on such lot or parcel.

(Ord. 158-89. Passed 3-13-89.)

1177.08 FEES.

Council may from time to time set certain fees for the following reasons:

- Landscape plan review.
- Inspection of landscape improvements.
- Application for a permit to remove trees in excess of that allowed by the provisions of this chapter.

(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1179

Signs

1179.01 Purpose.

1179.02 Definitions.

1179.03 Application of sign regulations.

1179.04 Computations and rules of measurement.

1179.05 Signs in nonresidential districts.

1179.06 Signs in residential districts.

1179.065 Electronic message display signs.

1179.07 Prohibited signs.

1179.08 Sign illumination, construction and maintenance standards.

1179.09 Regulations for nonconforming signs.

1179.10 Design standards.

1179.11 Administrative provisions.

CROSS REFERENCES

Sign defined - see ZON. 1123.07(n)

Special approval for temporary noncommercial signs - see ZON. 1185.05(c)

1179.01 PURPOSE.

The purpose of this Chapter is to promote the public health, safety and welfare through the provision of standards for existing and proposed signs of all types. More specifically, this Chapter is intended to:

- Enhance and protect the physical appearance of the community and to protect and enhance property values;
- Promote and maintain visually attractive, residential, retail, commercial and industrial districts and to protect and enhance property values;
- Ensure that signs are located and designed to reduce sign distraction and confusion that may be contributing factors in traffic congestion and accidents, and maintain a safe and orderly pedestrian and vehicular environment;
- Provide review procedures that enable the City to comprehensively evaluate the appropriateness of a sign to the site, building and surroundings; and
- Prohibit all signs not expressly permitted by this Chapter.

(Ord. 3-2006. Passed 2-28-06.)

1179.02 DEFINITIONS.

(a) Signs shall mean any visual communication display, object, device, graphic, structure or part, situated indoors or outdoors, or attached to, painted on or displayed from a building or structure, in order to direct or attract attention, or to announce or promote, an object, product, place, activity, person, institution, organization, or business or the like, by means of letters, words, model, banner, flag, pennant, insignia, logo, device designs, colors, symbols, fixtures, images, illuminations or representation used as, or which is in the nature of an announcement, direction, or advertisement. For the purpose of this Code, the word "sign" does not include flag, pennant, badge, or insignia of any government or governmental agency.

(b) Animated Sign shall mean any sign that uses flashing lights or movement of the sign or some element thereof, to depict action or create a special effect or scene.

(c) Awning or Canopy Sign shall mean any sign that is painted on, printed on or attached to an awning, canopy, or other fabric, plastic, or structural protective cover.

(d) Back Lighted Letter is an illuminated reverse channel letter with an open or translucent back so that light from the letter is directed against the surface behind the letter producing a halo lighting effect around the letter; also referred to as a silhouette or halo-lighted.

(e) Banner Sign shall mean a sign made of lightweight fabric or similar material with no enclosing framework that is secured to a building or other structure at one or more edges.

(f) Billboard Sign (synonymous with off-site advertising) shall mean a sign that directs attention to a business, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same lot.

(g) Building Sign shall mean any sign attached parallel to any part of a building and including wall signs, awning or canopy signs and window signs.

(h) Cabinet Sign is a sign structure consisting of the frame and face(s) not including the internal components, embellishments, or support structure.

(i) Changeable Copy Sign shall mean a portion of a sign with letters, characters, or graphics that are not permanently affixed to the structure, framing, or background allowing the letters, characters or graphics to be modified manually from time to time as situations change, such as a bulletin board or announcement board.

(j) Channel letter is a fabricated or formed three-dimensional letter that may accommodate light source. (Ord. 3-2006. Passed 2-28-06.)

(k) Electronic Message Display Sign is a variable message sign that utilizes computer generated messages or some other electronic means of changing copy.

(Ord. 23-2014. Passed 5-13-14.)

(l) Entrance or Exit Sign shall mean a sign located at the driveway entrance or exit and intended to provide for safe ingress and egress.

(m) Exterior Illuminated Sign is a sign that is illuminated by a light source that is directed towards and shines on the face of a sign; also called direct illumination.

(n) Flag Sign shall mean a piece of flexible material having a distinctive size, color, and design, used as a symbol, standard, signal, or emblem.

(o) Ground or Monument Sign shall mean a sign supported from the ground and not attached to any building, and shall include a "Post and Panel Sign."

(p) Halo lighted See definition (d) Backlighted letter.

(q) Ideological Sign shall mean any temporary sign announcing an idea, opinion or position on a social or political issue and containing no commercial message.

(r) Illuminated Sign shall mean a sign with an artificial light source incorporated internally or externally for the purpose of illuminating the sign.

(s) Instructional Sign shall mean a sign that has a purpose secondary to the use on the lot and that is intended to instruct employees, customers, or users as to matters of public safety or necessity such as specific parking requirements, the location or regulations pertaining to specific activities on the site or in the building, and including a sign erected by a public authority, utility, public service organization, or private industry that is intended to control traffic; direct, identify or inform the public; or provide needed public service as determined by the rules and regulations of governmental agencies or through public policy.

(t) Internally Illuminated Sign is sign illuminated internally through its sign face by a light source contained inside the sign.

(u) Marquee Sign shall mean a sign attached to a structure, other than an awning or canopy sign, projecting from a wall of a building above an entrance and extending over a street, sidewalk, or part thereof.

(v) Mobile Sign shall mean a sign that is on wheels, runners, casters, or has a frame to which wheels, runners, or casters may be affixed, parked trailers, parked vehicles, or other mobile devices, including tethered and/or anchored balloons.

(w) Pan Channel Letter is a dimensional letter that is constructed with sidewalls, a back, and a face making the letter a solid integral unity with the sidewalls and back having a pan-shaped cross section.

(x) Permanent Sign shall mean a sign that is not temporary.

(y) Post and Panel Sign shall mean a Sign Face supported between two posts on each end of the Sign Face. (See example of post and panel sign below.)

(z) Projecting Sign shall mean a sign that is attached to a building wall and extending twelve (12) inches or more perpendicular to the face of the wall.

(aa) Reverse Channel Letter is a fabricated dimensional letter with opaque face and sidewalls. (See definition (d) Backlighted letter.)

(bb) Roof Sign shall mean a sign erected, constructed or maintained wholly upon or over the roof or parapet wall of any building with the principal support on the roof structure.

(cc) Sign Face shall mean the area or display surface used for the message.

(dd) Sign Plate shall mean a wall sign not exceeding two (2) square foot in area.

(ee) Temporary Sign shall mean a sign that is designed to be used only temporarily and is not intended to be permanently attached to a building, a structure or permanently installed in the ground.

(ff) Wall Sign shall mean a sign painted on, attached to, or erected against the wall of a building or structure with the exposed face of the sign in a plane parallel to the plane of the wall and not extending more than twelve (12) inches therefrom and which does not project above the roofline or beyond the corner of the building.

(gg) Window Sign shall mean a sign that is applied or attached to a window or door, or a sign located near a window within a building for the purpose of being visible to and read from the outside of the building except for signs that are not legible from a distance of more than three (3) feet beyond the building in which such sign is located.

(Ord. 3-2006. Passed 2-28-06.)

1179.03 APPLICATION OF SIGN REGULATIONS.

(a) The regulations contained in this Chapter shall apply to signs outside of the public right-of-way, except when specifically stated otherwise.

(b) A sign may only be erected, established, painted, created or maintained in the City in conformance with the standards, procedures, exemptions and other requirements of this Chapter.

(c) All permanent signs shall comply with the sign design guidelines set forth in Section 1179.10, Design Standards.

(d) Architectural Features. Architectural features that are either part of the building or part of a freestanding structure are not considered signs and are thus exempt from these regulations. Architectural features include:

- Any construction attending to, but not an integral part of the sign, and which may consist of landscape or building or structural forms that enhance the site in general.
- Graphic stripes and other architectural painting techniques applied to a structure that serves a functional purpose or to a building when the stripes or other painting technique do not include lettering, logos or pictures.

(Ord. 3-2006. Passed 2-28-06.)

1179.04 COMPUTATIONS AND RULES OF MEASUREMENT.

The following regulations shall control the computation and measurement of sign area, sign height, window area and building frontage:

(a) Determining Sign Area or Dimension.

- Sign area shall include the face of all the display area of the sign. Sign area shall not include the frame and structural support unless such structural support is determined to constitute an integral part of the sign

design.

- (2) For a sign that is framed, outlined, painted or otherwise prepared and intended to provide a background for a sign display, the area of the sign shall be the area of one (1) rectangular shape that encompasses the entire background or frame.
- (3) For a sign comprised of individual letters, figures or elements on a wall or similar surface of a building or structure, or an irregular shaped ground sign, the area of the sign shall be the area of one (1) rectangular shape that encompasses the perimeter of all the elements in the display.
 - A. When separate elements are organized to form a single sign, but the elements are separated by open space, the area shall be the area of one (1) rectangular shape that comprises all the display areas, including the space between the elements.
 - B. One minor protrusion may be permitted to extend above or below the sign area when the area of the protrusion is less than 25% of the open space included in the sign area. For the purposes of this section, only the open space within the sign area that is located above and below the majority of the letters shall be included in the calculation. See Figure 1.

- (4) For ground signs and projecting signs:
 - A. The sign area shall be computed by the measurement of one (1) of the faces when two (2) identical display faces are joined, are parallel or within 30 degrees of being parallel to each other and are at no point separated by a distance that exceeds two feet apart.
 - B. No more than two display faces shall be permitted.
 - C. The portion of a solid sign base that is mostly screened by landscaping, up to a maximum height of two (2) feet, shall not be calculated as sign area.
- (5) Air under a ground sign between supporting posts, air between a projecting sign and the wall to which it is attached, and lighting fixtures and associated brackets shall not be included in the calculation of sign area. See Figure 2.

- (b) **Determining Sign Height.** The height of a sign shall be measured from the average natural grade at the base of the sign or support structure to the tallest element of the calculated sign area. A ground sign on a man-made base, including a graded earth mound, shall be measured from the average site grade prior to the addition of the sign.
- (c) **Determining Building Frontage and Building Unit.** For the purposes of these sign regulations, the length of the building wall that faces a public street or that contains a public entrance to the uses therein shall be considered the building frontage.
 - (1) The building frontage shall be measured along such building wall between the exterior faces of the exterior side walls.
 - (2) In the case of an irregular wall surface, a single straight line extended along such wall surface shall be used to measure the length.
 - (3) A building shall have only one building frontage except as otherwise set forth below.
 - (4) A building shall have two frontages whenever the lot fronts on two or more streets, or the building has a public entrance on a wall other than the wall that faces the street. The property owner shall determine which wall shall be the primary building frontage and which wall shall be the secondary building frontage. Only one outside wall of any business shall be considered its primary frontage and only one additional wall considered its secondary frontage.
 - (5) For multi-occupant buildings, the portion of a building that is owned or leased by a single occupant shall be considered a building unit. The building frontage for a building unit shall be measured from the centerline of the party walls defining the building unit.
- (d) **Determining Window Area.** The window area of a building shall be the total glass area of windows on the building frontage. For the purposes of determining window area for ground floor occupants, the ground floor shall be considered to be no more than fifteen (15) feet in height above grade. (Ord. 3-2006. Passed 2-28-06.)

1179.05 SIGNS IN NONRESIDENTIAL DISTRICTS.

Signs in nonresidential districts shall conform to the standards set forth in this Section, except for residential uses which shall comply with the standards set forth in Section 1179.06.

- (a) **Maximum Number and Area of Permanent Signs Attached to Buildings.** Permanent signs attached to buildings shall conform to the maximum number and area limitations set forth in Table 1179.05 (a). In addition to the sign area permitted in Table 1179.05 (a), each building shall be permitted to display numerals indicating the building's street address, provided the numerals and letters do not exceed eight (8) inches in height.

Table 1179.05(a) Permanent Signs Attached to Buildings		
Type	Maximum Number Permitted	Maximum Area
(A) Signplate	2/address and 1/entry	2 sq ft
(B) Building Sign	1/ground floor occupant frontage	1.5 square ft per linear ft of building frontage, not to exceed 100 sq ft (a)
(C) Projecting Sign	1/ground floor occupant frontage (b)	6 sq ft
(D) Instructional Sign	Shall be exempt from regulations when in compliance with Section 1179.05(e)	
(a) See Section 1179.05(b)		
(b) See Section 1179.05(c)		

- (b) **Building Signs.** The building sign permitted in Table 1179.05 (a) shall be either a wall sign, awning sign or window sign erected in compliance with the following additional regulations.

- (1) **Window Sign.**
 - A. **Ground Floor Occupants.** Notwithstanding the permitted area set forth in Table 1179.05 (a), a window sign shall not exceed 40 percent of the total glass area of the ground floor windows and shall comply with the sign design guidelines set forth in Section 1179.10 Design Standards.
 - B. **Upper Story Occupants.** For a multi-story building, each occupant above the ground floor shall be permitted one permanent sign to be placed in a window of the occupant space, not to exceed six (6) square feet or 25 percent of the area of the window in which the sign is placed, whichever is smaller. These signs shall be in addition to the maximum allowable area for building signs pursuant to Table 1179.05 (a).
- (2) **Awning Signs.** Awning signs may be permitted to extend over a public right-of-way provided such awning signs comply with the regulations of this Chapter.
- (3) **Corner Lots and Public Entrances Not Fronting a Street.** The maximum allowable area for building signs set forth in Table 1179.05 (a) shall be the area allowed for the occupant's primary frontage. In the event an occupant has a secondary frontage as defined in Section 1179.04 (c) additional sign area shall be permitted in compliance with the following:
 - A. The sign area for the secondary building frontage shall be 60 percent of the sign area permitted for the primary frontage.
 - B. The property owner may choose to locate the permitted building sign area on any exterior building wall provided the sign area on any one wall does not exceed the formula set forth in Table 1179.05 (a) and signs are attached to no more than two (2) exterior walls.
- (4) **Large Building Setbacks.** The maximum allowable area for a building sign may be increased by 25% for each additional 100 feet of building setback when the principal building is located more than 100 feet from the principal street on which the building is located and the building is visible from the street. The additional 25% in area for each additional 100 feet of setback can be used on a graduated scale basis for each additional 100 feet of setback. For example, a principal building with a setback of 150 feet from the principal street may have a building sign not to exceed 112.5% of the maximum allowable area. Notwithstanding the foregoing, no sign shall exceed 200% of the maximum allowable area.
- (5) **Illumination.** Building signs shall be illuminated only in compliance with Section 1179.08 .
- (c) **Projecting Signs.**
 - (1) Projecting signs shall be limited to occupants that have a minimum of 12 feet of occupant frontage.
 - (2) All projecting signs shall not extend above the roof line or exceed a height of 14 feet, whichever is less, and shall have a minimum clearance of seven (7) feet from the ground to the bottom of the sign, except when the projecting sign is located above a landscaped area or other area that does not permit pedestrian traffic beneath the sign.
 - (3) **Illumination.** Projecting signs shall be illuminated only in compliance with Section 1179.08 .
- (d) **Permanent Ground Signs.** Permanent ground signs permitted in nonresidential districts shall comply with the following regulations:
 - (1) **Maximum Number, Area and Height, Minimum Setback of Permanent Ground Signs.** Permanent ground signs shall comply with the maximum number, area and height limitations and minimum setback from the street right-of-way set forth in Table 1179.05 (d). (Ord. 3-2006. Passed 2-28-06.)

Table 1179.05(d) Permanent Ground Signs

	Maximum Number	Maximum Area	Maximum Height	Minimum Setback ^(b)
1. Primary Sign ^(a)				
a. Building Setback ≥ 30 feet ^(b)	1 per lot ^(c)	40 sq ft	9 ft	15 ft
b. Building Setback ≥ 12 but < 30 feet ^(b)	1 per lot ^(c)	32 sq ft	9 ft	Equal to height of sign
2. Entrance/Exit Signs	2 per driveway (1 in, 1 out)	2 sq ft	3 ft	0
3. Instructional Signs	Shall be exempt from regulations when in compliance with Section 1179.05(c)			
(a) Not permitted on the site when the building is setback less than 12 feet from the street right-of-way.				
(b) From the street right-of-way.				
(c) Except as otherwise permitted in Section 1179.05(d)(2) for lots that exceed 500 feet in street frontage.				

(Ord. 3-2006. Passed 2-28-06; Ord. 23-2014. Passed 5-3-14.)

- (2) **Additional Ground Signs.** One additional primary ground sign shall be permitted for every additional five hundred (500) feet of street frontage or fraction thereof per lot greater than five hundred (500) feet. For example, if the street frontage of the lot is 501 feet, up to two primary ground signs are permitted and three primary ground signs are not permitted unless the street frontage of the lot is at least 1,000 feet. For corner lots, each street frontage shall be calculated separately. Ground signs on the same lot shall be separated by a minimum of two hundred (200) feet, as measured along the street right-of-way line. For corner lots, both sides of the intersection shall be used in measuring spacing.
- (3) **Minimum Sign Setback from Intersection.** On corner lots, ground signs shall comply with the minimum sign setback from both streets right-of-way, as set forth in Table 1179.05 (d).
- (4) **Minimum Sign Setback from Side Lot Lines.** Ground signs shall be located a minimum of fifteen (15) feet from any side lot line, except that when a side lot line coincides with a residential district boundary line or a lot used for residential purposes, the minimum setback shall be thirty (30) feet.
- (5) **Base and Skirting.** Ground signs, other than temporary signs and post and panel signs, shall have a solid base or solid skirting around the bottom of the sign extending from the bottom of the sign panel down to the ground.
- (6) **Landscaping.** Ground signs shall be erected in a landscaped setting and not on sidewalks, drives or in parking lots. Neither the landscaping nor the ground sign shall obstruct the view of vehicles entering or exiting the property. There shall be landscaping around the base of the ground sign pursuant to a plan approved by the City's Landscape Architect and the landscaping shall be continuously maintained according to the plan during the existence of the sign. Any changes to the approved plan must be approved by the City's Landscape Architect.
- (7) **Changeable Copy.** Ground signs may have up to 30% of the sign area set forth in Table 1179.05 (d) devoted to changeable copy.
- A. The changeable copy shall not be changed more than eight (8) times per day, and no more than one (1) time per hour.
- B. Changeable copy may only be manually changed.
- C. All changeable copy shall comply with the lettering style, lettering color, background color and all other elements approved by the Architectural Board of Review. No alphabetic letter or number shall be used as a substitute for a different alphabetic letter or number or a different color of letter.
- (8) **Multi-Occupant Facilities.** When a ground sign is permitted on a site that has more than one occupant, it is the property owner's responsibility to determine if the sign area shall be devoted to identification of the building(s), the anchor occupant, all occupants, or some combination thereof.
- (9) **Illumination.** Ground signs shall be illuminated only in compliance with Section 1179.08 .
- (e) **Instructional Signs.** Instructional signs that are clearly intended for instructional purposes shall be permitted as needed provided such signs comply with the following:
- (1) The signs are not larger than necessary to serve the intended instructional purpose;
- (2) The number of instructional signs located on the site are the minimum needed to serve the intended instructional purpose;
- (3) Lettering on the sign does not exceed two (2) inches in height; and
- (4) The signs are not in a location and do not possess design characteristics that constitute or serve to attract attention beyond the perimeter of the site.
- (f) **Temporary Signs In Nonresidential Districts.** The following regulations for temporary signs in nonresidential districts are in addition to the maximum sign area set forth in Tables 1179.05 (a) and 1179.05 (d).
- (1) Temporary signs may be ground signs, window signs or banner signs.
- (2) The total area of temporary window signs shall not exceed 25% of the total transparent glass area of the window in which the sign is placed.
- (3) The total maximum number and area permitted for temporary ground signs and temporary banner signs shall be regulated based on the district in which the lot is located.
- A. In Districts B-1 and B-3, a maximum of two (2) signs per parcel shall be permitted provided the total area of all temporary ground signs and temporary banner signs shall not exceed twelve (12) square feet per parcel.
- B. In Districts, B-2, O-S, I-1 and I-2, a maximum of four (4) signs per parcel shall be permitted provided the total area of all temporary ground signs and temporary banner signs shall not exceed thirty-two (32) square feet per parcel.
- (4) Temporary ground signs shall have a maximum height of six (6) feet and shall be located a minimum distance from the public right-of-way that is equal to the height of the sign.
- (5) One temporary ideological ground sign permitted in Subsection 1179.05 (f)(3) may be erected for an unspecified time. All other temporary ground signs and temporary banner signs shall be permitted for a maximum of fifteen (15) consecutive days, and not more than a total of seventy-five (75) days per calendar year.
- (6) Temporary signs that are erected in order to announce or advertise a specific event shall be removed within three (3) days after the close of such event.
- (Ord. 3-2006. Passed 2-28-06.)

1179.06 SIGNS IN RESIDENTIAL DISTRICTS.

Signs in residential districts shall comply with the regulations set forth in this section.

- (a) **Sign Standards.** Signs in residential districts shall be limited in number, area, height and setback based on the type of use, as set forth in Table 1179.06 (a).

Table 1179.06(a) Signs in Residential Districts					
				Regulations for Ground Signs	
Type	Maximum Number Permitted	Maximum Total Sign Area per Type	Maximum Area Per Sign	Maximum Heights	Min. Setback from ROW
(A) Signs for Single-Family Dwellings, Duplexes and Townhouses:					
1. Permanent Signs					
a. Signplate or window sign	per DU(a)	2 sq ft	2 sq ft	--	--
b. Ground Sign	1/building	2 sq ft	2 sq ft	5 ft	0(b)
2. Ground Sign for Residential Subdivision	2/subdivision entrance	(c)	15 sq ft	8 ft	--
3. Temporary window or ground sign(d)	per building (a)	12 sq ft	6 sq ft	5 ft	0(b)
(B) Multi-Family Buildings:					
1. Permanent Signs					
a. Signplate or window sign	per DU(a)	2 sq ft	2 sq ft	--	--
	1/public entrance to building	2 sq ft	2 sq ft	--	--
b. Ground Sign	1/development entrance	15 sq ft	15 sq ft	8 ft	equal to height of sign
2. Temporary sign (b)					
a. Window Sign	per DU(a)	2 sq ft	2 sq ft	--	--
b. Ground sign	per building (a)	16 sq ft	6 sq ft	5 ft	0 (b)
(C) Parcels Used for Nonresidential Purposes:					
1. Permanent Signs					
a. Signplate	1/address	2 sq ft	2 sq ft	--	--
b. Primary Wall Sign	1/building	40 sq ft	40 sq ft	--	--
c. Primary Ground Sign	1/500 feet or less of parcel frontage(e)	25 sq ft plus 5 sq ft for every 50 ft of frontage >100 ft	40 sq ft	9 ft	15 ft
2. Temporary ground sign or banner sign (d)	per parcel (a)	16 sq ft/200 feet of parcel frontage (e)	16 sq ft	8 ft	equal to height of sign
(D) Instructional Sign:	Shall be exempt from regulations when in compliance with Section 1179.06(e)				

- (a) No limit on the number provided the total area of this type of sign does not exceed the maximum area permitted.
- (b) But no closer than 10 feet from the pavement of the travel lane of the public or private street.
- (c) See also subsection 1179.06(b)(4).
- (d) See also subsection 1179.06(c).
- (e) Or fraction thereof, except as otherwise permitted in Section 1179.06(b)(5) for lots that exceed 500 feet in street frontage.

DU = Dwelling Unit

(Ord. 3-2006. Passed 2-28-06; Ord. 23-2014. Passed 5-13-14.)

(b) Supplemental Regulations for All Ground Signs.

- (1) Ground signs shall be erected in a landscaped setting and not on sidewalks, drives or in the paved areas of parking lots. Ground signs may be placed in parking lots when placed on islands and landscaped as required by other provisions of this Code. (Ord. 23-2014. Passed 5-13-14.)
- (2) No part of a ground sign, the wall or entry feature on which a sign is mounted, or the landscaping shall obstruct the view of vehicles entering or exiting the property.
- (3) For residential subdivisions, the ground sign shall have a maximum of two (2) sign faces per entrance and be either a double-faced ground sign or two (2) single-sided sign faces attached to walls or entry features located one on each side of the street entrance.
- (4) For all parcels used for nonresidential purposes in residential districts, one (1) additional primary ground sign shall be permitted for every five hundred (500) feet of street frontage or fraction thereof per lot greater than five hundred (500) feet. For corner lots, each street frontage shall be calculated separately. Ground signs on the same lot shall be separated by a minimum of two hundred (200) feet, as measured along the street right-of-way line. For corner lots, both sides of the intersection shall be used in measuring spacing.
- (5) For all parcels used for nonresidential purposes, a maximum of 30% of the permitted ground sign area may be devoted to changeable copy.
 - A. The changeable copy shall not be changed more than once per day.
 - B. Changeable copy shall only be manually changed.
 - C. All changeable copy shall comply with the lettering style, lettering color, background color and all other elements approved by the Architectural Board of Review. No alphabetic letter or number shall be used as a substitute for a different alphabetic letter or number.

(c) Supplemental Regulations for Temporary Signs.

- (1) Temporary signs for residential uses and temporary window signs for parcels used for nonresidential purposes permitted in Table 1179.06(a) may be erected for an unspecified time.
- (2) On parcels used for nonresidential purposes, one temporary ground sign that does not exceed six (6) square feet may be erected for an unspecified time. All other temporary ground signs and temporary banner signs shall be permitted for a maximum of fifteen (15) consecutive days, not more than seventy-five (75) days per calendar year.
- (3) Notwithstanding subsections (1) and (2) above, vacant parcels in residential districts shall be permitted one temporary sign that may be erected for an unspecified time. The permitted sign area shall be eight (8) square feet for every two hundred (200) feet of lot frontage or fraction thereof, provided the sign shall not exceed thirty-two (32) square feet.
- (4) Temporary signs that are erected in order to announce or advertise a specific event shall be removed within three (3) days after the close of such event.
- (d) **Illuminated Signs in Residential Districts.** Permanent signs shall be permitted to be illuminated, provided such illumination complies with Section 1179.08.
- (e) **Instructional Signs.** Instructional signs that are clearly intended for instructional purposes shall be permitted as needed on a lot in a residential district when the lot is devoted to a multi-family or nonresidential use provided such signs comply with the following:
 - (1) The signs are not larger than necessary to serve the intended instructional purpose;
 - (2) The number of instructional signs located on the site are the minimum needed to serve the intended instructional purpose;
 - (3) Lettering on the sign does not exceed two (2) inches in height; and
 - (4) The signs are not in a location and do not possess design characteristics that constitute or serve to attract attention beyond the perimeter of the site.

(Ord. 3-2006. Passed 2-28-06.)

1179.065 ELECTRONIC MESSAGE DISPLAY SIGNS.

- (a) Electronic message display signs shall be limited to ground signs only and shall be permitted subject to the Administrative Provisions of Section 1179.11 and the provisions of this section:
 - (1) Electronic message display signs shall be permitted in all nonresidential districts and in residential districts on parcels which are used for institutional or other nonresidential uses.
 - (2) Only one electronic message display sign shall be permitted on each parcel and shall be considered as the primary ground sign for that parcel. Additional non-electronic ground signs may be added if permitted by this chapter.
 - (3) The electronic message display area of each sign shall be fully framed and shall be subject to the size limitations of Table 1179.05(d). The sign base shall not be included in the maximum permitted sign area, nor shall a non-electronic header over the top of the electronic reader board that is used to identify the owner or the address of the parcel. However, the entire sign assembly, including the base, electronic message board and header, are subject in total to the maximum height in Table 1179.05(d).
 - (4) Electronic message display signs shall be located a minimum of 200 feet from any residentially-zoned district or 200 feet from any lot line separating a residentially and nonresidentially used parcel in a residentially-zoned district. Notwithstanding the foregoing setback requirement, electronic message display signs may be located from 100 feet to 200 feet from a residential district or a residentially-used parcel provided that the sign is illuminated no longer than 6:00 a.m. to 10:00 p.m. any day of the week.
 - (5) Electronic message display signs shall not advertise establishments, products, services or events not actually located on or associated with the specific property upon which the sign is located or its occupant.
 - (6) Each message shall remain fixed for a minimum of ten (10) seconds, and individual messages shall be separated by a three (3) second pause, during which pause a still image or blank screen shall be shown. The entire message shall change at once. Messages shall not flash, blink, scroll, rotate or include movable or animated text or images.
 - (7) The electronic message display sign may be capable of producing a full color spectrum for pedestrian and traffic viewing; However, no sign shall emulate a traffic control device, nor shall displays use the colors of green, yellow or red in such a way, in the discretion of the Building Commissioner, as to confuse passing motorists.
 - (8) The changeable copy portion of the sign shall not exceed the sizes found in Table 1179(a) for the permitted area of ground signs. Sign bases and headings shall not be included in the maximum allowable area of the sign.
- (b) **Illumination and luminance.**
 - (1) Each owner must be capable of dimming, both manually and by photo cell or other automatic means, the digital display intensity of the sign.
 - The light intensity level of the display must automatically adjust to natural ambient light conditions.
 - (2) No electronic message display sign may be illuminated to a degree of brightness that is greater, in the opinion of the Building Commissioner, than necessary for adequate visibility, nor shall the sign exceed the maximum luminance level of 0.3 foot candles above ambient light levels for the location and time of day when measured at the distances recommended by the International Sign Association (ISA) and based on the digital display size.
 - (3) The owner shall provide from the manufacturer of each electronic message display sign, prior to the issuance of a permit, a certification that the values permitted herein will not be exceeded.
 - (4) Electronic message display signs shall comply with the provisions of Section 1179.08(a)(5). (Ord. 23-2014. Passed 5-13-14.)

1179.07 PROHIBITED SIGNS.

All signs not expressly permitted in this Chapter shall be prohibited in the City. Such signs include but are not limited to the following:

- (a) Roof Signs;
- (b) Billboards;
- (c) Flags intended for advertising or commercial purposes;
- (d) Marquee signs;
- (e) Kiosk signs;
- (f) No mobile signs shall be erected, constructed, displayed or maintained except those on licensed commercial delivery and service vehicles. Such vehicles shall not be parked in any district closer to the street than the front line of the principal building, unless the principal building has a rear parking area; in which case, all such vehicles shall not be parked closer to the street than the rear line of said building.
- (g) Temporary directional signs, other than Municipal or emergency signs or those temporary signs as may be approved by City Council.
- (h) Flashing, moving, inflatable, blinker, racer type, intermittent, rotating, moving or revolving signs, whirlygig devices, tethered inflatable signs, pennants, ribbons, streamers, spinners, exposed light bulbs, and strings of lights not permanently mounted to a rigid background, and other similar types of attention-getting devices.
- (i) The interior illumination of signs, except as expressly permitted in Section 1179.08(a)(2) and signs with characters, letters, figures, designs or outlines by electric lights or luminous tubes as part of the sign.
- (j) Merchandise, equipment, products, vehicles or other items not themselves for sale and placed for attention getting, identification or advertising purposes.
- (k) Permanent signs erected or attached to accessory structures.

(Ord. 23-2013. Passed 5-13-14.)

1179.08 SIGN ILLUMINATION, CONSTRUCTION AND MAINTENANCE STANDARDS.

In addition to ensuring compliance with the numerical standards of these regulations, the Architectural Board of Review shall consider the proposed sign according to the following standards:

- (a) **Illumination.** Signs shall be permitted to be illuminated in compliance with the following:
 - (1) **External Illumination:** All signs that are permitted to be illuminated as enumerated in Sections 1179.05 and 1179.06 above shall be externally illuminated, except as otherwise permitted in subsection (2) below and the external illumination shall comply with the following:
 - A. Only direct lighting from an external source shall be used to illuminate the sign.
 - B. The source of light shall not be visible from the street or adjacent property.
 - C. No variances to this Section 1179.08(a)(1) shall be sought or granted. (Ord. 3-2006. Passed 2-28-06.)
 - (2) **Internal Illumination:**
 - A. Internal illumination of signs is permitted for parcels in all nonresidential districts and certain parcels in residential districts provided that only reverse pan channel, or halo-lighted letters, characters or graphics are utilized or as provided for in Section 1179.065(b) for electronic messaging display signs.
 - B. Internally illuminated cabinets are permitted provided such cabinets shall consist of a solid opaque background with "knock-out" areas for copy, graphics and embellishments.
 - (3) Signs shall not include animated, flashing, or moving text or imaging. Messages may be intermittent only as provided for in Section 1179.065.
 - (4) Light shall not be from a colored light source.
 - (5) All illumination shall be extinguished between the hours of 10 p.m. or at close of business, whichever is later, and 6:00 a.m. Notwithstanding the hours set forth herein, signs in nonresidential districts shall be permitted to be illuminated during the hours of 10 p.m. to 6 a.m., provided that the message is static during those hours.
 - (6) No temporary sign shall be illuminated or have the potential to be illuminated.
 - (7) Electronic message display signs shall be permitted to be illuminated as set forth in Section 1179.065(b). (Ord. 23-2014. Passed 5-13-14.)
- (b) **Construction Standards.**
 - (1) The construction, erection, safety and maintenance of signs shall comply with Part Thirteen - the Building Code.
 - (2) Signs shall be structurally sound and located so as to pose no threat to pedestrian or vehicular traffic.
 - (3) Permanent signs shall be constructed and erected to withstand wind pressures of at least thirty (30) pounds per square foot of surface, and shall be fastened, suspended or supported so that they will not be a menace to persons or property.
 - (4) Permanent signs shall be fabricated on and of materials that are of good quality and good durability.
 - (5) No sign shall be erected so as to project over and obstruct any window, door, fire escape, balcony, platform, stairway, ladder, vent or other means of ingress of any building.
 - (6) No sign shall be attached to a utility pole, tree, trash receptacle, bench or other structure not intended or approved as a sign support.
 - (7) Temporary signs shall be durable and weather-resistant and fastened or anchored sufficiently, whether attached to the building or positioned in the ground.

- (8) No sign regulated by any of the provisions of this Chapter shall be erected in the right-of-way, in proximity to railroad crossings, or at the intersection of any streets in such a manner as to obstruct free and clear vision; or at any location where, by reason of the position, shape, or color, it may interfere with, obstruct the view of, or be confused with, any authorized traffic sign signal or device as defined in the Manual of Uniform Traffic Control Devices; or which makes use of the words "STOP," "LOOK," "DANGER", or any other word, phrase, symbol or character in such a manner as to interfere with, mislead, or confuse traffic.
- (9) No temporary sign shall have moveable lettering or lettering capable of being moved or replaced.
- (c) **Maintenance.** All signs shall be maintained in accordance with the following:
- (1) The property owner, occupant, or other person responsible for the sign shall maintain the sign in a condition fit for the intended use and he or she shall have a continuing obligation to comply with all building code requirements and the requirements of this Chapter.
 - (2) If the Building Commissioner finds that any sign is unsafe, insecure, a menace to the public; or constructed, erected, or maintained in violation of the provisions of this Code, notice shall be given in writing by the Building Commissioner to the property owner, occupant, or other person responsible for the sign. The property owner, occupant, or other person responsible for the sign shall, within forty-eight (48) hours of such notification, correct such unsafe condition or remove the sign. If the correction has not been made within the forty-eight (48) hours, the sign may be removed or altered by the City to comply with these regulations at the expense of the property owner, occupant, or other person responsible for the sign. The Building Commissioner may cause any sign, which, in the City's opinion, creates an immediate danger to persons or property to be removed immediately and without prior notice.
 - (3) Whenever any sign, either conforming or nonconforming to these regulations, is required to be removed for the purpose of repair, refurbishing, or repainting, the same may be done without a permit or any payment of fees provided that all of the following conditions are met:
 - A. There shall be no alteration or remodeling to the sign face, lettering (except as otherwise permitted for changeable copy), sign base, sign support(s) or the mounting of the sign itself.
 - B. There shall be no enlargement or increase in any of the dimensions of the sign or its structure.
 - C. The sign shall be accessory to a legally permitted, conditional or nonconforming use.
 - (4) The Building Commissioner may order any sign to be painted or refurbished whenever needed to keep the sign in a neat and safe condition. All supports, guys, braces and anchors for such signs shall be maintained in a safe condition, and it shall be unlawful for the owners or person having charge of such sign not to remove the same after receiving notice from the Building Commissioner.
 - (5) Any permanent sign which advertises a business no longer conducted on the premises or fails to serve the purposes for which it was intended, or evidences a lack of maintenance, shall be removed by the owner, agent, or person having the beneficial use of the building, structure or land upon which such sign is located, within thirty (30) days after written notice by the Building Commissioner. A party served with such notice shall have the right to appeal the Building Commissioner's order by filing a notice of appeal with the Zoning Board of Appeals within thirty (30) days of receipt of the notice. Upon failure to file a timely notice of appeal and failure to comply with such notice within the time specified in such order, the Building Commissioner is hereby authorized to cause removal of such sign, and any expense incident thereto shall be paid by the owner of the property on which such sign is located.
 - (6) If a sign, its letters or its message are designed and approved by a City issued permit to be internally illuminated and the sign or any of its letters or message are only partially lit, all illumination of the sign shall be discontinued until the sign is repaired and properly illuminated as it was designed and approved in the permit for the sign.
- (Ord. 3-2006, Passed 2-28-06.)

1179.09 REGULATIONS FOR NONCONFORMING SIGNS.

- (a) **Maintenance of Nonconforming Signs.** Nonconforming signs shall be maintained in good condition pursuant to this Chapter and may continue until such sign is required to be removed as set forth in this Chapter.
 - (b) **Alteration, Relocation or Replacement of Nonconforming Signs.** A nonconforming sign shall not be structurally altered, relocated or replaced unless it is brought into compliance with the provisions of this Chapter, except as otherwise permitted in this Chapter.
 - (c) **Reconstruction of Damaged Sign.** If a sign face and/or its support is damaged to the extent where the repair cost exceeds 50% of the replacement cost of the sign, the sign shall be removed or brought into compliance with this Chapter. If the repair costs do not exceed 50% of the replacement cost of the sign, the sign may be repaired, subject to approval of consistency in design by the Architectural Board of Review and provided all repair work is completed within sixty (60) days of the date the damage was incurred.
 - (d) **Termination.** A non-conforming sign shall immediately lose its legal non conforming status, and shall be brought into conformance with this Chapter or removed, when any of the following occur:
 - (1) The size or shape of the sign is changed.
 - (2) The sign structure is altered.
 - (3) If the property upon which the sign is located ceases to be used for a period of six (6) months or more.
 - (e) **Historic Signs.** The Architectural Board of Review may grant exceptions to these standards whenever a sign has been designated as a historic landmark pursuant to applicable law.
- (Ord. 3-2006, Passed 2-28-06.)

1179.10 DESIGN STANDARDS.

All permanent signs reviewed by the Architectural Board of Review shall comply with the following Standards.

- (a) **Diversity/Cohesiveness of Signs Seen in a Series.** Within a commercial area or development where multiple storefronts are situated side by side, the level of variety or cohesiveness in the design of signs that are seen in a series or sequence should be commensurate with the level of variety or cohesiveness presented by the architecture of the building(s):
 - (1) Variety in the design of signs among different storefronts should be encouraged when the architecture of the building(s) suggests variety. (See Figure 3.)

Figure 3 Environment where individual stores are articulated through varied architectural design.

- (2) Storefronts with common architectural elements should have signs that share continuity of design so that the placement and design of individual signs contribute to the cohesive appearance created by the common architectural elements. For example, a series of storefronts that, because of their architecture and design, have the appearance of a single building should have occupant signs that share common elements. (See Figure 4.)

Figure 4 Building where all storefronts share common architectural features.

- (3) **Sign Plans.** Owners of multi-occupant buildings shall develop Sign Plans in conformance with Section 1179.11 (c)(4) for the building and site to aid in determining the level of variety/cohesiveness required for signs.
- (b) **Placement of Signs on Buildings.** Signs should be designed and placed on buildings to be compatible with and complement the appearance of the building.
 - (1) All signs should be reviewed for their impact on the overall building facade.
 - (2) The sign and associated lighting fixtures should complement the architecture of the building on which it is placed and should be placed in an appropriate location on the building facade.
 - (3) If the building design does not clearly identify the appropriate placement for a sign panel (see Figure 5), then individual letters are encouraged unless there is a clear location for adding panels, such as establishing one or more repetitive, common architectural features in order to create a repetitive sequence. (See Figure 6.)

Figure 5 Figure 6

Figure 5 Building with no specific sign placement location using sign affixed

to a panel verses individual letters. Awkward placement of sign panels.

Figure 6 Building is better suited to sign comprised of individual letters.

- (4) Whenever a new or renovated sign is proposed for an existing building:
 - A. It may be determined that building alterations are needed in order for the proposed sign to be properly placed on the building facade.
 - B. Any inappropriate and extraneous elements from past remodeling project(s) should be removed prior to the installation of the proposed sign to improve the clarity and design of the proposed sign and restore the intended character of the building.
- (5) A sign should be confined within the fascia consistent with signs on adjacent buildings and shall not extend beyond the identified signable area on the building or over the edges of the sign panel.
- (6) In multi-occupant buildings, signs for first floor occupants should not extend above the windowsill of the second story unless the establishment is also located on the second floor.
- (7) Colors of the sign and the sign background should be compatible with the building's colors.
- (c) **Specific Standards for Window Signs, Projecting Signs, and Ground Signs.**
 - (1) **Window Signs.** Permanent window signs should be comprised of individual letters, logos, or design elements that are not encompassed by a solid opaque background so as not to obscure the view through the window. (See Figure 7.)

Figure 7 Transparent window sign.

- (2) **Projecting Signs.** The size of the lettering and graphics on a projecting sign should be appropriate for viewing by pedestrians.
- (3) **Ground Signs.** The design and placement of ground signs and associated lighting fixtures should complement the overall visual appearance of the site:
 - A. Ground signs should be designed to relate to and share common design elements with the building and the sign(s) attached to the building.
 - B. Whenever a building is located thirty (30) feet or more from the street, its ground sign should be placed on a solid base.
 - C. Approved year-round landscaping shall be used around the base of the sign to screen lighting fixtures and sources in compliance with Section 1179.08(a)(1)(B). (See Figure 8.)

Figure 8 Signs shall be appropriately landscaped.

- D. When properly screened, the lower two (2) feet of the solid base of a ground sign may be exempt from the sign area calculation. (See Figure 8.)
 - E. Ground signs should be spaced or combined along the street frontage in a manner that ensures that one ground sign does not obscure the view of another ground sign.
 - F. A ground sign that provides a directory of occupants for a multi- occupant building should have simplicity of design to compensate for the additional amount of information provided (i.e. utilize common elements such as the same background color, or other common elements, etc.)
- (d) **Overall Design of Signs (Wall, Awning, Window, Projecting and Ground Signs).**
- (1) The size and shape of the sign shall be in proportion to the space the sign is to occupy:
 - A. A sign (whether comprised of a panel or individual letters) should not exceed approximately 70% of the height and length of the signable area of the building. (See Figures 9, 10 and 11.)

Figure 9 Signable area of building is that portion of a building façade

that can accommodate a sign with an open area framed by the

architectural elements of the building.

Figure 10

Figure 11

Figure 10 Height and width of sign panel should not exceed 70%

of the height and width of signable area. Height and width

of lettering should not exceed 70% of the height and width of sign panel.

Figure 11 Height and width of sign comprised of individual letters

should not exceed 70% of the height and width of signable area.

- B. The lettering within a sign panel should not exceed approximately 70% of the height and length of the sign panel. (See Figure 10.)
- (2) Elements of the sign should create an overall cohesive design, reflect simplicity, avoid visual clutter and ensure legibility. Each sign should:
- A. Be consolidated into a minimum number of elements, whether words, symbols, or graphics.
 - B. Have a simple shape,
 - C. Have appropriate contrast,
 - D. Be designed with a limited number of, and harmonious use of, colors,
 - E. Be constructed with a minimum number of materials.
- (3) The message should be easy to read from the intended vantage point public street, public sidewalk, or public parking lot - but not be out of scale with the building, site or streetscape.
- A. The ratio of the message to the background should permit easy recognition of the message.
 - B. Lettering size should be the size needed to ensure the sign can be seen from the intended distance.
 - C. The number of items of information displayed should be consistent with the amount of information that can be comprehended by the intended viewer.
 1. Generally ten (10) items or less of information per sign are a typical amount of information the average person can comprehend while driving. This is based upon the principle that the more readable the type face and the better the contrast between the letter and the background, the more readable and comprehensible the sign.
 2. An item of information includes a symbol, geometric shape, logo, word, abbreviation or number, or a grouping of letters and numbers which together convey meaning. For signs combining different shapes, each shape may be considered an item of information. (See Figure 12.)

Figure 12 Calculation Number of Items

Logo = 1 item

Sign Text = 2 items

Supplemental Information = 3 items

Total = 6

- D. Lettering and numbers less than three (3) inches in height should only be used when intended to be viewed from a vantage point on the interior of the site, such as after the vehicle has entered the site or by pedestrians.
 - E. For awning signs, the sign graphics should be located on the portion of the awning fabric that hangs perpendicular to the horizontal plane of the ground, below the awning's support structures.
- (4) All plaques hanging from the same projecting sign supports should have a compatible size, shape and color so that the entire projecting sign has an overall cohesive design.
 - (5) All wall signs, projecting signs, ground signs and wall signs mounted on a panel should have a compatible frame or border.
 - (6) The aggregate exterior lighting used to illuminate any one sign face in a residential district should not exceed an initial lumen output of 2850 lumens (equivalent to a 150 watt incandescent A lamp).
- (e) **Sign Construction.** All signs shall be framed, constructed, and erected so as to complement the overall appearance of the building and site as well as the overall appearance of the sign.
- (1) **Sign Graphics.** A sign's graphic elements shall be executed in a professional manner.
 - (2) **General Sign Construction.**
 - A. All signs shall be constructed, and erected in a professional and workmanlike manner.
 - B. Signs shall be structurally sound and located so as to pose no threat to pedestrian or vehicular traffic.
 - (3) **Materials.**
 - A. Signs should be fabricated on and of materials that are of permanent quality, good durability and are complimentary to the building of which they become a part.

- B. Materials used should be those materials that weather well and reduce maintenance.
- C. Signs should have a matte finish, not have a glossy or reflective finish.
- (4) **Framing And Supports.**
 - A. Visible frames or supports for freestanding or projecting signs should be:
 - 1. In scale with the size and character of the building;
 - 2. Designed either as a key element of the sign or minimized so as not to detract from the sign.
 - B. All signs attached to buildings shall be attached in a manner that preserves the historic integrity of the building.
 - C. No part of any sign shall be revolving, oscillating or otherwise designed to move to attract attention.

(Ord. 3-2006. Passed 2-28-06.)

1179.11 ADMINISTRATIVE PROVISIONS.

- (a) **Compliance with this Chapter.** No person shall erect, locate, move, alter, or replace any sign or cause a sign to be located or maintained, unless all provisions of this Chapter have been met.
- (b) **Signs Requiring a Permit.** To ensure compliance with these regulations, a permit shall be obtained for all signs, unless specifically exempted below. All temporary ground signs and banner signs, except ideological signs, shall be registered with the Department of Building, Zoning and Housing on forms provided by the Department of Building, Zoning and Housing.
- (c) **Application Requirements.**
 - (1) An application for a permit shall be made to the Building Commissioner on the form provided and in the manner required.
 - (2) When any person other than the owner of the property submits an application, the owner of the property or an authorized agent for the owner shall also sign such application.
 - (3) Each application shall be accompanied by drawings to scale, showing:
 - A. The design and layout proposed including the total area of the sign, the size, character and color of letters, lines and symbols.
 - B. The method of illumination, if any.
 - C. The exact location of the sign in relation to the building and property.
 - D. Details and specifications for construction, erection and attachment as may be required by the Ohio Basic Building Code.
 - (4) Applicants shall, when required pursuant to this Section, submit a Sign Plan for review and approval by the Architectural Board of Review.
 - A. A Sign Plan shall be required for all multi-occupant buildings and shall be submitted by the owner of a multi occupant building whenever:
 - 1. A new multi-occupant building is constructed; or
 - 2. An existing building is renovated, or remodeled and after the renovation or remodeling, there is more than one occupant that occupies the remodeled or renovated building; or
 - 3. When a replacement sign is proposed for an existing multi-occupant building.
 - B. The Sign Plan shall create a set of specific standards for sign design and placement on the proposed building, and on the site.
 - C. The Sign Plan shall include the following:
 - 1. Building sections and elevations drawn at an appropriate scale.
 - 2. Computation of the maximum total sign area and the maximum area of signs for individual storefronts or building units affected by the Sign Plan.
 - 3. An accurate indication on the elevation/section drawings of the location of each existing and proposed sign.
 - D. The Sign Plan shall specify one or more standards for consistency among all signs on the multi-occupant building(s) included in the Sign Plan with regard to and in the priority of the elements listed below:
 - 1. Uniform sign placement and/or sign height;
 - 2. Uniform size and/or shape;
 - 3. Type of sign construction (materials) and letter components (i.e., sign panel vs. raised letters) and framing;
 - 4. Type of lighting, and the type of lighting fixtures, if any;
 - 5. Uniform background colors or harmonious use of a limited range of complementary background colors, and/or harmonious use of a limited range of complementary colors for the sign lettering.
 - E. The complexity of the Sign Plan shall be based on the level of variety/cohesiveness of the building architecture and the surrounding area. When a building exhibits a high degree of architectural uniformity, the Sign Plan should require a high degree of consistency among sign elements and, therefore, should specify standards for most or all of the elements set forth in subsection (D) above.
- (d) **Sign Review.**
 - (1) The Architectural Board of Review shall review and act on applications for permanent signs that exceed two (2) square feet, according to the standards set forth in this Chapter and the review procedures for development plan review set forth in this Code.
 - (2) The Building Commissioner shall review all temporary signs, except as otherwise specifically exempted below.
 - (3) The erection of the following signs shall not require a permit provided that all applicable regulations of this Chapter are complied with:
 - A. Signplates for residential uses;
 - B. Temporary signs;
 - C. Maintenance of existing signs in compliance with Section 1179.07.
- (e) **Referral of Applications to the Architectural Board of Review.** The Building Commissioner, upon receiving an application, shall examine such plans, specifications and other data and the premises upon which it is proposed to erect the sign or other advertising structure.
 - (1) If it appears that the proposed sign is in compliance with this Chapter and all other ordinances of the City, the application shall be referred to the Architectural Board of Review, when its approval must be obtained before the permit is issued.
 - A. The Architectural Board of Review has the discretion to waive the submission of any items as deemed appropriate.
 - B. When approved by the Architectural Board of Review, the application shall be returned to the Building Commissioner, who shall issue the permit.
 - C. If the work authorized under a permit has not been completed within six (6) months after the date of issuance, the Building Commissioner shall not issue a permit in connection with any application referred to the Architectural Board of Review for review unless the Board approves the same. The Board shall conduct such review as a matter over which it has original jurisdiction.

(Ord. 3-2006. Passed 2-28-06.)

CHAPTER 1180

Regulated Uses

- 1180.01 Purpose.**
- 1180.02 Definitions.**
- 1180.03 Location regulations.**
- 1180.04 Application procedure; waiver provisions.**
- 1180.99 Penalty; equitable remedies.**

CROSS REFERENCES

Obscenity and sex offenses - see GEN. OFF. Ch. 533

1180.01 PURPOSE.

In the enactment, execution and enforcement of this chapter, it is recognized that there are certain uses which, due to the nature of their operation, are recognized as having seriously objectionable operational characteristics, particularly when several of such uses are concentrated in close proximity to each other thereby having a detrimental effect upon the surrounding area. The regulation of these uses is necessary to insure that the detrimental effects will not contribute to the blighting, downgrading or other diminution of property values of the surrounding neighborhood. The primary purpose of these regulations is to prevent a concentration of these uses in any one area. Uses subject to these controls are:

- (a) Adult book store;
- (b) Adult motion picture theatre;
- (c) Adult peep show;
- (d) Massage establishment.

(Ord. 8-90. Passed 3-13-90.)

1180.02 DEFINITIONS.

As used in this chapter, the following terms shall have the following definitions:

- (a) "Adult book store" means an establishment having as a substantial or significant portion of its stock in trade, books, magazines and other periodicals or motion picture films, video tapes or sound recordings which are distinguished or characterized by their emphasis on matter depicting, describing or relating to "specified sexual activities" or "specified anatomical areas," (as defined below) or an establishment with a segment or section devoted to the sale or display of such material.
- (b) "Adult motion picture theatre" means an establishment wherein motion pictures are shown which present material distinguished or characterized by an emphasis on matter depicting, describing or relating to "specified sexual activities" or "specified anatomical areas," (as defined below) for observation by patrons therein.
- (c) "Adult peep show" means an enclosed building used for presenting material distinguished or characterized by an emphasis on matter depicting, describing or relating to "specified sexual activities" or "specified anatomical areas," (as defined below), for observation by patrons therein by means of coin-operated or manually-operated viewing devices.
- (d) "Massage establishment" means an establishment or operation within the meaning of Ohio R.C. 4731.15 and 715.61.
- (e) "Specified sexual activities" and "specified anatomical areas".
 - (1) For the purpose of this section, "specified sexual activities" is defined as:
 - A. Human genitals in a state of sexual stimulation or arousal;
 - B. Acts of human masturbation, sexual intercourse or sodomy; bondage, sadomasochism or bestiality;
 - C. Fondling or other erotic touching of human genitals, pubic region, buttock or female breast.
 - (2) "Specified anatomical areas" is defined as:
 - A. Less than completely and opaquely covered:
 - 1. Human genitals, pubic region,
 - 2. Buttock, and
 - 3. Female breast below a point immediately above the top of the areola; and
 - B. Human male genitals in a discernibly turgid state, even if completely and opaquely covered.

(Ord. 8-90. Passed 3-13-90.)

1180.03 LOCATION REGULATIONS.

Except as otherwise provided under the waiver provisions of this chapter, no building or land shall hereafter be used for any of the uses set out in Section 1180.01 if:

- (a) The boundaries of the site of the proposed location is within one thousand feet of a residentially-zoned district; or
- (b) The boundaries of the site of the proposed location is within one thousand feet of a church or elementary, intermediate or high school; or
- (c) There are already in existence one or more regulated uses within one thousand feet of the boundaries of the site of the proposed regulated use.

(Ord. 8-90. Passed 3-13-90.)

1180.04 APPLICATION PROCEDURE; WAIVER PROVISIONS.

Applications to establish any of the above regulated uses shall be forwarded immediately by the Building Commissioner to the Planning Commission.

- (a) The Planning Commission may recommend Council waive the one thousand feet separation regulation if, after receiving evidence at a regular meeting, the following specific findings are made:

- (1) That the proposed use will not be contrary to the public interest or injurious to nearby properties, nor adversely affect the general welfare of the neighborhood, and that the spirit and intent of this chapter will be

observed.

- (2) That the proposed use will not enlarge or encourage the development of a "skid row" area.
- (3) That the establishment of an additional regulated use in the area will not be contrary to any program of neighborhood conservation nor will it interfere with any program of urban renewal.
- (4) That all applicable regulations of this chapter will be observed.
- (b) Prior to any recommendation granting permission for such regulated use, the Planning Commission shall give due notice of receipt of any application under consideration (Notice of Application) to all persons to whom any real property within one thousand feet of the premises in question shall be addressed, and to the occupants of all single, two, three and four family buildings and to the managers of all multi-unit buildings over four families (who shall be requested to post such notice in an appropriate location within the multi-unit building) and to all places within one thousand feet, and to any neighborhood improvement organizations known to exist in the area (who have informed the Commission in writing of their existence). Such notice shall be delivered personally or by mail addressed to the respective owners and if the tenant's name is not known, the term "Occupant" may be used.
- (c) The Notice of Application shall inform the recipient of the applicant's name, the applicant's proposal, the local address and the lot number and subdivision name of the premises in question, and the section of the Zoning Ordinance under which the proposal is being processed. Such notice shall also invite the expression of comments, statements or opinions either in writing or in person with a time period expiring not less than fourteen days from the mailing date of such Notice of Application.
- (d) Subsequent to the deadline for response to the Notice of Application, a decision shall be made by the Planning Commission (taking into consideration the comments, statements and opinions expressed) to recommend to Council to either approve, approve with conditions or deny the proposal in accordance with the standards set forth in this section. The recommendation of the Planning Commission shall be subject to the approval of Council.
- (e) A copy of the recommendation of the Planning Commission shall be mailed to the applicant and to all persons responding to the Notice of Application informing them that the Commission's recommendation will not take effect pending a public hearing and decision by Council.
- (f) Council may waive the locational requirements upon appeal of any of the regulated uses if the findings required in Section 1180.04(a) are specifically made and after receiving a report and recommendation from the Planning Commission.
- (g) In recommending or approving a permit for any regulated use the Planning Commission or Council may impose any such conditions or limitations upon the establishment, location, construction, maintenance or operation of the regulated use as may in its judgment be necessary for the protection of the public interest. Any evidence and guarantee may be required as proof that the conditions stipulated in connection therewith will be fulfilled.
- (h) When the decision of Council becomes final, Council shall immediately notify the Building Commissioner in writing indicating the approval, approval with conditions (in which case the conditions shall be set out in detail) or denial.

If the decision of Council approves, or approves with conditions, the requested waiver, the Building Commissioner shall, if all other applicable building code and zoning code regulations have been complied with, issue an occupancy permit subject to any conditions imposed.

(Ord. 8-90. Passed 3-13-90.)

1180.99 PENALTY; EQUITABLE REMEDIES.

(a) Whoever violates any provision of this chapter, or any effective rule or regulation promulgated hereunder, or fails to comply therewith or with any written notice or written order issued hereunder, or refuses to permit lawful entry by the Building Commissioner or other city department heads or their representatives, and whoever interferes with, obstructs or hinders the Building Commissioner while he is attempting to make a lawful inspection, is guilty of a misdemeanor of the first degree, for each offense. A separate offense shall be deemed committed each day during or on which a violation occurs or continues.

(b) The imposition of any penalty shall not preclude the Director of Law from instituting an appropriate action or proceeding in a court of proper jurisdiction to prevent an unlawful repair or maintenance, or to restrain, correct or abate a violation, or to prevent the occupancy of a building, structure or premises or to require compliance with the provisions of this chapter or other applicable laws, ordinances, rules or regulations, or the orders or determinations of the Building Commissioner or Council.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1181

Nonconforming Uses

1181.01 Intent.

1181.02 Establishment of regulations.

1181.03 Nonconforming buildings.

1181.04 Nonconforming land.

1181.05 Nonconforming use of buildings or land.

1181.06 Nonconforming due to amendments.

CROSS REFERENCES

Nonconforming building defined - see ZON. 1123.07(a)

Nonconforming lot defined - see ZON. 1123.07(b)

Nonconforming use defined - see ZON. 1123.07(c)

Nonconforming signs defined - see ZON. 1179.10

1181.01 INTENT.

Regulations for the continuance, maintenance, repair, restoring, moving and discontinuance of nonconforming buildings, land and uses are established in order to achieve, among others, the following purposes:

- (a) To permit the continuance but control of lawful nonconformity so as to minimize any adverse effect on the adjoining properties and development;
- (b) To regulate their maintenance, repair and extension;
- (c) To restrict their rebuilding if substantially destroyed;
- (d) To require their permanent discontinuance if not operated for certain periods; and
- (e) To require conformity if it is discontinued, to bring about eventual conformity in accordance with the objectives of the Master Plan of the City.

(Ord. 72-72. Passed 8-31-72.)

1181.02 ESTABLISHMENT OF REGULATIONS.

Any lawful, nonconforming use existing at the time of the effective date of this chapter (Ordinance 72-72, passed August 31, 1972) may be continued, provided that the building or land or use thereof is not structurally changed, altered, enlarged or moved, unless such altered, enlarged or moved building or use conforms to the provisions of this Zoning Code for the district in which it is located.

The enactment of this chapter shall not be deemed to affect, alter or change any variance heretofore granted by the appropriate administrative or legislative body of the City or by a court of competent jurisdiction upon review of the action of such administrative or legislative body.

(Ord. 72-72. Passed 8-31-72.)

1181.03 NONCONFORMING BUILDINGS.

(a) Maintenance and Repair. A nonconforming building may be continued to be used and normal repairs may be made. Normal repairs include the ordinary maintenance of a building or structure and the replacement of equipment; they do not include the replacement of structural parts except when required by law to restore to a safe condition.

(b) Additions. A nonconforming building may be added to or enlarged, provided the additions are made to conform to all the regulations of the district in which it is located.

(c) Moving. A nonconforming building may be moved to any other location on the same lot or to another lot, provided the building moved will conform with all regulations of the district.

(d) Restoration. Nothing in this chapter shall prevent the restoration of a building damaged by fire, explosion, act of God, or act of a public enemy, subsequent to the effective date of this chapter or shall prevent the continuance of the use of such buildings or part thereof provided that such building is not damaged to an extent more than fifty percent of its reproduction value, and provided further that the restoration is made within two years from the date of damage and that the same use is made of the premises.

(Ord. 72-72. Passed 8-31-72.)

1181.04 NONCONFORMING LAND.

Lots of record prior to passage of the Zoning Code, or amendments thereto which created such nonconforming lot(s) of record, with less area or width than heretofore established may be used in accordance with the following provisions:

(a) In an R-1, R-2, R-3 or RTF District, a single-family dwelling and customary accessory buildings may be erected on any single nonconforming lot of record which existed prior to passage of the Zoning Code or any amendment thereto became effective (Ordinance 72-72, passed August 31, 1972). Such lot must be in separate ownership and not contiguous to another lot or lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that yard dimensions and requirements other than those applying to area or width, or both, of the lot shall conform to the regulations for the district in which such lot is located. Variances of requirements listed in this Code shall be obtained only through action of the Board of Zoning Appeals and City Council.

(b) Notwithstanding the foregoing, if such lot is contiguous to another lot or lots owned by the same person, all of the contiguous lots owned by the same person shall be merged and resubdivided so as to conform to the more recently enacted zoning requirements to the extent that it is reasonably possible and practical. For the purposes of this section, lots shall be considered as owned by the same person when they are owned by: the same individual or corporation; an individual and another in joint tenancy, as tenants-in-common, or as an estate by the entireties and either of the owners owns other lots individually or as a joint tenant or tenant-in-common with another; when any of the lots are owned by an individual and other lots are owned by his or her spouse, parents, grandparents, children, grandchildren, or the spouse of any child or grandchild, or a brother or sister or spouse of a brother or sister of such person; when any of the lots are owned by an individual and other lots are owned by a corporation in which such individual is an officer or director or stockholder; and when any of the lots are owned by two or more corporations which have any individual who is an officer, director or stockholder in all of such corporations.

(Ord. 111-95. Passed 2-13-96.)

1181.05 NONCONFORMING USE OF BUILDINGS OR LAND.

"Nonconforming use of buildings or land" means the use of buildings or land existing lawfully at the time this Zoning Code or any amendments thereto became effective (Ordinance 72-72, passed August 31, 1972), but which does not conform to the use regulations of the district in which it is located.

(a) Change or Expansion of Use. A nonconforming use of buildings or land may only be changed to a conforming use. The nonconforming use of a part of a building or a parcel of land shall not be extended unless recommended by the Board of Appeals and approved by Council.

(1) Resumption. No nonconforming use, if discontinued or changed to a use permitted in the district in which it is located, shall be resumed or changed back to a nonconforming use.

(2) Discontinuance. A nonconforming use shall be deemed discontinued for the purpose of this section if no nonconforming use is made of the property for a period of six months.

(b) Change in Building or Expansion. A nonconforming use shall not be moved from one building to any other location on the same lot or another lot unless the use conforms to all the regulations of the district.

(Ord. 72-72. Passed 8-31-72.)

1181.06 NONCONFORMING DUE TO AMENDMENTS.

The foregoing provisions of this chapter shall also apply to buildings, land, structure or other uses hereafter becoming nonconforming as a result of future reclassification of districts or of other amendments made to this Zoning Code.

(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1183

Conditional Zoning

- 1183.01 Intent.
- 1183.02 Conditions as part of a rezoning.
- 1183.03 Enforcement and guarantees.
- 1183.04 Records.
- 1183.05 Procedure.
- 1183.06 Final development plan.
- 1183.07 Recommendation by Commission to Council.
- 1183.08 Public hearing by Council.
- 1183.09 Public examination of documents.
- 1183.10 Vote by Council.
- 1183.11 Modification of final plan.
- 1183.12 Effective date of amendment or supplement.
- 1183.13 Zoning map amendments.
- 1183.14 Appeal.

CROSS REFERENCES

Defined - see P. & Z. 1123.03(x)
Zoning Board of Appeals - see P. & Z. Ch. 1185
Enforcement and penalty - see P. & Z. Ch. 1187

1183.01 INTENT.

(a) It is the intent of this section to provide a flexible and adaptable zoning method through conditional zoning, whereby a zoning classification not otherwise provided for in the Zoning Code may be allowed subject to certain conditions, offered by the zoning applicant for the protection of the community, that are not generally applicable to land similarly zoned. Such conditions would restrict, not expand, the uses normally permitted by such zoning classification. No use which is prohibited in any zoning classification shall be permitted as conditional zoning.

(b) Conditional zoning may be applied in any district except residential districts.

(c) Conditional zoning is restricted to uses and projects not specifically authorized in any one zoning classification and shall not be used to permit in any zoning classification a use which is already specifically authorized in another zoning classification. For example, conditional zoning shall not be used to permit in a business use zoning classification any use which is specifically authorized in an industrial use zoning classification.

(d) Each application for conditional zoning shall be based upon the factual situation of the particular property and particular use for which the conditional zoning is applied. The granting of any specific application for any specific use shall not be deemed to be precedent or require the granting of conditional zoning for the same or a similar use for any other.

(Ord. 54-88. Passed 1-10-89.)

1183.02 CONDITIONS AS PART OF A REZONING.

In his conditional zoning request, an owner, prior to public hearings before the Municipal Planning Commission and Council, may agree, in writing, to accept reasonable conditions in addition to the regulations provided for the zoning district provided that:

- (a) The rezoning itself must give rise to the conditions;
- (b) Such conditions shall have a reasonable relation to the rezoning;
- (c) Such conditions shall not include a cash contribution to the City;
- (d) Such conditions shall not include mandatory dedication of real or personal property for open space, parks, schools, fire departments or other public facilities;
- (e) Such conditions shall not include payment for or construction of off-site improvements unless essential to the rezoned use;
- (f) No condition shall be offered that is not related to the physical development or physical operation of the property; and
- (g) All such conditions shall be in conformity with the Continuing Comprehensive Plan.

The initial written statement of the offered conditions, with any supporting materials shall be signed by the owner and made a part of the request for rezoning. The offered conditions shall be explained fully by the owner or his agent at the public hearings before the Planning Commission and Council. At the Planning Commission public hearing, the owner may revise or amend his written statement or may request that the application be continued to a specified future date to allow revision or amendment of his written statement or offered conditions. After the Planning Commission has formally taken action on the application and its offered conditions, the written statement of conditions shall not be further revised or amended without referral back to the Planning Commission for review and processing as a new request.

(Ord. 54-88. Passed 1-10-89.)

1183.03 ENFORCEMENT AND GUARANTEES.

(a) The Building Commissioner shall administer and enforce conditions attached to a rezoning or amendment to a zoning map, including:

- (1) The ordering in writing of the remedy of any noncompliance with such conditions;
 - (2) Recommendation for legal action to insure compliance with such conditions including injunction, abatement or other appropriate action or proceeding.
- (b) Council shall require a guarantee in an amount sufficient for and conditioned upon the construction of any physical improvements required by the conditions, or a contract for the construction of such improvements and the contractor's guarantee, in like amount and so conditioned, which guarantee shall be reduced or released by Council, or agent thereof, upon the submission of satisfactory evidence that construction of such improvements has been completed. Failure to meet all conditions shall constitute cause to deny the issuance of an occupancy permit or a zoning certificate.

(c) In any case where the applicant fails to commence or continue construction in accordance with the timetable established in his application, Council may, at its option revoke the conditional zoning by appropriate legislation.

(Ord. 54-88. Passed 1-10-89.)

1183.04 RECORDS.

(a) The official zoning map shall show by an appropriate symbol on the map the existence of conditions attaching to the zoning on the map. A Conditional Zoning Index shall provide ready access to the ordinance creating conditions in addition to the regulations provided for in a particular zoning district or zone. The symbol on the zoning map to designate conditional zoning shall be an asterisk followed by a serial number, as * 1, *2, etc. These symbols, together with the number of the ordinance establishing each, shall also be compiled into a table which shall be shown on the zoning map.

(b) A separate file of these ordinances shall be kept by the Secretary of the Municipal Planning Commission.

(Ord. 54-88. Passed 1-10-89.)

1183.05 PROCEDURE.

(a) The applicant shall, in a letter addressed to the Municipal Planning Commission Chairman, describe the conditions to be incorporated in his rezoning application and the reasons and justification therefor. Four weeks should be allowed for review of the application prior to presentation at the Municipal Planning Commission meeting. The Municipal Planning Commission shall consider this a preliminary plan.

(b) The applicant shall submit to the Commission a preliminary plan of the entire project for which the zoning change is requested. The preliminary plan shall include preliminary study information to validate the following:

- (1) Storm drainage area for storm sewer system;
 - (2) Sanitary system capacity;
 - (3) Water distribution system;
 - (4) Electric distribution system;
 - (5) Emergency ingress and egress arrangements;
 - (6) Street lighting system;
 - (7) Sidewalks.
- (c) In addition to such preliminary plan, the applicant shall supply the following information:
- (1) An expected starting date for the project, relative to the effective date of change in zoning;
 - (2) An expected completion date for the project;
 - (3) The approximate total cost of the project;
 - (4) The expected benefit to the community, e.g. jobs, housing units, recreational facilities, parks, schools, et al.
 - (5) The anticipated impact on the utilities of the Municipality including, but not limited to, the storm sewers, the sanitary sewers and plant and water and electrical usage;
 - (6) The anticipated impact on traffic with suggestions for the resolution of anticipated problems; and
 - (7) The expected environmental impact as to air, water, noise, flora and fauna.

(d) Next, the Commission, with the assistance of the City Engineer and the department heads, shall investigate and ascertain that the location, size and other characteristics of the site in the preliminary plan comply with the following conditions:

- (1) That the proposed project is consistent with the existing growth and development pattern established in the community;
- (2) That it will not adversely affect neighboring property;
- (3) That the project is at a location where traffic congestion does not exist on the streets to be utilized and where objectionable congestion would probably not be created as a result of the project or, if traffic is already a problem at the proposed location, that the traffic situation be analyzed as completely as possible to assure that all reasonable means of minimizing congestion are considered. Turning lanes, one-way routes, limits during certain hours, additional routes, etc. may be indicated.
- (4) That the plan of the project provides for integrated and harmonious design of buildings and for adequate and properly arranged facilities for internal traffic circulation, off-street parking and loading, landscaping and such other features and facilities as may be necessary to make the project attractive and efficient.

(Ord. 54-88. Passed 1-10-89.)

1183.06 FINAL DEVELOPMENT PLAN.

(a) Upon determination by the Planning Commission that the proposed development project as shown by the preliminary plan thereof conforms to the requirements of all applicable provisions of this Zoning Code and the Subdivision Regulations, the proponent shall prepare and submit a final development plan which shall incorporate any changes or modifications required or suggested by the Commission.

(b) The final development plan in ordinance form, shall be submitted to Council where it will be read for the first time and referred to the Commission for formal consideration.

(Ord. 54-88. Passed 1-10-89.)

1183.07 RECOMMENDATION BY COMMISSION TO COUNCIL.

The Planning Commission shall, within sixty days of such reference by Council, after public hearing as required by the Municipal Charter, approve, disapprove or make suggestions concerning the proposed amendment or supplement, and shall submit such recommendation, together with the text and map pertaining thereto, to Council.

(Ord. 54-88. Passed 1-10-89.)

1183.08 PUBLIC HEARING BY COUNCIL.

Before any such proposed amendment or supplement may be passed, Council shall hold a public hearing thereon and shall give thirty days notice of the time and place thereof in a newspaper of general circulation in the Municipality.

(Ord. 54-88. Passed 1-10-89.)

1183.09 PUBLIC EXAMINATION OF DOCUMENTS.

During the thirty-day period following the publication of notice of public hearing, the text or a copy of the text of such amendment or supplement, together with the maps or plans or copies thereof forming part of or referred to in such amendment or supplement, and the maps, plans and reports submitted by the Planning Commission, shall be on file for public examination in the office of the Clerk of Council.

(Ord. 54-88. Passed 1-10-89.)

1183.10 VOTE BY COUNCIL.

Within twenty days after such public hearing, Council shall either adopt or deny the recommendations of the Planning Commission or adopt some modification thereof. No such amendment or supplement which violates, differs from or departs from the recommendation of the Commission shall take effect unless passed or approved by not less than five members of Council.

(Ord. 54-88. Passed 1-10-89.)

1183.11 MODIFICATION OF FINAL PLAN.

Minor modifications and adjustments or rearrangements of the plan may be authorized by the Planning Commission after approval and adoption by Council.

(Ord. 54-88. Passed 1-10-89.)

1183.12 EFFECTIVE DATE OF AMENDMENT OR SUPPLEMENT.

Amendments or supplements adopted by Council shall become effective under the provisions of the Municipal Charter.

(Ord. 54-88. Passed 1-10-89.)

1183.13 ZONING MAP AMENDMENTS.

When an amendment to this Zoning Code, changing the zoning of any area, becomes effective, it shall be the duty of the City Engineer to cause such change to be entered on the Zoning Map on file in the office of the Clerk of Council.

(Ord. 54-88. Passed 1-10-89.)

1183.14 APPEAL.

An applicant for conditional zoning aggrieved by a decision of the Building Commissioner pursuant to Section 1183.03, may petition Council to review such decision.

(Ord. 54-88. Passed 1-10-89.)

CHAPTER 1185

Zoning Board of Appeals

EDITOR'S NOTE: Council by Resolution 88-73, passed October 9, 1973 has approved rules and regulations of the Zoning Board of Appeals relative to procedure and hearings before the Board. Copies of such rules are on file with the Council Clerk.

1185.01 Intent.

1185.02 Organization.

1185.03 Duties and powers.

1185.04 Administrative review.

1185.05 Special approval.

1185.06 Variances.

1185.07 Hearings.

1185.08 Record and report to Council.

1185.09 Fees.

CROSS REFERENCES

Appeals from zoning decisions - see Ohio R. C. 713.11

Variance defined - see ZON. 1123.08(f)

Recommendation of change or expansion of use - see ZON. 1181.05

1185.01 INTENT.

Procedures for the administration and enforcement of this Zoning Code and for making appeals are herein established in order to achieve, among others, the following purposes:

- (a) To provide general procedures and rules for meetings, hearings and appeals; and
- (b) To define the functions of the Zoning Board of Appeals and its relationship with other City officials and boards in administering the Zoning Code.

(Ord. 72-72. Passed 8-31-72.)

1185.02 ORGANIZATION.

(a) The Zoning Board of Appeals, which shall be appointed in accordance with the provisions of the City Charter shall elect at its first meeting in each calendar year, from among its members, a Chairman, a Vice Chairman and a Secretary.

(b) The Board shall prepare rules and regulations as may be necessary to carry into effect the duties, powers and responsibilities conferred herein, consistent with this Zoning Code and including those duties and powers as set forth in the City Charter. Such rules and regulations, before becoming effective, shall be approved by Council.

(Ord. 72-72. Passed 8-31-72.)

1185.03 DUTIES AND POWERS.

In addition to its duties and powers as set forth in the City Charter, the Zoning Board of Appeals shall have the power to act on those matters where this chapter provides for administrative review, to hear and decide all matters specifically referred to it for recommendation or decision in provisions of this and other codes of the City, and to recommend to Council a variance as defined in this chapter, the City Charter and the laws of the State.

(Ord. 72-72. Passed 8-31-72.)

1185.04 ADMINISTRATIVE REVIEW.

(a) The Zoning Board of Appeals shall hear and decide appeals de novo where it is alleged by the appellant that there is an error in any order, requirement, permit, decision or refusal made by the Director of Public Safety, or any other administrative official in carrying out or enforcing any provision of this Zoning Code.

(b) To be considered, the appellant shall, within thirty days after the date of such decision, file in the office of the Director of Public Safety and of the Board a notice of appeal specifying the decision or section of this Zoning Code from which the appeal is sought, the error alleged and all necessary data in accordance with the form provided by the City.

(c) Within its powers, the Board may reverse or affirm, wholly or in part, or modify such order, requirement, permit, decision or determination appealed from and shall make such order, requirement, decision or determination as, in its opinion, ought to have been made under the circumstances and to that end, shall have all the powers of the officer from whose decision the appeal is taken.

(Ord. 72-72. Passed 8-31-72.)

1185.05 SPECIAL APPROVAL.

The Zoning Board of Appeals, in addition to the general duties and powers conferred upon it by law, may, in specific cases and subject to Council approval, interpret and determine the application of the regulations herein established in harmony with their general purpose and intent as follows:

- (a) Permit the erection of additional buildings or the enlargement of existing buildings or uses on the same parcel of land, or one contiguous thereto, each in the same single ownership of record at the time of passage of this chapter, for a legal nonconforming business or activity located in a district restricted against such use, where the enlargement or expansion of such business or activity will not be detrimental to or tend to alter the character of the neighborhood or district.
- (b) Permit the erection and use of a building or an addition to an existing building of a public service corporation or for public utility purposes, in any permitted district to a greater height or of larger area than the district requirements herein established, and permit the location in any use district of a public utility building, structure or use if the Board finds such use, height, area, building or structure reasonably necessary for the public convenience and service and provided such building, structure or use is designed, erected and landscaped to conform harmoniously with the general architecture and plan of such district.
- (c) Permit in residence districts the erection of temporary bulletins, memorial markers or other signs not used for purposes of commercial advertising, in excess of four square feet in surface area, under such temporary permit and conditions as will prevent them from becoming dilapidated or unsightly or a menace to the public health, safety or general welfare.
- (d) Permit variations in the provisions in the Zoning Code for the erection and use of buildings on farms for normal farm purposes, requiring however, that such buildings shall conform to all the provisions of this Zoning Code insofar as is practicable.
- (e) The Board, upon making various determinations, shall endeavor to protect adjoining property, to assure safety of pedestrians and convenience of traffic movements within the area under consideration, and may require the provision of curbs, guard rails, walls, fences or other landscape or protective features, and their maintenance, to further the purposes of this Zoning Code.

(Ord. 72-72. Passed 8-31-72.)

1185.06 VARIANCES.

(a) The Zoning Board of Appeals is authorized to recommend to Council, upon appeal, a variance from the strict application of the provisions of this Zoning Code which would result in practical difficulties to a property owner where:

- (1) The literal application of the provisions of this Zoning Code would result in undue hardship. Hardships which are unavoidable if the purpose and intent of this Zoning Code are to be realized, such as a theoretical loss or limiting possibilities of economic advantage, are general hardships, not undue hardships; likewise an undue hardship cannot be based on conditions created by the owner. It must be found that there are peculiar and special hardships applicable to the property involved which are separate and distinct from the general hardship prevailing in the districts;
 - (2) Where unique or exceptional circumstances or conditions apply only to the property involved or to the intended use of the property and do not apply to other property within the same zone. No variance shall constitute a grant of special privilege to an individual, when the variance would be necessarily denied to others. It must be found that there are unique or exceptional conditions justifying a variance on one lot, such as topographical or geological conditions, or type of adjoining developments and that a variance would be justified on any lot where similar, unique or exceptional circumstances prevail;
 - (3) Where granting of a variance will not be injurious to the property or improvements in the neighborhood in which the property is located or be materially detrimental to the public welfare. The existence of undue hardship or other exceptional circumstances shall not be ipso facto evidence for granting of a variance, for such hardships shall be balanced against the present conditions and extent to which such a variance would interfere with the proper future development and rights of adjacent property; and
 - (4) Where the granting of a variance will not be contrary to the purpose, intent and objectives of this Zoning Code and the Master Plan of the City.
- (b) In recommending a variance, the Board may recommend and attach thereto such conditions regarding the location, character and other features of the proposed uses as it may deem reasonable in furtherance of the purpose of this Zoning Code. In recommending a variance, the Board shall state the grounds on which it justifies its recommendation.
- (c) A variance once approved by Council shall not be withdrawn or changed unless there is a change of circumstances, or if, after the expiration of one year, no construction is done in accordance with the terms and conditions for which such variance was granted, the Building Inspector shall give a notice in writing, and thirty days thereafter, the variance shall be deemed null and void, and all regulations governing the premises in question shall revert to those in effect before the variance was granted.

(Ord. 72-72. Passed 8-31-72.)

1185.07 HEARINGS.

- (a) If an appeal or an application for other decisions accompanied by all required information, is received prior to ten days before a regularly scheduled meeting of the Zoning Board of Appeals, the Board shall act within sixty days of such meeting and failure to act within such period shall be considered Board approval of the appeal unless an extension of time is granted by Council. Before making any decisions or recommendations on a variance, the Board shall hold a public hearing or hearings, at such times as shall be determined by the Board itself.
- (b) Notice of the time, place and date of hearings on appeal or applications to the Board for property located in an R-1 or R-2 Single-Family Residential District shall be given to the abutting residents and those within five building lots on each side of the property, upon both sides of the street, to which the variance or application applies. In the event the proposed location is a corner lot, notification shall be given to all residents within five building lots of the intersection for each street forming the intersection. Such notice shall be in writing and delivered by first class mail or personal service at least fourteen days prior to the date of the hearing at which the appeal or application will be considered by the Board. The addresses of those persons to be notified shall be as they appear on the County Auditor's current tax list, the Treasurer's mailing list or such other list or lists that may be specified by the Board. Nothing in this subsection shall prevent or prohibit the Board from advertising the time, date and place of the hearing, including the subject matter thereof, in a newspaper of general circulation in the City, once prior to the hearing in those cases wherein the Board determines to publish such notice.

(Ord. 127-76. Passed 1-25-77.)

- (c) Notices of the time, place and date of hearings for appeals or applications for variances in any district other than an R-1 or R-2 Single-Family Residential District shall be mailed to the appellant and to adjacent property owners as they may appear on the County Auditor's current tax list or the Treasurer's mailing list, and be published at least once in a newspaper of general circulation in the City at least ten days prior to the date of the hearing at which the appeal or the application will be considered.

(Ord. 14-98. Passed 4-14-98.)

- (d) All hearings conducted by the Board shall be open to the public. Any person may appear and testify at a hearing, either in person or by duly authorized agent or attorney. The Board shall have the power to subpoena and require the attendance of witnesses, to administer oaths, to compel testimony, to produce reports, findings and other evidence pertinent to any issue referred to it for action.

- (e) If an appeal has been denied by Council, the Board need not reconsider the same appeal if resubmitted within six months after the date of decision unless the underlying conditions have substantially changed.

(Ord. 127-76. Passed 1-25-77.)

1185.08 RECORD AND REPORT TO COUNCIL.

- (a) The Zoning Board of Appeals is authorized to engage the services of a secretary, and shall provide a detailed report of all its proceedings, setting forth its reasons for decisions, the vote of each member participating therein and the absence of a member or his failure to vote. Upon issuance by the Board of any ruling, determination, order or recommendation, the Chairman of the Board shall transmit within ten days of the date of such ruling, determination, order or recommendation, a copy of the record thereof to the Clerk of Council, and such record, including conditions prescribed by the Board, shall be filed and posted for two weeks in the offices of the Director of Public Safety.

The report shall be open to public inspection and copies shall be mailed forthwith to each interested party noted therein.

- (b) Council shall act upon matters reported or recommended to it as follows:

- (1) Whenever the Board of Zoning Appeals of the City, pursuant to Section 1185.05, issues any ruling, determination, order or recommendation to Council requiring action thereon by Council for the approval, confirmation or disapproval of the same, the record thereof shall be reviewed by the Planning and Zoning Committee of Council and report made thereon to the Committee of the Whole.
- (2) The Planning and Zoning Committee of Council and the Committee of the Whole shall apply the provisions of Sections 1185.05, Special Approval, and 1185.06, Variances, upon the basis of the record submitted to Council by the Board of Zoning Appeals pursuant to Section 1185.08 and such other evidence which may be submitted for Council's determination.
- (3) If Council finds that the recommendation of the Board of Zoning Appeals is supported by reliable, substantial and probative evidence and conforms to the standards as set forth in Chapter 1185 of the Planning and Zoning Code of these Codified Ordinances, it shall confirm the action of the Board of Zoning Appeals.
- (4) If Council finds the recommendation of the Board of Zoning Appeals is not supported by reliable, substantial and probative evidence and does not conform to the standards set forth in Chapter 1185, it shall refuse to confirm the action of the Board of Zoning Appeals and set forth in writing the specific reasons for such refusal to confirm such action.
- (5) In the event the Board of Zoning Appeals fails to recommend a variance or takes no action, Council may, upon the basis of the record and the application of the provisions of Section 1185.05, Special Approval, Section 1185.06, Variances, and this Section, reverse the action of the Board and grant the special use or variance requested.
- (6) The Council may reverse or affirm, wholly or in part, or modify any recommendation of the Board of Zoning Appeals as, in Council's opinion, ought to have been made under the circumstances.
- (7) Council shall notify in writing each applicant or appellant of its action upon the ruling, determination, order or recommendation of the Board of Zoning Appeals.

(Ord. 55-87. Passed 7-14-87.)

1185.09 FEES.

Council may from time to time establish fees to be charged for the following proceedings:

- (a) Administrative review proceedings (the fee shall be returned to the appellant if he prevails).
- (b) Applications for special approval proceedings.
- (c) Applications for variance proceedings.

(Ord. 72-72. Passed 8-31-72.)

CHAPTER 1187

Enforcement and Penalties

1187.01 Enforcement.

1187.99 Penalty.

Violation of zoning ordinances - see Ohio R.C. 713.13
Zoning Board of Appeals - see ZON. Ch. 1185

CROSS REFERENCES

1187.01 ENFORCEMENT.

The provisions of this Zoning Code shall be enforced by the Director of Public Safety, or the Commissioner of Building, Zoning and Housing, as the Director's designee.

(Ord. 61-2019. Passed 6-11-19.)

1187.99 PENALTY.

The owner or owners of any building or premises or part thereof, where anything in violation of this Zoning Code is placed or exists, and any architect, builder or contractor who may be employed to assist in the commission of any such violation and all persons or corporations who violate any of the provisions of this Zoning Code or fail to comply therewith, or any requirements thereof, or who build in violation of a detailed statement of plans submitted and approved thereunder, is for every violation or noncompliance, guilty of a misdemeanor of the first degree for each offense. Each day that a violation or noncompliance exists shall be held and deemed to be a separate offense. Any building which is erected, altered, converted or moved or any use of land which is begun or changed subsequent to August 31, 1972, and is found to be in violation of any of the provisions of this Code is hereby declared a nuisance per se, and the City through its qualified officers, may institute proceedings in any court of competent jurisdiction for the purpose of enforcing this Code. The Director of Public Safety, the legislative body of the City, the Zoning Board of Appeals or any court having competent jurisdiction shall order such nuisance abated and the owner or agent in charge of such building or land shall be adjudged guilty of maintaining a nuisance per se. The rights and remedies provided herein are cumulative and in addition to all other remedies provided by law.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1189

Amendments

1189.01 Procedure.

Council may amend districting or zoning - see Ohio R.C. 713.10
Nonconformities due to amendments - see ZON. 1181.06

CROSS REFERENCES

1189.01 PROCEDURE.

Amendments or supplements to this Zoning Code may be made from time to time in the manner as provided by the ordinances of the City, the City Charter and the laws of the State, however, every petition for a zoning amendment shall be accompanied by a fee. The amount of the fee shall be established by Council and may be changed from time to time, always to hold a reasonable relationship with the necessary costs and expenses, direct or indirect, which may be incurred by reason of publication and the holding of hearings incident to such petitions for zoning amendment.

The fee accompanying the petition, regardless of the ultimate decision, is not refundable.

(Ord. 72-72. Passed 8-31-72.)

TITLE SEVEN – Storm Water Management

Chap. 1190. Definitions.
Chap. 1191. Administration.
Chap. 1192. Disclaimer of Liability.
Chap. 1193. Conflicts, Severability, Nuisances and Responsibility.
Chap. 1194. Illicit Connections and Discharges.
Chap. 1195. Erosion and Sediment Control.
Chap. 1196. Comprehensive Stormwater Management.
Chap. 1197. Riparian Areas and Wetlands.
Chap. 1198. Protected Hillside Zone.

CHAPTER 1190

Definitions

1190.01 Definitions.

CROSS REFERENCES

General Code definitions - see ADM. 101.02

1190.01 DEFINITIONS.

For purposes of this title and unless stated otherwise, the following terms shall have the meaning herein indicated:

- (1) "Acre": A unit of measure equaling forty-three thousand five hundred sixty (43,560) square feet.
- (2) "Approving Authority": The official responsible for administering the applicable program(s).
- (3) "Best Management Practices" ("BMPs"): Schedule of activities, prohibitions of practices, maintenance procedures, and other management practices (both structural and non-structural) to prevent or reduce the pollution of water resources and wetlands. BMPs also include treatment requirements, operating procedures, and practices to control facility and/or construction runoff, spillage, or leaks; sludge or waste disposal; or drainage from raw material storage.

- (4) "Certified Professional in Erosion and Sediment Control" ("CPESC"): A person that has subscribed to the Code of Ethics and have met the requirements established by the CPESC Council of Certified Professional In Erosion and Sediment Control, Inc. to be a Certified Professional In Erosion and Sediment Control.
- (5) "Channel": A natural bed that conveys water or a ditch excavated for the flow of water.
- (6) "City": Throughout this regulation, this shall refer to the City of Richmond Heights, its designated representatives, including the office of the City Engineer, its duly constituted boards and commission and third party organizations under contract to the City such as Cuyahoga Soil and Water Conservation District.
- (7) "Clean Water Act": Pub. L. 92-500, as amended Pub. L. 95-217, Pub. L. 95-576, Pub. L. 96-483, Pub. L. 97-117, and Pub. L. 100-4, 33 U.S.C. 1251 et seq. Formally referred to as the Federal Water Pollution Control Act or the Federal Water Pollution Control Act Amendments of 1972.
- (8) "Concentrated Storm Water Runoff": Surface water runoff which converges and flows primarily through water conveyance features such as swales, gullies, waterways, channels or storm sewers, and which exceeds the maximum specified flow rates of filters or perimeter controls intended to control sheet flow.
- (9) "Conservation": The wise use and management of natural resources.
- (10) "Construction Activity": Activities subject to NPDES Construction Permits. Currently these include construction projects resulting in land disturbance of five (5) acres or more. Beginning in March 2003, NPDES Storm Water Phase II permits will be required for construction projects resulting in land disturbance of 1 acre or more. Such activities include but are not limited to clearing and grubbing, grading, excavating, and demolition.
- (11) "Critical Storm": A storm that is calculated by means of the percentage increase in volume of runoff by a proposed development area. The critical storm is used to calculate the maximum allowable storm water discharge rate from a developed site.
- (12) "Cut": An excavation that reduces an existing elevation, as in road or foundation construction.
- (13) "Damaged or Diseased Trees": Trees that have split trunks; broken tops; heart rot; insect or fungus problems that will lead to imminent death; undercut root systems that put the tree in imminent danger of falling; leaning as a result of root failure that puts the tree in imminent danger of falling, or any other condition that puts the tree in imminent danger of being uprooted or falling.
- (14) "Designated Watercourse": A watercourse that is contained within, flows through, or borders the City and meets the criteria set forth in these regulations.
- (15) "Deteriorated Structure": A structure which has sustained substantial damage from any origin whereby the cost of restoring the structure to its before damaged condition would be equal to, or greater than, fifty percent (50%) of the market value of the structure before the damage occurred.
- (16) "Development Area": A parcel or contiguous area owned by one person or persons, or operated as one development unit, and used or being developed for commercial, industrial, residential, institutional or other construction or alteration that changes runoff characteristics.
- (17) "Disturbed Area": An area of land subject to erosion due to the removal of vegetative cover and/or soil disturbing activities.
- (18) "Ditch": An open channel, either human made or natural, for the purpose of drainage or irrigation with intermittent flow.
- (19) "Drainage":
 - (a) The area of land contributing surface water to a specific point.
 - (b) The removal of excess surface water or groundwater from land by surface or subsurface drains.
- (20) "Dumping": The grading, pushing, piling, throwing, unloading or placing of soil or other material.
- (21) "Earth Disturbing Activity": Any grading, excavating, filling, drilling or other alteration of the earth's surface where natural or man-made ground cover is destroyed and which may result in or contribute to erosion and sediment pollution.
- (22) "Earth material": Any soil, sediment, rock, sand, gravel and organic material or residue associated with or attached to the soil.
- (23) "Earth moving": Any excavating, cutting or filling, or any stockpiling thereof.
- (24) "Erosion": The process by which the land surface is worn away by the action of wind, water, ice, gravity, or any combination of these forces.
- (25) "Erosion and Sediment Control": The control of soil, both mineral and organic, to minimize the removal of soil from the land surface and to prevent its transport from a disturbed area by means of wind, water, ice, gravity, or any combination of those forces.
- (26) "Existing": The present condition of the land at the time of adoption of this Title.
- (27) "Federal Emergency Management Agency" ("FEMA"): The agency with overall responsibility for administering the National Flood Insurance Program.
- (28) "Fill": Depositing of soil, rock or other materials by other than natural means.
- (29) "Finish grade": The final grade or elevation of the ground surface after grading is completed.
- (30) "Grade": The rise or descent of a sloping surface.
- (31) "Grading": Earth disturbing activity such as excavation, stripping, cutting, filling, stockpiling, or other combination thereof.
- (32) "Hazardous Materials": Any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property, or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.
- (33) "Hillside control measures": All of the planning work and control that is required and specified by this title.
- (34) "Illegal Discharge": Any direct or indirect non-storm water discharge to the storm drain system, except as exempted in Section 1194.03.
- (35) "Illicit Connection": An illicit connection is defined as either of the following:
 - (1) Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the storm drain system including but not limited to any conveyances which allow any non-storm water discharge including sewage, process wastewater, and wash water to enter the storm drain system, and any connection to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by an authorized enforcement agency or,
 - (2) Any drain or conveyance connected from a commercial or industrial land use to the storm drain system which has not been documented in plans, maps or equivalent records and approved by the City or any other approving authority.
- (36) "Impervious Cover" or "Impervious Surface": Any surface that cannot effectively absorb or infiltrate water. This may include roads, streets, parking lots, rooftops, sidewalks, and other areas not covered by vegetation.
- (37) "Industrial Activity": Activities subject to NPDES Industrial Permits as defined in 40 CFR, Section 122.26(b)(14).
- (38) "Intermittent Stream": A natural channel that may have some water in pools but where surface flows are non-existent or interstitial (flowing through sand and gravel in stream beds) for periods of one week or more during typical summer months.
- (39) "Landscape Architect": A Professional Landscape Architect registered in the State of Ohio.
- (40) "Landslide": The rapid mass movement of soil and rock material downhill under the influence of gravity in which the movement of the soil mass occurs along an interior surface of sliding.
- (41) "Larger Common Plan of Development or Sale": A contiguous area where multiple separate and distinct construction activities may be taking place at different times on different schedules under one plan.
- (42) "Maximum Extent Practicable": The level of pollutant reduction that site owners/operators of small municipal separate storm sewer systems regulated by 40 C.F.R. Parts 9, 122, 123, and 124, referred to as NPDES Storm Water Phase II, must meet.
- (43) "National Wetlands Inventory Map": Wetland maps that were created by the Fish and Wildlife Service, United States Department of Interior.
- (44) "Natural gradient": The rate of ascent or descent of natural ground surfaces or natural terrains.
- (45) "Natural ground surface" or "natural terrain": The ground surface in its original state before any grading, excavation or filling.
- (46) "Natural Resources Conservation Service" ("NRCS"): An agency of the United States Department of Agriculture, formerly known as the Soil Conservation Service (SCS).
- (47) "Natural vegetation": Plant materials and trees which are indigenous to the area and exist on a site prior to any vegetation destruction, construction, earth moving or earth disturbing activity.
- (48) "Non-Storm Water Discharge": Any discharge to the storm drain system that is not composed entirely of storm water.
- (49) "Nonstructural Storm Water Management Practice": Storm water runoff control and treatment techniques that use natural measures to control runoff and/or reduce pollution levels, and do not require extensive construction efforts and/or do promote runoff control and/or pollutant reduction by eliminating the runoff and/or pollutant source.
- (50) "Noxious Weed": Any plant species defined by the Ohio Department of Agriculture as a "noxious weed" and listed as such by the Department. For the purposes of this regulation, the most recent version of this list at the time of application of these regulations shall prevail.
- (51) "National Pollutant Discharge Elimination System" ("NPDES"): a regulatory program in the Federal Clean Water Act that prohibits the discharge of pollutants into surface waters of the United States without a permit.
- (52) "National Pollutant Discharge Elimination System (NPDES) Storm Water Discharge Permit" or "NPDES Permit": A permit issued by EPA (or by a State under authority delegated pursuant to 33 USC §1342(b)) that authorizes the discharge of pollutants to waters of the United States, whether the permit is applicable on an individual, group, or general area-wide basis and derived from the Federal Clean Water Act.
- (53) "Ohio EPA": The Ohio Environmental Protection Agency.
- (54) "Ohio Wetlands Inventory Map": Wetland maps that were created by the Natural Resources Conservation Service, USDA and the Ohio Department of Natural Resources.
- (55) "One Hundred (100) Year Floodplain": Any land susceptible to being inundated by water from a base flood. The base flood is the flood that has a one percent (1%) or greater chance of being equaled or exceeded in any given year. For the purposes of this regulation, the one hundred (100) year floodplain shall be defined by FEMA or a site-specific Floodplain Delineation in conformance with standard engineering practices and approved by the City.
- (56) "Ordinary High Water Mark": The point of the bank or shore to which the presence and action of surface water is so continuous as to leave a district marked by erosion, destruction or prevention of woody terrestrial vegetation, predominance of aquatic vegetation, or other easily recognized characteristic.
- (57) "Outfall": An area where water flows from a structure such as a conduit, storm sewer, improved channel or drain, and the area immediately beyond the structure which is impacted by the velocity of flow in the structure.
- (58) "Owner": Any person, as defined herein, holding fee simple title to the property or option to purchase the property proposed for development.
- (59) "Perennial Stream": A natural channel that contains water throughout the year, except possibly during period of extreme drought.
- (60) "Person": Any individual, corporation, firm, trust, commission, board, public or private partnership, joint venture, agency, unincorporated association, municipal corporation, county or state agency, the federal government, other legal entity, or an agent thereof.
- (61) "Phasing": Clearing a parcel of land in distinct sections, with the stabilization of each section before the clearing of the next.
- (62) "Pollutant": Anything which causes or contributes to pollution. Pollutants may include, but are not limited to: paints, varnishes, and solvents; oil and other automotive fluids; non-hazardous liquid and solid wastes and yard wastes; refuse, rubbish, garbage, litter, or other discarded or abandoned objections, ordinances, and accumulations, so that same may cause or contribute to pollution; floatables; pesticides, herbicides, and fertilizers; hazardous substances and wastes; sewage, fecal coliform and pathogens; dissolved and particulate metals; animal wastes; wastes and residues that result from constructing a building or structure; and noxious or offensive matter of any kind.
- (64) "Post-Development": The conditions which exist following the completion of soil disturbing activity in terms of topography, vegetation, land use, and the rate, volume, or direction of storm water runoff.
- (65) "Pre-Development": The conditions which exist prior to the initiation of soil disturbing activity in terms of topography, vegetation, land use, and the rate, volume, or direction of storm water runoff.
- (66) "Premises": Any building, lot, parcel of land, or portion of land whether improved or unimproved including adjacent sidewalks and parking strips.
- (67) "Professional Engineer": A Professional Engineer registered in the State of Ohio.
- (68) "Professional Soil Scientist": An individual certified by American Registry of Certified Professionals in Agronomy, Crops and Soils or affiliated registries such as the Association of Ohio Pedologists, that meet the educational and practical experience standards, subscribe to the code of ethics, and qualify for identification as professionals.
- (69) "Professional Wetland Consultant" or "Qualified Wetland Professional": Individuals competent in the areas of botany, hydric soils and wetland hydrology that provide professional services or advice, and meet the education and professional experience requirements as required by the Society of Professional Wetland Scientists.
- (69) "Protected Hillside Zone": Those areas within the City meeting the criteria set forth in Section 1198.04.
- (70) "Protective Setback": A designated transition area around a water resource or wetland left in a natural, usually vegetated, state so as to protect the water resource or wetland from runoff pollution. Construction activities in this area are restricted or prohibited as required in these regulations.
- (71) "Qualified Forester": Any forester employed by the Ohio Department of Natural Resources, Division of Forestry, or any person attaining the credential of Certified Forester as conferred by the Society of American Foresters.
- (72) "Rainwater and Land Development": Ohio's standards for storm water management, land development and urban stream protection. The most current edition of these standards shall be used with this regulation.
- (73) "Redevelopment": The demolition or removal of existing structures or land uses and construction of new ones.
- (74) "Retention Basin": A storm water management pond that maintains a permanent pool of water. These storm water management ponds include a properly engineered/designed volume dedicated to the temporary

- storage and slow release of runoff waters.
- (75) "Riparian Area": Naturally vegetated land adjacent to watercourses which, if appropriately sized, helps to limit erosion, reduce flood flows, and/or filter and settle out runoff pollutants, or which performs other functions consistent with the purposes of this title.
- (76) "Riparian Setback": Those lands within the City which are alongside streams, and which fall within the area defined by the criteria set forth in this title.
- (77) "Runoff": The portion of rainfall, melted snow, or irrigation water that flows across the ground surface and is eventually conveyed to water resources or wetlands.
- (78) "Sediment": The soils or other surface materials that are transported or deposited by the action of wind, water, ice, gravity, or any combination of those forces, as a product of erosion.
- (79) "Sediment Control": The limiting of sediment being transported, by controlling erosion or detaining sediment-laden water, and allowing the sediment to settle out.
- (80) "Sediment Pollution": A failure to use management or conservation practices to control wind or water erosion of the soil and to minimize the degradation of water resources by soil sediment in conjunction with land grading, excavating, filling, or other soil disturbing activities on land used or being developed for commercial, industrial, residential, or other purposes.
- (81) "Sedimentation": The deposition or settling of sediment.
- (82) "Sensitive Area": An area or water resource that requires special management because of its susceptibility to sediment pollution, or because of its importance to the wellbeing of the surrounding communities, region, or the state and includes, but is not limited to, the following:
- (1) Ponds, wetlands or small lakes with less than five (5) acres of surface area.
 - (2) Small streams with gradients less than ten (10) feet per mile with average annual flows of less than three and one-half (3.5) feet per second containing sand or gravel bottoms.
 - (3) Drainage areas of a locally designated or an Ohio designated Scenic River.
 - (4) Riparian and wetland areas.
- (83) "Sheet Flow": Water runoff in a thin uniform layer or rills and which is of small enough quantity to be treated by sediment barriers.
- (84) "Siviculture": The theory and practice of controlling forest establishment, composition and growth.
- (85) "Slip": Landslide as defined herein.
- (86) "Slope": An inclined ground surface; the inclination is expressed as a ratio of the horizontal distance to the vertical distance.
- (87) "Sloughing": A slip or downward movement of an extended layer of soil resulting from the undermining action of water or the earth disturbing activity of man.
- (88) "Soil": Unconsolidated erodible earth material consisting of minerals and/or organics.
- (89) "Soil Conservation Service, USDA": The federal agency now titled the "Natural Resources Conservation Service," which is an agency of the United States Department of Agriculture.
- (90) "Soil Disturbing Activity": Clearing, grading, excavating, filling, or other alteration of the earth's surface where natural or human made ground cover is destroyed and that may result in, or contribute to, increased storm water quantity and/or decreased storm water quality.
- (91) "Soil Erosion and Sediment Control Plan": A written and/or drawn soil erosion and sediment pollution control plan to minimize erosion and prevent off-site sedimentation throughout all earth disturbing activities on a development area.
- (92) "Soil Erosion and Sediment Control Practices": Conservation measures used to control sediment pollution and including structural practices, vegetative practices and management techniques.
- (93) "Soil Survey": The official soil survey produced by the Natural Resources Conservation Service, USDA in cooperation with the Division of Soil and Water Conservation, ODNR and the local Board of County Commissioners.
- (94) "Soil & Water Conservation District": An entity organized under Chapter 1515 of the Ohio Revised Code referring to either the Soil and Water Conservation District Board or its designated employee(s), hereinafter referred to as Cuyahoga SWCD.
- (95) "Stabilization": The use of Best Management Practices, such as seeding and mulching, that reduce or prevent soil erosion by water, wind, ice, gravity, or a combination of those forces.
- (96) "Storm Drainage System": Publicly-owned facilities by which storm water is collected and/or conveyed, including but not limited to any roads with drainage systems, municipal streets, gutters, curbs, inlets, piped storm drains, pumping facilities, retention and detention basins, natural and human-made or altered drainage channels, reservoirs, and other drainage structures.
- (97) "Storm Water": Any surface flow, runoff, and drainage consisting entirely of water from any form of natural precipitation, and resulting from such precipitation.
- (98) "Storm Water Conveyance System": All storm sewers, channels, streams, ponds, lakes, etc., used for conveying concentrated storm water runoff, or for storing storm water runoff.
- (99) "Storm Water Management Plan" ("SWM Plan"): The written document meeting the requirements of Chapter 1196 that sets forth the plans and practices to be used to minimize storm water runoff from a development area and to safely convey or temporarily store and release post-development storm water runoff at an allowable rate to minimize flooding and erosion.
- (100) "Storm Water Pollution Prevention Plan" ("SWP3"): The written document that sets forth the plans and practices to be used to meet the requirements of this regulation.
- (101) "Stream": A body of water running or flowing on the earth's surface, or a channel in which such flow occurs. Flow may be seasonally intermittent.
- (102) "Structural Storm Water Management Practice": Any human made facility, structure, or device that is constructed to provide permanent or temporary conveyance, storage or treatment of storm water runoff.
- (103) "Substantial Damage": Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would be equal to, or greater than, fifty percent (50%) of the market value of the structure before the damage occurred.
- (104) "U.S. EPA": The United States Environmental Protection Agency.
- (105) "Unstable Soils": A portion of land that is identified by the City as prone to slipping, sloughing, or landslides, or is identified by the U.S. Department of Agriculture Natural Resources Conservation Service methodology as having low soil strength.
- (106) "Wastewater": Any water or other liquid, other than uncontaminated storm water, discharged from a facility.
- (107) "Water Resource": Any public or private body of water including lakes or ponds, as well as any brook, creek, river, or stream having banks, a defined bed, and a definite direction of flow, either continuously or intermittently flowing.
- (108) "Watercourse": Any natural, perennial, or intermittent channel, stream, river or brook.
- (109) "Watershed": The total drainage area contributing storm water runoff to a single point.
- (110) "Wetland": Those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation, typically adapted for life in saturated soil conditions, including swamps, marshes, bogs, and similar areas (40 CFR 232, as amended).
- (111) "Wetland, Ohio EPA Category 2 Wetlands": Those wetlands classified by the Ohio EPA as Category 2 wetlands under OAC 3745-1-54(C)(2), or current equivalent Ohio EPA classification, in accordance with generally accepted wetland functional assessment methods acceptable to the U.S. Army Corps of Engineers and Ohio EPA at the time of application of this title.
- (112) "Wetland, Ohio EPA Category 3 Wetlands": Those wetlands classified by the Ohio EPA as Category 3 wetlands under OAC 3745-1-54(C)(3), or current equivalent Ohio EPA classification, in accordance with generally accepted wetland functional assessment methods acceptable to the U.S. Army Corps of Engineers and Ohio EPA at the time of application of this title.
- (113) "Wetland Setback": Those lands within the City that fall within the area defined by the criteria set forth in this title.
- (114) "Winter": October 1st to April 1st of each year.
(Ord. 75-2011. Passed 1-10-12.)

CHAPTER 1191

Administration

1191.01 Responsibilities of the City.

1191.02 Delegation of powers or duties.

CROSS REFERENCES

Conflicts, severability, nuisances and responsibility - see P. & Z. Ch. 1193

1191.01 RESPONSIBILITIES OF THE CITY.

The City shall administer the provisions of this Title Seven, shall be responsible for determination of compliance with its provisions, and shall issue such notices and orders as may be necessary. The City may consult with the Cuyahoga SWCD, state and federal agencies and other technical experts as necessary. Any costs associated with such consultations may be assessed to the applicant or his or her designated representative.
(Ord. 19-2007. Passed 5-8-07.)

1191.02 DELEGATION OF POWERS OR DUTIES.

Any powers granted or duties imposed upon the authorized enforcement agency by the provisions of this Title Seven may be delegated in writing by the Mayor to persons or entities acting in the beneficial interest of or in the employ of the City.
(Ord. 19-2007. Passed 5-8-07.)

CHAPTER 1192

Disclaimer of Liability

1192.01 General disclaimer.

1192.01 GENERAL DISCLAIMER.

(a) Compliance with the provisions of this Title Seven shall not relieve any person from responsibility for damage to any person otherwise imposed by law. The provisions of this Title Seven are promulgated to promote the health, safety, and welfare of the public and are not designed for the benefit of any individual or for the benefit of any particular parcel of property.

(b) By approving any plan under this Title Seven, the City of Richmond Heights does not accept responsibility for the design, installation, and operation and maintenance of erosion and sediment control practices.
(Ord. 75-2011. Passed 1-10-12.)

CHAPTER 1193

Conflicts, Severability, Nuisance and Responsibility

1193.01 Conflicts, severability, nuisance and responsibility.

CROSS REFERENCES

Administration - see P. & Z. Ch. 1191

1193.01 CONFLICTS, SEVERABILITY, NUISANCE AND RESPONSIBILITY.

(a) Where a provision of this Title Seven is in conflict with other provisions of law or ordinance, the most restrictive provisions shall prevail.

(b) If any clause, section, or provision of this title is declared invalid or unconstitutional by a court of competent jurisdiction, validity of the remainder shall not be affected thereby.

(c) The provisions of this title shall not be construed as authorizing any person to maintain a private or public nuisance on their property, and compliance with the provisions of this title shall not be a defense in any action to abate such a nuisance.

(d) Failure of the City to observe or recognize hazardous or unsightly conditions or to recommend corrective measures shall not relieve the site owner from responsibility for the condition or damage resulting therefrom, and shall not result in the City, its officers, employees, or agents being responsible for any condition or damage resulting therefrom.

(Ord. 75-2011. Passed 1-10-12.)

CHAPTER 1194

Illicit Connections and Discharges

1194.01 Purpose.

- 1194.02 Definitions.
- 1194.03 Applicability.
- 1194.04 Ultimate responsibility.
- 1194.05 Discharge prohibitions.
- 1194.06 Suspension of MS4 access.
- 1194.07 Industrial or construction activity discharges.
- 1194.08 Monitoring of discharges.
- 1194.09 Requirement to prevent, control and reduce storm water pollutants by the use of Best Management Practices.
- 1194.10 Watercourse protection.
- 1194.11 Notification of spills.
- 1194.12 Enforcement.
- 1194.13 Appeal of notice of violation.
- 1194.14 Enforcement measures after appeal.
- 1194.15 Cost of abatement of the violation.
- 1194.16 Injunctive relief.
- 1194.17 Compensatory action.
- 1194.18 Violations deemed a public nuisance.
- 1194.19 Recovery of costs and expenses of enforcement.
- 1194.20 Remedies not exclusive.
- 1194.99 Penalty.

CROSS REFERENCES

Prohibited discharges into sewers - see S.U. & P.S. 931.03

1194.01 PURPOSE.

The purpose of this chapter is to provide for the health, safety, and general welfare of the citizens of the City of Richmond Heights, Ohio through the regulation of non-storm water discharges to the storm drainage system to the maximum extent practicable as required by federal and state law. This chapter establishes methods for controlling the introduction of pollutants into the municipal separate storm sewer system (MS4) in order to comply with requirements of the National Pollutant Discharge Elimination System (NPDES) permit process. The objectives of this chapter are:

- (a) To regulate the contribution of pollutants to the municipal separate storm sewer system (MS4) by storm water discharges by any user.
- (b) To prohibit Illicit Connections and Discharges to the municipal separate storm sewer system.
- (c) To establish legal authority to carry out all inspection, surveillance and monitoring procedures necessary to ensure compliance with this chapter.

(Ord. 19-2007. Passed 5-8-07.)

1194.02 DEFINITIONS.

For the purposes of this chapter, the following shall mean:

- (a) "Best Management Practices" ("BMPs"): schedules of activities, prohibitions of practices, general good house keeping practices, pollution prevention and educational practices, maintenance procedures and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to storm water, receiving waters, or storm water conveyance systems. BMPs also include treatment practices, operating procedures, and practices to control site runoff, spillage or leaks, sludge or water disposal, or drainage from raw materials storage.
- (b) "Person": means any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.
- (c) "Storm Water Pollution Prevention Plan": A document which describes the Best Management Practices and activities to be implemented by a person or business to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to Storm Water, Storm Water Conveyance Systems, and/or Receiving Waters to the Maximum Extent Practicable. (See Chapter 1195, Erosion and Sediment Control.)

(Ord. 19-2007. Passed 5-8-07.)

1194.03 APPLICABILITY.

This chapter shall apply to all water entering the storm drain system generated on any developed and undeveloped lands unless explicitly exempted by the City of Richmond Heights.

(Ord. 19-2007. Passed 5-8-07.)

1194.04 ULTIMATE RESPONSIBILITY.

The standards set forth herein and promulgated pursuant to this chapter are minimum standards; therefore this chapter does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants.

(Ord. 19-2007. Passed 5-8-07.)

1194.05 DISCHARGE PROHIBITIONS.

(a) Prohibition of Illegal Discharges: No person shall discharge or cause to be discharged into the municipal storm drain system or watercourses any materials, including but not limited to pollutants or waters containing any pollutants that cause or contribute to a violation of applicable water quality standards, other than storm water.

The commencement, conduct or continuance of any illegal discharge to the storm drain system is prohibited except as described as follows:

- (1) The following discharges are exempt from discharge prohibitions established by this chapter: water line flushing or other potable water sources, landscape irrigation or lawn watering, diverted stream flows, rising ground water, ground water infiltration to storm drains, uncontaminated pumped ground water, foundation or footing drains (not including active groundwater dewatering systems), crawl space pumps, air conditioning condensation, springs, non-commercial washing of vehicles, natural riparian habitat or wet-land flows, swimming pools (if dechlorinated - typically less than one PPM chlorine), fire fighting activities, and any other water source not containing Pollutants.
- (2) Discharges specified in writing by the authorized enforcement agency as being necessary to protect public health and safety.
- (3) Dye testing is an allowable discharge, but requires a verbal notification to the City prior to the time of the test.
- (4) The prohibition shall not apply to any non-storm water discharge permitted under an NPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the Federal Environmental Protection Agency, provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the storm drain system.

(b) Prohibition of Illicit Connections:

- (1) The construction, use, maintenance or continued existence of illicit connections to the storm drain system is prohibited.
- (2) This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.
- (3) A person is considered to be in violation of this ordinance if the person connects a line conveying sewage to the MS4, or allows such a connection to continue.

(Ord. 19-2007. Passed 5-8-07.)

1194.06 SUSPENSION OF MS4 ACCESS.

(a) Suspension due to Illicit Discharges in Emergency Situations: The City may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or Waters of the United States. If the violator fails to comply with a suspension order issued in an emergency, the City may take such steps as deemed necessary to prevent or minimize damage to the MS4 or Waters of the United States, or to minimize danger to persons.

(b) Suspension due to the Detection of Illicit Discharge: Any person discharging to the MS4 in violation of this chapter may have their MS4 access terminated if such termination would abate or reduce an illicit discharge. The City will notify a violator of the proposed termination of its MS4 access. The violator may petition the City for a reconsideration and hearing.

(c) A person commits an offense if the person reinstates MS4 access to premises terminated pursuant to this Section, without the prior approval of the authorized enforcement agency. (Ord. 19-2007. Passed 5-8-07.)

1194.07 INDUSTRIAL OR CONSTRUCTION ACTIVITY DISCHARGES.

Any person subject to an industrial or construction activity NPDES storm water discharge permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the City prior to the allowing of discharges to the MS4.

(Ord. 19-2007. Passed 5-8-07.)

1194.08 MONITORING OF DISCHARGES.

(a) Applicability: This section applies to all facilities that have storm water discharges associated with industrial activity, including construction activity.

(b) Access to Facilities:

- (1) The City shall be permitted to enter and inspect facilities subject to regulation under this chapter as often as may be necessary to determine compliance with this chapter. If a discharger has security measures in force which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to representatives of the City.
- (2) Facility operators shall allow the City ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records that must be kept under the conditions of an NPDES permit to discharge storm water, and the performance of any additional duties as defined by state and federal law.
- (3) The City shall have the right to set up on any permitted facility such devices as are necessary in the opinion of the City to conduct monitoring and/or sampling of the facility's storm water discharge.
- (4) The City has the right to require the discharger to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure storm water flow and quality shall be calibrated to ensure their accuracy.
- (5) Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the operator at the written or oral request of the City and shall not be replaced. The costs of clearing such access shall be borne by the operator.
- (6) Unreasonable delays in allowing the City access to a permitted facility is a violation of a storm water discharge permit and of this ordinance. A person who is the operator of a facility with a NPDES permit to discharge storm water associated with industrial activity commits an offense if the person denies the City reasonable access to the permitted facility for the purpose of conducting any activity authorized or required by this chapter.
- (7) If the City has been refused access to any part of the premises from which storm water is discharged, and he/she is able to demonstrate probable cause to believe that there may be a violation of this chapter, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this chapter or any order issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the authorized enforcement agency may seek issuance of a search warrant from any court of competent jurisdiction.

(Ord. 19-2007. Passed 5-8-07.)

1194.09 REQUIREMENT TO PREVENT, CONTROL AND REDUCE STORM WATER POLLUTANTS BY THE USE OF BEST MANAGEMENT PRACTICES.

The City will adopt requirements identifying Best Management Practices for any activity, operation, or facility which may cause or contribute to pollution or contamination of storm water, the storm drain system, or waters of the U.S. The owner or operator of a commercial or industrial establishment shall provide, at their own expense, reasonable protection from accidental discharge of prohibited materials or other wastes into the municipal storm drain system or watercourses through the use of these structural and non-structural BMPs. Further, any person responsible for a property or premise, which is, or may be, the source of an illicit discharge, may be required to implement, at said person's expense, additional structural and non-structural BMPs to prevent the further discharge of pollutants to the municipal separate storm sewer system. Compliance with all terms and conditions of a valid NPDES permit authorizing the discharge of storm water associated with industrial activity, to the extent practicable, shall be deemed compliance with the provisions of this section. These BMPs shall be part of a storm water pollution prevention plan (SWPP) as necessary for compliance with requirements of the NPDES permit.

(Ord. 19-2007. Passed 5-8-07.)

1194.10 WATERCOURSE PROTECTION.

Every person owning property through which a watercourse passes, or such person's lessee, shall keep and maintain that part of the watercourse within the property free of trash, debris, excessive vegetation, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, the owner or lessee shall maintain existing privately owned structures within or adjacent to a watercourse, so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse.

(Ord. 19-2007. Passed 5-8-07.)

1194.11 NOTIFICATION OF SPILLS.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into storm water, the storm drain system, or water of the U.S. said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services. In the event of a release of non-hazardous materials, said person shall notify the City in person or by phone or facsimile no later than the next business day. Notifications in person or by phone shall be confirmed by written notice addressed and mailed to the City within three (3) business days of the phone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three (3) years.

(Ord. 19-2007. Passed 5-8-07.)

1194.12 ENFORCEMENT.

(a) Notice of Violation. Whenever the City finds that a person has violated a prohibition or failed to meet a requirement of this chapter, the City may order compliance by written notice of violation to the responsible person. Such notice may require without limitation:

- (1) The performance of monitoring, analyses, and reporting;
- (2) The elimination of illicit connections or discharges;
- (3) That violating discharges, practices, or operations shall cease and desist;
- (4) The abatement or remediation of storm water pollution or contamination hazards and the restoration of any affected property; and
- (5) Payment of a fine to cover administrative and remediation costs; and
- (6) The implementation of source control or treatment BMPs.

(b) If abatement of a violation and/or restoration of affected property is required, the notice shall set forth a deadline within which such remediation or restoration must be completed. Said notice shall further advise that, should the violator fail to remediate or restore within the established deadline, the work will be done by a designated governmental agency or a contractor and the expense thereof shall be charged to the violator.

(Ord. 19-2007. Passed 5-8-07.)

1194.13 APPEAL OF NOTICE OF VIOLATION.

Any person receiving a Notice of Violation may appeal the determination of the City to the Zoning Board of Appeals. The notice of appeal must be received by the Zoning Board of Appeals within fifteen (15) days from the date the Notice of Violation is served upon the responsible party by certified mail, hand-delivery, or other method of service specified by law for a civil court summons in Ohio. The Zoning Board of Appeals shall hold a hearing on the appeal as provided in Chapter 1185. The decision of the Zoning Board of Appeals shall be final.

(Ord. 19-2007. Passed 5-8-07.)

1194.14 ENFORCEMENT MEASURES AFTER APPEAL.

If the violation has not been corrected pursuant to the requirements set forth in the Notice of Violation, or, in the event of an appeal, within thirty (30) days of the decision of the Zoning Board of Appeals upholding the decision of the City, the representatives of the City may enter upon the subject private property and are authorized to take any and all measures necessary to abate the violation and/or restore the property. It shall be unlawful for any person, owner, agent or person in possession of any premises to refuse to allow the City or designated representative to enter upon the premises for the purposes set forth above.

(Ord. 19-2007. Passed 5-8-07.)

1194.15 COST OF ABATEMENT OF THE VIOLATION.

After abatement of the violation, the owner of the property will be notified of the cost of abatement, including administrative and legal costs, by certified mail or other method of service specified by law for service of a civil summons in Ohio. The property owner may file a written protest objecting to the amount of the assessment within ten (10) days of the service of the notice of costs on the responsible party. If the amount due is not paid within thirty (30) days, the charges may be certified by the City to the County Auditor to become a special assessment against the property and shall constitute a lien on the property for the amount of the assessment.

(Ord. 19-2007. Passed 5-8-07.)

1194.16 INJUNCTIVE RELIEF.

It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this chapter. If a person has violated or continues to violate the provisions of this chapter, the City may petition for a preliminary or permanent injunction restraining the person from activities which would create further violations or compelling the person to perform abatement or remediation of the violation.

(Ord. 19-2007. Passed 5-8-07.)

1194.17 COMPENSATORY ACTION.

In lieu of enforcement proceedings, penalties, and remedies authorized by this chapter, the City may impose upon a violator alternative compensatory actions, such as storm drain stenciling, attendance at compliance workshops, creek cleanup, etc.

(Ord. 19-2007. Passed 5-8-07.)

1194.18 VIOLATIONS DEEMED A PUBLIC NUISANCE.

In addition to the enforcement processes and penalties provided, any condition caused or permitted to exist in violation of any of the provisions of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance, and may be summarily abated or restored at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such nuisance may be taken.

(Ord. 19-2007. Passed 5-8-07.)

1194.19 RECOVERY OF COSTS AND EXPENSES OF ENFORCEMENT.

The City may recover all attorney's fees, court costs and other expenses associated with enforcement of this chapter, including sampling and monitoring expenses.

(Ord. 19-2007. Passed 5-8-07.)

1194.20 REMEDIES NOT EXCLUSIVE.

The remedies listed in this chapter are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the City to seek cumulative remedies.

(Ord. 19-2007. Passed 5-8-07.)

1194.99 PENALTY.

Whoever violates or fails to comply with any provision of this chapter is guilty of a misdemeanor of the first degree and shall be fined no more than one thousand dollars (\$1,000.00) or imprisoned for no more than one hundred eighty (180) days, or both, for each offense. A separate offense shall be deemed committed each day during or on which a violation occurs or continues.

(Ord. 19-2007. Passed 5-8-07.)

CHAPTER 1195

Erosion and Sediment Control

1195.01 Purpose and scope.

1195.02 Definitions.

1195.03 Disclaimer of liability.

1195.04 Conflicts, severability, nuisances and responsibility.

1195.05 Development of stormwater Pollution Prevention Plans.

1195.06 Application procedures.

1195.07 Compliance with state and federal regulations.

1195.08 Stormwater Pollution Prevention Plan (SWP3).

1195.09 Performance standards.

1195.10 Abbreviated Stormwater Pollution Prevention Plan. (SWP3)

1195.11 Fees.

1195.12 Bond.

1195.13 Enforcement.

1195.14 Violations.

1195.15 Appeals.

1195.99 Penalty.

1195.01 PURPOSE AND SCOPE.

(a) The purpose of this regulation is to establish technically feasible and economically reasonable standards to achieve a level of erosion and sediment control that will minimize damage to property and degradation of water resources, and will promote and maintain the health and safety of the citizens of City of Richmond Heights:

(b) This regulation will:

- (1) Allow development while minimizing increases in erosion and sedimentation.
- (2) Reduce water quality impacts to receiving water resources that may be caused by new development or redevelopment activities.

(c) This regulation applies to all parcels used or being developed, either wholly or partially, for new or relocated projects involving highways, underground cables, or pipelines; subdivisions or larger common plans of development; industrial, commercial, institutional, or residential projects; building activities on farms; redevelopment activities; general clearing; and all other uses that are not specifically exempted in Section 1195.01 (d).

(d) This regulation does not apply to activities regulated by, and in compliance with, the Ohio Agricultural Sediment Pollution Abatement Rules.

(Ord. 121-2016. Passed 1-17-17.)

1195.02 DEFINITIONS.

For purpose of this regulation, the following terms shall have the meaning herein indicated:

(a) **ABBREVIATED STORMWATER POLLUTION PREVENTION PLAN (ABBREVIATED SWP3):** The written document that sets forth the plans and practices to be used to meet the requirements of this regulation.

(b) **ACRE:** A measurement of area equaling 43,560 square feet.

(c) **ADMINISTRATOR:** The person or entity having the responsibility and duty of administering and ensuring compliance with this regulation.

(d) **BEST MANAGEMENT PRACTICES (BMPs):** Also **STORMWATER CONTROL MEASURE (SCM).** Schedule of activities, prohibitions of practices, maintenance procedures, and other management practices

- (both structural and non-structural) to prevent or reduce the pollution of water resources. BMPs also include treatment requirements, operating procedures, and practices to control facility and/or construction site runoff, spillage or leaks, sludge or waste disposal; or drainage from raw material storage.
- (e) COMMENCEMENT OF CONSTRUCTION: The initial disturbance of soils associated with clearing, grubbing, grading, placement of fill, or excavating activities or other construction activities.
- (f) COMMUNITY: Throughout this regulation, this shall refer to the City of Richmond Heights, its designated representatives, boards, or commissions.
- (g) CONCENTRATED STORMWATER RUNOFF: Any stormwater runoff that flows through a drainage pipe, ditch, diversion, or other discrete conveyance channel.
- (h) CONSTRUCTION ENTRANCE: The permitted points of ingress and egress to development areas regulated under this regulation.
- (i) DEVELOPMENT AREA: A parcel or contiguous parcels owned by one person or persons, or operated as one development unit, and used or being developed for commercial, industrial, residential, institutional, or other construction or alteration that changes runoff characteristics.
- (j) DEWATERING VOLUME: See current Ohio Rainwater and Land Development Manual.
- (k) DISCHARGE: The addition of any pollutant to surface waters of the state from a point source.
- (l) DISTURBANCE: Any clearing, grading, excavating, filling, or other alteration of land surface where natural or man-made cover is destroyed in a manner that exposes the underlying soils.
- (m) DISTURBED AREA: An area of land subject to erosion due to the removal of vegetative cover and/or soil disturbing activities such as grading, excavating, or filling.
- (n) DRAINAGE: (1) The area of land contributing surface water to a specific point. (2) The removal of excess surface water or groundwater from land by surface of subsurface drains.
- (o) DRAINAGE WATERSHED: For the purpose of this regulation the total contributing drainage area to a BMP, i.e., the "watershed" directed to the practice. This includes offsite contributing drainage.
- (p) DRAINAGE WAY: A natural or manmade channel, ditch, or waterway that conveys surface water in a concentrated manner by gravity.
- (q) EROSION: The process by which the land surface is worn away by the action of wind, water, ice, gravity, or any combination of those forces.
- (r) EROSION AND SEDIMENT CONTROL: The control of soil, both mineral and organic, to minimize the removal of soil from the land surface and to prevent its transport from a disturbed area by means of wind, water, ice, gravity, or any combination of those forces.
- (s) FINAL STABILIZATION: All soil disturbing activities at the site have been completed and a uniform perennial vegetative cover with a density of at least 80% coverage for the area has been established or equivalent stabilization measures, such as the use of mulches or geotextiles, have been employed. In addition, all temporary erosion and sediment control practices are removed and disposed of and all trapped sediment is permanently stabilized to prevent further erosion. Final stabilization also requires the installation of permanent (post-construction) stormwater control measures (SCMs).
- (t) GRADING: The excavating, filling, or stockpiling of earth material, or any combination thereof, including the land in its excavated or filled condition.
- (u) GRUBBING: removing or grinding of roots, stumps and other unwanted material below existing grade.
- (v) IMPERVIOUS: That which does not allow infiltration.
- (w) LANDSCAPE ARCHITECT: A Professional Landscape Architect registered in the State of Ohio.
- (x) LARGER COMMON PLAN OF DEVELOPMENT OR SALE: A contiguous area where multiple separate and distinct construction activities may be taking place at different times on different schedules under one plan.
- (y) MAXIMUM EXTENT PRACTICABLE (MEP): The technology-based discharge standard for Municipal Separate Storm Sewer Systems to reduce pollutants in stormwater discharges that was established by the Clean Water Act §402(p). A discussion of MEP as it applies to small MS4s is found in 40 CFR 122.34.
- (z) MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4): A conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains) that are:
- (1) Owned or operated by the federal government, state, municipality, township, county, district, or other public body (created by or pursuant to state or federal law) including a special district under state law such as a sewer district, flood control district or drainage districts, or similar entity, or a designated and approved management agency under Section 208 of the Federal Water Pollution Control Act that discharges into surface waters of the state; and
 - (2) Designed or used for collecting or conveying solely stormwater,
 - (3) Which is not a combined sewer, and
 - (4) Which is not a part of a publicly owned treatment works.
- (aa) NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES): The national program for issuing, modifying, revoking and reissuing, termination, monitoring and enforcing permits and enforcing pretreatment requirements, under sections 307, 402, 318, 405 under the Clean Water Act.
- (bb) OPERATOR: Any party associated with a construction project that meets either of the following two criteria:
- (1) The party has operational control over construction plans and specifications, including the ability to make modifications to those plans and specifications; or
 - (2) The party has day-to-day operational control of those activities at a project which are necessary to ensure compliance with A Stormwater Pollution Prevention Plan (SWP3) for the site or other permit conditions (e.g. they are authorized to direct workers at a site to carry out activities required by the SWP3 or comply with other permit conditions).
- (cc) OWNER OR OPERATOR: The owner or operator of any "facility or activity" subject to regulation under the NPDES program.
- (dd) SUBDIVISIONS, MAJOR AND MINOR: See Ohio Administrative Code 711.001 for definition.
- (ee) PARCEL: Means a tract of land occupied or intended to be occupied by a use, building or group of buildings and their accessory uses and buildings as a unit, together with such open spaces and driveways as are provided and required. A parcel may contain more than one contiguous lot individually identified by a 'Permanent Parcel Number' assigned by the Cuyahoga County Auditor's Office.
- (ff) PERCENT IMPERVIOUSNESS: The impervious area created divided by the total area of the project site.
- (gg) PERMANENT STABILIZATION: Establishment of permanent vegetation, decorative landscape mulching, matting, sod, rip rap, and landscaping techniques to provide permanent erosion control on areas where construction operations are complete or where no further disturbance is expected for at least one year.
- (hh) PERSON: Any individual, corporation, firm, trust, commission, board, public or private partnership, joint venture, agency, unincorporated association, municipal corporation, county or state agency, the federal government, other legal entity, or an agent thereof.
- (ii) PHASING: Clearing a parcel of land in distinct sections, with the stabilization of each section before the clearing of the next.
- (jj) POINT SOURCE: Any discernible, confined and discrete conveyance, including but not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, landfill leachate collection system, vessel or the floating craft from which pollutants are or may be discharged. This term does not include return flows from irrigated agriculture or agricultural stormwater runoff.
- (kk) PRE-CONSTRUCTION MEETING: A meeting between the City of Richmond Heights and all principle parties, prior to the start of any construction, at a site that requires a Stormwater Pollution Prevention Plan.
- (ll) PRE-WINTER STABILIZATION MEETING: A meeting between the City of Richmond Heights and all principal parties, prior to October 1, in order to plan winter erosion and sediment controls for a site that requires a Stormwater Pollution Prevention Plan.
- (mm) PROFESSIONAL ENGINEER: A Professional Engineer registered in the State of Ohio.
- (nn) QUALIFIED INSPECTION PERSONNEL: A person knowledgeable in the principles and practice of erosion and sediment controls, who possess the skills to assess all conditions at the construction site that could impact stormwater quality and to assess the effectiveness of any sediment and erosion control measure selected to control the quality of stormwater discharges from the construction activity. The designated inspection personnel shall be subject to approval of the City of Richmond Heights.
- (oo) RAINWATER AND LAND DEVELOPMENT: Ohio's standards for stormwater management, land development, and stream protection. The most current edition of these standards shall be used with this regulation.
- (pp) RIPARIAN AREA: The transition area between flowing water and terrestrial (land) ecosystems composed of trees, shrubs and surrounding vegetation which serve to stabilize erodible soil, improve both surface and ground water quality, increase stream shading and enhance wildlife habitat.
- (qq) RUNOFF: The portion of rainfall, melted snow, or irrigation water that flows across the ground surface and is eventually conveyed to water resources or wetlands.
- (rr) RUNOFF COEFFICIENT: The fraction of rainfall that will appear at the conveyance as runoff.
- (ss) SEDIMENT: The soils or other surface materials that are transported or deposited by the action of wind, water, ice, gravity, or any combination of those forces, as a product of erosion.
- (tt) SEDIMENTATION: The deposition or settling of sediment.
- (uu) SEDIMENT SETTLING POND: A sediment trap, sediment basin or permanent basin that has been temporarily modified for sediment control, as described in the latest edition of Rainwater and Land Development.
- (vv) SEDIMENT STORAGE VOLUME: See current edition of Rainwater and Land Development.
- (ww) SETBACK: A designated transition area around water resources that is left in a natural, usually vegetated, state to protect the water resources from runoff pollution. Soil disturbing activities in this area are restricted by this regulation.
- (xx) SOIL DISTURBING ACTIVITY: Clearing, grading, excavating, filling, grubbing or stump removal that occurs during clearing or timber activities, or other alteration of the earth's surface where natural or human made ground cover is destroyed and that may result in, or contribute to, erosion and sediment pollution.
- (yy) SOIL & WATER CONSERVATION DISTRICT: An entity organized under Chapter 1515 of the Ohio Revised Code referring to either the Soil and Water Conservation District Board or its designated employee(s). Hereafter referred to as Cuyahoga SWCD.
- (zz) STABILIZATION: The use of BMPs, such as seeding and mulching, that reduce or prevent soil erosion by water, wind, ice, gravity, or a combination of those forces.
- (aaa) STEEP SLOPES: Slopes that are 15 percent or greater in grade.
- (bbb) STORMWATER POLLUTION PREVENTION PLAN (SWP3): The written document that sets forth the plans and practices to be used to meet the requirements of this regulation.
- (ccc) STORMWATER: Stormwater runoff, snow melt and surface runoff and drainage.
- (ddd) SURFACE OUTLET: A dewatering device that only draws water from the surface of the water.
- (eee) SURFACE WATER OF THE STATE: Also Water Resource or Water Body. Any stream, lake, reservoir, pond, marsh, wetland, or other waterway situated wholly or partly within the boundaries of the state, except those private waters which do not combine or affect a junction with surface water. Waters defined as sewerage systems, treatment works or disposal systems in Section 6111.01 of the Ohio Revised Code are not included.
- (fff) TEMPORARY STABILIZATION: The establishment of temporary vegetation, mulching, geotextiles, sod, preservation of existing vegetation, and other techniques capable of quickly establishing cover over disturbed areas to provide erosion control between construction operations.
- (ggg) TOPSOIL: The upper layer of the soil that is usually darker in color and richer in organic matter and nutrients than subsoil.
- (hhh) TOTAL MAXIMUM DAILY LOAD: The sum of the existing and/or projected point source, nonpoint source, and background loads for a pollutant to a specified watershed, water resource or wetland, or water resource or wetland segment. A TMDL sets and allocates the maximum amount of a pollutant that may be introduced into the water and still ensure attainment and maintenance of water quality standard.
- (iii) UNSTABLE SOILS: A portion of land that is identified by the City Engineer as prone to slipping, sloughing, or landslides, or is identified by the U.S. Department of Agriculture Natural Resource Conservation Service methodology as having a low soil strength.
- (jii) WATER QUALITY VOLUME (WQv): The volume of stormwater runoff which must be captured and treated prior to discharge from the developed site after construction is complete. WQv is based on the expected runoff generated by the mean storm precipitation volume from post-construction site conditions at which rapidly diminishing returns in the number of runoff events captured begins to occur.
- (kkk) WATER RESOURCE Also SURFACE WATER OF THE STATE: Any stream, lake, reservoir, pond, marsh, wetland, or waterway situated wholly or partly within the boundaries of the state, except those private waters which do not combine or affect a junction with surface water. Waters defined as sewerage systems, treatment works or disposal systems in Section 6111.01 of the Ohio Revised Code are not included.
- (lll) WATERSHED: The total drainage area contributing runoff to a single point.
- (mmm) WETLAND: Those areas, that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions, including swamps, marshes, bogs, and similar areas (40 CFR 232, as amended).
- (Ord. 121-2016, Passed 1-17-17.)

1195.03 DISCLAIMER OF LIABILITY.

Compliance with the provisions of this regulation shall not relieve any person from responsibility for damage to any person otherwise imposed by law. The provisions of this regulation are promulgated to promote the health, safety, and welfare of the public and are not designed for the benefit of any individual or for the benefit of any particular parcel of property.

(Ord. 121-2016, Passed 1-17-17.)

1195.04 CONFLICTS, SEVERABILITY, NUISANCES AND RESPONSIBILITY.

- (a) Where this regulation is in conflict with other provisions of law or ordinance, the most restrictive provisions shall prevail.

- (b) If any clause, section, or provision of this regulation is declared invalid or unconstitutional by a court of competent jurisdiction, the validity of the remainder shall not be affected thereby.
 - (c) This regulation shall not be construed as authorizing any person to maintain a private or public nuisance on their property, and compliance with the provisions of this regulation shall not be a defense in any action to abate such a nuisance.
 - (d) Failure of the City of Richmond Heights to observe or recognize hazardous or unsightly conditions or to recommend corrective measures shall not relieve the site owner from the responsibility for the condition or damage resulting therefrom, and shall not result in the City of Richmond Heights, its officers, employees, or agents being responsible for any condition or damage resulting therefrom.
- (Ord. 121-2016. Passed 1-17-17.)

1195.05 DEVELOPMENT OF STORMWATER POLLUTION PREVENTION PLANS.

(a) This regulation requires that a Stormwater Pollution Prevention Plan be developed and implemented for all soil disturbing activities disturbing one (1) or more acres of total land, or less than one (1) acre if part of a larger common plan of development or sale disturbing one (1) or more acres of total land. A Stormwater Pollution Prevention Plan must be developed and implemented for all commercial and industrial site development. The City Engineer may require a comprehensive stormwater management plan on sites disturbing less than 1 acre.

- (b) The following activities shall submit an Abbreviated SWP3:
 - (1) New single-family residential construction. If such activities disturb one (1) acre or more, or are part of a larger common plan of development or sale disturbing one (1) acre or more, a full SWP3 and compliance with the Ohio EPA Construction General Permit are required.
 - (2) Additions or accessory buildings for single-family residential construction. If such activities disturb one (1) acre or more, or are part of a larger common plan of development or sale disturbing one (1) acre or more, a full SWP3 and compliance with the Ohio EPA Construction Site General Permit are required.
 - (3) General clearing activities not related to construction. If such activities disturb one (1) acre or more, or are part of a larger common plan of development or sale disturbing one (1) acre or more, compliance with the Ohio EPA Construction Site General Permit and a full SWP3 are required.
 - (c) Activities disturbing 1/10th (one tenth) or less of an acre are not required to submit a SWP3 or an Abbreviated SWP3, unless required by the City Engineer. These activities must comply with all other provisions of this regulation.
- (Ord. 121-2016. Passed 1-17-17.)

1195.06 APPLICATION PROCEDURES.

- (a) SOIL DISTURBING ACTIVITIES SUBMITTING A STORMWATER POLLUTION PREVENTION PLAN (SWP3): The applicant shall submit two (2) sets of the SWP3 and the applicable fees to the City, and two (2) sets of the SWP3 and the applicable fees to the Cuyahoga SWCD when so directed by the City, as follows:
 - (1) For subdivisions: After the approval of the preliminary plans and with submittal of the improvement plans.
 - (2) For other construction projects: Before issuance of a building permit by the Building Commissioner.
 - (3) For general clearing projects: Prior to issuance of a building permit by the Building Commissioner.
 - (b) SOIL DISTURBING ACTIVITIES SUBMITTING AN ABBREVIATED STORMWATER POLLUTION PREVENTION PLAN (SWP3): The applicant shall submit two (2) sets of the Abbreviated SWP3 and the applicable fees to the City as follows:
 - (1) For single-family home construction: Before issuance of a building permit by the Building Commissioner.
 - (2) For other construction projects: Before issuance of a building permit by the Building Commissioner.
 - (3) For general clearing projects: Prior to issuance of a building permit by the Building Commissioner.
 - (c) The City Engineer and the Cuyahoga SWCD, when so directed by the City, shall review the plans submitted under 1195.06 (a) or (b) for conformance with this regulation and approve, or return for revisions with comments and recommendations for revisions. A plan rejected because of deficiencies shall receive a narrative report stating specific problems and the procedures for filing a revised plan.
 - (d) Soil disturbing activities shall not begin and building permits shall not be issued without
 - (1) Approved SWP3 or Abbreviated SWP3
 - (2) Installation of erosion and sediment controls
 - (3) Physical marking in the field of protected areas or critical areas, including wetlands and riparian areas
 - (e) SWP3 for individual sublots in a subdivision will not be approved unless the larger common plan of development or sale containing the sublot is in compliance with this regulation.
 - (f) The developer, engineer and contractor, and other principal parties, shall meet with the City Engineer for a Pre-Construction Meeting no less than seven (7) days prior to soil-disturbing activity at the site to ensure that erosion and sediment control devices are properly installed, limits of disturbance and buffer areas are properly delineated and construction personnel are aware of such devices and areas. Pre-Construction Meetings for Abbreviated SWP3s may be waived at the discretion of the City Engineer.
 - (g) Approvals issued in accordance with this regulation shall remain valid for one (1) year from the date of approval.
- (Ord. 121-2016. Passed 1-17-17.)

1195.07 COMPLIANCE WITH STATE AND FEDERAL REGULATIONS.

Approvals issued in accordance with this regulation do not relieve the applicant of responsibility for obtaining all other necessary permits and/or approvals from the Ohio EPA, the US Army Corps of Engineers, and other federal, state, and/or county agencies. If requirements vary, the most restrictive requirement shall prevail. These permits may include, but are not limited to, those listed below. All submittals required to show proof of compliance with these state and federal regulations shall be submitted with SWP3s or Abbreviated SWP3s.

- (a) Ohio EPA NPDES Permits authorizing stormwater discharges associated with construction activity or the most current version thereof: Proof of compliance with these requirements shall be the applicant's Notice of Intent (NOI) number from Ohio EPA, a copy of the Ohio EPA Director's Authorization Letter for the NPDES Permit, or a letter from the site owner certifying and explaining why the NPDES Permit is not applicable.
 - (b) Section 401 of the Clean Water Act: Proof of compliance shall be a copy of the Ohio EPA Water Quality Certification application tracking number, public notice, project approval, or a letter from the site owner certifying that a qualified professional has surveyed the site and determined that Section 401 of the Clean Water Act is not applicable. Wetlands, and other waters of the United States, shall be delineated by protocols accepted by the U.S. Army Corps of Engineers at the time an application is made under this regulation.
 - (c) Ohio EPA Isolated Wetland Permit: Proof of compliance shall be a copy of Ohio EPA's Isolated Wetland Permit application tracking number, public notice, project approval, or a letter from the site owner certifying that a qualified professional has surveyed the site and determined that Ohio EPA's Isolated Wetlands Permit is not applicable. Isolated wetlands shall be delineated by protocols accepted by the U.S. Army Corps of Engineers at the time an application is made under this regulation.
 - (d) Section 404 of the Clean Water Act: Proof of compliance shall be a copy of the U.S. Army Corps of Engineers Individual Permit application, public notice, or project approval, if an Individual Permit is required for the development project. If an Individual Permit is not required, the site owner shall submit proof of compliance with the U.S. Army Corps of Engineer's Nationwide Permit Program. This shall include one of the following:
 - (1) A letter from the site owner certifying that a qualified professional has evaluated the site and determined that Section 404 of the Clean Water Act is not applicable, and provide documentation.
 - (2) A site plan showing that any proposed fill of waters of the United States conforms to the general and special conditions specified in the applicable Nationwide Permit. Wetlands, and other waters of the United States, shall be delineated by protocols accepted by the U.S. Army Corps of Engineers at the time an application is made under this regulation.
 - (e) Ohio Dam Safety Law: Proof of compliance shall be a copy of the ODNr Division of Water permit application tracking number, a copy of the project approval letter from the ODNr Division of Water, or a letter from the site owner certifying and explaining why the Ohio Dam Safety Law is not applicable.
- (Ord. 121-2016. Passed 1-17-17.)

1195.08 STORMWATER POLLUTION PREVENTION PLAN (SWP3).

- (a) In order to control sediment pollution of water resources, the applicant shall submit a SWP3 in accordance with the requirements of this regulation.
- (b) The SWP3 shall include Best Management Practices (BMPs) and Stormwater Control Measures (SCMs) adequate to prevent pollution of public waters by soil sediment from accelerated stormwater runoff from development areas.
- (c) The SWP3 shall be certified by a professional engineer, a registered surveyor, certified professional erosion and sediment control specialist, or a registered landscape architect.
- (d) The SWP3 shall be amended whenever there is a change in design, construction, operation or maintenance, which has a significant effect on the potential for the discharge of pollutants to surface waters of the state or if the SWP3 proves to be ineffective in achieving the general objectives of controlling pollutants in stormwater discharges associated with construction activity.
- (e) The SWP3 shall incorporate measures as recommended by the most current online edition of Rainwater and Land Development as published by the Ohio Environmental Protection Agency and shall include the following information:
 - (1) A cover page or title identifying the name and location of the site, the name and contact information of all construction site operators, the name and contact information for the person responsible for authorizing and amending the SWP3, preparation date, and the estimated start and completion dates for construction.
 - (2) A copy of the permit requirements (attaching a copy of the current Ohio EPA NPDES Construction General Permit is acceptable).
 - (3) Site description: The SWP3 shall provide:
 - a. A description of the nature and type of the construction activity (e.g. residential, shopping mall, highway, etc.).
 - b. Total area of the site and the area of the site that is expected to be disturbed (i.e., grubbing, clearing, excavation, filling or grading, including off-site borrow areas).
 - c. An estimate of the impervious area and percent of imperviousness created by the land disturbance.
 - d. A calculation of the run-off coefficients for both the pre-construction and post-construction site conditions.
 - e. Existing data describing the soil and, if available, the quality of any known pollutant discharge from the site such as that which may result from previous contamination caused by prior land uses.
 - f. A description of prior land uses at the site.
 - g. An implementation schedule which describes the sequence of major soil-disturbing operations (i.e., grubbing, excavating, grading, utilities and infrastructure installation) and the implementation of erosion and sediment controls to be employed during each operation of the sequence.
 - h. The location and name of the immediate receiving stream or surface water(s) and the first subsequent receiving water(s) and the aerial extent and description of wetlands or other special aquatic sites at or near the site which will be disturbed or which will receive discharges from disturbed areas of the project. For discharges to a municipal separate storm sewer system (MS4), the point of discharge to the MS4 and the location where the MS4 ultimately discharges to a water resource shall be indicated.
 - i. List TMDLs applicable for the site and demonstrate that appropriate BMPs or stormwater control measures (SCMs) have been selected to address these TMDLs. [A TMDL identifier table for Northeast Ohio communities is available at <http://www.neohiostormwater.com/>]
 - j. For subdivided developments, a detail drawing of a typical individual lot showing standard individual lot erosion and sediment control practices. This does not remove the responsibility to designate specific erosion and sediment control practices in the SWP3 for areas such as steep slopes, stream banks, drainage ways, and riparian zones.
 - k. Location and description of any stormwater discharges associated with dedicated asphalt and dedicated concrete plants associated with the development area and the best management practices to address pollutants in these stormwater discharges.
 - l. A log documenting grading and stabilization activities as well as amendments to the SWP3, which occur after construction activities commence.
 - m. Each temporary and permanent stormwater practice shall be designated with an individual identification number.
 - n. Site map showing:
 - (i) Limits of soil-disturbing activity of the site, including off site spoil and borrow areas.
 - (ii) Soils types should be depicted for all areas of the site, including locations of unstable or highly erodible soils.
 - (iii) Existing and proposed one-foot (1') contours. This must include a delineation of drainage watersheds expected during and after major grading activities as well as the size of each drainage watershed in acres.
 - (iv) Surface water locations including springs, wetlands, streams, lakes, water wells, etc., on or within 200 feet of the site, including the boundaries of wetlands or stream channels and first subsequent named receiving water(s) the applicant intends to fill or relocate for which the applicant is seeking approval from the Army Corps of Engineers and/or Ohio EPA.
 - (v) Existing and planned locations of buildings, roads, parking facilities, and utilities.
 - (vi) The location of all erosion and sediment control practices, including the location of areas likely to require temporary stabilization during the course of site development.
 - (vii) Sediment and stormwater management basins including their sediment settling volume and the maximum expected disturbed area that will be directed to the sediment pond during construction. The plan should include a summary of the following:
 - A. The required sediment storage and dewatering volumes

- B. The provided sediment storage and dewatering volumes
- C. The weir length or skimmer size, as applicable
- D. The weir length or skimmer size provided
- (viii) Data sheets for all sediment traps, sediment basins, and SCMs that identify contributing drainage area, disturbed area, water quality volume, sedimentation volume, dewatering volume, practice surface area, facility discharge and dewatering time, outlet type and dimensions, and any other relevant parameters for each practice.
- (ix) A separate plan and profile view of each individual sediment settling pond and its outlet structure. Detail drawings of the outlet structure shall indicate the following elevations:
 - A. Pond bottom
 - B. Elevation required to store the required sediment storage volume
 - C. For sediment basins, the elevation at which the skimmer is attached
 - D. For sediment traps, the top and bottom of the stone outlet section
 - E. Elevation required to store the dewatering volume, exclusive of the sediment storage volume
 - F. Elevation of the top of embankment
 - G. Crest of the emergency spillway
- (x) Where used as a sediment-settling pond during construction, the plan shall include a detail drawing of the temporary outlet configuration of the permanent stormwater basin with the following information specified:
 - A. Storage volume provided below the elevation at which the skimmer or other surface dewatering device is attached
 - B. Elevation at which the skimmer or other surface dewatering device is attached
 - C. Elevation at which the full dewatering zone is stored above the skimmer invert
 - D. Any temporary modification to permanent outlet orifices or weirs required to ensure no discharge below the skimmer invert and only the skimmer controls the discharge up to the top of the dewatering volume.
 - E. Calculations of the sediment storage volume, dewatering volume and skimmer drawdown time shall also be provided
- (xi) The location of permanent SCMs to be used to control pollutants in stormwater after construction operations have been completed.
- (xii) Areas designated for the storage or disposal of solid, sanitary and toxic wastes, including dumpster areas, areas designated for cement truck washout, and vehicle fueling.
- (xiii) Methods to minimize the exposure of building materials, building products, construction wastes, trash, landscape materials, fertilizers, pesticides, herbicides, detergents, and sanitary waste to precipitation, stormwater runoff, and snow melt.
- (xiv) Measures to prevent and respond to chemical spills and leaks. Applicants may also reference the existence of other plans (i.e., Spill Prevention Control and Countermeasure (SPCC) plans, spill control programs, Safety Response Plans, etc.) provided that such plan addresses this requirement and a copy of such plan is maintained on site.
- (xv) Methods to minimize the discharge of pollutants from equipment and vehicle washing, wheel wash water, and other wash waters. No detergents may be used to wash vehicles. Wash waters shall be treated in a sediment basin or alternative control that provides equivalent treatment prior to discharge.
- (xvi) The location of designated stoned construction entrances where the vehicles will ingress and egress the construction site.
- (xvii) The location of any in-stream activities including stream crossings.
- (4) A soils engineering report. The City Engineer may require the SWP3 to include a Soils Engineering Report based upon his/her determination that the conditions of the soils are unknown or unclear to the extent that additional information is required to protect against erosion or other hazards. This report shall be based on adequate and necessary test borings, and shall contain all the information listed below. Recommendations included in the report and approved by the City Engineer shall be incorporated in the grading plans and/or other specifications for site development.
 - a. Data regarding the nature, distribution, strength, and erodibility of existing soils.
 - b. If applicable, data regarding the nature, distribution, strength, and erodibility of the soil to be placed on the site.
 - c. Conclusions and recommendations for grading procedures.
 - d. Conclusions and recommended designs for interim soil stabilization devices and measures, and for permanent soil stabilization after construction is completed.
 - e. Design criteria for corrective measures when necessary.
 - f. Opinions and recommendations covering the stability of the site.

1195.09 PERFORMANCE STANDARDS.

The SWP3 must contain a description of the controls appropriate for each construction operation and the applicant must implement such controls. The SWP3 must clearly describe for each major construction activity the appropriate control measures; the general sequence during the construction process under which the measures will be implemented; and the contractor responsible for implementation (e.g., contractor A will clear land and install perimeter controls and contractor B will maintain perimeter controls until final stabilization).

The approved SWP3, and the sediment and erosion controls, and non-sediment pollution controls contained therein, shall be implemented upon the commencement of construction. Perimeter controls must be installed two working days prior to commencement of construction. The approved plan must be implemented until the site reaches final stabilization. All properties adjacent to the site of soil-disturbing activity shall be protected from soil erosion and sediment run-off and damage, including, but not limited to, private properties, natural and artificial waterways, wetlands, storm sewers and public lands.

It is the owner's responsibility to maintain current records of contractor(s) responsible for implementation of the SWP3 and providing that information to the City Engineer. The SWP3 shall identify all subcontractors engaged in activities that could impact stormwater runoff. The SWP3 shall contain signatures from all of the identified subcontractors indicating that they have been informed and understand their roles and responsibilities in complying with the SWP3. The applicant shall review the SWP3 with the primary contractor prior to commencement of construction activities and keep a SWP3 training log to demonstrate that this review had occurred.

Erosion and sediment controls shall be designed, installed and maintained effectively to minimize the discharge of pollutants during the course of earth disturbing activities. The controls shall include the following minimum components:

- (a) **NON-STRUCTURAL PRESERVATION MEASURES:** The SWP3 must make use of practices that preserve the existing natural condition to the maximum extent practicable. Such practices may include preserving riparian areas, preserving existing vegetation and vegetative buffer strips, phasing of construction operations in order to minimize the amount of disturbed land at any one time, minimizing disturbance of steep slopes, and designation of tree preservation areas or other protective clearing or grubbing practices. Soil compaction shall be minimized and, unless infeasible, topsoil shall be preserved. Provide and maintain a 50-foot buffer of undisturbed natural vegetation around surface waters of the state, or riparian or wetland setbacks, if applicable, whichever is greater, unless maintaining this buffer is infeasible (e.g., stream crossings for roads or utilities, or for channel and floodplain rehabilitation and restoration). Direct stormwater to vegetated areas to increase sediment removal and maximize stormwater infiltration.
- (b) **EROSION CONTROL PRACTICES:** The SWP3 must make use of erosion controls that are capable of providing cover over disturbed soils. The amount of soil exposed during construction activity shall be minimized. A description of control practices designed to restabilize disturbed areas after grading or construction shall be included in the SWP3. The SWP3 must provide specifications for stabilization of all disturbed areas of the site and provide guidance as to which method of stabilization will be employed for any time of the year. Such practices may include: temporary seeding, permanent seeding, mulching, matting, sod stabilization, vegetative buffer strips, phasing of construction operations, the use of construction entrances, and the use of alternative ground cover.

Erosion control practices must meet the following requirements:

- (1) Stabilization. Disturbed areas must be stabilized as specified in Tables 1 and 2 below.

Table 1: Permanent Stabilization

Area requiring permanent stabilization	Time frame to apply erosion controls
Any area that will lie dormant for one year or more.	Within 7 days of the most recent disturbance.
Any area within 50 feet of a stream surface water of the state and at final grade.	Within 2 days of reaching final grade.
Any other areas at final grade.	Within 7 days of reaching final grade within that area.

Table 2: Temporary Stabilization

Area requiring temporary stabilization	Time frame to apply erosion controls
Any disturbed area within 50 feet of a stream surface water of the state and not at final grade.	Within 2 days of the most recent disturbance if that area will remain idle for more than 21 14 days.
For all construction activities, any disturbed area, including soil stockpiles that will be dormant for more than 14 days but less than one year, and not within 50 feet of a surface water of the state stream.	Within 7 days of the most recent disturbance within the area. For residential subdivisions, disturbed areas must be stabilized at least 7 days prior to transfer of ownership or operational responsibility.
Disturbed areas that will be idle over winter.	Prior to November 1 or the onset of winter weather, whichever occurs first.
Note: Where vegetative stabilization techniques may cause structural instability or are otherwise unobtainable, alternative stabilization techniques must be employed. These techniques may include mulching or erosion matting.	

- (2) Permanent stabilization of conveyance channels. Applicants shall undertake special measures to stabilize channels and outfalls and prevent erosive flows. Measures may include seeding, dormant seeding, mulching, erosion control matting, sodding, riprap, natural channel design with bioengineering techniques, or rock check dams, all as defined in the most recent edition of Rainwater and Land Development or the Field Office Technical Guide available at www.nrcs.usda.gov/technical/efotg/.
- (c) **RUNOFF CONTROL PRACTICES.** The SWP3 shall incorporate measures that control the volume and velocity of stormwater runoff within the site to prevent erosion. Peak flow rates and total stormwater volume shall be controlled to minimize erosion and outlets, downstream channel and streambank erosion. Such practices may include rock check dams, pipe slope drains, diversions to direct flow away from exposed soils and protective grading practices. These practices shall divert runoff away from disturbed areas and steep slopes where practicable. Velocity dissipation devices shall be placed at discharge locations and along the length of any outfall channel to provide non-erosive flow velocity from the structure to a water course so that the natural physical and biological characteristics and functions are maintained and protected.
- (d) **SEDIMENT CONTROL PRACTICES.** The SWP3 shall include a description of, and detailed drawings for, all structural practices that shall store runoff, allowing sediments to settle and/or divert flows away from exposed soils or otherwise limit runoff from exposed areas to minimize sediment discharges from the site. Structural practices shall be used to control erosion and trap sediment from a site remaining disturbed for more than 14 days. Such practices may include, among others: sediment settling ponds, silt fences, storm drain inlet protection, and earth diversion dikes or channels which direct runoff to a sediment settling pond. The design, installation and maintenance of erosion and sediment controls shall address factors such as the amount, frequency, intensity and duration of precipitation, the nature of resulting stormwater runoff, and soil characteristics, including the range of soil particle sizes expected to be present on the site.
- (e) All sediment control practices must be capable of ponding runoff in order to be considered functional. Earth diversion dikes or channels alone are not considered a sediment control practice unless used in conjunction with a sediment settling pond.

Sediment control practices must meet the following requirements:

- (1) **Timing.** Sediment control structures shall be functional throughout the course of earth disturbing activity. Sediment basins and perimeter sediment barriers shall be implemented prior to grading and within seven (7) days from the start of grubbing. They shall continue to function until the up slope development area is restabilized. As construction progresses and the topography is altered, appropriate controls must be constructed or existing controls altered to address the changing drainage patterns.
- (2) **Sediment settling ponds.** A sediment settling pond, or equivalent best management practice upon approval from the City Engineer is required for any one of the following conditions:
 - a. Concentrated stormwater runoff.
 - b. Runoff from drainage areas which exceeds the design capacity of silt fence (see Table 3) inlet protection, or other sediment barriers;
 - c. Runoff from common drainage locations with 10 or more acres of disturbed land.Sediment settling ponds shall be provided in the form of a sediment trap or sediment basin as defined in the latest edition of Rainwater and Land Development. The maximum allowable contributing drainage area to a sediment trap shall be limited to less than 5 acres. Contributing drainage areas of 5 acres or more shall be treated with a sediment basin. An equivalent best management practice may be utilized upon approval from the City.

The sediment-settling pond shall provide both a sediment storage zone and a dewatering zone. The volume of the dewatering zone shall be at least 1,800 cubic feet of storage per acre of total contributing drainage area. The dewatering structure of sediment basins shall be designed to have a minimum 48-hour drain time, and, unless infeasible, be designed to always withdraw runoff from the surface of the pond throughout the storm cycle. As such, a skimmer discharge device consistent with Rainwater and Land Development shall be provided to dewater sediment basins. Sediment traps shall also provide both a sediment storage zone and dewatering zone, but the outlet structure shall be constructed consistent with the specifications contained in the latest edition of Rainwater and Land Development.

When post-construction detention/water quality ponds are to be used as temporary sediment trapping BMPs, a skimmer discharge device consistent with Rainwater and Land Development shall be utilized during construction phase and until the site is deemed permanently stabilized by the City.

The skimmer shall be designed per the equivalent requirements of sediment basins and the operator must ensure that the outlet structure of the pond provides an equivalent or better sediment storage zone and dewatering zone. As such, temporarily while the site is under construction, there shall be no discharge of runoff below the elevation required for the sediment storage zone and the discharge of stormwater within the dewatering zone shall only occur through the skimmer.

The volume of the sediment storage zone shall be calculated by one of the following methods:

Method 1: The volume of the sediment storage zone shall be 1000R3 per disturbed acre within the watershed of the basin.

Method 2: The volume of the sediment storage zone shall be the volume necessary to store the sediment as calculated with RUSLE or other generally accepted erosion prediction model.

When determining the total contributing drainage area, off-site areas and areas which remain undisturbed by construction activity must be included unless runoff from these areas is diverted away from the sediment settling pond and is not co-mingled with sediment-laden runoff. The depth of the dewatering zone must be less than or equal to five (5) feet. The configuration between the inlets and the outlet of the sediment-settling pond basin must provide at least four units of length for each one unit of width ? 4:1 length-to-width ratio. Sediment must be removed from the sediment-settling pond when the design capacity of the sediment storage zone has been completely filled by sediment accumulations. This limit is typically reached when sediment occupies one-half of the basin depth. When designing sediment settling ponds, the applicant must consider public safety, especially as it relates to children, as a design factor for the sediment basin and alternative sediment controls must be used where site limitations would preclude a safe design. The use of a combination of sediment and erosion control measures in order to achieve maximum pollutant removal is encouraged.
- (3) **Silt fence and diversions.** Sheet flow runoff from denuded areas shall be intercepted by silt fence or diversions to protect adjacent properties and water resources from sediment transported via sheet flow. Where intended to provide sediment control, silt fence shall be placed on a level contour and shall be capable of temporarily ponding runoff. The relationship between the maximum drainage area to silt fence for a particular slope range is shown in Table 3 below. Placing silt fence in a parallel series does not extend the size of the permissible drainage area.

Table 3: Maximum Drainage Area to Silt Fence Based on Slope

Maximum Drainage Area (acres) to 100 linear feet of silt fence	Range of slope for a drainage area (%)
0.5	<2%
0.25	> 2% but < 20%
0.125	> 20% but < 50%

- (4) Alternative perimeter controls for sheet flow discharges may be considered by the City, but their use shall not exceed the limitations indicated in Table 3 above. Detail drawings and plan notes shall specify the diameter of filter socks, compost berms and other such alternative perimeter controls if used instead of silt fence.
- (5) Stormwater diversion practices shall be used to keep runoff away from disturbed areas and steep slopes. Such devices, which include swales, dikes or berms, may receive stormwater runoff from areas up to 10 acres.
- (6) **Inlet protection.** Erosion and sediment control practices, such as boxed inlet protection, shall be installed to minimize sediment-laden water entering active storm drain systems. All inlets receiving runoff from drainage areas of one or more acres will require a sediment settling pond. Straw or hay bales and filter socks around catch basins are not acceptable forms of inlet protection.
- (7) **Off-site tracking of sediment and dust control.** Best management practices must be implemented to ensure sediment is not tracked off-site and that dust is controlled. These best management practices must include, but are not limited to, the following:
 - a. Construction entrances shall be built and shall serve as the only permitted points of ingress and egress to the development area. These entrances shall be built of a stabilized pad of aggregate stone or recycled concrete or cement sized greater than 2" in diameter, placed over a geotextile fabric, and constructed in conformance with specifications in the most recent edition of Rainwater and Land Development.
 - b. Streets and catch basins adjacent to construction entrances shall be kept free of sediment tracked off site. Streets directly adjacent to construction entrances and receiving traffic from the development area, shall be cleaned daily to remove sediment tracked off-site. If applicable, the catch basins on these streets nearest to the construction entrances shall also be cleaned weekly and protected from sediment-laden runoff, if feasible without posing a public safety hazard.

Based on site conditions, the City Engineer may require additional best management practices to control off site tracking and dust.
 - c. Fencing shall be installed around the perimeter of the development area to ensure that all vehicle traffic adheres to designated construction entrances.
 - d. Designated vehicle and wheel-washing areas. Wash water from these areas must be directed to a designated sediment trap, the sediment-settling pond, or to a sump pump for dewatering in conformance with Section 1195.09 (g) of this regulation. No surfactants or detergents may be used to wash vehicles.
 - e. Applicants shall take all necessary measures to comply with applicable regulations regarding fugitive dust emissions, including obtaining necessary permits for such emissions. The City Engineer may require dust controls including the use of water trucks to wet disturbed areas, tarping stockpiles, temporary stabilization of disturbed areas, and regulation of the speed of vehicles on the site.
- (8) **Surface Waters of the State protection.** Construction vehicles shall avoid water resources. A 50 foot undisturbed natural buffer shall be provided around surface waters of the state unless infeasible. If it is infeasible to provide and maintain an undisturbed 50-foot natural buffer, the SWP3 shall comply with the stabilization requirements in 1195.09.B.1 for areas within 50 feet of a surface water or riparian or wetland setbacks if applicable, whichever is greater; and minimize soil compaction and, unless infeasible, preserve topsoil. If a riparian or wetland setback is greater than 50 feet, no disturbance of natural vegetation shall occur within the riparian or wetland setback unless a variance to the riparian or wetland setback regulation has been granted. If the applicant is permitted to disturb areas within 50 feet of a water resource, the following conditions shall be addressed in the SWP3:
 - a. All BMPs and stream crossings shall be designed as specified in the most recent edition of the Rainwater and Land Development.
 - b. Structural practices shall be designated and implemented on site to protect water resources from the impacts of sediment runoff.
 - c. No structural sediment controls (e.g., the installation of silt fence or a sediment settling pond in-stream) shall be used in a water resources or wetlands.
 - d. Where stream crossings for roads or utilities are necessary and permitted, the project shall be designed such that the number of stream crossings and the width of the disturbance are minimized.
 - e. Temporary stream crossings shall be constructed if water resources or wetlands will be crossed by construction vehicles during construction.
 - f. Construction of bridges, culverts, or sediment control structures shall not place soil, debris, or other particulate material into or close to the water resources or wetlands in such a manner that it may slough, slip, or erode.
 - g. Concentrated stormwater runoff from BMPs to natural wetlands shall be converted to diffuse flow through the use of level spreaders or other such appropriate measure before the runoff enters the wetlands. The flow should be released such that no erosion occurs downslope. Level spreaders may need to be placed in series to ensure non-erosive velocities.
 - h. Protected areas or critical areas, including wetlands and riparian areas shall be physically marked in the field prior to earth disturbing activities.
- (9) **Modifying controls.** If periodic inspections or other information indicates a control has been used inappropriately or incorrectly, the applicant shall replace or modify the control for site conditions.
- (f) **NON-SEDIMENT POLLUTANT CONTROLS:** No solid or liquid waste, including building materials, shall be discharged in stormwater runoff. The applicant must implement site best management practices to prevent toxic materials, hazardous materials, or other debris from entering water resources, wetlands or the MS4. These practices shall include but are not limited to the following:
 - (1) **Waste Materials:** A covered dumpster shall be made available for the proper disposal of garbage, plaster, drywall, grout, gypsum, and other waste materials.
 - (2) **Concrete Truck Wash Out:** The washing of concrete material into a street, catch basin, other public facility, natural resource or water of the state is prohibited. A designated area for concrete washout shall be made available.
 - (3) **Disposal of Other Wastewaters:** The discharge of washout and cleanup of stucco, paint, form release oils, curing compounds, and other construction materials to a street, catch basin, other public facility, natural resource or waters of the state is prohibited. The discharge of soaps or solvents used in vehicle and equipment washing is also prohibited. If generated, these wastewaters must be collected and disposed of properly.
 - (4) **Fuel/Liquid Tank Storage:** All fuel/liquid tanks and drums shall be stored in a marked storage area. A dike shall be constructed around this storage area with a minimum capacity equal to 110% of the volume of all the largest containers in the storage area and/or a spill kit shall be provided to clean up spills. The SWP3 shall contain spill prevention and response procedures and these procedures shall be discussed at the pre-construction meeting.
 - (5) **Toxic or Hazardous Waste Disposal:** Any toxic or hazardous waste shall be disposed of properly. The discharge of fuels, oils, and other pollutants used in vehicle and equipment operation and maintenance is prohibited.
 - (6) **Contaminated Soils Disposal and Runoff:** Discovery of previously unknown contaminated soils onsite shall be self-reported to Ohio EPA and local authorities. Contaminated soils from redevelopment sites shall be disposed of properly. Runoff from contaminated soils shall not be discharged from the site. Proper permits shall be obtained for development projects on solid waste landfill sites or redevelopment sites. Where construction activities are to occur on sites with contamination from previous activities, operators shall be aware that concentrations of materials that meet other criteria (i.e. not considered a Hazardous Waste, meeting Voluntary Action Program (VAP standards)) may still result in stormwater discharges in excess of Ohio Water Quality Standards. Such discharges are not authorized by this code. Control measures which may be utilized to meet this requirement include, but are not limited to:
 - a. Use berms, trenches, pits or tanks to collect contaminated runoff and prevent discharge.
 - b. Pump runoff from contaminated soils to the sanitary sewer with the prior approval of the sanitary sewer system operator, or pump into a container for transport to an appropriate treatment or disposal facility; and
 - c. Cover areas of contamination with tarps, daily cover or other such methods to prevent stormwater from coming into contact with contaminated materials.The SWP3 must include methods to minimize the exposure of building materials, building products, construction wastes, trash, landscape materials, fertilizers, pesticides, herbicides, detergents, and sanitary waste to precipitation, stormwater runoff, and snow melt. The SWP3 shall include measures to prevent and respond to chemical spills and leaks. Applicants may also reference the existence of other plans (i.e., Spill Prevention Control and Countermeasure (SPCC) plans, spill control programs, Safety Response Plans, etc.) provided that such plan addresses this requirement and a copy of such plan is maintained on site.
- (g) **COMPLIANCE WITH OTHER REQUIREMENTS.** The SWP3 shall be consistent with applicable State and/or local waste disposal, sanitary sewer, or septic system regulations, including provisions prohibiting waste disposal by open burning, and shall provide for the proper disposal of contaminated soils located within the development area.
- (h) **TRENCH AND GROUND WATER CONTROL.** There shall be no sediment-laden or turbid discharges to water resources or wetlands resulting from dewatering activities. If trench or ground water contains sediment, it must pass through a sediment-settling pond or other equally effective sediment control device, prior to being discharged from the construction site. Alternatively, sediment may be removed by

settling in place or by dewatering into a sump pit, filter bag or comparable practice. Ground water dewatering which does not contain sediment or other pollutants is not required to be treated prior to discharge. However, care must be taken when discharging ground water to ensure that it does not become pollutant-laden by traversing over disturbed soils or other pollutant sources.

- (i) **INTERNAL INSPECTIONS.** All controls on the site shall be inspected a at least once every seven calendar days and within 24 hours after any storm event greater than one-half inch of rain per 24 hour period. The inspection frequency may be reduced to at least once every month if the entire site is temporarily stabilized or runoff is unlikely due to weather conditions (e.g., site is covered with snow, ice, or the ground is frozen). A waiver of inspection requirements is available until one month before thawing conditions are expected to result in a discharge if prior written approval has been attained from the City Engineer and all of the following conditions are met:
- (1) The project is located in an area where frozen conditions are anticipated to continue for extended periods of time (i.e. more than one (1) month).
 - (2) Land disturbance activities have been suspended, and temporary stabilization is achieved.
 - (3) The beginning date and ending dates of the waiver period are documented in the SWP3.
 - (4) For sites that will not be completed by October 1, a Pre-Winter Stabilization Meeting shall be held by the landowner and the developer, engineer and contractor of the project and the City prior to October 1, in order to plan and approve winter erosion and sediment controls as defined in the most current online edition of Rainwater and Land Development.

The applicant shall assign qualified inspection personnel to conduct these inspections to ensure that the control practices are functional and to evaluate whether the SWP3 is adequate, or whether additional control measures are required. Qualified inspection personnel are individuals with knowledge and experience in the installation and maintenance of sediment and erosion controls. Certified inspection reports shall be submitted to the City Engineer within seven (7) working days from the inspection and retained at the development site.

These inspections shall meet the following requirements:

- (1) Disturbed areas and areas used for storage of materials that are exposed to precipitation shall be inspected for evidence of or the potential for, pollutants entering the drainage system.
- (2) Erosion and sediment control measures identified in the SWP3 shall be observed to ensure that they are operating correctly. The applicant shall utilize an inspection form provided by the City or an alternate form acceptable to the City Engineer. The inspection form shall include:
 - a. The inspection date.
 - b. Names, titles and qualifications of personnel making the inspection.
 - c. Weather information for the period since the last inspection, including a best estimate of the beginning of each storm event, duration of each storm event and approximate amount of rainfall for each storm event in inches, and whether any discharges occurred.
 - d. Weather information and a description of any discharges occurring at the time of inspection.
 - e. Locations of:
 - (i) Discharges of sediment or other pollutants from site.
 - (ii) BMPs that need to be maintained.
 - (iii) BMPs that failed to operate as designed or proved inadequate for a particular location.
 - (iv) Where additional BMPs are needed that did not exist at the time of inspection.
 - f. Corrective action required including any necessary changes to the SWP3 and implementation dates.
 - (3) Discharge locations shall be inspected to determine whether erosion and sediment control measures are effective in preventing significant impacts to the receiving water resource or wetlands.
 - (4) Locations where vehicles enter or exit the site shall be inspected for evidence of off-site vehicle tracking.
 - (5) The applicant shall maintain for three (3) years following final stabilization the results of these inspections, the names and qualifications of personnel making the inspections, the dates of inspections, major observations relating to the implementation of the SWP3, a certification as to whether the facility is in compliance with the SWP3, and information on any incidents of non-compliance determined by these inspections.

(i) **MAINTENANCE.** The SWP3 shall be designed to minimize maintenance requirements. All BMPs shall be maintained and repaired as needed to ensure continued performance of their intended function until final stabilization. All sediment control practices must be maintained in a functional condition until all up slope areas they control reach final stabilization. The applicant shall provide a description of maintenance procedures needed to ensure the continued performance of control practices and shall ensure a responsible party and adequate funding to conduct this maintenance, all as determined by the City Engineer.

When inspections reveal the need for repair, replacement, or installation of erosion and sediment control BMPs, the following procedures shall be followed:

 - (1) When BMPs require repair or maintenance. If an internal inspection reveals that a BMP is in need of repair or maintenance, with the exception of a sediment-settling pond, it must be repaired or maintained within three (3) days of the inspection. Sediment settling ponds must be repaired or maintained within ten (10) days of the inspection.
 - (2) When BMPs fail to provide their intended function. If an internal inspection reveals that a BMP fails to perform its intended function as detailed in the SWP3 and that another, more appropriate control practice is required, the SWP3 must be amended and the new control practice must be installed within three (3) to ten (10) days of the inspection as determined by the community engineer or site inspector.
 - (3) When BMPs depicted on the SWP3 are not installed. If an internal inspection reveals that a BMP has not been implemented in accordance with the schedule, the control practice must be implemented within ten (10) days from the date of the inspection. If the internal inspection reveals that the planned control practice is not needed, the record must contain a statement of explanation as to why the control practice is not needed.

(j) **FINAL STABILIZATION.** Final stabilization shall be determined by the City Engineer. Once a definable area has achieved final stabilization, the applicant may note this on the SWP3 and no further inspection requirement applies to that portion of the site. Final stabilization also requires the installation of permanent (post-construction) stormwater control measures (SCMs). Obligations under this ordinance shall not be completed until installation of post-construction BMPs is verified. (Ord. 121-2016. Passed 1-17-17.)

1195.10 ABBREVIATED STORMWATER POLLUTION PREVENTION PLAN (SWP3).

- (a) In order to control sediment pollution of water resources, the applicant shall submit an Abbreviated SWP3 in accordance with the requirements of this regulation.
- (b) The Abbreviated SWP3 shall be certified by a professional engineer, a registered surveyor, certified professional erosion and sediment control specialist, or a registered landscape architect.
- (c) The Abbreviated SWP3 shall include a minimum of the following BMPs. The City may require other BMPs as site conditions warrant.
 - (1) Construction Entrances: Construction entrances shall be built and shall serve as the only permitted points of ingress and egress to the development area. These entrances shall be built of a stabilized pad of aggregate stone or recycled concrete or cement sized greater than 2" in diameter, placed over a geotextile fabric, and constructed in conformance with specifications in the most recent edition of Rainwater and Land Development.
 - (2) Concrete Truck Wash Out. The washing of concrete material into a street, catch basin, or other public facility or natural resource is prohibited. A designated area for concrete washout shall be indicated on the plan. Use for other waste and wastewater is prohibited.
 - (3) Street Sweeping: Streets directly adjacent to construction entrances and receiving traffic from the development area, shall be cleaned daily to remove sediment tracked off-site. If applicable, the catch basins on these streets nearest to the construction entrances shall be cleaned weekly.
 - (4) Stabilization. The development area shall be stabilized as detailed in Table 4.

Table 4: Stabilization

Area requiring stabilization	Time frame to apply erosion controls
Any disturbed area within 50 feet of a surface water of the state stream and not at final grade.	Within 2 days of the most recent disturbance if that area will remain idle for more than 21 14 days
For all construction activities, any disturbed area, including soil stockpiles, that will be dormant for more than 2114 days but less than one year, and not within 50 feet of a stream.	Within 7 days of the most recent disturbance within the area
Disturbed areas that will be idle over winter	Prior to November 1
Note: Where vegetative stabilization techniques may cause structural instability or are otherwise unobtainable, alternative stabilization techniques must be employed. These techniques may include mulching or erosion matting.	

- (5) Inlet Protection. Erosion and sediment control practices, such as boxed inlet protection, shall be installed to minimize sediment-laden water entering active storm drain systems, including rear yard inlets. Straw, hay bales, and filter socks are not acceptable forms of inlet protection.
- (6) Silt Fence and Other Perimeter Controls. Silt fence and other perimeter controls approved by the City shall be used to protect adjacent properties and water resources from sediment discharged via sheet (diffused) flow. Silt fence shall be placed along level contours and the permissible drainage area is limited to those indicated in Table 3 in 1195.09 of these regulations.
- (7) Internal Inspection and Maintenance. All controls on the development area shall be inspected at least once every seven calendar days and within 24 hours after any storm event greater than one-half inch of rain per 24 hour period. Maintenance shall occur as detailed below:
 - a. When BMPs require repair or maintenance. If the internal inspection reveals that a BMP is in need of repair or maintenance, with the exception of a sediment-settling pond, it must be repaired or maintained within three (3) days of the inspection. Sediment settling ponds must be repaired or maintained within ten (10) days of the inspection.
 - b. When BMPs fail to provide their intended function. If the internal inspection reveals that a BMP fails to perform its intended function and that another, more appropriate control practice is required, the Abbreviated SWP3 must be amended and the new control practice must be installed within ten (10) days of the inspection.
 - c. When BMPs depicted on the Abbreviated SWP3 are not installed. If the internal inspection reveals that a BMP has not been implemented in accordance with the schedule, the control practice must be implemented within ten (10) days from the date of the inspection. If the inspection reveals that the planned control practice is not needed, the record must contain a statement of explanation as to why the control practice is not needed.
- (8) Final Stabilization: Final stabilization shall be determined by the City Engineer. (Ord. 121-2016. Passed 1-17-17.)

1195.11 FEES.

The SWP3 Abbreviated SWP3 review, filing, and inspection fee is part of a complete submittal and is required to be submitted to the City and the Cuyahoga SWCD, when so directed by the City, before the review process begins. Please consult with the City Engineer for current fee schedule. (Ord. 121-2016. Passed 1-17-17.)

1195.12 BOND.

(a) If a SWP3 or abbreviated SWP3 is required by this regulation, soil disturbing activities shall not be permitted until a cash bond or deposit has been deposited with the City Finance Department. The bond amount shall be a \$1,000 minimum, and an additional \$500 paid for each subsequent acre or fraction thereof or the cost of stabilizing disturbed areas based on a fee schedule established by the City. The bond will be used for the City to perform the obligations otherwise to be performed by the owner of the development area as stated in this regulation and to allow all work to be performed as needed in the event that the applicant fails to comply with the provisions of this regulation. The cash bond shall be returned, less the City administrative fees, after all work required by this regulation has been completed and final stabilization has been reached, all as determined by the City Engineer.

(b) No project subject to this regulation shall commence without a SWP3 or Abbreviated SWP3 approved by the City Engineer.
(Ord. 121-2016. Passed 1-17-17.)

1195.13 ENFORCEMENT.

- (a) If the City or its duly authorized representative determines that a violation of the rules adopted under this code exist, the City or representative may issue an immediate stop work order if the violator failed to obtain any federal, state, or local permit necessary for sediment and erosion control, earth movement, clearing, or cut and fill activity.
- (b) All development areas may be subject to external inspections by the City Engineer to ensure compliance with the approved SWP3 or Abbreviated SWP3.
- (c) After each external inspection, the City Engineer shall prepare and distribute a status report to the applicant.
- (d) If an external inspection determines that operations are being conducted in violation of the approved SWP3 or Abbreviated SWP3, the City Engineer may take action as detailed in Section 1195.14 of this regulation.

- (e) Failure to maintain and repair erosion and sediment controls per the approved SWP3 plan may result in the following escalation:
- (1) **First Violation:** The City Engineer will issue a Notice of Deficiency to the owner or operator. All controls are to be repaired or maintained per the SWP3 plan within three (3) days of the notification. If controls have not been corrected after this time, the City Engineer may issue a Stop Work Order for all activities until corrections have been made.
 - (2) **Second Violation:** The City Engineer may issue a formal Notice of Violation which includes a \$250 administrative fee against the SWP3 Bond or site plan deposit. All controls are to be repaired or maintained per the approved SWP3 plan within three (3) days of the Notice of Violation. If controls have not been corrected after this time, the City Engineer may issue a Stop Work Order for all activities until corrections have been made.
 - (3) **Third and subsequent violations:** The City Engineer may issue a Stop Work Order for all construction activities and charge a \$250 administrative fee against the SWP3 bond or site plan deposit. The Stop Work Order will be lifted once all controls are in compliance with the approved SWP3 plan.
- (f) The City Engineer shall have the authority to make immediate on-site adjustments to the SWP3 in order to achieve compliance with this ordinance.
- (g) A final inspection will be made to determine if the criteria of this code has been satisfied and a report will be presented to the City on the site's compliance status.
- (h) The City Engineer will monitor soil-disturbing activities for non-farm residential, commercial, industrial, or other non-farm purposes on land of less than one contiguous acre to ensure compliance required by these Rules.
- (i) The City Engineer shall notify the U.S. Army Corps of Engineers when a violation on a development project covered by an Individual or Nationwide Permit is identified. The City Engineer shall notify the Ohio Environmental Protection Agency when a violation on a development project covered by a Section 401 Water Quality Certification and/or Isolated Wetland Permit is identified.
- (j) The City shall not issue building permits for projects regulated under this code that have not received approval for an SWP3 for said project(s).
- (Ord. 121-2016. Passed 1-17-17.)

1195.14 VIOLATIONS.

- (a) No person shall violate or cause or knowingly permit to be violated any of the provisions of this regulation, or fail to comply with any of such provisions or with any lawful requirements of any public authority made pursuant to this regulation, or knowingly use or cause or permit the use of any lands in violation of this regulation or in violation of any permit granted under this regulation.
- (b) Upon notice, the City Engineer and/or the Building Commissioner may suspend any active soil disturbing activity for a period not to exceed ninety (90) days, and may require immediate erosion and sediment control measures whenever he or she determines that such activity is not meeting the intent of this regulation. Such notice shall be in writing, shall be given to the applicant, and shall state the conditions under which work may be resumed. In instances, however, where the City Engineer and/or the Building Commissioner finds that immediate action is necessary for public safety or the public interest, he or she may require that work be stopped upon verbal order pending issuance of the written notice.
- (Ord. 121-2016. Passed 1-17-17.)

1195.15 APPEALS.

Any person aggrieved by any order, requirement, determination, or any other action or inaction by the City in relation to this regulation may appeal to the court of common pleas. Such an appeal shall be made in conformity with Chapter 2506 of the Ohio Revised Code. Written notice of appeal shall be served on the City and a copy shall be provided to the Cuyahoga SWCD.

(Ord. 121-2016. Passed 1-17-17.)

1195.99 PENALTY.

- (a) Any person, firm, entity or corporation; including but not limited to, the owner of the property, his agents and assigns, occupant, property manager, and any contractor or subcontractor who violates or fails to comply with any provision of this regulation is guilty of a misdemeanor of the first degree for each offense. A separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.
- (Ord. 31-2018. Passed 4-10-18.)
- (b) The imposition of any other penalties provided herein shall not preclude the City instituting an appropriate action or proceeding in a Court of proper jurisdiction to prevent an unlawful development, or to restrain, correct, or abate a violation, or to require compliance with the provisions of this regulation or other applicable laws, ordinances, rules, or regulations, or the orders of the City. (Ord. 121-2016. Passed 1-17-17.)

1196.01 PURPOSE AND SCOPE.

- (a) The purpose of this regulation is to establish technically feasible and economically reasonable stormwater management standards to achieve a level of stormwater quality and quantity control that will minimize damage to property and degradation of water resources and will promote and maintain the health, safety, and welfare of the citizens of the City:
- (b) This regulation requires owners who develop or re-develop their property within the City to:
- (1) Control stormwater runoff from their property and ensure that all Stormwater Control Measures (SCMs) are properly designed, constructed, and maintained.
 - (2) Reduce water quality impacts to receiving water resources that may be caused by new development or redevelopment activities.
 - (3) Control the volume, rate, and quality of stormwater runoff originating from their property so that surface water and groundwater are protected and flooding and erosion potential are not increased.
 - (4) Minimize the need to construct, repair, and replace subsurface storm drain systems.
 - (5) Preserve natural infiltration and ground water recharge, and maintain subsurface flow that replenishes water resources, except in slippage prone soils.
 - (6) Incorporate stormwater quality and quantity controls into site planning and design at the earliest possible stage in the development process.
 - (7) Reduce the expense of remedial projects needed to address problems caused by inadequate stormwater management.
 - (8) Maximize use of SCMs that serve multiple purposes including, but not limited to, flood control, erosion control, fire protection, water quality protection, recreation, and habitat preservation.
 - (9) Design sites to minimize the number of stream crossings and the width of associated disturbance in order to minimize the City's future expenses related to the maintenance and repair of stream crossings.
 - (10) Maintain, promote, and re-establish conditions necessary for naturally occurring stream processes that assimilate pollutants, attenuate flood flows, and provide a healthy water resource.

(c) This regulation shall apply to all parcels used or being developed, either wholly or partially, for new or relocated projects involving highways and roads; subdivisions or larger common plans of development; industrial, commercial, institutional, or residential projects; building activities on farms; redevelopment activities; grading; and all other uses that are not specifically exempted in Section 1196.01.

(d) Public entities, including the State of Ohio, Cuyahoga County, and the City of Richmond Heights shall comply with this regulation for roadway projects initiated after March 10, 2006 and, to the maximum extent practicable, for projects initiated before that time.

(e) This regulation does not apply to activities regulated by, and in compliance with, the Ohio Agricultural Sediment Pollution Abatement Rules.

(f) This regulation does not require a Comprehensive Stormwater Management Plan for linear construction projects, such as pipeline or utility line installation, that do not result in the installation of impervious surface as determined by the City Engineer. Such projects must be designed to minimize the number of stream crossings and the width of disturbance. Linear construction projects must comply with the requirements of Chapter 1195 Erosion and Sediment Control. (Ord. 120-2016. Passed 1-17-17.)

1196.02 DEFINITIONS.

For the purpose of this regulation, the following terms shall have the meaning herein indicated:

- (a) ACRE: A measurement of area equaling 43,560 square feet.
- (b) AS-BUILT SURVEY: A survey shown on a plan or drawing prepared by a registered Professional Surveyor indicating the actual dimensions, elevations, and locations of any structures, underground utilities, swales, detention facilities, and sewage treatment facilities after construction has been completed.
- (c) BEST MANAGEMENT PRACTICES (BMPs): Also STORMWATER CONTROL MEASURE (SCMs). Schedule of activities, prohibitions of practices, operation and maintenance procedures, treatment requirements, and other management practices (both structural and non-structural) to prevent or reduce the pollution of water resources and to control stormwater volume and rate. This includes practices to control runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage. For guidance, please see U.S. EPA's National Menu of BMPs at <http://water.epa.gov/polwaste/npdes/swbmp/index.cfm>.
- (d) CLEAN WATER ACT: Pub. L. 92-500, as amended Pub. L. 95-217, Pub. L. 95-576, Pub. L. 96-483, Pub. L. 97-117, and Pub. L. 100-4, 33 U.S.C. 1251 et. seq. Referred to as the Federal Water Pollution Control Act or the Federal Water Pollution Control Act Amendments of 1972.
- (e) COMMUNITY: The City of Richmond Heights, its designated representatives, boards, or commissions.
- (f) COMPREHENSIVE STORMWATER MANAGEMENT PLAN: The written document and plans meeting the requirements of this regulation that sets forth the plans and practices to minimize stormwater runoff from a development area, to safely convey or temporarily store and release post-development runoff at an allowable rate to minimize flooding and stream bank erosion, and to protect or improve stormwater quality and stream channels.
- (g) CRITICAL STORM: A storm that is determined by calculating the percentage increase in volume of runoff by a proposed development area for the 1 year 24 hour event. The critical storm is used to calculate the maximum allowable stormwater discharge rate from a developed site.
- (h) DEVELOPMENT AREA: A parcel or contiguous parcels owned by one person or persons, or operated as one development unit, and used or being developed for commercial, industrial, residential, institutional, or other construction or alteration that changes runoff characteristics.
- (i) DEVELOPMENT DRAINAGE AREA: A combination of each hydraulically unique watershed with individual outlet points on the development area.
- (j) DISTURBED AREA: An area of land subject to erosion due to the removal of vegetative cover and/or soil disturbing activities.
- (k) DRAINAGE: The removal of excess surface water or groundwater from land by surface or subsurface drains.
- (l) EROSION: The process by which the land surface is worn away by the action of wind, water, ice, gravity, or any combination of those forces.
- (m) EXTENDED DETENTION FACILITY: A stormwater control measure that replaces and/or enhances traditional detention facilities by releasing the runoff collected during the stormwater quality event over at least

24 to 48 hours, retarding flow and allowing pollutants to settle within the facility.

- (n) **FINAL STABILIZATION:** All soil disturbing activities at the site have been completed and a uniform perennial vegetative cover with a density of at least 80% coverage for the area has been established or equivalent stabilization practices, such as the use of mulches or geotextiles, have been employed.
- (o) **GRADING:** The process in which the topography of the land is altered to a new slope.
- (p) **GREEN INFRASTRUCTURE:** Wet weather management approaches and technologies that utilize, enhance or mimic the natural hydrologic cycle processes of infiltration, evapotranspiration and reuse.
- (q) **HYDROLOGIC UNIT CODE:** a cataloging system developed by the United States Geological Survey and the Natural Resource Conservation Service to identify watersheds in the United States.
- (r) **IMPERVIOUS COVER:** Any surface that cannot effectively absorb or infiltrate water. This may include roads, streets, parking lots, rooftops, sidewalks, and other areas not covered by vegetation.
- (s) **INFILTRATION CONTROL MEASURE:** A stormwater control measure that does not discharge to a water resource during the stormwater quality event, requiring collected runoff to either infiltrate into the groundwater and/or be consumed by evapotranspiration, thereby retaining stormwater pollutants in the facility.
- (t) **LARGER COMMON PLAN OF DEVELOPMENT:** A contiguous area where multiple separate and distinct construction activities may be taking place at different times on different schedules under one plan.
- (u) **LOW IMPACT DEVELOPMENT:** Low-impact development (LID) is a site design approach, which seeks to integrate hydrologically functional design with pollution prevention measures to compensate for land development impacts on hydrology and water quality. LID's goal is to mimic natural hydrology and processes by using small-scale, decentralized practices that infiltrate, evaporate, detain, and transpire stormwater. LID stormwater control measures (SCMs) are uniformly and strategically located throughout the site.
- (v) **MAXIMUM EXTENT PRACTICABLE:** The level of pollutant reduction that operators of small municipal separate storm sewer systems regulated under 40 C.F.R. Parts 9, 122, 123, and 124, referred to as NPDES Stormwater Phase II, must meet.
- (w) **MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4):** A conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains) that are:
 - (1) Owned or operated by the federal government, state, municipality, township, county, district, or other public body (created by or pursuant to state or federal law) including a special district under state law such as a sewer district, flood control district or drainage districts, or similar entity, or a designated and approved management agency under section 208 of the Clean Water Act that discharges into water resources; and
 - (2) Designed or used for collecting or conveying solely stormwater,
 - (3) Which is not a combined sewer, and
 - (4) Which is not a part of a publicly owned treatment works.
- (x) **National Pollutant Discharge Elimination System (NPDES):** A regulatory program in the Federal Clean Water Act that prohibits the discharge of pollutants into surface waters of the United States without a permit.
- (y) **NONSTRUCTURAL STORMWATER CONTROL MEASURE (SCM):** Any technique that uses natural processes and features to prevent or reduce the discharge of pollutants to water resources and control stormwater volume and rate.
- (z) **POST-DEVELOPMENT:** The conditions that exist following the completion of soil disturbing activity in terms of topography, vegetation, land use, and the rate, volume, quality, or direction of stormwater runoff.
- (aa) **PRE-CONSTRUCTION MEETING:** Meeting prior to construction between all parties associated with the construction of the project including government agencies, contractors and owners to review agency requirements and plans as submitted and approved.
- (bb) **PRE-DEVELOPMENT:** The conditions that exist prior to the initiation of soil disturbing activity in terms of topography, vegetation, land use, and the rate, volume, quality, or direction of stormwater runoff.
- (cc) **PROFESSIONAL ENGINEER:** A Professional Engineer registered in the State of Ohio with specific education and experience in water resources engineering, acting in conformance with the Code of Ethics of the Ohio State Board of Registration for Engineers and Surveyors.
- (dd) **REDEVELOPMENT:** A construction project on land that has been previously developed and where the new land use will not increase the runoff coefficient used to calculate the water quality volume. If the new land use will increase the runoff coefficient, then the project is considered to be a new development project rather than a redevelopment project.
- (ee) **RIPARIAN AREA:** Land adjacent to any brook, creek, river, or stream having a defined bed and bank that, if appropriately sized, helps to stabilize streambanks, limit erosion, reduce flood size flows, and/or filter and settle out runoff pollutants, or performs other functions consistent with the purposes of this regulation.
- (ff) **RIPARIAN AND WETLAND SETBACK:** The real property adjacent to a water resource on which soil disturbing activities are limited, all as defined by Chapter 1197 Riparian Areas and Wetlands.
- (gg) **RUNOFF:** The portion of rainfall, melted snow, or irrigation water that flows across the ground surface and is eventually returned to water resources.
- (hh) **SEDIMENT:** The soils or other surface materials that can be transported or deposited by the action of wind, water, ice, or gravity as a product of erosion.
- (ii) **SEDIMENTATION:** The deposition of sediment in water resources.
- (jj) **SITE OWNER/OPERATOR:** Any individual, corporation, firm, trust, commission, board, public or private partnership, joint venture, agency, unincorporated association, municipal corporation, county or state agency, the federal government, other legal entity, or an agent thereof that is responsible for the overall construction site.
- (kk) **SOIL DISTURBING ACTIVITY:** Clearing, grading, excavating, filling, or other alteration of the earth's surface where natural or human made ground cover is destroyed that may result in, or contribute to, increased stormwater quantity and/or decreased stormwater quality.
- (ll) **STABILIZATION:** The use of Best Management Practices or Stormwater Control Measures that reduce or prevent soil erosion by stormwater runoff, trench dewatering, wind, ice, gravity, or a combination thereof.
- (mm) **STORMWATER OR STORMWATER:** Defined at 40 CFR 122.26(b)(13) and means stormwater runoff, snow melt runoff and surface runoff and drainage.
- (nn) **STORMWATER CONTROL MEASURE (SCM):** Also Best Management Practice (BMP). Schedule of activities, prohibitions of practices, operation and maintenance procedures, treatment requirements, and other management practices (both structural and non-structural) to prevent or reduce the pollution of water resources and to control stormwater volume and rate. This includes practices to control runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage. For guidance, please see U.S. EPA's National Menu of BMPs at <http://water.epa.gov/polwaste/npdes/swbmp/index.cfm>.
- (oo) **STRUCTURAL STORMWATER MANAGEMENT PRACTICE OR STORMWATER CONTROL MEASURE (SCM):** Any constructed facility, structure, or device that prevents or reduces the discharge of pollutants to water resources and controls stormwater volume and rate.
- (pp) **SURFACE WATERS OF THE STATE:** Also Water Resource. Any streams, lakes, reservoirs, pond, marshes, wetlands, or other waterways situated wholly or partly within the boundaries of the state, except those private waters which do not combine or affect a junction with surface water. Waters defined as sewerage systems, treatment works or disposal systems in Section 6111.01 of the Ohio Revised Code are not included.
- (qq) **TOTAL MAXIMUM DAILY LOAD:** The sum of the existing and/or projected point source, nonpoint source, and background loads for a pollutant to a specified watershed, water body, or water body segment. A TMDL sets and allocates the maximum amount of a pollutant that may be introduced into the water and still ensure attainment and maintenance of water quality standards.
- (rr) **WATER QUALITY VOLUME:** "Water Quality Volume (WQv)" means the volume of stormwater runoff which must be captured and treated prior to discharge from the developed site after construction is complete. WQv is based on the expected runoff generated by the mean storm precipitation volume from post-construction site conditions at which rapidly diminishing returns in the number of runoff events captured begins to occur.
- (ss) **WATER RESOURCE:** Also SURFACE WATER OF THE STATE. Any stream, lake, reservoir, pond, marsh, wetland, or waterway situated wholly or partly within the boundaries of the state, except those private waters which do not combine or affect a junction with surface water. Waters defined as sewerage systems, treatment works or disposal systems in Section 6111.01 of the Ohio Revised Code are not included.
- (tt) **WATER RESOURCE CROSSING:** Any bridge, box, arch, culvert, truss, or other type of structure intended to convey people, animals, vehicles, or materials from one side of a watercourse to another. This does not include private, non-commercial footbridges or pole mounted aerial electric or telecommunication lines, nor does it include below grade utility lines.
- (uu) **WATERSHED:** The total drainage area contributing stormwater runoff to a single point.
- (vv) **WETLAND:** Those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions, including swamps, marshes, bogs, and similar areas (40 CFR 232, as amended).

(Ord. 120-2016. Passed 1-17-17.)

1196.03 DISCLAIMER OF LIABILITY.

- (a) Compliance with the provisions of this regulation shall not relieve any person from responsibility for damage to any person otherwise imposed by law. The provisions of this regulation are promulgated to promote the health, safety, and welfare of the public and are not designed for the benefit of any individual or any particular parcel of property.
- (b) By approving a Comprehensive Stormwater Management Plan under this regulation, the City of Richmond Heights does not accept responsibility for the design, installation, and operation and maintenance of SCMs.

(Ord. 120-2016. Passed 1-17-17.)

1196.04 CONFLICTS, SEVERABILITY, NUISANCES AND RESPONSIBILITY.

- (a) Where this regulation is in conflict with other provisions of law or ordinance, the most restrictive provisions, as determined by the City of Richmond Heights Engineer, shall prevail.
- (b) If any clause, section, or provision of this regulation is declared invalid or unconstitutional by a court of competent jurisdiction, the validity of the remainder shall not be affected thereby.
- (c) This regulation shall not be construed as authorizing any person to maintain a nuisance on their property, and compliance with the provisions of this regulation shall not be a defense in any action to abate such a nuisance.
- (d) Failure of the City of Richmond Heights to observe or recognize hazardous or unsightly conditions or to recommend corrective measures shall not relieve the site owner from the responsibility for the condition or damage resulting therefrom, and shall not result in the City of Richmond Heights, its officers, employees, or agents being responsible for any condition or damage resulting therefrom.

(Ord. 120-2016. Passed 1-17-17.)

1196.05 DEVELOPMENT OF COMPREHENSIVE STORMWATER MANAGEMENT PLANS.

- (a) This regulation requires that a Comprehensive Stormwater Management Plan be developed and implemented for all soil disturbing activities disturbing one (1) or more acres of total land, or less than one (1) acre if part of a larger common plan of development or sale disturbing one (1) or more acres of total land, and on which any regulated activity of Section 1196.01 (C) is proposed. A Comprehensive Stormwater Management Plan must be developed and implemented for all commercial and industrial site development. The City Engineer may require a comprehensive stormwater management plan on sites disturbing less than 1 acre.
- (b) The City shall administer this regulation, shall be responsible for determination of compliance with this regulation, and shall issue notices and orders as may be necessary. The City may consult with the Cuyahoga SWCD, state agencies, private engineers, stormwater districts, or other technical experts in reviewing the Comprehensive Stormwater Management Plan.

(Ord. 120-2016. Passed 1-17-17.)

1196.06 APPLICATION PROCEDURES.

- (a) **Pre-Application Meeting:** The applicant shall attend a Pre-Application Meeting with the City Engineer to discuss the proposed project, review the requirements of this regulation, identify unique aspects of the project that must be addressed during the review process, and establish a preliminary review and approval schedule.
- (b) **Preliminary Comprehensive Stormwater Management Plan:** The applicant shall submit two (2) sets of a Preliminary Comprehensive Stormwater Management Plan (Preliminary Plan) and the applicable fees to the Building Commissioner. The Preliminary Plan shall show the proposed property boundaries, setbacks, dedicated open space, public roads, water resources, stormwater control facilities, and easements in sufficient detail and engineering analysis to allow the City Engineer to determine if the site is laid out in a manner that meets the intent of this regulation and if the proposed SCMs are capable of controlling runoff from the site in compliance with this regulation. The applicant shall submit two (2) sets of the Preliminary Plan and applicable fees as follows:
 - (1) **For subdivisions:** In conjunction with the submission of the preliminary subdivision plan.
 - (2) **For other construction projects:** In conjunction with the application for a zoning or building permit.
 - (3) **For general clearing projects:** In conjunction with the application for a zoning or building permit.
- (c) **Final Comprehensive Stormwater Management Plan:** The applicant shall submit two (2) sets of a Final Comprehensive Stormwater Management Plan (Final Plan) and the applicable fees to the Building Commissioner in conjunction with the submittal of the final plat, improvement plans, or application for a building or zoning permit for the site. The Final Plan shall meet the requirements of Section 1196.08 and shall be approved by the City Engineer prior to approval of the final plat and/or before issuance of a zoning or building permit by the Building Commissioner.
- (d) **Review and Comment:** The City Engineer shall review the Preliminary and Final Plans submitted, and shall approve or return for revisions with comments and recommendations for revisions. A Preliminary or Final Plan rejected because of deficiencies shall receive a narrative report stating specific problems and the procedures for filing a revised Preliminary or Final Plan.
- (e) **Approval Necessary:** Land clearing and soil-disturbing activities shall not begin and zoning and/or building permits shall not be issued without an approved Comprehensive Stormwater Management Plan.
- (f) **Valid for Two Years:** Approvals issued in accordance with this regulation shall remain valid for two (2) years from the date of approval.

(Ord. 120-2016. Passed 1-17-17.)

1196.07 COMPLIANCE WITH STATE AND FEDERAL REGULATIONS.

Approvals issued in accordance with this regulation do not relieve the applicant of responsibility for obtaining all other necessary permits and/or approvals from other federal, state, and/or county agencies. If requirements vary, the most restrictive shall prevail. These permits may include, but are not limited to, those listed below. Applicants are required to show proof of compliance with these regulations before the City will

issue a building or zoning permit.

- (a) Ohio Environmental Protection Agency (Ohio EPA) National Pollutant Discharge Elimination System (NPDES) Permits authorizing stormwater discharges associated with construction activity or the most current version thereof: Proof of compliance with these requirements shall be the applicant's Notice of Intent (NOI) number from Ohio EPA, a copy of the Ohio EPA Director's Authorization Letter for the NPDES Permit, or a letter from the site owner certifying and explaining why the NPDES Permit is not applicable.
 - (b) Section 401 of the Clean Water Act: Proof of compliance shall be a copy of the Ohio EPA Water Quality Certification application tracking number, public notice, project approval, or a letter from the site owner certifying that a qualified professional has surveyed the site and determined that Section 401 of the Clean Water Act is not applicable. Wetlands, and other waters of the United States, shall be delineated by protocols accepted by the U.S. Army Corps of Engineers at the time of application of this regulation.
 - (c) Ohio EPA Isolated Wetland Permit: Proof of compliance shall be a copy of Ohio EPA's Isolated Wetland Permit application tracking number, public notice, project approval, or a letter from the site owner certifying that a qualified professional has surveyed the site and determined that Ohio EPA's Isolated Wetlands Permit is not applicable. Isolated wetlands shall be delineated by protocols accepted by the U.S. Army Corps of Engineers at the time of application of this regulation.
 - (d) Section 404 of the Clean Water Act: Proof of compliance shall be a copy of the U.S. Army Corps of Engineers Individual Permit application, public notice, or project approval, if an Individual Permit is required for the development project. If an Individual Permit is not required, the site owner shall submit proof of compliance with the U.S. Army Corps of Engineer's Nationwide Permit Program. This shall include one of the following:
 - (1) A letter from the site owner certifying that a qualified professional has surveyed the site and determined that Section 404 of the Clean Water Act is not applicable.
 - (2) A site plan showing that any proposed fill of waters of the United States conforms to the general and special conditions specified in the applicable Nationwide Permit. Wetlands, and other waters of the United States, shall be delineated by protocols accepted by the U.S. Army Corps of Engineers at the time of application of this regulation.
 - (e) Ohio Dam Safety Law: Proof of compliance shall be a copy of the ODNR Division of Soil and Water Resources permit application tracking number, a copy of the project approval letter from the ODNR Division of Soil and Water Resources, or a letter from the site owner certifying and explaining why the Ohio Dam Safety Law is not applicable.
- (Ord. 120-2016. Passed 1-17-17.)

1196.08 COMPREHENSIVE STORMWATER MANAGEMENT PLAN.

- (a) Comprehensive Stormwater Management Plan Required: The applicant shall develop a Comprehensive Stormwater Management Plan describing how the quantity and quality of stormwater will be managed after construction is completed for every discharge from the site and/or into a water resource or small municipal separate storm sewer system (MS4). The Plan will illustrate the type, location, and dimensions of every structural and non-structural SCM incorporated into the site design, and the rationale for their selection. The rationale must address how these SCMs will address flooding within the site as well as flooding that may be caused by the development upstream and downstream of the site. The rationale will also describe how the SCMs minimize impacts to the physical, chemical, and biological characteristics of on-site and downstream water resources and, if necessary, correct current degradation of water resources that is occurring or take measures to prevent predictable degradation of water resources.
- (b) Preparation by Professional Engineer: The Comprehensive Stormwater Management Plan shall be prepared by a registered Professional Engineer and include supporting calculations, plan sheets, and design details. To the extent necessary, as determined by the City Engineer, a site survey shall be performed by a Registered Professional Surveyor to establish boundary lines, measurements, or land surfaces.
- (c) Community Procedures: The City Engineer shall prepare and maintain procedures providing specific criteria and guidance to be followed when designing the stormwater management system for the site. These procedures may be updated from time to time, at the discretion of the City Engineer based on improvements in engineering, science, monitoring, and local maintenance experience. The City Engineer shall make the final determination of whether the practices proposed in the Comprehensive Stormwater Management Plan meet the requirements of this regulation. The City Engineer may also maintain a list of acceptable SCMs that meet the criteria of this regulation to be used in the City.
- (d) Contents of Comprehensive Stormwater Management Plan: The Comprehensive Stormwater Management Plan shall contain an application, narrative report, construction site plan sheets, a long-term Inspection and Maintenance Plan and Inspection and Maintenance Agreement, and a site description with the following information provided:
 - (1) Site description:
 - a. A description of the nature and type of the construction activity (e.g. residential, shopping mall, highway, etc.).
 - b. Total area of the site and the area of the site that is expected to be disturbed (i.e. grubbing, clearing, excavation, filling or grading, including off-site borrow areas).
 - c. A description of prior land uses at the site.
 - d. An estimate of the impervious area and percent of imperviousness created by the soil-disturbing activity at the beginning and at the conclusion of the project.
 - e. Selection (source and justification) and/or calculations of runoff coefficients for water quality volume determination, peak discharge control (curve number/critical storm method), and rational method.
 - f. Existing data describing the soils throughout the site, including soil map units including series, complexes, and association, hydrologic soil group, porosity, infiltration characteristics, depth to groundwater, depth to bedrock, and any impermeable layers.
 - g. If available, the quality of any known pollutant discharge from the site such as that which may result from previous contamination caused by prior land uses.
 - h. The location and name of the immediate water resource(s) and the first subsequent water resource(s).
 - i. The aerial (plan view) extent and description of water resources at or near the site that will be disturbed or will receive discharges from the project.
 - j. If applicable, identify the point of discharge to a municipal separate storm sewer system and the location where that municipal separate storm sewer system ultimately discharges to a stream, lake, or wetland. The location and name of the immediate receiving stream or surface water(s) and the first subsequent receiving water(s) and the aerial extent and description of wetlands or other special aquatic sites at or near the site which will be disturbed or which will receive discharges from undisturbed areas of the project.
 - k. TMDLs applicable for the site [refer to TMDL community identifier table at <http://www.neohiostormwater.com/>]; demonstrate that appropriate (SCMs) have been selected to address these TMDLs.
 - l. For each SCM, identify the drainage area, percent impervious cover within the drainage area, runoff coefficient for water quality volume, peak discharge, and the time of concentration for each subwatershed per Appendix 1 of Ohio's stormwater manual, Rainwater and Land Development. Pervious and impervious areas should be treated as separate subwatersheds unless allowed at the discretion of the community engineer. Identify the SCM surface area, discharge and dewatering time, outlet type and dimensions. Each SCM shall be designated with an individual identification number.
 - m. Describe the current condition of water resources including the vertical stability of stream channels and indications of channel incision that may be responsible for current or future sources of high sediment loading or loss of channel stability.
 - n. The site description shall detail the following: drainage sub areas and description of cover; pre- and post- development runoff and allowable runoff rates; stage-storage-discharge relationships for every control structure; a summary table of results, including basin maximum water surface elevation, design calculations, and other supporting information as applicable or as required by the reviewing authority.
 - (2) Site map showing:
 - a. Limits of soil-disturbing activity on the site.
 - b. Soils map units for the entire site, including locations of unstable or highly erodible soils.
 - c. Existing and proposed one-foot (1') contours. This must include a delineation of drainage watersheds expected before, during, and after major grading activities as well as the size of each drainage watershed in acres.
 - d. Water resource locations including springs, wetlands, streams, lakes, water wells, and associated setbacks on or within 200 feet of the site, including the boundaries of wetlands or streams and first subsequent named receiving water(s) the applicant intends to fill or relocate for which the applicant is seeking approval from the Army Corps of Engineers and/or Ohio EPA.
 - e. Existing and planned locations of buildings, roads, parking facilities, and utilities.
 - f. The location of any in-stream activities including stream crossings. SCMs to be employed on the development area both during and after soil disturbing activities, including their location and size, including detail drawings, maintenance requirements during and after construction.
 - (3) Contact information: Company name and contact information as well as contact name, addresses, and phone numbers for the following:
 - a. The Professional Engineer who prepared the Comprehensive Stormwater Management Plan.
 - b. The site owner.
 - (4) Phase, if applicable, of the overall development plan.
 - (5) List of subplot numbers if project is a subdivision.
 - (6) Ohio EPA NPDES Permit Number and other applicable state and federal permit numbers, if available, or status of various permitting requirements if final approvals have not been received.
 - (7) Location, including complete site address and subplot number if applicable.
 - (8) Location of any easements or other restrictions placed on the use of the property.
 - (9) A site plan sheet showing:
 - a. The location of each proposed post-construction SCMs.
 - b. The geographic coordinates of the site AND each proposed practice in North American Datum Ohio State Plane North.

It is preferred that the entire site be shown on one plan sheet to allow a complete view of the site during plan review. If a smaller scale is used to accomplish this, separate sheets providing an enlarged view of areas on individual sheets should also be provided.
 - (10) Inspection and Maintenance Agreement. The Inspection and Maintenance Agreement required for SCMs under this regulation is a stand-alone document between the City and the applicant. A copy of this agreement should be attached to the property deed. The agreement shall contain the following information and provisions:
 - a. Identification of the landowner(s), organization, or municipality responsible for long-term inspection and maintenance, including repairs, of the SCMs.
 - b. The landowner(s), organization, or municipality shall maintain SCMs in accordance with this regulation.
 - c. The City has the authority to enter upon the property to conduct inspections as necessary, with prior notification of the property owner, to verify that the SCMs are being maintained and operated in accordance with this regulation.
 - d. The City shall maintain public records of the results of site inspections, shall inform the landowner(s), organization, or municipality responsible for maintenance of the inspection results, and shall specifically indicate in writing any corrective actions required to bring the SCMs into proper working condition.
 - e. If the City notifies the landowner(s), organization, or municipality responsible for maintenance of the maintenance problems that require correction, the specific corrective actions shall be taken within a reasonable time as determined by the City.
 - f. The City is authorized to enter upon the property and perform the corrective actions identified in the inspection report if the landowner(s), organization, or municipality responsible for maintenance does not make the required corrections in the specified time period. The City shall be reimbursed by the landowner(s), organization, or municipality responsible for maintenance for all expenses incurred within 10 days of receipt of invoice from the City, or more with written approval from the City Engineer.
 - g. The method of funding long-term maintenance and inspections of all SCMs.
 - h. A release of the City from all damages, accidents, occurrences, or claims that might arise or be asserted against the City from the construction, presence, existence, or maintenance of the SCMs.
 - (11) Inspection and Maintenance Plan. This plan will be developed by the applicant and reviewed by the City. Once the Inspection and Maintenance Plan is approved, a recorded copy of the Plan must be submitted to the City as part of the final inspection approval as described in 1196.12. The plan will include at a minimum:
 - a. The location of each SCM and identification of the drainage area served by each SCM.
 - b. Photographs of each SCM, including all inlets and outlets upon completion of construction.
 - c. Schedule of inspection.
 - d. A schedule for regular maintenance for each aspect of the stormwater management system and description of routine and non-routine maintenance tasks to ensure continued performance of the system as is detailed in the approved Comprehensive Stormwater Management Plan. A maintenance inspection checklist written so the average person can understand it shall be incorporated. The maintenance plan will include a detailed drawing of each SCM and outlet structures with the parts of the outlet structure labeled. This schedule may include additional standards, as required by the City Engineer, to ensure continued performance of SCMs permitted to be located in, or within 50 feet of, water resources.
 - e. The location and documentation of all access and maintenance easements on the property. Alteration or termination of these stipulations is prohibited.
 - (12) Required calculations: The applicant shall submit calculations for projected stormwater runoff flows, volumes, and timing into and through all SCMs for flood control, channel protection, water quality, and the condition of the habitat, stability, and incision of each water resource and its floodplain, as required in Section 1196.09 of this regulation. These submittals shall be completed for both pre- and post-development land use conditions and shall include the underlying assumptions and hydrologic and hydraulic methods and parameters used for these calculations. The applicant shall also include critical storm determination and demonstrate that the runoff from offsite areas have been considered in the calculations.

- (13) List of all contractors and subcontractors before construction: Prior to construction or before the pre-construction meeting, provide the list of all contractors and subcontractors and their names, addresses, and phones involved with the implementation of the Comprehensive Stormwater Management Plan including a written document containing signatures of all parties as proof of acknowledgment that they have reviewed and understand the requirements and responsibilities of the Comprehensive Stormwater Management Plan.
- (14) Existing and proposed drainage patterns: The location and description of existing and proposed drainage patterns and SCMs, including any related SCMs beyond the development area and the larger common development area.
- (15) For each SCM to be employed on the development area, include the following:
 - a. Location and size, including detail drawings, maintenance requirements during and after construction, and design calculations, all where applicable.
 - b. Final site conditions including stormwater inlets and permanent nonstructural and structural SCMs. Details of SCMs shall be drawn to scale and shall show volumes and sizes of contributing drainage areas.
 - c. Any other structural and/or non-structural SCMs necessary to meet the design criteria in this regulation and any supplemental information requested by the City Engineer.
 - d. Each SCM shall be designated with an individual identification number. (Ord. 120-2016. Passed 1-17-17.)

1196.09 PERFORMANCE STANDARDS.

- (a) General: The stormwater system, including SCMs for storage, treatment and control, and conveyance facilities, shall be designed to prevent structure flooding during the 100-year, 24-hour storm event; to maintain predevelopment runoff patterns, flows, and volumes; and to meet the following criteria:
 - (1) Integrated practices that address degradation of water resources: The SCMs shall function as an integrated system that controls flooding and minimizes the degradation of the physical, biological, and chemical integrity of the water resources receiving stormwater discharges from the site. Acceptable practices shall:
 - a. Not disturb riparian areas, unless the disturbance is intended to support a watercourse restoration project and complies with Chapter 1197 Riparian Areas and Wetlands.
 - b. Maintain predevelopment hydrology and groundwater recharge on as much of the site as practicable.
 - c. Only install new impervious surfaces and compact soils where necessary to support the future land use.
 - d. Compensate for increased runoff volumes caused by new impervious surfaces and soil compaction by reducing stormwater peak flows to less than predevelopment levels.
 - e. Be designed according to the methodology included in the most current edition of Rainwater and Land Development or another design manual acceptable for use by the City and Ohio EPA. SCMs that meet the criteria in this regulation, and additional criteria required by the City Engineer, shall comply with this regulation.
 - (2) Practices designed for final use: SCMs shall be designed to achieve the stormwater management objectives of this regulation, to be compatible with the proposed post-construction use of the site, to protect the public health, safety, and welfare, and to function safely with routine maintenance.
 - (3) Stormwater management for all lots: Areas developed for a subdivision, as defined in Chapter 1123, shall provide stormwater management and water quality controls for the development of all subdivided lots. This shall include provisions for lot grading and drainage that prevent structure flooding during the 100-year, 24-hour storm; and maintain, to the extent practicable, the pre-development runoff patterns, volumes, and peaks from each lot.
 - (4) Stormwater facilities in water resources: SCMs and related activities shall not be constructed in water resources unless the applicant shows proof of compliance with all appropriate permits from the Ohio EPA, the U.S. Army Corps, and other applicable federal, state, and local agencies as required in Section 1196.07 of this regulation, and the activity is in compliance with Chapter 1195 Erosion and Sediment Control and Chapter 1197 Riparian Areas and Wetlands, all as determined by the City Engineer.
 - (5) Stormwater ponds and surface conveyance channels: All stormwater pond and surface conveyance designs must provide a minimum of one (1) foot freeboard above the projected peak stage within the facility during the 100-year, 24-hour storm. When designing stormwater ponds and conveyance channels, the applicant shall consider public safety as a design factor and alternative designs must be implemented where site limitations would preclude a safe design.
 - (6) Exemption: The site where soil-disturbing activities are conducted shall be exempt from the requirements of Section 1196.09 if it can be shown to the satisfaction of the City Engineer that the site is part of a larger common plan of development where the stormwater management requirements for the site are provided by an existing SCMs, or if the stormwater management requirements for the site are provided by practices defined in a regional or local stormwater management plan approved by the City Engineer.
 - (7) Maintenance: All SCMs shall be maintained in accordance with the Inspection and Maintenance Plan and Agreements approved by the City Engineer as detailed in Section 1196.08.
 - (8) Ownership: Unless otherwise required by the City, SCMs serving multiple lots in subdivisions shall be on a separate lot held and maintained by an entity of common ownership or, if compensated by the property owners, by the City. SCMs serving single lots shall be placed on these lots, protected within an easement, and maintained by the property owner.
 - (9) Preservation of Existing Natural Drainage: Practices that preserve and/or improve the existing natural drainage shall be used to the maximum extent practicable. Such practices may include minimizing site grading and compaction; protecting and/or restoring water resources, riparian areas, and existing vegetation and vegetative buffer strips; phasing of construction operations in order to minimize the amount of disturbed land at any one time, and designation of tree preservation areas or other protective clearing and grubbing practices; and maintaining unconcentrated stormwater runoff to and through these areas. Post-construction stormwater practices shall provide perpetual management of runoff quality and quantity so that a receiving stream's physical, chemical and biological characteristics are protected and ecological functions are maintained.
 - (10) Preservation of Wetland Hydrology: Concentrated stormwater runoff from SCMs to wetlands shall be converted to diffuse flow before the runoff enters the wetlands in order to protect the natural hydrology, hydroperiod, and wetland flora. The flow shall be released such that no erosion occurs down slope. Practices such as level spreaders, vegetative buffers, infiltration basins, conservation of forest covers, and the preservation of intermittent streams, depressions, and drainage corridors may be used to maintain the wetland hydrology. If the applicant proposes to discharge to natural wetlands, a hydrological analysis shall be performed to demonstrate that the proposed discharge matches the pre-development hydroperiods and hydrodynamics that support the wetland.
 - (11) Soil Preservation and Post-Construction Soil Restoration: To the maximum extent practicable leave native soil undisturbed and protect from compaction during construction. Except for areas that will be covered by impervious surface or have been incorporated into an SCM, the soil moisture-holding capacity of areas that have been cleared and graded must be restored to that of the original, undisturbed soil to the maximum extent practicable. Areas that have been compacted or had the topsoil or duff layer removed should be amended using the following steps: 1. till subsoil to a depth of 15-18 inches, 2. incorporate compost through top 12 inches, 3. Replace with stockpiled site or imported suitable topsoil to a minimum depth of 4 inches.
- (b) Stormwater Conveyance Design Criteria: All SCMs shall be designed to convey stormwater to allow for the maximum removal of pollutants and reduction in flow velocities. This shall include but not be limited to:
 - (1) Surface water protection: The City Engineer may allow modification to streams, rivers, lakes, wetlands or other surface waters only if the applicant shows proof of compliance with all appropriate permits from the Ohio EPA, the U.S. Army Corps, and other applicable federal, state, and local agencies as required in Section 1196.07 of this regulation, and the activity is in compliance with Chapter 1195 Erosion and Sediment Control and Chapter 1197 Riparian Areas and Wetlands, all as determined by the City Engineer. At a minimum, stream relocation designs must show how the project will minimize changes to the vertical stability, floodplain form, channel form, and habitat of upstream and downstream channels on and off the property.
 - (2) Off-site stormwater discharges: Off-site stormwater runoff that discharges to or across the applicant's development site shall be conveyed through the stormwater conveyance system planned for the development site at its existing peak flow rates during each design storm. Off-site flows shall be diverted around stormwater quality control facilities or, if this is not possible, the stormwater quality control facility shall be sized to treat the off-site flow. Comprehensive Stormwater Management Plans will not be approved until it is demonstrated to the satisfaction of the City Engineer that off-site runoff will be adequately conveyed through the development site in a manner that does not exacerbate upstream or downstream flooding and erosion.
 - (3) Sheet flow: The site shall be graded in a manner that maintains sheet flow over as large an area as possible. The maximum area of sheet flow shall be determined based on the slope, the uniformity of site grading, and the use of easements or other legally-binding mechanisms that prohibit re-grading and/or the placement of structures within sheet flow areas. In no case shall the sheet flow length be longer than 300 feet, nor shall a sheet flow area exceed 1.5 acres. Flow shall be directed into an open channel, storm sewer, or other SCMs from areas too long and/or too large to maintain sheet flow, all as determined by the City Engineer.
 - (4) Open channels: Unless otherwise allowed by the City Engineer, drainage tributary to SCMs shall be provided by an open channel with vegetated banks and designed to carry the 10 year, 24 hour stormwater runoff from upstream contributory areas.
 - (5) Open drainage systems: Open drainage systems shall be preferred on all new development sites to convey stormwater where feasible. Storm sewer systems shall be allowed only when the site cannot be developed at densities allowed under City zoning or where the use of an open drainage system affects public health or safety, all as determined by the City Engineer. The following criteria shall be used to design storm sewer systems when necessary:
 - a. Storm sewers shall be designed such that they do not surcharge from runoff caused by the 10 year, 24 hour storm, and that the hydraulic grade line of the storm sewer stays below the gutter flow line of the overlying roadway, or below the top of drainage structures outside the roadway during a 25 year, 24 hour storm. The system shall be designed to meet these requirements when conveying the flows from the contributing drainage area within the proposed development and existing flows from offsite areas that are upstream from the development.
 - b. The minimum inside diameter of pipe to be used in public storm sewer systems is 12 inches. Smaller pipe sizes may be used in private systems, subject to the approval of the City Engineer.
 - c. All storm sewer systems shall be designed taking into consideration the tailwater of the receiving facility or water resource. The tailwater elevation used shall be based on the design storm frequency. The hydraulic grade line for the storm sewer system shall be computed with consideration for the energy losses associated with entrance into and exit from the system, friction through the system, and turbulence in the individual manholes, catch basins, and junctions within the system.
 - d. The inverts of all curb inlets, manholes, yard inlets, and other structures shall be formed and channelized to minimize the incidence of quiescent standing water where mosquitoes may breed.
 - e. Headwalls shall be required at all storm sewer inlets or outlets to and from open channels or lakes.
 - (6) Water Resource Crossings: The following criteria shall be used to design structures that cross a water resource in the City:
 - a. Water resource crossings other than bridges shall be designed to convey the stream's flow for the minimum 25 year, 24 hour storm.
 - b. Bridges, open bottom arch or spans are the preferred crossing technique and shall be considered in the planning phase of the development. Bridges and open spans should be considered for all State Scenic Rivers, coldwater habitat, exceptional warmwater habitat, seasonal salmonid habitat streams, and Class III headwater streams. The footers or piers for these bridges and open spans shall not be constructed below the ordinary high water mark.
 - c. If a culvert or other closed bottom crossing is used, twenty-five (25) percent of the cross-sectional area or a minimum of 1 foot of box culverts and pipe arches must be embedded below the channel bed. The conduit or conveyance must be sized to carry the 25-year storm under these conditions.
 - d. The minimum inside diameter of pipes to be used for crossings shall be 12 inches.
 - e. The maximum slope allowable shall be a slope that produces a 10 fps velocity within the culvert barrel under design flow conditions. Erosion protection and/or energy dissipaters shall be required to properly control entrance and outlet velocities.
 - f. All culvert installations shall be designed with consideration for the tailwater of the receiving facility or water resource. The tailwater elevation used shall be based on the design storm frequency.
 - g. Headwalls shall be required at all culvert inlets or outlets to and from open channels or lakes.
 - h. Streams with a drainage area of 5 square miles or larger shall incorporate floodplain culverts at the bankfull elevation to restrict head loss differences across the crossing so as to cause no rise in the 100-year storm event.
 - i. Bridges shall be designed such that the hydraulic profile through a bridge shall be below the bottom chord of the bridge for either the 100 year, 24 hour storm, or the 100 year flood elevation as determined by FEMA, whichever is more restrictive.
 - (7) Overland flooding: Overland flood routing paths shall be used to convey stormwater runoff from the 100 year, 24 hour storm event to an adequate receiving water resource or SCM such that the runoff is contained within the drainage easement for the flood routing path and does not cause flooding of buildings or related structures. The peak 100-year water surface elevation along flood routing paths shall be at least one foot below the finished grade elevation of all structures. When designing the flood routing paths, the conveyance capacity of the site's storm sewers shall be taken into consideration.
 - (8) Compensatory flood storage mitigation: In order to preserve floodplain storage volumes and thereby avoid increases in water surface elevations, any filling within floodplains approved by the City must be compensated by providing an equivalent storage volume. First consideration for the location(s) of compensatory floodplain volumes should be given to areas where the stream channel will have immediate access to the new floodplain within the limits of the development site. Consideration will also be given to enlarging existing or proposed retention basins to compensate for floodplain fill if justified by a hydraulic analysis of the contributing watershed. Unless otherwise permitted by the City, reductions in volume due to floodplain fills must be mitigated within the legal boundaries of the development. Embankment slopes used in compensatory storage areas must reasonably conform to the natural slopes adjacent to the disturbed area. The use of vertical retaining structures is specifically prohibited.
 - (9) Velocity dissipation: Velocity dissipation devices shall be placed at discharge locations and along the length of any outfall to provide non-erosive flow velocity from the structure to a water resource so that the natural physical and biological characteristics and functions of the water resource are maintained and protected.
- (c) Stormwater Quality Control:
 - (1) Direct runoff to an SCM: The site shall be designed to direct runoff to one or more of the following SCMs. These practices are listed in Table 2 of this regulation and shall be designed to meet the following general performance standards:

- a. Extended detention facilities that detain stormwater; settle or filter particulate pollutants; and release the controlled stormwater to a water resource.
 - b. Infiltration facilities that retain stormwater; promote settling, filtering, and biodegradation of pollutants; and infiltrate captured stormwater into the ground. The City Engineer may require a soil engineering report to be prepared for the site to demonstrate that any proposed infiltration facilities meet these performance standards.
For sites less than five (5) acres, but required to create a comprehensive stormwater management plan, the City Engineer may approve other SCMs if the applicant demonstrates to the City Engineer's satisfaction that these SCMs meet the objectives of this regulation as stated in Section 1196.09.C.6.
 - c. For sites greater than five (5) acres, or less than five (5) acres but part of a larger common plan of development or sale which will disturb five (5) or more acres, the City Engineer may approve other SCMs if the applicant demonstrates to the City Engineer's satisfaction that these SCMs meet the objectives of this regulation as stated in Section 1196.09.C.6, and has prior written approval from the Ohio EPA.
 - d. For the construction of new roads and roadway improvement projects by public entities (i.e. the state, counties, townships, cities, or villages), the City Engineer may approve SCMs not included in Table 2 of this regulation, but must show compliance with the current version of the Ohio Department of Transportation "Location and Design Manual, Volume Two Drainage Design".
- Per Rainwater and Land Development, the water quality volume (WQv) orifice shall be an anti-clogging or non-clogging design such as a reverse slope pipe or a perforated tile pipe with gravel filter. Alternatively, the City may encourage the use of other SCMs for smaller drainage areas.

(2) **Criteria applying to all SCMs.** SCMs chosen must be sized to treat the water quality volume (WQv) and to ensure compliance with Ohio Water Quality Standards (OAC Chapter 3745-1).

- a. The WQv shall be equal to the volume of runoff from a 0.75 inch rainfall event and shall be determined according to one of the following methods:
 - (i) Through a site hydrologic study approved by the City Engineer that uses continuous hydrologic simulation; site-specific hydrologic parameters, including impervious area, soil infiltration characteristics, slope, and surface routing characteristics; proposed SCMs controlling the amount and/or timing of runoff from the site; and local long-term hourly records, or
 - (ii) Using the following equation:

$$WQV = C * P * A / 12$$
 where terms have the following meanings:
 WQV = water quality volume in acre-feet
 C = runoff coefficient appropriate for storms less than 1 in.
 P = 0.75 inch precipitation depth
 A = area draining into the stormwater practice, in acres.
 Runoff coefficients required by the Ohio Environmental Protection Agency (Ohio EPA) for use in determining the WQv can be determined using the list in Table 1 or using the following equation to calculate the runoff coefficient:

$$C = 0.858i^3 - 0.78i^2 + 0.774i + 0.04$$
, where:
 i = fraction of the drainage area that is impervious

Table 1: Runoff Coefficients Based on the Type of Land Use

Land Use	Runoff Coefficient
Industrial & Commercial	0.8
High Density Residential (>8 dwellings/acre)	0.5
Medium Density Residential (4 to 8 dwellings/acre)	0.4
Low Density Residential (<4 dwellings/acre)	0.3
Open Space and Recreational Areas	0.2
Where land use will be mixed, the runoff coefficient should be calculated using a weighted average. For example, if 60% of the contributing drainage area to the stormwater treatment structure is Low Density Residential, 30% is High Density Residential, and 10% is Open Space, the runoff coefficient is calculated as follows $(0.6)(0.3) + (0.3)(0.5) + (0.1)(0.2) = (0.35)$	

- b. An additional volume equal to 20% of the WQv shall be incorporated into the stormwater practice for sediment storage. This volume shall be incorporated into the sections of stormwater practices where pollutants will accumulate.
- c. Each individual SCM must be sized to treat the WQv associated with its entire contributing drainage area. Exceptions to this may be granted by the City Engineer and/or the OEPA on a case-by-case basis.
- d. Stormwater quality management practices shall be designed such that the drain time is long enough to provide treatment and protect against downstream bank erosion, but short enough to provide storage available for successive rainfall events as defined in Table 2.
- e. Sites within watersheds of coldwater habitat streams shall include SCMs to infiltrate the water quality volume or reduce the temperature of discharged runoff. SCMs that reduce the temperature of discharged runoff include bioretention, permeable pavement, underground detention, and incorporation of shading and infiltration in parking lot design.
- f. Each practice shall be designed to facilitate sediment removal, vegetation management, debris control, and other maintenance activities defined in the Inspection Plan and Maintenance Agreement for the site.

Table 2: Draw Down Times for Stormwater Control Measures

Stormwater Control Measure	Drain Time of WQv
Infiltration Basin or Trench ¹	24 - 48 hours
Permeable Pavement - Infiltration ¹	48 hours
Permeable Pavement - Extended Detention 24 hours	
Extended Detention Facilities	
• Dry Extended Detention Basins ²	48 hours
• Wet Extended Detention Basin ³	24 hours
• Constructed Wetlands (above permanent pool) ⁴	24 hours
• Bioretention Area/Cell ^{5,6}	24 hours
• Sand and other Media Filtration ⁵	24 hours
• Pocket Wetland ⁷	24 hours
¹ Practices designed to fully infiltrate the WQv shall empty within 48 hours to provide storage for subsequent storm events. ² The use of a forebay and micropool is required on all dry extended detention basins. Each is to be sized at a minimum 10% of the WQv. ³ Provide both a permanent pool and an extended detention volume above the permanent pool, each sized with at least 0.75*WQV. ⁴ Extended detention shall be provided for the WQv above the permanent water pool. ⁵ The surface ponding area shall completely empty within 24 hours so that there is no standing water. Shorter drawdown times are acceptable as long as design criteria in Rainwater and Land Development have been met. ⁶ This includes grassed linear bioretention, which was previously titled enhanced water quality swale. ⁷ Pocket wetlands must have a wet pool equal to the WQv, with 25% of the WQv in a pool and 75% in marshes. The EDv above the permanent pool must be equal to the WQv.	

(3) **Additional criteria applying to infiltration facilities.**

- a. Infiltration facilities should be designed to meet all criteria in Rainwater and Land Development.
- b. All runoff directed into an infiltration basin must first flow through a pretreatment practice such as a grass channel or filter strip to remove coarser sediments that could cause a loss of infiltration capacity.
- c. During construction, all runoff from disturbed areas of the site shall be diverted away from the proposed infiltration basin site. No construction equipment shall be allowed within the infiltration basin site to avoid soil compaction.

(4) **Additional criteria for extended detention facilities:**

- a. The outlet shall be designed to not release more than the first half of the water quality volume in less than 1/3rd of the drain time. The outlet shall be designed to minimize clogging, vandalism, maintenance, and promote the capture of floatable pollutants.
- b. The basin design shall incorporate the following features to maximize multiple uses, aesthetics, safety, and maintainability:
 - (i) Basin side slopes above the permanent pool shall have a run to rise ratio of 4:1 or flatter.
 - (ii) The perimeter of all permanent pool areas deeper than 4 feet shall be surrounded by an aquatic bench that extends at least 8 feet and no more than 15 feet outward from the normal water edge. The 8 feet wide portion of the aquatic bench closest to the shoreline shall have an average depth of 6 inches below the permanent pool to promote the growth of aquatic vegetation. The remainder of the aquatic bench shall be no more than 15 inches below the permanent pool to minimize drowning risk to individuals who accidentally or intentionally enter the basin, and to limit growth of dense vegetation in a manner that allows waves and mosquito predators to pass through the vegetation. The maximum slope of the aquatic bench shall be 10 (H) to 1 (V). The aquatic bench shall be planted with native plant species comparable to wetland vegetation that are able to withstand prolonged inundation. The use of invasive plant species is prohibited.
 - (iii) A forebay designed to allow larger sediment particles to settle shall be placed at basin inlets. The forebay and micropool volume shall be equal to at least 10% of the water quality volume (WQv).
 - (iv) When post-construction detention/water quality basins are to be used as temporary sediment trapping BMPs, a skimmer discharge device consistent with the Ohio Rainwater Manual shall be utilized during the construction phase and until the site is deemed permanently stabilized by the administrator as required by Chapter 1195, Erosion and Sediment Control.
 - (v) Detention basins shall be provided with an emergency drain, where practicable, so that the basin may be emptied if the primary outlet becomes clogged and/or to drain the permanent pool to facilitate maintenance. The emergency drain should be designed to drain by gravity where possible.

(5) **Criteria for the Acceptance of Alternative post-construction SCMs:** The applicant may request approval from the City Engineer for the use of alternative structural post-construction SCMs if the applicant shows to

the satisfaction of the City Engineer that these SCMs are equivalent in pollutant removal and runoff flow/volume reduction effectiveness to those listed in Table 2. If the site is greater than five (5) acres, or less than five (5) acres but part of a larger common plan of development or sale which will disturb five (5) or more acres, prior approval from the Ohio EPA is necessary. To demonstrate the equivalency, the applicant must show:

- a. The alternative SCM has a minimum total suspended solid (TSS) removal efficiency of 80 percent, using the Level II Technology Acceptance Reciprocity Partnership (TARP) testing protocol.
- b. The water quality volume discharge rate from the selected SCM is reduced to prevent stream bed erosion, unless there will be negligible hydrologic impact to the receiving surface water of the State. The discharge rate from the SCM will have negligible impacts if the applicant can demonstrate one of the following conditions:
 - (i) The entire water quality volume is recharged to groundwater.
 - (ii) The development will create less than one acre of impervious surface.
 - (iii) The development project is a redevelopment project with an ultra-urban setting, such as a downtown area, or on a site where 100 percent of the project area is already impervious surface and the stormwater discharge is directed into an existing storm sewer system.
 - (iv) The stormwater drainage system of the development discharges directly into a large river of fourth order or greater or to a lake, and where the development area is less than 5 percent of the water area upstream of the development site, unless a (TMDL) has identified water quality problems in the receiving surface water of the State.
- (d) **Stormwater Quantity Control:** The Comprehensive Stormwater Management Plan shall describe how the proposed SCMs are designed to meet the following requirements for stormwater quantity control for each watershed in the development:
 - (1) The peak discharge rate of runoff from the Critical Storm and all more frequent storms occurring under post-development conditions shall not exceed the peak discharge rate of runoff from a 1-year, 24-hour storm occurring on the same development drainage area under pre-development conditions.
 - (2) Storms of less frequent occurrence (longer return periods) than the Critical Storm, up to the 100-year, 24-hour storm shall have peak runoff discharge rates no greater than the peak runoff rates from equivalent size storms under pre-development conditions. The 1, 2, 5, 10, 25, 50, and 100-year storms shall be considered in designing a facility to meet this requirement.
 - (3) The Critical Storm for each specific development drainage area shall be determined as follows:
 - a. Determine, using a curve number-based hydrologic method or other hydrologic method approved by the City Engineer, the total volume (acre-feet) of runoff from a 1-year, 24-hour storm occurring on the development drainage area before and after development. These calculations shall meet the following standards:
 - (i) Calculations shall include the lot coverage assumptions used for full build out as proposed.
 - (ii) Calculations shall be based on the entire contributing watershed to the development area.
 - (iii) Model pervious, directly connected impervious and disconnected impervious areas as separate subwatersheds.
 - (iv) Drainage area maps shall include area, curve number, time of concentrations. Time of concentration shall also show the flow path and the separation in flow type.
 - (v) Rainfall Depth - For the most accurate, up-to-date, location-specific rainfall data for stormwater design, use the Precipitation-Frequency Atlas of the United States, NOAA Atlas 14, Vol 2(3). [available online: <http://hdsc.nws.noaa.gov/hdsc/pfds/>]
 - (vi) Temporal Distribution - Use the SCS Type II rainfall distribution for all design events with a recurrence interval greater than 1 year. Include lot coverage assumptions used for full build out of the proposed condition.
 - (vii) Curve numbers for the pre-development condition shall reflect the average type of land use over the past 10 years and not only the current land use.
 - A. Pre-development Curve Numbers - For wooded or brushy areas, use listed values from TR-55 NRCS USDA Urban Hydrology for Small Watersheds, 1986 in good hydrologic condition. For meadows, use listed values. For all other areas (including all types of agriculture), use pasture, grassland, or range in good hydrologic condition.
 - B. Post-development Curve Numbers - Open space areas shall use post-construction HSGs from Rainwater and Land Development unless the soil is amended after development according to the following protocol: till the subsoil to 15-18 inches, then till using a chisel, spader, or rotary tillage and incorporate compost through top 12 inches, replace topsoil to a minimum depth of 4 inches. All undisturbed areas or open space with amended soils shall be treated as "open space in good condition."
 - (viii) Time of Concentration - Use velocity based methods from (TR-55 NRCS USDA Urban Hydrology in Small Watersheds, 1986) to estimate travel time (Tt) for overland (sheet) flow, shallow concentrated flow and channel flow.
 - A. Maximum sheet flow length is 100 ft.
 - B. Use the appropriate "unpaved" velocity equation for shallow concentrated flow from Soil Conservation Service National Engineer Handbook Section 4 - Hydrology (NEH-4).
 - (ix) The volume reduction provided by permeable pavement, bioretention, or other LID SCMs may be subtracted from the post development stormwater volume. Volume reductions for these practices may be demonstrated using methods outlined in Rainwater and Land Development or a hydrologic model acceptable to the City Engineer.
 - b. To account for future post-construction improvements to the site, calculations shall assume an impervious surface such as asphalt or concrete for all parking areas and driveways, regardless of the surface proposed in the site description except in instances of engineered permeable pavement systems. From the volume determined in Section 1196.09(D)(3)(a), determine the percent increase in volume of runoff due to development. Using the percentage, select the 24-hour Critical Storm from Table 3.

Table 3: 24-Hour Critical Storm

If the Percentage of Increase in Volume of Runoff is:		The Critical Storm will be:
Equal to or Greater than:	and Less Than:	
---	10	1 year
10	20	2 year
20	50	5 year
50	100	10 year
100	250	25 year
250	500	50 year
500	---	100 year

For example, if the percent increase between the pre- and post-development runoff volume for a 1-year storm is 35%, the Critical Storm is a 5-year storm. The peak discharge rate of runoff for all storms up to this frequency shall be controlled so as not to exceed the peak discharge rate from the 1-year frequency storm under pre-development conditions in the development drainage area. The post-development runoff from all less frequent storms need only be controlled to meet pre-development peak discharge rates for each of those same storms.

(e) **Stormwater Management on Redevelopment Projects**

- (1) Comprehensive Stormwater Management Plans for redevelopment projects must accomplish one of the following options:
 - a. Reduce existing site impervious areas by at least 25 percent, a one-for-one credit towards the 25 percent net reduction of impervious area can be obtained through the use green roofs.
 - b. Infiltrate at least 25 percent of the WQv.
 - c. Capture, treat and release 50 percent of the WQv.
- (2) Where projects are a combination of new development and redevelopment, the total water quality volume required to be treated shall be calculated by a weighted average based on acreage, with the new development at 100 percent water quality volume and redevelopment at 25% infiltration of the WQv or 50% treatment of the WQv.
- (3) Where conditions prevent impervious area reduction or on-site stormwater management for redevelopment projects, practical alternatives as detailed in Section 1196.10 may be approved by the City Engineer. (Ord. 120-2016. Passed 1-17-17.)

1196.10 ALTERNATIVE ACTIONS.

- (a) When the City determines that site constraints compromise the intent of this regulation, off-site alternatives may be used that result in an improvement of water quality and a reduction of stormwater quantity. Such alternatives shall meet the following standards:
 - (1) Shall achieve the same level of stormwater quantity and quality control that would be achieved by the on-site controls required under this regulation.
 - (2) Implemented in the same Hydrologic Unit Code (HUC) 12 watershed unit as the proposed development project.
 - (3) The mitigation ratio of the water quality volume is 1.5 to 1 or the water quality volume at the point of retrofit, whichever is greater.
 - (4) An inspection and maintenance agreement as described in Chapter 1196.08.D.10 is established to ensure operations and treatment in perpetuity.
 - (5) Obtain prior written approval from Ohio EPA.
- (b) Alternative actions may include, but are not limited to the following. All alternative actions shall be approved by the City Engineer:
 - (1) Fees, in an amount specified by the City to be applied to community-wide SCMs.
 - (2) Implementation of off-site SCMs and/or the retrofit of an existing practice to increase quality and quantity control.
 - (3) Stream, floodplain, or wetland restoration.
 - (4) Acquisition or conservation easements on protected open space significantly contributing to stormwater control such as wetland complexes.
 (Ord. 120-2016. Passed 1-17-17.)

1196.11 EASEMENTS.

Access to SCMs as required by the City Engineer for inspections and maintenance shall be secured by easements. The following conditions shall apply to all easements:

- (a) Easements shall be included in the Inspection and Maintenance Agreement submitted with the Comprehensive Stormwater Management Plan.
- (b) Easements shall be approved by the City prior to approval of a final plat and shall be recorded with the Cuyahoga County Auditor and on all property deeds, and shall be shown on all plats of minor or major subdivisions.
- (c) Unless otherwise required by the City Engineer, access easements between a public right-of-way and all SCMs shall be no less than 25-feet wide. The easement shall also incorporate the entire practice plus an additional 25-foot wide band around the perimeter of the SCM.
- (d) The easement shall be graded and/or stabilized as necessary to allow maintenance equipment to access and manipulate around and within each facility, as defined in the Inspection and Maintenance Agreement for the site.
- (e) Easements to structural SCMs shall be restricted against the construction therein of buildings, fences, walls, and other structures that may obstruct the free flow of stormwater and the passage of inspectors and maintenance equipment; and against the changing of final grade from that described by the final grading plan approved by the City. Any re-grading and/or obstruction placed within a maintenance easement may be removed, after reasonable notification, by the City at the property owners' expense. (Ord. 120-2016. Passed 1-17-17.)

1196.12 MAINTENANCE AND FINAL INSPECTION APPROVAL.

To receive final inspection and acceptance of any project, or portion thereof, the following must be completed by the applicant and provided to the City Engineer:

- (a) Final stabilization must be achieved and all permanent SCMs must be installed and made functional, as determined by the City Engineer and per the approved Comprehensive Stormwater Management Plan.
- (b) An As-Built Certification, including As-Built Survey and Inspection, must be sealed, signed and dated by a Professional Engineer and a Professional Surveyor with a statement certifying that the stormwater control measures, as designed and installed, meet the requirements of the Comprehensive Stormwater Management Plan approved by the City Engineer. In evaluating this certification, the City Engineer may require the submission of a new set of stormwater practice calculations if he/she determines that the design was altered significantly from the approved Comprehensive Stormwater Management Plan. The

As-Built Survey must provide the location, dimensions, and bearing of such practices and include the entity responsible for long-term maintenance as detailed in the Inspection and Maintenance Agreement.

(c) A copy of the complete and recorded Inspection and Maintenance Plan and Inspection and Maintenance Agreement as specified in Section 1196.08 must be provided to the City Engineer.

(Ord. 120-2016. Passed 1-17-17.)

1196.13 ON-GOING INSPECTIONS.

(a) The owner shall inspect SCMs regularly as described in the Inspection and Maintenance Plan and Inspection and Maintenance Agreement. The City has the authority to enter upon the property to conduct inspections as necessary, with prior notification of the property owner, to verify that the SCMs are being maintained and operated in accordance with this regulation. Upon finding a malfunction or other need for maintenance or repair, the City shall provide written notification to the responsible party, as detailed in the Inspection and Maintenance Agreement, of the need for maintenance. Upon notification, the responsible party shall have thirty (30) working days, or other mutually agreed upon time, to make repairs or submit a plan with detailed action items and established timelines. Should repairs not be made within this time, or a plan approved by the City Engineer for these repairs not in place, the City may undertake the necessary repairs and assess the responsible party.

(b) Stormwater management facilities and related SCMs built before the passage of this ordinance and not otherwise subject to an Inspection and Maintenance Agreement shall be subject to applicable provisions of Part Thirteen "Building Code" with regard to property inspection and maintenance. (Ord. 120-2016. Passed 1-17-17.)

1196.14 FEES.

The Comprehensive Stormwater Management Plan review, filing, and inspection fee is part of a complete submittal and is required to be submitted to the City before the review process begins. The City Engineer shall establish a fee schedule based upon the actual estimated cost for providing these services. (Ord. 120-2016. Passed 1-17-17.)

1196.15 BOND.

(a) If a Comprehensive Stormwater Management Plan is required by this regulation, soil-disturbing activities shall not be permitted until a cash bond of 5% of the total project cost has been deposited with the City Finance Department. This bond shall be posted for the City to perform the obligations otherwise to be performed by the owner of the development area as stated in this regulation and to allow all work to be performed as needed in the event that the applicant fails to comply with the provisions of this regulation. The stormwater bond will be returned, less City administrative fees, when the following three criteria are met:

(1) After 80% of the lots of the project have been complete or 100% of the total project has been permanently stabilized or three (3) years from the time of permanent stabilization have passed.

(2) An As-Built Inspection of all stormwater control measures as described in 1196.12 is approved by the City Engineer.

(3) An Inspection and Maintenance Plan has been approved by the City and Inspection and Maintenance Agreement has been signed by the developer, the contractor, the City, and the private owner or homeowners association who will take long term responsibility for these SCMs, is accepted by the City Engineer.

(b) Once these criteria are met, the applicant shall be reimbursed all bond monies that were not used for any part of the project. If all of these criteria are not met after three years of permanent stabilization of the site, the City may use the bond monies to fix any outstanding issues with all stormwater management structures on the site and the remainder of the bond shall be given to the private lot owner/ homeowners association for the purpose of long term maintenance of the project. (Ord. 120-2016. Passed 1-17-17.)

1196.16 INSTALLATION OF WATER QUALITY STORMWATER CONTROL MEASURES.

The applicant may not direct runoff through any water quality structures or portions thereof that would be degraded by construction site sediment until the entire area tributary to the structure has reached final stabilization as determined by the City Engineer. This occurs after the completion of the final grade at the site, after all of the utilities are installed, and the site is subsequently stabilized with vegetation or other appropriate methods. The developer must provide documentation acceptable to the City Engineer to demonstrate that the site is completely stabilized. Upon this proof of compliance, the water quality structure(s) may be completed and placed into service. Upon completion of installation of these practices, all disturbed areas and/or exposed soils caused by the installation of these practices must be stabilized within 2 days.

(Ord. 120-2016. Passed 1-17-17.)

1196.17 VIOLATIONS.

No person shall violate or cause or knowingly permit to be violated any of the provisions of this regulation, or fail to comply with any of such provisions or with any lawful requirements of any public authority made pursuant to this regulation, or knowingly use or cause or permit the use of any lands in violation of this regulation or in violation of any permit granted under this regulation. (Ord. 120-2016. Passed 1-17-17.)

1196.18 APPEALS.

Any person aggrieved by any order, requirement, determination, or any other action or inaction by the City in relation to this regulation may appeal to the court of common pleas. Such an appeal shall be made in conformity with Chapter 2506 of the Ohio Revised Code. Written notice of appeal shall be served on the City.

(Ord. 120-2016. Passed 1-17-17.)

1196.99 PENALTY.

(a) Any person, firm, entity or corporation; including but not limited to, the owner of the property, his agents and assigns, occupant, property manager, and any contractor or subcontractor who violates or fails to comply with any provision of this regulation is guilty of a misdemeanor of the first degree for each offense. A separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(Ord. 31-2018. Passed 4-10-18.)

(b) The imposition of any other penalties provided herein shall not preclude the City from instituting an appropriate action or proceeding in a Court of proper jurisdiction to prevent an unlawful development, or to restrain, correct, or abate a violation, or to require compliance with the provisions of this regulation or other applicable laws, ordinances, rules, or regulations, or the orders of the City. (Ord. 120-2016. Passed 1-17-17.)

CHAPTER 1197

Riparian Areas and Wetlands

1197.01 Purpose.

1197.02 Definitions.

1197.03 Scope.

1197.04 Riparian and wetland setback requirements.

1197.05 Establishment of designated watercourses and riparian setbacks.

1197.06 Establishment of wetland setbacks.

1197.07 Procedures for wetland setbacks.

1197.08 Uses permitted in riparian and wetland setbacks.

1197.09 Uses prohibited in riparian and wetland setbacks.

1197.10 Non-conforming structures or uses in riparian and wetland setbacks.

1197.11 Variances within riparian and wetland setbacks.

1197.12 Boundary interpretation and appeals procedure.

1197.13 Inspection of riparian and wetland setbacks.

1197.14 Federal and state laws.

1197.15 Violations.

1197.99 Penalties.

CROSS REFERENCES

Erosion and sediment control - see P. & Z. Ch. 1195

Protected Hillside Zones - see P. & Z. Ch. 1198

1197.01 PURPOSE.

The intent of this chapter is to:

(a) Protect the receiving stream's physical, chemical, and biological characteristics and to maintain stream functions.

(b) Establish consistent, technically feasible and operationally practical standards to achieve a level of storm water quantity and quality control that will minimize damage to public and private property and degradation of water resources, and will promote and maintain the health, safety, and welfare of the residents of the Community.

(c) Preserve to the maximum extent practicable the natural drainage characteristics of the community and building sites and minimize the need to construct, repair, and replace enclosed storm drain systems.

(d) Preserve to the maximum extent practicable natural infiltration and ground water recharge, and maintain subsurface flow that replenishes water resources, wetlands, and wells.

(e) Prevent unnecessary stripping of vegetation and loss of soil, especially adjacent to water resources and wetlands.

(f) Reduce the need for costly maintenance and repairs to roads, embankments, sewage systems, ditches, water resources, wetlands, and storm water management practices that are the result of inadequate storm water control due to the loss of riparian areas and wetlands.

(g) Reduce the long term expense of remedial projects needed to address problems caused by inadequate storm water control.

(Ord. 19-2007. Passed 5-8-07.)

1197.02 DEFINITIONS.

For purposes of this chapter, the following shall mean:

(a) **"Development Area"**: Any tract, lot, or parcel of land, or combination of tracts, lots or parcels of land, which are in one ownership, or are contiguous and in diverse ownership, where earth disturbing activity is to be performed.

(b) **"Water Resources"**: All streams, lakes, ponds, wetlands, water courses, waterways, drainage systems, and all other bodies or accumulations of surface water, either natural or artificial, which are situated wholly or partly within, or border upon this state, or are within its jurisdiction, except those private waters which do not combine or affect a junction with natural surface waters.

(Ord. 19-2007. Passed 5-8-07.)

1197.03 SCOPE.

(a) This chapter applies to development areas having new or relocated projects involving highways, underground cables, pipelines, property/parcel splits, industrial projects, commercial projects, building activities on farms, redevelopment of urban areas and all other land uses not specifically exempted. This chapter does not apply to:

(1) Land disturbing activities related to producing agricultural crops or SIViculture operations regulated by the Ohio Agricultural Sediment Pollution Abatement Rules (1501: 15-3-01 to 1501: 15-3-09 of the Ohio Administrative Code) and existing at the time of passage of this chapter.

(2) Strip mining operations regulated by Chapter 1513 of the Ohio Revised Code and existing at the time of passage of this chapter.

(3) Surface mining operations regulated by Chapter 1514 of the Ohio Revised Code and existing at the time of passage of this chapter.

(Ord. 19-2007. Passed 5-8-07.)

1197.04 RIPARIAN AND WETLAND SETBACK REQUIREMENTS.

(a) It is hereby determined that the system of wetlands, riparian areas, rivers, streams, and other natural watercourses within the City contributes to the health, safety, and general welfare of the residents. The specific purpose and intent of this part of this chapter is to regulate uses and developments within riparian and wetland setbacks that would impair the ability of riparian and wetland areas to:

(1) Reduce flood impacts by absorbing peak flows, slowing the velocity of floodwaters, and regulating base flow.

(2) Assist in stabilizing the banks of watercourses to reduce bank erosion and the downstream transport of sediments eroded from watercourse banks.

(3) Reduce pollutants in watercourses during periods of high flows by filtering, settling, and transforming pollutants already present in watercourses.

(4) Reduce pollutants in watercourses by filtering, settling, transforming and absorbing pollutants in runoff before they enter watercourses.

(5) Provide watercourse habitats with shade and food.

(6) Provide habitat to a wide array of aquatic organisms, wildlife, many of which are on Ohio's Endangered and/or Threatened Species listings, by maintaining diverse and connected riparian and wetland vegetation.

- (7) Benefit the City economically by minimizing encroachment on wetlands and watercourse channels and the need for costly engineering solutions such as dams, retention basins, and rip rap to protect structures and reduce property damage and threats to the safety of residents; and by contributing to the scenic beauty and environment of the City, and thereby preserving the character of the City, the quality of life of the residents of the City, and corresponding property values.
- (b) This chapter has been enacted to protect these services of riparian and wetland areas by providing reasonable controls governing structures and uses within a wetland and/or riparian setback along designated watercourses in the City.
- (c) Applicability and Compliance:
- (1) This chapter shall apply to:
 - A. All lands that are within the jurisdiction of the City and that border designated watercourses and wetlands as defined in this chapter.
 - B. This chapter shall apply to property/parcel split plan approvals, site plan approvals, and land development plan approvals requested of the City.
 - C. This chapter shall apply to all building permits, which involve soil disturbing activities.
 - (2) The City shall issue no approvals or permits without full compliance with the terms of this chapter. (Ord. 19-2007. Passed 5-8-07.)

1197.05 ESTABLISHMENT OF DESIGNATED WATERCOURSES AND RIPARIAN SETBACKS.

- (a) Designated watercourses shall include those watercourses meeting any one of the following criteria:
- (1) All watercourses draining an area greater than one-half (1/2) square mile, or
 - (2) All watercourses draining an area less than one-half (1/2) square mile and having a defined bed and bank.
 - (3) In determining if watercourses have a defined bed and bank, the City may consult with a representative of the Cuyahoga SWCD or other technical experts as necessary.
- (b) Riparian setbacks on designated watercourses are established as follows:
- (1) A minimum of three hundred feet (300') on both sides of all watercourses draining an area greater than three hundred (300) square miles.
 - (2) A minimum of one hundred twenty feet (120') on both sides of all watercourses draining an area greater than twenty (20) square miles and up to and including three hundred (300) square miles.
 - (3) A minimum of seventy-five feet (75') on both sides of all watercourses draining an area greater than one-half (1/2) square mile and up to and including twenty (20) square miles.
 - (4) A minimum of twenty-five feet (25') on both sides of all watercourses draining an area less than one-half (1/2) square mile and having a defined bed and bank as determined above.
- (c) Riparian Setback Map:
- (1) The City shall use the latest edition of the official soil survey that shows drainage features, on the paper maps in the back of the book, as the map identifying designated watercourses and their riparian setbacks. The drainage features identified on the paper maps in the official soil survey and the information contained therein shall be believed to be accurate.
 - (2) At the time of application of this chapter, if any discrepancy is found between the Riparian Setback Map and the criteria for designated watercourses or riparian setbacks as set forth in these regulations, the criteria shall prevail.
 - (3) In reviewing and interpreting the maps, the City may consult with a representative of the Cuyahoga SWCD and other technical experts as necessary.
- (d) The following conditions shall apply in riparian and wetland setbacks:
- (1) Riparian and wetland setbacks shall be measured in a perpendicular and horizontal direction outward from the ordinary high water mark of each designated watercourse and defined wetland boundary.
 - (2) Except as otherwise provided in this chapter, riparian and wetland setbacks shall be preserved in their natural state and shall be established and marked in the field prior to any soil disturbing or land clearing activities.
 - (3) Where the one hundred (100) year floodplain is wider than a riparian setback on either or both sides of a designated watercourse, the riparian setback shall be extended to the outer edge of the one hundred (100) year floodplain. The one hundred (100) year floodplain shall be determined by the project engineer conducting a hydrologic analysis of the project area in conformance with standard engineering practices and approved by the City Engineer.
 - (4) Where wetlands are identified within a riparian setback, the minimum riparian setback width shall be extended to the outer boundary of the wetland. In addition, wetlands shall be protected to the extent detailed in this chapter.
 - (5) Wetlands shall be delineated by a site survey approved by the City using delineation protocols accepted by the U.S. Army Corps of Engineers and the Ohio EPA at the time of application of this chapter. If a conflict exists between the delineation protocols of these two agencies, the delineation protocol that results in the most inclusive area of wetland shall apply.
- (e) The applicant or his or her designated representative shall be responsible for delineating riparian and wetland setbacks, including any expansions or modifications as required by this chapter, and identifying these setbacks on all property/parcel splits, commercial development or other land development plans, and/or building permit applications submitted to the City. This delineation may be done by a metes and bounds, or higher level, survey and shall be subject to review and approval by the City. As a result of this review, the City may consult with a representative of the Cuyahoga SWCD or other technical experts as necessary.
- (f) Prior to any soil disturbing activity, riparian and wetland setbacks shall be clearly delineated on site by the applicant or his or her designated representative, and such delineation shall be maintained throughout soil disturbing activities.
- (g) No approvals or permits shall be issued by the City prior to on-site delineation of riparian and wetland setbacks in conformance with this chapter.
- (h) Upon completion of an approved property/parcel split, land development, or other improvement, riparian and wetland setbacks shall be permanently recorded on the plat records of the City. (Ord. 19-2007. Passed 5-8-07.)

1197.06 ESTABLISHMENT OF WETLAND SETBACKS.

- (a) Wetland setbacks are established as follows:
- (1) A minimum of one hundred twenty feet (120') surrounding and including all Ohio EPA Category 3 Wetlands, or current equivalent Ohio EPA classification.
 - (2) A minimum of seventy-five feet (75') surrounding and including all Ohio EPA Category 2 Wetlands, or current equivalent Ohio EPA classification. (Ord. 19-2007. Passed 5-8-07.)

1197.07 PROCEDURES FOR WETLAND SETBACKS.

- (a) No change to parcel boundaries or land use:
- (1) Upon filing a request for a building permit that does not involve changing of any parcel boundaries or changes in land use, the applicant will check for indicators of wetlands on the National Wetlands Inventory maps, and Ohio Wetlands Inventory map, and the Cuyahoga County Wetlands Inventory (if applicable). A photo copy of the applicable section of each map will be attached to the permit application.
 - (2) If a potential wetland is shown on any of the maps or if there is reason for the City to believe that an unmapped wetland exists on or within one hundred feet (120') of the project site the applicant will retain a qualified wetland professional to evaluate the proposed project site for wetlands or wetland buffer areas. If no wetland or wetland buffer areas are found, the applicant shall submit a letter from the qualified wetland professional with the preliminary plat or permit application verifying his or her negative findings.
- (b) New residential or commercial or other type development and projects involving a change to parcel boundaries or a land use change:
- (1) Upon filing a request for approval of a preliminary plat or building permit for new residential, commercial or other type of development that involves changes in any parcel boundaries or changes in land use, the applicant or his or her designated representative shall retain a qualified wetland professional to survey the proposed development site for wetlands. If no wetlands are found, the applicant or his or her designated representative shall submit a letter with the preliminary plat or permit application verifying that a qualified wetland professional has surveyed the site and found no wetlands. If wetlands are found, the following procedures shall be followed:
 - (2) A qualified wetland professional, acceptable to the City Engineer, shall determine the presence of Ohio EPA Category 2 or 3 wetlands (or current equivalent Ohio EPA classification) on the proposed development site using the latest version of the Ohio Rapid Assessment Method for wetland evaluation approved at the time of application of this chapter. Acceptance of this determination shall be subject to approval by the City Engineer.
 - (3) If Ohio EPA Category 2 or 3 wetlands (or current equivalent Ohio EPA classification) are located on the proposed development site, the applicant or his or her designated representative shall delineate these wetlands and the wetland setback in conformance with this chapter. The applicant or his or her designated representative shall identify all delineated wetlands and their associated setbacks on all property/parcel split plans, land development plans, and/or permit applications submitted to the City.
 - A. Wetlands shall be delineated by a site survey, approved by the City, using delineation protocols accepted by the US Army Corps of Engineers and the Ohio EPA at the time of application of this chapter. If a conflict exists between the delineation protocols of these two agencies, the delineation protocol that results in the most inclusive area of wetland shall apply.
 - B. Wetland setbacks shall be delineated through a metes and bounds, or higher level, survey subject to approval by the City.
 - (4) Prior to any soil or vegetation disturbing activity, the applicant or his or her designated representative shall delineate wetland setbacks on the development site in such a way that they can be clearly viewed, and such delineation shall be maintained throughout construction.
 - (5) No approvals or permits shall be issued by the City prior to delineation of wetland setbacks in conformance with this chapter.
- (c) Upon completion of an approved property/parcel split, commercial development or other land development or improvement, riparian and wetland setbacks shall be permanently recorded on the plat records for the City and shall be maintained as open space thereafter through a permanent conservation easement. A third party, not the landowner or permittee or the City, that is allowed by state law shall be given the conservation easement. If no third party will accept the conservation easement, the City shall accept it and protect it in perpetuity. (Ord. 19-2007. Passed 5-8-07.)

1197.08 USES PERMITTED IN RIPARIAN AND WETLAND SETBACKS.

- (a) By-Right Uses Without A Permit: Open space uses that are passive in character shall be permitted in riparian and wetland setbacks, including, but not limited to, those listed in this chapter. No use permitted under this chapter shall be construed as allowing public trespass on privately held lands.
- (1) Recreational Activity. Passive recreational uses, as permitted by federal, state, and local laws, such as hiking, fishing, hunting, picnicking, and similar uses.
 - (2) Removal of Damaged or Diseased Trees. Damaged or diseased trees may be removed.
 - (3) Revegetation and/or Reforestation. Riparian and wetland setbacks may be revegetated with non-invasive plant species.
 - (4) Maintenance of lawns, gardens and landscaping. Lawns, gardens and landscaping, that existed at the time this chapter was enacted, may be maintained as long as they are not increased in size.
- (b) By-Right Uses With A Permit:
- (1) Selective Harvesting of Timber. Selective harvesting of timber may be allowed upon presentation of a Forest Management and Harvest Plan prepared by a Qualified Forester and accepted by the City Engineer.
 - A. Any landowner harvesting timber for sale shall post a one thousand dollar (\$1,000) performance guarantee with the City. This performance guarantee shall be in the form of a Security Bond, Escrow Account, Certified Check or Cash, and it shall be held until completion of the timber-harvesting operation.
 - B. Due to the potential for felled logs and branches to damage downstream properties and/or to block ditches or otherwise exacerbate flooding, logs or branches resulting from permitted selective harvesting that are greater than six inches (6") in diameter at the cut end shall be cut into sections no longer than six feet (6') or removed from the one hundred (100) year floodplain. Harvested trees or felled logs and branches that are part of a designed and approved Streambank Stabilization and Erosion Control Measure shall be allowed to remain in a designated watercourse.
 - C. The Forest Management and Harvest Plan must:
 1. Show that the site will be adequately stocked after the approved selective harvest. "Adequately stocked" shall be defined as the residual stocking level greater than the B- Level on the Allegheny Hardwood Stocking Guide produced by the United States Forest Service, or other United States Forest Service stocking guides as dictated by the forest community to be harvested.
 2. Show that trees located less than twenty-five feet (25') from the ordinary high water mark will not be impacted by the proposed harvesting.
 3. Include a map of the site. This map shall specify the location of any skid and haul roads required for transporting harvested trees and fire wood from riparian and wetland setbacks.
 4. Include the method to be used to transport harvested trees from riparian and wetland setbacks.
 5. Specify the erosion control Best Management Practices that will be employed during and after the proposed harvest. These erosion control practices shall be in conformance with the Ohio Department of Natural Resources, Division of Forestry's BMPs for Erosion Control on Logging Jobs in Ohio.
 6. Provide the US Army Corps of Engineers and the Ohio EPA Wetland and Stream protection permit numbers and the associated permit requirements.
 - (2) Streambank Stabilization and Erosion Control Measures. Streambank stabilization and erosion control measures may be allowed provided that such measures are ecologically compatible and substantially utilize natural materials and native plant species where practical. The streambank stabilization and erosion control measures shall only be undertaken upon approval of an Soil Erosion and Sediment Control Plan by the City.
 - (3) Crossings. Crossings of designated watercourses and through riparian setbacks by publicly and privately owned sewer and/or water lines and public and private utility transmission lines shall only be allowed upon

approval of a Crossing Plan by the City Engineer. Such crossings shall minimize disturbance in riparian setbacks and shall mitigate any necessary disturbances. Erosive materials will not be used in making stream crossings.

(Ord. 19-2007. Passed 5-8-07.)

1197.09 USES PROHIBITED IN RIPARIAN AND WETLAND SETBACKS.

Any use not authorized under this chapter shall be prohibited in riparian and wetland setbacks. By way of example, the following uses are specifically prohibited; however, prohibited uses are not limited to those examples listed here.

- (a) Construction. There shall be no structures of any kind.
- (b) Dredging or Dumping. There shall be no drilling, filling, dredging, or dumping of soil, spoils, liquid, or solid materials, except for non-commercial composting of uncontaminated natural materials, and except as permitted under the USES PERMITTED IN RIPARIAN AND WETLAND SETBACKS section of this chapter.
- (c) Roads or Driveways. There shall be no roads or driveways permitted in riparian and/or wetland setback area, except as permitted under the USES PERMITTED IN RIPARIAN AND WETLAND SETBACKS section of this chapter. There shall be no roads or driveways or roads permitted in wetlands or watercourses without a permit issued by the US Army Corps of Engineers and/or the Ohio EPA.
- (d) Motorized Vehicles. There shall be no use of motorized vehicles, except as permitted under the USES PERMITTED IN RIPARIAN AND WETLAND SETBACKS section of this chapter.
- (e) Disturbance of Natural Vegetation. There shall be no disturbance, including mowing, of the natural vegetation, except for such conservation maintenance that the landowner deems necessary to control noxious weeds; for such plantings as are consistent with this chapter; for such disturbances as are approved under the USES PERMITTED IN RIPARIAN AND WETLAND SETBACKS section of this chapter; and for the passive enjoyment, access, and maintenance of landscaping or lawns existing at the time of passage of this chapter. Nothing in this chapter shall be construed as requiring a landowner to plant or undertake any other activities in riparian and wetland setbacks.
- (f) Parking Lots. There shall be no parking lots or other human-made impervious cover, except as permitted under the USES PERMITTED IN RIPARIAN AND WETLAND SETBACKS section of this chapter.
- (g) New Surface and/or Subsurface Sewage Disposal or Treatment Areas. Riparian and wetland setbacks shall not be used for the disposal or treatment of sewage except in accordance with Cuyahoga County Board of Health regulations in effect at the time of application of this chapter.
- (h) Crossings. Crossings of designated riparian and wetland setbacks by publicly and privately owned sewer and/or water lines and small public and small private utility transmission lines without a permit issued by the US Army Corps of Engineers and/or the Ohio EPA.

(Ord. 19-2007. Passed 5-8-07.)

1197.10 NON-CONFORMING STRUCTURES OR USES IN RIPARIAN AND WETLAND SETBACKS.

(a) A non-conforming use within a riparian and wetland setback which is in existence at the time of passage of this chapter, and which is not otherwise permitted under this chapter, may be continued. However, the use shall not be changed or enlarged unless it is changed to a use permitted under this chapter.

(b) A non-conforming structure within a riparian and wetland setback which is in existence at the time of passage of this chapter, and which is not otherwise permitted under this chapter, may be continued. However, the existing building footprint or roofline may not be expanded or enlarged in such a way that would move the structure closer to the stream or wetland.

(c) A non-conforming structure or use or deteriorated structure within a riparian and wetland setback which is in existence at the time of passage of this chapter, and which is discontinued, terminated, or abandoned for a period of six (6) months or more, may not be revived, restored, or re-established.

(d) A non-conforming structure or use that is discontinued may be resumed any time within six (6) months from such discontinuance but not thereafter. No change or resumption shall be permitted that is more detrimental to riparian and wetland setbacks, as measured against the intent and objectives of this chapter as determined by the City, than the existing or former non-conforming structure or use.

(Ord. 19-2007. Passed 5-8-07.)

1197.11 VARIANCES WITHIN RIPARIAN AND WETLAND SETBACKS.

(a) The City may grant a variance from this chapter as provided herein. In determining whether there is unnecessary hardship or practical difficulty such as to justify the granting of a variance, the City shall consider the potential harm or reduction in riparian and/or wetland area functions that may be caused by a proposed structure or use.

(b) In making a variance determination, the City shall consider the following:

(1) Varying the front, rear and side yard setback before the riparian and wetland setbacks are varied.

(2) Variances should not be granted for asphalt or concrete paving in the riparian and wetland setbacks in any situation where gravel or porous pavement (i.e., porous pavers, and similar products) will do the job.

(c) In making a variance determination, the City may consider the following:

(1) A parcel existing at the time of passage of this chapter is made unbuildable.

(2) The soil type natural vegetation of the parcel, as well as the percentage of the parcel that is in the one hundred (100) year floodplain. The criteria of the City's flood damage prevention regulations may be used as guidance when granting variances in the one hundred (100) year floodplain.

(3) The extent to which the requested variance impairs the flood control, soil erosion control, sediment control, water quality protection, or other functions of the riparian and/or wetland area. This determination shall be based on sufficient technical and scientific data.

(4) The degree of hardship this chapter places on the landowner, and the availability of alternatives to the proposed activity.

(5) Soil disturbing activities permitted in a riparian and/or wetland setback through variances should be implemented in order to minimize clearing to the extent possible, and to include Best Management Practices necessary to minimize soil erosion and maximize sediment control.

(6) The presence of significant impervious cover, or smooth vegetation such as maintained lawns, in riparian setback areas compromises their benefits to the City.

(7) A reduction in storm water infiltration into the soil in wetland areas will occur.

(8) A requested above ground fence does not increase the existing area of mowed grass or lawn.

(Ord. 19-2007. Passed 5-8-07.)

1197.12 BOUNDARY INTERPRETATION AND APPEALS PROCEDURE.

(a) When an applicant or his or her designated representative disputes the boundary of a riparian or wetland setback or the ordinary high water mark of a watercourse, the applicant or his or her designated representative shall submit documentation to the City which describes the boundary, the applicant's proposed boundary, and justification for the proposed boundary change.

(b) The City shall evaluate this documentation and shall make a written determination within a reasonable period of time, not to exceed sixty (60) days, a copy of which shall be submitted to the applicant. If during this evaluation the City requires further information, it may be required of the applicant. In the event that the City requests such additional information, the sixty (60) day limit on the City's review shall be postponed until the applicant provides such information.

(c) Any party aggrieved by any wetland or riparian setback determination under this chapter may appeal to the Zoning Board of Appeals.

(Ord. 19-2007. Passed 5-8-07.)

1197.13 INSPECTION OF RIPARIAN AND WETLAND SETBACKS.

(a) The delineation of riparian and/or wetland setbacks shall be inspected by the City, as follows:

(1) Prior to any soil disturbing activities for a property/parcel split, land development plan and/or building permit authorized by the City, the applicant or his or her designated representative shall provide the City with at least five (5) working days notice prior to starting soil disturbing or land clearing activities.

(2) Prior to starting any of the activities authorized by the City under the USES PERMITTED IN RIPARIAN AND WETLAND SETBACKS section of this chapter, the applicant or his or her designated representative shall provide the City with at least five (5) working days notice prior to starting such activities.

(3) Any time evidence is brought to the attention of the City that uses or structures are occurring that may reasonably be expected to violate the provisions of this chapter.

(Ord. 19-2007. Passed 5-8-07.)

1197.14 FEDERAL AND STATE LAWS.

In addition to complying with the provisions of this chapter, the applicant shall also comply with all applicable federal and state regulations, including permitting requirements, regarding riparian areas and wetlands.

(Ord. 19-2007. Passed 5-8-07.)

1197.15 VIOLATIONS.

No person shall violate, or cause, or knowingly permit to be violated, any of the provisions of this chapter, or fail to comply with any such provisions or with any lawful requirements of any public authority made pursuant to this chapter, or knowingly use or cause or permit the use of any lands in violation of this chapter or in violation of any permit granted under this chapter.

(Ord. 19-2007. Passed 5-8-07.)

1197.99 PENALTIES.

(a) Whoever violates or fails to comply with any provision of this chapter is guilty of a misdemeanor of the first degree and shall be fined no more than one thousand dollars (\$1,000.00) or imprisoned for no more than one hundred eighty (180) days, or both, for each offense.

(b) A separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(c) Upon notice from the City Engineer, or designated representative, that work is being performed contrary to this chapter, such work shall immediately stop. Such notice shall be in writing and shall be given to the owner or person responsible for the development area, or person performing the work, and shall state the conditions under which such work may be resumed; provided, however, in instances where immediate action is deemed necessary for public safety or the public interest, the City Engineer may require that work be stopped upon verbal order pending issuance of the written order.

(d) The imposition of any other penalties provided herein shall not preclude the City, by or through its Law Director and/or any of his or her assistants, from instituting an appropriate action or proceeding in a Court of Proper Jurisdiction to prevent an unlawful development or to restrain, correct or abate a violation, or to require compliance with the provisions of this chapter or other applicable laws, or ordinances, rules or regulations or the orders of the City Engineer.

(Ord. 19-2007. Passed 5-8-07.)

CHAPTER 1198

Protected Hillside Zone

1198.01 Intent.

1198.02 Definitions.

1198.03 Protected Hillside Zone Map.

1198.04 Criteria to determine Protected Hillside Zone.

1198.05 Applicability.

1198.06 Administration and enforcement.

1198.07 Required hillside control measures.

1198.08 Schedule of fees and deposits.

1198.09 Appeals.

1198.10 Enforcement.

1198.99 Penalty.

CROSS REFERENCES

Erosion and sediment control - see P. & Z. Ch. 1195
Riparian areas and wetlands - see P. & Z. Ch. 1197

1198.01 INTENT.

Whereas, the Protected Hillside Zone areas of this City differ from other areas of the City because the hillsides and unique scenic resources and scenic river areas necessitate different provisions for their development and their protection; and

Whereas, the Protected Hillside Zone regulations are established to achieve, among others, the following objectives:

- (a) To protect the public and private property owners from the potential damage to human life and safety and property damage that could potentially be caused by increased hillside instability.
- (b) To assure access to properties within the Protected Hillside Zone by emergency police and fire vehicles to protect persons and property.
- (c) To preserve and protect the unique scenic resources and scenic river habitats in the Protected Hillside Zone.
- (d) To preserve and protect the valuable hydrologic systems, fragile hillside and valuable flora and fauna in the Protected Hillside Zone.
- (e) To permit, subject to the best available technology, development on Protected Hillside Zone areas while conserving and promoting the public health, safety, convenience and general welfare by minimizing problems due to water runoff and soil erosion problems incurred in adjustment of the topography to meet developmental needs.
- (f) To use the best accepted design, landscape architecture, architecture, civil engineering and hydrological engineering to preserve, enhance and promote the existing and future appearance and resources in Protected Hillside Zone areas.
- (g) To preserve and enhance the natural beauty of Protected Hillside zones by encouraging the maximum retention of natural topographical features such as natural drainage swales, streams, slope ridge lines, rock outcroppings, vistas from and of hillside, trees and other natural plant formations and retain the sense of identity and image that the Protected Hillside Zone areas now impart to the City.
- (h) To complement the other actions of this Council including the enactment of a storm water management ordinance and an erosion and sediment control ordinance.

(Ord. 19-2007. Passed 5-8-07.)

1198.02 DEFINITIONS.

For purposes of this chapter, the following terms shall have the meaning herein indicated:

- (a) "Cut" means a portion of land surface or area from which the earth has been removed or will be removed by excavation.
- (b) "Owner/developer/builder/occupant" means an individual, firm, association, syndicate, partnership or corporation having sufficient proprietary interest to seek development of land.

(Ord. 19-2007. Passed 5-8-07.)

1198.03 PROTECTED HILLSIDE ZONE MAP.

The City Building Commissioner, in consultation with the City Engineer, and such other professionals including one or more civil engineers, hydrological and geotechnical engineers, botanists, biologists and landscape architects as he or she may deem necessary, shall create a map suggesting and attempting to identify the Protected Hillside Zone(s) of the City. Said map shall be published as a convenient reference document and the information contained therein shall be believed to be accurate; however, the City shall not certify the accuracy of the map and shall assume no liability or responsibility for discrepancies between the map and the criteria for the Protected Hillside Zone as set forth in Section 1198.04. Said map shall become a guide only after it has been reviewed by the Planning and Zoning Commission and approved by resolution of Council, after public notice and hearing.

(Ord. 19-2007. Passed 5-8-07.)

1198.04 CRITERIA TO DETERMINE PROTECTED HILLSIDE ZONE.

The Protected Hillside Zone contains one or more of the following criteria:

- (a) Areas that exhibit evidence of past or present unstable soil.
- (b) Areas having slopes with a natural gradient within the limits set forth in Table 1.
- (c) All areas that exhibit evidence of the presence of Geeburg soils, based on the most recent Cuyahoga County soil survey maps or by soil surveys performed by the applicant done by a certified soils specialist.

(Ord. 19-2007. Passed 5-8-07.)

1198.05 APPLICABILITY.

(a) No owner, developer, builder or occupant shall make changes of any land proposed to be subdivided, developed or changed in use by grading, excavating or by their removal or destruction of any natural vegetation or the removal of any topsoil, trees or other vegetation covering thereon within the Protected Hillside Zone as defined in Section 1198.04 without first having obtained a permit from the Building Commissioner authorizing such activity in the Protected Hillside Zone. No permit shall be issued by the Building Commissioner unless it has been reviewed and approved by the Planning and Zoning Commission.

(b) This chapter shall not be interpreted to prohibit normal landscaping, gardening, maintenance or routine arboreal activities or to prohibit small scale planting of ornamental flowers or shrubs or the removal of diseased, dead or damaged trees or trees which are a threat to the health and safety of the owner of the property. However, such activity shall be carried out in the conformance with the standards of vegetation or revegetation of this chapter.

(c) Where Geeburg soils are present in the area of proposed disturbance as defined in Section 1198.04(c), no earth disturbing activity shall take place within the Hillside Protection Zone as defined in Table 1.

The area of proposed disturbance shall include any area that will be subjected to paving installation of sidewalks, construction of structures or other man made improvements.

(Ord. 19-2007. Passed 5-8-07.)

1198.06 ADMINISTRATION AND ENFORCEMENT.

All applications for Protected Hillside Zone permits shall be submitted to the Building Commissioner. The Building Commissioner shall prepare forms necessary for such application. The Building Commissioner shall review the application to insure the application has information required by Section 1198.07. In connection with such review, the Building Commissioner is authorized to consult and obtain opinions from such other professionals as the City Engineer, hydrological and geotechnical engineers, botanists, biologists and landscape architects as he may deem necessary. No Protected Hillside Zone permit shall be issued until the application, together with the report of the Building Commissioner, has been reviewed and approved by the Planning and Zoning Commission.

(Ord. 19-2007. Passed 5-8-07.)

1198.07 REQUIRED HILLSIDE CONTROL MEASURES.

The following standards and procedures shall be applied by the Building Commissioner and Planning and Zoning Commission in reviewing an application for issuance of a permit in the Protected Hillside Zone.

(a) Maps and Data. Maps and data, either separate or combined, should be provided as follows:

- (1) Vicinity Map. A print, showing the location of the proposed subdivision and its relationship to adjacent developments streets and community facilities which serve or influence it.
 - (2) Property line map. A drawing, showing bearings and distances of the parcel to be subdivided, location, width and purpose of easements, the name, width and location of abutting streets including location of pavements and sidewalks, structures on the parcel and within one hundred feet (100') on adjoining property.
 - (3) Topographic map. A drawing, showing contours at two foot (2') intervals based on the County datum plane. It shall show approximate direction and gradient of ground slope on immediately adjacent land; indicate subsurface condition of tract; and show watercourses, marshes, wooded areas, isolated preservable trees and other significant features. The topography shall be at the same scale as the preliminary plan. In addition to those requirements this drawing will clearly indicate the limits of the Protected Hillside Zone.
- (b) Site Plan. A site plan, superimposed on the topographic and property line map, should show the following:
- (1) Improvements plan. Must depict the location of all improvements and impervious surfaces with a clear indication of their relationship to the Protected Hillside Zone, including, but not limited to, all structures, utilities, septic systems, driveways, terraces, tennis courts, pools, etc.
 - (2) Grading plan. Must show proposed contours and shall list the total amount of cut and fill and shall show the extent of all cut and fill operations.
 - (3) Profiles. The City reserves the right to request profiles and/or cross sections that will indicate proposed and existing grades.
 - (c) Geotechnical Report. A geotechnical report by a qualified geotechnical engineer, that addresses all factors pertinent to site stability, both present and future, will be required by the City, and shall include the following:

- (1) Present stability evaluation. An evaluation of the present stability of the site, based on field exploration that includes test borings, followed by lab testing and stability analysis.
 - (2) Future stability evaluation. An evaluation of the effect of the planned construction on stability based on the findings in subsection (c)(1) above.
 - (3) Recommended strategies. Detailed strategies to insure that existing or potential instabilities will be mitigated.
- (d) Control of Erosion and Sedimentation. Plans shall meet the standards of Chapter 1195, Erosion and Sediment Control.
- (e) Vegetation Management Report. A vegetation removal and revegetation report shall be submitted by a registered landscape architect, and it will address the following:
- (1) Vegetation Inventory. A site plan showing the general limits of the various kinds of vegetation (wood lot, meadow, etc.), the locations of all trees nine inch (9") or greater caliper fourteen inches (14") above ground level (including their genus, species and condition) that are within fifty feet (50') of the limits of the area proposed to be disturbed; location and type of vegetation to be destroyed; location and type of vegetation to be removed due to health, safety and welfare requirements.
 - (2) Landscaping plan. A landscape plan, prepared or approved in writing by a professional registered landscape architect trained and experienced in both the characteristics of plant material and proper procedures for installation, shall be submitted with each application for a Hillside Protection Zone permit.
- (f) Gradients. The following standards will be applied to the Protected Hillside Zone:
- (1) Driveways. No driveways will exceed a maximum gradient of ten percent (10%).
 - (2) Embankments. Fill areas may not exceed three feet (3') horizontal to one foot (1') vertical slope.
 - (3) Excavations. Cut areas may not exceed a two and one half (2-1/2) horizontal to one foot (1') vertical slope.
- (g) Miscellaneous. Septic systems. Leach beds may not be located on slopes in excess of four feet (4') horizontal to one foot (1') vertical slope.

(Ord. 19-2007. Passed 5-8-07.)

1198.08 SCHEDULE OF FEES AND DEPOSITS.

(a) At the time of filing the application for a Protected Hillside Zone permit, there shall be paid to the Treasurer a filing fee in the amount of fifty dollars (\$50.00). There shall also, at such time, be deposited with the Treasurer and thereafter maintained on deposit the amount of one thousand dollars (\$1,000) or such larger or lesser amount as may be determined by the Building Commissioner based on his estimate of the costs to be incurred by the City in reviewing the application for permit and to insure payment by the applicant of expenses incurred by the City in the processing of the application and all pertinent papers connected therewith.

(b) The cost and expense of any investigation which may be necessary by the Building Commissioner, City Engineer, hydrological and geotechnical engineers, botanists, biologists, landscape architects and the Director of Law and such other City officials to determine whether the proposed application is in accordance with law, the cost of any and all notices required, and all other necessary expenses shall be paid by the owner, developer or builder.

(c) The actual expenditures shall be paid by the applicant upon demand of the Treasurer. The unexpended balance of the deposit shall be refunded to the applicant upon completion of all administrative proceedings involved in connection therewith. No filing fee shall be refunded or returned. No permits shall be issued until any amounts required to be paid by the applicant have been paid.

(Ord. 19-2007. Passed 5-8-07.)

1198.09 APPEALS.

If any person is aggrieved by any provisions of this chapter, final determination of the Building Commissioner or Planning and Zoning Commission, said person may appeal to Council. Such appeal shall be taken within thirty (30) days after the decision appealed from by filing with the Building Commissioner and with the Clerk of Council a notice of appeal specifying the grounds therefor. The Building Commissioner shall forthwith transmit to Council all papers constituting the record upon which the action appealed was taken.

(Ord. 19-2007. Passed 5-8-07.)

1198.10 ENFORCEMENT.

(a) In the event that work performed does not conform with the provisions of the Protected Hillside Zone permit, a written notice to comply shall be served upon the owner, developer, builder or occupant. Such notice shall set forth the nature of the correction required and the time within which correction shall be made. Failure to comply with such notice shall result in the issuance of a stop work order applicable to all activity except that necessary for correction of the violation. Upon correction of the violation, the stop work order shall be voided and all permitted activity may resume.

(b) In the event of a continued violation of the approved Protected Hillside Zone permit, a public hearing on the matter shall be conducted by the Planning and Zoning Commission. Written notice of such hearing shall be served upon the owner, developer, builder or occupant by registered mail and shall state:

- (1) The grounds of the complaint;
- (2) The time and place such hearing is to be held.

Such notice shall be served at least fifteen days prior to the date set for the hearing. At any such hearing, the owner, developer, builder or occupant shall be given an opportunity to be heard and he may call witnesses and present evidence on his behalf.

If, after such hearing, the Planning and Zoning Commission concludes that the issuance of additional corrective notices would be futile, any bonds or cash deposits posted with the City shall be forfeited, whereupon such security shall be used for completion of the Protected Hillside Zone permit as approved. Any additional costs incurred by the City shall be certified to Council for certification to the County Auditor for placement as a lien upon the property under authority of Ohio R.C. 715.47.

(c) In the case of a real and present emergency, the Building Commissioner shall refer the matter to the Director of Law who shall institute an appropriate action at law.

(Ord. 19-2007. Passed 5-8-07.)

1198.99 PENALTY.

The owner, developer, builder or occupant or any person who is found guilty of violating any provision of this chapter shall, were no other penalty is provided, be guilty of a misdemeanor of the first degree and shall be fined no more than one thousand dollars (\$1,000.00) or be imprisoned no more than one hundred eighty (180) days, or both, for each offense. A separate offense shall be deemed committed each day during or on which a violation occurs or continues.

(Ord. 19-2007. Passed 5-8-07.)

Building Inspector established - see ADM. 145.02

1301.01 ADOPTION OF STATE STANDARDS.

(a) In addition to all the conditions and requirements of this Building Code, the requirements of the Ohio Building Code as adopted by the Ohio Board of Building Standards, effective January 1, 2002, and as published in Division 4101:1 of the Ohio Administrative Code for all occupancies named in such Code shall represent the minimum requirements for all buildings proposed to be constructed and erected in the City, other than those excepted in Ohio Building Code. Such requirements are hereby incorporated and made a part of the Building Code of the City as if the same were written into such Building Code in their entirety.

(b) The same are hereby intended to be adopted within the City in their most current edition or amendment including all additions, deletions and amendments made subsequent hereto, and the same are incorporated as if fully set out at length.

(Ord. 8-2003. Passed 3-11-03.)

1301.02 FILE AND DISTRIBUTION COPIES.

One copy of the Ohio Building Code shall be filed as a part of the ordinance records of the City and the same are adopted and incorporated as fully as if set out at length herein, and from the date on which this chapter shall take effect the provisions thereof shall be controlling in the construction of all buildings and structures except one, two and three-family dwellings and appurtenant structures contained within the City. One copy of each of the documents shall also be on file in the Cuyahoga County Law Library and the Clerk shall have copies available for distribution to the public at cost.

(Ord. 8-2003. Passed 3-11-03.)

1301.03 DEFINITIONS.

Wherever titles, words and phrases are used in portions of the regulations adopted in Section 1301.01 , such terms shall be construed to mean the equivalent officer, word or phrase applicable to the City.

(Ord. 8-2003. Passed 3-11-03.)

1301.04 CONFLICT OF LAWS.

In the event of a conflict between any of the provisions of the Ohio Building Code and a provision of any other standard technical code adopted by the City or any local ordinance, resolution, rule or regulation, the stricter standard shall control.
(Ord. 8-2003. Passed 3-11-03.)

1301.05 ENFORCEMENT.

(a) The Commissioner of Building, Zoning and Housing (Building Commissioner) or the Commissioner's designee shall have authority to approve plans and enforce the provisions of the regulations adopted in this chapter, and all of the provisions of such documents shall be administered by the Building Commissioner or the Commissioner's designee. The Building Commissioner and a properly certified fire safety inspector shall have authority to administer and enforce the provisions of Chapter 1501 of the Codified Ordinances.

(b) The position of Fire Safety Inspector, as the position is used in Chapter 1501 of the Codified Ordinances, shall administer and enforce the provisions of Chapter 1501 of the Codified Ordinances within the Division of Building, Zoning and Housing, and under the supervision of the Building Commissioner. (Ord. 113-2014. Passed 1-27-15.)

1301.99 PENALTY; EQUITABLE REMEDIES.

(a) Whoever violates or fails to comply with any of the provisions of the Ohio Building Code, as adopted in Section 1301.01, is guilty of a misdemeanor of the first degree for each offense. Unless otherwise provided, a separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(b) The application of the penalty provided in subsection (a) hereof shall not be deemed to prevent the enforced removal of prohibited conditions, or application of any other equitable remedy.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1302

Ohio Plumbing Code

1302.01 Adoption of State standards.

1302.02 File and distribution copies.

1302.03 Definitions.

1302.04 Conflict of laws.

1302.05 Enforcement.

1302.99 Penalty; equitable remedies.

CROSS REFERENCES

Adoption of technical codes - see Ohio R.C. 731.231

1302.01 ADOPTION OF STATE STANDARDS.

(a) For the purpose of establishing uniform standards for the installation of all plumbing devices, equipment and facilities in the City, the requirements of the Ohio Plumbing Code as adopted by the Ohio Board of Building Standards, effective January 1, 2002, and as published in Division 4101:3 of the Ohio Administrative Code (OAC) shall govern the general regulations regarding the design and installation of plumbing not specific to other chapters of the Building Code. Such requirements are hereby incorporated and made a part of the Building Code of the City as if the same were written into such Building Code in their entirety.

(b) The same are hereby intended to be adopted within the City in their most current edition or amendment including all additions, deletions and amendments made subsequent hereto, and the same are incorporated as if fully set out at length.

(Ord. 8-2003. Passed 3-11-03.)

1302.02 FILE AND DISTRIBUTION COPIES.

One copy of the Ohio Plumbing Code shall be filed as a part of the ordinance records of the City and the same are adopted and incorporated as fully as if set out at length herein, and from the date on which this chapter shall take effect the provisions thereof shall be controlling within the City. One copy of each of the documents shall also be on file in the Cuyahoga County Law Library and the Clerk shall have copies available for distribution to the public at cost.

(Ord. 8-2003. Passed 3-11-03.)

1302.03 DEFINITIONS.

Wherever titles, words and phrases are used in portions of the regulations adopted in Section 1302.01, such terms shall be construed to mean the equivalent officer, word or phrase applicable to the City.

(Ord. 8-2003. Passed 3-11-03.)

1302.04 CONFLICT OF LAWS.

In the event of a conflict between any of the provisions of the Ohio Plumbing Code and a provision of any other standard technical code adopted by the City or any local ordinance, resolution, rule or regulation, the stricter standard shall control.

(Ord. 8-2003. Passed 3-11-03.)

1302.05 ENFORCEMENT.

The Commissioner of Building, Housing and Zoning (Building Commissioner) or the Commissioner's designee shall have authority to approve plans and enforce the provisions of the regulations adopted in this chapter, and all of the provisions of such documents shall be administered by the Building Commissioner or the Commissioner's designee.

(Ord. 8-2003. Passed 3-11-03.)

1302.99 PENALTY; EQUITABLE REMEDIES.

(a) Whoever violates or fails to comply with any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each offense. Unless otherwise provided, a separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(b) The application of the penalty provided in subsection (a) shall not be deemed to prevent the enforced removal of prohibited conditions or the application of any other equitable remedy.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1303

International Residential Code

1303.01 Adoption.

1303.02 File and distribution copies.

1303.03 Definitions.

1303.04 Enforcement.

1303.05 Appeals.

1303.99 Penalty; equitable remedies.

1303.01 ADOPTION.

(a) For the purpose of establishing rules and regulations for the construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, maintenance, removal and demolition of all detached one, two and three-family dwellings and appurtenant structures which are not constructed as industrialized units, including permits and penalties, the building code known as the Residential Code of Ohio for One-, Two-, and Three- Family Dwellings as adopted by the Ohio Board of Building Standards pursuant to R.C. 3781.10 is hereby adopted.

(b) The same is hereby intended to be adopted within the City in its most current edition or amendment and the same is incorporated as if fully set out at length herein.

(Ord. 8-2007. Passed 1-23-07.)

1303.02 FILE AND DISTRIBUTION COPIES.

One copy of the Residential Code of Ohio for One-, Two- and Three-Family Dwellings shall be filed as a part of the ordinance records of the City and the same are adopted and incorporated as fully as if set out at length herein, and from the date on which this chapter shall take effect the provisions thereof shall be controlling in the construction of all one, two and three- family dwellings and appurtenant structures contained within the City. One copy of such Code shall also be on file in the Cuyahoga County Law Library and the Clerk shall have copies available for distribution to the public at cost.

(Ord. 8-2007. Passed 1-23-07.)

1303.03 DEFINITIONS.

Wherever titles, words and phrases are used in portions of the Residential Code of Ohio for One-, Two-, and Three-Family Dwellings adopted in Section 1303.01, such terms shall be construed to mean the equivalent officer, word or phrase applicable to the City.

(Ord. 8-2007. Passed 1-23-07.)

1303.04 ENFORCEMENT.

The Commissioner of Building, Housing and Zoning (Building Commissioner) or the Commissioner's designee shall have authority to issue plan approvals and to administer and enforce the provisions of this chapter.

(Ord. 8-2007. Passed 1-23-07.)

1303.05 APPEALS.

The Board of Zoning Appeals shall hear all appeals from the orders, determinations and decisions of the Building Commissioner or the Commissioner's designee relative to the application and interpretation of this chapter as provided for in Chapter 1185 of the Codified Ordinances.

(Ord. 8-2007. Passed 1-23-07.)

1303.99 PENALTY; EQUITABLE REMEDIES.

(a) Whoever violates or fails to comply with any of the provisions of the Residential Code of Ohio for One-, Two-, and Three-Family Dwellings, as adopted in Section 1303.01, is guilty of a misdemeanor of the first degree for each offense. Unless otherwise provided, a separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(b) The application of the penalty provided in subsection (a) shall not be deemed to prevent the enforced removal of prohibited conditions or the application of any other equitable remedy.

(Ord. 8-2007. Passed 1-23-07.)

CHAPTER 1304

Local Regulations

1304.01 Work exempt from approval.

1304.02 Expiration of approval.

1304.03 Climatic and geographic design criteria.

1304.04 Opening protection.

1304.05 Detached accessory structures.

1304.06 Floor surface.

- 1304.07 Minimum depth, detached garage.
- 1304.08 Foundation walls above finished grade.
- 1304.09 Concrete or masonry foundations.
- 1304.10 Clear height.
- 1304.11 Floor.
- 1304.12 Concrete floors, general.
- 1304.13 Exterior wall sheathing.
- 1304.14 Roof and ceiling construction requirements.
- 1304.15 Installation of wood structural panel sheathing.
- 1304.16 Roof drainage.
- 1304.17 Attached garages.
- 1304.18 Sump pump outlets.
- 1304.19 Underground service conductors.
- 1304.20 Enforcement.
- 1304.21 Appeals.
- 1304.22 Separability.

1304.01 WORK EXEMPT FROM APPROVAL.

Approvals shall not be required for the following:

- (a) Building:
 - (1) Painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work.
 - (2) Swings and other playground equipment accessory to a one, two or three family dwelling.
 - (3) Prefabricated swimming pools that are less than 18" deep.
 - (4) Window awnings supported by an exterior wall that do not project more than 54 inches from the exterior wall and do not require additional support.
- (b) Electrical: Repairs and maintenance: Approvals shall not be required for minor repair work, including replacement of lamps or the connection of approved portable electrical equipment to approved permanently installed receptacles.
- (c) Gas:
 - (1) Portable heating, cooking or clothes drying appliances.
 - (2) Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.
 - (3) Portable fuel cell appliances that are not connected to a fixed piping system and are not interconnected to a power grid.
- (d) Mechanical:
 - (1) Portable heating appliance.
 - (2) Portable ventilation appliance.
 - (3) Portable cooling unit.
 - (4) Steam, hot or chilled water piping within any heating or cooling equipment regulated by this code.
 - (5) Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.
 - (6) Portable evaporative cooler.
 - (7) Self-contained refrigeration systems containing 10 pound (4.54 kg) or less of refrigerant or that are actuated by motors of 1 horsepower (746 W) or less.
 - (8) Portable fuel cell appliances that are not connected to a fixed piping system and are not interconnected to a power grid.
- (e) The stopping of leaks in drains, water, soil, waste or vent pipe; provided, however, that if any concealed trap, drainpipe, water, soil, waste or vent pipe becomes defective and it becomes necessary to remove and replace the same with new material, such work shall be considered as new work and a permit shall be obtained and inspection made as provided in this code.
- (f) The clearing of stoppages or the repairing of leaks in pipes, valves or fixtures, and the removal and reinstallation of water closets, provided such repairs do not involve or require the replacement or rearrangement of valves, pipes or fixtures.

Exemption from the approval requirements of this chapter or the Residential Code of Ohio for One-, Two- and Three-Family Dwellings shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction.

(Ord. 10-2007. Passed 1-23-07.)

1304.02 EXPIRATION OF APPROVAL.

- (a) Approval for new construction shall become null and void under the following conditions:
 - (1) If a certificate of occupancy has not been granted within twelve (12) months of the date of issuance of such approval.
 - (2) If the work for which approval was issued is delayed or suspended for more than six (6) months.
 - (3) If the work for which approval was issued has not commenced within six (6) months of the date of issuance.
- (b) Any approval for additions, alterations, repairs, demolition or excavation shall become null and void for work for which approval is issued if it is not completed and a certificate of occupancy is granted within one-hundred twenty (120) days of the date of issuance.
- (c) The Building Commissioner may grant an extension of up to six (6) months for new construction and an extension of up to two (2) months for all other construction.
- (d) Before any work can be resumed after expiration of the approval, new approval shall be obtained to do so and the fees for such approval shall be equal to those required for the original approval.

(Ord. 10-2007. Passed 1-23-07.)

1304.03 CLIMATIC AND GEOGRAPHIC DESIGN CRITERIA.

The climatic and geographic design criterion applicable in the City is as follows:

- (a) Ground snow load 30 pounds per square foot
- (b) Wind speed 90 miles per hour
- (c) Seismic design category C
- (d) Weathering Severe
- (e) Frost line depth Thirty-six inches (36")
- (f) Termite probability Moderate to heavy
- (g) Decay probability Slight to moderate
- (h) Winter design temperature 1-degree Fahrenheit
- (i) Ice shield underlayment required Yes
- (j) Flood hazards Flood Insurance Rate Map dated
June 18, 1976
Community Panel 390126 0005 B
- (k) Air freezing index 1000-2000
- (l) Mean annual temperature 45 F

(Ord. 10-2007. Passed 1-23-07.)

1304.04 OPENING PROTECTION.

Openings from a private garage into a room used for sleeping purposes shall not be permitted. Other openings between the garage and the residence shall be equipped with a one-hour rated door equipped with a self-closing mechanism.

(Ord. 10-2007. Passed 1-23-07.)

1304.05 DETACHED ACCESSORY STRUCTURES.

A detached accessory structure shall not be located closer than ten feet (10') to a residential structure unless the entire interior of the accessory structure is protected with 1/2 inch (12.7 mm) gypsum board or equivalent.

(Ord. 10-2007. Passed 1-23-07.)

1304.06 FLOOR SURFACE.

Garage floor surfaces shall be four-inch (4") thick concrete with a compressive strength of 3,500 pounds per square inch and shall be sloped into an approved garage floor drain or towards the main entry to facilitate the movement of liquids. The sill of the door opening from the garage to the residence or adjacent interior space shall be raised not less than four inches (4") above the garage floor. In the case of access from the garage to a lower area, a curb not less than four inches (4") in height is required.

(Ord. 10-2007. Passed 1-23-07.)

1304.07 MINIMUM DEPTH, DETACHED GARAGE.

The footing depth for a detached garage located a minimum of ten feet (10') from a residential structure on the same lot shall not be less than eighteen inches (18") below grade.

(Ord. 10-2007. Passed 1-23-07.)

1304.08 FOUNDATION WALLS ABOVE FINISHED GRADE.

- (a) Foundation walls above finished grade shall be finished with a nominal four-inch (4") wide brick and approved by the Architectural Review Board.
- (b) Exceptions to the requirements of subsection (a) are as follows:
 - (1) Foundation walls above grade on an addition to an existing structure shall match the existing construction when the foundation of the existing construction possess an architectural finish as approved by the Architectural Review Board.
 - (2) Foundation walls above grade on an addition to an existing structure without an architectural finish (i.e., exposed concrete block or concrete) shall be provided with an architectural finish as approved by the Architectural Review Board
 - (3) Wood foundations shall be provided with materials approved by this code and the Architectural Review Board to provide an architectural finish.

(Ord. 10-2007. Passed 1-23-07.)

1304.09 CONCRETE OR MASONRY FOUNDATIONS.

- (a) Foundation drains shall be provided for all foundations enclosing usable or habitable spaces located below grade.
- (b) The drains shall be a minimum four-inch (4") diameter poly-vinyl chloride conduit meeting ASTM F789, ASTM 3034 or SDR 35 with solvent welds and perforations a minimum of one sieve size smaller than # 57 gravel or washed stone.
- (c) An accessible clean out with the proper sweep shall be located on each side of the dwelling unit.
- (d) The foundation drain system shall discharge by gravity or mechanical means into an approved storm sewer system.

(Ord. 10-2007. Passed 1-23-07.)

1304.10 CLEAR HEIGHT.

All under-floor spaces shall have a minimum horizontal dimension of not less than forty inches (40") measured from the top of the concrete slab to the bottom of the floor joists.

(Ord. 10-2007. Passed 1-23-07.)

1304.11 FLOOR.

The floor for an under-floor space shall consist of two inch (2") thick concrete slab over a four inch (4") thick base. An approved vapor retarder shall be placed between the concrete slab and the base material.

(Ord. 10-2007. Passed 1-23-07.)

1304.12 CONCRETE FLOORS, GENERAL.

- (a) Concrete slab-on-ground floors shall be a minimum of four inches (4") thick.
- (b) The compressive strength shall be not less than 3,500 pounds per square inch.
- (c) Concrete slabs shall be provided with crack control joints and reinforcement as referenced by American Concrete Institute (ACI) Publication 318-99.

(Ord. 10-2007. Passed 1-23-07.)

1304.13 EXTERIOR WALL SHEATHING.

- (a) Wooden structural sheathing panels shall be installed on all exterior frame walls.
- (b) Wood structural sheathing panels shall consist of 15/32-inch (11.9 mm), exterior grade plywood or 7/16-inch (11.1 mm) oriented strand board on all exterior surfaces and shall be fastened in accordance with the Fastener Schedule for Structural Members in this Building Code.
- (c) The Building Commissioner may permit alternate materials with equal strength and durability for applications employing masonry or stucco veneer.

(Ord. 10-2007. Passed 1-23-07.)

1304.14 ROOF AND CEILING CONSTRUCTION REQUIREMENTS.

- (a) Roof and ceiling construction shall be capable of accommodating all loads imposed according to Section R301 of the Residential Code of Ohio for One-, Two-, and Three-Family Dwellings and of transmitting the resulting loads to the supporting structural elements.
- (b) The minimum pitch for a roof shall not be less but including four in twelve.
- (c) Flat roofs are prohibited.

(Ord. 10-2007. Passed 1-23-07.)

1304.15 INSTALLATION OF WOOD STRUCTURAL PANEL SHEATHING.

Wood structural panel used as roof sheathing shall be a minimum 5/8-inch (15.9 mm) or 19/32-inch (15.7 mm) in thickness and shall be installed with joints staggered or nonstaggered in accordance with Table R602.3(1) of the Residential Code of Ohio for One-, Two- and Three- Family Dwellings, or APA E30 for wood framing or with Table R804.3 of the Residential Code of Ohio for One-, Two- and Three-Family Dwellings for steel framing.

(Ord. 10-2007. Passed 1-23-07.)

1304.16 ROOF DRAINAGE.

- (a) A roof drainage system shall be provided for all structures in excess of 150 square foot of floor area.
- (b) The roof drainage system shall consist of gutters located at the low point of each roof. The gutter shall carry drainage into a downspout. The sizing for the gutter and downspout system shall comply with the plumbing code. The gutter and downspout system shall discharge into a minimum four-inch (4") diameter poly-vinyl chloride conduit meeting ASTM F789, ASTM 3034 or SDR 35 with solvent welds which will carry the drainage to a centralized storm sewer system via a gravity means, unless otherwise approved pursuant to subsection 304.7 of Chapter 1309.05. The pipe shall be bedded with a minimum of two inches (2") of #57 gravel or washed stone and backfilled to within one foot of finished grade with #57 gravel or washed stone.
- (c) Where a centralized storm sewer system is not available the roof drainage system shall discharge in a method approved by the City Engineer and the Building Commissioner.

(Ord. 76-2008. Passed 12-9-08.)

1304.17 ATTACHED GARAGES.

In addition to any other electrical outlets required for installation in a detached garage, there shall also be an outlet located in the ceiling for a garage door opener. This outlet shall be exempt from ground fault circuit interrupter requirements.

(Ord. 10-2007. Passed 1-23-07.)

1304.18 SUMP PUMP OUTLETS.

All sump pump installations shall be included with a dedicated single receptacle outlet, sized in accordance with the manufacturer's instructions, installed within three feet (3') of the sump pump. This outlet shall be exempt from ground fault circuit interrupter requirements.

(Ord. 10-2007. Passed 1-23-07.)

1304.19 UNDERGROUND SERVICE CONDUCTORS.

Electrical conductors carrying secondary power for an electrical service shall be protected from the elements of backfill by placement within a Schedule 80 rigid nonmetallic conduit from the power source to the point in which they enter the building.

(Ord. 10-2007. Passed 1-23-07.)

1304.20 ENFORCEMENT.

The Building Commissioner or the Commissioner's designee shall have authority to issue plan approvals and to administer and enforce the provisions of this chapter.

(Ord. 10-2007. Passed 1-23-07.)

1304.21 APPEALS.

The Board of Zoning Appeals shall hear all appeals from the orders, determinations and decisions of the Building Commissioner or the Commissioner's designee relative to the application and interpretation of this chapter as provided for in Chapter 1185 of the Codified Ordinances. (Ord. 10-2007. Passed 1-23-07.)

1304.22 SEPARABILITY.

All sections, subsections, parts, and provisions of this chapter are hereby declared to be independent sections, subsections, parts, and provisions, and the holding of any section, subsection, part, or provision to be unconstitutional, void, or ineffective for any cause shall not affect or render invalid any other section, subsection, part, or provision thereof.

(Ord. 10-2007. Passed 1-23-07.)

TITLE THREE - Local Provisions

- Chap. 1305 . Certificates of Occupancy.
- Chap. 1306 . Certificate of Authorized Occupancy.
- Chap. 1307 . Condominiums.
- Chap. 1309 . Property Maintenance Code.
- Chap. 1313 . Fences.
- Chap. 1317 . Garbage and Rubbish Disposal Systems.
- Chap. 1319 . Compost Piles.
- Chap. 1321 . Grading and Landscaping.
- Chap. 1325 . Permits and Fees.
- Chap. 1329 . Protection of Property During Building Operations.
- Chap. 1333 . Removal of Debris.
- Chap. 1335 . Contractor Registration, Procedure, Suspension and Revocation.
- Chap. 1341 . Swimming Pools and Spas.
- Chap. 1345 . Trailers.
- Chap. 1347 . Dish-Type Satellite Signal-Receiving Earth Stations.
- Chap. 1349 . Demolition of Structures.
- Chap. 1351. Multiple-Family Residential Exterior Doors.
- Chap. 1353. Outdoor Lighting.

CHAPTER 1305

Certificates of Occupancy

1305.01 Certificate required before occupancy.

1305.02 Requirements to be met.

1305.03 Conditional occupancy permit.

1305.04 Appeals to Council.

1305.05 Owner's responsibility.

1305.06 When house is considered in use.

1305.07 Notification of all constructors.

1305.08 Violations.

1305.99 Penalty.

CROSS REFERENCES

Removal of unsafe structures - see Ohio R.C. 715.26(B), 715.261

Fees - see BLDG. 1325.02

1305.01 CERTIFICATE REQUIRED BEFORE OCCUPANCY.

Any house or other structure now being constructed or hereafter constructed or remodeled within the limits of this City shall not be occupied or used as a place of human habitation until a certificate of occupancy is obtained from the Building Inspector and the fee therefor is paid.

(Ord. 44-83. Passed 4-12-83.)

1305.02 REQUIREMENTS TO BE MET.

The Building Inspector shall not issue a certificate of occupancy to the owner of any house or other structure intended for human habitation until the following requirements have been met:

- (a) A continuous means of egress shall be constructed and paved with concrete or asphalt from the house or structure to the City right of way and from that point on to the public street in front of the subplot only concrete may be used.

(Ord. 44-83. Passed 4-12-83.)

- (b) Proper provision must be made for the drainage and disposal of sanitary and storm sewage and other liquid wastes in accordance with the ordinances of this City and the statutes of this State.
 - (c) All the requirements of the Building Code and Zoning Code must be met.
 - (d) A heating unit to be used in heating the entire house and a unit for heating hot water must be installed and in operable condition.
 - (e) If natural gas is to be used to meet any of the requirements of this chapter, then such gas must be available inside of such structure.
 - (f) If electricity is to be used to meet any of the requirements of this chapter, then such electricity must be available inside such structure.
 - (g) A device in accordance with the requirements of the City as such requirements now exist or are hereafter enacted must be installed to dispose of garbage or other burnable trash.
 - (h) All excess building materials, soil or other debris must be removed from the property surrounding such structure and all trenches or excavations filled.
 - (i) The owner or developer of a subdivision, or the person applying for a permit for a lot in a new subdivision, shall submit evidence that the boundary markers required by Section 1101.01 (d) of the Codified Ordinances are in place.
- (Ord. 16-83. Passed 2-8-83.)

1305.03 CONDITIONAL OCCUPANCY PERMIT.

The Building Inspector may issue a conditional occupancy permit for the house or structure if the weather conditions or other extenuating circumstances, as determined by the Building Inspector, then existing prevent completion of one or more of the eight requirements outlined in Section 1305.02 , provided, however, that the persons constructing the house or structure shall agree in writing that the work not completed will be completed by a date determined by the Building Inspector and set forth in such agreement and in the conditional occupancy permit. If such work is not completed by the date set forth, then the conditional occupancy permit shall be considered to have been revoked as of the date on which it was issued and the person constructing the house or structure shall be considered in violation of this chapter from the first day on which the house or structure was occupied. In order that the Building Inspector may issue a conditional occupancy permit, he must first determine that the existing weather conditions or other extenuating circumstances, as determined by the Building Inspector, prevent completion of the work required in Section 1305.02 and that occupancy of the house or structure will not in any fashion be detrimental to the public health, safety or welfare, nor that it will create any problems relative to sanitary or storm sewerage, and that the lives or health of any persons occupying such house or structure will not be placed in jeopardy by occupancy. The agreement in writing that work not completed will be completed by a date determined by the Building Inspector in accordance with provisions set forth above shall be provided on a form or forms to be provided by the Building Inspector.

(Ord. 44-83. Passed 4-12-83.)

1305.04 APPEALS TO COUNCIL.

The decision of the Building Inspector shall be final except that any person who feels that such Inspector has wrongfully refused to issue such permit or conditional occupancy permit may appeal such decision to Council by informing the Clerk of Council in writing, and setting forth the reasons that he believes entitle him to such permit or conditional occupancy permit, of a desire to bring such matter before Council. The Clerk shall thereupon bring the appeal before Council for hearing not later than the next regular meeting. Council may, by a majority vote of the elected members, overrule the Building Inspector and order such certificate of occupancy issued.

(Ord. 715-57. Passed 4-15-57.)

1305.05 OWNER'S RESPONSIBILITY.

The requirement of a permit may be avoided by the contractor if he secures the signature of the purchaser of such property upon a waiver form to be supplied by the Building Inspector. However, if the purchaser of such property executes such a waiver, he thereupon shall become subject to the provisions and requirements of this chapter as set forth above, and before occupying, permitting to occupy or reselling such house or structure, must secure a certificate of occupancy. The owner, if he has executed such a waiver, may secure a conditional occupancy permit by agreeing that the work necessary to complete the requirements of Section 1305.02 will be completed by a certain date, which date shall be set forth in both the agreement and in the conditional occupancy permit.

Such conditional occupancy permit shall be issued by the Building Inspector only after findings required for the issuance of such permit in Section 1305.03 have been made and if the owner fails to complete the work necessary by the date set forth, then such conditional occupancy permit shall be considered to have been revoked as of the date of its issuance. Each day of occupancy shall be considered to be the commission of a misdemeanor and a separate violation of this chapter as if a conditional occupancy permit had not been secured. Failure by the purchaser to secure a permit or a conditional occupancy permit shall be a violation of this chapter and the commission of a misdemeanor. For the purposes of determining a violation of this chapter, each day in which such purchaser fails to obtain a certificate of occupancy in accordance with the provisions of this section shall be deemed a separate violation.

(Ord. 715-57. Passed 4-15-57.)

1305.06 WHEN HOUSE IS CONSIDERED IN USE.

For purposes of this chapter, houses or other structures shall be considered as being used or occupied for human habitation when any one or more human beings shall use such houses or structures, or spend more than twelve hours in any single day within the boundaries of the property on which the houses or structures are located.

(Ord. 715-57. Passed 4-15-57.)

1305.07 NOTIFICATION OF ALL CONSTRUCTORS.

The Building Inspector is authorized and directed to modify the form of application for the building permit so as to notify all prospective constructors of houses of the provisions of this chapter.

(Ord. 715-57. Passed 4-15-57.)

1305.08 VIOLATIONS.

Any person who sells a house or structure now being, or hereafter constructed, to any person whosoever without first securing a certificate of occupancy as heretofore described shall have violated this chapter and thereby committed a misdemeanor. Each day after which such sale is finally consummated and no certificate of occupancy has been obtained, shall be considered to be a separate violation of this chapter.

(Ord. 715-57. Passed 4-15-57.)

1305.99 PENALTY.

Whoever violates any provision of this chapter shall be guilty of a misdemeanor of the first degree.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1306

Certificate of Authorized Occupancy

- 1306.01 Definitions.**
- 1306.02 Certificate of Authorized Occupancy.**
- 1306.03 Application, inspection and issuance.**
- 1306.04 Fees.**
- 1306.05 Revocation.**
- 1306.06 Posting of certificate.**
- 1306.07 New or remodeled building.**
- 1306.08 Changes, new certificate required.**
- 1306.09 Changes in ownership.**
- 1306.10 Changes in use or occupancy.**
- 1306.11 Sale of dwelling structure.**
- 1306.99 Penalty; equitable remedies.**

1306.01 DEFINITIONS.

For the purposes of this chapter, and unless stated otherwise, the following terms shall have the meaning herein indicated:

- (a) Dwelling. "Dwelling" means a building intended or designed to be occupied by not more than two families living separately and independently of each other.
- (b) Dwelling Structure. "Dwelling structure" means a building or structure used or designed to be used, all or in part, for residential purposes.
- (c) Dwelling Unit. "Dwelling unit" means a group of rooms arranged, maintained or designed to be occupied by a single family and shall consist of a complete bathroom with toilet, lavatory and tub or shower facilities; one, and one only, complete kitchen or kitchenette with approved cooking, refrigeration and sink facilities and approved living and sleeping facilities, all of which are in contiguous rooms and are used exclusively by such family and by any authorized persons occupying such dwelling unit with the family. The words "dwelling unit," "apartment" and "suites" are synonymous.
- (d) Double House. "Double house" means a detached dwelling arranged, intended or designed to be occupied by but two families living side by side with a party wall between.
- (e) Multiple Dwelling. "Multiple dwelling" means a building containing three or more dwelling units, or two or more dwelling units above the first or ground floor, or one or more dwelling units if the building contains a use other than a dwelling use. For the purpose of applying this definition, any building which is being operated as a rooming house pursuant to a valid Richmond Heights license shall not be classed as a multiple dwelling. The words "multiple dwelling," "dwelling house" and "apartment house" are synonymous.
- (f) Multi-family Dwelling. "Multiple family or multi-family dwelling" means a building, or portion thereof, designed exclusively for occupancy by three or more families, living independently of each other with each unit having a separate entrance or at least one entrance to a common hall leading to the exterior.
- (g) Single-family Dwelling. "Single-family dwelling" means a building designed exclusively for and occupied exclusively by one family, which is not physically attached to any other dwelling unit. The word "one-family dwelling" is synonymous.
- (h) Two-family Dwelling. "Two-family dwelling" means a building designed exclusively for occupancy by two families living independently of each other.
- (i) Rental Unit. "Rental unit" means any dwelling unit; or any rented room within a single-family or two-family dwelling or duplex; or the third floor of a two-family dwelling or duplex, where either money or other valuable consideration is paid for occupancy of such unit, or a person, not the record owner, is occupying the unit, whether or not such person pays money or other valuable consideration therefor. "Rental unit" does not include a room for rent in a hotel.

(Ord. 28-2007. Passed 5-8-07.)

1306.02 CERTIFICATE OF AUTHORIZED OCCUPANCY.

On or after January 1, 2008, no person shall occupy a rental unit, and no owner, agent or person in charge of any dwelling structure, including but not limited to a single-family dwelling, two-family dwelling, multi-family dwelling, multiple dwelling and double house, used or designed or intended to be used as a single-family dwelling unit shall rent or lease a rental unit for residential occupancy unless the owner thereof has submitted an application for a certificate of authorized occupancy to the Commissioner of Building, Zoning and Housing ("Building Commissioner") and either a certificate of authorized occupancy has been issued by the Building Commissioner or the written notice by the owner or the owner's authorized agent has been served upon a prospective tenant or lessee for the rental unit, pursuant to Section 1306.03(e) of this chapter. There shall be no occupancy of a rental unit that is subject to the regulations of this chapter where the certificate of authorized occupancy required by this chapter has expired, been revoked or otherwise become null and void, unless: the written notice to the prospective tenant or lessee has been served as provided for by Section 1306.03(e) of this chapter; or such dwelling structure or part thereof is licensed as a temporary rooming house.

(Ord. 68-2018. Passed 6-26-18.)

1306.03 APPLICATION, INSPECTION AND ISSUANCE.

(a) Application. An application for a certificate of authorized occupancy shall be made annually and separately for each rental unit and/or multiple dwelling to the Building Commissioner on forms supplied by him and shall be accompanied by the fee required by the provisions of this chapter. The annual application shall be made by December 31 of the previous calendar year for which the application is made and be in writing by supplying necessary information to determine compliance with applicable laws, ordinances, rules and regulations for the existing use or occupancy or the intended use or occupancy. Such information shall include, but need not be limited to, the following:

- (1) The name, address and telephone number of the owner of the property;

- (2) The name, address and telephone number of the agent or person in charge of the property, if any;
 - (3) The address of the property and the number of dwelling units contained in the dwelling structure;
 - (4) The current name, address, and telephone number of the persons who, since the last application, have been occupying the dwelling unit, and the address or identification of the dwelling unit which they occupied; and
 - (5) The familial relationship, if any, among the persons listed in paragraph (a)(4) above;
- The Building Commissioner may require the submission of an affidavit stating the foregoing information. Should any of the required information change during the period for which a certificate is issued, such changes shall be timely conveyed to the Building Commissioner to allow for up-dating of records.

(b) Applications for a certificate of authorized occupancy pursuant to this chapter that are requested to be issued for the year in which the application is made and that are issued by the Building Commissioner shall only be effective through December 31 of that year.

(c) **Inspection.** The Building Commissioner shall inspect or cause to be inspected the interior premises and exterior premises and property areas of the dwelling structure used for rent or lease within thirty (30) days of the initial application for a certificate of authorized occupancy. The purpose of the inspection is to enable the Building Commissioner to list any repairs or other work necessary to eliminate any unsafe or hazardous conditions, to ensure compliance with applicable requirements of the Planning and Zoning Code, Building Code, Fire Prevention Code and other relevant ordinances, and also to correct any unlawful nuisance conditions.

(d) If the owner, occupant, or agent thereof does not consent to the inspection provided for in subdivision (b) of this section, then the Building Commissioner, or the Commissioner's agent may appear before a judge in a court of competent jurisdiction and seek an administrative search warrant to allow an inspection. Any such application shall be made within ten (10) calendar days after the non-consent. The application for the warrant shall specify the basis upon which the warrant is being sought and shall include a statement that the inspection will be limited to a determination whether there are violations of the Planning and Zoning Code, Building Code, and Fire Prevention Code. The court may consider any of the following factors along with such other matters as it deems pertinent in its decision as to whether a warrant shall issue:

- (1) Eyewitness account of violation;
- (2) Citizen complaints;
- (3) Tenant complaints;
- (4) Plan view violations;
- (5) Violations apparent from city records;
- (6) Property deterioration;
- (7) Age of property (or the septic system);
- (8) Nature of an alleged violation;
- (9) Condition of similar properties in the area;
- (10) Documented violations on similar properties in the area;
- (11) Passage of time since last inspection; and/or
- (12) Previous violations on the property.

(e) If, a warrant as referred to in subdivision (c) of this section, is issued, no owner, occupant, or agent thereof shall fail or neglect, upon presentation of a warrant, to properly permit entry of the subject premises by the Building Commissioner or the Commissioner's authorized designee.

(f) If the court declines to issue a warrant, or if no warrant is sought, the inspection shall still take place but the scope thereof shall be limited to such areas that are in plain view. However, if the Building Commissioner only conducts a limited scope inspection of areas in plain view, the owner or the owner's authorized agent shall be obligated to notify the prospective tenant or lessee, in writing, within ten (10) days of notice to the owner or the owner's authorized agent of the limited scope inspection by the Building Commissioner and that the property has not been fully inspected by the Building Commissioner. No criminal penalty shall attach solely by reason of the owner's, occupant's or agent's refusal to consent to a full inspection by the Building Commissioner.

(g) **Issuance.** If a full inspection has occurred and it is found that a rental unit is in compliance with the provisions of this Code and all other laws, ordinances, rules and regulations applicable thereto, the Building Commissioner shall issue a certificate of authorized occupancy valid until December 31 of the calendar year for which the certificate is issued. A certificate of authorized occupancy for such rental unit shall contain the following information:

- (1) The street address or other identifying characteristics of the dwelling structure.
- (2) The name and address of the owner, and if the owner does not reside on the premises, the name and address of the resident agent in charge of the dwelling structure, and the name and address of the nonresident agent, if any.
- (3) The exact nature and extent of the use or occupancy authorized.
- (4) The period for which such certificate of authorized occupancy is issued.

(h) **Certificate must be valid.** Such certificate shall be valid through December 31 of the calendar year for which it is issued unless there is a change or alteration of the premises which revises the authorized occupancy, or until there is a change in the ownership of the premises. (Ord. 68-2018. Passed 6-26-18.)

1306.04 FEES.

(a) Unless otherwise indicated, an application for a certificate of authorized occupancy shall be accompanied by a nonrefundable fee of two hundred fifty dollars (\$250.00) for each dwelling unit for the initial annual certificate of authorized occupancy required by Section 1306.02 of this Code. For each subsequent annual renewal of the certificate of authorized occupancy, a fee of one hundred fifty dollars (\$150.00) for each dwelling unit shall be charged.

(b) Notwithstanding the charges in subsection (a) hereof, in the case of a multiple dwelling building, the application fee for an initial certificate of occupancy shall be the greater of either seven hundred fifty dollars (\$750.00) or twenty-five dollars (\$25.00) per dwelling unit and for each subsequent annual renewal of the certificate of authorized occupancy, it shall be the greater of either four hundred fifty dollars (\$450.00) or twenty-five dollars (\$25.00) per dwelling unit.

(c) In addition to the penalty and remedies set forth in Section 1306.99 of this Code, in the event an owner, agent, or person in charge of any rental unit fails to timely submit a complete and proper application pursuant to Sections 1306.02 and 1306.03 of this Code, an additional fee of one hundred twenty-five dollars (\$125.00) shall be charged to such owner, agent, or person in charge prior to the issuance of a certificate of authorized occupancy.

(d) If the person responsible for paying the fees set forth in this section fails to make the payment of any such fees within sixty (60) days of the date of a notice of delinquency of fee payment being sent to such person by regular United States Mail:

- (1) The Building Commissioner shall report the failure to make payment and the amount owed in writing to City Council; and
- (2) Upon Council's receipt of the report of the amount owed in subsection (d)(1) of this section, it shall make written return to the Fiscal Officer of Cuyahoga County of the City's action to collect the delinquent fees with the statement of the amount owed on those delinquent fees and a description of the premises of the person responsible for paying the fee for which the certificate of authorized occupancy was required for the purpose of making the same a lien upon the lands of said premises, to be collected as other taxes and returned to the City with the General Fund."
- (3) An administrative fee of \$150.00 shall be added to the total amount owed per Sections 1306.04(a) through 1304.06(c) of this ordinance by the owner of each parcel for which the failure to make the necessary payments was reported to City Council by the Building Commissioner. Said administrative fee shall be added to the amount reported to the County Fiscal Officer to be collected as taxes. (Ord. 34-2014. Passed 6-24-14.)

1306.05 REVOCATION.

The Building Commissioner shall have the power to revoke a certificate of authorized occupancy if any false statement is made by the applicant in connection with the issuance of such certificate, or for noncompliance of a structure or its use with the requirements of this Code, or if the owner, agent or person in charge of a structure refuses to comply with any provisions of this Code required to be observed by him. (Ord. 28-2007. Passed 5-8-07.)

1306.06 POSTING OF CERTIFICATE.

If the Building Commissioner has issued a Certificate of Authorized Occupancy, then the owner, agent or person in charge of every dwelling structure shall cause to be posted conspicuously at all times, at the main entrance of such structure, the certificate of authorized occupancy hereinbefore required. Such certificate shall be provided with a protective covering and shall be securely affixed to the wall. (Ord. 68-2018. Passed 6-26-18.)

1306.07 NEW OR REMODELED BUILDING.

(a) The owner of a dwelling structure which will be completed or remodeled and available for occupancy subsequent to January 1 of any year and which requires a certificate of authorized occupancy, shall apply for such certificate as soon as practicable. Failure to so apply will be deemed to be a violation of this chapter and will subject the owner of the structure to the legal action and penalty described herein.

(b) Any new or remodeled dwelling structure must also comply with Chapter 1305. (Ord. 68-2018. Passed 6-26-18.)

1306.08 CHANGES, NEW CERTIFICATE REQUIRED.

In the event there is a change in the resident agent or nonresident agent as shown by the certificate of authorized occupancy, the owner shall notify the Building Commissioner in writing within thirty (30) days of such change, giving the name and address of the new resident agent or nonresident agent. Failure to so notify the Building Commissioner within the specified time shall constitute a violation of this chapter. (Ord. 28-2007. Passed 5-8-07.)

1306.09 CHANGES IN OWNERSHIP.

In the event there is a change in ownership of record, the certificate of authorized occupancy issued under the provisions of this chapter to the former owner shall become null and void within thirty (30) days of the recorded date of such change of ownership and the new owner must apply for a new certificate of authorized occupancy. Application for such new certificate of authorized occupancy shall be made not more than thirty (30) days after such change in ownership has occurred, on forms supplied by the Building Inspector. A fee of one hundred dollars (\$100.00) shall be paid upon application for each such new certificate. The new certificate shall expire on the same date as that of the certificate which it replaces. (Ord. 68-2018. Passed 6-26-18.)

1306.10 CHANGE IN USE OR OCCUPANCY.

Any change in the nature or extent of the use or occupancy as specified on the certificate of authorized occupancy shall render the certificate of authorized occupancy null and void upon the happening of such change. Any such change without the approval of the proper City authorities will subject the owner, operator or agent to the penalties provided in this Code. (Ord. 68-2018. Passed 6-26-18.)

1306.11 SALE OF DWELLING STRUCTURE.

Before an owner enters into an agreement for the sale of a dwelling structure containing rental unit(s), he shall exhibit to the prospective buyer of such premises a copy of the certificate of authorized occupancy for the premises being sold. As evidence of the owner's compliance with the requirements of this Code, the owner shall obtain the signature of the prospective buyer, or his agent, on the certificate of authorized occupancy for such premises or on a copy thereof, in the space indicated on the certificate together with the date of such signing. (Ord. 28-2007. Passed 5-8-07.)

1306.99 PENALTY; EQUITABLE REMEDIES.

(a) Whoever violates or fails to comply with any of the provisions of this chapter is guilty of a misdemeanor of the first degree and shall be fined or imprisoned or both for each offense in accordance with Section 501.99 of the General Offenses Code. Unless otherwise provided, a separate offense shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(b) The application of the penalty provided in subsection (a) shall not be deemed to prevent the enforced removal of prohibited conditions of the application of any other equitable remedy. (Ord. 28-2007. Passed 5-8-07.)

1307.01 TITLE AND PURPOSE.

(a) Title. This chapter shall be known and may be cited as the Richmond Heights Residential Condominium Ordinance.

(b) Purpose. The purpose of this chapter and the policy of the City is to establish standards for all future conversion condominium developments within the City in order to protect the tenants of rental units designated for condominium conversion and the purchasers of conversion condominium units, and also to encourage the maintenance and improvement of the housing in the City.

(Ord. 80-79. Passed 8-28-79.)

1307.02 CONSTRUCTION; SEPARABILITY; APPLICABILITY.

(a) Construction. This chapter shall be liberally construed and applied to promote its purposes and policies.

(b) Separability. If any provision of this chapter or the application thereof to any person or circumstance is held invalid or unconstitutional by any court of competent jurisdiction, such provision shall be deemed a separate, distinct and independent provision, and neither the remainder of this chapter nor the application of such provision to other persons or circumstances shall be affected thereby.

(c) Applicability.

(1) This chapter shall apply to all multifamily dwellings located within the City as follows:

A. Which are developed as conversion condominium developments;

B. Which consist of twenty residential units or more; and

C. In which the developer has not, on the effective date of this section (Ordinance 80-79, passed August 28, 1979), commenced a public and common promotional plan for the sale of condominium units therein.

(2) The provisions of this chapter shall not apply to resales of condominium units other than resales of condominium units by the developer.

(3) The provisions of this chapter, with the exception of Section 1307.06 (k), shall not apply to or be enforceable against any party to a sale of a unit other than the developer, nor shall any violation or noncompliance by the developer of any of the provisions of this chapter operate to impose, either directly or indirectly, any civil or criminal liability upon any such other party, including title insurance companies, mortgages, escrow agents, attorneys, and real estate brokers other than those directly employed by the developer.

(Ord. 80-79. Passed 8-28-79.)

1307.03 DEFINITIONS.

As used in this chapter:

(a) "Capital improvement" means any improvement with a useful life greater than one year and subject to the depreciation rules of the United States Internal Revenue Code.

(b) "Common areas and facilities" include, except as otherwise provided in the declaration, the following parts of the condominium property:

(1) The land described in the declaration; and

(2) All other areas, facilities, places and structures that are not a part of a unit, including, but not limited to:

A. The foundations, columns, girders, beams, supports, supporting walls, roofs, halls, corridors, lobbies, stairs, stairways, fire escapes, entrances and exits of buildings;

B. The basements, yards, gardens, parking areas, garages and storage spaces;

C. The premises for the lodging of janitors or persons in charge of the property;

D. Installations of central services such as power, light, gas, hot and cold water, heating, refrigeration, air conditioning and incinerating;

E. The elevators, tanks, pumps, motors, fans, compressors, ducts and, in general, all apparatus and installations existing for common use;

F. Such community and commercial facilities as may be provided for in the declaration; and

G. All other parts of the condominium property necessary or convenient in its existence, maintenance and safety, or normally in common use, or that have been designed as common areas and facilities in the declaration or drawings.

(c) "Condominium" means real property, portions of which are designated for separate unit ownership by the unit owners and the remainder of which is designated for common ownership by the unit owners.

(d) "Condominium development" means a condominium property in which two or more individual dwelling units, together with undivided interests in the common areas and facilities of the property, are offered for sale pursuant to a common promotional plan.

(e) "Condominium ownership interest" means a fee simple estate or a ninety-nine year leasehold estate, renewable forever, in a unit, together with an appurtenant undivided interest in the common areas and facilities.

(f) "Condominium unit" or "unit" means a portion of the condominium development designated for separate ownership.

(g) "Conversion condominium development" means a condominium development in which the condominium units were previously rental units.

(h) "Declarant" means any person who plans to execute or has executed the declaration or on whose behalf the declaration is executed.

(i) "Declaration" means an instrument by which property is submitted to the Ohio Condominium Act, Ohio R. C. Chapter 5311.

(j) "Developer" means any person who, directly or indirectly, sells or offers for sale condominium ownership interests in a condominium development, including the declarant of a condominium development and any successor to the declarant who stands in the same relation to the condominium development as the declarant, and including any agent thereof.

(k) "Public offering statement" means a document provided by the developer under Section 1307.05 , which discloses the characteristics of the condominium development.

(l) "Purchaser" means both an actual and a prospective purchaser of a condominium ownership interest.

(m) "Unit owner" means a person who owns a condominium ownership interest in a condominium unit.

(Ord. 80-79. Passed 8-28-79.)

1307.04 GENERAL REQUIREMENTS FOR SALE OF OWNERSHIP INTEREST.

(a) Filing of the Public Offering Statement. No developer shall sell or offer to sell a condominium ownership interest in a conversion condominium development in the City unless he first files the following items with the Commissioner of Building, Engineering and Inspection:

(1) Twenty copies of the public offering statement provided by the developer under Section 1307.05 ;

(2) Any bond required by subsection (b) hereof; and

(3) A fee of twenty dollars (\$20.00) per condominium unit. Such fee shall be in substitution for all other fees incidental to the conversion condominium development under this Part Thirteen - the Building Code.

(b) Compliance with Regional Dwelling House Code. No developer shall sell or offer to sell a condominium ownership interest in a conversion condominium development in the City unless the Commissioner has issued a Certificate of Occupancy attesting that all common areas therein are in compliance with Chapter 1303 , unless within the public offering statement there is described the specific common areas therein which the Commissioner has determined are not in compliance with the Regional Dwelling House Code, and also the following:

(1) A statement by the developer specifying the estimated cost and estimated time of completion of all work necessary to correct each such Code violation, such time of completion not to exceed six months from the date of filing, subject to strikes, adverse weather conditions, acts of God, and/or other similar events beyond the control of the developer; and

(2) A bond filed with the City in the sum of 100 percent of the estimated cost of the work required for Code compliance, such estimated cost to be verified by copies of contracts for the completion of the work required for Code compliance.

(c) Compliance with Housing Code. At the time of closing of a sale of a condominium unit, the developer shall deliver to the purchaser thereof a Certificate of Occupancy issued by the Commissioner attesting that the particular unit is in compliance with Chapter 1361 .

(d) Compliance with Warranties.

(1) To assure compliance with the warranty obligations specified under Section 1307.05 (a)(4), the developer shall place in a separate warranty escrow account a sum equal to one percent of the gross sales price of each unit as sold, such escrow account to be established at a financial institution in the City whose accounts are insured by a government agency. Such warranty escrow account shall be maintained for the period of the warranty.

(2) Following notification by a unit owner or the unit owners' association, the developer shall make any required repairs or replacements of the warranted areas and facilities in a timely manner or as promptly as conditions necessitate in case of emergency. If the developer fails to comply with the warranty provisions, the unit owner or the unit owners' association may notify the developer in writing of its intention to correct the condition at the developer's expense. If the developer fails to comply within fourteen days after being notified by the unit owner or unit owners' association, or as promptly as conditions require in case of emergency, the unit owner or unit owners' association may, after receiving two or more written estimates of the cost, have the work done by the tradesman submitting the lowest, responsible estimate, and have the cost of the work deducted from the warranty escrow account. If litigation is necessary in order to enforce any warranty hereunder and/or to attach funds from such escrow account, a prevailing plaintiff may, in addition to damages, be awarded reasonable attorney fees by the court.

(Ord. 80-79. Passed 8-28-79.)

1307.05 PUBLIC OFFERING STATEMENTS.

(a) Disclosures. The public offering statement shall disclose fully and accurately the characteristics of the conversion condominium development and the units therein and all unusual and material circumstances and features affecting the condominium development. The public offering statement shall not intentionally omit any material fact or contain any untrue statement of a material fact and shall contain all of the following:

(1) A statement indicating the names and addresses of:

A. The developer and legal and beneficial owner, if different, of the land and improvements, including all general partners of a partnership, or all directors and owners of ten percent or more of the beneficial interest in the stock of a corporation; and

B. The mortgagees, the principal sales and management agents, attorneys, accountants, architects, engineers and contractors.

(2) A description of all condominium property and improvements, including the following:

A. A general narrative description stating the total number of units, a description of the types of units, the price of each type of unit and all appliances and personal property included with each unit;

B. A description of all of the common areas and facilities and the share of ownership of each unit in the common areas and facilities; limited common areas and facilities, if any, and their ownership shall also be indicated.

- C. A site plan showing the location and dimensions of the conversion condominium development and the land it occupies, together with all capital improvements, a typical floor plan and typical individual unit plans, including dimensions;
 - D. A description of each of the capital improvements contemplated but not yet completed by the developer, including the type and quality of materials to be used, the estimated cost and the dates by which such capital improvements will be completed;
 - E. A description of the nature and ownership of all improvements and sublots occupying the same zoning lot, but which are not part of the conversion condominium development, and the locations, nature and ownership of easements, streets, roads, driveways and parking facilities which are associated with the condominium development;
 - F. A statement as to the maximum number of units the developer intends to retain ownership of and/or to transfer to persons who do not intend to reside therein;
 - G. A statement disclosing whether any units or common areas or facilities in the conversion condominium development may be used for commercial purposes, the nature and extent of such uses, and the effect of such uses, if any, on the condominium unit owners;
 - H. A description of the nature of any restraints on the free alienability and/or use of all or any part of the conversion condominium development, excluding residential zoning use; if there are any restrictions upon the free sale, transfer, conveyance, encumbrance or leasing of a unit, the following statement shall be inserted in a type size and style equal to at least twenty point bold type: "THE SALE, LEASE OR TRANSFER OF UNITS (NUMBERS) ARE RESTRICTED OR CONTROLLED." Immediately following this statement, there shall appear a reference to the documents, articles, paragraphs and pages where the restriction, limitation or control on the sale, lease or transfer of units is set forth or described in detail.
 - I. A description of all restrictions, notices, lis pendens and encumbrances of record, and a statement of any pending or threatened litigation concerning the conversion condominium development; and
 - J. A report by the developer stating the age, the condition and the developer's opinion of the remaining useful life of structural elements and mechanical and supporting systems, together with the developer's estimate of repair and replacement costs projected for five years from the date of the filing of the declaration.
- (3) Estimated financial statements, including the following:
- A. A two-year estimated operating budget, revised and updated at least every six months, of annual expenditures necessary to operate and maintain the common areas and facilities of the conversion condominium development, specifically stating the assumptions and bases on which each item included in such operating budget was formulated; the developer may be held financially responsible for any intentional misrepresentations in the estimated operating budget. The estimated operating budget shall include at least the following costs, if applicable:
 - 1. Operating costs.
 - a. Utilities;
 - b. Heating fuels;
 - c. Janitorial services;
 - d. Trash and garbage disposal;
 - e. Ground and building maintenance;
 - f. Security;
 - g. Maintenance and operation of recreational and other facilities;
 - h. Building insurance;
 - i. Elevator maintenance;
 - j. Sidewalks and street maintenance; and
 - k. Other operating costs.
 - 2. Management costs.
 - a. Accounting and bookkeeping services;
 - b. Legal services;
 - c. Management fees; and
 - d. Other management costs.
 - 3. Reserve costs.
 - a. Reserve for unexpected repair work;
 - b. Reserve for replacement and upkeep of common areas and facilities; and
 - c. Other reserve funds.

If no reserve is provided for any one or more of the applicable reserve costs listed herein, the following statement shall be inserted in a type size and style equal to at least twenty point bold type: "THE DEVELOPER HAS NOT PROVIDED A RESERVE FOR CERTAIN POSSIBLE FUTURE COSTS OF THE CONDOMINIUM IN HIS BUDGET. ACCORDINGLY, IT MAY BE NECESSARY TO PROVIDE FOR A SPECIAL ASSESSMENT TO ALL CONDOMINIUM UNIT OWNERS TO PAY FOR SUCH COSTS SHOULD THEY OCCUR."
 - B. A two-year statement of the estimated common area and facility operating budget for each individual unit, and a statement of all additional estimated monthly expenses for the same period for each unit, to be itemized as to utilities, parking, recreational facilities and any other anticipated expenses for each unit;
 - C. A statement as to what financial arrangements, if any, the developer has made to cover the estimated common areas operating budget in the event an insufficient number of units are sold;
 - D. A statement of the current realty taxes for each individual unit and estimated changes in the tax assessment for each individual unit assuming the taxes as reappraised are based upon the sales price of the real estate;
 - E. A statement that any deposit made in connection with the purchase or reservation of any unit shall be placed in an escrow account or held in trust until:
 - 1. Delivered to the developer at closing;
 - 2. Delivered to the developer because of the purchaser's default under a contract to purchase the unit; or
 - 3. Refunded to the purchaser.

A deposit of two thousand dollars (\$2,000) or more, if held for more than ninety days, shall bear interest at the rate of four percent per year for any period exceeding ninety days, and the statement shall so specify. Such escrow funds shall not be subject to attachment by the creditors of either the purchaser or the developer, and the statement shall so specify.
- (4) A description of warranties, including the following:
- A. A two-year warranty by the developer covering the full cost of any labor and materials for any repair or replacement of the common areas and facilities and a one-year warranty covering the full cost of labor and materials for any repair or replacement of structural, mechanical and other elements pertaining to each unit, excluding costs necessitated by acts of God;
 - B. The warranties specified herein shall commence on the date of the filing of the deed of the first condominium ownership interest transfer in the conversion condominium development to a purchaser in good faith for value.
 - C. In the case of appliances furnished as part of the unit by the developer, the valid assignment by the developer of the express and/or implied warranty of the manufacturer shall satisfy the developer's warranty obligation.
 - D. All warranties owned by the developer that exceed time periods specified herein with respect to any part of the units or common areas and facilities shall be assigned to the purchaser.
- (5) Copies of the sales documents and literature, including, but not limited to:
- A. The sales brochures and purchase contracts to be used by the developer; and
 - B. The declaration and by-laws of the condominium association.
- (6) Descriptions of the following documents:
- A. Any leases of real or personal property in the conversion condominium development other than residential leases expiring later than two years after the filing of the public offering statement with the City;
 - B. Any employment contract, insurance policy, or other contract affecting the use, maintenance or access to all or part of the conversion condominium development expiring later than two years after the filing of the public offering statement with the City;
 - C. The coverage and amounts of any insurance policies applicable to the conversion condominium development; and
 - D. Any management agreement, including the name of the management agent, services to be performed, term, charges, circumstances, if any, under which the charges may be increased, conditions, if any, under which the agreement may be cancelled or terminated, and a statement stating the relationship between the developer and the management firm, if any. The term of such management agreement shall be governed by Ohio R.C. 5311.25(D).
- (7) A statement as to recreational facilities, including a statement of whether, and under what circumstances, the unit owners are required to be members of, support, or participate financially other than as part of their common expenses in recreational facilities, such as, but not limited to, health clubs, exercise rooms, tennis courts, swimming pools, party rooms and golf putting greens; if any recreational facility is not part of the common areas, charges for its use shall not exceed charges customarily made for similar facilities in the City or in surrounding communities, and the statement shall so specify. Additionally, if any recreational facility is not part of the common areas, the following warning shall be inserted in a type size and style equal to at least twenty point bold type: "THE (HERE NAME FACILITIES) ARE NOT INCLUDED IN THE COMMON FACILITIES. THESE FACILITIES ARE AVAILABLE TO UNIT OWNERS FOR (HERE DESCRIBE MONTHLY CHARGE AND INVITATION FEE). UNIT OWNERS ARE/ARE NOT (AS APPLICABLE) REQUIRED TO PARTICIPATE FINANCIALLY."
- (8) A statement as to parking facilities, including a description of the location, ownership and availability to unit owners and the general public of parking associated with the condominium; if all such parking facilities are not part of the common areas or divided as individual parking spaces among and designated as being part of the units, the parking facilities must be legally dedicated to the exclusive use of the conversion condominium development and charges for the use of the parking facilities shall not exceed charges customarily made for similar facilities in the City or surrounding communities, and the statement shall so specify. Further, the following statement shall be inserted in a type size and style equal to at least twenty point bold type: "PARKING FACILITIES ASSOCIATED WITH THIS BUILDING ARE NOT OWNED INDIVIDUALLY OR IN COMMON BY THE UNIT OWNERS."
- (9) A statement conspicuously displayed on the first page of each copy of the public offering statement in a type size and style equal to at least twenty point bold type: "WARNING: ORAL REPRESENTATIONS CANNOT BE RELIED UPON AS CORRECTLY STATING THE REPRESENTATIONS OF THE DEVELOPER AND ARE NOT BINDING ON THE DEVELOPER. REFER TO THIS PUBLIC OFFERING STATEMENT FOR CORRECT REPRESENTATIONS."
- (10) The signature of the executive officer of the developer to a statement affirming under oath that the public offering statement is, and any supplements, modifications and amendments are true, full, complete and correct as he truly believes.
- (b) Amendments to Public Offering Statement. The developer shall amend the public offering statement from time to time when any material changes occur in any matter contained therein. Amendments shall be made as soon as practicable after such material change occurs or the developer has reason to know of such material change, and a public offering statement is not current unless all amendments are incorporated therein.
- (c) Promotional Use of Public Offering Statement. The public offering statement shall not be distributed or used for any promotional purposes before its filing with the City, and afterwards, with the exception of sales brochures contained therein, shall be used only in its entirety for promotional purposes.

(Ord. 80-79. Passed 8-28-79.)

1307.06 PROTECTION OF TENANTS AND PURCHASERS.

- (a) Notification to Prospective Tenants. For so much of the 180-day period immediately before the filing of a declaration with the County Recorder during which a developer of a conversion condominium development is the owner thereof, he shall give written notification to each prospective tenant before entering into a lease that such rental units may be converted to condominiums within such period.
- (b) Notice of Conversion and Public Offering Statement. A developer of a conversion condominium development shall deliver to each of the tenants in possession written notice of conversion and the public offering statement not less than 120 days before requiring the tenant to vacate, provided that in the case of any tenant who is over sixty years of age or who is deaf or blind or who is unable to walk without assistance, the developer shall deliver such notice of conversion and the public offering statement not less than 180 days before requiring such tenant to vacate.
- (c) Appropriate Notices. A developer of a conversion condominium development shall deliver appropriate notices of conversion based upon his best knowledge and information as to the age and/or health of each tenant. No tenant who receives other than a 180-day notice of conversion shall be deemed to be entitled to a 180-day notice unless, within fifteen days of receipt of such inappropriate notice, the tenant delivers a written statement to the developer declaring that the tenant is over sixty years of age or is deaf or blind or is unable to walk without assistance, and in such case such statement shall be presumed to be true in the absence of evidence to the contrary.
- (d) Expiration of Tenancy Before End of Notice Period. Any tenant whose tenancy expires other than for cause before the expiration of 120 days from the date of delivery of such notice of conversion shall have the right to additional tenancy on the same terms and conditions and for the same rental until the expiration of such 120-day period, by the giving of written notice thereof by the tenant to the developer within thirty days of the

date of delivery of such notice of conversion, provided that in the case of any tenant who is over sixty years of age or who is deaf or blind or who is unable to walk without assistance, such tenant shall have the right to an additional tenancy on the same terms and conditions and for the same rental until the expiration of such 180-day period, by the giving of written notice thereof by the tenant to the developer within sixty days of the date of delivery of such notice of conversion.

(e) Expiration of Tenancy After Ninety Days from Notice.

- (1) Any tenant whose tenancy expires after ninety days from the date of delivery of such notice of conversion shall have the right to terminate the lease upon forty-five days' written notice, without penalty or other termination charge to the tenant. By delivering the notice of termination, the tenant waives the right of first refusal under subsection (h) hereof.
- (2) Paragraph (e)(1) hereof shall not apply to tenants who have received notification under subsection (a) hereof before entering into a lease.

(f) Contents of Notice of Conversion.

- (1) The notice of conversion shall include a copy of this chapter as an attachment.
- (2) The notice of conversion shall contain a statement indicating that such notice shall not be construed as abrogating any rights any tenant may have under a valid existing written lease.
- (3) The notice of conversion shall contain a statement instructing the tenant that he may advise the City Division of Building Engineering and Inspection of any structural or mechanical defects in the building or common areas and of any unhealthful or unsafe conditions therein which the tenant believes should be corrected.

- (4) Failure of a developer to give notice of conversion as herein required shall be a defense to an action for possession.

(g) Service of Notice of Conversion and Delivery of Public Offering Statement.

- (1) Such notice of conversion and public offering statement shall be deemed to be delivered on the third day after they are deposited in the United States mail addressed to the tenant at his last known residence, which may be the address of the property subject to the lease, sent by certified or registered mail, return receipt requested, with sufficient prepaid postage affixed to carry it to its destination. A tenant's refusal to accept delivery shall be deemed adequate service. If such mailing is returned to the developer undelivered to the tenant for any reason other than refusal of the tenant to accept delivery, the developer shall forthwith re-mail such mailing by regular United States mail and such remailing shall be deemed to be delivered on the third day after it is deposited in the mail. Personal delivery is permissible if service cannot be made by United States mail.
- (2) The public offering statement shall be filed with the City on the same day that the notice of conversion and public offering statement are deposited in the United States mail to tenants.

(h) Tenants' Right of First Refusal.

- (1) During the period of ninety days following delivery of the notice of conversion and the public offering statement, and during the period of 120 days following delivery of the notice of conversion and the public offering statement in the case of any person who is over sixty years of age or who is deaf or blind or who is unable to walk without assistance, any person who was both a tenant on the date of delivery of notice of conversion and the public offering statement and also a current tenant shall have the exclusive right of first refusal to purchase his unit.
- (2) During such period, the developer may offer to sell such unit to prospective purchasers other than the tenant at a price not less than offered to the tenant and/or on terms not more favorable than offered to the tenant, and each contract for sale of a unit shall conspicuously disclose the existence of, and shall be subject to, such right of first refusal.
- (3) If during such period the tenant fails to purchase the unit, the developer shall not offer to sell that unit during the following ninety days at a price or on terms more favorable to the offeree than the price or terms offered to the tenant without first making the same offer to the tenant, who shall have ten days therefrom within which to accept the offer.

(i) Co-Tenant's Rights.

- (1) If there is more than one tenant leasing a unit, then each such tenant shall be entitled to contract for the purchase of a proportionate share of the unit and of a proportionate share of the share of any tenant who elects not to purchase.
- (2) In no case shall this provision be deemed to authorize the purchase of less than the entire interest in the unit to be conveyed.

(j) Tenant's Right to Cancel Contract.

- (1) A tenant may, at his election, cancel an executed contract between himself and the developer for the purchase of a condominium ownership interest by delivering to the developer or his agent written notice of cancellation at any time before midnight local time of the third day following the date the contract is signed by the tenant, notwithstanding any other provisions of this chapter.
- (2) Upon receipt of a timely cancellation, the developer shall immediately refund any deposit, earnest money or other funds and the parties shall have no further rights or liabilities under the contract. Each tenant's contract for sale of a unit shall conspicuously disclose the tenant's right of cancellation.

(k) Developer's Right of Access.

- (1) The tenant in a conversion condominium development shall not unreasonably withhold consent to the developer to enter the unit in order to inspect the premises, make necessary or agreed repairs, supply necessary or agreed services or show the unit to a purchaser.
- (2) Except in case of emergency or unless it is impracticable to do so, the developer shall give the tenant reasonable notice of his intent to enter and may enter only at reasonable times. Twenty-four hours is presumed to be a reasonable notice in the absence of evidence to the contrary.
- (3) The developer shall not abuse the right of access or use it to harass the tenant. Entry by the developer in excess of twice in any seven-day period for the purpose of showing the unit to purchasers shall be presumed to be an abuse of the right of access in the absence of evidence to the contrary.

(l) Nonwaivability of Obligations and Rights. Neither the obligations nor the rights under this section may be waived in a contract of lease, a contract of sale or otherwise, and any attempted waiver is void.

(m) Delivery of Public Offering Statement to Purchasers Other Than Tenants.

- (1) The developer shall deliver a copy of the public offering statement to a purchaser other than a tenant not less than fifteen days before the execution of a contract for the purchase of a unit.
- (2) On the day of delivery of the public offering statement, the developer shall obtain a receipt signed by such purchaser acknowledging that he has received the public offering statement and has also received a copy of such receipt on that date. Such receipts shall be kept on file in the possession of the developer for a period of two years from the date of delivery to and signature by the purchaser, and such receipts shall be subject to inspection by the City at any reasonable time.

(n) Purchaser's Right to Cancel Contract.

- (1) Unless a purchaser is given the public offering statement not less than fifteen days before executing a contract for the purchase of a unit, the purchaser may cancel the contract within fifteen days after first receiving the public offering statement. The notice of cancellation by the purchaser must be in writing and cancellation is to be without penalty. All payments which were made by the purchaser before cancellation, including interest where applicable, shall be refunded by the developer within three days after receiving notice of cancellation.
- (2) If the developer fails to provide a purchaser with a public offering statement and all amendments thereto before conveying a unit, the purchaser, in addition to any rights to damages or other relief, is entitled to receive from the developer an amount equal to ten percent of the sales price of the unit as liquidated damages.
- (3) The provisions of subsection (h) hereof shall apply to tenants in addition to the tenant's right to cancel under subsection (j) hereof.
- (4) Each purchaser's contract for the sale of a unit shall conspicuously disclose the purchaser's right of cancellation.
- (5) The purchaser's right to cancel under this section may not be waived in the contract of sale or otherwise and any attempted waiver is void.

(Ord. 80-79. Passed 8-28-79.)

1307.07 PROHIBITIONS AGAINST UNLAWFUL REPRESENTATIONS.

(a) General Unlawful Representations. No developer or agent selling or offering to sell any condominium unit in any condominium development shall do any of the following:

- (1) Employ any device, scheme or artifice to defraud;
- (2) Obtain money or property by means of any untrue statement of a material fact or by any omission to state a material fact necessary in order to make the statements made not misleading or by any pictorial representation which is false;
- (3) Engage in any transaction, practice or course of business which operates or would operate as a fraud or deceit upon a purchaser;
- (4) Make or cause to be made in any document required by this chapter any statement or representation that is knowingly false or misleading; or
- (5) Make or cause to be made to any purchaser any oral representation which differs from the statements made in any document required by this chapter.

(b) Specific Unlawful Representations. No developer or agent in selling or offering to sell any condominium unit in any condominium development shall do any of the following:

- (1) Request a tenant and/or purchaser to acknowledge receipt of any notice or public offering statement which he has not received, or falsify the date of receipt;
- (2) Certify falsely to having provided notices of the public offering statement required by this chapter; or
- (3) Employ undue pressure to induce a tenant to purchase a unit which intrudes on or prevents his use of his best judgment in deciding whether to purchase, including any of the following:
 - A. Any direct or indirect increase or decrease in the purchase price or benefits offered to tenants during any portion of the period during which the tenants are entitled to a right of first refusal pursuant to Section 1307.06 (h);
 - B. Any false statements as to the number of standby or backup sales contracts, reservations, subscriptions or like agreements;
 - C. Any false statement prior to the end of the period during which the tenant may not be evicted without cause pursuant to Section 1307.06 as to a future rent increase; or
 - D. Any false statement relating to future conversions which would reduce rental units available in the City.

(Ord. 80-79. Passed 8-28-79.)

1307.08 EQUAL OPPORTUNITY.

No person shall be denied the right to purchase or lease a condominium unit in the City because of race, color, creed, sex, religious beliefs or national origin.

(Ord. 80-79. Passed 8-28-79.)

1307.09 REMEDIES.

(a) Public's Remedies.

- (1) The rights, obligations and remedies set forth in this chapter shall be cumulative and in addition to any others available at law or in equity.
- (2) The City or any tenant or purchaser or owner of a unit may enforce compliance of any provision of this chapter in a court of competent jurisdiction, provided that only the City may enforce the provisions of subsection (b) hereof.
- (3) In any action brought to enforce any provision of this chapter except subsection (b) hereof, a prevailing plaintiff shall be entitled to recover, in addition to any other remedy available, his reasonable attorney's fees.
- (4) If a developer fails to comply with any of the provisions of this chapter, a purchaser may at his option at any time prior to the closing of the sale, rescind, in writing, the contract of sale, without any liability on the part of the purchaser and shall thereupon be entitled to the return of any moneys made on account of the contract, and any expenses incurred on account of the contract shall be the responsibility of the developer.

(b) City's Remedies. Whenever it is determined by the Director of Law that there has been a violation of any of the provisions of this chapter, the Law Department is authorized, at its discretion, to commence with one or more of the following procedures:

- (1) Attempt to conciliate the matter by conference or otherwise and secure a written conciliation agreement;
- (2) Seek a written assurance of discontinuance which shall be signed by the developer and the Director of Law;
- (3) Institute injunctive or other appropriate action or proceeding in any court of competent jurisdiction to obtain a restraining order, permanent or temporary injunction, or any other appropriate form of relief; and
- (4) Institute criminal proceedings.

(Ord. 80-79. Passed 8-28-79.)

1307.10 REVOCATION OF LICENSE, CERTIFICATE OR PERMIT.

In addition to the penalty provided in Section 1307.99, the violation of any provision of this chapter shall be cause for revocation of any license, certificate or permit issued to the violator or offending party by the City.

(Ord. 80-79. Passed 8-28-79.)

1307.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree. Each day such violation occurs or continues shall constitute a separate offense.

(Ord. 76-2003. Passed 9-23-03.)

1309.01 ADOPTION.

There is hereby adopted for the purpose of establishing rules and regulations governing the conditions and maintenance of all property, buildings and structures; by providing the standards for supplied utilities and facilities and other physical things and conditions essential to ensure that structures are safe, sanitary and fit for occupation and use; and the condemnation of buildings and structures unfit for human occupancy and use, and the demolition of such existing structures in the City of Richmond Heights that certain code known as the most currently published edition of the International Property Maintenance Code except such portions as are hereinafter added, amended, modified or deleted. In the event there is a direct conflict between the most currently published edition of the International Property Maintenance Code and the additions, amendments, modifications, or deletions set forth in this Chapter 1309, the provisions of Chapter 1309 shall apply.

(Ord. 27-2007. Passed 5-8-07.)

1309.02 FILE AND DISTRIBUTION COPIES.

One copy of the International Property Maintenance Code shall be filed as part of the ordinance records of the City and the same adopted and incorporated as provided for in Section 1309.01. One copy of such Code shall be on file and available for inspection in the Department of Building, Zoning and Housing.

(Ord. 27-2007. Passed 5-8-07.)

1309.03 ADMINISTRATION.

SECTION 101 GENERAL.

101.1 Title. (amended) These regulations shall be known as the Property Maintenance Code of the City of Richmond Heights, hereinafter referred to as "this code."

101.2 Scope. The provisions of this code shall apply to all existing residential and nonresidential structures and all existing premises and constitute minimum requirements and standards for premises, structures, equipment and facilities for light, ventilation, space, heating, sanitation, protection from the elements, a reasonable level of life safety, safety from fire and other hazards, and for a reasonable level of safe and sanitary maintenance? the responsibility of owners, an owner's authorized agent, operators and occupants? the occupancy of existing structures and premises, and for administration, enforcement and penalties.

101.3 Intent. (amended) This code shall be construed to secure its expressed intent, which is to ensure public health, safety and welfare insofar as they are affected by the continued occupancy and maintenance of structures and premises. Existing structures and premises that do not comply with these provisions shall be altered or repaired to provide a minimum level of health and safety as required herein.

101.4 Severability. If a section, subsection, sentence, clause or phrase of this code is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this code.

SECTION 102 APPLICABILITY.

102.1 General. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall govern. Where differences occur between provisions of this code and the referenced standards, the provisions of this code shall apply. Where, in a specific case, different sections of this code specify different requirements, the most restrictive shall govern.

102.2 Maintenance. Equipment, systems, devices and safeguards required by this code or a previous regulation or code under which the structure or premises was constructed, altered or repaired shall be maintained in good working order. No owner, owner's authorized agent, operator or occupant shall cause any service, facility, equipment or utility which is required under this section to be removed from or, shut off from or discontinued for any occupied dwelling, except for such temporary interruption as necessary while repairs or alterations are in progress. The requirements of this code are not intended to provide the basis for removal or abrogation of fire protection and safety systems and devices in existing structures. Except as otherwise specified herein, the owner or the owner's authorized agent shall be responsible for the maintenance of buildings, structures and premises.

102.3 Application of other codes. (amended) Repairs, additions or alterations to a structure, or changes of occupancy, shall be done in accordance with the procedures and provisions of all laws, codes, local ordinances, resolutions, rules and regulations of the City of Richmond Heights. Nothing in this code shall be construed to cancel, modify or set aside any provision of said laws, codes, local ordinances, resolutions, rules and regulations.

102.3.1 Conflict of laws. (added) In the event of a conflict between any of the provisions of the Property Maintenance Code and a provision of any other standard technical code adopted by the City or any other local ordinance, resolution, rule, regulation, the stricter standard shall control.

102.4 Existing remedies. The provisions in this code shall not be construed to abolish or impair existing remedies of the jurisdiction or its officers or agencies relating to the removal or demolition of any structure which is dangerous, unsafe and unsanitary.

102.5 Workmanship. Repairs, maintenance work, alterations or installations which are caused directly or indirectly by the enforcement of this code shall be executed and installed in a workmanlike manner and installed in accordance with the manufacturer's instructions.

102.6 Historic buildings. (amended) The City of Richmond Heights has historic areas within its jurisdiction that have historic structures and dwellings that have distinctive and unique architectural styles and details, and such styles and details shall be preserved whenever reasonably possible. When repairing or altering a dwelling or structure in an historic area, the existing architectural style, details and materials shall be preserved, repaired, matched or reproduced and not removed, altered, destroyed or replaced with alternate materials. Alternate architectural style, details and materials shall not be utilized unless approved by the Architectural Board of Review (ABR). The tuck-pointing of masonry assemblies such as foundations, porches, stairs/steps, chimneys and chimney caps shall be performed in a neat and workman-like manner with materials that match the existing materials in style, color (including mortar color) and texture.

102.7 Referenced codes and standards. (deleted)

102.7.1 Conflicts. (deleted)

102.7.2 Provisions in referenced codes and standards. (deleted)

102.8 Requirements not covered by code. Requirements necessary for the strength, stability or proper operation of an existing fixture, structure or equipment, or for the public safety, health and general welfare, not specifically covered by this code, shall be determined by the code official.

102.9 Application of references. References to chapter or section numbers, or to provisions not specifically identified by number, shall be construed to refer to such chapter, section or provision of this code.

102.10 Other laws. (amended) The provisions of this code shall not be deemed to nullify any provisions of the Codified Ordinances of the City of Richmond Heights, state or federal law.

SECTION 103 PROPERTY MAINTENANCE INSPECTION;

ADMINISTRATION AND ENFORCEMENT.

103.1 General. (amended) The Commissioner of Building, Zoning and Housing or the Commissioner's designee shall have the authority to enforce the provisions of the regulations adopted in this chapter, and all the provisions of such documents shall be administered by the Commissioner or the Commissioner's designee.

103.2 Appointment. (deleted)

103.3 Deputies. (amended) Authorized inspectors under this code are hereby referred to as "code official."

103.4 Liability. (amended) The liability of any code official, member of the City's Zoning Board of Appeals, Planning Commission, and ARB, and an officer or employee charged with the enforcement of this code, while acting for the jurisdiction, and the costs for the defense thereof, shall not thereby be governed by the provisions of the Ohio Revised Code, Chapter 2744.

103.5 Fees. (deleted)

SECTION 104 DUTIES AND POWERS OF THE CODE OFFICIAL.

104.1 General. The code official shall is hereby authorized and directed to enforce the provisions of this code.

104.2 Rule-making authority. (amended) The code official shall have the authority to render interpretations as necessary in the interest of this code and public health, safety and general welfare, to adopt and promulgate rules and procedures; to interpret and implement the provisions of this code; to secure the intent and purposes thereof; and to designate requirements applicable because of local climatic or other conditions. Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this code, or of violating accepted engineering methods involving public safety or varying any provision of the Planning and Zoning Code and the Building Code of the City of Richmond Heights.

104.3 Inspections. The code official shall make all of the required inspections to determine whether such comply with this code, or shall accept reports of inspection by agencies or individuals approved by the code official. All reports of such inspections shall be in writing and be certified by a responsible officer of such approved agency or by the responsible individual. The code official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority.

104.4 Right of entry. (amended) Where it is necessary to make an inspection to enforce the provisions of this code, or whenever the code official has reasonable cause to believe that there exists in a structure or upon a premises a condition in violation of this code, the code official is authorized to enter the structure or premises at reasonable times to inspect or perform the duties imposed by this code, provided that if such structure or premises is occupied, the code official shall present identification to the occupant and request entry. If such structure or premises is unoccupied, the code official shall first make a reasonable effort to locate the owner, owner's authorized agent or other person having charge or control of the structure or premises and request entry. If entry is refused or consent to entry is not obtained, the code official shall have recourse to the remedies provided by law to secure entry.

104.5 Identification. The code official shall carry proper identification when inspecting structures or premises in the performance of duties under this code.

104.6 Notices and orders. (added) The code official shall issue all necessary notices or orders to ensure compliance with this code. When the code official takes action in response to findings of non-compliance or denies any approval, such action shall be initiated by issuing an adjudication order prior to seeking any remedy, civil or criminal, unless immediate action is required to protect lives and property.

104.7 Department records. The code official shall keep official records of all business and activities of the department specified in the provisions of this code. Such records shall be retained in the official records for the period required for retention of public records.

104.8 Coordination of inspections. Whenever in the enforcement of this code or another code or ordinance, the responsibility of more than one code official of the jurisdiction is involved, it shall be the duty of the code officials involved to coordinate their inspections and administrative orders as fully as practicable so that the owners and occupants of the structure shall not be subjected to visits by numerous inspectors or multiple or conflicting orders. Whenever an inspector from any agency or department observes an apparent or actual violation of some provision of some law, ordinance or code not within the inspector's authority to enforce, the inspector shall report the findings to the code official having jurisdiction.

104.9 Inspection and status reports requested by interested parties; fees. (added)

(a) **Application for Inspection.** Whenever an owner, operator, occupant, bona fide prospective purchaser, mortgagee or bona fide prospective occupant shall apply to the code official for an inspection in order to ascertain if any section of this code has been violated, the code official shall, upon payment of the fee hereunder stated, cause an inspection to be made of the premises and issue an informational certificate or report of the inspection to the applicant, indicating therein any violations of this code on the premises. The applicant for such inspection shall state in writing his full name, residence, reasons and basis for which the inspection is requested. The code official may deny the application for failure to comply with this requirement.

(b) **Application for Status Report.** Where, in lieu of an inspection, an owner, operator, occupant, lessee, bona fide prospective purchaser, mortgagee or bona fide prospective occupant requests a status report as to whether or not there are any known violations presently pending on the premises, upon payment of the fee prescribed herein and the written request, a copy of any notice or order on any violation then pending shall be sent to the applicant.

(c) **Limitations of Inspection or Status Report.** No inspection report issued under subsection (a) herein or status report under subsection (b) herein shall be construed as providing a defense against any violation of this code or any other ordinance of the City of Richmond Heights which may be discovered thereafter whether or not the condition or violation existed at the time of any such inspection or status report. The inspection or status report is provided as a convenience to the public and shall not constitute a limitation on the full enforcement of this code. The inspection or status report shall include only such matters as are embraced in this code.

(d) **Inspection and Status Report Fees.** The minimum fee for any inspection made under subsection (a) herein shall be fifteen dollars (\$15.00). Dwellings of more than ten dwelling units or rooming units shall pay an additional fee of five dollars (\$5.00) for each unit in excess of ten.

104.10. Certificate of Occupancy. (added) When it is determined by the Division of Building, Zoning and Housing that a dwelling, building or structure is in compliance with the provisions of these Codified Ordinances and all other applicable rules and regulations applicable thereto, the Building Official shall issue a Certificate of Occupancy for the premises.

SECTION 105 APPROVALS

105.1 Modifications. Whenever there are practical difficulties involved in carrying out the provisions of this code, the code official shall have the authority to grant modifications for individual cases upon application of the owner or owner's authorized agent, provided the code official shall first find that special individual reason makes the strict letter of this code impractical, and the modification is in compliance with the intent and purpose of this code and that such modification does not lessen health, life and fire safety requirements. The details of action granting modifications shall be recorded and entered in the department files.

105.2 Alternative materials, methods and equipment. The provisions of this code are not intended to prevent the installation of any material or to prohibit any method of construction not specifically prescribed by this code, provided that any such alternative has been approved. An alternative material or method of construction shall be approved where the code official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, fire resistance, durability and safety. Where the alternative material, design or method of construction is not approved, the code official shall respond in writing, stating the reasons the alternative was not approved.

105.3 Required testing. Whenever there is insufficient evidence of compliance with the provisions of this code, or evidence that a material or method does not conform to the requirements of this code, or in order to substantiate claims for alternative materials or methods, the code official shall have the authority to require tests to be made as evidence of compliance at no expense to the jurisdiction.

105.3.1 Test methods. Test methods shall be as specified in this code or by other recognized test standards. In the absence of recognized and accepted test methods, the code official shall be permitted to approve appropriate testing procedures performed by an approved agency.

105.3.2 Test reports. Reports of tests shall be retained by the code official for the period required for retention of public records.

105.4 Used material and equipment. The use of used materials that meet the requirements of this code for new materials is permitted. Materials, equipment and devices shall not be reused unless such elements are in good repair or have been reconditioned and tested where necessary, placed in good and proper working condition and approved by the code official.

105.5 Approved materials and equipment. Materials, equipment and devices approved by the code official shall be constructed and installed in accordance with such approval.

105.6 Research reports. Supporting data, where necessary to assist in the approval of materials or assemblies not specifically provided for in this code, shall consist of valid research reports from approved sources.

SECTION 107 NOTICES AND ORDERS

107.1 Notice to person responsible. Whenever the code official determines that there has been a violation of this code or has grounds to believe that a violation has occurred, notice shall be given in the manner prescribed in Sections 107.2 and 107.3 to the person responsible for the violation as specified in this code. Notices for condemnation procedures shall also comply with Section 108.3.

107.2 Form. Such notice prescribed in Section 107.1 shall be in accordance with all of the following:

1. Be in writing.
2. Include a description of the real estate sufficient for identification.
3. Include a statement of the violation or violations and why the notice is being issued.
4. Include a correction order allowing a reasonable time to make the repairs and improvements required to bring the dwelling unit or structure into compliance with the provisions of this code.
5. Inform the property owner or owner's authorized agent of the right to appeal.
6. Include a statement of the right to file a lien in accordance with Section 106.3.

107.3 Method of service. Such notice shall be deemed to be properly served if a copy thereof is:

1. Delivered personally;
2. Sent by certified or first-class mail addressed to the last known address; or
3. If the notice is returned showing that the letter was not delivered, a copy thereof shall be posted in a conspicuous place in or about the structure affected by such notice.

107.4 Unauthorized tampering. Signs, tags or seals posted or affixed by the code official shall not be mutilated, destroyed or tampered with, or removed without authorization from the code official.

107.5 Penalties. (deleted)

107.6 Transfer of ownership. It shall be unlawful for the owner of any dwelling unit or structure who has received a compliance order or upon whom a notice of violation has been served to sell, transfer, mortgage, lease or otherwise dispose of such dwelling unit or structure to another until the provisions of the compliance order or notice of violation have been complied with, or until such owner or the owner's authorized agent shall first furnish the grantee, transferee, mortgagee or lessee a true copy of any compliance order or notice of violation issued by the code official and shall furnish to the code official a signed and notarized statement from the grantee, transferee, mortgagee or lessee, acknowledging the receipt of such compliance order or notice of violation and fully accepting the responsibility without condition for making the corrections or repairs required by such compliance order or notice of violation.

SECTION 108 UNSAFE STRUCTURES AND EQUIPMENT.

108.1 General. When a structure or equipment is found by the code official to be unsafe, or when a structure is found unfit for human occupancy, or is found unlawful, such structure shall be condemned pursuant to the provisions of this code.

108.1.1 Unsafe structures. An unsafe structure is one that is found to be dangerous to the life, health, property or safety of the public or the occupants of the structure by not providing minimum safeguards to protect or warn occupants in the event of fire, or because such structure contains unsafe equipment or is so damaged, decayed, dilapidated, structurally unsafe or of such faulty construction or unstable foundation, that partial or complete collapse is possible.

108.1.2 Unsafe equipment. Unsafe equipment includes any boiler, heating equipment, elevator, moving stairway, electrical wiring or device, flammable liquid containers or other equipment on the premises or within the structure which is in such disrepair or condition that such equipment is a hazard to life, health, property or safety of the public or occupants of the premises or structure.

108.1.3 Structure unfit for human occupancy. A structure is unfit for human occupancy whenever the code official finds that such structure is unsafe, unlawful or, because of the degree to which the structure is in disrepair or lacks maintenance, is unsanitary, vermin or rat infested, contains filth and contamination, or lacks ventilation, illumination, sanitary or heating facilities or other essential equipment required by this code, or because the location of the structure constitutes a hazard to the occupants of the structure or to the public.

108.1.4 Unlawful structure. An unlawful structure is one found in whole or in part to be occupied by more persons than permitted under this code, or was erected, altered or occupied contrary to law.

108.1.5 Dangerous structure or premises. For the purpose of this code, any structure or premises that has any or all of the conditions or defects described below shall be considered dangerous:

1. Any door, aisle, passageway, stairway, exit or other means of egress that does not conform to the approved building or fire code of the jurisdiction as related to the requirements for existing buildings.
2. The walking surface of any aisle, passageway, stairway, exit or other means of egress is so warped, worn loose, torn or otherwise unsafe as to not provide safe and adequate means of egress.
3. Any portion of a building, structure or appurtenance that has been damaged by fire, earthquake, wind, flood, deterioration, neglect, abandonment, vandalism or by any other cause to such an extent that it is likely to partially or completely collapse, or to become detached or dislodged.
4. Any portion of a building, or any member, appurtenance or ornamentation on the exterior thereof that is not of sufficient strength or stability, or is not so anchored, attached or fastened in place so as to be capable of resisting natural or artificial loads of one and one-half the original designed value.
5. The building or structure, or part of the building or structure, because of dilapidation, deterioration, decay, faulty construction, the removal or movement of some portion of the ground necessary for the support, or for any other reason, is likely to partially or completely collapse, or some portion of the foundation or underpinning of the building or structure is likely to fail or give way.
6. The building or structure, or any portion thereof, is clearly unsafe for its use and occupancy.
7. The building or structure is neglected, damaged, dilapidated, unsecured or abandoned so as to become an attractive nuisance to children who might play in the building or structure to their danger, becomes a harbor for vagrants, criminals or immoral persons, or enables persons to resort to the building or structure for committing a nuisance or an unlawful act.
8. Any building or structure has been constructed, exists or is maintained in violation of any specific requirement or prohibition applicable to such building or structure provided by the approved building or fire code of the jurisdiction, or of any law or ordinance to such an extent as to present either a substantial risk of fire, building collapse or any other threat to life and safety.
9. A building or structure, used or intended to be used for dwelling purposes, because of inadequate maintenance, dilapidation, decay, damage, faulty construction or arrangement, inadequate light, ventilation, mechanical or plumbing system, or otherwise, is determined by the code official to be unsanitary, unfit for human habitation or in such a condition that is likely to cause sickness or disease.
10. Any building or structure, because of a lack of sufficient or proper fire-resistance-rated construction, fire protection systems, electrical system, fuel connections, mechanical system, plumbing system or other cause, is determined by the code official to be a threat to life or health.
11. Any portion of a building remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned so as to constitute such building or portion thereof as an attractive nuisance or hazard to the public.

108.2 Closing of vacant structures. If the structure is vacant and unfit for human habitation and occupancy, and is not in danger of structural collapse, the code official is authorized to post a placard of condemnation on the premises and order the structure closed up so as not to be an attractive nuisance. Upon failure of the owner or owner's authorized agent to close up the premises within the time specified in the order, the code official shall cause the premises to be closed and secured through any available public agency or by contract or arrangement by private persons and the cost thereof shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate and shall be collected by any other legal resource.

108.2.1 (amended) Authority to disconnect service utilities. The code official shall have the authority to authorize disconnection of utility service to the building, structure or system regulated by this code in case of emergency where necessary to eliminate an immediate hazard to life or property or where such utility connection has been made without approval. The code official shall notify the serving utility and, whenever possible, the owner or owner's authorized agent and occupant of the building, structure or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection the owner, owner's authorized agent or occupant of the building structure or service system shall be notified in writing as soon as practical thereafter.

108.3 Notice. Whenever the code official has condemned a structure or equipment under the provisions of this section, notice shall be posted in a conspicuous place in or about the structure affected by such notice and served on the owner, owner's authorized agent or the person or persons responsible for the structure or equipment in accordance with Section 107.3. If the notice pertains to equipment, it shall be placed on the condemned equipment. The notice shall be in the form prescribed in Section 107.2.

108.4 Placarding. Upon failure of the owner, owner's authorized agent or person responsible to comply with the notice provisions within the time given, the code official shall post on the premises or on defective equipment a placard bearing the word "Condemned" and a statement of the penalties provided for occupying the premises, operating the equipment or removing the placard.

108.4.1 Placard removal. The code official shall remove the condemnation placard whenever the defect or defects upon which the condemnation and placarding action were based have been eliminated. Any person who defaces or removes a condemnation placard without the approval of the code official shall be subject to the penalties provided by this code.

108.5 Prohibited occupancy. Any occupied structure condemned and placarded by the code official shall be vacated as ordered by the code official. Any person who shall occupy a placarded premise or shall operate placarded equipment, and any owner, owner's authorized agent or person responsible for the premises who shall let anyone occupy a placarded premise or operate placarded equipment shall be liable for the penalties provided by this code.

108.6 Abatement methods. The owner, owner's authorized agent, operator or occupant of a building, premises or equipment deemed unsafe by the code official shall abate or cause to be abated or corrected such unsafe conditions either by repair, rehabilitation, demolition or other approved corrective action.

108.7 Record. The code official shall cause a report to be filed on an unsafe condition. The report shall state the occupancy of the structure and the nature of the unsafe condition.

SECTION 109 EMERGENCY MEASURES

109.1 Imminent danger. (amended) When, in the opinion of the code official, there is imminent danger of failure or collapse of a building or structure which endangers life, or when any structure or part of a structure has fallen and life is endangered by the occupation of the structure, or when there is actual or potential danger to the building occupants or those in the proximity of any structure because of explosives, explosive fumes or vapors or the presence of toxic fumes, gases or materials, or operation of defective or dangerous equipment, the code official is hereby authorized and empowered to declare a case of emergency and immediately order and require the occupants to vacate the premises forthwith. The code official shall cause to be posted at each entrance to such structure a notice reading as follows: "NOTICE OF EMERGENCY: This Structure Is Unsafe and Its Occupancy Has Been Prohibited by the Code Official." It shall be unlawful for any person to enter such structure except for the purpose of securing the structure, making the required repairs, removing the hazardous condition or of demolishing the same.

109.2 Temporary safeguards. (amended) Notwithstanding other provisions of this code, whenever, in the opinion of the code official, there is imminent danger due to an unsafe condition, the code official shall order the necessary work to be done immediately, including the boarding up of openings, to render such structure temporarily safe whether or not the legal procedure herein described has been instituted; and shall cause such other action to be taken as the code official deems necessary to meet such emergency.

109.3 Closing streets. When necessary for public safety, the code official shall temporarily close structures and close, or order the authority having jurisdiction to close, sidewalks, streets, public ways and places adjacent to unsafe structures, and prohibit the same from being utilized.

109.4 Emergency repairs. For the purposes of this section, the code official shall employ the necessary labor and materials to perform the required work as expeditiously as possible.

109.5 Costs of emergency repairs. Costs incurred in the performance of emergency work shall be paid by the jurisdiction. The legal counsel of the jurisdiction shall institute appropriate action against the owner of the premises or owner's authorized agent where the unsafe structure is or was located for the recovery of such costs.

109.6 Hearing. (amended) Any person ordered to take emergency measures shall comply with such order forthwith. Any owner or lessee affected by such an order shall thereafter, upon petition directed to the Zoning Board of Appeals, be afforded a hearing as described in this code.

SECTION 110 DEMOLITION

110.1 General. (amended) The code official shall order the owner or owner's authorized agent of any premises upon which is located any structure, which in the code official's or owner's authorized agent judgment after

review is so deteriorated or old, dilapidated or has become so out of repair as to be dangerous, unsafe, unsanitary or otherwise unfit for human habitation or occupancy, and such that it is unreasonable to repair the structure, to demolish and remove such structure; or if such structure is capable of being made safe by repairs, to repair and make safe and sanitary, or to board up and hold for future repair or to demolish and remove at the owner's option; or where there has been a cessation of normal construction of any structure for a period of more than four months, to demolish and remove such structure.

110.2 Notices and orders. All notices and orders shall comply with Section 107.

110.3 Failure to comply. If the owner of a premises or owner's authorized agent fails to comply with a demolition order within the time prescribed, the code official shall cause the structure to be demolished and removed, either through an available public agency or by contract or arrangement with private persons, and the cost of such demolition and removal shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate.

110.4 Salvage materials. When any structure has been ordered demolished and removed, the governing body or other designated officer under said contract or arrangement aforesaid shall have the right to sell the salvage and valuable materials at the highest price obtainable. The net proceeds of such sale, after deducting the expenses of such demolition and removal, shall be promptly remitted with a report of such sale or transaction, including the items of expense and the amounts deducted, for the person who is entitled thereto, subject to any order of a court. If such a surplus does not remain to be turned over, the report shall so state.

SECTION 111 MEANS OF APPEAL

111.1 Application for appeal. (amended) Any person directly affected by a decision of the code official or a notice or order issued under this code shall have the right to appeal to the Zoning Board of Appeals of the City of Richmond Heights provided that a written application for appeal is filed within thirty (30) days after the day the decision, notice or order was served, as service is provided for a civil summons in Ohio. An application for appeal shall be based on a claim that the true intent of this code or the rules legally adopted there under have been incorrectly interpreted, the provisions of this code do not fully apply, or the requirements of this code are adequately satisfied by other means. Unless the code official has declared a case of emergency in accordance with Section 109 of this code, an application for appeal shall suspend action on enforcement of such notice until the appeal is acted upon by said Board. Failure to file an application for appeal in the time prescribed herein shall constitute a waiver of the right to appeal.

111.2 Membership of board. (deleted)

111.2.1 Alternate members. (deleted)

111.2.2 Chairman. (deleted)

111.2.3 Disqualification of member. (deleted)

111.2.4 Secretary. (deleted)

111.2.5 Compensation of members. (deleted)

111.3 Notice of meeting. (modified) Notice of the time, place and date of hearings on appeals to the board as provided for in this chapter shall be sent by certified mail or hand-delivery to all persons owning property that adjoins the property at issue or that is located directly across the right-of-way from the property at issue. The notice shall also advise such persons that they have the right to appear and to be heard at the hearing.

111.4 Open hearing. (modified) All hearings before the board shall be open to the public. The appellant, the appellant's representative, the code official and any person owning property that adjoins the property at issue or that is located directly across the right-of-way from the property at issue shall be given an opportunity to be heard.

111.4.1 Procedure. (deleted)

111.5 Postponed hearing. (deleted)

111.6 Board decision. (deleted)

111.6.1 Records and copies. The decision of the board shall be recorded. Copies shall be furnished to the appellant and to the code official.

111.6.2 Administration. The code official shall take immediate action in accordance with the decision of the board.

111.7 Court review. (deleted)

111.8 Stays of enforcement. (amended) Appeals of notice and orders (other than Imminent Danger notices) shall stay the enforcement of the notice and order until the appeal is heard by the Zoning Board of Appeals.

111.9 Additional legal recourse. (added) The imposition of any penalty or determination by the Zoning Board of Appeals for a violation shall not preclude the legal counsel of the jurisdiction from seeking any additional legal recourse related to such violation under this code or other applicable law.

SECTION 112 STOP WORK ORDER

112.1 Authority. Whenever the code official finds any work regulated by this code being performed in a manner contrary to the provisions of this code or in a dangerous or unsafe manner, the code official is authorized to issue a stop work order.

112.2 Issuance. A stop work order shall be in writing and shall be given to the owner of the property, to the owner's authorized agent, or to the person doing the work. Upon issuance of a stop work order, the cited work shall immediately cease. The stop work order shall state the reason for the order and the conditions under which the cited work is authorized to resume.

112.3 Emergencies. Where an emergency exists, the code official shall not be required to give a written notice prior to stopping the work.

112.4 Failure to comply. (amended) Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be liable to a fine of not less than ninety-nine dollars (\$100.00) or more than nine hundred and ninety-nine dollars (\$999.00), and such shall be deemed a public nuisance. (Ord. 79-2016. Passed 8-23-16.)

1309.04 DEFINITIONS.

SECTION 201 GENERAL.

201.1 Scope. Unless otherwise expressly stated, the following terms shall, for the purposes of this code, have the meanings shown in this chapter.

201.2 Interchangeability. Words stated in the present tense include the future; words stated in the masculine gender include the feminine and neuter; the singular number includes the plural and the plural, the singular.

201.3 Terms defined in other codes. (amended) Where terms are not defined in this code and are defined in the Ohio Building Code, Ohio Fire Code, Residential Code of Ohio for One-, Two-, and Three-Family Dwellings, National Electrical Code and the Planning and Zoning Code of the City of Richmond Heights, such terms shall have the meanings ascribed to them as in those codes.

201.4 Terms not defined. Where terms are not defined through the methods authorized by this section, such terms shall have ordinarily accepted meanings such as the context implies.

201.5 Parts. Whenever the words "dwelling unit," "dwelling," "premises," "building," "rooming house," "rooming unit" "housekeeping unit" or "story" are stated in this code, they shall be construed as though they were followed by the words "or any part thereof."

SECTION 202 GENERAL DEFINITIONS.

ACCESSORY. (added) A structure or use that is subordinate to the main or principal building on a lot and used for purposes customarily incidental to those of the main building.

ANCHORED. Secured in a manner that provides positive connection.

APPROVED. Acceptable to the code official.

BASEMENT. That portion of a building which is partly or completely below grade.

BATHROOM. A room containing plumbing fixtures including a bathtub or shower.

BEDROOM. Any room or space used or intended to be used for sleeping purposes in either a dwelling or sleeping unit.

CODE OFFICIAL. (amended) The official who is charged with the administration and enforcement of this code, or any duly authorized representative.

CONDEMN. To adjudge unfit for occupancy.

COST OF SUCH DEMOLITION OR EMERGENCY REPAIRS. The costs shall include the actual costs of the demolition or repair of the structure less revenues obtained if salvage was conducted prior to demolition or repair. Costs shall include, but not be limited to, expenses incurred or necessitated related to demolition or emergency repairs, such as asbestos survey and abatement if necessary; costs of inspectors, testing agencies or experts retained relative to the demolition or emergency repairs; costs of testing; surveys for other materials that are controlled or regulated from being dumped in a landfill; title searches; mailing(s); postings; recording; and attorney fees expended for recovering of the cost of emergency repairs or to obtain or enforce an order of demolition made by a code official, the governing body or board of appeals.

DETACHED. When a structural element is physically disconnected from another and that connection is necessary to provide a positive connection.

DETERIORATION. To weaken, disintegrate, corrode, rust or decay and lose effectiveness.

DWELLING UNIT. A single unit providing complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking and sanitation.

EASEMENT. That portion of land or property reserved for present or future use by a person or agency other than the legal fee owner(s) of the property. The easement shall be permitted to be for use under, on or above a said lot or lots.

EQUIPMENT SUPPORT. Those structural members or assemblies of members or manufactured elements, including braces, frames, lugs, snuggers, hangers or saddles, that transmit gravity load, lateral load and operating load between the equipment and the structure.

EXTERIOR PROPERTY. The open space on the premises and on adjoining property under the control of owners or operators of such premises.

EXTERMINATION. (added) The control and elimination of insects, rats or other pests by eliminating their harborage places; by removing or making inaccessible materials that serve as their food; by poison spraying, fumigating, trapping or by any other approved pest elimination methods.

GARBAGE. The animal or vegetable waste resulting from the handling, preparation, cooking and consumption of food.

GUARD. A building component or a system of building components located at or near the open sides of elevated walking surfaces that minimizes the possibility of a fall from the walking surface to a lower level.

HABITABLE SPACE. Space in a structure for living, sleeping, eating or cooking. Bathrooms, toilet rooms, closets, halls, storage or utility spaces, and similar areas are not considered habitable spaces.

HISTORIC BUILDING. Any building or structure that is one or more of the following:

1. Listed or certified as eligible for listing, by the State Historic Preservation Officer or the Keeper of the National Register of Historic Places, in the National Register of Historic Places.
2. Designated as historic under an applicable state or local law.
3. Certified as a contributing resource within a National Register or state or locally designated historic district.

HOUSEKEEPING UNIT. A room or group of rooms forming a single habitable space equipped and intended to be used for living, sleeping, cooking and eating which does not contain, within such a unit, a toilet, lavatory and bathtub or shower.

IMMINENT DANGER. A condition which could cause serious or life-threatening injury or death at any time.

INFESTATION. The presence, within or contiguous to, a structure or premises of insects, rodents, vermin or other pests.

INOPERABLE MOTOR VEHICLE. A vehicle which cannot be driven upon the public streets for reason including but not limited to being unlicensed, wrecked, abandoned, in a state of disrepair, or incapable of being moved under its own power.

LABELED. Equipment, materials or products to which have been affixed a label, seal, symbol or other identifying mark of a nationally recognized testing laboratory, inspection agency or other organization concerned with product evaluation that maintains periodic inspection of the production of the above-labeled items and whose labeling indicates either that the equipment, material or product meets identified standards or has been tested and found suitable for a specified purpose.

LET FOR OCCUPANCY or LET. To permit, provide or offer possession or occupancy of a dwelling, dwelling unit, rooming unit, building, premise or structure by a person who is or is not the legal owner of record thereof, pursuant to a written or unwritten lease, agreement or license, or pursuant to a recorded or unrecorded agreement of contract for the sale of land.

MULTIPLE FAMILY DWELLING. (added) A dwelling unit comprised of three or more attached dwelling units.

NEGLECT. The lack of proper maintenance for a building or structure.

OCCUPANCY. The purpose for which a building or portion thereof is utilized or occupied.

OCCUPANT. Any individual living or sleeping in a building, or having possession of a space within a building.

OPENABLE AREA. That part of a window, skylight or door which is available for unobstructed ventilation and which opens directly to the outdoors.

OPERATOR. Any person who has charge, care or control of a structure or premises which is let or offered for occupancy.

OWNER. Any person, agent, operator, firm or corporation having a legal or equitable interest in the property; or recorded in the official records of the state, county or municipality as holding title to the property; or otherwise having control of the property, including the guardian of the estate of any such person, and the executor or administrator of the estate of such person if ordered to take possession of real property by a court.

PERSON. An individual, corporation, partnership or any other group acting as a unit.

PEST ELIMINATION. The control and elimination of insects, rodents or other pests by eliminating their harborage places? by removing or making inaccessible materials that serve as their food or water? by other approved pest elimination methods.

PREMISES. A lot, plot or parcel of land, easement or public way, including any structures thereon.

PUBLIC WAY. Any street, alley or similar parcel of land essentially unobstructed from the ground to the sky, which is deeded, dedicated or otherwise permanently appropriated to the public for public use.

ROOMING HOUSE. A building arranged or occupied for lodging, with or without meals, for compensation and not occupied as a one- or two-family dwelling.

ROOMING UNIT. Any room or group of rooms forming a single habitable unit occupied or intended to be occupied for sleeping or living, but not for cooking purposes.

RUBBISH. Combustible and non-combustible waste materials, except garbage; the term shall include the residue from the burning of wood, coal, coke and other combustible materials, paper, rags, cartons, boxes, wood, excelsior, rubber, leather, tree branches, yard trimmings, tin cans, metals, mineral matter, glass, crockery and dust and other similar materials.

SLEEPING UNIT. A room or space in which people sleep, which can also include permanent provisions for living, eating and either sanitation or kitchen facilities, but not both. Such rooms and spaces that are also part of a dwelling unit are not sleeping units.

STRICT LIABILITY OFFENSE. An offense in which the prosecution in a legal proceeding is not required to prove criminal intent as a part of its case. It is enough to prove that the defendant either did an act which was prohibited, or failed to do an act which the defendant was legally required to do.

STRUCTURE. That which is built or constructed or a portion thereof.

TENANT. A person, corporation, partnership or group, whether or not the legal owner of record, occupying a building or portion thereof as a unit.

TOILET ROOM. A room containing a water closet or urinal but not a bathtub or shower.

ULTIMATE DEFORMATION. The deformation at which failure occurs and which shall be deemed to occur if the sustainable load reduces to 80 percent or less of the maximum strength.

USE. (added) The purpose for which buildings, other structures or land may be arranged, designed, intended, maintained or occupied.

VENTILATION. The natural or mechanical process of supplying conditioned or unconditioned air to, or removing such air from, any space.

WORKMANLIKE. Executed in a skilled manner; e.g., generally plumb, level, square, in line, undamaged and without marring adjacent work.

YARD. An open space on the same lot with a structure.

(Ord. 79-2016. Passed 8-23-16.)

1309.05 GENERAL REQUIREMENTS.

SECTION 301 GENERAL.

301.1 Scope. The provisions of this chapter shall govern the minimum conditions and the responsibilities of persons for maintenance of structures, equipment and exterior property.

301.2 Responsibility. The owner of the premises shall maintain the structures and exterior property in compliance with these requirements, except as otherwise provided for in this code. A person shall not occupy as owner-occupant or permit another person to occupy premises which are not in a sanitary and safe condition and which do not comply with the requirements of this chapter. Occupants of a dwelling unit, rooming unit or housekeeping unit are responsible for keeping in a clean, sanitary and safe condition that part of the dwelling unit, rooming unit, housekeeping unit or premises which they occupy and control.

301.3 Vacant structures and land. All vacant structures and premises thereof or vacant land shall be maintained in a clean, safe, secure and sanitary condition as provided herein so as not to cause a blighting problem or adversely affect the public health or safety.

(Ord. 79-2016. Passed 8-23-16.)

301.4 Safety and security (added). The owners and managers of all multi-family residential properties shall provide locked security to the interior common areas of all such properties and shall provide a minimal level of safety and security to the properties' tenants. For purposes of this section, multi-family residential properties are defined as those buildings or properties with four or more living units per building accessed from a common entrance and shall be referred to as "property" and/or "properties" in this section 301.4 and all of its subparts. The safety and security required to be provided shall be at minimum the following:

301.4.1 Exterior Property Areas.

301.4.1.1 The owners or managers of all such properties shall make every reasonable and practical effort to remove the ice and snow from areas frequented by the properties' occupants, including but not limited to parking areas, sidewalks and walkways, trash dumpster areas, and the entire exit travel path – the walkway or path from every required exit door to a public way.

(Ord. 94-2019. Passed 10-22-19.)

301.4.1.2 (EDITOR'S NOTE: Former subsection 301.4.1.2 was repealed by Ordinance 128-2022, passed October 25, 2022.)

301.4.2 Interior Property Areas.

301.4.2.1 The owners or managers of all properties shall provide locked security to the interior common areas of all properties. Such common areas, including but not limited to lobbies, corridors, stairways, elevators, mail rooms, and other similar areas shall be accessed only with the use of a key or as approved by the City's code official, an equally-effective electronic means to prevent unauthorized persons from entering the building on the property. Exit doors shall always remain openable from the inside without any keys, tools or special knowledge required to open the door. A City Division of fire lock box shall be provided at the entrance designated by the Division of Fire to every secured building.

301.4.2.2 The owners or managers of all properties shall provide and maintain in good working order the resources for emergency personnel, visitors and delivery personnel to notify each individual living unit of their arrival. The system may be either hard-wired or wireless and shall at the minimum provide a two-way voice intercom connection between the main entrance of the building and each individual apartment unit.

301.4.2.3 The owners or managers of all properties shall ensure that all corridors, stairways, lobby areas, and all other common areas of the building are properly lit whenever the building is occupied. Such areas are properly lit when the intensity of the lighting is not less than 1 foot-candle (11 lux) at the walking surface.

301.4.2.4 The owners or managers of all properties shall ensure that all corridors, stairways, lobby areas, and all other common areas of the building are provided with emergency illumination whenever the building is occupied. Such emergency illumination shall be of an intensity of not less than 1 foot-candle at the source, with no point along the path of egress from the building being less than 0.1 foot-candle at the walking surface. Emergency illumination shall be provided with a backup power source which shall be either an emergency generator or battery backup and that will power all emergency fixtures for a minimum period of not less than ninety minutes.

30 1.4.2.5 The owners or managers of all properties shall ensure that the means of egress elements from the building, which includes the exit access, the exit and the exit discharge as defined in the Ohio Building Code, corridors, stairways, lobbies, sidewalks and all other exit elements of the property shall be maintained at all times in a safe and sanitary manner and in the condition of their original approval by the City. Areas shall be kept completely free of any stored materials, garbage or trash. No furniture, either temporary or permanent, shall be placed in a required exit pathway. Floor and stair coverings shall be noncombustible and shall have a slip-resistant surface and be securely attached to the floor and stair.

(Ord. 94-2019. Passed 10-22-19.)

SECTION 302 EXTERIOR PROPERTY AREAS.

302.1 Sanitation. All exterior property and premises shall be maintained in a clean, safe and sanitary condition. The occupant shall keep that part of the exterior property which such occupant occupies or controls in a clean and sanitary condition.

302.2 Grading and drainage. All premises shall be graded and maintained to prevent the erosion of soil and to prevent the accumulation of stagnant water thereon, or within any structure located thereon.

Exception: Approved retention areas and reservoirs.

302.3 Sidewalks and Driveways. (amended) All sidewalks, walkways, stairways, driveways, parking areas and other similar areas shall be kept in a proper state of repair and maintained free from hazardous or defective conditions, such as, but not limited to:

1. Any block having a surface crack greater than one-half inch (0.5") in width;
2. Any whole or partial section of adjacent blocks where the edges adjoining each differ by more than one-half inch (0.5") in height;
3. Any block having a transverse slope toward the street greater than one inch (1") per horizontal foot;
4. Any block having a reverse slope away from the street that impounds more than one-half inch (0.5") of water in depth;
5. Any block having a depression that impounds more than (1") of water in depth.

All driveways and drive aprons shall be kept in a safe condition, free from holes, depressions or large cracks. Any driveway or apron in need of repair or constituting a dangerous condition shall be replaced in accordance with Section 1175.03 of the Codified Ordinances.

302.4 Weeds. (amended) All premises and exterior property shall be maintained free from weeds or plant growth in excess of six inches (6") in height. All noxious weeds shall be prohibited. Weeds shall be defined as all grasses, annual plants and vegetation, other than trees or shrubs provided; however, this term shall not include cultivated flowers and gardens. Upon failure of the owner or agent having charge of a property to cut and destroy weeds after service of a notice violation, they shall be subject to prosecution in accordance with Section 106.3 and as prescribed by the authority having jurisdiction. Upon failure to comply with the notice of violation, any duly authorized employee of the jurisdiction or contractor hired by the jurisdiction shall be authorized to enter upon the property in violation and cut and destroy the weeds growing thereon, and the costs of such removal shall be paid by the owner or agent responsible for the property.

Exception: The Building Commissioner may permit weeds and plant growth in excess of six inches (6") in height to the extent that environmental requirements may warrant such or in cases where the clear cutting of a premises or exterior property is unreasonable.

302.5 Rodent harborage. All structures and exterior property shall be kept free from rodent harborage and infestation. Where rodents are found, they shall be promptly exterminated by approved processes which will not be injurious to human health. After pest elimination, proper precautions shall be taken to eliminate rodent harborage and prevent reinfestation.

302.6 Exhaust vents. Pipes, ducts, conductors, fans or blowers shall not discharge gases, steam, vapor, hot air, grease, smoke, odors or other gaseous or particulate wastes directly upon abutting or adjacent public or private property or that of another tenant.

302.7 Accessory structures. All accessory structures, including detached garages, fences and walls, shall be maintained structurally sound and in good repair.

302.8 Motor vehicles. (amended) Except as provided for in other regulations, no motor vehicle shall be parked, kept or stored on any premises, in a state of major disassembly, disrepair, or in the process of being stripped or dismantled. Painting of vehicles is prohibited unless conducted inside an approved spray booth.

Exception: A vehicle of any type is permitted to undergo major overhaul, including body work, provided that such work is performed inside a structure or similarly enclosed area designed and approved for such purposes.

302.9 Defacement of property. No person shall willfully or wantonly damage, mutilate or deface any exterior surface of any structure or building on any private or public property by placing thereon any marking, carving or graffiti. It shall be the responsibility of the owner to restore said surface to an approved state of maintenance and repair.

302.10 Parking Lots (added) All parking lots shall be kept in a clean, sanitary condition, free from scrap paper and miscellaneous debris. The parking lot shall also be kept in safe condition, free from holes, depressions and large surface cracks. If a parking lot surrounds or is used for access to a dumpster or trash receptacle on a multi-family parcel, the parking lot shall be constructed of at least eight inches (8") of reinforced concrete or of an asphalt design approved by the City Engineer. All parking lots needing repair or constituting a dangerous condition shall be brought into compliance with this code and in accordance with Section 1175.03 of the Codified Ordinances.

302.11 (added) Exterior masonry walls and appurtenances shall be repaired with matching brick. If a perfect match cannot be obtained, replacement brick masonry shall be reviewed for suitability by the Architectural Board of Review as required by Chapter 154 of these Codified Ordinances. The tuck-pointing of masonry assemblies such as foundations, porches and stairs, chimneys and chimney caps shall be performed in a neat and workmanship-like manner with materials that match the existing in style, color (including mortar color) and texture.

302.12 General Maintenance. (added) No owner or occupant shall maintain or permit to be maintained a condition of an exterior property area which deteriorates or debases the appearance of the neighborhood; reduces property values in the neighborhood; or creates a fire, safety or health hazard or which is a public nuisance.

SECTION 303 SWIMMING POOLS, SPAS AND HOT TUBS.

303.1 Swimming pools. Swimming pools shall be maintained in a clean and sanitary condition, and in good repair.

303.2 Enclosures. (amended) Private swimming pools, hot tubs and spas, containing water more than 24 inches (610 mm) in depth shall be completely surrounded by a fence or barrier at least 48 inches (1219 mm) in height above the finished ground level measured on the side of the barrier away from the pool. Gates and doors in such barriers shall be self-closing and self-latching. Where the self-latching device is less than 54 inches (1372 mm) above the bottom of the gate, the release mechanism shall be located on the pool side of the gate. Self-closing and self-latching gates shall be maintained such that the gate will positively close and latch when released from an open position of 6 inches (152 mm) from the gatepost. A cover for a hot tub or spa that can be locked in the closed position shall be considered an adequate safety barrier. No existing pool enclosure shall be removed, replaced or changed in a manner that reduces its effectiveness as a safety barrier.

Exception: Spas or hot tubs with a safety cover that complies with ASTM F 1346 shall be exempt from the provisions of this section.

303.3 Ladders. (added) Private swimming pools entered by a portable ladder or a fixed ladder shall have such ladders removed or locked in an inaccessible position while not in use.

SECTION 304 EXTERIOR STRUCTURE.

304.1 General. The exterior of a structure shall be maintained in good repair, structurally sound and sanitary so as not to pose a threat to the public health, safety or welfare.

304.1.1 Unsafe conditions. (amended) The following conditions shall be determined as unsafe and shall be repaired or replaced to comply with the Ohio Building Code as required for existing buildings:

1. The nominal strength of any structural member is exceeded by nominal loads, the load effects or the required strength;
2. The anchorage of the floor or roof to walls or columns, and of walls and columns to foundations is not capable of resisting all nominal loads or load effects;
3. Structures or components thereof that have reached their limit state;
4. Siding and masonry joints including joints between the building envelope and the perimeter of windows, doors and skylights are not maintained, weather resistant or water tight;
5. Structural members that have evidence of deterioration or that are not capable of safely supporting all nominal loads and load effects? 6. Foundation systems that are not firmly supported by footings, are not plumb and free from open cracks and breaks, are not properly anchored or are not capable of supporting all nominal loads and resisting all load effects;
7. Exterior walls that are not anchored to supporting and supported elements or are not plumb and free of holes, cracks or breaks and loose or rotting materials, are not properly anchored or are not capable of supporting all nominal loads and resisting all load effects;
8. Roofing or roofing components that have defects that admit rain, roof surfaces with inadequate drainage, or any portion of the roof framing that is not in good repair with signs of deterioration, fatigue or without proper anchorage and incapable of supporting all nominal loads and resisting all load effects;

9. Flooring and flooring components with defects that affect serviceability or flooring components that show signs of deterioration or fatigue, are not properly anchored or are incapable of supporting all nominal loads and resisting all load effects;
10. Veneer, cornices, belt courses, corbels, trim, wall facings and similar decorative features not properly anchored or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects;
11. Overhang extensions or projections including, but not limited to, trash chutes, canopies, marquees, signs, awnings, fire escapes, standpipes and exhaust ducts not properly anchored or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects;
12. Exterior stairs, decks, porches, balconies and all similar appurtenances attached thereto, including guards and handrails, are not structurally sound, not properly anchored or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects; or
13. Chimneys, cooling towers, smokestacks and similar appurtenances not structurally sound or not properly anchored, or that are anchored with connections not capable of supporting all nominal loads and resisting all load effects.

Exceptions:

1. Where substantiated otherwise by an approved method.
2. Demolition of unsafe conditions shall be permitted where approved by the code official.

304.1.2 Vacant parcels. (added) Swimming pools, hot tubs and spas located on vacant, residentially-zoned parcels shall be completely surrounded by a lockable fence or barrier that is at least forty-eight inches (48") in height above the finished ground level, as measured on the side of the barrier away the swimming pool, hot tub or spa; and also have installed a safety cover that complies with ASTM 1346. Such safety cover shall be installed such that water will not gather on top to form a stagnant puddle, and also have the ability to be locked or securely fastened in the closed position, thereby protecting the public from the effects of stagnant or standing water. Gates and doors in such barriers shall be locked by devices that require the use of a key or other similar device.

304.1.3 Dismantling, removing and backfilling swimming pools. (added) If the code official determines that a swimming pool cannot be maintained in a clean and sanitary condition, and cannot reasonably be brought into a state of good repair, the swimming pool shall be dismantled, removed or completely backfilled with clean and approved material consisting of clay soil, gravelly clay, sandy clay or combination thereof. Before a swimming pool is backfilled, its wiring and water supply, sewer or gas piping shall be removed, properly capped and terminated and inspected by the code official for compliance herewith. Walls and floors of in-ground swimming pools shall also be removed or crushed to a size less than six inches (6") in diameter before being backfilled.

304.2 Protective treatment. (amended) All exterior surfaces, including but not limited to, doors, door and window frames, cornices, porches, trim, balconies, decks and fences shall be maintained in good condition. Exterior wood surfaces, other than decay-resistant woods, shall be protected from the elements and decay by painting or other protective covering or treatment. Peeling, flaking and chipped paint shall be eliminated and surfaces repainted in a manner and color to match the existing. All siding and masonry joints as well as those between the building envelope and the perimeter of windows, doors, and skylights shall be maintained in a manner and color to match the existing and shall be weather resistant and water tight. All metal surfaces subject to rust or corrosion shall be coated to inhibit such rust and corrosion and all surfaces with rust or corrosion shall be stabilized and coated to inhibit future rust and corrosion. Oxidation stains shall be removed from exterior surfaces. Surfaces designed for stabilization by oxidation are exempt from this requirement.

304.3 Premises identification. (amended) Buildings shall have approved address numbers placed in a position to be plainly legible and visible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numerals or alphabet letters. Numbers shall be a minimum of 4 inches (102 mm) high with a minimum stroke width of 0.5 inch (12.7 mm). All suites in a multifamily dwelling shall be identified with their unit numbers or letters on the door leading to each individual dwelling unit.

304.4 Structural members. All structural members shall be maintained free from deterioration, and shall be capable of safely supporting the imposed dead and live loads.

304.5 Foundation walls. All foundation walls shall be maintained plumb and free from open cracks and breaks and shall be kept in such condition so as to prevent the entry of rodents and other pests.

304.6 Exterior walls. All exterior walls shall be free from holes, breaks, and loose or rotting materials; and maintained weatherproof and properly surface coated where required to prevent deterioration.

304.7 Roofs and drainage. (amended)

- (a) The roof and flashing shall be sound, weather-tight and not have defects that admit rain. Every roof shall have adequate roof drainage. Roof drainage is adequate if equipped with gutters and downspouts that are well-maintained, free from obstructions and prevent dampness or deterioration in the walls or interior portion of the structure. Gutters and downspouts shall be connected to a public storm sewer, or, if approved by the code official, a retention system that satisfies either description herein:
 1. One or more downspout(s) may be diverted into an approved rain barrel or other structural storage container, provided that the overflow from such appurtenances is directed into the public storm sewer system. Rain barrels or other structural storage containers shall be covered at all times and incorporate a drainage system that directs any overflow away from the building's foundation and into the public storm sewer system. The installation of rain barrels or other structural storage containers shall be subject to the review and approval of the Building Commissioner, and shall conform to the standards set forth by the City for such devices.
 2. As an alternative to the requirement of division (a) of this section, that downspouts be connected to the public storm sewer system, one or more downspout(s) may be directed into an approved rain garden. Such rain garden shall be subject to the review and approval of the Building Department and the City Engineer, and shall be constructed in accordance with the latest edition of the Rain Garden Manual for Homeowners. No rain garden shall be constructed until a permit has been obtained as set forth in Section 1325.01.
- (b) This requirement shall be waived for existing appurtenant structures if, in the opinion of the Building Commissioner, the drainage does not cause excessive erosion or water damage or does not create a nuisance on public or private property.

304.8 Decorative features. All cornices, belt courses, corbels, terra cotta trim, wall facings and similar decorative features shall be maintained in good repair with proper anchorage and in a safe condition.

304.9 Overhang extensions. All overhang extensions including, but not limited to canopies, marquees, signs, metal awnings, fire escapes, standpipes and exhaust ducts shall be maintained in good repair and be properly anchored so as to be kept in a sound condition. When required, all exposed surfaces of metal or wood shall be protected from the elements and against decay or rust by periodic application of weather-coating materials, such as paint or similar surface treatment.

304.9.1 Signs no longer in use. (added) Signs that are no longer in use shall be removed.

304.10 Stairways, decks, porches and balconies. Every exterior stairway, deck, porch and balcony, and all appurtenances attached thereto, shall be maintained structurally sound, in good repair, with proper anchorage and capable of supporting the imposed loads.

304.11 Chimneys and towers. All chimneys, cooling towers, smoke stacks, and similar appurtenances shall be maintained structurally safe and sound, and in good repair. All exposed surfaces of metal or wood shall be protected from the elements and against decay or rust by periodic application of weather-coating materials, such as paint or similar surface treatment.

304.12 Handrails and guards. Every handrail and guard shall be firmly fastened and capable of supporting normally imposed loads and shall be maintained in good condition.

304.13 Window, skylight and door frames. Every window, skylight, door and frame shall be kept in sound condition, good repair and weather tight.

303.13.1 Glazing. All glazing materials shall be maintained free from cracks and holes.

303.13.2 Openable windows. Every window, other than a fixed window, shall be easily openable and capable of being held in position by window hardware.

304.14 Insect screens. (amended) During the period from May 1 to October 31, every door, window and other outside opening required for ventilation of habitable rooms, food preparation areas, food service areas or any areas where products to be included or utilized in food for human consumption are processed, manufactured, packaged or stored, shall be supplied with approved tightly fitting screens of not less than 16 mesh per inch (16 mesh per 25 mm) and every swinging door shall have a self closing device in good working condition.

Exception: Screens shall not be required where other approved means, such as air curtains or insect repellent fans, are employed.

304.15 Doors. All exterior doors, door assemblies, operator systems if provided, and hardware shall be maintained in good condition. Locks at all entrances to dwelling units, and sleeping units shall tightly secure the door. Locks on means of egress doors shall be in accordance with Section 702.3.

304.16 Basement hatchways. Every basement hatchway shall be maintained to prevent the entrance of rodents, rain and surface drainage water.

304.17 Guards for basement windows. Every basement window that is openable shall be supplied with rodent shields, storm windows or other approved protection against the entry of rodents.

304.18 Building security. Doors, windows or hatchways for dwelling units, room units or housekeeping units shall be provided with devices designed to provide security for the occupants and property within.

304.18.1 Doors. Doors providing access to a dwelling unit, rooming unit or housekeeping unit that is rented, leased or let shall be equipped with a deadbolt lock designed to be readily openable from the side from which egress is to be made without the need for keys, special knowledge or effort and shall have a minimum lock throw of 1 inch (25 mm). For the purpose of this section, a sliding bolt shall not be considered an acceptable deadbolt lock. Such deadbolt locks shall be installed according to manufacturer's specifications and maintained in good working order.

304.18.2 Windows. Operable windows located in whole or in part within 6 feet (1828 mm) above ground level or a walking surface below that provide access to a dwelling unit, rooming unit or housekeeping unit that is rented, leased or let shall be equipped with a window sash locking devices.

304.18.3 Basement hatchways. Basement hatchways that provide access to a dwelling unit, rooming unit or housekeeping unit that is rented, leased or let shall be equipped with devices that secure the units from unauthorized entry.

304.19 Gates. Exterior gates, gate assemblies, operator systems if provided, and hardware shall be maintained in good condition. Latches at all entrances shall tightly secure the gates.

SECTION 305 INTERIOR STRUCTURE.

305.1 General. The interior of a structure and equipment therein shall be maintained in good repair, structurally sound and in a sanitary condition. Occupants shall keep that part of the structure which they occupy or control in a clean and sanitary condition. Every owner of a structure containing a rooming house, housekeeping units, a hotel, a dormitory, two or more dwelling units or two or more nonresidential occupancies, shall maintain, in a clean and sanitary condition, the shared or public areas of the structure and exterior property.

305.1.1 Unsafe conditions. The following conditions shall be determined as unsafe and shall be repaired or replaced to comply with the International Building Code or the International Existing Building Code as required for existing buildings:

1. The nominal strength of any structural member is exceeded by nominal loads, the load effects or the required strength;
2. The anchorage of the floor or roof to walls or columns, and of walls and columns to foundations is not capable of resisting all nominal loads or load effects;
3. Structures or components thereof that have reached their limit state;
4. Structural members are incapable of supporting nominal loads and load effects;
5. Stairs, landings, balconies and all similar walking surfaces, including guards and handrails, are not structurally sound, not properly anchored or are anchored with connections not capable of supporting all nominal loads and resisting all load effects;
6. Foundation systems that are not firmly supported by footings are not plumb and free from open cracks and breaks, are not properly anchored or are not capable of supporting all nominal loads and resisting all load effects.

Exceptions:

1. Where substantiated otherwise by an approved method.
2. Demolition of unsafe conditions shall be permitted when approved by the code official.

305.2 Structural members. Structural. All structural members shall be maintained structurally sound, and be capable of supporting the imposed loads.

305.3 Interior surfaces. All interior surfaces, including windows and doors, shall be maintained in good, clean and sanitary condition. Peeling, chipping, flaking or abraded paint shall be repaired, removed or covered. Cracked or loose plaster, decayed wood and other defective surface conditions shall be corrected.

305.4 Stairs and walking surfaces. Every stair, ramp, landing, balcony, porch, deck or other walking surface shall be maintained in sound condition and good repair.

305.5 Handrails and guards. Every handrail and guard shall be firmly fastened and capable of supporting normally imposed loads and shall be maintained in good condition.

305.6 Interior doors. Every interior door shall fit reasonably well within its frame and shall be capable of being opened and closed by being properly and securely attached to jambs, headers or tracks as intended by the manufacturer of the attachment hardware.

SECTION 306 COMPONENT SERVICABILITY.

306.1 General. The components of a structure and equipment therein shall be maintained in good repair, structurally sound and in a sanitary condition.

306.1.1 Unsafe conditions. (amended) Where any of the following conditions cause the component or system to be beyond its limit state, the component or system shall be determined as unsafe and shall be repaired or replaced to comply with the Ohio Building Code or other applicable law as required for existing buildings:

1. Soils that have been subjected to any of the following conditions:
 - 1.1. Collapse of footing or foundation system;
 - 1.2. Damage to footing, foundation, concrete or other structural element due to soil expansion;
 - 1.3. Adverse effects to the design strength of footing, foundation, concrete or other structural element due to a chemical reaction from the soil;
 - 1.4. Inadequate soil as determined by a geotechnical investigation;
- 1.5. Where the allowable bearing capacity of the soil is in doubt; or
- 1.6. Adverse effects to the footing, foundation, concrete or other structural element due to the ground water table.

2. Concrete that has been subjected to any of the following conditions:
 - 2.1. Deterioration;
 - 2.2. Ultimate deformation;
 - 2.3. Fractures;
 - 2.4. Fissures;
 - 2.5. Spalling;
 - 2.6. Exposed reinforcement; or
 - 2.7. Detached, dislodged or failing connections.
3. Aluminum that has been subjected to any of the following conditions:
 - 3.1. Deterioration;
 - 3.2. Corrosion;
 - 3.3. Elastic deformation;
 - 3.4. Ultimate deformation;
 - 3.5. Stress or strain cracks;
 - 3.6. Joint fatigue; or
 - 3.7. Detached, dislodged or failing connections.
4. Masonry that has been subjected to any of the following conditions:
 - 4.1. Deterioration;
 - 4.2. Ultimate deformation;
 - 4.3. Fractures in masonry or mortar joints;
 - 4.4. Fissures in masonry or mortar joints;
 - 4.5. Spalling;
 - 4.6. Exposed reinforcement; or
 - 4.7. Detached, dislodged or failing connections.
5. Steel that has been subjected to any of the following conditions:
 - 5.1. Deterioration;
 - 5.2. Elastic deformation;
 - 5.3. Ultimate deformation;
 - 5.4. Metal fatigue; or
 - 5.5. Detached, dislodged or failing connections.
6. Wood that has been subjected to any of the following conditions:
 - 6.1. Ultimate deformation;
 - 6.2. Deterioration;
 - 6.3. Damage from insects, rodents and other vermin;
 - 6.4. Fire damage beyond charring;
 - 6.5. Significant splits and checks;
 - 6.6. Horizontal shear cracks;
 - 6.7. Vertical shear cracks;
 - 6.8. Inadequate support;
 - 6.9. Detached, dislodged or failing connections; or
 - 6.10. Excessive cutting and notching.

Exceptions:

1. Where substantiated otherwise by an approved method.
2. Demolition of unsafe conditions shall be permitted where approved by the code official.

SECTION 307 HANDRAILS AND GUARDRAILS

307.1 General.(amended) Every exterior and interior flight of stairs having more than four risers shall have a handrail on one side of the stair and every open portion of a stair, landing, balcony, porch, deck, ramp or other walking surface which is more than 15 inches (381 mm) above the floor or grade below shall have guards. Handrails shall not be less than 30 inches (762 mm) high or more than 42 inches (1067 mm) high measured vertically above the nosing of the tread or above the finished floor of the landing or walking surfaces. Guards shall not be less than 30 inches (762 mm) high above the floor of the landing, balcony, porch, deck, or ramp or other walking surface.

Exception: Guards shall not be required where exempted by the adopted building code.

SECTION 308 RUBBISH AND GARBAGE.

308.1 Accumulation of rubbish or garbage. All exterior property and premises, and the interior of every structure, shall be free from any accumulation of rubbish or garbage.

308.2 Disposal of rubbish. Every occupant of a structure shall dispose of all rubbish in a clean and sanitary manner by placing such rubbish in approved containers.

308.2.1 Rubbish storage facilities. The owner of every occupied premises shall supply approved covered containers for rubbish, and the owner of the premises shall be responsible for the removal of rubbish.

308.2.2 Refrigerators. Refrigerators and similar equipment not in operation shall not be discarded, abandoned or stored on premises without first removing the doors.

308.3 Disposal of garbage. Every occupant of a structure shall dispose of garbage in a clean and sanitary manner by placing such garbage in an approved garbage disposal facility or approved garbage containers.

308.3.1 Garbage facilities. The owner of every dwelling shall supply one of the following: an approved mechanical food waste grinder in each dwelling unit? an approved incinerator unit in the structure available to the occupants in each dwelling unit; or an approved leak proof, covered, outside garbage container.

308.3.2 Containers. (amended) The operator of every establishment producing garbage shall provide, and at all times cause to be utilized, for outside storage of garbage, approved leak proof containers provided with close-fitting covers for the storage of such materials until removed from the premises for disposal.

308.3.3 Outside Storage. (added) All exterior property and premises shall be kept free and clear from outside storage of out-of-use appliances, equipment, motorized vehicles, etc., and discarded or unused building materials.

Exception. Compost piles in compliance with Chapter 1319.

SECTION 309 PEST ELIMINATION.

309.1 Infestation. All structures shall be kept free from insect and rodent infestation. All structures in which insects or rodents are found shall be promptly exterminated by approved processes that will not be injurious to human health. After pest elimination, proper precautions shall be taken to prevent reinfestation.

309.2 Owner. The owner of any structure shall be responsible for pest elimination within the structure prior to renting or leasing the structure.

309.3 Single occupant. The occupant of a one-family dwelling or of a single-tenant nonresidential structure shall be responsible for pest elimination on the premises.

309.4 Multiple occupancy. The owner of a structure containing two or more dwelling units, a multiple occupancy, a rooming house or a nonresidential structure shall be responsible for pest elimination in the public or shared areas of the structure and exterior property. If infestation is caused by failure of an occupant to prevent such infestation in the area occupied, the occupant shall be responsible for pest elimination.

309.5 Occupant. The occupant of any structure shall be responsible for the continued rodent and pest-free condition of the structure.

Exception: Where the infestations are caused by defects in the structure, the owner shall be responsible for extermination pest elimination.

SECTION 401 LIGHT, VENTILATION AND OCCUPANCY LIMITATIONS; GENERAL.

401.1 Scope. The provisions of this chapter shall govern the minimum conditions and standards for light, ventilation and space for occupying a structure.

401.2 Responsibility. The owner of the structure shall provide and maintain light, ventilation and space conditions in compliance with these requirements. A person shall not occupy as owner- occupant, or permit another person to occupy, any premises that do not comply with the requirements of this chapter.

401.3 Alternative devices. (amended) In lieu of the means for natural light and ventilation herein prescribed, artificial light or mechanical ventilation complying with the Ohio Building Code and the Residential Code of Ohio for One-, Two-, and Three-Family Dwellings shall be permitted.

SECTION 403 VENTILATION.

403.1 Habitable spaces. Every habitable space shall have at least one openable window. The total openable area of the window in every room shall be equal to at least 45 percent of the minimum glazed area required in Section 402.1.

Exception: Where rooms and spaces without openings to the outdoors are ventilated through an adjoining room, the unobstructed opening to the adjoining room shall be at least 8 percent of the floor area of the interior room or space, but not less than 25 square feet (2.33m). The ventilation openings to the outdoors shall be based on a total floor area being ventilated.

403.2 Bathrooms and toilet rooms. Every bathroom and toilet room shall comply with the ventilation requirements for habitable spaces as required by Section 403.1, except that a window shall not be required in such spaces equipped with a mechanical ventilation system. Air exhausted by a mechanical ventilation system from a bathroom or toilet room shall discharge to the outdoors and shall not be recirculated.

403.3 Cooking facilities. Unless approved through the certificate of occupancy, cooking shall not be permitted in any rooming unit or dormitory unit, and a cooking facility or appliance shall not be permitted to be present in a rooming unit or dormitory unit.

Exception:

1. Where specifically approved in writing by the code official.
2. Devices such as coffee pots and microwave ovens shall not be considered cooking appliances.

403.4 Process ventilation. Where injurious, toxic, irritating or noxious fumes, gases, dusts or mists are generated, a local exhaust ventilation system shall be provided to remove the contaminating agent at the source. Air shall be exhausted to the exterior and not be recirculated to any space.

403.5 Clothes dryer exhaust. Clothes dryer exhaust systems shall be independent of all other systems and shall be exhausted outside the structure in accordance with the manufacturer's instructions.

Exception: Listed and labeled condensing (ductless) clothes dryers.

SECTION 404 OCCUPANCY LIMITATIONS.

404.1 Privacy. Dwelling units, hotel units, housekeeping units, rooming units and dormitory units shall be arranged to provide privacy and be separate from other adjoining spaces.

404.1.1 Communication system. (added) All multiple family dwelling shall be equipped with a two-way communication system for all entrances and exits.

404.2 Minimum room widths. A habitable room, other than a kitchen, shall not be less than 7 feet (2134 mm) in any plan dimension. Kitchens shall have a clear passageway of not less than 3 feet (914 mm) between counterfronts and appliances or counterfronts and walls.

404.3 Minimum ceiling heights. Habitable spaces, hallways, corridors, laundry areas, bathrooms, toilet rooms and habitable basement areas shall have a clear ceiling height of not less than 7 feet (2134 mm).

Exceptions:

1. In one- and two-family dwellings, beams or girders spaced not less than 4 feet (1219 mm) on center and projecting not more than 6 inches (152 mm) below the required ceiling height.
2. Basement rooms in one- and two-family dwellings occupied exclusively for laundry, study or recreation purposes, having a ceiling height of not less than 6 feet 8 inches (2033 mm) with not less than 6 feet 4 inches (1932 mm) of clear height under beams, girders, ducts and similar obstructions.
3. Rooms occupied exclusively for sleeping, study or similar purposes and having a sloped ceiling over all or part of the room, with a clear ceiling height of at least 7 feet (2134 mm) over not less than one-third of the required minimum floor area. In calculating the floor area of such rooms, only those portions of the floor area with a clear ceiling height of 5 feet (1524 mm) or more shall be included.

404.4 Bedroom and living room requirements. Every bedroom and living room shall comply with the requirements of Sections 404.4.1 through 404.5.

404.4.1 Area for sleeping purposes. Every living room shall contain not less than 120 square feet (11.2 m) and every bedroom occupied by one person shall contain at least 70 square feet (6.5 m) of floor area, and every bedroom occupied by more than one person shall contain at least 50 square feet (4.6 m) of floor area for each occupant thereof.

404.4.2 Access from bedrooms. Bedrooms shall not constitute the only means of access to other bedrooms or habitable spaces and shall not serve as the only means of egress from other habitable spaces.

Exception: Units that contain fewer than two bedrooms.

404.4.3 Water closet accessibility. Every bedroom shall have access to at least one water closet and one lavatory without passing through another bedroom. Every bedroom in a dwelling unit shall have access to at least one water closet and lavatory located in the same story as the bedroom or an adjacent story.

404.4.4 Prohibited occupancy. Kitchens and non-habitable spaces shall not be used for sleeping purposes.

404.4.5 Other requirements. (amended) Bedrooms shall comply with the applicable provisions of this code including, but not limited to, the light, ventilation, room area, ceiling height and room width requirements of this code; the plumbing facilities and water-heating facilities requirements of this code; the heating facilities and electrical receptacle requirements of this code; and the smoke detector and emergency escape requirements of this code.

404.4.6 Basement bedrooms. (added) Bedrooms and rooms for sleeping purposes shall be permitted in basements and spaces below grade certified for such provided one of the following criteria are met:

1. There shall be a direct means of egress stairway meeting the requirements of the adopted building code from the basement area or area below finished grade to the exterior of the structure.
2. There shall be a window in the bedroom or room used for sleeping purposes meeting the emergency egress requirements for location, height and area as described in the adopted building.

404.7 Occupancy load requirements for habitable spaces. (added) Every dwelling unit shall contain at least 300 square feet of habitable floor area for the first occupant thereof and at least 80 square feet of habitable floor area for every additional occupant thereof, but in no case shall any dwell unit contain less than 400 square feet of habitable floor area. Additionally, no dwelling unit shall be occupied by more than two persons per each bedroom.

TABLE 404.5 MINIMUM AREA REQUIREMENTS (deleted)

404.8 Food preparation. (amended) All spaces to be occupied for food preparation purposes shall contain suitable space and equipment to store, prepare and serve foods in a sanitary manner. There shall be adequate facilities and services for the sanitary disposal of food wastes and refuse, including facilities for temporary storage.

405.1 Third floor occupancy. (added) All third floor rooms certified for occupancy in a detached single family dwelling shall maintain an exterior stairway meeting the requirements of the adopted building code from such third floor to finished grade.

406.1 Efficiency unit. Nothing in this section shall prohibit an efficiency living unit from meeting the following requirements:

1. A unit occupied by not more than one occupant shall have a minimum clear floor area of 120 square feet (11.2 m). A unit occupied by not more than two occupants shall have a minimum clear floor area of 220 square feet (20.4 m). A unit occupied by three occupants shall have a minimum clear floor area of
2. The unit shall be provided with a kitchen sink, cooking appliance and refrigeration facilities, each having a minimum clear working space of 30 inches (762 mm) in front. Light and ventilation conforming to this code shall be provided.
3. The unit shall be provided with a separate bathroom containing a water closet, lavatory and bathtub or shower.
4. The maximum number of occupants shall be three.

SECTION 502 REQUIRED FACILITIES.

502.1 Dwelling units. Every dwelling unit shall contain its own bathtub or shower, lavatory, water closet and kitchen sink which shall be maintained in a sanitary, safe working condition. The lavatory shall be placed in the same room as the water closet or located in close proximity to the door leading directly into the room in which such water closet is located. A kitchen sink shall not be used as a substitute for the required lavatory.

502.2 Rooming houses. At least one water closet, lavatory and bathtub or shower shall be supplied for each four rooming units.

502.3 Hotels. Where private water closets, lavatories and baths are not provided, one water closet, one lavatory and one bathtub or shower having access from a public hallway shall be provided for each ten occupants.

502.4 Employees' facilities. A minimum of one water closet, one lavatory and one drinking facility shall be available to employees.

502.4.1 Drinking facilities. Drinking facilities shall be a drinking fountain, water cooler, bottled water cooler or disposable cups next to a sink or water dispenser. Drinking facilities shall not be located in toilet rooms or bathrooms.

502.5 Public toilet facilities. (amended) Public toilet facilities shall be maintained in a safe, sanitary and working condition in accordance with the Ohio Plumbing Code and the Residential Code of Ohio for One-, Two-, and Three-Family Dwellings. Except for periodic maintenance or cleaning, public access and use shall be provided to the toilet facilities at all times during occupancy of the premises.

SECTION 506 SANITARY DRAINAGE SYSTEM.

506.1 General. All plumbing fixtures shall be properly connected to either a public sewer system or to an approved private sewage disposal system.

506.2 Maintenance. Every plumbing stack, vent, waste and sewer line shall function properly and be kept free from obstructions, leaks and defects.

506.3 Grease interceptors. Grease interceptors and automatic grease removal devices shall be maintained in accordance with this code and the manufacturer's installation instructions. Grease interceptors and automatic grease removal devices shall be regularly serviced and cleaned to prevent the discharge of oil, grease, and other substances harmful or hazardous to the building drainage system, the public sewer, the private sewage disposal system or the sewage treatment plant or processes. Records of maintenance, cleaning and repairs shall be available for inspection by the code official.

SECTION 602 HEATING FACILITIES.

602.1 Facilities required. Heating facilities shall be provided in structures as required by this section.

602.2 Residential occupancies. (amended) Dwellings shall be provided with heating facilities capable of maintaining a room temperature of 68F (20C) in all habitable rooms, bathrooms and toilet rooms. Cooking appliances shall not be used, nor shall portable unvented fuel-burning space heaters be used, as a means to provide required heating.

602.3 Heat supply. (amended) Every owner and operator of any building who rents, leases or lets one or more dwelling unit, or sleeping unit, on terms, either expressed or implied, to furnish heat to the occupants thereof shall supply heat during the period from September 15 to May 31 to maintain a temperature of not less than 68F (20C) in all habitable rooms, bathrooms, and toilet rooms.

602.4 Occupiable work spaces. (amended) Indoor occupiable work spaces shall be supplied with heat during the period from September 15 to May 31 to maintain a temperature of not less than 65F (18C) during the period the spaces are occupied.

Exceptions:

1. Processing, storage and operation areas that require cooling or special temperature conditions.
2. Areas in which persons are primarily engaged in vigorous physical activities.

602.5 Room temperature measurement. The required room temperatures shall be measured 3 feet (914mm) above the floor near the center of the room and 2 feet (610 mm) inward from the center of each exterior wall.

SECTION 604 ELECTRICAL FACILITIES.

604.1 Facilities required. Every occupied building shall be provided with an electrical system in compliance with the requirements of this section and Section 605.

604.2 Service. (amended) The size and usage of appliances and equipment shall serve as a basis for determining the need for additional facilities in accordance with NFPA 70. Dwelling units shall be served by a three-wire, 120/240 volt, and single phase electrical service having a rating of not less than 60 amperes.

604.3 Electrical system hazards. Where it is found that the electrical system in a structure constitutes a hazard to the occupants or the structure by reason of inadequate service, improper fusing, insufficient receptacle and lighting outlets, improper wiring or installation, deterioration or damage, or for similar reasons, the code official shall require the defects to be corrected to eliminate the hazard.

604.3.1 Abatement of electrical hazards associated with water exposure. The provisions of this section shall govern the repair and replacement of electrical systems and equipment that have been exposed to water.

604.3.1.1 Electrical equipment. (amended) Electrical distribution equipment, motor circuits, power equipment, transformers, wire, cable, flexible cords, wiring devices, ground fault circuit interrupters, surge protectors, molded case circuit breakers, low-voltage fuses, luminaires, ballasts, motors and electronic control, signaling and communication equipment that have been exposed to water shall be replaced in accordance with the provisions of the Ohio Building Code.

Exception: The following equipment shall be allowed to be repaired where an inspection report from the equipment manufacturer or approved manufacturer's representative indicates that the equipment has not sustained damage that requires replacement:

1. Enclosed switches, rated a maximum of 600 volts or less;
2. Busway, rated a maximum of 600 volts;
3. Panelboards, rated a maximum of 600 volts;
4. Switchboards, rated a maximum of 600 volts;
5. Fire pump controllers, rated a maximum of 600 volts;
6. Manual and magnetic motor controllers;
7. Motor control centers;
8. Alternating current high-voltage circuit breakers;
9. Low-voltage power circuit breakers;
10. Protective relays, meters and current transformers;
11. Low- and medium-voltage switchgear;
12. Liquid-filled transformers;
13. Cast-resin transformers;
14. Wire or cable that is suitable for wet locations and whose ends have not been exposed to water;
15. Wire or cable, not containing fillers, that is suitable for wet locations and whose ends have not been exposed to water;
16. Luminaires that are listed as submersible;
17. Motors;
18. Electronic control, signaling and communication equipment.

604.3.2 Abatement of electrical hazards associated with fire exposure. The provisions of this section shall govern the repair and replacement of electrical systems and equipment that have been exposed to fire.

604.3.2.1 Electrical equipment. (amended) Electrical switches, receptacles and fixtures, including furnace, water heating, security system and power distribution circuits, that have been exposed to fire, shall be replaced in accordance with the provisions of the Ohio Building Code.

Exception: Electrical switches, receptacles and fixtures that shall be allowed to be repaired where an inspection report from the equipment manufacturer or approved manufacturer's representative indicates that the equipment has not sustained damage that requires replacement.

SECTION 605 ELECTRICAL EQUIPMENT.

605.1 Installation. All electrical equipment, wiring and appliances shall be properly installed and maintained in a safe and approved manner.

605.2 Receptacles. (amended) Every habitable space in a dwelling shall contain at least two separate and remote receptacle outlets. Every laundry area shall contain at least one grounded- type receptacle or a receptacle with a ground fault circuit interrupter. Every bathroom shall contain at least one receptacle. Any new, altered, modified, repaired or replaced bathroom, kitchen, basement, garage or outdoor receptacle outlet shall have ground fault circuit interrupter protection. All receptacle outlets shall have the appropriate faceplate cover for the location.

605.3 Luminaires. Every public hall, interior stairway, toilet room, kitchen, bathroom, laundry room, boiler room and furnace room shall contain at least one electric luminaire. Pool and spa luminaires over 15 V shall have ground fault circuit interrupter protection.

605.4 Wiring. Flexible cords shall not be used for permanent wiring, or for running through doors, windows, or cabinets, or concealed within walls, floors, or ceilings.

SECTION 606 ELEVATORS, ESCALATORS AND DUMBWAITERS.

606.1 General. Elevators, dumbwaiters and escalators shall be maintained in compliance with ASME A17.1. The most current certificate of inspection shall be on display at all times within the elevator or attached to the escalator or dumbwaiter; be available for public inspection in the office of the building operator or be posted in a publicly conspicuous location approved by the code official. The inspection and tests shall be performed at not less than the periodic intervals listed in ASME A17.1, Appendix N, except where otherwise specified by this Codified Ordinances.

606.2 Elevators. In buildings equipped with passenger elevators, at least one elevator shall be maintained in operation at all times when the building is occupied.

Exception: Buildings equipped with only one elevator shall be permitted to have the elevator temporarily out of service for testing or servicing.

SECTION 704 FIRE PROTECTION SYSTEMS.

704.1 General. All systems, devices and equipment to detect a fire, actuate an alarm, or suppress or control a fire or any combination thereof shall be maintained in an operable condition at all times in accordance with the Ohio Fire Code.

704.1.1 Automatic sprinkler systems. Inspection, testing and maintenance of automatic sprinkler systems shall be in accordance with NFPA 25.

704.1.2 Fire department connection. Where the fire department connection is not visible to approaching fire apparatus, the fire department connection shall be indicated by an approved sign mounted on the street front or on the side of the building. Such sign shall have the letters "FDC" not less than 6 inches (152 mm) high and words in letters not less than 2 inches (51 mm) high or an arrow to indicate the location. Such signs shall be subject to the approval of the fire code official.

704.2 Single-and multiple-station smoke alarms. Single-and multiple-station smoke alarms shall be installed in existing Groups I-1 and R occupancies in accordance with Sections 704.2.1.1 through 704.2.1.4.

Interconnection and power sources shall be in accordance with Sections 704.2.2 and 704.2.3.

704.2.1 Where required. Existing Group I-1 and R occupancies shall be provided with single-station smoke alarms in accordance with Sections 704.2.1.1 through 704.2.1.4. Interconnection and power sources shall be in accordance with Sections 704.2.2 and 704.2.3.

Exceptions:

1. Where the code that was in effect at the time of construction required smoke alarms and smoke alarms complying with those requirements are already provided.
2. Where smoke alarms have been installed in occupancies and dwellings that were not required to have them at the time of construction, additional smoke alarms shall not be required provided that the existing smoke alarms comply with requirements that were in effect at the time of installation.
3. Where smoke detectors connected to a fire alarm system have been installed as a substitute for smoke alarms.

704.2.1.1 Group R-1. Single- or multiple-station smoke alarms shall be installed in all of the following locations in Group R-1:

1. In sleeping areas.
2. In every room in the path of the means of egress from the sleeping area to the door leading from the sleeping unit.
3. In each story within the sleeping unit, including basements. For sleeping units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

704.2.1.2 Groups R-2, R-3, R-4 and I-1. Single- or multiple-station smoke alarms shall be installed and maintained in Groups R-2, R-3, R-4 and I-1 regardless of occupant load at all of the following locations:

1. On the ceiling or wall outside of each separate sleeping area in the immediate vicinity of bedrooms.
2. In each room used for sleeping purposes.
3. In each story within a dwelling unit, including basements but not including crawl spaces and uninhabitable attics. In dwellings or dwelling units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

704.2.1.3 Installation near cooking appliances. Smoke alarms shall not be installed in the following locations unless this would prevent placement of a smoke alarm in a location required by Section 704.2.1.1 or 704.2.1.2.

1. Ionization smoke alarms shall not be installed less than 20 feet (6096 mm) horizontally from a permanently installed cooking appliance.
2. Ionization smoke alarms with an alarm-silencing switch shall not be installed less than 10 feet (3048 mm) horizontally from a permanently installed cooking appliance.
3. Photoelectric smoke alarms shall not be installed less than 6 feet (1829 mm) horizontally from a permanently installed cooking appliance.

704.2.1.4 Installation near bathrooms. Smoke alarms shall be installed not less than 3 feet (914 mm) horizontally from the door or opening of a bathroom that contains a bathtub or shower unless this would prevent placement of a smoke alarm required by Section 704.2.1.1 or 704.2.1.2.

704.2.2 Interconnection. Where more than one smoke alarm is required to be installed within an individual dwelling unit or sleeping unit, the smoke alarms shall be interconnected in such a manner that the activation of one alarm will activate all of the alarms in the individual unit. Physical interconnection of smoke alarms shall not be required where listed wireless alarms are installed and all alarms sound upon activation of one alarm. The alarm shall be clearly audible in all bedrooms over background noise levels with all intervening doors closed.

Exceptions:

1. Interconnection is not required in buildings which are not undergoing alterations, repairs, or construction of any kind.
2. Smoke alarms in existing areas are not required to be interconnected where alterations or repairs do not result in the removal of interior wall or ceiling finishes exposing the structure, unless there is an attic, crawl space or basement available which could provide access for interconnection without the removal of interior finishes.

704.2.3 Power source. Single-station smoke alarms shall receive their primary power from the building wiring provided that such wiring is served from a commercial source and shall be equipped with a battery backup. Smoke alarms with integral strobes that are not equipped with battery backup shall be connected to an emergency electrical system. Smoke alarms shall emit a signal when the batteries are low. Wiring shall be permanent and without a disconnecting switch other than as required for overcurrent protection.

Exceptions:

1. Smoke alarms are permitted to be solely battery operated in existing buildings where no construction is taking place.
2. Smoke alarms are permitted to be solely battery operated in buildings that are not served from a commercial power source.
3. Smoke alarms are permitted to be solely battery operated in existing areas of buildings undergoing alterations or repairs that do not result in the removal of interior walls or ceiling finishes exposing the structure, unless there is an attic, crawl space or basement available that could provide access for building wiring without the removal of interior finishes.

704.2.4 Smoke detection system. (amended) Smoke detectors listed in accordance with UL 268 and provided as part of the building's fire alarm system shall be an acceptable alternative to single- and multiple-station smoke alarms and shall comply with the following:

1. The fire alarm system shall comply with all applicable requirements in the Ohio Fire Code.
2. Activation of a smoke detector in a dwelling or sleeping unit shall initiate alarm notification in the dwelling or sleeping unit in accordance with the Ohio Fire Code.
3. Activation of a smoke detector in a dwelling or sleeping unit shall not activate alarm notification appliances outside of the dwelling or sleeping unit, provided that a supervisory signal is generated and monitored in accordance with the Ohio Fire Code. (Ord. 79-2016. Passed 8-23-16.)

1309.99 PENALTY.

(a) Whoever violates or fails to comply with any of the provisions of this Chapter is guilty of a misdemeanor of the first degree and shall be fined or imprisoned or both for each offence in accordance with Section 501.99 of the General Offenses Code. Unless otherwise provided, a separate offence shall be deemed committed each day during or on which a violation or noncompliance occurs or continues.

(b) The application of the penalty provided in subsection (a) shall not be deemed to prevent the enforced removal of prohibited conditions of the application of any other equitable remedy.

(Ord. 27-2007. Passed 5-8-07.)

CHAPTER 1313

Fences

1313.01 Definitions.

1313.02 Permitted fences.

1313.03 Similar fences.

1313.04 Corner or through lot.

1313.05 Permit; fee.

1313.06 Prohibited fences.

1313.07 Construction and maintenance.

1313.99 Penalty.

CROSS REFERENCES

Power to regulate fences, billboards and signs - see Ohio R.C. 715.27

Electrical and barbed wire fences - see GEN. OFF. 521.07

Swimming pool fences - see BLDG. 1341.05

1313.01 DEFINITIONS.

(a) "Privacy fence" means a fence constructed of wood, PVC or vinyl and designed to generally inhibit public view, constructed of a palisade design with a row of pickets or solid panels vertically attached on one or both sides to the supporting horizontal structure and on vertical posts, as necessary. Permitted privacy fences include:

- (1) "Board-on-board" means a fence with upright pickets alternating on each side of the horizontal supporting structure. The pickets are spaced apart one-half (1 /2) the width of the picket.
- (2) "Upright picket" means a fence with upright pickets constructed on one said of the horizontal supporting structure spaced no less than one-half (1 /2) inch apart.
- (3) "Stockade fence" means a simple or decorative fence constructed with wood, metal or vinyl boards, planks or panels that has edges placed tightly against one another, providing partial or total protection from public view.
- (b) "Open ornamental fence" means a fence of architectural design, constructed for a decorative effect or as a landscape accent. Permitted open ornamental fences include:
 - (1) "Post and rail or split fence" means a fence constructed of not more than three (3) narrow members placed horizontally between upright supporting posts.
 - (2) "Traditional picket fence" means a fence with upright pickets constructed on one side of the horizontal supporting structure spaced apart a distance equal to the width of the picket.
- (c) "Chain link fence" means a metal fence, consisting of loops of minimum nine (9) gauge wire, interconnected in a series of joined links.
- (d) "Temporary snow fence" means a fence made from narrow vertical wood strips fastened with horizontal bands of twisted wire, or from extruded sheets, which is normally used in the winter to control the drifting of snow.

(Ord. 21-2021. Passed 3-9-21.)

1313.02 PERMITTED FENCES.

Only the following fences shall be permitted:

- (a) **Privacy Fences.** Privacy fences, not more than six (6) feet in height, shall be permitted only in rear yards, or in side yards where there is an exit from the house or garage. A privacy fence shall be permitted no closer than three (3) inches from the rear property line and rear side property line.
- (b) **Open Ornamental Fences.** Open ornamental fences shall be permitted as follows:
 - (1) **Front yards.** Open ornamental fences may be erected in front yards parallel to the building line to a height not exceeding three (3) feet; provided, however, that rail or split rail fences may be erected in front yards parallel to one foot from the common property line and three (3) feet from the street right of way line.
 - (2) **Rear and side yards.** Open ornamental fences may be erected in rear yards and in side yards where there is an exit door from the house or garage, parallel to and six (6) inches from the common property line to a height not more than six feet.
 - (3) **Patio enclosure fence.** A privacy fence is permitted around the perimeter of an outdoor patio or eating area in a residential district to provide privacy of the occupants of the patio provided that is shall not be closer than three (3) inches from the adjoining property.
- (c) **Chain Link Fences.** Chain link fences shall be permitted only in rear yards, or in side yards where there is an exit door from the house or garage. Such fences may be erected three (3) inches from the common property line to a height not more than six (6) feet above the natural grade, except where swimming pool enclosure requirements shall be applicable.
- (d) **Temporary Snow Fences.** A temporary snow fence is permitted during the months of November through March. No snow fence shall be erected or installed closer than twenty (20) feet from a driveway of an abutting property. A snow fence shall not exceed four (4) feet in height and shall not be located so as to impair vision of motorists from a road or street into a driveway.
- (e) The Planning Commission has the authority to determine the height, design, and materials of fences located on lots used by medical marijuana entities without the requirement of the applicant for a fence permit seeking a variance from the provisions of this section.
- (f) Any fence that can be construed to have a finished and an unfinished side, or on which the supporting posts and/or rails are visible from only one side of the fence creating a less desirable appearance, shall have the finished side of the fence facing outward toward the abutting property. All landscaping and vegetation of the portion of property located in between a fence and the property line shall be maintained in good condition by the owner of the parcel with the fence regardless of the width or size of the area in question. (Ord. 21-2021. Passed 3-9-21.)

1313.03 SIMILAR FENCES.

The Architectural Review Board or the Planning Commission may approve other fences which are similar in character and design to one or more of the above permitted fences. If such other fences are not approved by the Architectural Review Board, the Building Commissioner shall deny the fence permit application and advise the applicant of the procedure for an appeal to the Zoning Board of Appeals.

(Ord. 23-2006. Passed 3-14-06.)

1313.04 CORNER OR THROUGH LOT.

Where a rear or side yard abuts a street, fences otherwise permitted in side or rear yards shall not extend into required yards provided however, that this provision shall not prohibit permitted rail or split rail fences erected in such side or rear yards parallel to and not nearer than one foot to the side or rear property line, at a height not more than three feet above the natural grade.

(Ord. 124-88. Passed 12-27-88.)

1313.05 PERMIT; FEE.

Any fences which may be permitted shall require the issuance of a building permit by the Building Inspector after the same has been approved by the Inspector. The fee for such permit shall be the fee set forth in Section

1325.02 of this Code.
(Ord. 94-2008. Passed 11-25-08.)

1313.06 PROHIBITED FENCES.
Barbed wire and electrified fences are hereby prohibited.
(Ord. 2-90. Passed 1-9-90.)

1313.07 CONSTRUCTION AND MAINTENANCE.
(a) Fences shall be constructed in a workman-like manner, in a straight line, where applicable, and shall be plumb and erect. Fence posts shall be placed at a minimum depth in the ground of three (3) feet, or deeper where the design or location of the fence will incur unusual wind or other loads. Only the property disturbed by the erection and location of a fence shall be the property of the owner of said fence.
(b) Such permitted fences shall be maintained in good condition, be structurally sound and attractively finished at . all times. Any grounds between such fences and property lines shall be well maintained at all times with the grass in any such area not exceeding five inches. Any such fences shall be designed, constructed and finished so that the supporting members thereof shall face the property of the owner of the fence.
(Ord. 21-2021. Passed 3-9-21.)

1313.99 PENALTY.
Whoever violates any provision of this section is guilty of a misdemeanor of the first degree. Each day that such violation continues shall constitute a separate offense.
(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1317

Garbage and Rubbish Disposal Systems

1317.01 Garbage and rubbish disposals mandatory.

1317.02 Deposit required.

1317.99 Penalty.

Garbage and rubbish collection - see S. & P. S. Ch. 951
Permit fees - see BLDG. 1325.04 (c)

1317.01 GARBAGE AND RUBBISH DISPOSALS MANDATORY.
No residence or building designed and equipped for storing or sheltering food or foodstuff for human consumption which are to be sold either at retail at stores, clubs, restaurants, schools or other food establishments or at wholesale, nor buildings where foods for human consumption are prepared, sold, handled, stored or served in any manner shall be constructed hereafter unless equipped with an appropriate type of system or apparatus for the disposal of garbage and rubbish or of garbage alone. Such system or apparatus shall not be of a type that utilizes in any manner in its operation any sewer system, septic tank or filter bed located within the City, and it shall not, when in use, be of a type that emits noxious odors or excessive smoke.
Such system or apparatus and the manner of installation thereof must conform to specifications and standards prepared by the Building Inspector, who shall promulgate and file with the Clerk specifications and standards which shall provide for safe and sanitary methods of installations and a system or apparatus which disposes of garbage or rubbish or both in a safe and sanitary manner.

(Ord. 356. Passed 7-7-52.)

1317.02 DEPOSIT REQUIRED.
Any person, when applying for a permit to erect or construct any residence or other building described in Section 1317.01 , shall deposit with the Building Inspector, the sum of one hundred dollars (\$100.00) as a bond for the faithful compliance with the provisions of Section 1317.01 , and upon compliance therewith, at any time within one year from the date of such deposit, shall receive a refund of ninety-five dollars (\$95.00) of the amount so deposited; or, any person when applying for permits to erect or construct ten or more residences or other buildings as described in Section 1317.01 , shall pay a fee of ten dollars (\$10.00) for each building for which a permit is requested and shall file a satisfactory surety bond of not less than one hundred dollars (\$100.00) for each building permit requested with the Building Inspector.

(Ord. 24-78. Passed 2-14-78.)

1317.99 PENALTY.
Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1319

Compost Piles

1319.01 Compost file defined.

1319.02 Ingredients.

1319.03 Formation.

1319.04 Enclosure.

1319.05 Location.

1319.06 Removal.

1319.99 Penalty.

1319.01 COMPOST PILE DEFINED.
As used in this chapter, "compost pile" means any outdoor pile of organic waste matter permitted to decompose.

(Ord. 78-94. Passed 9-13-94.)

1319.02 INGREDIENTS.
(a) Successful composting requires four things:
(1) Organic matter: such as leaves, grass clippings, garden plants (no weeds) kitchen produce scraps and shredded paper. Browns (carbon) such as eggshells, nut shells, sawdust, yard trimmings, i.e. leaves, not weeds, used potting soil, fine untreated wood chips, shredded newspaper, cardboard, unbleached paper towels. Greens (nitrogen) such as uncooked or cooked fruits and vegetables (full or peels). Acceptable matter also includes bread and grains, coffee grounds and unbleached filters, grass clippings, paper tea bags, hair and fur, chicken, rabbit, cow, llama/alpaca, horse manures.
(2) Soil organisms: such as bacteria, fungi and other decomposers.
(3) Water: if pile becomes too dry, add enough water to make it damp, but not wet.
(4) Oxygen: turn your pile at least every two or three days to let oxygen into the middle of the pile so the organisms can do their work in decomposing.

(b) A compost pile shall not consist of any metals, glass, dairy products (such as butter, milk, sour cream and yogurt), eggs, fats, grease, lard or oils, greasy or oily food, meat or seafood scraps or bones, pet waste (dog or cat feces, soiled cat litter), soiled diapers, plastic, stickers from produce, black walnut tree leaves or twigs, yard trimmings treated with chemical pesticides or other chemicals, coal or charcoal ash, fire starter logs, treated or painted wood.

(Ord. 96-2022. Passed 8-23-22.)

1319.03 FORMATION.
The ideal size for a composting bin is one cubic yard (3 'x 3' x 3'). Multiple bins or confined piles are recommended for different stages of the process, but not necessary. Layers of the brown and green matter can be layered or mixed together. No compost bin or pile shall be higher than five (5) feet above ground level or cover an area of greater than 100 square feet.
(Ord. 96-2022. Passed 8-23-22.)

1319.04 ENCLOSURE.

All compost piles above ground level grade shall be contained.
(Ord. 78-94. Passed 9-13-94.)

1319.05 LOCATION.

All compost piles in the City shall be at least five feet from the back property line of the rear yard and no closer than fifteen feet from any adjoining property line. In the case of irregularly shaped or exceptionally small lots, the Building Commissioner may permit special exceptions from this section provided he receives written consent from the affected adjoining property owner.

(Ord. 78-94. Passed 9-13-94.)

1319.06 REMOVAL.
Any compost pile in the City which is found to be in violation of the regulations contained in this chapter by the City is determined to be a nuisance affecting the public health, safety and welfare and shall be removed completely within seven days after receipt of written notice from the City to the property owner or person lawfully in possession of the property upon which the compost pile is located. Failure to remove a compost pile pursuant to a notice given in this section shall be deemed a violation of this section.
(Ord. 78-94. Passed 9-13-94.)

1319.99 PENALTY.
Whoever violates this section is guilty of a misdemeanor of the first degree for each offense. Each day that such violation continues shall constitute a separate offense.
(Ord. 31-2018. Passed 4-10-18.)

CHAPTER 1321

Grading and Landscaping

1321.01 Intent.

1321.02 Approval of plans by City Engineer.

1321.03 Proper rough and final grading.

1321.04 Inspection of rough and final grade.

1321.05 Fee to cover inspections of rough and final grades.

1321.06 Certification as an alternate to inspection by City Engineer.

1321.07 Installation of final landscaping.

1321.08 Approval of landscaping plans.

1321.09 Deposit to cover review, approval and inspection of final grade.

1321.10 Prohibition against disturbance of approved grades.

1321.99 Penalty.

CROSS REFERENCES

Changing established grade - see Ohio R.C. 727.07

Permit fees - see S. & P.S. 903.05 , 905.04 ; BLDG. 1325.02

1321.01 INTENT.

The intent of this chapter is to establish procedures and safeguards to ensure that the grades for all buildings, structures, driveways and roads, as established by the engineer for the lot owner, builder or developer, shall be in conformity with the improvement plans for the development, and in conformity with the topography of the adjacent land, and will allow proper drainage of surface waters, and allow the construction of sewers at reasonable depths.

(Ord. 132-89. Passed 2-13-90.)

1321.02 APPROVAL OF PLANS BY CITY ENGINEER.

All site plans, grading plans or improvement plans submitted with applications for building permits shall be subject to the approval of the City Engineer to determine that the plans conform to the approved improvements plans for the development, and that proper provisions have been made to permit drainage of surface waters during and after the construction period.

(Ord. 132-89. Passed 2-13-90.)

1321.03 PROPER ROUGH AND FINAL GRADING.

(a) The developer or builder of any parcel, lot, structure, driveway or road within the City shall properly rough grade the lot or land so that positive drainage is maintained in conformity with the approved grading plan, during and after the construction period. For the purposes of this chapter, "rough grade" means the grading and leveling of the property, after backfilling of the below-grade foundation walls, but prior to any landscaping or grass planting. "Rough grade" also means the elevation approximately two to three inches below the finish grade in planting areas, and finish grade minus depth of paving in areas to receive paving.

(b) The developer or builder of any parcel, lot, or structure within the City shall install the final grade upon the lot, parcel or land being developed or upon which a structure is being erected. The "finished grade" or "final grade" means the elevation of the finished surface of the ground on all areas of the lot and adjoining the building, walks and drives after the normal settlement of the rough grade and the placement and the final grading of the topsoil.

(Ord. 11-2015. Passed 2-10-15.)

1321.04 INSPECTION OF ROUGH AND FINAL GRADE.

The applicant for a building permit shall make arrangements with the Building Department for the following grading inspections prior to the issuance of an occupancy permit:

- (a) Immediately after excavation of the basement, and before backfilling, the City Engineer shall inspect the construction site and verify that the elevations for the top of footings conform to the elevations shown on the approved grading plan. If the elevations do not conform, the City Engineer shall advise the Building Inspector, who shall instruct the applicant to stop further construction until the elevations are corrected, or a revised grading plan is approved by the City Engineer.
- (b) After backfilling and rough grading, the City Engineer shall again inspect the construction site and verify that the rough grading conforms to the approved grading plan. If the rough grading does not conform, the City Engineer shall advise the Building Inspector, who may at their discretion, either instruct the applicant to stop further construction until the rough grades are corrected, or require that a revised grading plan be approved by the City Engineer.
- (c) After any required final adjustments to the rough grade, the removal of all construction debris and rock/stones, and the placement of a minimum of 2-inches of topsoil the City Engineer shall again inspect the construction site. At that time the City Engineer shall verify that the final grading conforms to the approved grading plan and shall inspect the seeding and the covering with mulch of the graded areas and the installation of any trees required by the approved subdivision plot plan. NOTE: The requirements of this section are in addition to the placement of grass or seed for the purposes of erosion control or rough grade stabilization required by the terms of Chapter 1195 of the Codified Ordinances in regards to Storm Water Management.
- (d) For good cause shown the Building Inspector or the City Engineer may waive any of the above required inspections, however that waiver shall be in writing and a copy shall be preserved in the files of the Building Inspector.
- (e) Notice shall be given to the property owner, if the lot is owned by other than the builder, of the grading and landscaping requirements of this chapter, and the builder shall provide to the property owner copies of all approved grading plans and required inspections.

In the event the builder is the owner of the lot, they shall be required to inform any subsequent purchaser of the grading requirements of this chapter, and to provide the purchaser with copies of the approved grading plan and all required inspections.

(Ord. 11-2015. Passed 2-10-15.)

1321.05 FEE TO COVER INSPECTIONS OF ROUGH AND FINAL GRADES.

The applicant for a building permit shall pay a grade permit fee to the Building Department as required in Chapter 1325 to cover the cost and expense of the City Engineer's professional fees for review and approval of the grading plan and subsequent inspections and the cost to the Building Department of processing the application. Fees due in any amount over and above the amount charged for the inspection of grades shall be deducted from the contractor's construction bond. (Ord. 11-2015. Passed 2-10-15.)

1321.06 CERTIFICATION AS AN ALTERNATE TO INSPECTION BY CITY ENGINEER.

With the prior approval of the Building Inspector, as an alternate to inspection by the City Engineer, the applicant for a building permit may arrange to have the inspections required by Section 1321.04 done by the applicant's engineer or surveyor at the applicant's expense. Under this alternate procedure, the applicant's engineer or surveyor shall inspect the construction at the times stipulated in Section 1321.04(a) and (b), and certify with their seal and signature, on a copy of the approved grading plan, that the grades inspected are in conformance with the approved plan. Upon receipt of the certified inspection report, the City Engineer shall advise the Building Inspector of their approval or rejection.

(Ord. 132-89. Passed 2-13-90.)

1321.07 INSTALLATION OF FINAL LANDSCAPING.

The property owner may arrange for the installation of additional landscaping after the date of issuance of the occupancy permit. However, said additional landscape installation shall be supplementary and shall not impact the installation of topsoil and seed which is required prior to the approval of the final grade.

(Ord. 11-2015. Passed 2-10-15.)

1321.08 APPROVAL OF LANDSCAPING PLANS.

The property owner shall be responsible for the preparation of landscaping plans in accordance with the approved grading plan.

- (a) For other than single-family homes, in addition to the requirements of Chapter 1177 , Walls and Landscaping, the final landscaping plans shall be subject to the approval of the City Landscape Architect, for landscaping, and of the City Engineer to ensure that the plans are in conformance with the approved grading plans for the project.
- (b) For single-family homes the landscaping plans shall be approved by the Building Inspector or City Engineer only for conformance to the approved grading plan. The landscaping plan may be superimposed on the grading plan.

(Ord. 132-89. Passed 2- 13-90.)

1321.09 DEPOSIT TO COVER REVIEW, APPROVAL AND INSPECTION OF FINAL GRADE.

- (a) For other than single-family homes, the owner shall deposit with the Building Department the sum of three hundred dollars (\$300.00) to cover the cost and expense of the City Landscape Architect and the City Engineer to approve and inspect the landscaping and final grading.
- (b) For single-family homes, no deposit shall be required for the inspection and approval of the landscaping and final grading.
- (c) The cost and expenses shall be paid from such deposit upon itemized statements rendered by the City Engineer and/or City Landscape Architect. In case such expenditures exceed such deposit, the excess shall be borne by the applicant. In case the deposit exceeds such expenditures, the balance will be refunded to the applicant within a reasonable time after the final inspections.
- (d) For good cause shown the Building Inspector may waive the above deposits and/or inspections, however, that waiver shall be in writing and a copy shall be preserved in the files of the Building Department. (Ord. 11-2015. Passed 2-10-15.)

1321.10 PROHIBITION AGAINST DISTURBANCE OF APPROVED GRADES.

No builder, property owner, landscaper or their agents shall change the grade or fill any swale or ditch, after inspection and approval of the rough grades, or finish grades, by the City Engineer.

(Ord. 132-89. Passed 2-13-90.)

1321.99 PENALTY.

- (a) Whoever violates a provision of this chapter is guilty of a misdemeanor of the first degree. Each day that such violation continues shall constitute a separate offense.
- (b) Where the defendant is other than a natural person or persons, subsection (a) shall apply to any agent, superintendent, officer, member or partner who shall alone or with others have charge, care or control of the premises.
- (c) The imposition of any penalty shall not preclude the Director of Law from instituting an appropriate action or proceeding in a court of competent jurisdiction to restrain, correct or abate a violation or to require compliance with the provisions of this chapter.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1325

Permits and Fees

- 1325.01** Permits required.
- 1325.02** Schedule of plan approval fees.
- 1325.03** Fees for zoning permits.
- 1325.04** Fees for building permits.
- 1325.05** Fees for miscellaneous permits.
- 1325.06** Fees for plumbing, water, sewer and fuel gas work.
- 1325.07** Fees for electrical work.
- 1325.08** Fees for HVAC work.
- 1325.09** Fees for fire protection systems work.
- 1325.10** Garage sale license fee.
- 1325.11** Ohio Board of Building Standards assessment.
- 1325.12** Cash deposit for additional professional services.
- 1325.13** Topographic map necessary for building permit.
- 1325.14** Senior citizen exemption.
- 1325.15** Inspection fees.
- 1325.16** Contractor's insurance and cash bond deposit.
- 1325.99** Penalty.

1325.01 PERMIT REQUIRED.

(a) No structure shall be constructed, erected, added to, altered, repaired, moved, demolished or razed or excavation made or begun or any site preparation or work began within the City of Richmond Heights except after issuance of a permit therefor by the Municipality and the provisions of such permit shall be complied with.

(b) Such permit must be obtained and the appropriate fee(s) paid within forty-five days after the application and plans are filed with the Division of Building, Zoning and Housing.

(c) The Commissioner of Building, Zoning and Housing shall examine or cause to be examined every application for a permit and shall issue no permit until the plans, statements and other documents are found to be in conformity with all Building and Planning and Zoning Codes, standards, rules and regulations or any other ordinances applicable thereto.
(Ord. 98-2018. Passed 2-12-19.)

1325.02 SCHEDULE OF PLAN APPROVAL FEES.

Applicants for plan approvals (permits) required by the Building Code shall pay the following fees to the Commissioner of Building, Zoning and Housing. Refer to Section 1325.12 for Professional Service Fees.

(a) Examination of Plans by City Architect and City Landscape Architect	Residential	Non-Residential
(1) For construction of new one, two and three family dwelling structures: Exception: Dwelling structures within Planned Unit Residential Developments	\$100.00	
(2) For construction of additions to and/or exterior alterations to one, two and three family dwelling structures Per dwelling structure Exception: Open decks	\$50.00	
(3) Landscape plans for new one, two and three family dwelling structures Per dwelling structure	\$40.00	
(4) Landscape plans for additions to one, two and three family dwelling structures Per dwelling structure	\$25.00	
(5) Landscape plans for all other buildings based on estimated cost of construction: Cost to \$100,000.00 Cost over \$100,000.00 per hr.	\$100.00	\$200.00 \$500.00

(b) Examination of Plans by Architectural Review Board	Residential	Non-Residential
(1) Construction of new buildings Per building	\$100.00	\$150.00
(2) Construction of additions; construction of exterior alterations to building and structures Per building	\$50.00	\$100.00
(3) New construction of; addition to; exterior alteration to; appurtenant buildings and structures		\$100.00
(4) Signs, and screening of refuse storage and pick-up facilities		\$100.00
(5) All other plans required to receive approval of the Architectural Review Board		\$100.00

(c) Examination of Plans by Zoning Board of Appeals	Residential	Non-Residential
(1) Residential (R-1, R-2 and R-3 Districts)	\$125.00	\$200.00
(2) Other, administrative review (if required)	\$40.00	\$50.00

(d) Examination of Plans by Planning Commission	Residential	Non-Residential
(1) Site Plan Application with new infrastructure	\$2,200.00	\$2,500.00
(2) Site Plan Application without new infrastructure	\$700.00	\$800.00
(3) Zoning Amendment	\$1,200.00	\$1,400.00
(4) Lot Split/Consolidation	\$700.00	\$800.00
(5) Conditional Zoning Application	\$500.00	\$600.00
(6) Residential Subdivision Application	\$2,400.00	

(e) Examination of Construction Documents by Plans Examiner Certified by the Ohio Board of Building Standards	Residential	Non-Residential
(1) Non-residential plans examination fee per hour		\$100.00
(2) Residential plans examination fee per hour	\$75.00	

(f) Preparation of an Adjudication Order by the Chief Building Officials for an Appeals Hearing	Residential	Non-Residential
(1) Base Fee	\$100.00	\$150.00
* Plus any fees charged to the City by the Plans Examiner Professional Service Fee may be required	\$100.00	\$150.00

(g) Additional Penalty Fees	Residential	Non-Residential
(1) Where work is begun without first obtaining a permit and paying the fee as indicated above, the applicant is charged a fee of triple the amount of the fee indicated in this section	\$150.00	\$150.00
(2) Re-inspection of same item	\$50.00	\$50.00
(3) Inspection call and appearance of inspector on property and work not ready 2 nd offense, inspection call, work not ready	\$100.00	\$100.00
(4) Work covered without inspection	\$50.00	\$100.00

(Ord. 98-2018. Passed 2-12-19.)

1325.03 FEES FOR ZONING PERMITS.

The fees in this section are not subject to the assessment set forth in Section 1325.11. All permits are non-refundable.

(a) Driveway Apron	Residential	Non-Residential
(1) New	\$25.00	\$50.00
(2) Addition (Base Fee) * Plus per each 100 sq. ft. or fraction thereof exceeding 200 sq. ft.	\$15.00 \$2.00	\$30.00 \$4.00
(3) Repair (Base Fee) * Plus per each 100 sq. ft. or fraction thereof exceeding 200 sq. ft.	\$15.00 \$2.00	\$20.00 \$4.00

(b) Construction Dumpster	Residential	Non-Residential
(1) Base fee * Initial permit good for 30 days	\$25.00	\$50.00
(2) Renewal fee * Permit must be renewed every 30 days	\$15.00	\$25.00

(c) Construction Trailer	Residential	Non-Residential
(1) Per each sq. ft. of gross floor area all stories	\$0.45	\$0.60
Minimum	\$25.00	\$100.00

(d) Curb Cutting	Residential	Non-Residential
(1) New	\$100.00	\$150.00

(e) Driveway	Residential	Non-Residential
(1) New	\$60.00	\$85.00
(2) Addition (Base Fee) * Plus per each 100 sq. ft. or fraction thereof exceeding 200 sq. ft.	\$20.00 \$2.00	\$35.00 \$4.00
(3) Repair (Base Fee) * Plus per each 100 sq. ft. or fraction thereof exceeding 200 sq. ft.	\$30.00 \$2.00	\$50.00 \$4.00
(4) Resurface asphalt driveway	\$50.00	\$75.00

Note: See Section 1325.06(C) for cost to replace/repair existing sewer in conjunction with any driveway work

(f) Fence	Residential	Non-Residential
(1) Base Fee	\$50.00	\$70.00

(g) Moving of Buildings	Residential	Non-Residential
(1) On rollers on a public street or portion thereof	\$500.00	\$1,000.00
(2) On carryall(s) on a public street or portion thereof	\$250.00	\$500.00
(3) Without traversing a public street or portion thereof	\$100.00	\$200.00
* Plus a cash deposit of \$5000.00 to be used to pay the cost of any damage to Public/private property by reason of moving	\$5,000.00	\$7,000.00
* Note: In addition to the fees in this division, supervision, inspection and/or use of police for traffic control will be charged to the applicant for the permit. Said charges will be estimated and a deposit shall be submitted to cover the estimated costs prior to issuance of a permit.	TBD at discretion of Building Commissioner	TBD at discretion of Building Commissioner

Note: See Section 1325.06(C) for cost to replace/repair existing sewer in conjunction with any driveway work

(h) Parking Lots	Residential	Non-Residential
(1) Construction of, or Additions to * Per each 50 spaces or fraction thereof * Plus lot striping		\$200.00
(2) Lot resurface * Plus lot striping		\$150.00
(3) Lot striping * Plus plan review		\$100.00

(i) Patio	Residential	Non-Residential
(1) New	\$50.00	\$100.00
(2) Addition (Base Fee) * Plus per each 100 sq. ft. or fraction thereof exceeding 200 sq. ft.	\$10.00 \$2.00	\$20.00 \$4.00
(3) Repair (Base Fee) * Plus per each 100 sq. ft. or fraction thereof exceeding 200 sq. ft.	\$10.00 \$2.00	\$20.00 \$4.00

(j) Secondary, Accessory & Appurtenance Structures of Buildings Less Than 200 sq.ft.	Residential	Non-Residential
(1) Base fee	\$50.00	\$70.00

(k) Sidewalk	Residential	Non-Residential
(1) Public (per block)	\$7.00	\$14.00
(2) Service walk (Base Fee) * Plus per each 100 sq. ft. or fraction thereof exceeding 200 sq. ft.	\$7.00 \$2.00	\$14.00 \$4.00

(l) Rain Garden, Pervious Patio and Driveway Installation	Residential	Non-Residential
(1) City Engineer review and inspection fee Fee per hour - applicant will be required to fill out a Professional Services Fee Application	\$100.00	\$150.00

(M) Additional Penalty Fees	Residential	Non-Residential
(1) Where work is begun without first obtaining a permit and paying the fees as indicated above, the applicant for a permit shall be charged a fee of triple the amount of the fee indicated in this section	-	-
(2) Re-inspection of the same item	\$50.00	\$50.00
(3) Inspection call and appearance of inspector on property and work not ready. 2 nd offense, inspection call, work not ready	\$100.00	\$100.00
(4) Work covered without inspection	\$50.00	\$100.00

(Ord. 98-2018. Passed 2-12-19.)

1325.04 FEES FOR BUILDING PERMITS.

The fees in this section are subject to the assessment as set forth in Section 1325.11. All permit fees are non-refundable.

(a) Residential Dwelling Structures	Residential	Non-Residential
(1) New dwelling unit Base fee * Plus per each 100 sq. ft. or fraction thereof of gross floor area including basement and attached garage exceeding 2,000 sq. ft.	\$1,500.00 \$20.00	

(2) House Grade by City Engineer	\$1,000.00	
(3) Additions to dwelling units		
Base fee	\$200.00	
* Plus per each 100 sq. ft. or fraction thereof of gross floor area including basement and attached garage	\$10.00	
(4) Alterations to dwelling units (Interior and Exterior) includes rehabilitation, damage repair and fire damage		
Base Fee	\$150.00	
* Plus per each 100 sq. ft. or fraction thereof of gross floor area including basement and attached garage	\$5.00	
* Plus additional repair fees for roofing, windows, exterior wall covering	See Repairs #5	
(5) Repair of dwelling units:		
A. Repair of structure	\$50.00	
B. Roofing	\$50.00	
C. Windows replacement	\$50.00	
D. Exterior wall covering, siding	\$50.00	
E. Gutters and Downspouts	\$50.00	
(6) Secondary, accessory and appurtenant structures of buildings greater than 200 sq. ft.	\$100.00	
Base fee	\$6.00	
* Plus per each 50 sq. ft. or fraction thereof of gross floor area		
(7) Exterior decks		
Base Fee	\$50.00	
* Plus per each 100 sq. ft. of gross floor area or fraction thereof exceeding 200 sq. ft.	\$8.00	
(8) Demolition		
A. Principal Structure	\$200.00	
B. Accessory buildings and structures	\$75.00	
C. Swimming pools, in ground	\$125.00	
* Plus a cash deposit for principal structures only in the amount of \$2,000.00 to be used to pay the cost of damage to public/private property by reason of the demolition or the cost of topsoil, seed and straw if not installed by the demolition contractor	\$2,000.00	
(9) Additional Residential Permits		
A. Garages	\$100.00	
B. Storage Sheds	\$50.00	
C. Foundation waterproofing	\$100.00	
D. Driveway Culvert (Includes engineer's plan review)	\$50.00	
E. Roof replacement and repairs (qualifies for senior citizen exemption)	\$75.00	
F. Exterior Siding	\$75.00	
G. Gutters and Downspouts	\$50.00	
H. Window and Doors	\$75.00	
(10) Residential occupancy permit	\$50.00	

(b) Special Inspection	Residential	Non-Residential
(1) Special Inspection at hourly rate of \$100.00		
A. Additional fees may be charged, as determined by the Building Commissioner, for special costs incurred by the City in the plan review and inspection process including the cost of services performed by the City Engineer at the rates set forth in the City Engineer's contract with the City or by City ordinance	\$100.00	\$150.00
(c) Non-Residential Buildings or Structures	Residential	Non-Residential
(1) New building or structure		\$2,000.00
Plus \$20.00 per 100 sq. ft.		\$20.00
Minimum		
(2) Additions to buildings or structures in excess of 2000 sq. ft.		\$2,000.00
Plus \$20.00 per 100 sq. ft.		\$20.00
Minimum		
(3) Alterations or repairs to buildings or structures, less than 2500 sq. ft.		\$250.00
Plus \$10.00 per 100 sq. ft.		\$10.00
Minimum		
(4) Alterations or repairs to buildings or structures, over 2500 sq. ft.		\$250.00
Plus \$2.00 per 100 sq. ft.		\$2.00
Minimum		
(5) Repairs to buildings or structures		\$75.00
A. Repair of building or structure up to 200 sq. ft.		\$75.00
B. Roofing per area 200 sq. ft.		\$75.00
C. Windows replacement		\$75.00
D. Exterior wall covering		\$75.00
(6) Secondary, accessory and appurtenance structures of buildings greater than 120 sq. ft.		\$30.00
Base fee		\$9.00
* Plus per each 50 sq. ft. or fraction thereof of gross floor area		
(7) Demolition of buildings or structures		\$0.10
Per sq. ft. of gross floor area on all stories		\$150.00
Minimum		
(8) Dumpster Enclosure		\$75.00
(9) Garages		\$125.00
(10) Storage Shed		\$75.00
(11) Culvert		\$75.00
(12) Foundation Waterproofing		\$100.00
(13) Non-Residential Occupancy Permit		\$75.00
(14) Additional fees may be charged, as determined by the Building Commissioner, for special costs incurred by the City in the plan review and inspection process, including the cost of services performed by the City Engineer at the rates set forth in the City Engineer's contract with the City or by City ordinance.

(3) Inspection call and appearance of inspector on property and work not ready. 2 nd offense, inspection call, work not ready	\$100.00	\$100.00
(4) Work covered without inspection	\$50.00	\$50.00

(Ord. 98-2018. Passed 2-12-19.)

1325.07 FEES FOR ELECTRICAL WORK.

The fees in this section are subject to the assessment set forth in Section 1325.11. All permits are non-refundable.

(a) Residential Dwelling Structures	Residential	Non-Residential
(1) New electrical systems Per each dwelling unit Additional fees	\$130.00 Exempt	
(2) Addition to electrical systems Base fee for each dwelling unit affected * Plus additional fees	\$35.00	
(3) Alterations to electrical systems (rehabilitation, damage repair and fire damage) Base fee for each dwelling unit affected * Plus per each 100 sq. ft. or fraction thereof of gross floor area	\$35.00 \$5.00	
(4) New construction of; addition to; alteration to; electrical system of appurtenant building or structure Base fee * Plus additional fees	\$35.00 TBD at the discretion of Building Commissioner	
(5) Repair of electrical systems Per building or structure Additional fees	\$35.00 TBD at the discretion of Building Commissioner	
(6) Security, Communication and Sound System wiring	\$50.00	

(b) Non-Residential Dwelling Structures	Residential	Non-Residential

(1) New electrical systems Base Fee * Plus per each 100 sq. ft. or fraction thereof of gross floor area		\$120.00 \$4.00
(2) Addition to electrical systems Base fee * Plus per each 100 sq. ft. or fraction thereof of gross floor area		\$120.00 \$4.00
(3) Alterations to electrical systems Base Fee * Plus additional fees in Section (C)		\$120.00 TBD
(4) Repair of electrical systems Per building or structure Additional fees		\$100.00 Exempt
(5) Security, Communication and Sound System Wiring		\$125.00

(c) Additional Fees	Residential	Non-Residential
Each switch	\$0.50	\$0.50
Each lighting outlet of 110/240 volts	\$0.50	\$0.50
Each lighting fixture of 110/240 volts	\$0.50	\$0.50
Each receptacle of 110/40 volts other than lighting	\$0.50	\$0.50
Each receptacle of greater than 240 volts and/or 1,000 watts	\$5.00	\$5.00
Each fixture greater than 1,000 watts	\$5.00	\$5.00
Each lighting outlet; each receptacle and/or outlet; each fixture of less than 100 volts	\$0.50	\$0.50
Each mast/meter base	\$30.00	\$50.00
Each main panel of 100 volts or greater	\$30.00	\$50.00
Each sub panel of 110 volts or greater	\$15.00	\$15.00
Each panel/ sub panel of less than 110 volts	\$15.00	\$15.00
Each generator Note: Additional fuel gas permit may be required	\$30.00	\$40.00
Temporary lighting, receptacle and/or outlet installation	\$30.00	\$40.00
Temporary lighting and exit signage for tent structures	\$30.00	\$40.00
Electric sign		\$45.00
Each new power bus duct Per foot or fraction thereof of length		\$0.50
Each new motor Less than one horsepower One to ten horsepower More than ten horsepower	No charge \$5.00 \$10.00	No charge \$10.00 \$20.00
Underground service wiring	\$25.00	\$50.00
Optical fiber cable system; communication system and similar systems Base fee per system * Plus per each 1,000 sq. ft. or fraction thereof of gross area exceeding 5,000 sq. ft. system	\$40.00 \$20.00	\$50.00 \$30.00
Co-generation systems and associated equipment	\$100.00	\$100.00
Parking lot lighting per pole		\$20.00

(d) Additional Penalty Fees	Residential	Non-Residential
(1) Where work is begun without first obtaining a permit and paying the fee as indicated above, the applicant for a permit shall be charged a fee of triple the amount of the fee indicated in this section.	--	--

(4) Work covered without inspection (Ord. 98-2018. Passed 2-12-19.)	\$50.00	\$50.00

1325.09 FEES FOR FIRE PROTECTION SYSTEMS WORK.

The fees in this section are subject to the assessment set forth in Section 1325.11. All permits are non-refundable.

(a) Fire Suppression Systems	Residential	Non-Residential
(1) Sprinkler System Wet/Dry New Commercial * Plus \$2.00 per device	\$50.00 \$2.00	\$200.00 \$2.00
(2) Sprinkler System Wet/Dry Per system alteration per system. * Plus per device	\$25.00 \$2.00	\$50.00 \$2.00
(3) Sprinkler System Water Pump New Commercial		\$50.00 per unit
(4) Clean Agent or Specialty Suppression System, per system. New Commercial * Plus per device		\$200.00 \$2.00
(5) Specialty Suppression System alteration, per system. * Plus per device		\$50.00 \$2.00

(b) Standpipe System	Residential	Non-Residential
(1) Standpipe System/Wall Hydrants, per system. New		\$200.00
(2) Standpipe System/Wall Hydrants, per system. Alteration		\$200.00

(c) Fire Alarm System	Residential	Non-Residential
(1) New Fire Alarm System New Commercial * Plus per device greater than 5 devices	\$50.00 \$2.00	\$100.00 \$2.00
(2) Fire Alarm System Alteration * Plus per device greater than 5 devices	\$25.00 \$2.00	\$50.00 \$2.00

(d) Fire Protection Equipment	Residential	Non-Residential
(1) Testing/Repair/Install/Alteration Contractor Registration	\$100.00	\$100.00

(e) Above Ground Flammable Liquid Storage Tank	Residential	Non-Residential
(1) Above Ground Flammable Liquid Storage Tank Commercial, 500 to 1,100 gallons Residential/Commercial, greater than 1,100 gallons		\$100.00 State Permit

(f) Emergency Radio Amplification System	Residential	Non-Residential
(1) Emergency Radio Amplification System		\$200.00

(g) Smoke Evacuation System	Residential	Non-Residential
(1) Smoke Evacuation System		\$200.00

(h) Open Burn/Bon Fire	Residential	Non-Residential
(1) Open burn/bon fire Non-residential	\$25.00	\$50.00

(i) Additional Penalty Fees	Residential	Non-Residential
(1) Where work is begun without first obtaining a permit and paying the fee as indicated above, the applicant for a permit shall be charged a fee of triple the amount of the fee indicated in this section	--	--
(2) Re-inspection of same item		\$50.00
(3) Inspection call and appearance of interior on property and work not ready 2 nd offense, inspection call, work not ready		\$100.00
(4) Work covered without inspection (Ord. 98-2018. Passed 2-12-19.)		\$50.00

1325.10 GARAGE SALE LICENSE FEE.

The fees in this section are subject to the assessment as set forth in Section 1325.11. All permits are non-refundable.

(a) Garage Sale	Residential	Non-Residential
(1) Garage Sale (Ord. 98-2018. Passed 2-12-19.)	\$10.00	

1325.11 OHIO BOARD OF BUILDING STANDARDS ASSESSMENT.

(a) The Commissioner of Building, Zoning and Housing shall collect and remit on behalf of the Board of Building Standards an assessment equal to three percent (3%) of the prescribed building permit fees on nonresidential structures as required by state law.

(b) The Commissioner of Building, Zoning and Housing shall collect and remit on behalf of the Board of Building Standards an assessment equal to one percent (1%) of the prescribed building permit fees on residential structures as required by state law.
(Ord. 98-2018. Passed 2-12-19.)

1325.12 CASH DEPOSIT FOR ADDITIONAL PROFESSIONAL SERVICES.

(a) In addition to any other fees or deposits required by other sections of these Codified Ordinances, the Building Commissioner shall charge and the Director of Finance shall collect a deposit in the amount of two percent (2%) of the City Engineer's estimate of the cost of the construction which is the subject of the building permit or other application but not less than one thousand dollars (\$1,000) unless the City Engineer approves, in their sole discretion, a lesser amount, to reimburse the City for expenses incurred for additional or supplemental engineering, legal, landscape architecture, or other professional services rendered as a result of the application for a building permit, the review of preliminary and final site development plans, land subdivisions, miscellaneous lot splits and consolidations, and/or rezoning applications.

(b) Charges for the professional services of the City Engineer, Director of Law, planning consultants, Landscape Architect, or their designees shall be at the rates set forth in their contracts or ordinances with the City.

(c) In the event that the monies deposited by an applicant as required in subsection (a) hereof are not sufficient to reimburse the City as provided in subsection (a), then the applicant shall be required to deposit additional monies in series of one thousand dollars (\$1,000) as requested by the City, up to the total amount for said reimbursement.

(d) Any sums not so charged against such deposit as required in subsection (a) and (b) hereof shall be refunded to the applicant no later than sixty days from the completion of the construction, the granting or refusal of

the permit, the approval of the preliminary and final site development plans, subdivision or lot split or consolidation, or the granting or refusal of the rezoning application.
(e) In addition to all other remedies provided by these Codified Ordinances or by law, the City may issue a stop work order or rescind any permits or approvals for violations of this section. (Ord. 98-2018. Passed 2-12-19.)

1325.13 TOPOGRAPHIC MAP NECESSARY FOR BUILDING PERMIT.

All persons making application for a building permit to the City shall submit therewith a topographic map of the lot or parcel to be imposed showing existing and proposed elevation. The scale of such map shall be one inch equal to ten feet.
(Ord. 98-2018. Passed 2-12-19.)

1325.14 SENIOR CITIZEN EXEMPTION.

Residents obtaining status as a senior citizen (i.e., sixty years of age or older) shall be eligible to obtain a permit for a hot water tank replacement at no charge upon submitting proof of age and ownership of the real property to the Commissioner of Building, Zoning and Housing at the time of making application for a permit. (Ord. 98-2018. Passed 2-12-19.)

1325.15 INSPECTION FEES.

The fee for inspection services rendered by a full-time City Inspector on any type of improvements including subdivision improvements performed in the City including but not limited to inspections of sanitary sewers, water or storm sewer improvements, gas lines, underground telephone conduit, paving and sidewalk construction shall be at the prevailing rate as established by the City Engineer and approved by Council.
(Ord. 98-2018. Passed 2-12-19.)

1325.16 CONTRACTOR'S INSURANCE AND CASH BOND DEPOSIT.

(a) Contractor's Insurance and Contractor's Cash Bond Deposit. Before any building permit shall be issued the applicant shall deposit with the Commissioner of Building, Zoning and Housing an insurance policy, issued by a company authorized to write insurance in all of the State of Ohio, designating the City as the insured therein, by the terms of which the City is saved harmless from any and all claims for bodily injury within the limits of one hundred thousand dollars (\$100,000) for each person and three hundred thousand dollars (\$300,000) for each accident and for property damage claims in the amount of fifty thousand dollars (\$50,000) for each accident arising or growing out of the street opening or removal of the surface of any sidewalk or opening in any sidewalk or the prosecution of the work for which the permit is obtained or in any manner arising or growing out of the work necessary or incident to the issuance of the permit or that may be occasioned by reason of any opening or anything else done pursuant to a permit.

(b) Contractor's Bond Deposit. Prior to the issuance of any building permit, a contractor's bond deposit in the form of a cash surety bond or certified cashier's check shall be deposited with the Commissioner of Building, Zoning and Housing as follows:

- (1) Residential (one, two, three family residential)
 - A. Additions and alterations
 1. Less than 200 square feet of gross floor area (GFA) \$200.00
 2. More than 200 square feet but less than 500 square feet of GFA 500.00
 3. More than 500 square feet of GFA 1,000.00
 - B. New construction 2,500.00
- (2) Other than one, two and three family residential
 - A. Two percent (2%) of the cost of the project but not less than 2,500.00

Such deposit shall be a guarantee that the applicant will repair or replace any damage or destruction to any publicly-accessible sidewalk, curb, street or tree lawn; the construction and maintenance of the temporary drive; the proper site grading; the installation and completion of the final grade including the installation of topsoil and seed and the covering of such with mulch; the cleaning of the premises and tree lawn of all dirt, debris, refuse, rubbish and material and the cleaning of the public streets, catch basins and/or sewers of the accumulation of any mud, filth or debris which may have been accumulated there as a result of the delivery of material, supplies and other things to such premises; and for the completion of sidewalk, lot pins and compliance in all respects to the applicable building and zoning codes of the City.

If the provisions of the Building and Planning and Zoning Codes and the orders of the Commissioner of Building, Zoning and Housing pertaining thereto are complied with, the deposit shall be refunded as soon after final inspection of the permitted work, and of the final grade and

installation of grass seed, as applicable, and as soon as such refund can be conveniently made, upon the request of the applicant. If the applicant does not request the refund within ninety (90) days of the satisfactory final inspection, the Division of Building, Zoning and Housing may serve written notice to the applicant by regular U.S. Mail at the last mailing address provided by the applicant to the Division to obtain the refund. If the applicant does not respond to the Division to obtain the refund within one (1) year of the mailing of the notice by the Division, the deposit shall be forfeited to the City and the funds shall be transferred to the City's General Fund.

(c) Use of Contractor's Bond Deposit. An order to correct any condition or remove any substance shall be complied with within the time period as supplied by law, the Commissioner of Building, Zoning and Housing shall cause the same to be done at the expense of the permit holder and the Bond Fund shall be subjected to the payment of the expense thereof. In addition, any charges incurred over and above the fee set forth in this chapter for the inspection of the footer grade, rough grade and final grade due to the contractor's failure to comply with approved plans shall be deducted from the contractor's bond deposit. If such deposits are insufficient to fully pay for such expenses, then the permit holder shall be liable for the additional amount in excess of the Bond Fund, which coverage shall be collected by the Director of Law in a court of competent jurisdiction.

The deposit shall be subject to payment of all unpaid inspection and re-inspection charges set forth in this chapter. (Ord. 22-2023. Passed 3-14-23.)

1325.99 PENALTY.

Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree. Each day that such violations or such work continues in violation of these provisions shall constitute a separate offense.
(Ord. 98-2018. Passed 2-12-19.)

Driveway culvert changes - see S. & P. S. 905.04

1329.01 OBSTRUCTION PERMIT; DEPOSITS; FEES.

Before proceeding with the construction, enlargement, alteration, repair or removal of any building or other structure, when it is necessary or desired to cross any curb, tree lawn or sidewalk, the owner shall construct and maintain a plank driveway or such other temporary driveway as may be required by and with the approval of the Building Inspector, across and over the curb, tree lawns or sidewalk, so that the same shall not be injured or damaged.

Before the driveway is constructed, and at the time of securing a permit for the construction, enlargement, alteration, repair or removal of any building or other structure, the owner or his agent shall deposit with the Building Inspector the sum of three hundred dollars (\$300.00) in the case of a single or two-family dwelling house, the sum of five hundred dollars (\$500.00) in the case of a commercial or industrial building, and the sum of twenty-five dollars (\$25.00) per dwelling unit, but not more than five hundred dollars (\$500.00) per building, in the case of an apartment building of any kind, which sum shall be paid into the Treasury of the City, as a guarantee that the driveway will be constructed and maintained, and that all refuse, rubbish and material deposited or allowed to remain upon the site of such building or any other public or private real estate within the City in the course of such work, will be removed, and that if any curb, tree lawn or sidewalk, either at such building site or elsewhere within the City is disturbed or broken in the course of such work, they will be repaired at the cost and expense of the owner. Upon failure to perform any of the things so guaranteed to the satisfaction of the Building Inspector, the Building Inspector shall have such work performed and direct the Finance Director to pay the cost and expense thereof out of such fund so deposited, and in the event the sum so deposited shall not be sufficient to pay such cost and expense, the owner shall be liable to the City for any balance. In the event that, in the course of such construction, mud, dirt, waste materials, rubbish or other debris are deposited on any dedicated or undedicated street or other public property and are not removed therefrom, within two hours after written notice to remove the same has been given by the Division of Police to the permit holder, his contractor, subcontractor, agent or employee, then the City may cause such substances to be removed and the cost of such removal shall be deducted from such cash deposit.

In the event that during the course of construction the deductions made by the City from the cash deposit, by reason of repairing any damage or removal of any substance, bring the amount of the cash or deposit to less than the original deposit amount, then the Building Inspector may demand that the permit holder replenish the deficiency in the amount of the cash deposit so that it shall again be in the original amount. Upon failure of the permit holder to replenish the funds within two days after such demand in writing by the Building Inspector, the latter may revoke the permit and may stop construction until such time as the permit holder has complied with the demand.

In the event that the thing so guaranteed shall be performed to the reasonable approval of the Building Inspector, he shall deduct from the deposit a fee of twenty dollars (\$20.00) for the performance of the work required by this chapter and shall direct the Director of Finance to return the balance of the deposit to the owner, subject to the other provisions of this chapter. Any part of the deposit remaining after the completion by the Building Inspector as above provided of any of the things so guaranteed, shall be returned to the owner by the Finance Director upon written request of the Building Inspector.

All replacements of curb or sidewalk shall be of the same material, dimensions and quality as the originals and notice shall be given to the Building Inspector before such replacements are installed. The Building Inspector may order any replacements removed which do not comply with the requirements and have the proper replacements made at the expense of the owner. If the Building Inspector shall have reason to believe that the cost and expense of performing all of the things so guaranteed will not exceed fifty dollars (\$50.00), he may require that the deposit shall be fifty dollars (\$50.00) instead of the original amount hereinabove mentioned. If no such deposit is requested by the Building Inspector, he shall require such owner to deposit a fee of twenty dollars (\$20.00) for the purposes hereinabove set forth, with all of the requirements of this chapter.

On the completion of the work, the owner or his agent shall notify the Building Inspector to make an inspection of the premises to determine whether the deposit shall be refunded. The Building Inspector shall make such inspection promptly. If, due to the neglect of the owner, agent or contractor requesting the inspection, it becomes necessary to make more than one inspection before authorizing refund of the deposit, a fee of five dollars (\$5.00) shall be charged for each inspection after the first. The Finance Director shall make all proper deductions and refund any balances of any deposits or collect any deficiencies upon written report or request of the Building Inspector.

(Ord. 26-78. Passed 2-14-78.)

1329.02 CASH DEPOSIT FOR ADDITIONAL PROFESSIONAL SERVICES.

(a) In addition to any other fees or deposits required by other sections of these Codified Ordinances, the Building Commissioner or Director of Finance shall charge and collect a deposit in the amount of five hundred dollars (\$500.00) to reimburse the City for expenses incurred for additional or supplemental engineering, legal or other professional services rendered as a result of the application for a building permit, the review of preliminary and final site development plans, and/or a rezoning application.

(b) Charges for the professional services of the Engineer, Law Director and Regional Planning Commission shall be the rates set forth in their contracts with the City.

(c) In the event that the moneys deposited by an applicant as required in subsection (a) hereof are not sufficient to reimburse the City as provided in subsection (a), then the applicant shall be required to deposit additional moneys in series of five hundred dollars (\$500.00) as requested by the City.

(d) Any sums not so charged against such deposit as required in subsection (a) and (b) hereof shall be refunded to the applicant no later than sixty days from the completion of the construction, the granting or refusal of the special use permit, the approval of the preliminary and final site development plans or the granting or refusal of the rezoning application.
(Ord. 49-86. Passed 5-27-86.)

CHAPTER 1333

Removal of Debris

1333.01 Notice served to owner.

1333.02 Persons serving and returning notices.

1333.03 Failure to comply with notice.

1333.04 Dumpsters required on building lots during construction.

1333.99 Penalty.

CROSS REFERENCES

Power to collect and dispose - see Ohio R.C. 715.43, 717.01

Power to contract for removal - see Ohio R.C. 3707.43
Garbage and rubbish dumping - see GEN. OFF. 517.08 , S. & P.S. 951.02

1333.01 NOTICE SERVED TO OWNER.

Notwithstanding the penalty provided in Section 1333.99 when the Building Commissioner ascertains that debris, rubble, excess soil from excavations or other materials affecting the public health, safety and welfare are left to remain on any lots or lands within the City, he shall cause written notice to be served upon the owner, lessee, agent or tenant having charge of any lots or lands within the Municipality that such debris, rubble, soil or other materials dangerous to the public health, safety and welfare are situated on such lots or lands and that they must be removed within ten days after the service of the notice. If the owner or other person having charge of the lands is a nonresident whose address is known, the notice shall be sent to his address by registered mail. If the address of the owner is not known, it shall be sufficient to publish the notice once in a newspaper of general circulation in the Municipality.

(Ord. 50-90. Passed 5-10-90.)

1333.02 PERSONS SERVING AND RETURNING NOTICES.

Any police officer or other person designated by the Building Commissioner may make service and return of the notice provided for in Section 1333.01 .

(Ord. 50-90. Passed 5-10-90.)

1333.03 FAILURE TO COMPLY WITH NOTICE.

(a) If the owner, lessee, agent or tenant having charge of the lands mentioned in Section 1333.01 fails to comply with the notice, the Building Commissioner shall thereupon cause the debris, rubble, soil or other materials to be removed and he may employ the necessary labor to carry this out. The Building Commissioner shall report all the expenses to Council.

(b) Upon the receipt of the statement of expenses incurred, Council shall make written return to the County Auditor of Cuyahoga County of its action under the preceding sections hereof with a statement of the charges for their services, the amount paid for the performing of the labor and a proper description of the premises for the purpose of making the same a lien upon the lands and to be collected as other taxes and returned to the Municipality with the General Fund.

(Ord. 50-90. Passed 5-10-90.)

1333.04 DUMPSTERS REQUIRED ON BUILDING LOTS DURING CONSTRUCTION.

(a) On individual building lots, which are not in a new residential subdivision, it shall be the responsibility of the building contractor to provide a suitable dumpster or dumpsters to hold all debris, rubble, and other materials hazardous to the public health, welfare and safety for removal from all building lots during construction of the building from the start of construction until the construction is completed. Failure of the contractor to do so shall be considered a violation of this chapter.

(b) In new subdivisions which are under construction, it shall be the responsibility of the developer of the subdivision to provide sufficient dumpsters on the site, as approved by the Building Commissioner, for the use of the contractors building homes in the development, and to make appropriate arrangements for the cost and disposition of the dumpsters with the contractors.

(c) The Building Commissioner shall have the authority to approve other means to contain and dispose of building materials, rubble and debris, in lieu of dumpsters, if the intent and purpose of this section is satisfied.

(Ord. 71-91. Passed 6-11-91.)

1333.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree. Each day's violation shall constitute a separate offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1335

Contractor Registration, Procedure, Suspension and Revocation

1335.01 Contractor registration required.

1335.02 Owner-occupant exemption.

1335.03 Public utilities exemption. (Repealed)

1335.04 Qualification of applicants.

1335.05 Application and letters of reference.

1335.06 Evidence of insurance required.

1335.07 Expiration and renewal of registration.

1335.08 Contractor registration nontransferable.

1335.09 Contractor registration issuance.

1335.10 Contractor registration suspension by Building Commissioner.

1335.11 Suspension hearing, enforcement and appeal.

1335.12 Contractor registration revocation by Architectural Review Board.

1335.13 Revocation hearing, enforcement and appeal.

1335.99 Penalty.

CROSS REFERENCES

Power to license - see Ohio R.C. 715.27

1335.01 CONTRACTOR REGISTRATION REQUIRED.

(a) No person shall engage in, advertise for, submit bids on, contract for or represent himself as being in the general building, electrical, heating, ventilating, air conditioning, plumbing or fire equipment business or trade within the City of Richmond Heights without first obtaining a contractor registration herein.
(General building shall include, but not be limited to, concrete, asphalt, masonry, excavator, lot clearing, trenching, carpentry, drywall, roofing, siding and landscaping contractors.)

(b) No person shall commence, complete or substantially complete, the erection, construction, alteration or repair of a building or structure without first obtaining a contractor registration.

(c) Any contract made or bid submitted by any person not licensed as required herein shall be null and void and no action may be maintained and no compensation or other consideration shall be paid thereon.

(d) No person shall engage in the business or trade of servicing any fire protective equipment or other equipment pertaining to life or fire safety without first obtaining a contractor registration. "Other equipment" includes cooking exhaust systems.

(Ord. 119-96. Passed 12-10-96.)

1335.02 OWNER-OCCUPANT EXEMPTION.

(a) No license shall be required for a bona fide owner and occupant of a single- family dwelling who personally or with casual assistance performs work upon the premises occupied or to be occupied by the owner.

(b) The owner shall furnish a signed affidavit stating he is the owner and occupant of the single-family dwelling and shall personally perform the work upon the premises for which a permit is required.

(c) "Casual assistance", as used herein, means any work, aid or direction that is not of a technical nature.

(d) All work performed by an owner shall be done in compliance with the provisions of the Building Code and the laws of the State of Ohio.

(e) All work performed by an owner shall be pursuant to a permit issued as provided in Chapter 1325 .

(Ord. 27-95. Passed 3-14-95.)

1335.03 PUBLIC UTILITIES EXEMPTION.

EDITOR'S NOTE: Former Section 1335.03 was repealed by Ordinance 130-2007.

1335.04 QUALIFICATION OF APPLICANTS.

(a) Contractor registrations shall be provided only to applicants at least eighteen years of age.

(b) Applicants who wish to register as electrical, heating, ventilating and air conditioning and plumbing contractors shall submit a copy of a Certificate as issued by the State of Ohio, Department of Industrial Relations, Construction Industry Examining Board to perform work as an electrical, heating, ventilating and air conditioning and plumbing contractor. Applicants who wish to register as a fire suppression system or fire detection system contractor shall submit a copy of the Certificate as issued by the State of Ohio, Department of Commerce, Division of State Fire Marshal, to perform work as a fire suppression system or fire detection system contractor.

(c) Applicants who wish to be registered as a general building contractor performing general building work shall submit a copy of a license from a City or County issuing such licenses.

(d) Applicants shall be of good moral character. Factors to be considered in determining good moral character are the history of compliance or violation of this or other building codes, criminal convictions, and dishonest practices in the conduct of a business, trade or profession.

(Ord. 119-96. Passed 12-10-96.)

1335.05 APPLICATION AND LETTERS OF REFERENCE.

The Building Department shall prepare and furnish to an applicant forms on which the application shall be made. The application shall be accompanied by at least three letters of reference from persons who are acquainted with the applicant's experience or training in the business or trade in which he seeks to be registered. The letters shall be from contractors registered in the trade in which the application is being made, inspectors in the trade in which the application is being made or from registered architects or engineers in that field. All letters shall be on original letterhead.

(Ord. 27-95. Passed 3-14-95.)

1335.06 EVIDENCE OF INSURANCE REQUIRED.

Each applicant for a contractor registration shall furnish a Certificate of Issuance for bodily injury in the amount of one hundred thousand dollars (\$100,000), three hundred thousand dollars (\$300,000) and for property damage in the amount of fifty thousand dollars (\$50,000). The City of Richmond Heights shall be listed as Additionally Insured on the Certificate.

(Ord. 27-95. Passed 3-14-95.)

1335.07 EXPIRATION AND RENEWAL OF REGISTRATION.

All contractor registrations shall expire at 12:00 midnight, December 31 of each year, and no permits shall be granted until the license has been secured for the ensuing year. Renewals may be made for the ensuing year upon payment of a fee and completion of applications and submission of Certificate of Insurance if not renewed on or before December 31 of each year.

(Ord. 27-95. Passed 3-14-95.)

1335.08 CONTRACTOR REGISTRATION NON-TRANSFERABLE.

Contractor registrations are not transferable and may not be altered, erased, defaced or reproduced.

(Ord. 27-95. Passed 3-14-95.)

1335.09 CONTRACTOR REGISTRATION ISSUANCE.

Contractor registrations shall be issued by the Building Commissioner upon approval of the application and payment of all fees.

(Ord. 27-95. Passed 3-14-95.)

1335.10 CONTRACTOR REGISTRATION SUSPENSION BY BUILDING COMMISSIONER.

The Building Commissioner may suspend, for a specified period of time not to exceed six months, any license or the renewal of any license for good cause including, but not limited to, the following:

- (a) Misrepresentation of a material fact in obtaining a license or the renewal thereof.
- (b) Use of a license in obtaining a permit for another.
- (c) Failure to secure the permits, inspections or approvals required by this Building Code.
- (d) Workmanship or work not in conformity with the permit issued thereof.
- (e) Conviction of a felony by the licensee, provided suspension is deemed necessary in the public interest.
- (f) Violation of any provision of this Building Code.
- (g) Dishonest or unfair practices in the conduct of a business or practice of a trade.
- (h) Consumer fraud violations.

(Ord. 27-95. Passed 3-14-95.)

1335.11 SUSPENSION HEARING, ENFORCEMENT AND APPEAL.

- (a) No license shall be suspended without notice and opportunity for hearing by the registrant. The Building Commissioner shall conduct the hearing.
- (b) Whenever a license is suspended, the Building Commissioner shall enforce suspension by notification by certified mail sent to the registrant who shall surrender the license to the Building Commissioner for the duration of the suspension period.
- (c) Whenever a license is suspended, no work shall be performed by the registrant authorized by the license except work necessary to correct a violation of the Building Code specified in the notice of suspension. Corrections shall be made within three working days of the effective date of suspension. Any suspension may be continued until all corrections have been made.

(Ord. 27-95. Passed 3-14-95.)

1335.12 CONTRACTOR REGISTRATION REVOCATION BY ARCHITECTURAL REVIEW BOARD.

The Architectural Review Board may revoke a license for good cause including, but not limited to, the following:

- (a) Misrepresentation of a material fact in obtaining a license or the renewal thereof.
- (b) Use of a license in obtaining a permit for another.
- (c) Failure to secure the permits, inspections or approvals required by this Building Code.
- (d) Workmanship or work in conformity with the permit issued therefor.
- (e) Conviction of a felony by the licensee, provided revocation is deemed necessary in the public interest.
- (f) Suspension of a license three times within a five-year period.
- (g) Dishonest or unfair practices in the conduct of a business or practice of a trade.
- (h) Consumer fraud violations.

(Ord. 27-95. Passed 3-14-95.)

1335.13 REVOCATION HEARING, ENFORCEMENT AND APPEAL.

- (a) No contractor registration shall be revoked without notice and public hearing before the Architectural Review Board. The licensee may appear with or without counsel. The Architectural Review Board may revoke only for good cause upon a preponderance of the evidence.
- (b) Whenever a contractor registration is revoked, the Building Commissioner shall enforce the revocation by notification by certified mail to the licensee who shall surrender the license to the Building Commissioner immediately. Any person whose license has been revoked may not reapply for a contractor registration until three years after the date of revocation.

(Ord. 27-95. Passed 3-14-95.)

1335.99 PENALTY.

Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree. Each day a violation continues or occurs shall constitute a separate offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1341

Swimming Pools and Spas

1341.01 Definitions.

1341.02 Approval.

1341.03 Permit fees.

1341.04 Plans for family swimming pools.

1341.05 Design and construction requirements.

1341.99 Penalty; offenses.

CROSS REFERENCES

Electrical and barbed wire fences - see GEN. OFF. 517.07

Peace disturbance - see GEN. OFF. 509.02

1341.01 DEFINITIONS.

The following definitions shall apply to this chapter.

- (a) "Family swimming pool" means an artificial body of water either above ground or in ground with a controlled water supply, over twenty four (24) inches in depth on a lot used for the purpose of a one family dwelling located in a R-1 or R-2 Single Family District, R-3 Planned Development District or used within legal non- conformity as a single family dwelling located upon a single lot in any other district, for use by the owner, occupants, family members and friends without payment of a fee for use. This shall include hot tubs and spas and other like bodies of water.
- (b) "Public and private swimming pool" means an artificial body of water either above ground or in ground with a controlled water supply, over twenty four (24) inches in depth used by persons as part of a membership, through a club or association, including homeowners and like associations or within RMF-1 Multiple Family District, Low Rise and RMF-2 Multiple Family District, High Rise. This shall include hot tubs and spas and other like bodies of water.
- (c) "Building Commissioner" shall mean the Commissioner of Building, Housing and Zoning of the City of Richmond Heights or his authorized representatives.

(Ord. 29-2007. Passed 5-8-07.)

1341.02 APPROVAL.

- (a) Before work is commenced on the construction of a family, private or public swimming pool, or on any alteration, addition, remodeling or other improvement thereto, an application for a permit to construct and the plans and specifications and any pertinent explanatory data hereinafter required shall be submitted to the Building Commissioner for review and approval.
- (b) Public and private swimming pools are subject to site plan review by the Planning Commission and City Council. Permitted use requirements as set forth in the Zoning Code for the zoning district shall apply.

(Ord. 29-2007. Passed 5-8-07.)

1341.03 PERMIT FEES.

The fee for a permit to construct a swimming pool shall be as provided in Section 1325.02.

(Ord. 29-2007. Passed 5-8-07.)

1341.04 PLANS FOR FAMILY SWIMMING POOLS.

Plans and specifications required to be submitted in connection with an application for a permit to construct a swimming pool or any alteration, addition, remodeling or other improvements thereto shall comply with the following requirements, and shall include the following information, as well as such other data as may be requested by the Building Commissioner.

- (a) Family swimming pools.
 - (1) A site plan identifying the size and location of the swimming pool on the lot and setbacks to property lines and structures on the same lot.
 - (2) A written narrative identifying materials and method of construction including electrical installations.
 - (3) The type, design and location of the enclosing fence or barrier.
 - (4) The Building Commissioner may require an engineered site plan in cases that modify the topography.
- (b) Public and private swimming pools.
 - (1) A site plan prepared in conformity with Section 1123.07(q).
 - (2) Construction documents prepared and certified by an Ohio registered architect or engineer.

(Ord. 29-2007. Passed 5-8-07.)

1341.05 DESIGN AND CONSTRUCTION REQUIREMENTS.

(a) Family swimming pools shall be constructed and maintained in conformity with the following requirements:

- (1) Location: A family swimming pool and its appurtenances such as a deck or landing, pump, filter, etc., shall be constructed in the rear yard and located no closer than ten (10) feet to any side or rear property line, and no closer than ten (10) feet to the dwelling area on the same lot and no closer than twenty (20) feet to a dwelling area on an adjacent lot.
 - (2) Enclosures: Family swimming pools, hot tubs and spas, containing water more than twenty-four (24) inches (610 mm) in depth shall be completely surrounded by a fence or barrier at least forty-eight (48) inches (1219 mm) in height above the finished ground level measured on the side of the barrier away from the pool. Gates and doors in such barriers shall be self- closing and self-latching. Where the self-latching device is less than fifty- four (54) inches (1372 mm) above the bottom of the gate, the release mechanism shall be located on the pool side of the gate. Self-closing and self latching gates shall be maintained such that the gate will positively close and latch when released from an open position of six (6) inches (152 mm) from the gatepost. A cover for a hot tub or spa that can be locked in the closed position shall be considered an adequate safety barrier. Family swimming pools entered by a portable ladder or a fixed ladder shall have such ladders removed or locked in an inaccessible position while not in use.
- (b) Public and private swimming pools shall be constructed and maintained in conformity with the following requirements:
- (1) Location:
 - a. A private swimming pool and its appurtenances such as a deck or landing, pump, filter, etc., shall be constructed in the rear yard and located no closer than fifty (50) feet to any side or rear property line when adjacent to a single family residential district; and no closer than twenty-five (25) feet to any side or rear property line when adjacent to other zoning districts.
 - b. A public swimming pool and its appurtenances such as a deck or landing, pump, filter, etc., shall be constructed behind the building setback line as established for the district and located no closer than fifty (50) feet to any side or rear property line when adjacent to a single family residential district; and no closer than twenty-five (25) feet to any side or rear property line when adjacent to other zoning districts.
 - (2) Enclosures: Public and private swimming pools, hot tubs and spas, containing water more than twenty-four (24) inches (610 mm) in depth shall be completely surrounded by a fence or barrier at least forty-eight (48) inches (1219 mm) in height above the finished ground level measured on the side of the barrier away from the pool. Gates and doors in such barriers shall be self-closing and self-latching. Where the self-latching is less than fifty-four (54) inches (1372 mm) above the bottom of the gate, the release mechanism shall be located on the pool side of the gate. Self-closing and self-latching gates shall be maintained such that the gate will positively close and latch when released from an open position of six (6) inches (152 mm) from the gatepost.

- (3) **Screening.** Public and private swimming pools shall be provided with screening in the form of a solid unpierced masonry wall or a landscaped buffer, to provide users privacy and to protect adjacent properties from any adverse effects resulting from the use of a public or private swimming pool. Such screening shall be reviewed by the Planning Commission. In the event that the screening is comprised of landscaping, a plan prepared and certified by an Ohio Registered Landscape Architect shall be submitted for review by the City's Landscape Architect and the Planning Commission.
- (Ord. 29-2007. Passed 5-8-07.)

1341.99 PENALTY; OFFENSES.

Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree, and every day of violation shall be considered as a separate offense.

(Ord. 29-2007. Passed 5-8-07.)

CHAPTER 1345

Trailers

1345.01 Definition.

1345.02 Permit required; prohibition.

1345.03 Permit fee; time limit.

1345.99 Penalty.

CROSS REFERENCES

Defined - see Ohio R. C. 4501.01(I), (K)
State license plate fee - see Ohio R. C. 4503.04(c)
Tax levy on house trailers - see Ohio R. C. 4503.06 et seq.

1345.01 DEFINITION.

"Trailer", as used in this chapter, means a trailer, house car, camp car or any vehicle or structure mounted on wheels or capable of being propelled from place to place, either by its own power or power supplied by some vehicle attached thereto, and being used for living and sleeping quarters.

(Ord. 30-61. Passed 11-21-61.)

1345.02 PERMIT REQUIRED; PROHIBITION.

- (a) No person shall park, place, keep or live in a trailer in any residential district in the City for a period exceeding twenty-four hours unless a permit therefor is obtained from the Chief of Police.
- (b) No person shall park, place, keep or live in a trailer in any zoning district of the City other than a residential district, except as hereinafter set forth. The prohibition contained herein shall not apply to a person parking a trailer upon a duly designated parking lot for a business concern or establishment during regular business hours, for the purpose of permitting the operator or occupants of such trailer to transact business at such establishment. No such trailer shall remain so parked for a period of time in excess of thirty minutes prior to the opening of the business establishment or after the closing of the business establishment.
- (c) Notwithstanding subsection (b) hereof, Council may authorize the parking of trailers for bona fide business purposes on commercially zoned property under such conditions and for such length of time as Council determines is not detrimental to the public health, safety or welfare.

(Ord. 22-77. Passed 3-8-77.)

1345.03 PERMIT FEE; TIME LIMIT.

The fee for the permit shall be one dollar (\$1.00) per day and no permit shall be issued for a period exceeding three days.

(Ord. 30-61. Passed 11-21-61.)

1345.99 PENALTY.

Whoever violates any provision of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1347

Regulation of Dish-Type, Satellite Signal-Receiving Earth Stations

1347.01 Definition.

1347.02 Permit required.

1347.03 Application for permit; plans.

1347.04 Location of satellite dish "earth station".

1347.05 "Earth station" support structures.

1347.06 Size.

1347.07 Height.

1347.08 Aesthetics.

1347.09 Appeal from decision of Building Commissioner.

1347.10 Permit fee.

1347.99 Penalty.

CROSS REFERENCES

Unauthorized cable television connection - see Ohio R. C. 4933.42

1347.01 DEFINITION.

"Earth station", for the purposes of this chapter, means a dish-type satellite signal- receiving earth station designed and intended for the reception of television signals transmitted to earth from a satellite.

(Ord. 82-84. Passed 10-23-84.)

1347.02 PERMIT REQUIRED.

No person, firm or corporation shall erect a satellite dish "earth station" in the City without first obtaining a permit to do so, and no installation or erection shall commence before a permit is issued in accordance with Section 1347.03 .

(Ord. 82-84. Passed 10-23-84.)

1347.03 APPLICATION FOR PERMIT; PLANS.

(a) The owner of any lot, premises or parcel of land within the Municipality who desires to construct or erect a satellite dish "earth station" at such location shall apply to the Building Commissioner for the permit referred to in Section 1347.02 . An application for any permit submitted by any part-owner, occupant or renter shall be accompanied with a signed written consent of the owner of the property upon which the earth station is to be located.

(b) The Building Commissioner shall issue such permit, provided the applicant submits a written application upon forms provided by the Building Department along with a plot plan of the lot, premises or parcel of land, showing the exact location of the proposed "earth station" and the location of all buildings on the subject lot; a description of the kind of "earth station" dish proposed; and three complete sets of construction plans, specifications and elevations of the proposed location with sufficient details to show the method of assembly and construction. Each set of plans and specifications shall show the complete name and address of the subject property owner and the complete name and address of the person who prepared the plans and specifications. The application shall indicate the owner or owners of subject property, the occupant of subject premises and the contractor or other person who will be permitted to construct or erect the proposed satellite dish "earth station" and who shall be a construction contractor pursuant to the regulations of the City.

(Ord. 82-84. Passed 10-23-84.)

1347.04 LOCATION OF SATELLITE DISH "EARTH STATION".

- (a) No "earth station" shall be erected in any front or side yard or within twenty feet of any lot line.
- (b) No "earth station" shall be erected on the roof top of any residential building.
- (c) No "earth station" shall be linked to receivers which are not located on the same lot or premises as the "earth station" in any R-1, R-2 and R-3 zoning districts.

(Ord. 82-84. Passed 10-23-84.)

1347.05 "EARTH STATION" SUPPORT STRUCTURES.

- (a) Only metal support, galvanized construction, or equal thereto, shall be allowed.
- (b) Only a concrete base or caissons, depending on soil conditions, shall be employed in line with grade.
- (c) The structure shall be designed to withstand wind force of up to eight-five miles per hour in a manner conforming with good engineering practices.
- (d) Any driving motor shall be limited to 110V maximum power design and shall be encased in protective guards.
- (e) All underground electrical wiring must be encased in rigid conduit with eighteen inch cover. Any overhead wiring must also meet the approval of the Electrical Inspector.
- (f) The "earth station" must be bonded to an eight-foot grounding rod.
- (g) If guy lines are to be used, they must be confined within a screened area.
- (h) Plans must meet all engineering practices and conform to the Building Code of the City.

(Ord. 82-84. Passed 10-23-84.)

1347.06 SIZE.

- (a) The maximum diameter of any "earth station" shall not exceed twelve feet in any R-1, R-2 and R-3 zoning district.
- (b) The maximum diameter of any "earth station" in any commercial, industrial or business district or for use in connection with schools, church building, hospital, apartment building or multiple unit dwelling complex shall not exceed five meters.

(Ord. 82-84. Passed 10-23-84.)

1347.07 HEIGHT.

The maximum height of any "earth station" structure shall not exceed fifteen feet from natural grade level in any R-1, R-2 or R-3 zoning district and shall not exceed twenty-three feet in any other zoning district.

(Ord. 82-84. Passed 10-23-84.)

1347.08 AESTHETICS.

- (a) Vision-impairing screening, a minimum of five feet in height, shall be erected around the base of the structure so as to protect the safety, welfare and rights of all property owners. The location and type of screening shall first be approved by the Architectural Board of Review prior to the issuance of any permit by the Building Commissioner.
- (b) No lettering, numerals, symbols, pictorial signs or designs shall be permitted on any surface of the earth station.

(Ord. 82-84. Passed 10-23-84.)

1347.09 APPEAL FROM DECISION OF BUILDING COMMISSIONER.

Appeals from the decisions of the Building Commissioner may be made to the Board of Zoning Appeals, in conformity with Section 1185.04 of the Planning and Zoning Code.

(Ord. 82-84. Passed 10-23-84.)

1347.10 PERMIT FEE.

The fee for a satellite dish "earth station" is hereby established at thirty-five dollars (\$35.00) and shall be paid at the time the application for a permit is filed.

(Ord. 82-84. Passed 10-23-84.)

1347.99 PENALTY.

Whoever violates or fails to comply with any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1349

Demolition of Structures

1349.01 Removal of structures; remediation.

1349.02 Grading and landscaping.

CROSS REFERENCES

Removal of debris - see BLDG. Ch. 1333

1349.01 REMOVAL OF STRUCTURES; REMEDIATION.

On any property on which the principal structure or all dwelling units have been (i) fully demolished, raised or otherwise removed from the premises or (ii) partially demolished, raised or otherwise removed so that occupancy is not permitted under the City Building Code or other applicable regulations, the contractor or property owner shall do the following, unless a permit or application for a permit for redevelopment of the property has been obtained or is pending with the City:

- Remove all lumber, rubble, and other building or structural material and debris from the premises and deposit the same in a manner that does not violate any local, state or federal rules or regulations;
- Remove all foundations, slabs, concrete, paving, patios, and other impervious surfaces from the premises, except that all public sidewalks shall remain. If public sidewalks have been damaged during demolition of the structures, the sidewalks shall be repaired or replaced to the satisfaction of the Building Commissioner;
- Fill all basements, trenches and other depressions to grade with clean fill material as approved by the Building Commissioner; and
- Completely remove or demolish all structures on the premises, including, but not limited to, garages, sheds, and all accessory buildings.

(Ord. 99-2012. Passed 12-11-12.)

1349.02 GRADING AND LANDSCAPING.

Any property on which the principal structure or all dwelling units have been demolished, raised or otherwise removed from the premises shall be appropriately landscaped, unless a permit or application for a permit for redevelopment of the property has been obtained or is pending with the City. For purposes of this Section 1349.02, "appropriately landscaped" shall consist of the following, as approved by the Building Commissioner: grading sufficient to prevent water run-off onto adjacent properties and rights-of-way, the placement of two inches of topsoil on all disturbed areas, and grass. All such grading shall be completed within seven (7) days of completion of the demolition, raising or removal of the principal structure or dwelling. All such landscaping shall be completed within thirty (30) days of completion of the demolition, raising or removal of the principal structure or dwelling, except that if such completion of the demolition, raising or removal of the principal structure or dwelling occurs between November 1 and March 30, the landscaping shall be completed by the immediately following April 30.

(Ord. 99-2012. Passed 12-11-12.)

CHAPTER 1351

Multiple-Family Residential Exterior Doors

1351.01 Exterior door requirements for multiple-family residential buildings.

1351.99 Penalty.

1351.01 EXTERIOR DOOR REQUIREMENTS FOR MULTIPLE-FAMILY RESIDENTIAL BUILDINGS.

All exterior entry and exit doors in a multiple-family residential building shall be subject to the following requirements:

- Exterior entry and exit doors shall be self-closing and self-locking.
- Exterior entry and exit doors shall be capable of being opened from the inside without the use of a key, and without special knowledge or effort.
- Exterior entry and exit doors shall comply with Chapter 1301 and Chapter 1501 of these Codified Ordinances.
- All locks on exterior entry and exit doors, all self-locking and self-closing exterior entry and exit doors, and all electromagnetic and electrical control systems, such as buzzers, bells or intercom systems, shall be maintained in good and operable condition at all times.
- Exterior entry and exit doors shall not be held in an open or unclosed position at any time.
- An entry or exit door of an individual dwelling unit is not subject to this chapter.

(Ord. 32-2018. Passed 3-27-18.)

1351.99 PENALTY.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree. Each day's violation shall constitute a separate offense.

(Ord. 32-2018. Passed 3-27-18.)

CHAPTER 1353

Outdoor Lighting

1353.01 Intent and purpose.

1353.02 Exemptions.

1353.03 Definitions.

1353.04 Outdoor lighting general design requirements.

1353.05 Illumination levels and height restrictions.

1353.06 Nonconformities.

1353.07 Approvals.

1353.08 Maintenance, continuance and removal.

1353.01 INTENT AND PURPOSE.

(a) Outdoor lighting shall be designed to be energy efficient, provide the minimum lighting necessary to ensure adequate safety, night vision, and comfort, and shall not create or cause excessive glare on adjacent properties and public street rights of way.

(b) Parcels nonresidential business and multi-family residential buildings, including outparcels, shall be required to provide safe, convenient, and efficient outdoor lighting for pedestrians and vehicles. Lighting shall be designed in a consistent and coordinated manner for the entire site. The lighting and lighting fixtures shall be integrated and designed so as to enhance the visual impact of the developed property on the community and/or should be designed to blend into the surrounding landscape. Lighting design and installation shall ensure that lighting accomplishes on-site lighting needs without intrusion on adjoining properties or shining directly into the public right-of-way. (Ord. 128-2022. Passed 10-25-22.)

1353.02 EXEMPTIONS.

(a) The following activities are exempt from the requirements of this chapter: temporary outdoor lights used exclusively for temporary events, such as evening recreational activities, concerts, plays or other outdoor events that are open to the public for a limited period of time, provided that the event or function meets all other applicable Municipal code requirements. Such lighting shall be located at least fifty (50) feet from any adjoining residential district or use and designed to the maximum extent possible to avoid intrusion on adjoining property.

(b) Outdoor lighting that is exempt from this chapter as set forth in this section shall only be illuminated while the activity takes place and during high traffic periods immediately before and after the event. (Ord. 128-2022. Passed 10-25-22.)

1353.03 DEFINITIONS.

(a) **ARCHITECTURAL LIGHTING:** Luminaires provided to enhance features of the architectural design of a structure.

(b) **FIXTURE:** The assembly that houses the lamp or lamps; and can include all, or some of the following parts: a housing, a mounting bracket or pole socket, a lamp holder, a ballast, a reflector, or mirror, and/or a refractor or lens.

(c) **FOOT-CANDLES (fc):** A quantitative unit measuring the amount of light (illumination) falling onto a given point, one footcandle equals one lumen per square foot.

(d) **GLARE:** The effect produced by a light source within the visual field that is sufficiently brighter than the level to which the eyes are adapted, to cause annoyance, discomfort, or loss of visual performance and ability.

(e) **HEIGHT OF LUMINAIRE:** The height of a luminaire shall be the vertical distance from the ground directly below the centerline of the luminaire to the lowest direct light emitting part of the luminaire.

(f) **HIGH LEVEL ACTIVITY PARKING LOTS:** These are parking lots in which most of the parking spaces will be occupied by customer vehicles after 6:00 p.m.

(g) **LAMP:** The component of a luminaire that produces the actual light.

(h) **LOW ACTIVITY LEVEL PARKING LOTS:** These are parking lots in which most of the parking spaces will be occupied by employee vehicles, with very few parking spaces occupied by customer vehicles after 6:00 p.m.

(i) **LUMEN:** A quantitative unit used to identify the amount of light emitted by a light source. A lamp is generally rated in lumens.

(j) **LUMINAIRE:** A complete lighting system and includes a lamp or lamps and a fixture.

(k) **MAINTAINED FOOT-CANDLES:** Illuminance of lighting fixtures adjusted for a maintenance factor accounting for dirt buildup and lamp output depreciation. The maintenance factor used in the design process to account for this depreciation cannot be lower than 0.72 for high pressure sodium and 0.64 for metal halide and mercury vapor.

(l) **MEDIUM ACTIVITY LEVEL PARKING LOTS:** These are parking lots in which most of the parking spaces will be occupied by employee vehicles, but with significant parking spaces occupied by customer vehicles after 6:00 p.m.

(m) **OUTDOOR LIGHTING:** The nighttime illumination of an outside area or object by any manmade device located outdoors that produces light by any means.

(Ord. 128-2022. Passed 10-25-22.)

1353.04 OUTDOOR LIGHTING GENERAL DESIGN REQUIREMENTS.

(a) Lighting shall be used to provide safety while accenting key architectural elements and to emphasize landscape features. Light fixtures shall be designed as an integral design element that complements the design of the building and shall be reviewed by the Architectural Board of Review of the Municipality for approval. This can be accomplished through style, material, and/or color. All lighting fixtures designed or placed so as to illuminate any portion of a site shall meet the following requirements:

- Fixture (luminaire):**
 - The light source shall be completely concealed behind an opaque surface and recessed within an opaque housing and shall not be visible from or shine at eye level into any street right-of-way or adjoining properties. Overhead lighting fixtures shall be designed to prevent light from emitting upwards towards the sky.
 - Under canopy lighting fixtures should be completely recessed within the canopy.
- Fixture heights shall be as Listed in Table 1353.1
- Light source (lamp):**
 - LED, fluorescent, metal halide or color corrected high-pressure sodium are preferred. The Municipality's Division of Building, Zoning and Housing or its Architectural Board of Review shall have the authority to approve other lamp types (including light emitting diodes (LEDs) and fiber optics) provided the color emitted is similar to the preferred types. Non-color corrected high pressure sodium lamps are prohibited.
 - The same light source type should be used for the same or similar types of lighting on any one site throughout any development.
- Glare:** Lamps shall be directed, shaded, shielded, or otherwise located to minimize perceived glare on adjacent properties or streets. Accordingly, canopy lighting with refractive drop lenses, tilting fixtures,

floodlights, and wall mounted nonhorizontal fixtures (commonly referred to as wall packs) are specifically prohibited.

- (5) **Controls:** Outdoor Lighting for nonresidential business and multi-family residential properties shall have centralized lighting control systems utilizing time clocks, motion sensors, daylight harvesting controls, and other control system components to manage Outdoor Lighting system wide.
- (6) **Scope:** Outdoor Lighting shall be designed to enhance public safety and security. Accordingly, comprehensive lighting designs are required for every building use type, except non-rental residential uses.
- (7) **Limit Lighting to Periods of Activity:** The use of sensor technologies, timers, or other means to activate lighting during times when it will be needed may be required by the Municipality's Division of Building, Zoning and Housing to conserve energy, provide safety, and promote compatibility between different land uses.
- (8) If existing exterior lighting fixtures are modified, extended, expanded, or added to, the altered portion shall comply with this chapter.
- (9) Expansions, additions, or replacements to exterior lighting installations shall be designed to avoid harsh contrasts in color and/or lighting levels.
- (b) **Examples of Lighting Fixtures.**

- (1) The following images reflect acceptable and unacceptable light fixtures:

(Ord. 128-2022. Passed 10-25-22.)

1353.05 ILLUMINATION LEVELS AND HEIGHT RESTRICTIONS.

- (a) All site lighting shall be designed so that the level of illumination as measured in footcandles (fc) at any one point meets the standards in the table below with minimum and maximum levels measured on the pavement within the lighted area and average level (the overall generalized ambient light level), measured as a not-to-exceed value calculated using only the area of the site intended to receive illumination.

LIGHT LEVEL TABLE 1353.1 (Units in Footcandles)

Type of Lighting	Min.	Avg.	Max.	UNIFORMITY RATIO	Max Height to Light Source
Architectural/Decorative Lighting	0.0	1.0	5.0		
Canopy area lighting	2.0	10.0	15.0		Recessed in canopy
Multi-family parking lot	0.2	1.0	8.0		
Low Activity Parking Lots	0.5		2.0	6:1	25
Medium Activity Parking Lots	1.5		3.0	6:1	25
High Activity Parking Lots	2.5		4.0	4:1	25
Storage area (security lighting)	.02	1.0	10.0		
Non-residential & Multi-family Entrances & Exit Discharges	1.0	5.0	15.0		
Dumpster Enclosures	1.0	5.0	10.0		
Bikeways or parks	0.3	0.4	0.5		12
Landscape	.02	0.8	5.0		ABR Review Required
Public Walkways	1.5	2.0	3.0		ABR Review Required

- (b) **Exception for Gasoline Service Station Canopies:** The average illumination on the pavement area under the canopy and around the fuel pumps shall be between thirty-five (35) and seventy (70) footcandles. The remainder of the gasoline service station pavement shall meet the requirements for high activity level parking lots.

- (c) **Exception for Bank and Credit Union Canopies:** The average illumination on the pavement area under the drive-up canopy and around automated teller machines must meet federal regulations. The remainder of the bank and credit union parking lot pavement shall meet the requirements for high activity level parking lots.

- (d) Architectural lighting shall be permitted as long as it is ground mounted near the building, utilizes seventy (70) watt or smaller lamps, and is approved by the Municipality's Division of Building, Zoning and Housing or its Architectural Board of Review.

- (e) **Lighting at Site Perimeter:**

- (1) The maximum level of illumination at the outer perimeter of the site or project is intended to be 0.2 footcandles or less, but in no instance greater than 0.5 footcandles when abutting a residential zoning district; and 0.5 footcandles or less, but in no instance greater than 1.0 footcandles when abutting all other districts or streets.
- (2) All light fixtures located within fifty (50) feet of any residential use or residential property boundary (excluding multifamily residential uses or properties zoned for multifamily use) shall not exceed fifteen (15) feet in height and shall be mounted in such a manner that the cone of light is contained on-site and does not cross any property line of the site.

- (f) **Parking Lots:**

- (1) All luminaires shall be cut-off luminaires as defined by the latest edition of the Illumination Engineering Society of North America (IESNA Handbook).
- (2) If the design is of a period or architectural style within the overall design of the project, as determined by the Architectural Board of Review, alternatives or supplements to the lighting may be used, provided that:
- A. If the alternatives or supplements to the lighting is not "cut-off" luminaires as defined by IESNA, the maximum initial lumens generated by each fixture shall not exceed two thousand (2,000).
- B. Mounting heights of such alternative luminaires shall not exceed fifteen (15) feet above grade.
- C. All luminaires of a period or architectural style shall be approved by the Architectural Board of Review Board.

- (g) **Walkways, Bikeways, and Parks:**

- (1) Walkways and bikeways shall be illuminated to enhance security in their use.
- (2) Lighting fixtures shall be designed to direct light downward, and light sources shall have an initial output of no more than one thousand (1,000) lumens.

- (h) Garbage dumpsters and recycling bins must have a dedicated light source that are illuminated at levels for walkways.

- (i) **Landscape Lighting:** Trees and shrubs shall not interfere with the distribution of pathway and transitional lighting.

(Ord. 128-2022. Passed 10-25-22.)

1353.06 NONCONFORMITIES.

- (a) All luminaires lawfully in place prior to the effective date of this chapter shall be permitted to remain, provided they are maintained in a manner required by the Municipality's ordinances. However, at the time that a nonconforming fixture is replaced, moved, upgraded, or otherwise changed, the fixture must be brought into compliance with the requirements of this chapter. Any expansion of, or addition to, an existing lighting system must conform to the requirements of this chapter.

- (b) All Luminaires shall be changed if other site-related improvements are proposed on the property which require a building permit.

- (c) Nonconforming luminaires that direct light toward streets or parking lots that cause glare which disrupts the vision of motorists or cyclists shall be either shielded or redirected within one hundred twenty (120) days of notification thereof by the Municipality's Division of Building, Zoning and Housing, so that the luminaires do not cause a potential hazard to motorists or cyclists.

- (d) Luminaire repairs do not trigger the compliance requirements of this chapter, meaning lighting can be maintained or repaired without needing to be updated to the latest standards. Replacing lamps and ballasts in an existing outdoor luminaire or keeping the luminaire housing but adding a lower energy consuming LED retrofit kit is considered a "repair". Repairs do not include wiring alterations or increase in the energy consumption of the component, system or equipment being repaired. Changing wiring or replacing components of a system (such as an entire cobrahead or shoebox luminaire) or similar equipment that is beyond ten percent (10%) of the existing system or equipment is considered an "alteration" and not a "repair".

- (e) Correlated Color Temperature (CCT) shall be applied in a coordinated manner and limited to the range of 2500K to 6000K. Other colored light sources are prohibited except for artistic displays and illuminated signs approved by the Municipality's Division of Building, Zoning and Housing.

- (f) The Color Rendering Index (CRI) shall be minimum of fifty (50) for roadway and street lighting, and sixty-five (65) for parking and area lighting.

(Ord. 128-2022. Passed 10-25-22.)

1353.07 APPROVALS.

- (a) Land uses required herein to provide six (6) or more parking spaces, or one (1) or more loading spaces, shall provide lighting facilities to illuminate all parking spaces, aisles and loading spaces in accordance with the Light Level Table 1353.1 herein and the following requirements:

- (1) **Photometric Plan:** Site plans for off street parking facilities shall be submitted to Municipality's Division of Building, Zoning and Housing for approval and shall contain a photometric plan. The photometric plan shall include all the following information:

- A. Identification of all proposed light fixtures, including those used for site lighting, canopy lighting and exterior building lighting.
- B. Identification of all proposed control equipment, conduit, and wiring, including material, size, and location.
- C. Photometric calculations, showing a grid of individual illumination values as well as a summary of the maximum, minimum and average illumination of the pavement surface in footcandles.
- D. Construction details of the pole, pole foundation, electrical trench with warning tape and pole handhole wiring.
- E. Catalog cut sheets for the proposed light poles, fixtures, and any exterior control equipment.
- (2) **Outdoor Lighting Audit:** For building additions or major renovation projects, in addition to the Photometric Plan, building owners shall submit an Outdoor Lighting Audit of existing lighting systems to the Municipality's Division of Building, Zoning and Housing for approval. The Lighting Audit shall identify each lighting type, as identified in Table 1353.1 herein, used on the site and shall include all the following information and requirements:
 - A. The age, condition, quality, and location of existing lighting fixtures, noting any lens discoloration, lens cracking, paint cracking, or bum marks.
 - B. Model and manufacturer of lighting system to obtain existing photometrics.
 - C. Lamp wattage and ballast type.
 - D. Observe the operational environment of the lighting system, noting the possibility of particulate, moisture, or dirt buildup in or around lighting fixture.
 - E. Observe how the lighting system is controlled and how often it is used.
 - F. Note the perceived color of objects within the space to characterize color quality.
 - G. Measure the physical layout of the existing lighting system noting luminaire height and spacing.
 - H. Use an illuminance meter to measure the light intensity of the existing system during dark sky conditions to determine if the existing design is appropriate for the space. Readings should be taken on the ground and at even intervals to create a "grid" of measurements. These illuminance levels can be compared to the recommended levels for the application.
- I. Based upon the information gathered above, provide a report establishing conclusions about the existing lighting system including:
 - i. Whether the lighting system meets the original or proposed lighting needs of the space and occupants, given the required operations (energy use) and maintenance costs?
 - ii. Calculation of the system efficacy of each type of luminaire. How efficient is each system at delivering light to its intended surface?
 - iii. Calculation of the theoretical system illumination, determined from a rough lumen method or point-to-point calculation. Use lighting design software to determine if the theoretical measurements match the measured illumination values from the site. This will help determine the level of deterioration of the current lighting system, as well as if the system meets the Municipality's code requirements.
 - iv. Calculation of the existing lighting power density and a determination of whether it meets any applicable codes or energy standards.
 - v. The difference in performance characteristics between existing and lighting systems proposed for the project.
- (b) **Design Review and Approval:** In addition to Building Construction Approval, all projects requiring Photometric Plans shall be subject to review and approved by the Municipality's Architectural Board of Review. (Ord. 128-2022. Passed 10-25-22.)

1353.08 MAINTENANCE, CONTINUANCE AND REMOVAL.

- (a) Expended or inoperative lighting bulbs or implements shall be replaced or repaired within ten (10) days after notice has been given by the Municipality's Division of Building, Zoning and Housing to the owner of the parking facility that such bulbs or implements have ceased to be operative.
- (b) All luminaires, lighting equipment and appurtenances, including building mounted luminaires, street and pole lighting, security lighting and all other similar equipment shall be maintained in a clean, safe, and sanitary, condition, in accordance with the conditions established in current and any previous plan approvals by the Building Commissioner, Architectural Board of Review, and Planning Commission and by the Certificate of Business Occupancy. Equipment shall not be disabled or removed without the approval of the Municipality's reviewing authority. (Ord. 128-2022. Passed 10-25-22.)

TITLE FIVE - Housing Code

CHAPTER 1361

Minimum Standards

EDITOR'S NOTE: Former Chapter 1361 was repealed by Ordinance 27-2007, passed May 8, 2007.

TITLE SEVEN - Business Maintenance Code

1370.01 SHORT TITLE.

The provisions of this Title Seven of this Part Thirteen - Building Code shall be known and may be cited and referred to as "The Business Maintenance Code of the City of Richmond Heights" or just "Business Maintenance Code."

(Ord. 78-79. Passed 9-11-79.)

1370.02 PURPOSE.

Within the scope of this Business Maintenance Code, the purpose of this Business Maintenance Code is to establish minimum standards necessary to maintain all structures, other than dwelling structures, safe, sanitary, free from fire and health hazards and beneficial to the public welfare; to establish minimum standards governing the maintenance of structures, other than dwelling structures, in such condition as will not constitute a blighting or deteriorating influence on the neighborhood and the community; to fix responsibilities for owners and occupants of structures with respect to sanitation, repair and maintenance; to authorize the inspection of structures; to establish enforcement procedures; to authorize the vacation or condemnation of unsafe or unfit structures; to provide for the adoption of rules and to fix penalties for violations thereof.

(Ord. 78-79. Passed 9-11-79.)

1370.03 GENERAL SCOPE.

The provisions of this Business Maintenance Code shall be supplementary to all other provisions of City ordinances relating to the construction, use and maintenance of business buildings and structures and shall apply to all buildings or portions thereof which are not used or designed or intended to be used for residential occupancy.

(Ord. 78-79. Passed 9-11-79.)

1370.04 DEFINITIONS.

As used in this Business Maintenance Code:

- (a) "Approved" means approved by the Building Commissioner or his authorized agent pursuant to this Business Maintenance Code, or approved by any other person or board designated by City ordinances to give approval to the matter in question.
- (b) "Basement" means a portion of a building partly or entirely underground, whose ceiling or under part of the floor above is four feet or less above the average finished ground elevation. The "average finished ground elevation" is the mean elevation of the finished grade around all of the exterior of the building.
- (c) "Board" means the Zoning Board of Appeals of the City, as created and existing under the provisions of Chapter 1185 of the Zoning Code.
- (d) "Building" means any structure having a roof supported by or suspended from columns or walls which may serve as a shelter or enclosure for persons, animals, chattels or property of any kind. The term "building" does not include any vehicle, trailer whether with or without wheels, nor any movable device, such as furniture, machinery or equipment.
- (e) "Business" means all uses or occupancies other than residential.
- (f) "Code" means this Business Maintenance Code, as contained in this Title Seven of this Part Thirteen - Building Code.
- (g) "Commissioner of Building" or "Building Commissioner" means the individual designated by the Mayor as being in charge of the Division of Building Engineering and Inspection in the Department of Public Service and Properties.
- (h) "Occupant" means the person who leases or rents a building, structure or any portion thereof. The words tenant and occupant shall be considered synonymous.
- (i) "Operator" means a person who has charge, care or control of a business structure.
- (j) "Owner" means the owner of the premises, or one of the owners of the premises if owned by more than one person, including the holder of title thereto subject to a contract of purchase, a vendee in possession, a mortgagee or receiver in possession, a lessee or joint lessees of the whole thereof, or an agent or any other person, firm, corporation or fiduciary directly in control of the premises.
- (k) "Person" means any person, firm, partnership, association, corporation, company organization or association of persons of any kind.
- (l) "Premises" means a lot, parcel or plot of land, including the buildings or structures thereon.
- (m) "Secondary or appurtenant structure" means a structure, the use of which is incidental or accessory to that of the main building and which is attached to the main building or located on the same premises with it, including retaining walls, fences and exterior walks and steps.
- (n) "Structure" means anything constructed or erected, the use of which requires a fixed location on the ground or attached to something having a fixed location on the ground and includes, but is not limited to, advertising signs, fences, billboards, backstops for tennis courts and pergolas.
- (o) "Supply or supplied" means paid for, furnished, provided by or under the control of the owner or operator.

(Ord. 78-79. Passed 9-11-79.)

1370.05 EXISTING BUILDINGS; OCCUPANCY AND LEASING RESTRICTIONS.

No owner, operator or agent shall occupy, rent or lease, or offer for rental or lease, any business structure or any part thereof which does not comply with the provisions of this Business Maintenance Code.

(Ord. 78-79. Passed 9-11-79.)

1370.06 CONFLICT.

In the event of conflict between any provision of this Business Maintenance Code, including any rules and regulations adopted pursuant to its provisions, and any provision of other City ordinances, including any rules and regulations adopted pursuant to such ordinances, the more restrictive provision shall prevail.

(Ord. 78-79. Passed 9-11-79.)

1370.07 SEPARABILITY.

Sections and subsections of this Business Maintenance Code and the several parts and provisions hereof are declared to be independent sections, subsections, parts and provisions, and the holding of any such section, subsection, part or provision hereof to be unconstitutional, void or ineffective for any cause shall not affect nor render invalid any other section, subsection, part or provision thereof.

(Ord. 78-79. Passed 9-11-79.) 7

CHAPTER 1372

Administration, Enforcement and Penalty

1372.01 Inspections authorized.

1372.02 Right of entry.

1372.03 Notice of violation; legal service; no notice for emergency or same prior violation.

1372.04 Remedies for noncompliance with notice.

1372.05 Cases of emergency; orders of immediate compliance.

1372.06 Placards ordering vacation of premises.

1372.07 Demolition expenses and costs.

1372.08 Rules and regulations by Commissioner.

1372.09 Right of appeal.

1372.10 Appeal powers of Board.

1372.11 Penalty does not preclude other remedial action.

1372.12 Prohibited acts.

1372.99 Penalty.

1372.01 INSPECTIONS AUTHORIZED.

The Building Commissioner or his authorized agent is authorized to make or cause to be made inspections of all structures or premises included in the scope of this Business Maintenance Code and all secondary or appurtenant structures to determine whether such structures or premises conform to the provisions of this Code.

(Ord. 78-79. Passed 9-11-79.)

1372.02 RIGHT OF ENTRY.

The Building Commissioner or his authorized agent shall present proper identification to the owner, agent or present occupant of the premises before entering. He shall also obtain and present a proper search warrant if the owner, agent or present occupant requests the same. A request by the owner, agent or present occupant that the Commissioner obtain a search warrant is an exercisable right of the requesting party and shall not constitute failure to cooperate nor shall it constitute a failure to comply with the provisions of this Business Maintenance Code.

(Ord. 78-79. Passed 9-11-79.)

1372.03 NOTICE OF VIOLATION; LEGAL SERVICE; NO NOTICE FOR EMERGENCY OR SAME PRIOR VIOLATION.

(a) Whenever the Building Commissioner or his authorized agent finds any building, structure or premises, or any part thereof, to be in violation of any of the provisions of this Business Maintenance Code, he or his agent shall give or cause to be given or mailed to the owner, agent, occupant or operator of such structure or premises a written notice stating the violation therein. Such notice shall order the owner, agent, occupant or operator, within a stated reasonable time but not less than ten days, to repair, improve or demolish the structure or premises concerned. Such delivery or mailing shall be deemed legal service of notice.

(b) If the person to whom a notice of violation is addressed cannot be found within the County after a reasonable and diligent search, then notice shall be sent by registered mail to the last known address of such person, and a copy of such notice shall be posted in a conspicuous place on the structure or premises to which it relates. No person shall remove or deface such warning notice without written permission of the Commissioner. Such mailing and posting shall be deemed legal service of notice.

(c) Notwithstanding the requirements of notice provided herein, when, in the opinion of the Commissioner, the condition of a structure or premises, or part thereof, constitutes an immediate hazard to human life or health, or when a prior violation notice has been sent to the owner, agent, occupant or operator for the same or a similar violation, then no such notice of violation need be given to the owner, agent, occupant or operator of such building.

(Ord. 78-79. Passed 9-11-79.)

1372.04 REMEDIES FOR NONCOMPLIANCE WITH NOTICE.

(a) Whenever the owner, agent, occupant or operator of a structure or premises, or part thereof, fails, neglects or refuses to comply with any notice of the Building Commissioner, he or his authorized agent shall issue a notice to such owner, agent, occupant or operator ordering the structure or premises, or part thereof, to be vacated, repaired or demolished within such time as shall be stated in such notice, but which shall be not less than ten days, except in cases of emergency, or he may advise the Director of Law of the circumstances and request the Director to institute an appropriate action at law, to compel compliance, or both. Such notice shall be delivered, mailed or posted in the same manner as provided in Section 1372.03 .

(b) Whenever the owner, agent, operator or occupant of a structure or premises, or part thereof, fails, neglects or refuses to comply with a notice to vacate, repair or demolish any building or structure issued by the Commissioner, the Commissioner may enforce the orders of such notice and cause the structure or premises, or part thereof, to be vacated, repaired or demolished in accordance with the provisions of such notice.

(c) Whenever the owner, agent or operator of a structure, or part thereof, fails, neglects or refuses to comply with a notice to vacate, repair or demolish such structure, or a part thereof, or a secondary or appurtenant structure issued in accordance with the provisions of this Business Maintenance Code, and when such structure is determined by Council upon referral of the Commissioner to constitute a public nuisance in that it is dangerous or injurious to the public health, safety or welfare, Council may request the Director to institute legal proceedings or to take such other action as may be necessary to abate the nuisance. The Commissioner shall further give notice informing the owner, agent, occupant or operator of such determination and give notice informing the owner, agent, occupant or operator of such determination and action. Such notice shall be given in the same manner provided for other notices in Section 1372.03 .

(Ord. 78-79. Passed 9-11-79.)

1372.05 CASES OF EMERGENCY; ORDERS OF IMMEDIATE COMPLIANCE.

Whenever, in the opinion of the Building Commissioner, the condition of a structure or premises, or part thereof, constitutes an immediate hazard to human life or health, he shall declare a case of emergency and shall order immediate corrective action or vacation of the structure or premises, or part thereof. Such notice shall be served in the manner provided in Section 1372.03 but shall require immediate compliance.

(Ord. 78-79. Passed 9-11-79.)

1372.06 PLACARDS ORDERING VACATION OF PREMISES.

Whenever the Building Commissioner orders a structure or premises, or part thereof, to be vacated, repaired or demolished, he shall cause to be posted at each entrance to such structure or premises, or part thereof, a placard ordering such vacation, repair or demolition. No person shall deface or remove such placard until the repairs or demolition are completed without first having obtained the written permission of the Commissioner. No person shall enter or use any structure or premises so placarded except for the purpose of making the required repairs or demolishing the structure or premises.

(Ord. 78-79. Passed 9-11-79.)

1372.07 DEMOLITION EXPENSES AND COSTS.

Any expense or cost incurred under the provisions for demolition contained in this Business Maintenance Code shall be paid by the owner of the structure or premises. If expenses and costs of demolition are not paid by the owner of the structure or premises within the thirty days after written notice from the City to do so, the expenses and costs may be recovered by an action at law or may be assessed against the lands of the owner and shall become a lien thereon, and shall be collected in the manner provided by law for assessments.

(Ord. 78-79. Passed 9-11-79.)

1372.08 RULES AND REGULATIONS BY COMMISSIONER.

The Building Commissioner is authorized to adopt such written rules and regulations as may be necessary for the proper interpretation and enforcement of this Business Maintenance Code. Such rules and regulations shall not conflict with or waive any provisions of this Business Maintenance Code or any other City ordinance. Such rules and regulations shall be submitted to Council for approval and no such rules or regulations shall be adopted without such approval.

Such rules and regulations, upon approval of Council, shall be on file with the Commissioner for public examination, and a copy of such rules and regulations shall be posted on the bulletin board of the main entrance of the City Hall for at least five days. Such rules and regulations shall have the force and effect of this Business Maintenance Code and shall continue in effect until revoked by the Commissioner with the approval of the Zoning Board of Appeals or by action of Council.

(Ord. 78-79. Passed 9-11-79.)

1372.09 RIGHT OF APPEAL.

The owner, agent or operator of any structure or premises shall have the right to appeal from any order of or written notice issued by the Building Commissioner or from any notice of a revocation of a certificate of business occupancy within thirty days from the date such notice was given or mailed or order issued, and to appear before the Zoning Board of Appeals at a time and place fixed by the Board, to show cause why he should not comply with such notice. Such appeal shall be in writing. Failure to file a written appeal with the Board within the time prescribed herein shall constitute a waiver of the right to appeal. Except in cases of emergency, as set forth in Section 1372.05 , filing of an appeal from any such notice shall suspend action on enforcement of such notice until the appeal is acted upon by the Board.

(Ord. 78-79. Passed 9-11-79.)

1372.10 APPEAL POWERS OF BOARD.

In addition to the powers and duties granted by Chapter 1185 of these Codified Ordinances, the Zoning Board of Appeals shall have authority to:

- (a) Hear and decide any appeal where it is alleged that there is an error in any order, requirement or determination made by the Building Commissioner in the enforcement of this Business Maintenance Code; and
- (b) Allow or permit variations where there is practical difficulty or unnecessary hardship in the way of carrying out the strict letter of the provisions of this Code, so long as the varying or modification of a requirement of this Code will be in harmony with the general purpose and intent of the Code, and the public health, safety and general welfare will be safeguarded and substantial justice done.

(Ord. 78-79. Passed 9-11-79.)

1372.11 PENALTY DOES NOT PRECLUDE OTHER REMEDIAL ACTION.

The imposition of any penalty provided for in this Business Maintenance Code shall not preclude the Director of Law from instituting an appropriate action or proceeding in a court of proper jurisdiction to prevent an unlawful repair or maintenance, to restrain, correct or abate a violation, to prevent the occupancy of a building, structure or premises, to require compliance with the provisions of this Code or other applicable laws, ordinances, rules or regulations, or the orders or determinations of the Building Commissioner or the Zoning Board of Appeals.

(Ord. 78-79. Passed 9-11-79.)

1372.12 PROHIBITED ACTS.

No person shall violate any of the provisions of this Business Maintenance Code, or any rule or regulation promulgated hereunder, or fail to comply therewith or with any written notice or written order issued hereunder, or interfere with, obstruct or hinder the Building Commissioner or his authorized agents while attempting to make inspections.

(Ord. 78-79. Passed 9-11-79.)

1372.99 PENALTY.

Whoever violates any of the provisions of this Business Maintenance Code is guilty of a misdemeanor of the first degree. Each day such violation occurs or continues shall constitute a separate offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1374

Certificates of Business Occupancy

1374.01 Certificate of business occupancy required.

1374.02 Certificate applications and issuance; contents; terms; revocation.

1374.03 Failure to apply for certificate; renewals; late fee.

1374.04 Posting of certificate.

1374.05 Fees; changes in business occupancy.

CROSS REFERENCES

1374.01 CERTIFICATE OF BUSINESS OCCUPANCY REQUIRED.

On and after the effective date of this section (Ordinance 78-79, passed September 11, 1979), no person shall occupy any structure used or designed, or intended to be used as a commercial, institutional, etc., building, structure or premises, or any part thereof, unless such person holds a certificate of business occupancy issued by the Building Commissioner for such structure, which certificate has not expired, been revoked or otherwise become null and void.

(Ord. 78-79. Passed 9-11-79.)

1374.02 CERTIFICATE APPLICATIONS AND ISSUANCE; CONTENTS; TERM; REVOCATION.

(a) Applications for a certificate of business occupancy required by the provisions of this Business Maintenance Code shall be made by the prospective occupant in the case of a building containing less than twenty separate business occupants or by the owner of a building containing twenty or more occupants annually by supplying the information and data to determine compliance with applicable laws, ordinances, rules and regulations for the existing use or occupancy or the intended use or occupancy on forms supplied by the Building Commissioner.

(b) The Commissioner may require the submission of an affidavit stating such information and he may cause a general inspection of the structure or premises to be made.

(c) If it is found that a building or other structure is in compliance with the provisions of this Business Maintenance Code and all other laws, ordinances, rules and regulations applicable thereto, the Commissioner shall issue a certificate of business occupancy for such building or structure, which shall contain the following information:

(1) The street address or other identifying characteristics of the building or other structure;

(2) The name and address of the occupant of the building or structure;

(3) The name and address of the owner of the building or structure;

(4) The exact nature and extent of the use or occupancy authorized; and

(5) The period for which such certificate of business occupancy is effective.

Such certificate shall not be valid beyond one year from the date upon which the certificate is issued.

(d) The Commissioner shall have the power to revoke a certificate of business occupancy if any false statement is made by the applicant in connection with the issuance of such certificate, or for noncompliance of a structure or its use with the requirements of this Code, or if the owner, agent or person in charge of a structure refuses to comply with any applicable provision of this Code.

(e) Notwithstanding any other provisions of this chapter, the Commissioner shall issue a qualified certificate of business occupancy for the year 1979, and if the property of the applicant has not been inspected for compliance with this Code prior to December 31, 1979, then the Commissioner shall also issue a qualified certificate of business occupancy for the year 1980.

(Ord. 78-79. Passed 9-11-79.)

1374.03 FAILURE TO APPLY FOR CERTIFICATE; RENEWALS; LATE FEE.

(a) The proposed occupant of a structure to be used for business purposes and which requires a certificate of business occupancy under the provisions of this Business Maintenance Code shall apply for such certificate as soon as practical, but in no event shall any unit of the structure be occupied in whole or in part until such certificate has been issued.

(b) For each calendar year thereafter, the person applying for a required certificate of business occupancy for any unit used for business purposes shall apply for such certificate on or before December 1 of the year preceding the period for which the certificate is issued.

(c) In addition to any other penalties provided for violations of the Business Maintenance Code, any applicant failing to file an application for an original certificate of business occupancy prior to occupancy of any unit of the structure or an annual renewal certificate by December 1 of the year preceding the period for which the certificate is issued shall be charged in addition to the fee required for said certificate a late fee of fifty dollars (\$50.00) for each thirty day period after occupancy for original certificates or after December 1 for renewal certificates or fraction thereof until said application is filed.

(Ord. 21-95. Passed 3-14-95.)

1374.04 POSTING OF CERTIFICATE.

Except as provided in Section 1374.05, the occupant of every structure included in the scope of this Business Maintenance Code shall cause a certificate of business occupancy to be posted conspicuously at all times at the main entrance of such structure. Such certificate shall be provided with a protective covering and shall be securely affixed to the wall.

(Ord. 78-79. Passed 9-11-79.)

1374.05 FEES; CHANGES IN BUSINESS OCCUPANCY.

(a) Fees. An Application for a certificate of occupancy shall be accompanied by a nonrefundable fee determined by the square footage of the business establishment. For businesses of less than 5,000 square feet in gross floor area, the fee shall be fifty dollars (\$50.00). For businesses of 5,000 square feet or more in gross floor area, the fee shall be fifty dollars (\$50.00), plus fifty cents (\$0.50) per 100 square feet of gross floor area.

(b) Multiple Occupancy. The building owner of all multiple occupancy buildings shall notify the Building Commissioner upon any change of occupancy or use within the building.

(Ord. 93-98. Passed 10-27-98.)

(c) Changes; New Certificate of Business Occupancy. If there is a change in the occupancy of any building or portion thereof, the certificate issued under the provisions of this Business Maintenance Code to the former occupant or owner shall become null and void as to the vacated business unit at the time such use is terminated. A new certificate shall be obtained by the new occupant or owner before the new business begins its tenancy or occupancy. Application for a new certificate for any business use shall be made before the new business use begins its tenancy or occupancy. The appropriate fee shall be paid upon application for each new certificate. Such new certificate shall expire on the same date as that of the certificate which it replaces.

(d) Change Approval. Any change in the nature or extent of the use or occupancy specified on the certificate shall render the certificate null and void upon the happening of such change. No such change is permissible under this Code unless such change has been approved by the proper City authorities pursuant to this Code, and unless a new certificate of business occupancy, incorporating such change, has been issued. Any such change, without the approval of the proper City authorities, will subject the owner, occupant, operator or agent to the penalty provided in Section 1372.99.

(Ord. 78-79. Passed 9-11-79.)

CHAPTER 1376

Basic Standards for Business Occupancy

1376.01 Maintenance responsibilities.

1376.02 General maintenance requirements.

1376.03 Maintenance of foundations.

1376.04 Maintenance of roofs, gutters and downspouts.

1376.05 Maintenance of exteriors.

1376.06 Maintenance of interior walls, floors and ceilings.

1376.07 Exterior and interior property areas.

1376.08 Maintenance of plumbing.

1376.09 Electrical facilities required.

1376.10 Maintenance of heating, ventilating and air conditioning facilities.

1376.11 Maintenance of signs.

1376.12 Access and egress.

1376.13 Infestation by pests.

1376.14 Rubbish and garbage disposal.

1376.141 Dumpsters required.

1376.15 Street numbers.

Abandoned or inoperative gasoline service stations - see BLDG. Ch. 1378

1376.01 MAINTENANCE RESPONSIBILITIES.

(a) Compliance Required. No owner, operator or agent shall occupy, rent or lease, or offer for rental or lease, any business structure or any part thereof which does not comply with the provisions of this Business Maintenance Code.

(b) Owner. The owner of every building or structure, or his authorized agent, shall be responsible for maintaining in a clean, safe and sanitary condition the shared or common areas of the premises, including all yard areas, walks, driveways and parkway lots.

(c) Occupant. The occupant of any building or structure shall be responsible for maintaining in a clean, safe and sanitary condition that part of the premises which he occupies and controls.

(Ord. 78-79. Passed 9-11-79.)

1376.02 GENERAL MAINTENANCE REQUIREMENTS.

- (a) All structures and all parts thereof, both exterior and interior, shall be maintained in good repair and shall be capable of performing the function for which such structure or part of any feature thereof was designed or intended to be used.
- (b) All equipment and facilities appurtenant to a structure shall be maintained in good and safe working order.
- (Ord. 78-79. Passed 9-11-79.)

1376.03 MAINTENANCE OF FOUNDATIONS.

- (a) All foundations of every structure shall be maintained structurally sound and in good repair.
- (b) All foundations of every structure shall be maintained in such condition as to prevent seepage or leakage of water into the space enclosed within such foundations.
- (c) All openings into the foundations of every structure shall be protected against the entrance of rodents.
- (d) Where parts of structures supported on masonry piers, foundations or footers require substantial repair or replacement due to sagging, settling or failure of such support, the same shall be replaced with a foundation conforming to the provisions of Part Thirteen - Building Code.
- (Ord. 78-79. Passed 9-11-79.)

1376.04 MAINTENANCE OF ROOFS, GUTTERS AND DOWNSPOUTS.

- All roofs of every structure shall be maintained weathertight and shall be equipped with gutters and downspouts maintained in good repair and connected to a public storm sewer or to an approved retention system.
- (Ord. 78-79. Passed 9-11-79.)

1376.05 MAINTENANCE OF EXTERIORS.

- (a) All exterior walls of every structure shall be maintained weathertight and shall be maintained so as to resist decay or deterioration from any cause.
- (b) Any structure or secondary or appurtenant structure whose exterior surface is bare, deteriorated, ramshackle, tumble-down, decaying, disintegrating or in poor repair shall be repaired, replaced or razed as follows:
- (1) All buckled, rotted or decayed walls, doors, windows, porches, floors, steps, railings, soffits, posts, sills, trim and their missing members shall be replaced and put in good condition.
 - (2) All replacements shall match and conform to original design or be replaced completely with a design acceptable to the Building Commissioner and drawings and plans for such replacements reviewed by the Architectural Board of Review as required by Chapter 154 of these Codified Ordinances.
 - (3) All exterior wood or exterior unfinished surfaces, except masonry, shall be sealed and painted, or the surface covered with other approved protective coating or treated to prevent rot and decay, and conform and match the existing paint or surface covering and original design or replacement thereof. All exterior walls and surfaces shall be properly protected against the weather, where such are defective or lack weather protection, including lack of paint or surface covering, or have weathered due to lack of proper protective covering.
- (c) Any structure, including all secondary or appurtenant structures, awnings and signs, whose exterior is deteriorated, decaying, disintegrating or whose surface is weathered with dirt and grime or has been impaired through peeling or flaking of the paint or other protective coating, shall be repaired, repainted, resurfaced or replaced as follows:
- (1) All exterior surfaces shall be replaced or repaired in good condition preparatory to repainting or coating.
 - (2) All bare exterior surfaces which are flaking or crumbling shall be replaced or sealed in a good and workmanlike manner.
 - (3) All new or repaired bare surfaces shall be painted or coated.
- (Ord. 78-79. Passed 9-11-79.)

1376.06 MAINTENANCE OF INTERIOR WALLS, FLOORS AND CEILINGS.

- (a) All interior walls, floors and ceilings of every structure used for business purposes shall be maintained free of holes, large cracks and any loose or deteriorated material, and shall have a sealing coating of paint, wallpaper or other substance located thereon, and maintained in a clean and proper condition.
- (b) The floors of all toilet rooms shall have a cove base at all walls and partitions. Floor surfaces and cove base shall be of nonabsorbent materials with moisture-resistant joints, and shall be kept in a sanitary and clean condition.
- (Ord. 78-79. Passed 9-11-79.)

1376.07 EXTERIOR AND INTERIOR PROPERTY AREAS.

- (a) Exterior Property Areas. No owner, agent or occupant of any premises shall maintain or permit to be maintained at or on the exterior property areas of such premises any condition which deteriorates or debases the appearance of the neighborhood, reduces property values in the neighborhood, creates a fire, safety or health hazard or which is a public nuisance, including, but not limited to, any of the following:
- (1) Broken or dilapidated fences, walls or other structures;
 - (2) Improperly installed or maintained public sidewalks, walks, driveways and driveway aprons, which are in a defective condition in any of the following listed particulars:
 - A. Any block having multiple cracks or any single crack larger than one-half inch wide;
 - B. Adjoining sections of block, or a portion thereof, whose edges differ vertically by one inch or more;
 - C. Blocks having a transverse slope in excess of one inch per horizontal foot toward the street;
 - D. Blocks having a reverse slope that impound water to a depth of one-half inch or more; (Slope toward property.)
 - E. Blocks having depressions that impound water to a depth of one inch or more; or
 - F. Blocks having disintegrated or deteriorated areas.
- It is further provided that every public sidewalk shall be concrete or stone slab.
- (3) Out-of-use or nonusable appliances, dilapidated automobiles or automobile parts; or
 - (4) Rugs, rags or other materials hung on lines or in other places on such premises, which materials are not being used for general household or housekeeping purposes; broken, dilapidated or unusable furniture, mattresses or other household furnishings; plastic materials, paints, miscellaneous coverings and/or any other materials, including those described in this section, placed at or on the premises in such a manner as to be patently unsightly, grotesque or offensive to the senses.
- (b) Exterior Property Areas. Interior property areas of all premises shall be kept free of any debris, object, material or condition which creates a health, accident or fire hazard.
- (c) Parking Lots in Commercial Areas.
- (1) Asphalt or concrete parking lots shall be kept in a safe condition, free from chuck holes, depressions or large cracks.
 - (2) If such parking lots are found to be in need of repair, the Building Commissioner shall cause a written certified notice to be sent to the owner of such property requiring resurfacing for all or any part thereof.
 - (3) The notice shall set forth the amount of time for compliance and shall be determined by the Commissioner considering the extent of repair, cost of repair and prevailing weather conditions, but in no event less than thirty days nor more than ninety days.

(Ord. 78-79. Passed 9-11-79.)

(d) Concrete or Asphalt Driveway Aprons.

- (1) Concrete or asphalt driveway aprons shall be kept in a safe condition, free from chuckholes, depressions or large cracks. Any such driveway aprons which are in need of repair or constitute a dangerous condition to the public using the same, shall be replaced with concrete.
- (2) If such parking lots are found to be in need of repair, the Building Commissioner shall cause a written certified notice to be sent to the owner of such property requiring resurfacing for all or any part thereof.
- (3) The notice shall set forth the amount of time for compliance and shall be determined by the Commissioner considering the extent of repair, cost of repair and prevailing weather conditions, but in no event less than thirty days nor more than ninety days.

(Ord. 66-83. Passed 6-14-83.)

(e) Parking Lot Maintenance.

- (1) Parking lots shall be kept in a clean, sanitary condition, free from scrap paper and miscellaneous debris.
 - (2) Such containers as are required for debris shall be installed.
 - (3) Landscaping shall be kept in good condition and appearance, and grass, weeds and other growth kept to a minimum of six inches.
- (Ord. 78-79. Passed 9-11-79.)

1376.08 MAINTENANCE OF PLUMBING.

- (a) All plumbing fixtures and piping connected thereto in existing buildings, secondary and appurtenant structures shall be maintained in good condition to provide the necessary plumbing and sanitary facilities required.
- (b) All plumbing fixtures shall be so designed and installed as to prevent contamination of the water supply system and shall be connected by means of a properly enclosed system to a public sanitary sewer.
- (Ord. 78-79. Passed 9-11-79.)

1376.09 ELECTRICAL FACILITIES REQUIRED.

- Every business structure and secondary or appurtenant structure shall be provided with approved electrical service, outlets and fixtures, which shall be installed and maintained so as to be free of any potential source of ignition of combustible material or any potential source of electrical hazard. Such facilities shall be approved as being adequate to supply the requirements of lighting, appliances and equipment of the structure concerned.
- (Ord. 78-79. Passed 9-11-79.)

1376.10 MAINTENANCE OF HEATING, VENTILATING AND AIR CONDITIONING FACILITIES.

- All heating, ventilating and air conditioning facilities in existing buildings and secondary and appurtenant structures shall be maintained in good condition to provide reasonable comfort and convenience for the occupants, and such facilities shall be installed and maintained so as to be free from any potential source of fire hazard or danger to the health, welfare and safety of the occupants.
- (Ord. 78-79. Passed 9-11-79.)

1376.11 MAINTENANCE OF SIGNS.

- (a) All signs, both exterior and interior, shall be maintained in a good state of repair, and shall pertain only to the identification of the occupant, merchandise, products or services on the premises.
- (b) Whenever any structure or part thereof becomes vacant, the owner or agent shall cause all signs, which are visible from the exterior, and which no longer apply to the products or services offered on the premises, to be removed within thirty days and to restore the exterior appearance of the building to match the existing facade.
- (Ord. 78-79. Passed 9-11-79.)

1376.12 ACCESS AND EGRESS.

- Every business unit shall be provided with direct and approved means of access and egress to the outside of such business unit, without passing through any part of any other business unit. Every door which is used in connection with such means of access and egress shall be provided with a lock which can be opened from the inside without the use of a key.

(Ord. 78-79. Passed 9-11-79.)

1376.13 INFESTATION BY PESTS.

- All business structures and the premises thereof shall be maintained free of vermin, rodents and other pests, and free of sources of breeding, harborage and infestation by such vermin, rodents and other pests.
- (Ord. 78-79. Passed 9-11-79.)

1376.14 RUBBISH AND GARBAGE DISPOSAL.

- (a) Every occupant of a business unit shall dispose of all his rubbish in a clean and sanitary manner by placing it in approved receptacles, or in other approved rubbish disposal facilities.
- (b) Every occupant of a business unit shall dispose of all his garbage and other organic waste, which might provide food for insects and rodents, in a clean and sanitary manner by placing it in approved nonleakable, nonabsorbent, covered, garbage storage receptacles, or in other approved garbage disposal facilities.
- (c) Every occupant of a business unit shall make the necessary arrangements for the pickup and removal of rubbish and garbage so as not to overload the containers or receptacles.

(Ord. 78-79. Passed 9-11-79.)

1376.141 DUMPSTERS REQUIRED.

(a) All businesses located in the B-1, B-2, OS and Industrial zoning districts, and all multi-family properties shall be equipped for the use and convenience of their tenants with a trash container, commonly known as a "dumpster." Businesses shall include any entity providing services or products of any nature or kind whatsoever to the public, including, but not limited to, professional services, medical and dental services, personal services, entertainment, retail sales, wholesale clubs, grocery stores, convenience stores, outdoor markets, restaurants, bars and any other type of establishment that provides any service or any tangible thing to the public, whether for profit or not for profit. As used in this section, businesses shall not include government-owned facilities.

(b) Dumpsters shall be sized, serviced and emptied per a program and schedule insuring that no overflow of said container('')s) ensues or that it is not necessary to place trash or garbage outside of the dumpster. Trash, garbage, broken or discarded furniture or other household articles shall not be placed in the vicinity of the dumpster enclosure outside of the dumpster. Containers shall not be located in the front yard of any property. Containers shall be located at the rear of the property or in a location that least impacts neighboring parcels. Dumpster containers whose placement abuts an R-1 or R-2 residential zoning district by fifteen (15)-feet or less shall be surrounded by a masonry wall with a steel-framed gate. Dumpsters in other locations shall be surrounded by a masonry wall, wood-framed enclosure, or a chain-link enclosure constructed per subdivisions (b)(2) through (b)(4) of this section. All enclosures shall be eight (8) feet in height and of a size large enough to enclose the container without being easily damaged during servicing. Dumpster enclosures may be sized to enclose all dumpsters servicing the property. Dumpster enclosures and the surrounding area shall be properly illuminated to insure that the residents/tenants can use the area safely. Lighting shall be carefully designed and installed as to not adversely affect neighboring properties. Dumpster enclosures shall be constructed as follows:

- (1) All dumpsters shall be placed on concrete pads of a minimum thickness of six (6)-inches. Concrete shall be sloped sufficiently to permit necessary drainage of rain or
- (2) Masonry walls shall be constructed on three (3) sides of either cement masonry units (cement block) with face-brick attached, or of split-face masonry units of a minimum thickness of eight (8)-inches. Masonry walls shall be placed on an approved foundation. Color and finish of the masonry shall be approved by the Architectural Review Board.
- (3) Wood-framed enclosures shall be constructed using weather-treated six (6) inch by six (6)-inch corner posts and cedar fencing or other materials permitted in Section 1313 of the Codified Ordinances. Unfinished materials shall be stained or painted in a manner approved by the Architectural Review Board.
- (4) Chain link enclosures shall be constructed on three (3) sides using a minimum of four (4)-inch WT40 Galvanized Corner Posts and chain link fabric of nine (9) gage Aluminumized - .40oz aluminum coating - ASTM A-491 - 2" mesh - Salvage Knuckle -Knuckle. Intermediate posts shall be 2 1/2" O.D. Sch. #40 or WT40, set in 12" x 42" cement footings spaced no more than eight (8) feet apart. Top-brace and bottom rails of 1 5/8" O.D. Sch. #40 or WT40 pipe shall be used. Winged slat High Density Polyethylene (HDPE) materials in an approved color by either PEXCO or an approved equal shall be woven in the fence fabric to provide the required screening.
- (5) Gates for all types of enclosures shall be constructed using a two (2)-inch round or square galvanized steel Sch. #40 or WT40 - notched and welded - center brace with two (2) 3/8-inch diagonal truss rods supporting either approved wood or chain link (see subdivision (b)(4) above) finishing materials. The frame shall be supported by a minimum of six (6)-inch schedule #40 galvanized gate posts embedded in poured concrete footings of a minimum size of eighteen (18)-inch diameter by forty-eight (48) inches in depth. Gates shall be provided with galvanized pipe drop-rods mounted on the outside of each gate for securing the gates in an open or closed position. Gates shall be secured closed at all times and opened only to empty the dumpster.
- (6) Dumpster enclosures shall also be constructed with an approved thirty-six (36)-inch wide pedestrian gate or an approved thirty-six (36)-inch wide walk-through opening.
- (7) The approach lane for the servicing/emptying of each trash container shall be constructed in accordance with Chapter 1175 of the Codified Ordinances.
- (c) No owner, operator or occupant of any property or any other responsible party shall violate subdivision (b) of this section. If there is a violation, the violation shall be enforced as follows:
 - (1) The Building Inspector, Director of Public Service, Chief of Police or their authorized designees, are authorized to issue notices and citations to the owner, operator or occupant of any property maintained in violation of this section, or to any other responsible party;
 - (2) The official shall personally deliver the notice of violation or post the notice of violation in a conspicuous location on the property. The notice shall state the time when the notice was issued and shall state the nature of the violation and that the violation must be corrected within the time specified in the notice after its posting.
 - (3) No person who has been issued such a notice shall fail to comply with said notice.
 - (4) Within any three (3)-month period, the first notice of violation will be sent followed by a misdemeanor citation and/or other enforcement action if the violation is not corrected or abated within the time specified in the written notice provided for in subdivision (c)(2) above. Additional violations within any three (3)-month period will be sent a citation without notice.
- (d) Whoever violates this section is guilty of a misdemeanor of the first degree.

(Ord. 3-2021. Passed 1-12-21.)

1376.15 STREET NUMBERS.

Every business structure shall have the correct street number of such business prominently displayed so that it is clearly visible at all times from the street in front of the property. The numbers shall be numerals, not in script, and they must be at least three inches high and in contrasting colors. Such numbers shall be placed in close proximity to the main front entrance to the building, provided the building has only one street number. If individual units within a business structure have more than one street number assigned to such units, then each such unit shall display at the main front entrance to such unit the correct street number assigned to it.

(Ord. 78-79. Passed 9-11-79.)

CHAPTER 1378

Abandoned or Inoperative Gasoline Service Stations

1378.01 Abandoned station declared a nuisance.

1378.02 Notice to abate; action required.

1378.03 Required removal of underground tanks.

1378.04 Failure to abate.

1378.05 Inoperative service stations.

CROSS REFERENCES

Property Maintenance Code - see BLDG. Ch. 1309
General provisions and definitions - see BLDG. Ch. 1370
Administration, enforcement and penalty - see BLDG. Ch. 1372
Certificates of business occupancy - see BLDG. Ch. 1374

1378.01 ABANDONED STATION DECLARED A NUISANCE.

Whenever any gasoline service station becomes abandoned, such station shall be presumed to be a nuisance affecting or endangering surrounding property values and to be detrimental to the public health, safety, convenience, comfort, property or general welfare of the City and shall be abated. "Abandoned" means not having been operated as a gasoline service station for at least three consecutive months.

(Ord. 78-79. Passed 9-11-79.)

1378.02 NOTICE TO ABATE; ACTION REQUIRED.

Whenever the Building Commissioner finds any gasoline service station to be abandoned within the meaning of this chapter, he shall give notice to the owner of record of the premises at his last known address to abate such abandoned condition within sixty days by any of the following methods:

- (a) Placing such service station in operation in accordance with this Business Maintenance Code;
- (b) Adapting and using the building for another building use permitted under the Zoning Code, provided the service station pumps, storage tanks and signs are removed; or
- (c) Razing the service station structure and removing the pumps, storage tanks and signs.

(Ord. 78-79. Passed 9-11-79.)

1378.03 REQUIRED REMOVAL OF UNDERGROUND TANKS.

All abandoned underground gasoline or oil storage tanks shall be removed. The removal of underground tanks shall be performed in accordance with accepted safe practice and under the supervision of the Bureau of Fire Prevention of the City. Under no circumstances shall any structure be erected above any abandoned underground tank. When tanks are removed, the Building Commissioner shall supervise the necessary filling and grading of the area.

(Ord. 78-79. Passed 9-11-79.)

1378.04 FAILURE TO ABATE.

Upon the failure, neglect or refusal of any owner to comply with the notice to abate such abandonment, the Building Commissioner shall take such action as may be necessary to abate such nuisance.

(Ord. 78-79. Passed 9-11-79.)

1378.05 INOPERATIVE SERVICE STATIONS.

Inoperative gasoline service stations, which do not come within the definition of "abandoned" as defined herein, shall be maintained in accordance with the provisions of this Business Maintenance Code. The parking of motor vehicles upon the premises shall be prohibited and the owner shall place a sign of at least ten square feet in area in the window of such service station notifying the public of this fact. Notwithstanding any other provisions of this Code, if the Building Commissioner finds that such notice is not complied with by the public, he may order the owner of the premises on which any station is inoperative for more than three months to install fencing or barricades approved by the Commissioner, which will be sufficient to block motor vehicle access to such property.

(Ord. 78-79. Passed 9-11-79.)

CHAPTER 1380

Registration and Maintenance of Vacant Nonresidential Properties

1380.01 Purpose.

1380.02 Definitions.

1380.03 Duties of owner.

1380.04 Vacant building inspection required.

1380.05 Vacant building inspection.

1380.06 Fees.

1380.07 Correction of violations.

1380.08 Certificate of compliance.

1380.09 Liability.

1380.99 Penalty.

1380.01 PURPOSE.

This chapter shall apply to any nonresidential property, as defined below, or a unit of nonresidential property in the Municipality which meets the definition of vacant and unoccupied.

(Ord. 65-2022. Passed 5-24-22.)

1380.02 DEFINITIONS.

- (a) "Nonresidential property" shall be defined as a property with an assigned use classification of commercial, institutional, industrial, or office.
- (b) "Vacant, vacant building, vacancy, and vacant unit of a building" shall be defined for the purposes of this chapter, as a building, or unit of a building, which is not occupied by its owner, lessee or other person in lawful possession, or at which substantially all lawful business operations have ceased.
- (c) "Unoccupied" shall be defined for the purposes of this chapter as a building or unit of a building in which all lawful business operations have ceased.
- (d) "Open foreclosure action" shall be defined for purposes of this chapter as an active legal proceeding in a court of law that bars or extinguishes a mortgagor's right of redeeming a mortgaged estate in real property but does not include a foreclosure for tax delinquency purposes that is brought by the county government.
- (e) "Building Commissioner" shall be defined for purposes of this chapter as the Commissioner of the Municipality's Division of Building, Zoning and Housing.
- (f) "Municipality" shall be defined for purposes of this chapter as the City of Richmond Heights, Ohio.

(Ord. 65-2022. Passed 5-24-22.)

1380.03 DUTIES OF OWNER.

(a) The owner, lessee, or party in control of any vacant building and/or vacant unit of a building, or a party that has filed and is currently maintaining an open foreclosure action regarding a vacant building shall maintain the vacant building and/or vacant unit of a building in compliance with Municipal codes with particular attention to the following:

- (1) Grass and weeds shall be kept at a maximum height of six inches. Shrubbery must be kept trimmed and neat and kept from encroaching on or touching the building.
- (2) All building exteriors shall have adequate weather-tight protection, including paint, siding, and or similar finishes maintained in good condition.
- (3) All buildings and grounds must be secured against trespassers and rodents. This includes maintaining all exterior doors, windows and yard fencing in a good and secured condition. No boards, plywood or similar means or materials may be used to secure windows and doors. Doors, and/or windows that are found to be defective shall be replaced with similar, new doors or window units equipped with locking hardware.

- (4) Property must be properly winterized.
 - (5) Roofs on all buildings shall be in good, weather tight condition with no leakage.
 - (6) Any accumulated trash or debris must be removed from the interior and exterior of the property immediately.
 - (7) Graffiti, tagging or similar markings must be immediately removed or painted over with an exterior grade paint that matches the exterior color of the structure.
 - (8) Property shall be maintained free of nuisance conditions.
 - (9) Compliance with this section does not relieve the owner or agent in control of the property of any obligations set forth in any covenants, conditions, restrictions, homeowners' association rules and regulations and/or codified ordinances or building codes which may apply to the property.
- (b) **Registration Required.**
- (1) The owner, agent, lessee, or party in control of any vacant building and/or vacant unit of a building, or a party that has filed a foreclosure action that is currently pending regarding any vacant building, shall register the building, property and/or vacant unit of a building with the Building Commissioner, and maintain the registration up to date.
 - (2) An application for registration of a vacant building and/or vacant unit of a building shall include all of the following information on forms provided by the Municipality:
 - A. The name of the owner, agent lessee or party in control of the property and/or foreclosing entity submitting the registration application;
 - B. The direct mailing address of the applicant; Post Office boxes are not an acceptable address;
 - C. A contact name, telephone number and e-mail address for the applicant;
 - D. In the case of an applicant whose home or business address is located outside Cuyahoga County, the applicant shall provide the name and mailing address as well as the contact name, telephone number and e-mail address of the person responsible for the security, maintenance, and marketing of the property.
 - E. The fee required by subsection (b)(5) hereof.
 - (3) Registration shall remain valid for twelve months from the date of issuance. The owner, agent, lessee or party in control, or party mortgagee in an open foreclosure action, shall renew the registration upon expiration for as long as the building, property, and/or unit of a building remains vacant.
 - (4) The owner, agent, lessee, party in control, or party in an open foreclosure action of any vacant building property, and/or vacant unit of a building, shall inspect the building, property and/or unit at least one time each month on the interior and exterior of the property to verify that the requirements of this chapter, the Codified Ordinances of the Municipality, and any other applicable laws are being met. A written report of such inspections shall be provided to the Municipality upon request.
 - (5) **Fees:** The annual fee for registering a vacant building, property and/or vacant unit of a building shall be fifteen cents (\$0.15) per square foot of vacant space for the first year the property is vacant, twenty cents (\$0.20) per square foot of vacant space for the second consecutive year the property is vacant, and twenty-five cents (\$0.25) per square foot of vacant space for every consecutive year beyond the second year that the property remains vacant.
- Revenue collected each year from this fee shall be distributed annually as follows: the first one-third of the fee collected shall be appropriated to a proper Municipal account for use by the Division of Building, Zoning and Housing for nuisance abatement purposes.
- (c) **Exemptions:** Waivers exempting compliance with the provisions of this chapter shall be obtained in writing on a form provided by the Municipality under the following circumstances, as long as the property is kept in safe, secure, and habitable condition, including continual compliance with this section:
- (1) **Fire damaged buildings:** so long as clean up, repair or demolition is initiated within ninety days from the date of the fire.
 - (2) The owner, lessee, or party in control of any vacant building and/or vacant unit of a building can produce evidence the vacant building or vacant unit will be reoccupied within ninety days of becoming vacant. Such evidence shall include an application for occupancy filed with the Division of Building, Zoning and Housing by the new user intending to occupy the space.
 - (3) The owner, lessee, or party in control of any vacant building and/or vacant unit of a building can submit a vacant building plan which meets the approval of the Building Commissioner. The plan, at a minimum, must contain information from one of the following two choices:
 - A. If the building is to be demolished, a demolition plan indicating the proposed timeline for demolition which includes starting within thirty days of receiving approval for demolishing the building and reaching completion within one year of submitting said plan.
 - B. If the building is to undergo extensive renovation and/or rehabilitation before being made available to be returned to appropriate occupancy or use. The rehabilitation and/or renovation plan must receive approval from the Building Commissioner and any Municipal boards and commissions as required. The rehabilitation and/or renovation must be complete within twelve months from the time said plan is approved. Any request for an extension must be made in writing and must detail the reasons why the extension is being requested. The extension must be approved by the Building Commissioner. Any repairs, improvements, or alterations to the property must comply with any applicable zoning, housing, or building codes, and the property must be secured during the rehabilitation and/or renovation.

(Ord. 65-2022. Passed 5-24-22.)

1380.04 VACANT BUILDING INSPECTION REQUIRED.

- (a) The owner, agent, or party in control of any vacant building, or unit of a building, shall apply for and obtain a vacant building inspection from the Building Commissioner prior to selling, transferring, or conveying any interest in or entering into an agreement to sell, transfer or otherwise convey an interest in such property, which includes entering into a lease with an entity to occupy the building or unit of a building. A copy of such completed inspection report shall be provided to the prospective purchaser, transferee, or lessee prior to sale or commencement of a lease.
- (b) An agreement to sell, transfer or otherwise convey an interest in a vacant building, or a lease agreement for a tenant to occupy a vacant unit of a building, shall include a copy of the vacant building inspection report from the Building Commissioner, in order for the prospective purchaser, transferee, or lessee to be aware of all known violations of the Municipal Building, Housing and/or Zoning Codes found as a result of an exterior and interior inspection.
- (c) The owner shall submit to the Building Commissioner a statement signed by the purchaser or transferee, or lessee, acknowledging receipt of the vacant building inspection report, and such statement shall list thereon the date the report was given to the purchaser or transferee, or lessee.

(Ord. 65-2022. Passed 5-24-22.)

1380.05 VACANT BUILDING INSPECTION.

An application for a vacant building inspection required by this chapter shall be made upon forms supplied by the Building Commissioner.

- (a) The Building Commissioner shall cause a general exterior and interior inspection for the vacant building or unit of a building and premises to be made.
- (b) The vacant building inspection report shall contain the following information:
 - (1) The street address or other identifying characteristics of the vacant building or unit of a building;
 - (2) The name and address of the owner(s); lessee or party in control;
 - (3) The authorized use and occupancy of the building or vacant unit of a building;
 - (4) The listing of all known violations of the Building Code existing at the time of such inspection.
- (c) Should the building or unit of a building remain vacant for a period longer than one year from the date of the inspection, a new inspection of the property shall be conducted as outlined above. There shall be a fee of twenty-five dollars (\$25.00) per year for each inspection, after the first year.

(Ord. 65-2022. Passed 5-24-22.)

1380.06 FEES.

- (a) In order to legally occupy a space, a user of the space must file for business occupancy with the Division of Building, Zoning and Housing and pay the business occupancy application fee. In addition, a certificate of compliance will be issued once violations have been corrected and a user is legally occupying the space. The fee for a certificate of compliance shall be two hundred dollars (\$200.00).
- (b) There shall be no fee for one re-inspection requested by the same owner within twelve months from the date of the initial inspection to verify correction of violations stated within the vacant building inspection report. All subsequent re-inspections may be billed at fifty dollars (\$50.00) per inspection.
- (c) In the event of resale of the property within the one-year period, if violations have not been corrected, the vacant building inspection report shall be transferred to any subsequent bona fide purchaser and shall be valid for the remainder of that period.

(Ord. 65-2022. Passed 5-24-22.)

1380.07 CORRECTION OF VIOLATIONS.

Any violations found upon inspection of the premises shall be corrected prior to issuance of the certificate of compliance. A property owner shall have six months from the date of the inspection to correct all violations. Violations that cannot be corrected due to seasonal conditions shall not preclude the issuance of a certificate of compliance; provided that, issuance of such certificate shall be upon written acknowledgment of all violations and agreement to correct all violations within nine months of the inspection date.

- (a) **Appeals.**
 - (1) The Municipal Zoning Board of Appeals shall be the board of appeals for this chapter and its powers and duties and the procedures for appeal shall be as provided in such Municipal ordinance that established and governs the Zoning Board of Appeals.
 - (2) The owner of a vacant building, or vacant unit of a building, shall have the right to appeal from any order of, or written notice issued by, the Building Commissioner within thirty days from the date such notice was given, mailed or issued, and to appear before the Zoning Board of Appeals within sixty days of receipt of the notice appealed from, to show cause why the owner should not comply with such notice. Such appeal must be in writing. Failure to file a written appeal with the Board within the time prescribed herein shall constitute a waiver of the right to appeal. However, filing of an appeal from any such notice shall suspend action on enforcement of such notice until there is a final decision of the appeal by the Board.

(Ord. 65-2022. Passed 5-24-22.)

1380.08 CERTIFICATE OF COMPLIANCE.

- (a) At the request of the owner of property or the owner's agent, a letter or other written document shall be issued by and signed and dated by the Building Commissioner stating that all violations listed on the vacant building inspection report have been completed to the Municipality's satisfaction, and the property is eligible for occupancy. No previously vacant building, or vacant unit of a building, can be occupied until this certificate of compliance is obtained. This certificate of compliance is not in lieu of a business occupancy application. Upon issuance of a certificate of compliance, a user of a building or unit of a building, must still file for and obtain a business occupancy certificate from the Building Commissioner prior to having operations open to the public.
- (b) At the request of the owner of the property or the owner's agent, a letter or other written document shall be issued, signed and dated by the Building Commissioner stating that specific violations listed on the vacant building inspection report have been completed to the Municipality's satisfaction. If the Building Commissioner issues such a letter or written document, it shall contain the specific violation(s) that remain outstanding.

(Ord. 65-2022. Passed 5-24-22.)

1380.09 LIABILITY.

The issuance of a certificate of compliance does not guarantee compliance with the Building, Housing and/or Zoning Codes, and neither the Building Commissioner nor the Commissioner's duly authorized designee(s) accept any liability for noncompliance with those Codes. Such certificate shall be considered by all parties as the Municipality's best effort to make known to the owner, a potential purchaser, or potential tenant, of any violations on a given property at the time the inspection is made.

- (a) The Municipality assumes no liability or responsibility for the failure to report violations that may exist and makes no guarantee whatsoever therefor, since there may be further violations which were not detected which may arise in the future or which may only be determined by a licensed electrician, plumber or other specialist at the expense of the person desiring such an inspection.
- (b) In issuing a vacant building inspection report, the Municipality does not thereby insure, warrant or guarantee to the holder thereof, to the holder's assignees, or any other interested party that such report contains all of the violations of the Codified Ordinances or state or federal law.
- (c) In issuing a certificate of compliance document under the provisions of this chapter, the Municipality does not thereby insure, warrant or guarantee the quality of repair or standard of work completed in the correction of violations listed on a vacant building inspection report. Such document should be construed only as a statement by the Municipality that some or all of the violations listed on the vacant building inspection report have been corrected to the Municipality's satisfaction.

(Ord. 65-2022. Passed 5-24-22.)

1380.99 PENALTY.

Any person who violates any provision of this chapter or of the rules and regulations issued hereunder shall be fined not less than two hundred dollars (\$200.00) and not more than one thousand dollars (\$1,000) for each offense. Every day that a violation continues shall constitute a separate and distinct offense. Unpaid registration fees and fines shall be made an assessment on the property enforceable in the same manner as assessments for delinquent property taxes.

(Ord. 65-2022. Passed 5-24-22.)

CROSS REFERENCES

Flood control bonds - see Ohio Const. Art. VIII, Sec. 21; Ohio R.C. 129.70 et seq.
 Basis of zoning districts - see Ohio R.C. 713.10
 Ohio Water Commission - see Ohio R.C. 1525.01 et seq.

1390.01 CONSTITUTIONAL AUTHORIZATION.

Article XVIII, Section 3, of the Ohio Constitution grants municipalities the legal authority to adopt land use and control measures for promoting the health, safety, and general welfare of its citizens. Therefore, the City Council of the City of Richmond Heights, State of Ohio does ordain as follows in this Title IX.
 (Ord. 78-2010. Passed 11-23-10.)

1390.02 FINDINGS OF FACT.

The City of Richmond Heights has special flood hazard areas that are subject to periodic inundation which may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base. Additionally, structures that are inadequately elevated, floodproofed, or otherwise protected from flood damage also contribute to the flood loss. In order to minimize the threat of such damages and to achieve the purposes hereinafter set forth, these regulations are adopted.
 (Ord. 78-2010. Passed 11-23-10.)

1390.03 STATEMENT OF PURPOSE.

It is the purpose of these regulations to promote the public health, safety and general welfare, and to:

- (a) Protect human life and health;
- (b) Minimize expenditure of public money for costly flood control projects;
- (c) Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
- (d) Minimize prolonged business interruptions;
- (e) Minimize damage to public facilities and utilities such as gas and water mains, electric, telephone and sewer lines, streets and bridges located in areas of special flood hazard;
- (f) Help maintain a stable tax base by providing for the proper use and development of areas of special flood hazard so as to protect property and minimize future flood blight areas;
- (g) Ensure that those who occupy the areas of special flood hazard assume responsibility for their actions;
- (h) Minimize the impact of development on adjacent properties within and near flood prone areas;
- (i) Ensure that the flood storage and conveyance functions of the floodplain are maintained;
- (j) Minimize the impact of development on the natural, beneficial values of the floodplain;
- (k) Prevent floodplain uses that are either hazardous or environmentally incompatible; and
- (l) Meet community participation requirements of the National Flood Insurance Program. (Ord. 78-2010. Passed 11-23-10.)

1390.04 METHODS OF REDUCING FLOOD LOSS.

In order to accomplish its purposes, these regulations include methods and provisions for:

- (a) Restricting or prohibiting uses which are dangerous to health, safety, and property due to water hazards, or which result in damaging increases in flood heights or velocities;
- (b) Requiring that uses vulnerable to floods, including facilities, which serve such uses, be protected against flood damage at the time of initial construction;
- (c) Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
- (d) Controlling filling, grading, dredging, excavating, and other development which may increase flood damage; and
- (e) Preventing or regulating the construction of flood barriers, which will unnaturally divert flood waters or which may increase flood hazards in other areas.
 (Ord. 78-2010. Passed 11-23-10.)

1390.05 LANDS TO WHICH THESE REGULATIONS APPLY.

These regulations shall apply to all areas of special flood hazard within the jurisdiction of the City of Richmond Heights as identified in Section 1390.06, including any additional areas of special flood hazard annexed by the City of Richmond Heights.
 (Ord. 78-2010. Passed 11-23-10.)

1390.06 BASIS FOR ESTABLISHING THE AREAS OF SPECIAL FLOOD HAZARD.

For the purposes of these regulations, the following studies and/or maps are adopted:

- (a) Flood Insurance Study Cuyahoga County, Ohio and Incorporated Areas and Flood Insurance Rate Map Cuyahoga County, Ohio and Incorporated Areas both effective December 3, 2010.
- (b) Other studies and/or maps, which may be relied upon for establishment of the flood protection elevation, delineation of the 100-year floodplain, floodways or delineation of other areas of special flood hazard.
- (c) Any hydrologic and hydraulic engineering analysis authored by a registered Professional Engineer in the State of Ohio which has been approved by the City of Richmond Heights as required by Section 1393.03, Subdivisions and Large Developments.

Any revisions to the aforementioned maps and/or studies are hereby adopted by reference and declared to be a part of these regulations. Such maps and/or studies are on file at the City Hall at 26789 Highland Road, Richmond Heights, Ohio.
 (Ord. 78-2010. Passed 11-23-10.)

1390.07 ABROGATION AND GREATER RESTRICTIONS.

These regulations are not intended to repeal any existing ordinances including subdivision regulations, zoning or building codes. In the event of a conflict between these regulations and any other ordinance, the more restrictive shall be followed. These regulations shall not impair any deed restriction covenant or easement but the land subject to such interests shall also be governed by the regulations. (Ord. 78-2010. Passed 11-23-10.)

1390.08 INTERPRETATION.

In the interpretation and application of these regulations, all provisions shall be:

- (a) Considered as minimum requirements;
- (b) Liberally construed in favor of the governing body; and,
- (c) Deemed neither to limit nor repeal any other powers granted under state statutes.
 (Ord. 78-2010. Passed 11-23-10.)

1390.09 WARNING AND DISCLAIMER OF LIABILITY.

The degree of flood protection required by these regulations is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. These regulations do not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damage. These regulations shall not create liability on the part of the City of Richmond Heights, any officer or employee thereof, or the Federal Emergency Management Agency, for any flood damage that results from reliance on these regulations or any administrative decision lawfully made thereunder.
 (Ord. 78-2010. Passed 11-23-10.)

1390.10 SEVERABILITY.

Should any section or provision of these regulations be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the regulations as a whole, or any part thereof other than the part so declared to be unconstitutional or invalid.
 (Ord. 78-2010. Passed 11-23-10.)

General Code definitions - see ADM. 101.02
Planning and zoning definitions - see P. & Z. Ch. 1123

1391.01 DEFINITIONS GENERALLY.

Unless specifically defined below, words or phrases used in these regulations shall be interpreted so as to give them the meaning they have in common usage and to give these regulations the most reasonable application.
(Ord. 78-2010. Passed 11-23-10.)

1391.02 ACCESSORY STRUCTURE.

A structure on the same lot with, and of a nature customarily incidental and subordinate to, the principal structure.
(Ord. 78-2010. Passed 11-23-10.)

1391.03 APPEAL.

A request for review of the floodplain administrator's interpretation of any provision of these regulations or a request for a variance.
(Ord. 78-2010. Passed 11-23-10.)

1391.04 BASE FLOOD.

The flood having a one percent chance of being equaled or exceeded in any given year. The base flood may also be referred to as the 1% chance annual flood or one-hundred (100) year flood. (Ord. 78-2010. Passed 11-23-10.)

1391.05 BASE (100-YEAR) FLOOD ELEVATION (BFE).

The water surface elevation of the base flood in relation to a specified datum, usually the National Geodetic Vertical Datum of 1929 or the North American Vertical Datum of 1988, and usually expressed in Feet Mean Sea Level (MSL). In Zone AO areas, the base flood elevation is the natural grade elevation plus the depth number (from 1 to 3 feet).
(Ord. 78-2010. Passed 11-23-10.)

1391.06 BASEMENT.

Any area of the building having its floor subgrade (below ground level) on all sides.
(Ord. 78-2010. Passed 11-23-10.)

1391.07 DEVELOPMENT.

Any manmade change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.
(Ord. 78-2010. Passed 11-23-10.)

1391.08 ENCLOSURE BELOW THE LOWEST FLOOR.

See "Lowest Floor."
(Ord. 78-2010. Passed 11-23-10.)

1391.09 EXECUTIVE ORDER 11988 (FLOODPLAIN MANAGEMENT).

Issued by President Carter in 1977, this order requires that no federally assisted activities be conducted in or have the potential to affect identified special flood hazard areas, unless there is no practicable alternative.
(Ord. 78-2010. Passed 11-23-10.)

1391.10 FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA).

The agency with the overall responsibility for administering the National Flood Insurance Program. (Ord. 78-2010. Passed 11-23-10.)

1391.11 FILL.

A deposit of earth material placed by artificial means.
(Ord. 78-2010. Passed 11-23-10.)

1391.12 FLOOD OR FLOODING.

A general and temporary condition of partial or complete inundation of normally dry land areas from:
(a) The overflow of inland or tidal waters, and/or
(b) The unusual and rapid accumulation or runoff of surface waters from any source.
(Ord. 78-2010. Passed 11-23-10.)

1391.13 FLOOD HAZARD BOUNDARY MAP (FHB).

Usually the initial map, produced by the Federal Emergency Management Agency, or U.S. Department of Housing and Urban Development, for a community depicting approximate special flood hazard areas. (Ord. 78-2010. Passed 11-23-10.)

1391.14 FLOOD INSURANCE RATE MAP (FIRM).

An official map on which the Federal Emergency Management Agency or the U.S. Department of Housing and Urban Development has delineated the areas of special flood hazard.
(Ord. 78-2010. Passed 11-23-10.)

1391.15 FLOOD INSURANCE RISK ZONES.

Zone designations on FHBMs and FIRMs that indicate the magnitude of the flood hazard in specific areas of a community. Following are the zone definitions:

- (a) Zone A:
Special flood hazard areas inundated by the 100-year flood; base flood elevations are not determined.
- (b) Zones A1-30 and Zone AE:
Special flood hazard areas inundated by the 100-year flood; base flood elevations are determined.
- (c) Zone AO:
- (d) Special flood hazard areas inundated by the 100-year flood; with flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths are determined.
- (e) Zone AH:
Special flood hazard areas inundated by the 100-year flood; flood depths of 1 to 3 feet (usually areas of ponding); base flood elevations are determined.
- (f) Zone A99:
Special flood hazard areas inundated by the 100-year flood to be protected from the 100-year flood by a Federal flood protection system under construction; no base flood elevations are determined.
- (g) Zone B and Zone X (shaded):
Areas of 500-year flood; areas subject to the 100-year flood with average depths of less than 1 foot or with contributing drainage area less than 1 square mile; and areas protected by levees from the base flood.
- (h) Zone C and Zone X (unshaded):
Areas determined to be outside the 500-year floodplain.
(Ord. 78-2010. Passed 11-23-10.)

1391.16 FLOOD INSURANCE STUDY (FIS).

The official report in which the Federal Emergency Management Agency or the U.S. Department of Housing and Urban Development has provided flood profiles, floodway boundaries (sometimes shown on Flood Boundary and Floodway Maps), and the water surface elevations of the base flood. (Ord. 78-2010. Passed 11-23-10.)

1391.17 FLOOD PROTECTION ELEVATION.

The Flood Protection Elevation, or FPE, is the base flood elevation. In areas where no base flood elevations exist from any authoritative source, the flood protection elevation can be historical flood elevations, or base flood elevations determined and/or approved by the floodplain administrator. (Ord. 78-2010. Passed 11-23-10.)

1391.18 FLOODWAY.

(a) A floodway is the channel of a river or other watercourse and the adjacent land areas that have been reserved in order to pass the base flood discharge. A floodway is typically determined through a hydraulic and hydrologic engineering analysis such that the cumulative increase in the water surface elevation of the base flood discharge is no more than a designated height. In no case shall the designated height be more than one foot at any point within the community.
(b) The floodway is an extremely hazardous area, and is usually characterized by any of the following: Moderate to high velocity flood waters, high potential for debris and projectile impacts, and moderate to high erosion forces.
(Ord. 78-2010. Passed 11-23-10.)

1391.19 FREEBOARD.

A factor of safety usually expressed in feet above a flood level for the purposes of floodplain management. Freeboard tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, obstructed bridge openings, debris and ice jams, and the hydrologic effect of urbanization in a watershed.
(Ord. 78-2010. Passed 11-23-10.)

1391.20 HISTORIC STRUCTURE.

Any structure that is:

- (a) Listed individually in the National Register of Historic Places (a listing maintained by the U.S. Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listings on the National Register;
- (b) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district; or
- (c) Individually listed on the State of Ohio's inventory of historic places maintained by the Ohio Historic Preservation Office.
(Ord. 78-2010. Passed 11-23-10.)

1391.21 HYDROLOGIC AND HYDRAULIC ENGINEERING ANALYSIS.

An analysis performed by a professional engineer, registered in the State of Ohio, in accordance with standard engineering practices as accepted by FEMA, used to determine flood elevations and/or floodway boundaries. (Ord. 78-2010. Passed 11-23-10.)

1391.22 LETTER OF MAP CHANGE (LOMC).

A Letter of Map Change is an official FEMA determination, by letter, to amend or revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, and Flood Insurance Studies. LOMCs are broken down into the following categories:

- (a) Letter of Map Amendment (LOMA). A revision based on technical data showing that a property was incorrectly included in a designated special flood hazard area. A LOMA amends the current effective Flood Insurance Rate Map and establishes that a specific property is not located in a special flood hazard area.
- (b) Letter of Map Revision (LOMR). A revision based on technical data that, usually due to manmade changes, shows changes to flood zones, flood elevations, floodplain and floodway delineations, and planimetric features. One common type of LOMR, a LOMR-F, is a determination concerning whether a structure or parcel has been elevated by fill above the base flood elevation and is, therefore, excluded from the special flood hazard area.
- (c) Conditional Letter of Map Revision (CLOMR). A formal review and comment by FEMA as to whether a proposed project complies with the minimum National Flood Insurance Program floodplain management criteria. A CLOMR does not amend or revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, or Flood Insurance Studies.

(Ord. 78-2010. Passed 11-23-10.)

1391.23 LOWEST FLOOR.

The lowest floor of the lowest enclosed area (including basement) of a structure. This definition excludes an "enclosure below the lowest floor" which is an unfinished or flood resistant enclosure usable solely for parking of vehicles, building access or storage, in an area other than a basement area, provided that such enclosure is built in accordance with the applicable design requirements specified in these regulations for enclosures below the lowest floor.

(Ord. 78-2010. Passed 11-23-10.)

1391.24 MANUFACTURED HOME.

A structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. The term "manufactured home" does not include a "recreational vehicle." For the purposes of these regulations, a manufactured home includes manufactured homes and mobile homes as defined in Chapter 3733 of the Ohio Revised Code.

(Ord. 78-2010. Passed 11-23-10.)

1391.25 MANUFACTURED HOME PARK.

As specified in the Ohio Administrative Code 3701-27-01, a manufactured home park means any tract of land upon which three or more manufactured homes, used for habitation are parked, either free of charge or for revenue purposes, and includes any roadway, building, structure, vehicle, or enclosure used or intended for use as part of the facilities of the park. A tract of land that is subdivided and the individual lots are not for rent or rented, but are for sale or sold for the purpose of installation of manufactured homes on the lots, is not a manufactured home park, even though three or more manufactured homes are parked thereon, if the roadways are dedicated to the local government authority.

(Ord. 78-2010. Passed 11-23-10.)

1391.26 NATIONAL FLOOD INSURANCE PROGRAM (NFIP).

The NFIP is a Federal program enabling property owners in participating communities to purchase insurance protection against losses from flooding. This insurance is designed to provide an insurance alternative to disaster assistance to meet the escalating costs of repairing damage to buildings and their contents caused by floods. Participation in the NFIP is based on an agreement between local communities and the Federal government that states if a community will adopt and enforce floodplain management regulations to reduce future flood risks to all development in special flood hazard areas, the Federal government will make flood insurance available within the community as a financial protection against flood loss.

(Ord. 78-2010. Passed 11-23-10.)

1391.27 NEW CONSTRUCTION.

Structures for which the "start of construction" commenced on or after the initial effective date of the City of Richmond Heights Flood Insurance Rate Map, January 4, 1985, and includes any subsequent improvements to such structures.

(Ord. 78-2010. Passed 11-23-10.)

1391.28 PERSON.

Includes any individual or group of individuals, corporation, partnership, association, or any other entity, including state and local governments and agencies. An agency is further defined in the Ohio Revised Code Section 111.15 as any governmental entity of the state and includes, but is not limited to, any board, department, division, commission, bureau, society, council, institution, state college or university, community college district, technical college district, or state community college. "Agency" does not include the general assembly, the controlling board, the adjutant general's department, or any court.

(Ord. 78-2010. Passed 11-23-10.)

1391.29 RECREATIONAL VEHICLE.

A vehicle which is (1) built on a single chassis, (2) 400 square feet or less when measured at the largest horizontal projection, (3) designed to be self-propelled or permanently towable by a light duty truck, and (4) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

(Ord. 78-2010. Passed 11-23-10.)

1391.30 REGISTERED PROFESSIONAL ARCHITECT.

A person registered to engage in the practice of architecture under the provisions of sections 4703.01 to 4703.19 of the Revised Code.

(Ord. 78-2010. Passed 11-23-10.)

1391.31 REGISTERED PROFESSIONAL ENGINEER.

A person registered as a professional engineer under Chapter 4733 of the Revised Code.

(Ord. 78-2010. Passed 11-23-10.)

1391.32 REGISTERED PROFESSIONAL SURVEYOR.

A person registered as a professional surveyor under Chapter 4733 of the Revised Code.

(Ord. 78-2010. Passed 11-23-10.)

1391.33 SPECIAL FLOOD HAZARD AREA.

Also known as "Areas of Special Flood Hazard", it is the land in the floodplain subject to a one percent or greater chance of flooding in any given year. Special flood hazard areas are designated by the Federal Emergency Management Agency on Flood Insurance Rate Maps, Flood Insurance Studies, Flood Boundary and Floodway Maps and Flood Hazard Boundary Maps as Zones A, AE, AH, AO, A1 30, and A99. Special flood hazard areas may also refer to areas that are flood prone and designated from other federal state or local sources of data including but not limited to historical flood information reflecting high water marks, previous flood inundation areas, and flood prone soils associated with a watercourse.

(Ord. 78-2010. Passed 11-23-10.)

1391.34 START OF CONSTRUCTION.

The date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading, and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of a building.

(Ord. 78-2010. Passed 11-23-10.)

1391.35 STRUCTURE.

A walled and roofed building, manufactured home, or gas or liquid storage tank that is principally above ground. (Ord. 78-2010. Passed 11-23-10.)

1391.36 SUBSTANTIAL DAMAGE.

Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

(Ord. 78-2010. Passed 11-23-10.)

1391.37 SUBSTANTIAL IMPROVEMENT.

Any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures, which have incurred "substantial damage," regardless of the actual repair work performed. The term does not, however, include:

- (a) Any improvement to a structure that is considered "new construction,"
- (b) Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified prior to the application for a development permit by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or
- (c) Any alteration of a "historic structure," provided that the alteration would not preclude the structure's continued designation as a "historic structure."

(Ord. 78-2010. Passed 11-23-10.)

1391.38 VARIANCE.

A grant of relief from the standards of these regulations consistent with the variance conditions herein. (Ord. 78-2010. Passed 11-23-10.)

1391.39 VIOLATION.

The failure of a structure or other development to be fully compliant with these regulations.

(Ord. 78-2010. Passed 11-23-10.)

CHAPTER 1392

Administration

1392.01 Designation of the Floodplain Administrator.

1392.02 Duties and responsibilities of the Floodplain Administrator.

1392.03 Floodplain development permits.

1392.04 Application required.

1392.05 Review and approval of a floodplain development permit application.

1392.06 Inspections.

1392.07 Post-construction certifications required.

1392.08 Revoking a floodplain development permit.

1392.09 Exemption from filing a development permit.

- 1392.10 Map maintenance activities.**
1392.11 Data use and flood map interpretation.
1392.12 Substantial damage determination.

1392.01 DESIGNATION OF THE FLOODPLAIN ADMINISTRATOR.

The Building Commissioner is hereby appointed to administer and implement these regulations and is referred to herein as the Floodplain Administrator.
(Ord. 78-2010. Passed 11-23-10.)

1392.02 DUTIES AND RESPONSIBILITIES OF THE FLOODPLAIN ADMINISTRATOR.

The duties and responsibilities of the Floodplain Administrator shall include but are not limited to:

- (a) Evaluate applications for permits to develop in special flood hazard areas.
- (b) Interpret actual floodplain boundaries in the field and provide flood hazard and flood protection elevation information.
- (c) Issue permits to develop in special flood hazard areas when the provisions of these regulations have been met, or refuse to issue the same in the event of noncompliance.
- (d) Inspect buildings and lands to determine whether any violations of these regulations have been committed.
- (e) Make and permanently keep all records for public inspection necessary for the administration of these regulations including Flood Insurance Rate Maps, Letters of Map Amendment and Revision, records of issuance and denial of permits to develop in special flood hazard areas, determinations of whether development is in or out of special flood hazard areas for the purpose of issuing floodplain development permits, elevation certificates, variances, and records of enforcement actions taken for violations of these regulations.
- (f) Enforce the provisions of these regulations.
- (g) Provide information, testimony, or other evidence as needed during variance hearings.
- (h) Coordinate map maintenance activities and FEMA follow-up.
- (i) Conduct substantial damage determinations to determine whether existing structures, damaged from any source and in special flood hazard areas identified by FEMA, must meet the development standards of these regulations.

(Ord. 78-2010. Passed 11-23-10.)

1392.03 FLOODPLAIN DEVELOPMENT PERMITS.

It shall be unlawful for any person to begin construction or other development activity including but not limited to filling; grading; construction; alteration, remodeling, or expanding any structure; or alteration of any watercourse wholly within, partially within or in contact with any identified special flood hazard area, as established in Section 1390.06, until a floodplain development permit is obtained from the Floodplain Administrator. Such floodplain development permit shall show that the proposed development activity is in conformity with the provisions of these regulations. No such permit shall be issued by the Floodplain Administrator until the requirements of these regulations have been met.

(Ord. 78-2010. Passed 11-23-10.)

1392.04 APPLICATION REQUIRED.

An application for a floodplain development permit shall be required for all development activities located wholly within, partially within, or in contact with an identified special flood hazard area. Such application shall be made by the owner of the property or his/her authorized agent, herein referred to as the applicant, prior to the actual commencement of such construction on a form furnished for that purpose. Where it is unclear whether a development site is in a special flood hazard area, the Floodplain Administrator may require an application for a floodplain development permit to determine the development's location. Such applications shall include, but not be limited to:

- (a) Site plans drawn to scale showing the nature, location, dimensions, and topography of the area in question; the location of existing or proposed structures, fill, storage of materials, drainage facilities, and the location of the foregoing.
- (b) Elevation of the existing, natural ground where structures are proposed.
- (c) Elevation of the lowest floor, including basement, of all proposed structures.
- (d) Such other material and information as may be requested by the Floodplain Administrator to determine conformance with, and provide enforcement of these regulations.
- (e) Technical analyses conducted by the appropriate design professional registered in the State of Ohio and submitted with an application for a floodplain development permit when applicable:
 - (1) Floodproofing certification for non-residential floodproofed structure as required in Section 1393.05.
 - (2) Certification that fully enclosed areas below the lowest floor of a structure not meeting the design requirements of Section 1393.04(e) are designed to automatically equalize hydrostatic flood forces.
 - (3) Description of any watercourse alteration or relocation that the flood carrying capacity of the watercourse will not be diminished, and maintenance assurances as required in Section 1393.09(c).
 - (4) A hydrologic and hydraulic analysis demonstrating that the cumulative effect of proposed development, when combined with all other existing and anticipated development will not increase the water surface elevation of the base flood by more than one foot in special flood hazard areas where the Federal Emergency Management Agency has provided base flood elevations but no floodway as required by Section 1393.09(b).
 - (5) A hydrologic and hydraulic engineering analysis showing impact of any development on flood heights in an identified floodway as required by Section 1393.09(a).
- (f) Generation of base flood elevation(s) for subdivision and large-scale developments as required by Section 1393.03.
- (f) A floodplain development permit application fee set by the schedule of fees adopted by the City of Richmond Heights.

(Ord. 78-2010. Passed 11-23-10.)

1392.05 REVIEW AND APPROVAL OF A FLOODPLAIN DEVELOPMENT PERMIT APPLICATION.

(a) Review.

- (1) After receipt of a complete application, the Floodplain Administrator shall review the application to ensure that the standards of these regulations have been met. No floodplain development permit application shall be reviewed until all information required in Section 1392.04 has been received by the Floodplain Administrator.
 - (2) The Floodplain Administrator shall review all floodplain development permit applications to assure that all necessary permits have been received from those federal, state or local governmental agencies from which prior approval is required. The applicant shall be responsible for obtaining such permits as required including permits issued by the U.S. Army Corps of Engineers under Section 10 of the Rivers and Harbors Act and Section 404 of the Clean Water Act, and the Ohio Environmental Protection Agency under Section 401 of the Clean Water Act.
- (b) **Approval.** Within thirty (30) days after the receipt of a complete application, the Floodplain Administrator shall either approve or disapprove the application. If an application is approved, a floodplain development permit shall be issued. All floodplain development permits shall be conditioned upon the commencement of work within one (1) year. A floodplain development permit shall expire one (1) year after issuance unless the permitted activity has been substantially begun and is thereafter pursued to completion.

(Ord. 78-2010. Passed 11-23-10.)

1392.06 INSPECTIONS.

The Floodplain Administrator shall make periodic inspections at appropriate times throughout the period of construction in order to monitor compliance with permit conditions.

(Ord. 78-2010. Passed 11-23-10.)

1392.07 POST-CONSTRUCTION CERTIFICATIONS REQUIRED.

The following as-built certifications are required after a floodplain development permit has been issued:

- (a) For new or substantially improved residential structures, or nonresidential structures that have been elevated, the applicant shall have a Federal Emergency Management Agency Elevation Certificate completed by a registered surveyor to record as-built elevation data. For elevated structures in Zone A and Zone AO areas without a base flood elevation, the elevation certificate may be completed by the property owner or owner's representative.
- (b) For all development activities subject to the standards of Section 1392.10(a), a Letter of Map Revision.

(Ord. 78-2010. Passed 11-23-10.)

1392.08 REVOKING A FLOODPLAIN DEVELOPMENT PERMIT.

A floodplain development permit shall be revocable, if among other things, the actual development activity does not conform to the terms of the application and permit granted thereon. In the event of the revocation of a permit, an appeal may be taken to the Appeals Board in accordance with Chapter 1394 of these regulations.

(Ord. 78-2010. Passed 11-23-10.)

1392.09 EXEMPTION FROM FILING A DEVELOPMENT PERMIT.

An application for a floodplain development permit shall not be required for:

- (a) Maintenance work such as roofing, painting, and basement sealing, or for small nonstructural development activities (except for filling and grading) valued at less than \$5,000.
 - (b) Development activities in an existing or proposed manufactured home park that are under the authority of the Ohio Department of Health and subject to the flood damage reduction provisions of the Ohio Administrative Code Section 3701.
 - (c) Major utility facilities permitted by the Ohio Power Siting Board under Section 4906 of the Ohio Revised Code.
 - (d) Hazardous waste disposal facilities permitted by the Hazardous Waste Siting Board under Section 3734 of the Ohio Revised Code.
 - (e) Development activities undertaken by a federal agency and which are subject to Federal Executive Order 11988 - Floodplain Management.
- Any proposed action exempt from filing for a floodplain development permit is also exempt from the standards of these regulations.

(Ord. 78-2010. Passed 11-23-10.)

1392.10 MAP MAINTENANCE ACTIVITIES.

To meet National Flood Insurance Program minimum requirements to have flood data reviewed and approved by FEMA, and to ensure that City of Richmond Heights flood maps, studies and other data identified in Section 1390.06 accurately represent flooding conditions so appropriate floodplain management criteria are based on current data, the following map maintenance activities are identified:

(a) Requirement to Submit New Technical Data.

- (1) For all development proposals that impact floodway delineations or base flood elevations, the community shall ensure that technical data reflecting such changes be submitted to FEMA within six months of the date such information becomes available. These development proposals include:
 - A. Floodway encroachments that increase or decrease base flood elevations or alter floodway boundaries;
 - B. Fill sites to be used for the placement of proposed structures where the applicant desires to remove the site from the special flood hazard area;
 - C. Alteration of watercourses that result in a relocation or elimination of the special flood hazard area, including the placement of culverts; and
 - D. Subdivision or large scale development proposals requiring the establishment of base flood elevations in accordance with Section 1393.03.
 - (2) It is the responsibility of the applicant to have technical data, required in accordance with Section 1392.10(a), prepared in a format required for a Conditional Letter of Map Revision or Letter of Map Revision, and submitted to FEMA. Submittal and processing fees for these map revisions shall be the responsibility of the applicant.
 - (3) The Floodplain Administrator shall require a Conditional Letter of Map Revision prior to the issuance of a floodplain development permit for:
 - A. Proposed floodway encroachments that increase the base flood elevation; and
 - B. Proposed development which increases the base flood elevation by more than one foot in areas where FEMA has provided base flood elevations but no floodway.
 - (4) Floodplain development permits issued by the Floodplain Administrator shall be conditioned upon the applicant obtaining a Letter of Map Revision from FEMA for any development proposal subject to Section 1392.10(a)(1).
- (b) **Right to Submit New Technical Data.** The Floodplain Administrator may request changes to any of the information shown on an effective map that does not impact floodplain or floodway delineations or base flood elevations, such as labeling or planimetric details. Such a submission shall include appropriate supporting documentation made in writing by the Mayor of the City of Richmond Heights, and may be

submitted at any time.

- (c) Annexation/Detachment. Upon occurrence, the Floodplain Administrator shall notify FEMA in writing whenever the boundaries of the City of Richmond Heights have been modified by annexation or the community has assumed authority over an area, or no longer has authority to adopt and enforce floodplain management regulations for a particular area. In order that the City of Richmond Heights Flood Insurance Rate Map accurately represent the City of Richmond Heights boundaries, include within such notification a copy of a map of the City of Richmond Heights suitable for reproduction, clearly showing the new corporate limits or the new area for which the City of Richmond Heights has assumed or relinquished floodplain management regulatory authority.

(Ord. 78-2010. Passed 11-23-10.)

1392.11 DATA USE AND FLOOD MAP INTERPRETATION.

The following guidelines shall apply to the use and interpretation of maps and other data showing areas of special flood hazard:

- (a) In areas where FEMA has not identified special flood hazard areas, or in FEMA identified special flood hazard areas where base flood elevation and floodway data have not been identified, the Floodplain Administrator shall review and reasonably utilize any other flood hazard data available from a federal, state, or other source.
- (b) Base flood elevations and floodway boundaries produced on FEMA flood maps and studies shall take precedence over base flood elevations and floodway boundaries by any other source that reflect a reduced floodway width and/or lower base flood elevations. Other sources of data, showing increased base flood elevations and/or larger floodway areas than are shown on FEMA flood maps and studies, shall be reasonably used by the Floodplain Administrator.
- (c) When Preliminary Flood Insurance Rate Maps and/or Flood Insurance Study have been provided by FEMA:
- (1) Upon the issuance of a Letter of Final Determination by the FEMA, the preliminary flood hazard data shall be used and replace all previously existing flood hazard data provided from FEMA for the purposes of administering these regulations.
- (2) Prior to the issuance of a Letter of Final Determination by FEMA, the use of preliminary flood hazard data shall only be required where no base flood elevations and/or floodway areas exist or where the preliminary base flood elevations or floodway area exceed the base flood elevations and/or floodway widths in existing flood hazard data provided from FEMA. Such preliminary data may be subject to change and/or appeal to FEMA.
- (d) The Floodplain Administrator shall make interpretations, where needed, as to the exact location of the flood boundaries and areas of special flood hazard in the field. A person contesting the determination of the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in Chapter 1394, Appeals and Variances.
- (e) Where a map boundary showing an area of special flood hazard and field elevations disagree, the base flood elevations or flood protection elevations (as found on an elevation profile, floodway data table, established high water marks, etc.) shall prevail. (Ord. 78-2010. Passed 11-23-10.)

1392.12 SUBSTANTIAL DAMAGE DETERMINATIONS.

Damages to structures may result from a variety of causes including flood, tornado, wind, heavy snow, fire, etc. After such a damage event, the Floodplain Administrator shall:

- (a) Determine whether damaged structures are located in special flood hazard areas;
- (b) Conduct substantial damage determinations for damaged structures located in special flood hazard areas; and
- (c) Make reasonable attempt to notify owners of substantially damaged structures of the need to obtain a floodplain development permit prior to repair, rehabilitation, or reconstruction.
- Additionally, the Floodplain Administrator may implement other measures to assist with the substantial damage determination and subsequent repair process. These measures include issuing press releases, public service announcements, and other public information materials related to the floodplain development permits and repair of damaged structures; coordinating with other federal, state, and local agencies to assist with substantial damage determinations; providing owners of damaged structures materials and other information related to the proper repair of damaged structures in special flood hazard areas; and assist owners of substantially damaged structures with Increased Cost of Compliance insurance claims.

(Ord. 78-2010. Passed 11-23-10.)

CHAPTER 1393

Use and Development Standards for

Flood Hazard Reduction

1393.01 Use regulations.

1393.02 Water and wastewater systems.

1393.03 Subdivisions and large developments.

1393.04 Residential structures.

1393.05 Nonresidential structures.

1393.06 Accessory structures.

1393.07 Recreational vehicles.

1393.08 Above ground gas or liquid storage tanks.

1393.09 Assurance of flood carrying capacity.

The following use and development standards apply to development wholly within, partially within, or in contact with any special flood hazard area as established in Section 1390.06 or 1392.11(a):

1393.01 USE REGULATIONS.

(a) Permitted Uses. All uses not otherwise prohibited in this section or any other applicable land use regulation adopted by the City of Richmond Heights are allowed provided they meet the provisions of these regulations.

(b) Prohibited Uses.

- (1) Private water supply systems in all special flood hazard areas identified by FEMA, permitted under Section 3701 of the Ohio Revised Code.
- (2) Infectious waste treatment facilities in all special flood hazard areas, permitted under Section 3734 of the Ohio Revised Code.

(Ord. 78-2010. Passed 11-23-10.)

1393.02 WATER AND WASTEWATER SYSTEMS.

The following standards apply to all water supply, sanitary sewerage and waste disposal systems not otherwise regulated by the Ohio Revised Code:

- (a) All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the systems;
- (b) New and replacement sanitary sewerage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharge from the systems into flood waters; and,
- (c) On-site waste disposal systems shall be located to avoid impairment to or contamination from them during flooding.

(Ord. 78-2010. Passed 11-23-10.)

1393.03 SUBDIVISIONS AND LARGE DEVELOPMENTS.

- (a) All subdivision proposals shall be consistent with the need to minimize flood damage and are subject to all applicable standards in these regulations;
- (b) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical, and water systems located and constructed to minimize flood damage;
- (c) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood damage; and
- (d) In all areas of special flood hazard where base flood elevation data are not available, the applicant shall provide a hydrologic and hydraulic engineering analysis that generates base flood elevations for all subdivision proposals and other proposed developments containing at least 50 lots or 5 acres, whichever is less.
- (e) The applicant shall meet the requirement to submit technical data to FEMA in Section 1392.10(a)(1)D. when a hydrologic and hydraulic analysis is completed that generates base flood elevations as required by Section 1393.03(d).

(Ord. 78-2010. Passed 11-23-10.)

1393.04 RESIDENTIAL STRUCTURES.

(a) New construction and substantial improvements shall be anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy. Where a structure, including its foundation members, is elevated on fill to or above the base flood elevation, the requirements for anchoring (1393.04(a)) and construction materials resistant to flood damage (1393.04(b)) are satisfied.

(b) New construction and substantial improvements shall be constructed with methods and materials resistant to flood damage.

(c) New construction and substantial improvements shall be constructed with electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities that are designed and/or elevated so as to prevent water from entering or accumulating within the components during conditions of flooding.

(d) New construction and substantial improvement of any residential structure, including manufactured homes, shall have the lowest floor, including basement, elevated to or above the flood protection elevation. In Zone AO areas with no elevations specified, the structure shall have the lowest floor, including basement, elevated at least two feet above the highest adjacent natural grade.

(e) New construction and substantial improvements, including manufactured homes, that do not have basements and that are elevated to the flood protection elevation using pilings, columns, posts, or solid foundation perimeter walls with openings sufficient to allow unimpeded movement of flood waters may have an enclosure below the lowest floor provided the enclosure meets the following standards:

- (1) Be used only for the parking of vehicles, building access, or storage; and
- (2) Be designed and certified by a registered professional engineer or architect to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters; or
- (3) Have a minimum of two openings on different walls having a total net area not less than one square inch for every square foot of enclosed area, and the bottom of all such openings being no higher than one foot above grade. The openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

(f) Manufactured homes shall be affixed to a permanent foundation and anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

(g) Repair or rehabilitation of historic structures upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and is the minimum necessary to preserve the historic character and design of the structure, shall be exempt from the development standards of Section 1393.04.

(h) In AO Zones, new construction and substantial improvement shall have adequate drainage paths around structures on slopes to guide floodwaters around and away from the structure. (Ord. 78-2010. Passed 11-23-10.)

1393.05 NONRESIDENTIAL STRUCTURES.

(a) New construction and substantial improvement of any commercial, industrial or other nonresidential structure shall meet the requirements of Section 1393.04(a)-(c) and (e)-(h).

(b) New construction and substantial improvement of any commercial, industrial or other non-residential structure shall either have the lowest floor, including basement, elevated to or above the level of the flood protection elevation; or, together with attendant utility and sanitary facilities, shall meet all of the following standards:

- (1) Be dry floodproofed so that the structure is watertight with walls substantially impermeable to the passage of water to the level of the flood protection elevation;
- (2) Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and,
- (3) Be certified by a registered professional engineer or architect, through the use of a Federal Emergency Management Agency Floodproofing Certificate, that the design and methods of construction are in accordance with Section 1393.05(b)(1) and (2).

(c) In Zone AO areas with no elevations specified, the structure shall have the lowest floor, including basement, elevated at least two feet above the highest adjacent natural grade.

(Ord. 78-2010. Passed 11-23-10.)

1393.06 ACCESSORY STRUCTURES.

Relief to the elevation or dry floodproofing standards may be granted for accessory structures containing no more than 600 square feet. Such structures must meet the following standards:

- (a) They shall not be used for human habitation;
- (b) They shall be constructed of flood resistant materials;
- (c) They shall be constructed and placed on the lot to offer the minimum resistance to the flow of floodwaters;

- (d) They shall be firmly anchored to prevent flotation;
- (e) Service facilities such as electrical and heating equipment shall be elevated or floodproofed to or above the level of the flood protection elevation; and
- (f) They shall meet the opening requirements of Section 1393.04(e)(3);
(Ord. 78-2010. Passed 11-23-10.)

1393.07 RECREATIONAL VEHICLES.

Recreational vehicles must meet at least one of the following standards:

- (a) They shall not be located on sites in special flood hazard areas for more than 180 days, or
- (b) They must be fully licensed and ready for highway use, or
- (c) They must meet all standards of Section 1393.04.
(Ord. 78-2010. Passed 11-23-10.)

1393.08 ABOVE GROUND GAS OR LIQUID STORAGE TANKS.

All above ground gas or liquid storage tanks shall be anchored to prevent flotation or lateral movement resulting from hydrodynamic and hydrostatic loads.

(Ord. 78-2010. Passed 11-23-10.)

1393.09 ASSURANCE OF FLOOD CARRYING CAPACITY.

Pursuant to the purpose and methods of reducing flood damage stated in these regulations, the following additional standards are adopted to assure that the reduction of the flood carrying capacity of watercourses is minimized:

- (a) Development in Floodways.
 - (1) In floodway areas, development shall cause no increase in flood levels during the occurrence of the base flood discharge. Prior to issuance of a floodplain development permit, the applicant must submit a hydrologic and hydraulic analysis, conducted by a registered professional engineer, demonstrating that the proposed development would not result in any increase in the base flood elevation; or
 - (2) Development in floodway areas causing increases in the base flood elevation may be permitted provided all of the following are completed by the applicant:
 - A. Meet the requirements to submit technical data in Section 1392.10(a);
 - B. An evaluation of alternatives, which would not result in increased base flood elevations and an explanation why these alternatives are not feasible;
 - C. Certification that no structures are located in areas that would be impacted by the increased base flood elevation;
 - D. Documentation of individual legal notices to all impacted property owners within and outside the community, explaining the impact of the proposed action on their property; and
 - E. Concurrence of the Mayor of the City of Richmond Heights and the Chief Executive Officer of any other communities impacted by the proposed actions.
- (b) Development in Riverine Areas with Base Flood Elevations but No Floodways.
 - (1) In riverine special flood hazard areas identified by FEMA where base flood elevation data are provided but no floodways have been designated, the cumulative effect of any proposed development, when combined with all other existing and anticipated development, shall not increase the base flood elevation more than 1.0 (one) foot at any point. Prior to issuance of a floodplain development permit, the applicant must submit a hydrologic and hydraulic analysis, conducted by a registered professional engineer, demonstrating that this standard has been met; or
 - (2) Development in riverine special flood hazard areas identified by FEMA where base flood elevation data are provided but no floodways have been designated causing more than one foot increase in the base flood elevation may be permitted provided all of the following are completed by the applicant:
 - A. An evaluation of alternatives which would result in an increase of one foot or less of the base flood elevation and an explanation why these alternatives are not feasible;
 - B. Section 1393.09(a)(2)A. and C. - E.
- (c) Alterations of a Watercourse. For the purpose of these regulations, a watercourse is altered when any change occurs within its banks. The extent of the banks shall be established by a field determination of the "bankfull stage." The field determination of "bankfull stage" shall be based on methods presented in Chapter 7 of the USDA Forest Service General Technical Report RM-245, Stream Channel Reference Sites: An Illustrated Guide to Field Technique or other applicable publication available from a Federal, State, or other authoritative source. For all proposed developments that alter a watercourse, the following standards apply:
 - (1) The bankfull flood carrying capacity of the altered or relocated portion of the watercourse shall not be diminished. Prior to the issuance of a floodplain development permit, the applicant must submit a description of the extent to which any watercourse will be altered or relocated as a result of the proposed development, and certification by a registered professional engineer that the bankfull flood carrying capacity of the watercourse will not be diminished.
 - (2) Adjacent communities, the U.S. Army Corps of Engineers, and the Ohio Department of Natural Resources, Division of Water, must be notified prior to any alteration or relocation of a watercourse. Evidence of such notification must be submitted to the Federal Emergency Management Agency.
 - (3) The applicant shall be responsible for providing the necessary maintenance for the altered or relocated portion of said watercourse so that the flood carrying capacity will not be diminished. The Floodplain Administrator may require the permit holder to enter into an agreement with the City of Richmond Heights specifying the maintenance responsibilities. If an agreement is required, it shall be made a condition of the floodplain development permit.
 - (4) The applicant shall meet the requirements to submit technical data in Section 1392.10(a)(1)C. when an alteration of a watercourse results in the relocation or elimination of the special flood hazard area, including the placement of culverts.

(Ord. 78-2010. Passed 11-23-10.)

CHAPTER 1394

Appeals and Variances

1394.01 Appeals Board established.

1394.02 Powers and duties.

1394.03 Appeals.

1394.04 Variances.

1394.05 Procedure at hearings.

1394.06 Appeal to the Court.

1394.01 APPEALS BOARD ESTABLISHED.

- (a) The City of Richmond Heights Zoning Board of Appeals is hereby appointed to serve as the Appeals Board for these regulations as established by the City Charter and Codified Ordinances.
- (b) Records of the Appeals Board shall be kept and filed in City Hall at 26789 Highland Road, Richmond Heights, Ohio.
(Ord. 78-2010. Passed 11-23-10.)

1394.02 POWERS AND DUTIES.

- (a) The Appeals Board shall hear and decide appeals where it is alleged there is an error in any order, requirement, decision or determination made by the Floodplain Administrator in the administration or enforcement of these regulations.
- (b) Authorize variances in accordance with Section 1394.04 of these regulations.
(Ord. 78-2010. Passed 11-23-10.)

1394.03 APPEALS.

- (a) Any person affected by any notice and order, or other official action of the Floodplain Administrator may request and shall be granted a hearing on the matter before the Appeals Board provided that such person shall file, within 20 days of the date of such notice and order, or other official action, a brief statement of the grounds for such hearing or for the mitigation of any item appearing on any order of the Floodplain Administrator's decision. Such appeal shall be in writing, signed by the applicant, and be filed with the Floodplain Administrator. Upon receipt of the appeal, the Floodplain Administrator shall transmit said notice and all pertinent information on which the Floodplain Administrator's decision was made to the Appeals Board.

- (b) Upon receipt of the notice of appeal, the Appeals Board shall fix a reasonable time for the appeal, give notice in writing to parties in interest, and decide the appeal within a reasonable time after it is submitted.
(Ord. 78-2010. Passed 11-23-10.)

1394.04 VARIANCES.

Any person believing that the use and development standards of these regulations would result in unnecessary hardship may file an application for a variance. The Appeals Board shall have the power to authorize, in specific cases, such variances from the standards of these regulations, not inconsistent with Federal regulations, as will not be contrary to the public interest where, owing to special conditions of the lot or parcel, a literal enforcement of the provisions of these regulations would result in unnecessary hardship.

(a) Application for a Variance.

- (1) Any owner, or agent thereof, of property for which a variance is sought shall make an application for a variance by filing it with the Floodplain Administrator, who upon receipt of the variance shall transmit it to the Appeals Board.
- (2) Such application at a minimum shall contain the following information: Name, address, and telephone number of the applicant; legal description of the property; parcel map; description of the existing use; description of the proposed use; location of the floodplain; description of the variance sought; and reason for the variance request.
- (3) All applications for variance shall be accompanied by a variance application fee set forth in the schedule of fees adopted by the City of Richmond Heights.
- (b) Public Hearing. At such hearing the applicant shall present such statements and evidence as the Appeals Board requires. In considering such variance applications, the Appeals Board shall consider and make findings of fact on all evaluations, all relevant factors, standards specified in other sections of these regulations and the following factors:
 - (1) The danger that materials may be swept onto other lands to the injury of others.
 - (2) The danger to life and property due to flooding or erosion damage.
 - (3) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
 - (4) The importance of the services provided by the proposed facility to the community.
 - (5) The availability of alternative locations for the proposed use that are not subject to flooding or erosion damage.
 - (6) The necessity to the facility of a waterfront location, where applicable.
 - (7) The compatibility of the proposed use with existing and anticipated development.
 - (8) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area.
 - (9) The safety of access to the property in times of flood for ordinary and emergency vehicles.
 - (10) The expected heights, velocity, duration, rate of rise, and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site.
 - (11) The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.
- (c) Variances shall only be issued upon:
 - (1) A showing of good and sufficient cause.
 - (2) A determination that failure to grant the variance would result in exceptional hardship due to the physical characteristics of the property. Increased cost or inconvenience of meeting the requirements of these regulations does not constitute an exceptional hardship to the applicant.
 - (3) A determination that the granting of a variance will not result in increased flood heights beyond that which is allowed in these regulations; additional threats to public safety; extraordinary public expense, nuisances, fraud on or victimization of the public, or conflict with existing local laws.
 - (4) A determination that the structure or other development is protected by methods to minimize flood damages.
 - (5) A determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

Upon consideration of the above factors and the purposes of these regulations, the Appeals Board may attach such conditions to the granting of variances as it deems necessary to further the purposes of these regulations.

(d) Other Conditions for Variances.

- (1) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
- (2) Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items in Section 1394.04(b)(1) to (11) have been fully considered. As the lot size increases beyond one-half acre, the technical justification required for issuing the variance increases.
- (3) Any applicant to whom a variance is granted shall be given written notice that the structure will be permitted to be built with a lowest floor elevation below the base flood elevation and the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

(Ord. 78-2010. Passed 11-23-10.)

1394.05 PROCEDURE AT HEARINGS.

- (a) All testimony shall be given under oath.
- (b) A complete record of the proceedings shall be kept, except confidential deliberations of the Board, but including all documents presented and a verbatim record of the testimony of all witnesses.
- (c) The applicant shall proceed first to present evidence and testimony in support of the appeal or variance.
- (d) The administrator may present evidence or testimony in opposition to the appeal or variance.
- (e) All witnesses shall be subject to cross-examination by the adverse party or their counsel.
- (f) Evidence that is not admitted may be proffered and shall become part of the record for appeal.
- (g) The Board shall issue subpoenas upon written request for the attendance of witnesses. A reasonable deposit to cover the cost of issuance and service shall be collected in advance.
- (h) The Board shall prepare conclusions of fact supporting its decision. The decision may be announced at the conclusion of the hearing and thereafter issued in writing or the decision may be issued in writing within a reasonable time after the hearing.

(Ord. 78-2010. Passed 11-23-10.)

1394.06 APPEAL TO THE COURT.

Those aggrieved by the final decision of the Appeals Board may appeal such decision to the Cuyahoga County Court of Common Pleas, as provided in Chapter 2506 of the Ohio Revised Code. (Ord. 78-2010. Passed 11-23-10.)

CHAPTER 1395

Enforcement

1395.01 Compliance required.

1395.02 Notice of violation.

1395.03 Penalty.

1395.01 COMPLIANCE REQUIRED.

- (a) No structure or land shall hereafter be located, erected, constructed, reconstructed, repaired, extended, converted, enlarged or altered without full compliance with the terms of these regulations and all other applicable regulations which apply to use within the jurisdiction of these regulations, unless specifically exempted from filing for a development permit as stated in Section 1392.09.
- (b) Failure to obtain a floodplain development permit shall be a violation of these regulations and shall be punishable in accordance with Section 1395.03.
- (c) Floodplain development permits issued on the basis of plans and applications approved by the Floodplain Administrator authorize only the use, and arrangement, set forth in such approved plans and applications or amendments thereto. Use, arrangement, or construction contrary to that authorized shall be deemed a violation of these regulations and punishable in accordance with Section 1395.03.

(Ord. 78-2010. Passed 11-23-10.)

1395.02 NOTICE OF VIOLATION.

Whenever the Floodplain Administrator determines that there has been a violation of any provision of these regulations, he shall give notice of such violation to the person responsible therefore and order compliance with these regulations as hereinafter provided. Such notice and order shall:

- (a) Be put in writing on an appropriate form;
- (b) Include a list of violations, referring to the section or sections of these regulations that have been violated, and order remedial action, which, if taken, will effect compliance with the provisions of these regulations;
- (c) Specify a reasonable time for performance;
- (d) Advise the owner, operator, or occupant of the right to appeal;
- (e) Be served on the owner, occupant, or agent in person. However, this notice and order shall be deemed to be properly served upon the owner, occupant, or agent if a copy thereof is sent by registered or certified mail to the person's last known mailing address, residence, or place of business, and/or a copy is posted in a conspicuous place in or on the dwelling affected.

(Ord. 78-2010. Passed 11-23-10.)

1395.03 PENALTY.

Violation of the provisions of this Title IX or failure to comply with any of its requirements shall constitute a misdemeanor of the first degree. Any person who violates this Title IX or fails to comply with any of its requirements (including violations of conditions of and safeguards established in connection with conditions) shall upon conviction thereof be fined or imprisoned as provided by the laws of the City. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the City from taking such other lawful action as is necessary to prevent or remedy any violations.

(Ord. 78-2010. Passed 11-23-10.)

**CODIFIED ORDINANCES OF RICHMOND HEIGHTS
PART FIFTEEN - FIRE PREVENTION CODE**

Chap. 1501. Administrative.

Chap. 1513. Alarm System Requirements.
Chap. 1515. Fire Lanes.
Chap. 1519. Fireworks.

CHAPTER 1501

Administrative

1501.01 Title.

1501.02 Purpose and intent of Code.

1501.03 Definitions.

1501.04 Establishment of the position of Fire Safety Inspector in Division of Building, Zoning and Housing.

1501.05 Duties of the Bureau.

1501.06 Establishment of the Fire Prevention Code.

1501.07 Application of the Fire Prevention Code.

1501.08 Enforcement of the Fire Prevention Code.

1501.09 Inspection fees.

1501.10 Compliance with Fire Prevention Code; penalty.

1501.11 Conflict with other codes.

1501.12 Variances.

1501.13 Appeals.

1501.14 Separability.

1501.15 File confidentiality and reproduction.

1501.01 TITLE.

The rules as set forth herein shall be known as the "Fire Prevention Code" and may be hereinafter referred to as the "Fire Prevention Code" or the "Code."

(Ord. 43-97. Passed 5-27-97.)

1501.02 PURPOSE AND INTENT OF CODE.

The purpose and intent of this Code is to prescribe minimum requirements and controls to safeguard life, property, or public welfare from the hazards of fire and explosion, arising from the storage, handling or use of substances, materials or devices; from conditions hazardous to life, property or public welfare in the use or occupancy of buildings, structures, sheds, tents, lots or premises; and to safeguard firefighters during firefighting operations. All matters within the intent of this Code and not covered by this Code shall comply with accepted engineering practices or standards in the respective field.

(Ord. 43-97. Passed 5-27-97.)

1501.03 DEFINITIONS.

- (a) The following are general definitions found throughout "Part Fifteen - Fire Prevention Code":

- (1) "Municipality" means the City of Richmond Heights, Ohio.
- (2) "City" means the City of Richmond Heights, Ohio.
- (3) "Corporation Counsel" means the Law Director of the City.
- (4) "Fire Department" means the Fire Division of the Department of Public Safety.
- (5) "Bureau" means the Bureau of Fire Prevention.
- (6) "Fire Safety Inspector" means any person possessing a certificate in accordance with Ohio R.C. 3737.34 as a Certified Fire Safety Inspector.
- (7) "Code" means the Fire Prevention Code as established in Section 1501.06.
- (8) "Commissioner" means the Commissioner of Building and Zoning.
- (9) "Responsible Party" means the owner or manager of the occupancy.

- (b) Other sections of this Code may contain additional definitions.

(Ord. 43-97. Passed 5-27-97.)

1501.04 ESTABLISHMENT OF THE POSITION OF FIRE SAFETY INSPECTOR IN DIVISION OF BUILDING, ZONING AND HOUSING.

- (a) The Fire Prevention Code shall be enforced by the Division of Building, Zoning and Housing.
- (b) The Mayor shall designate a person or persons to act as Fire Safety Inspectors who shall perform the duties thereof within the Division of Building, Zoning and Housing. The number of persons assigned to the

position of Fire Safety Inspector shall be determined by the Mayor within the appropriations and authorization of City Council and at the Mayor's sole discretion.

(c) No person shall function as a Fire Safety Inspector for the City unless that person possesses a certificate in accordance with Ohio R.C. 3737.34 as a Certified Fire Safety Inspector. (Ord. 113-2014. Passed 1-27-15.)

1501.05 DUTIES OF THE BUREAU.

(a) The duties of all Fire Safety Inspectors shall include: the inspection of industrial and commercial structures, regulated by the Ohio Basic Building Code, under construction within the City, prior to the issuance of a Certificate of Occupancy by the Division of Building, Zoning and Housing; inspections of all existing non-residential structures and common areas of any multi-family residential structure within the City to determine potential life hazards, fire hazards, or conditions that will affect or interfere with safe firefighting operations; and to prescribe remedies for such hazardous conditions through the enforcement of the Fire Prevention Code.

(b) A Fire Safety Inspector shall issue parking violations, in accordance with Part Three, Traffic Violations of the Codified Ordinances of the City, to parties parked in fire lanes or blocking fire hydrants and other fire protective equipment.

(c) With the consent of the owner or legal occupant, or with a properly granted search warrant, a Fire Safety Inspector may, at all reasonable hours, enter into all buildings and upon all premises and vehicles within their jurisdiction for the purpose of examination.

(d) No person, who is not a Certified Fire Safety Inspector officially designated by the Mayor, shall act as such or hold himself or herself out to be such, or function in a capacity equal to such.

(e) The duties of all Fire Safety Inspectors shall also include the investigation of all fires or other similar incidents, when requested by the Building Commissioner or the Chief of Fire.

(f) A report of all Fire Safety Inspectors' activities shall be prepared and transmitted to the Building Commissioner on a quarterly and annual basis.

(Ord. 113-2014. Passed 1-27-15.)

1501.06 ESTABLISHMENT OF THE FIRE PREVENTION CODE .

(a) The Fire Prevention Code for the City of Richmond Heights is hereby established and shall encompass all the requirements of the Ohio Fire Code, any standards or technical bulletins adopted by the Ohio Fire Code, and all provisions of Part Fifteen, Fire Prevention Code. From the time this chapter shall take effect, the provisions of the Fire Prevention Code shall govern the City.

(Ord. 43-97. Passed 5-27-97.)

(b) There is hereby adopted by this Municipality, the Ohio Fire Code, as adopted by the Ohio Division of State Fire Marshal, Department of Commerce, effective December 15, 2017, as published in Division 1301:7 of the Ohio Administrative Code.

(Ord. 97-2018. Passed 8-28-18.)

(c) The adoption of the Ohio Fire Code by subsection (b) hereof shall not limit or prevent the enforcement of the Ohio Fire Code through the Ohio Department of Commerce, Division of State Fire Marshal.

(Ord. 43-97. Passed 5-27-97.)

1501.07 APPLICATION OF THE FIRE PREVENTION CODE.

(a) The Fire Prevention Code as adopted herein applies to the use of all lands and properties within the City.

(b) All occupancies shall be brought up to the current fire safety requirements of the Fire Prevention Code upon change of use or occupancy, upon change in ownership of the business, or before a new Certificate of Occupancy is issued.

(Ord. 43-97. Passed 5-27-97.)

1501.08 ENFORCEMENT OF THE FIRE PREVENTION CODE.

(a) The Fire Prevention Code shall be enforced by the Division of Building, Zoning and Housing.

(b) All Fire Safety Inspectors shall enforce the Fire Prevention Code according to the policies and procedures as approved by the Building Commissioner.

(c) When a Fire Safety Inspector finds conditions that are contrary to this Code, the Fire Safety Inspector shall cause a Notice of Fire Code Violation to be issued. Such notices shall specify the nature of the violation, the necessary corrective measures, and the allowed amount of time to correct the violation.

(d) A Fire Safety Inspector, upon examination or inspection, shall cause an Order To Repair to issue when conditions as specified in Ohio R.C. 3737.41 are found which are especially dangerous to the safety of persons, buildings, premises, or property, and shall cause any necessary remedial orders to issue in connection therewith. When an Order to Repair has been issued, a follow-up inspection shall be conducted, and each follow-up inspection shall be considered a separate inspection and shall be charged as such.

(e) A Fire Safety Inspector shall cause a citation to issue after investigation or inspection reveals conditions in violation of the Fire Prevention Code exist after notification that a Fire Code violation exists. The citation shall be issued to the responsible person.

(Ord. 113-2014. Passed 1-27-15.)

1501.09 INSPECTION FEES.

(a) When an Order to Repair has been issued, the Fire Safety Inspector shall reinspect the property at the time interval specified on the Order. If the Inspector finds the conditions have not been corrected, a reinspection fee of one hundred dollars (\$100.00) shall be charged for each reinspection.

(b) A Fire Safety Inspector may waive, at their sole discretion, the reinspection fee if a good faith effort has been shown in correcting the conditions.

(Ord. 43-97. Passed 5-27-97.)

1501.10 COMPLIANCE WITH FIRE PREVENTION CODE; PENALTY.

(a) No person or entity shall violate any provision of the Fire Prevention Code as adopted herein or any order issued pursuant thereto.

(b) No person or entity shall fail to comply with fire prevention measures or fire protection activities as prescribed in the Fire Prevention Code, or fail to obtain a permit or license for the various uses or activities as required by such Code, or fail to comply with the Municipal application and plan submission and processing requirements, including payment of the fees designated therefor.

(Ord. 43-97. Passed 5-27-97.)

(c) It shall be unlawful for any person or entity to remove a notice posted by a Fire Safety Inspector identifying a life or fire hazard. The responsible person shall be fined not less than three hundred dollars (\$300.00) when a posted notice has been removed.

(d) Any person or entity who violates this chapter shall be guilty of a misdemeanor of the first degree in addition to any other penalties contained herein.

(Ord. 76-2003. Passed 9-23-03.)

1501.11 CONFLICT WITH OTHER CODES.

(a) When a conflict arises between the Ohio Basic Building Code and the Ohio Fire Code, the Code providing a higher degree of safety shall prevail.

(b) In all other cases of conflict between the Ohio Fire Code and any other Municipal ordinance or technical Code adopted thereby, the provision providing a higher degree of safety shall prevail.

(Ord. 43-97. Passed 5-27-97.)

1501.12 VARIANCES.

Upon application received in writing by the owners or lessees of a property, or their duly authorized agents, when there are practical difficulties in the way of carrying out the strict letter of the Code, provided that the spirit of such Code shall be observed, public safety secured and substantial justice done, a Fire Safety Inspector may, with approval of the Building Commissioner, grant a variance for a Code provision. The variance shall be in writing and the reasons for the variance shall be stated.

(Ord. 113-2014. Passed 1-27-15.)

1501.13 APPEALS.

(a) The Board of Fire Code Appeals is hereby established consisting of members and alternate members of the Architectural Review Board as appointed by the City, by reason of education, experience, and knowledge, and are deemed to be competent to sit in judgment on matters concerning this Code. The Board of Fire Code Appeals shall provide for reasonable interpretation of the provisions of this Code and rule on appeals from decisions of the Fire Safety Inspectors.

(b) The Board of Fire Code Appeals shall meet whenever requested by the Bureau to interpret provisions of this Code, and to consider and rule on any properly filed appeal from a decision of a Fire Safety Inspector, giving at least five days notice of hearing, but in no case shall fail to meet on an appeal within thirty days of the filing of the appeal.

(c) Whenever a Fire Safety Inspector disapproves an application for variance from the Fire Prevention Code, refuses to grant a permit, or when it is claimed that the provisions of the Code do not apply, or that the true intent and meaning of the Code have been misconstrued or wrongly interpreted, the applicant so affected may make a written request for an appeal hearing within twenty days of being notified of the decision. The appeal shall be in writing, shall be filed with the Commissioner of Building and Zoning, shall outline the issues to be presented as well as the Code provision from which relief is sought, shall state the reasons for such relief, and shall state the remedy proposed. The Board of Fire Code Appeals shall render a decision based on testimony submitted by all affected parties. Such decision shall be served by U.S. Certified Mail, Return Receipt requested.

(d) When an appeal has been filed, the enforcement of any non-threatening condition will be held in abeyance until such time as the appeal is heard and a decision has been rendered. Any conditions that create a serious threat to life, property, or public welfare shall be corrected immediately, regardless of the appeal. It shall be the sole discretion of the Fire Safety Inspector as to the severity or threat of the condition.

(Ord. 43-97. Passed 5-27-97.)

1501.14 SEPARABILITY.

All sections, subsections, parts, and provisions of this chapter and of the Codes adopted by this chapter are hereby declared to be independent sections, subsections, parts, and provisions, and the holding of any section, subsection, part, or provision to be unconstitutional, void, or ineffective for any cause shall not affect or render invalid any other section, subsection, part, or provision thereof.

(Ord. 43-97. Passed 4-3-97.)

1501.15 FILE CONFIDENTIALITY AND REPRODUCTION.

(a) A record of examinations, approvals, and variances granted shall be maintained by the Bureau. The Bureau shall also keep a record of all fire safety inspections, including the date of the inspection, and a summary of the violations found to exist, and a record of the final disposition of all violations.

(b) The cost of reproducing information contained in Bureau files is twenty five cents (\$0.25) per page.

(c) All records required to be kept shall be maintained until their usefulness has been served, for as long as the occupancy is in existence within the City, or as otherwise may be required by law.

(d) Whosoever violates this section will be criminally prosecuted in accordance with Section 545.14 .

(Ord. 43-97. Passed 4-3-97.)

CHAPTER 1503

Plan Review and Permits

1503.01 Plan review.

1503.02 Permits required.

1503.03 Bureau notification.

1503.99 Penalties.

1503.01 PLAN REVIEW.

(a) All blueprints, drawings, or other sketches for buildings regulated by the Ohio Basic Building Code received by the Division of Building and Zoning for construction, erection, and/or alteration shall be submitted for review by the Fire Prevention Bureau. When such submitted plans have been found to conform to the provisions of the Fire Prevention Code, and all other Codes or standards adopted by the Bureau pertaining to fire protection, fire safety, life safety, and fire extinguishment, such plans shall be stamped as approved. When plans are submitted that do not conform to such Codes, a list of deficiencies shall be written and attached to the submitted plans. The owner of such plans, his representative or designated person shall be responsible for compliance with the deficiencies and must submit revised plans, addenda, or other data to show evidence of Code compliance with the applicable provisions of the Codes.

(b) The construction, erection, and/or alteration of a building regulated by the Ohio Basic Building Code and the equipment and maintenance thereof, shall conform to the required plans which have been approved by the Fire Prevention Bureau. When the Bureau finds work or equipment that is contrary to such approved plans, the Commissioner of Building and Zoning shall be notified and the owner, occupant, builder, or other responsible person shall be given a specific time period in which to conform to such plans. The building, or part thereof, shall not be occupied until such violations are corrected and approved by the Bureau.

(c) The responsibility of all Code compliance issues is incumbent upon the owner, operator, builder, contractor, or other responsible person for the premises. Failure to identify a deficiency of the Code during the plan review process does not relieve the owner, occupant, builder, or other responsible person from complying with the applicable Codes or laws. The Fire Department, Fire Prevention Bureau, and the City shall not be held liable for such occurrences.

(Ord. 43-97. Passed 5-27-97.)

1503.02 PERMITS REQUIRED.

(a) No work, of any type, shall be performed on any fire protection equipment or other equipment, appliances, or items pertaining to fire or life safety without first obtaining a permit for such work from the Bureau. Permit applications shall be filed in accordance with Bureau policy. Emergency work shall comply to the requirements of Section 1503.03 (b).

(b) There is no fee for permits required by the Bureau, unless otherwise stated in another section of this Code. Failure to obtain a permit will result in a fine of one hundred dollars (\$100.00).

(c) When a permit is issued for work, the person or entity to whom the permit was issued shall, within ten calendar days, submit written proof to the Bureau the work was performed. Failure to comply with this section shall result in a fine of twenty-five dollars (\$25.00).

(d) All persons planning to perform work within the City shall be responsible for verifying the need for a permit before any work is performed. The absence of a permit listed in the Code does not relieve any contractor from the responsibility of obtaining the necessary permits.

(Ord. 43-97. Passed 5-27-97.)

1503.03 BUREAU NOTIFICATION.

(a) All contractors doing required, regularly scheduled service within the City, on any fire protective equipment or other equipment that may affect life or fire safety, shall notify the Bureau at least forty-eight hours in advance of the scheduled work. Examples of such work shall include, but not be limited to chemical agent suppression systems tests, sprinkler tests, or alarm tests. Submittal of the permit application form will be accepted as notification, providing such permit is approved.

(b) All contractors doing emergency service within the City, on any fire protective equipment or other equipment that may affect life or fire safety, shall notify the Bureau as soon as practically possible. Submittal of the permit application form will be accepted as notification.

(c) When a contractor is performing service work that is required at certain time intervals, such as chemical agent suppression systems tests, sprinkler tests, and alarm tests, the contractor who last performed the service shall notify the Bureau, in writing, when a required test, inspection, or other work is more than thirty days overdue. This section shall include all required tests, inspections, or services, not just the items listed above.

(d) Any contractor failing to comply with this section shall be fined one hundred dollars (\$100.00) for a first offense, and two hundred fifty dollars (\$250.00) for subsequent offenses.

(Ord. 43-97. Passed 5-27-97.)

1503.99 PENALTIES.

(a) All persons or entities failing to obtain permits are guilty of a misdemeanor of the first degree.

(b) All persons or entities failing to comply with all other provisions of this chapter are guilty of a misdemeanor of the first degree.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1505

General Requirements and Precautions Against Fire

1505.01 Fire damaged premises and structures.

1505.02 Vacant structures.

1505.03 Duty to report a fire.

1505.04 False alarm of fire.

1505.05 Open burning.

1505.06 Grills, use prohibited.

1505.07 Fireworks.

1505.08 Decorations in non-residential occupancies.

1505.09 Commercial cooking exhaust system.

1505.10 Accumulation of combustible materials.

1505.11 Lock box required.

1505.12 Tar kettles.

1505.13 Address markings.

1505.99 Penalties.

1505.01 FIRE DAMAGED PREMISES AND STRUCTURES.

(a) All premises within the City wherein a fire has occurred, and either interior or exterior damage to the building or structure has been suffered, is hereby declared to be a public nuisance. Such nuisance may be summarily abated or the premises condemned for occupancy by the Director of Public Safety when he has determined that a hazard to the public health or safety exists, and may be abated in the manner provided in the Codified Ordinances of the City. In either case, prior to such abatement, the premises shall first be inspected by the Building Commissioner and the Fire Chief, or their duly authorized representatives, and each shall make written recommendations to the Director of Public Safety as to specific work to be performed in order to properly abate such nuisance and to protect the public health and safety. The Director of Public Safety shall follow such recommendations to the extent possible in abating such nuisances.

(b) The Municipality hereby authorizes the procedures described in Ohio R.C. 3929.86 (C) and (D) to be implemented whereby no insurance company doing business in the State shall pay a claim of a named insured for fire damage to a structure located within the Municipality unless the applicable provisions of the Ohio R.C. 3929.86 are fully complied with. The Director of Finance is hereby designated as the officer authorized to carry out the duties of Ohio R.C. 3929.86.

(Ord. 43-97. Passed 5-27-97.)

1505.02 VACANT STRUCTURES.

(a) Every person owning or having charge or control of any vacant building shall remove all combustible waste and refuse, remove all flammable products or any other materials that represent a potential hazard therefrom, and lock, barricade, or otherwise secure all windows, doors, and other openings in the building to prohibit entry by unauthorized persons.

(b) Buildings that are vacant shall maintain all required fire protection systems in service.

(c) The Bureau shall have the authority to require an inspection and test of any fire protection system that is in a building or portion thereof that has been vacant for more than thirty days before the building or portion is again occupied.

(Ord. 43-97. Passed 5-27-97.)

1505.03 DUTY TO REPORT A FIRE.

(a) The owner, operator, or lessee, an employee of any owner, operator, or lessee, an occupant, and any person in direct control of any building regulated by the Ohio Building Code, or the owner or occupant of any residential structure, or any person within any residential structure, upon the discovery of an unfriendly fire, or upon receiving information that there is or may be an unfriendly fire on the premises, shall immediately, and with all reasonable dispatch and diligence, call or otherwise notify the Fire Division concerning the fire, and shall spread an alarm immediately to all occupants of the building. No person or entity shall, after being notified of a fire, attempt to control the fire in any manner without first ensuring the Fire Division is being or has been notified.

(b) Whenever an alarm monitoring station receives an alarm signal, it shall be assumed the alarm is functioning correctly and reporting an actual fire condition. The alarm monitoring station shall notify the Fire Division immediately, as the first party to be notified, of the alarm condition. All other parties to whom notification is requested shall be contacted only after the Fire Division is notified. Any alarm monitoring station failing to comply with this section shall be assessed a fine of at least five hundred dollars (\$500.00), but not more than one thousand dollars (\$1000.00).

(c) For the purpose of this section, the term "unfriendly fire" means a fire of destructive nature as distinguished from a controlled fire intended for a beneficial purpose.

(d) No person or entity shall fail to comply with this section.

(Ord. 43-97. Passed 5-27-97.)

1505.04 FALSE ALARM OF FIRE.

(a) It shall be unlawful for any person to give or assist in giving a false alarm of fire or to proclaim that any fire is extinguished when it is not. Malicious activation of any fire alarm device is considered turning in a false alarm.

(b) When an alarm has been turned in that is not reporting an actual fire condition, the person turning in the alarm shall immediately notify the person or persons responsible for the premises. The responsible parties shall then immediately notify the Fire Division. Failure to comply with this section shall be considered the same as turning in a false alarm.

(Ord. 43-97. Passed 5-27-97.)

1505.05 OPEN BURNING.

All open burning shall conform to the requirements of the Ohio Fire Code. All provisions of that Code pertaining to open burning shall apply equally to residential uses as it does to non-residential uses.

(Ord. 43-97. Passed 5-27-97.)

1505.06 GRILLS, USE PROHIBITED.

(a) No person or entity shall kindle or maintain a fire for the preparation of food or any other purpose in any type of outdoor or portable grill in any dwelling or upon any balcony or common walkway of a multi-family dwelling, or within 15 feet of any multi-family dwelling.

(b) No person or entity shall store liquefied petroleum gas (LPG) grills and/or cylinders, any other type of compressed fuel cylinder, or any other type of grill fire starting liquids in any dwelling unit or upon any balcony or common walkway of a multi-family dwelling, or within 15 feet of any multi-family dwelling.

(Ord. 43-97. Passed 5-27-97.)

1505.07 FIREWORKS.

The use of all fireworks, as defined by the Ohio Fire Code, shall conform to all requirements of the said Code.

(Ord. 43-97. Passed 5-27-97.)

1505.08 DECORATIONS IN NON-RESIDENTIAL OCCUPANCIES.

(a) Decorative materials used in all non-residential occupancies shall be either noncombustible or flame resistant, except any material permitted by the Ohio Fire Code (OAC 1301:7) or Ohio Basic Building Code (OAC 4101:2).

(b) Natural cut Christmas trees shall not be permitted in assembly, educational, health care, residential boarding and care, institutional, mercantile, hotel, or dormitory occupancies. Living trees in a balled condition

with their roots protected by an earth ball are permitted as long as they are maintained in a fresh condition and not allowed to become dry.

- (c) Christmas trees or other similar decorations shall not obstruct any exit, means of egress, or other exit way.

(Ord. 43-97. Passed 5-27-97.)

1505.09 COMMERCIAL COOKING EXHAUST SYSTEMS.

(a) The hood, duct work, plenum, fan assemblies, and filters shall be cleaned on a regular basis to remove deposits of grease and other residue. The cleaning process shall utilize positive cleaning methods such as scraping and brushing. All components of any fire detection or fire suppression system shall be protected during the cleaning process.

- (b) A permit is required for all hood cleaning services in accordance with Section 1503.02 .

(c) A cleaning schedule shall be maintained by the responsible person of the occupancy where an exhaust system exists. The cleaning schedule shall indicate the method of cleaning, chemicals used in the cleaning process, and the time intervals between cleanings.

(d) "Mesh style" air filters do not sufficiently filter the grease from the cooking vapor and are hereby declared a public nuisance. All commercial cooking exhaust systems shall have a "baffle design" filter meeting the requirements of the Ohio Fire Code and the referenced technical standard installed. This requirement shall be retroactive to all cooking systems located within the City. A time limit of six months from the effective date of this section shall be granted for compliance.

(Ord. 43-97. Passed 5-27-97.)

1505.10 ACCUMULATION OF COMBUSTIBLE MATERIALS.

No person or entity shall permit the accumulation of combustible materials above the amount necessary for normal business operation. "Stockpiling" of materials is prohibited.

(Ord. 43-97. Passed 5-27-97.)

1505.11 LOCK BOX REQUIRED.

(a) Other than at one-, two-, and three-family dwellings, an approved lock box shall be provided at all occupancies with a fire alarm system, automatic sprinkler system, or fire suppression system, or any other type of fire protection system that will notify the Division of Fire of an activation of that system.

- (b) The lock box will be mounted in an approved location.

(c) The box shall contain entry keys for the occupancy, including all interior doors and locks. The responsible person shall immediately notify the Division of Fire and provide new keys any time a lock is changed or rekeyed, and that key is contained in the lock box. In the event the Division of Fire responds to a call where a lock box is provided, and the access keys do not function properly, the occupancy shall be fined fifty dollars (\$50.00) for the first offense and one hundred dollars (\$100.00) for each subsequent offense.

(d) Residential Lock Box Program. A residential lock box program is authorized and approved by the Council of the City of Richmond Heights, and, therefore, an owner of a single- family home within the City of Richmond Heights may, at the owner's sole discretion purchase a lock box through a vendor that has been designated and approved by the City of Richmond Heights, Division of Fire, and grant the Division of Fire personnel and other first responders pre- authorized entry to the home in the event of an emergency.

(Ord. 42-2013. Passed 8-13-13.)

1505.12 TAR KETTLES.

- (a) Operating kettles shall not be located inside of or on the roof of any building.

- (b) The kettle shall be operated in a controlled area, identified by the use of barricades, cones, or other barrier markings.

(c) Each operating kettle shall be attended by a minimum of one person knowledgeable in the operation of said kettle, as well as the hazards associated with it. The attendant shall be within twenty five feet of the kettle and have the kettle in sight at all times.

(d) Two approved fire extinguishers with a minimum U.L. rating of 60BC shall be provided and maintained no closer than ten feet, but no more than thirty feet of each operating kettle. Fire extinguishers shall be located and marked in a manner to be accessible and visible at all times.

- (e) Two separate and remote means of roof access/egress shall be provided at all locations where an operating tar kettle is located.

- (f) Roofing kettles shall not block exits, means of egress, gates, roadways, fire lanes, or entrances. In no case shall an operating kettle be located closer than twenty feet from an exit or means of egress.

(Ord. 43-97. Passed 5-27-97.)

1505.13 ADDRESS MARKINGS.

(a) Every structure in the City shall have posted in a conspicuous manner the identifying number thereof which has been assigned by the Building Commissioner. The numerals shall be not less than three and one-half inches in height with proportional stroke width and shall be of a contrasting color to the background. The numbers shall be mounted on the front elevation of the structure in the vicinity of the primary entrance so that it is clearly visible from the public right-of-way.

(b) Every structure having more than five units or suites with rear doors shall have the rear door marked with a portion of the address. For three and four digit addresses, the last two numbers shall be displayed. For five digit addresses, the last three digits shall be displayed. For structures having only one street address, the suite designation shall be displayed. Doors serving more than one suite shall be marked with all of the addresses or suite designations. The numbers shall be not less than three and one-half inches in height with proportional stroke width and shall be of a contrasting color to the background.

(Ord. 43-97. Passed 4-3-97.)

1505.99 PENALTIES.

Whosoever violates any of the provision of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1507

Storage

1507.01 Underground storage tanks.

1507.02 Vehicle storage.

1507.03 Storage limits.

1507.04 Storage and sale of Christmas trees.

1507.05 Storage heights and limitations.

1507.06 Storage of propane gas tanks.

1507.99 Penalties.

1507.01 UNDERGROUND STORAGE TANKS.

(a) All underground storage tanks shall conform to all requirements set forth by the State of Ohio, including but not limited to the Ohio Fire Code and the Bureau of Underground Storage Tank Regulations.

(b) The Bureau may require that any or all flammable liquid storage tanks and piping be inspected by the State of Ohio, Department of Commerce, Division of State Fire Marshal, Bureau of Underground Storage Tank Regulations. All tests ordered will be performed at the expense of the owner/operator.

- (c) The installation of new storage tanks shall conform to all state requirements.

- (d) The Fire Division shall be notified immediately of any spillage or leakage of a flammable liquid more than five gallons in quantity.

(Ord. 43-97. Passed 5-27-97.)

1507.02 VEHICLE STORAGE.

(a) No person or entity shall park any fuel powered vehicle in any room, or on any landing or patio of any multi-family dwelling, or within twenty feet of any multi-family dwelling, or any commercial building or structure regulated by the Ohio Basic Building Code, unless parked in an approved and designated parking space or in a building approved and designated for the parking or repair of motor vehicles.

(b) In all buildings, other than one-family, two-family and three-family houses and garages accessory thereto, where space is provided for the storage of motor vehicles, the

following protective measures shall be followed:

- (1) The lawful capacity of each storage space shall be the number of vehicles which can be stored therein without blocking any aisle or exit. Storage of vehicles shall be so arranged and limited that each vehicle shall have free access from its parking space without necessitating the moving of any other vehicle

- (2) A sign indicating the capacity, as determined above, shall be conspicuously posted near each entrance and exit of each storage space, in letters and figures not less than four inches, with a proportional stroke width.

- (3) No person or entity owning or being in charge or control of the storage space shall store or park or cause or knowingly permit to be stored or parked in the storage space, at any time, a number of vehicles exceeding the capacity of the storage space determined as hereinbefore provided.

- (4) No automotive repairs of any kind shall be made in any basement or subbasement garage, or in any garage connected to an occupied commercial or multi-family building or portion thereof.

(Ord. 43-97. Passed 5-27-97.)

1507.03 STORAGE LIMITS.

(a) Storage of flammable liquids shall conform to all requirements of the Ohio Fire Code and the Codified Ordinances of the City.

(b) New bulk plants for the storage of flammable liquids are prohibited within the City.

(c) Bulk storage of liquefied petroleum gas is prohibited within the City.

(d) Storage of explosives and blasting agents shall conform to all requirements of the Ohio Fire Code and the Codified Ordinances of the City.

(Ord. 43-97. Passed 5-27-97.)

1507.04 STORAGE AND SALE OF CHRISTMAS TREES.

The storage and sale of natural Christmas trees within fifty feet of building or structure regulated by the Ohio Basic Building Code is prohibited.

(Ord. 43-97. Passed 5-27-97.)

1507.05 STORAGE HEIGHTS AND LIMITATIONS.

(a) All storage shall be limited in height to the following requirements:

- (1) In non-sprinklered structures, storage shall not be closer than twenty- four inches to the ceiling.

- (2) In sprinklered structures, storage shall not be closer than eighteen inches to the ceiling.

- (3) In warehouse and similar storage conditions, storage shall not be closer than thirty-six inches to the ceiling.

- (4) In all cases, storage shall not be higher than twelve feet from floor level.

(b) All storage areas shall have a red two inch stripe painted around the perimeter of the room indicating the appropriate maximum storage height as indicated above.

(Ord. 43-97. Passed 5-27-97.)

1507.06 STORAGE OF PROPANE GAS TANKS.

(a) No person, firm or corporation shall engage in or carry on the business of storing, for commercial sale or exchange, filled propane gas tanks or gas cylinders larger than thirty pounds or to sell or exchange such items within the City.

(b) Any person, firm or corporation that engages in or carries on the business of storing, for commercial sale or exchange, filled propane gas tanks or gas cylinders of thirty pounds or less each or sells or exchanges such items within the City shall adhere to the following regulations:

- (1) Any storage outside of buildings or filled propane gas tanks or gas cylinders awaiting use, resale or part of a tank or cylinder exchange program shall be located not less than: twenty feet from any existing access

doors, exits, stairways, windows, areas normally used, or intended to be used, as a means of egress, or other openings into buildings; twenty feet from any motor vehicle fuel dispenser; and ten feet from any combustible materials. A minimum distance of twenty-five feet shall be maintained between the storage area and any public right-of-way or lot line of property has a structure upon it or can be built upon.

- (2) Filled propane gas tanks or gas cylinders at locations accessible to the public shall be protected by a lockable, ventilated, noncombustible enclosure that prevents tampering with valves and pilferage of the tanks or cylinders. Such an enclosure shall be kept locked at all times and only unlocked by a person authorized by the business to dispense the tanks or cylinders.
- (3) Any storage outside of buildings of filled propane gas tanks or gas cylinders awaiting use, resale or part of a tank or cylinder exchange program shall not exceed two storage enclosures. A maximum total of 750 pounds of propane and/or gas is permitted to be stored outside of buildings.
- (4) Protection of said enclosures against vehicle impact shall be provided pursuant to the direction of the Fire Safety Inspector in situations where vehicle traffic normally is expected at an enclosure site. Protection of enclosures from vehicles shall consist of one or more six-inch diameter pipes filled with concrete as specified by the Fire Safety Inspector. These pipe stanchions shall be six feet in length and located no more than four and one-half feet apart unless otherwise specified by the Fire Safety Inspector. Three feet of these stanchions shall be installed below grade, pursuant to the Fire Safety Inspector's direction, and the three feet appearing above grade shall be painted the color of yellow identified by the Occupational Safety and Health Administration.
- (5) A permit shall be obtained from the Division of Building, Zoning, and Housing for any storage permitted by this section and a site plan showing the exact location of the storage enclosure(s) in relation to the items set forth in subsection (b)(1) above shall be submitted with the permit application.
- (6) "No Smoking" signs and hazardous materials signs indicating the hazard severity shall be posted under the Fire Safety Inspector's direction.
- (7) All storage permitted by this section shall comply with Section 3809.11 of the 2003 edition of the International Fire Code.
(Ord. 44-2005. Passed 8-30-05.)

1507.99 PENALTIES.

Whoever violates any of the provisions of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1509

Means of Egress

1509.01 Scope.

1509.02 Unsafe means of egress.

1509.03 Owner responsibility.

1509.04 Occupant load posting.

1509.05 Overcrowding.

1509.06 Continued maintenance.

1509.07 Exterior egress.

1509.08 Egress alteration requirements.

1509.09 Areas under repair.

1509.10 Obstructions to egress.

1509.11 Displays in means of egress.

1509.12 Storage in means of egress.

1509.13 Locking of means of egress.

1509.14 Illumination of means of egress.

1509.15 Emergency illumination of means of egress.

1509.16 Exit signs required.

1509.17 Operator responsibility.

1509.99 Penalties.

1509.01 SCOPE.

The provisions of this chapter shall govern the maintenance and utilization of means of egress and provide the minimum requirements for means of egress. These requirements shall be in addition to the Ohio Fire Code and Ohio Basic Building Code.

(Ord. 43-97. Passed 5-27-97.)

1509.02 UNSAFE MEANS OF EGRESS.

In any structure in which the means of egress are deemed inadequate for safety by the Code official, additional provisions shall be made for the safe means of egress as the Code Official shall order.

(Ord. 43-97. Passed 5-27-97.)

1509.03 OWNER RESPONSIBILITY.

The owner, lessee, or responsible person of every structure shall be responsible for the safety of all persons in or occupying such premises with respect to the adequacy of means of egress therefrom.

(Ord. 43-97. Passed 5-27-97.)

1509.04 OCCUPANT LOAD POSTING.

An assembly or educational occupancy shall be posted with an approved legible sign in contrasting colors conspicuously located near the main point of egress from the room or space stating the number of occupants permitted within such space. The number on the sign shall be calculated in accordance with the provisions of the Ohio Basic Building Code. The responsible person shall be responsible for posting and maintaining such signs. Whoever violates this section shall be fined two hundred fifty dollars (\$250.00).

(Ord. 43-97. Passed 5-27-97.)

1509.05 OVERCROWDING.

A person shall not permit overcrowding or admittance of any person beyond the approved occupant load. The Code official, upon finding overcrowded conditions or obstructions in aisles, passageways, or other means of egress, or upon finding any condition which constitutes a hazard to life and safety, shall cause the occupancy, performance, presentation, spectacle, or entertainment to be stopped until such a condition or obstruction is corrected and the addition of any further occupants prohibited until the approved occupant load is reestablished. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.06 CONTINUED MAINTENANCE.

All means of egress devices and safeguards which are required by this Code or another Code shall be maintained in good working order. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.07 EXTERIOR EGRESS.

All exit discharge, exterior stairways, and fire escapes shall be kept clear of snow and ice. Any fire escape or exterior stairway found to be in a state of deterioration or determined to be unsafe by the Code official shall be repaired immediately. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.08 EGRESS ALTERATION REQUIREMENTS.

A structure shall not be occupied or altered in any manner that will reduce the number of means of egress or the capacity of the means of egress below that which is required for the structure according to the building Code. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.09 AREAS UNDER REPAIR.

Structures shall not be occupied during repairs or alterations unless all means of egress serving the area under repair are continuously maintained or other approved measures are taken to provide equivalent safety. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.10 OBSTRUCTIONS TO EGRESS.

The means of egress from each part of the structure, including exits, stairways, egress doors, and any panic hardware installed thereon, aisles, corridors, passageways, and similar elements of the means of egress, shall at all times be maintained in a safe condition and available for immediate utilization and free of all obstructions. Security devices affecting means of egress shall be subject to approval by the Code official. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.11 DISPLAYS IN MEANS OF EGRESS.

Aisles, passageways, or stairways, in any structure shall not be obstructed with tables, showcases, Christmas trees, vending machines or other obstructions during hours when the structure is open to the public, nor shall obstructions be located in such a manner to interfere with firefighting access. Display boards, signs, coat racks and any other movable equipment that obstructs the path of egress travel shall be prohibited. A mirror shall not be placed in or adjacent to any means of egress in such a manner as to confuse the direction of egress. Draperies and similar hangings shall not obscure an exit. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.12 STORAGE IN MEANS OF EGRESS.

Storage is prohibited in any means of egress, within ten feet of any means of egress, or hanging from any ceiling within ten feet of a means of egress. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.13 LOCKING OF MEANS OF EGRESS.

All means of egress doors shall be readily operable from the side which egress is to be made without a key, special tool, or special knowledge, except as provided for in the Ohio Fire Code or Ohio Basic Building Code. Whoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.14 ILLUMINATION OF MEANS OF EGRESS.

All means of egress shall be continuously and adequately illuminated with artificial light to allow ease of egress. Whosoever violates this section shall be fined two hundred fifty dollars (\$250.00).

(Ord. 43-97. Passed 5-27-97.)

1509.15 EMERGENCY ILLUMINATION OF MEANS OF EGRESS.

All means of egress shall be provided with emergency lighting for a power failure. All emergency lighting shall have the capacity to provide a minimum illumination of ninety minutes. Whosoever violates this section shall be fined two hundred fifty dollars (\$250.00).

(Ord. 43-97. Passed 5-27-97.)

1509.16 EXIT SIGNS REQUIRED.

All means of egress shall be indicated with an approved exit sign. All exit signs shall be visible and illuminated whenever the structure is occupied. All exit signs must be capable of providing a minimum of ninety minutes of operation during a power failure. Whosoever violates this section shall be fined two hundred fifty dollars (\$250.00).

(Ord. 43-97. Passed 5-27-97.)

1509.17 OPERATOR RESPONSIBILITY.

The operator or responsible person for of each occupancy shall check the egress facilities before such building is occupied to determine compliance with this section. If said inspection reveals that any element of the required means of egress cannot be accessed, is obstructed, locked, fastened, or otherwise unsuited for immediate utilization, admittance to the building shall not be permitted until necessary corrective measures have been completed. Whosoever violates this section shall be fined one thousand dollars (\$1000.00).

(Ord. 43-97. Passed 5-27-97.)

1509.99 PENALTIES.

Whosoever violates any section of this chapter for which no other penalty has been provided is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1511

Fire Suppression Equipment

1511.01 Registration of fire protective equipment contractors required.

1511.02 Tampering with fire protective equipment.

1511.03 Acceptance test required.

1511.04 Commercial cooking fire suppression systems.

1511.05 Discontinued systems.

1511.06 Water based fire protective equipment.

1511.07 Standpipe systems.

1511.08 Wall hydrants.

1511.09 Systems out of service.

1511.10 Water supply and hydrant regulations.

1511.99 Penalties.

1511.01 REGISTRATION OF FIRE PROTECTIVE EQUIPMENT CONTRACTORS REQUIRED.

All fire protection equipment contractors are required to register with the Division of Building and Zoning, and shall be subject to all the provisions of Chapter 1335 , "Contractor Registration, Procedure, Suspension, and Revocation" of Part 13, Building Code, of the Codified Ordinances for the City.

(Ord. 43-97. Passed 5-27-97.)

1511.02 TAMPERING WITH FIRE PROTECTIVE EQUIPMENT.

(a) No person or entity shall tamper with, cause damage to, or interfere with the effectiveness of any fire alarm box or attachments to any fire alarm system or any smoke detector, carbon monoxide detector, fire extinguisher, emergency light or units, exit light unit, sprinkler system, standpipe, fire suppression system, fire hydrant, or any other public emergency safety equipment. The titled owner or, in the event the premises is leased, the tenant of record shall be responsible for any equipment set forth in this section which is found to be tampered with within any dwelling unit.

(b) Notwithstanding the penalties set forth in Section 1511.99 , any person found to have violated this section by damaging, tampering with, disconnecting, or otherwise altering a smoke detector or carbon monoxide detector shall be required to purchase and install an approved tamper resistant smoke detector or carbon monoxide detector guard. Any person found to have damaged, tampered with, disconnected, or otherwise altered the smoke detector or carbon monoxide detector after the installation of an approved tamper resistant smoke detector or carbon monoxide guard shall be guilty of a misdemeanor of the first degree.

(Ord. 43-97. Passed 5-27-97.)

1511.03 ACCEPTANCE TEST REQUIRED.

(a) All newly installed fire protection equipment including, but not limited to sprinkler systems, standpipe systems, chemical agent extinguishing systems, and fire detection systems, is subject to a new installation acceptance test.

(b) All existing fire protection equipment that is modified in any manner shall be subject to a modified system acceptance test.

(c) The acceptance test shall include the operation of all system parts that will likely function during a fire situation. The contractors performing such test shall discuss, with the Bureau, the specific requirements of the acceptance at least seventy-two hours in advance of the test.

(d) Acceptance tests shall be scheduled at least seventy-two hours in advance with the Bureau.

(Ord. 43-97. Passed 5-27-97.)

1511.04 COMMERCIAL COOKING FIRE SUPPRESSION SYSTEMS.

(a) All commercial cooking fire suppression systems shall be maintained in accordance with the Ohio Fire Code.

(b) Upon change of occupancy, use, or ownership, or upon change of cooking method, the occupant shall furnish the Bureau with acceptable documentation indicating the hood fire suppression system currently in place meets the current test requirements of Underwriter's Laboratories. If the system currently in place does not meet the requirements of Underwriter's Laboratories, the hood fire suppression system shall be changed, modified, or replaced to meet the current requirements.

(c) If the occupancy is protected by a fire alarm system, upon change of occupancy, use, or ownership, or upon change of cooking method, the fire alarm system shall activate whenever the hood fire suppression system is discharged.

(d) If the occupancy is not protected by a fire alarm system, upon change of occupancy, use, or ownership, or upon change of cooking method, an approved audio and/or visual device shall be installed in such location to provide adequate warning to the occupants of the tenant space. The alarm device shall be of an adequate volume to be heard over the normal noise volume of the establishment. The device shall have a permanent sign attached directly adjacent to the device reading "WHEN ALARM SOUNDS, EVACUATE BUILDING AND CALL FIRE DEPT."

(e) When a new suppression system is installed in a commercial cooking exhaust system, all parts or components of the suppression system that are subject to an inspection shall be installed in readily accessible locations. These parts shall include, but not be limited to the gas shut off valve, system cylinders, solenoids, or relays. The installation of these parts above the ceiling is strictly prohibited.

(f) In all cases where fire suppression system components were not properly protected during the cleaning process, a complete fire suppression system inspection and service shall be performed, regardless of the next scheduled service date.

(g) The owner or operator of a commercial cooking exhaust system shall make every attempt possible to schedule the exhaust system cleaning before the semi-annual fire suppression system test is performed. In all cases where the cleaning can not be performed before the semiannual fire suppression system test, a fire suppression system test shall be performed after the cleaning is completed, unless the detection devices show no signs of chemical exposure.

(h) In all cases where a commercial cooking fire suppression system fails to pass the semi-annual inspection, or parts of the system necessary to effect fire suppression fail to operate, the system shall be sealed, and the use of any and all cooking equipment protected by the fire suppression system shall be prohibited, until such time repairs can be made to make the fire suppression.

(i) All employees shall receive approved training in the use of the fire suppression on an annual basis. All new employees shall receive approved training on the fire suppression system before their first work shift.

(Ord. 43-97. Passed 5-27-97.)

1511.05 DISCONTINUED SYSTEMS.

Because the manufacturer of fire suppression systems known as "Safety First" is no longer in business, and parts for the proper maintenance of the system are no longer available, all owners or operators of a "Safety First" dry chemical fire suppression system shall have a time period of one year from the effective date of this section to replace the suppression system with an Underwriter's Laboratories approved suppression system.

(Ord. 43-97. Passed 5-27-97.)

1511.06 WATER BASED FIRE PROTECTIVE EQUIPMENT.

(a) All water based fire protective equipment shall be installed and maintained according to the Ohio Basic Building Code, Ohio Fire Code, and applicable NFPA Standards. All threads shall be Cleveland Standard hose thread.

(b) In situations where a water based fire protection system is located in such a manner as to protect more than one business or occupancy, the owner of the building shall be responsible for maintaining the system, regardless of any lease agreement or other agreement assignment. This section shall not limit the building owner, within the constraints of any binding agreement, from recovering maintenance costs from the tenants of record.

(c) All portions of a water based fire protection system that contains atmospheric pressure, and is not specifically addressed by subsection (a) hereof shall be subjected to a hydrostatic water test of 200 psi for two hours with no loss of pressure at five year intervals. This includes Fire Department Connections. EXCEPTION: Areas having less than ten feet of pipe containing atmospheric pressure, where all portions of the pipe are visible and accessible, except where passing through a wall, and where the pipe does not show any signs of breakage or decay.

(d) Portions of a water based fire protection system containing atmospheric pressure, including Fire Department Connections, meeting the exception of subsection (b) hereof shall undergo an air test to determine the integrity of the piping. Piping systems containing less than ten feet of pipe, where all of the pipe is visible and accessible, except where passing through a wall, shall be subjected to an air test at 10 psi below the static water pressure in the system. The test shall be held for two hours with a loss of less than 5% of the test pressure.

(e) At five year intervals, all wet sprinkler systems shall be drained completely to remove all possible foreign matter. Upon charging of the sprinkler system, all inspector test connections and auxiliary drains shall be opened and allowed to flow water, until such time that the water flows clean, and it is certain all air has been expelled from the piping.

(f) All water based fire protection systems that contain a Fire Department Connection shall have the connection clearly marked with a weather resistant and durable sign at least twelve inches wide and eighteen inches in height reading "FIRE DEPT. CONNECTION" OR "FDC" in large letters. The sign shall also indicate the type of system the connection supports, along with the areas of the building supplied by the connection. In occupancies having more than one connection, the connection number, as assigned by the Bureau shall be included on the sign. The final design of the sign and placement shall be approved by the Bureau.

(g) No person or entity shall plow, pile, or otherwise deposit snow within ten feet of a Fire Department Connection, suppression system control valve, fire hydrant, or other similar device. Whosoever violates this section shall be fined five hundred dollars (\$500.00).

(Ord. 43-97. Passed 5-27-97.)

(h) Each automatic sprinkler system, or portion thereof, installed in a storage area, loading dock, or other similar area of a building shall be designed to provide protection for "Ordinary Hazard, Group 2," as defined by National Fire Protection Association Standard 13, Installation of Sprinkler Systems, 1994 edition, as adopted by the Ohio Fire Code.

(i) Each automatic sprinkler system, or portion thereof, installed in kitchen and cooking areas of a building shall be designed to provide protection for "Extra Hazard, Group 1," as defined by National Fire Protection Association Standard 13, Installation of Sprinkler Systems, 1994 edition, as adopted by the Ohio Fire Code.

(Ord. 99-97. Passed 10-28-97.)

1511.07 STANDPIPE SYSTEMS.

(a) All standpipe systems shall be installed in accordance with the Ohio Basic Building Code unless otherwise specified herein. All threads shall be Cleveland Standard hose thread.

(b) All standpipe systems shall be a Class I system with 2½ inch connections, and a detachable 2½ by 1½ reducer, with an 1½ cap and chain. The chain shall be permanently attached to the cabinet or wall and be of sufficient length to facilitate easy turning of the cap. Class II systems for occupant use are strictly prohibited.

(c) Closets and cabinets used to contain standpipe valves shall be of sufficient size to allow the quick installation of firefighting equipment without interfering with the standpipe valves. The valve shall be mounted to provide a minimum of two inches from the back wall of the cabinet to the threads; a minimum of two inches from the back wall of the cabinet to the valve handle for the full travel of the valve, and a minimum of eight inches from the side of the cabinet to the threads. Any doors attached to the cabinet must be capable of providing eight inches clearance in front of the valve for equipment attachments. The overall size of the cabinet must be at least twelve inches in height and twenty inches in width.

(d) All hydraulic calculations for an automatic system or a semi-automatic system shall be based solely on the available water supply. Calculations for a manual system shall be based on an inlet pressure of 150 psi at the Fire Department Connection.

(e) All pressure reducing valves or attachments shall be subject to Bureau approval.

(f) All standpipe systems that contain a Fire Department Connection shall have the connection clearly marked with a weather resistant and durable sign at least twelve inches wide and eighteen inches in height reading "FIRE DEPT. CONNECTION" OR "FDC" in large letters. The sign shall also indicate the type of system the connection supports, along with the areas of the building supplied by the connection. In occupancies having more than one connection, the connection number, as assigned by the Bureau shall be included on the sign. The final design of the sign and placement shall be approved by the Bureau.

(g) No person or entity shall plow, pile, or otherwise deposit snow within ten feet of a Fire Department Connection, suppression system control valve, fire hydrant, or other similar device. Whosoever violates this section shall be fined five hundred dollars (\$500.00).

(Ord. 43-97. Passed 5-27-97.)

(h) Dry pipe standpipes shall be provided to supply fire fighting water on the roof for each building twenty feet or higher, when mechanical or other service equipment is located on the roof. The pipe shall be at least four inches in diameter and capable of flowing at least 250 gallons of water per minute. The supply connection shall be a single two and one-half inch female swivel connection of Cleveland Standard thread, with a clapper and drip valve. A protective cap with attaching chain shall be provided. The working end of the pipe shall have a slow closing valve with a single two and one-half inch male connection of Cleveland Standard thread. A protective cap shall be provided with an attaching chain. The number of pipes and specific locations shall be determined by the Bureau. The pipe shall be supported in a proper manner and maintained in accordance with dry standpipe maintenance requirements.

(i) Standpipe connections shall be provided in each building where an automatic sprinkler system is installed. The size, location and number of connections shall be determined by the Bureau. A sufficient number of connections shall be provided to avoid excessive hose lays. For this section, excessive hose lays shall be defined as 300 feet when being stretched from the nearest standpipe connection to any portion of the building.

(Ord. 99-97. Passed 10-28-97.)

1511.08 WALL HYDRANTS.

Wall hydrants shall be flushed on an annual basis. Water flow tests to determine water supply shall be conducted every five years.

(Ord. 43-97. Passed 5-27-97.)

1511.09 SYSTEMS OUT OF SERVICE.

(a) Whenever a fire suppression system must be taken out of service for more than four hours in a twenty-four hour period, the building or fire area shall be evacuated until the suppression system is restored to service.

(b) Whenever the conditions or hazard do not warrant a total evacuation, the Bureau shall determine the best course of action to ensure the safety of the occupants.

(Ord. 43-97. Passed 5-27-97.)

1511.10 WATER SUPPLY AND HYDRANT REGULATIONS.

(a) All hydrants shall have a minimum six inch barrel, a four and one half inch outlet, and two and one half inch outlets of Cleveland Standard size and thread, and shall conform to the American Waterworks Association Standards.

(b) Hydrant discharge height, measured from the bottom of the lowest discharge on the hydrant, shall be not less than sixteen inches nor more than thirty inches above the surrounding finish grade.

(c) The four and one half inch discharge shall face the street or drive.

(d) Spacing requirements for each hydrant on private or public property shall be as follows:

(1) At every street intersection.

(2) At the beginning of each cul-de-sac turnaround.

(3) Within 500 feet of any one, two, or three family dwelling.

(4) Within 250 feet of any building or structure regulated by the Ohio Basic Building Code.

(5) Additional hydrants shall be required as necessary to meet the required flows, support building fire suppression systems, accomplish tactical operations, and/or avoid excessive hose lays resulting in excessive friction loss. Excessive hose lays shall be defined as 250 feet when being stretched from any portion of the building to the nearest hydrant.

(6) Hydrants shall not be spaced more than 300 feet apart.

(7) When a water based fire suppression system is to be installed, a hydrant shall be located no more than seventy-five feet from each Fire Department Connection.

(8) Distances measured in this section shall be measured along actual fire apparatus routes of travel.

(e) All public and private hydrants required by these regulations shall be installed and maintained in accordance with the following:

(1) All hydrants and water mains shall be installed pursuant to the direction of the Chief, and in accordance with American Waterworks Association Standards and the Cleveland Water Department.

(2) All hydrant locations shall be clearly marked on any plans submitted and shall be approved by the Bureau.

(3) All hydrants shall be accessible at all times for firefighting purposes and no obstructions shall be placed within ten feet of any such hydrant.

(4) All private hydrants shall be maintained in working order by the property owner, occupant, or other responsible person.

(f) All water mains or water lines served and fitted by hydrants or other types of valves or faucets from which water may be drawn before it passes through a recording meter shall be under the complete control of the Cleveland Water Department and subject to the rules and regulations of said agency. Water mains and water lines on private property shall be maintained by the property owner, occupant, or other responsible person. No person, firm, or corporation shall draw water from any such hydrant, valve, or faucet except as required for firefighting or testing of hydrants as required by the Fire Chief. Water for any other purpose may be drawn only on order from the Cleveland Water Department, and only after receiving a permit from both the Fire Prevention Bureau and Cleveland Water Department to do so. The permit, or copy thereof, shall be prominently displayed on site, and shall be immediately available for examination by the Code Official.

(g) The minimum size of a private fire line shall be eight inches, except single fire hydrant lines of 600 feet or less may be six inches, unless fire flows require a higher flow, in which case, the size necessary to obtain the necessary fire flows shall be installed.

(h) When more than one fire hydrant is to be installed on the same main, such main shall be looped or supplied water from two sources.

(i) Hydrants located on private property shall be within ten feet of the paved or improved portion of a roadway, fire lane, or driveway, provided however, that no hydrant shall be located closer to a building or structure than one and one half times the height of said building or structure.

(j) All fire hydrants located on private property shall be identified with an approved marker extending a minimum of five feet above grade. The markers shall be installed each year by October 15, and shall remain in place until March 15, unless snow conditions are still present after this date. The markers shall not interfere with the operation of the hydrant and shall be placed per the Bureau's specifications.

(k) All fire hydrants shall be faced in the proper direction for fire department use. If a hydrant is not faced in the proper direction, adjacent parking or road areas shall be considered a fire lane and marked accordingly, with provisions made to prevent the parking of vehicles in such a manner to interfere with hydrant operation.

(Ord. 43-97. Passed 5-27-97.)

1511.99 PENALTIES.

Whosoever violates any provision of this chapter shall be guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1513

Alarm System Requirements

1513.01 Residential smoke detector requirements.

1513.02 Residential carbon monoxide detector requirements.

1513.03 Commercial carbon monoxide detector requirements.

1513.04 Municipal alarm monitoring system.

1513.05 Private monitoring companies.

1513.06 Educational and institutional occupancies.

1513.07 Alarm supervisory notification.

1513.08 Alarm systems out of service.

1513.09 Fire signaling systems required.

1513.99 Penalties.

1513.01 RESIDENTIAL SMOKE DETECTOR REQUIREMENTS.

(a) Smoke detectors shall be installed in each single family dwelling hereinafter constructed. There shall be a minimum of one smoke detector for each dwelling, with at least one smoke detector located adjacent to the main sleeping area of the dwelling, and at least one smoke detector located on every level of the dwelling, including the basement, but excluding any attics or crawlspaces. The smoke detectors shall be hard wired to 110 volt power with a battery back-up. The builder of the dwelling shall be held responsible for compliance with this requirement.

(b) Smoke detectors shall be installed in every existing single family dwelling. There shall be a minimum of one smoke detector for each dwelling, with at least one smoke detector located adjacent to the main sleeping area of the dwelling, and at least one smoke detector located on every level of the dwelling. The occupant of the dwelling shall be responsible for compliance with this requirement and shall have a time period of one (1) year from the effective date to comply.

(c) Smoke detectors shall be installed in each dwelling unit of all existing and hereinafter constructed multiple family dwellings, attached one-family, two family, and three family dwellings. There shall be a minimum of one smoke detector for each dwelling unit in the main sleeping area and at least one smoke detector for each level of the dwelling if more than one level exists, including the basement, but excluding any attics or crawlspaces. Smoke detectors shall also be installed in all locker/storage areas and laundry rooms of multiple family dwellings.

(d) All smoke detectors must be approved by Underwriter's Laboratory.

(e) All smoke detectors must be installed to comply with the manufacturer's recommendations and the recommendations of the approving or listing agency.

(f) Batteries in all smoke detectors containing batteries shall be changed at least annually, with the date of installation clearly marked on the battery.

(g) The owner or agent of any dwelling shall be responsible for installing special notification devices as required due to hearing impairment or other physical limitation or impairment.

(Ord. 43-97. Passed 5-27-97.)

1513.02 RESIDENTIAL CARBON MONOXIDE DETECTOR REQUIREMENTS.

(a) Prior to the issuance of an occupancy permit by the City, carbon monoxide alarms must be installed in any residential building which is equipped with a fuel-fired furnace, boiler, dryer, water heater, stove, range, or other such appliances. A carbon monoxide alarm shall be installed according to the manufacturer's recommendations pertaining to the number of alarms required in a particular unit, location of alarms, and all other recommendations. All carbon monoxide alarms installed pursuant to this section shall be listed with Underwriter's Laboratories, shall be 110 volt power models, and shall be installed by the builder, contractor, or other person responsible for the construction, remodeling, renovation, or occupancy of the structure.

(b) In newly-constructed one-family and two-family residential structures equipped with fuel-fired furnaces, boilers, dryers, water heaters, stoves, ranges or other such appliances, carbon monoxide alarms shall be installed with at least one alarm per floor level, including the basement level. In any such residential unit, there shall be at least one alarm located in the main sleeping area of the dwelling and at least one alarm located in the main utility area of the dwelling which contains the fuel-fired components of the heating and/or water heater systems of the dwelling.

(Ord. 43-97. Passed 5-27-97.)

1513.03 COMMERCIAL CARBON MONOXIDE DETECTOR REQUIREMENTS.

(a) Prior to the issuance of an occupancy permit by the City, carbon monoxide alarms must be installed in any commercial building which is equipped with a fuel-fired furnace, boiler, dryer, water heater, stove, range, or other such appliances. A carbon monoxide alarm shall be installed according to the manufacturer's recommendations pertaining to the number of alarms required in a particular unit, location of alarms, and all other recommendations. All carbon monoxide alarms installed pursuant to this section shall be listed with Underwriter's Laboratories, shall be 110 volt power models, and shall be installed by the builder, contractor, or other person responsible for the construction, remodeling, renovation, or occupancy of the structure.

(b) Carbon monoxide alarms shall be installed in all existing buildings used for human assembly and in all educational and other institutional structures which are equipped with fuel-fired appliances, such as boilers, furnaces, water heaters, dryers, or cooking appliances. All alarms installed pursuant to this section shall be listed with Underwriter's Laboratories, shall be 110 volt power model, and shall be installed by the person whose name appears on the present Certificate of Occupancy issued by the City for the said structure. All alarms shall be installed according to the manufacturer's recommendations pertaining to the number of alarms required in a particular structure, the location of alarms, as well as all other recommendations.

(Ord. 43-97. Passed 5-27-97.)

1513.04 MUNICIPAL ALARM MONITORING SYSTEM.

(a) No fire detection or signaling system shall be connected to the alarm panel at City Hall. All fire detection and signaling systems shall be monitored by a remote supervising station capable of receiving alarm signals and immediately notifying the Division of Fire. The remote supervising station shall be capable of monitoring alarm, supervisory, and trouble signals. All remote supervising stations shall comply with Section 1513.05 of this Code and the most current edition of the National Fire Protection Association, pamphlet #72.

(b) Any person, firm or corporation connected to the alarm panel at City Hall shall have until December 31, 1998 to disconnect from the panel and provide remote supervision in accordance with subsection (a) hereof.

(c) Until December 31, 1998, if a condition exists with any person, firm or corporation connected to the alarm panel at City Hall, that may create a threat to the property or occupants, the person, firm or corporation may be ordered to immediately disconnect from the City alarm panel and provide remote supervision in accordance with subsection (a) hereof. This decision shall be at the sole discretion of the Fire Chief.

(Ord. 80-98. Passed 9-8-98.)

1513.05 PRIVATE MONITORING COMPANIES.

(a) All monitoring companies shall follow the policies of the Bureau. Failure to do so shall result in fines ranging from one hundred dollars (\$100.00) to five hundred dollars (\$500.00.)

(b) Whenever an alarm monitoring station receives an alarm signal, it shall be assumed the alarm is functioning correctly and reporting an actual fire condition. The alarm monitoring station shall notify the Fire Division immediately, as the first party to be notified, of the alarm condition. All other parties to whom notification is requested shall be contacted only after the Fire Division is notified. Any alarm monitoring station failing to comply with this section shall be assessed a fine of at least five hundred dollars (\$500.00), but not more than one thousand dollars (\$1000.00).

(c) Whenever an alarm monitoring station does not receive a signal indicating the detection system has returned to normal service within four hours of the initial alarm signal, the Fire Division shall be notified to further investigate the matter.

(Ord. 43-97. Passed 5-27-97.)

1513.06 EDUCATIONAL AND INSTITUTIONAL OCCUPANCIES.

(a) Every public, private, parochial school, or other occupancy with an educational use group, and every institutional use group shall have an adequate fire alarm system monitored by an approved monitoring agency or by direct connection to the Municipal Alarm Monitoring System. Existing educational or institutional occupancies that do not currently comply shall have a time period of one year from the effective date of this section to comply.

(b) Fire drills shall be conducted in all educational occupancies in accordance with the requirements of the Ohio Fire Code. Records shall be maintained by the person in charge of the occupancy and a copy of such records shall be filed each year with the Bureau in June.

(c) Fire drills shall be conducted in all institutional occupancies in accordance with the Ohio Fire Code. Records shall be maintained by the person in charge of the occupancy and shall include date of the fire drill, time of the fire drill, location of the fire drill, total number of occupants evacuated, total time of the evacuation, and other information relevant to the drill. A copy of these records shall be filed with the Bureau each year in December.

(d) In all institutional occupancies, there shall be an attendant or attendants on the premises at all times the building is occupied. The number of attendants required shall be sufficient to perform the duties required under the evacuation plan approved by the Bureau. Attendants as required herein shall be at least eighteen years of age and capable of performing the duties required of evacuation. No person other than the management or an employee of the management shall be considered an attendant.

(e) All employees of an educational or institutional occupancy shall receive approved training for procedures in the event of a fire. The training shall include activation of the fire alarm system, evacuation of the building, and notifying the fire department. All new employees shall receive this training prior to beginning their first work shift.

(Ord. 43-97. Passed 5-27-97.)

1513.07 ALARM SUPERVISORY NOTIFICATION.

(a) All fire protective equipment contractors shall notify all alarm monitoring stations prior to working on or conducting any system test or repair.

(b) Any contractor failing to comply with this section shall be fined one hundred dollars (\$100.00).

(c) Any contractor failing to comply with this section, and causing the Fire Division to respond on a fire alarm condition shall be fined five hundred dollars (\$500.00).

(Ord. 43-97. Passed 5-27-97.)

1513.08 ALARM SYSTEMS OUT OF SERVICE.

Whenever a fire detection system must be taken out of service for more than four hours in a twenty-four hour period, the Bureau must be notified and an approved fire watch must be provided.

(Ord. 43-97. Passed 5-27-97.)

1513.09 FIRE SIGNALING SYSTEMS REQUIRED.

(a) A fire signaling system shall be installed and maintained in all occupancies in Use Group A-1, as classified by the Ohio Basic Building Code. Manual fire alarm boxes shall be located at each exit from an individual theater and each exit way. Additional manual fire alarm boxes shall be provided in common areas, so that no point shall be farther than 200 feet from a manual fire alarm box.

(b) A fire signaling system shall be installed and maintained in all covered malls, as classified by the Ohio Basic Building Code. Manual fire alarm boxes shall be located on both sides of each exit way. Additional manual fire alarm boxes shall be provided in common areas, so that no point shall be farther than 200 feet from a manual fire alarm box (measurements do not have to include tenant spaces).

(c) A fire signaling system shall be installed and maintained in all anchor stores to a covered mall, as classified by the Ohio Basic Building Code. Manual fire alarm boxes shall be located on both sides of each exit way. Additional manual fire alarm boxes shall be provided, so that no point shall be farther than 200 feet from a manual fire alarm box.

(Ord. 100-97. Passed 10-28-97.)

1513.99 PENALTIES.

All persons or companies failing to comply with this chapter are guilty of a misdemeanor of the first degree unless otherwise stated for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1515

Fire Lanes

1515.01 Authority to establish fire lanes.

1515.02 Obstructions to fire lanes.

1515.03 Marking of fire lanes.

1515.04 Access to structures and occupancies.

1515.05 Design elements of fire lanes.

1515.99 Penalties.

1515.01 AUTHORITY TO ESTABLISH FIRE LANES.

(a) The Bureau is hereby authorized to establish fire lanes on either public or private property located within the City:

(1) As deemed necessary for the safe and efficient use of fire apparatus.

(2) When necessary for the safeguarding of life and property from the hazards of fire, explosion, or hazardous materials.

(3) For the safe use and occupancy of buildings, structures, and adjacent property.

(4) For safe egress of occupants in the event of a fire or other emergency requiring building evacuation.

(b) All fire lanes shall be constructed in accordance with the Ohio Fire Code. The width shall be such as to provide access and operation of firefighting equipment and personnel likely to be used at a fire on the premises. The minimum width shall be eighteen feet.

(c) A minimum of fourteen feet of nominal clearance shall be provided over the full width and length of the fire lane.

(Ord. 43-97. Passed 5-27-97.)

1515.02 OBSTRUCTIONS TO FIRE LANES.

(a) Fire lanes shall be continually maintained free of all obstructions.

(b) No person or entity shall obstruct a fire lane by parking, stopping, or leave standing a motor vehicle, whether such vehicle is attended or not. Any vehicle shall be moved immediately upon request by any member of the Department of Public Safety.

(c) No person or entity shall obstruct a fire lane with a fence or other barricade.

(d) Landscaping or other obstructions shall not be placed around structures in a manner as to impair or impede accessibility for firefighting and/or rescue operations.

1515.03 MARKING OF FIRE LANES.

(a) All fire lanes shall be marked with a sign reading "FIRE LANE NO PARKING NO STOPPING" and shall be provided at all normal and emergency access points to a structure, within ten feet of any hydrant, sprinkler connection, standpipe connection, or other connection to fire protective equipment located within the fire lane, and every thirty linear feet within the fire lane. All fire lane signs shall be permanently mounted at

an appropriate height to be clearly visible from vehicles traveling in the fire lane. No fire lane sign shall be mounted higher than six feet from grade level. Any non-conforming sign shall be corrected.

(b) In addition to the above fire lane signs, each piece of fire protective equipment that is located in a fire lane shall be marked with a sign reading "FIRE EQUIPMENT DO NOT BLOCK" or other approved wording. All signs shall be permanently mounted at an appropriate height to be clearly visible from vehicles traveling in the fire lane. No sign shall be mounted higher than six feet from grade level. Any non-conforming sign shall be corrected.

(c) The curb area directly adjacent to all fire lanes shall be painted red. Where no curb exists, a four inch wide red stripe shall be painted along the edge of the fire lane closest to the structure. When the fire lane is directly adjacent to a building, and no curb exists, a four inch wide stripe shall be painted on the side of the building no more than five feet from grade level. For areas that do not conform to one of these situations, the Bureau shall determine the best application of this section.

(d) All markings shall be replaced at intervals necessary to ensure clear legibility and adequate visibility.

(Ord. 43-97. Passed 5-27-97.)

1515.04 ACCESS TO STRUCTURES AND OCCUPANCIES.

(a) Access for fire department apparatus shall be provided to all structures. The maximum distance from the structure allowed for Fire Department access shall be no more than fifty feet.

(b) At least two separate means of access shall be provided for all buildings over thirty feet or three stories in height.

(c) The means of access shall be maintained in a usable manner at times, including the removal of snow during the winter months.

(d) Parking shall not be permitted within twenty feet of any means of access to a fire lane.

(Ord. 43-97. Passed 5-27-97.)

1515.05 DESIGN ELEMENTS OF FIRE LANES.

(a) Means of access shall be constructed of a hard, all weather surface adequately designed to support the heaviest piece of fire apparatus likely to be used at a fire on the premises.

(b) Fire lanes shall be able to withstand the live load of fire apparatus during all weather climates.

(c) Every dead-end roadway or fire lane more than 300 feet in length shall be provided at the closed end with a turn around acceptable to the fire department. The turn around shall have a minimum centerline radius of fifty feet.

(d) Where bridges or other elevated surfaces are to be used as fire department access, the surface shall be constructed in such a manner as to support the live load of all fire apparatus likely to be used at a fire on the premises.

(e) In all cases where a fire lane is located between a structure and approved parking spaces, designated parking spaces shall be provided for temporary parking of delivery type vehicles.

(1) The number of temporary parking spaces shall be based on the number of occupancies in the structure. One temporary parking space shall be provided for each ten occupancies. The Bureau reserves the right to require additional spaces as deemed necessary.

(2) Temporary parking spaces shall be clearly marked "DELIVERY PARKING ONLY - TIME LIMIT 15 MINUTES" on a durable sign.

(3) It shall be incumbent upon all occupancies served by the fire lane and temporary delivery parking spaces to ensure the fire lane is not obstructed by delivery vehicles. The occupancy receiving merchandise or packages shall be held liable for an obstructed fire lane when delivery type vehicles are parked in said fire lanes.

(Ord. 43-97. Passed 5-27-97.)

1515.99 PENALTIES.

Whosoever violates any provision of this chapter is guilty of a misdemeanor of the first degree for each offense.

(Ord. 76-2003. Passed 9-23-03.)

CHAPTER 1519

Fireworks

1519.01 Definitions.

1519.02 Manufacturing.

1519.03 Wholesaling.

1519.04 Purchasing and transporting.

1519.05 Prohibited activities by exhibitors.

1519.06 Unlawful conduct by exhibitor.

1519.07 Possession, sale, discharge and advertising; falsification.

1519.08 Transporting and shipping.

1519.09 Exceptions.

1519.10 Forfeiture and disposal.

1519.99 Penalty.

1519.01 DEFINITIONS.

As used in this chapter, unless otherwise provided:

(a) "Beer" and "intoxicating liquor" have the same meanings as in Section 4301.01 of the Revised Code.

(b) "Booby trap" means a small tube that has a string protruding from both ends, that has a friction-sensitive composition, and that is ignited by pulling the ends of the string.

(c) "Cigarette load" means a small wooden peg that is coated with a small quantity of explosive composition and that is ignited in a cigarette.

(d) (1) "1.3G fireworks" means display fireworks consistent with regulations of the United States Department of Transportation as expressed using the designation "Division 1.3" in Title 49, Code of Federal Regulations.

(2) "1.4G fireworks" means consumer fireworks consistent with regulations of the United States Department of Transportation as expressed using the designation "Division 1.4" in Title 49, Code of Federal Regulations.

(e) "Controlled substance" has the same meaning as in Section 3719.01 of the Revised Code.

(f) "Discharge site" means an area immediately surrounding the mortars used to fire aerial shells.

(g) "Explosive" means any chemical compound, mixture, or device, the primary or common purpose of which is to function by explosion. "Explosive" includes all materials that have been classified as Division 1.1, Division 1.2, Division 1.3, or Division 1.4 explosives by the United States Department of Transportation in its regulations and includes, but is not limited to, dynamite, black powder, pellet powders, initiating explosives, blasting caps, electric blasting caps, safety fuses, fuse igniters, squibs, cordeau detonant fuses, instantaneous fuses, and igniter cords and igniters. "Explosives" does not include "fireworks" as defined below, or any explosive that is not subject to regulation under the rules of the State Fire Marshal adopted pursuant to Section 3737.82 of the Revised Code.

(h) "Fireworks" means any composition or device prepared for the purpose of producing a visible or an audible effect by combustion, deflagration, or detonation, except ordinary matches and except as provided in Section 1519.09 of this chapter.

(i) "Fireworks incident" means any action or omission that occurs at a fireworks exhibition, that results in injury or death, or a substantial risk of injury or death, to any person, and that involves either of the following:

(1) The handling or other use, or the results of the handling or other use, of fireworks or associated equipment or other materials;

(2) The failure of any person to comply with any applicable requirement imposed by this chapter or any applicable rule adopted under this chapter.

(j) "Fireworks incident site" means a discharge site or other location at a fireworks exhibition where a fireworks incident occurs, a location where an injury or death associated with a fireworks incident occurs, or a location where evidence of a fireworks incident or an injury or death associated with a fireworks incident is found.

(k) "Fireworks plant" means all buildings and other structures in which the manufacturing of fireworks, or the storage or sale of manufactured fireworks by a manufacturer, takes place.

(l) "Highway" means any public street, road, alley, way, lane, or other public thoroughfare.

(m) "Licensed building" means a building on the licensed premises of a licensed manufacturer or wholesaler of fireworks that is approved for occupancy by the building official having jurisdiction.

(n) "Licensed exhibitor of fireworks" or "licensed exhibitor" means a person licensed pursuant to Sections 3743.50 to 3743.55 of the Revised Code.

(o) "Licensed manufacturer of fireworks" or "licensed manufacturer" means a person licensed pursuant to Sections 3743.02 to 3743.08 of the Revised Code.

(p) "Licensed premises" means the real estate upon which a licensed manufacturer or wholesaler of fireworks conducts business.

(q) "Licensed wholesaler of fireworks" or "licensed wholesaler" means a person licensed pursuant to Sections 3743.15 to 3743.21 of the Revised Code.

(r) "Manufacturing of fireworks" means the making of fireworks from raw materials, none of which in and of themselves constitute a fireworks, or the processing of fireworks.

(s) "Novelties and trick noisemakers" include the following items:

(1) Devices that produce a small report intended to surprise the user, including, but not limited to, booby traps, cigarette loads, party poppers, and snappers;

(2) Snakes or glow worms;

(3) Smoke devices;

(4) Trick matches.

(t) "Party popper" means a small plastic or paper item that contains not more than sixteen milligrams of friction-sensitive explosive composition, that is ignited by pulling a string protruding from the item, and from which paper streamers are expelled when the item is ignited.

(u) "Processing of fireworks" means the making of fireworks from materials all or part of which in and of themselves constitute a fireworks, but does not include the mere packaging or repackaging of fireworks.

(v) "Railroad" means any railway or railroad that carries freight or passengers for hire, but does not include auxiliary tracks, spurs, and sidings installed and primarily used in serving a mine, quarry, or plant.

(w) "Retail sale" or "sell at retail" means a sale of fireworks to a purchaser who intends to use the fireworks, and not resell them.

(x) "Smoke device" means a tube or sphere that contains pyrotechnic composition that, upon ignition, produces white or colored smoke as the primary effect.

(y) "Snake or glow worm" means a device that consists of a pressed pellet of pyrotechnic composition that produces a large, snake-like ash upon burning, which ash expands in length as the pellet burns.

(z) "Snapper" means a small, paper-wrapped item that contains a minute quantity of explosive composition coated on small bits of sand, and that, when dropped, implodes.

(aa) "Storage location" means a single parcel or contiguous parcels of real estate approved by the fire marshal pursuant to division (I) of Section 3743.04 of the Revised Code or division (G) of Section 3743.17 of the Revised Code that are separate from a licensed premises containing a retail showroom, and which parcel or parcels a licensed manufacturer or wholesaler of fireworks may use only for the distribution, possession, and storage of fireworks in accordance with this chapter.

(bb) "Trick match" means a kitchen or book match that is coated with a small quantity of explosive composition and that, upon ignition, produces a small report or a shower of sparks.

(cc) "Wholesale sale" or "sell at wholesale" means a sale of fireworks to a purchaser who intends to resell the fireworks so purchased.

(dd) "Wire sparkler" means a sparkler consisting of a wire or stick coated with a nonexplosive pyrotechnic mixture that produces a shower of sparks upon ignition and that contains no more than one hundred grams of this mixture.

(Ord. 29-2009. Passed 6-9-09.)

1519.02 MANUFACTURING.

- (a) No licensed manufacturer of fireworks shall knowingly fail to comply with the rules adopted by the State Fire Marshal pursuant to Section 3743.05 of the Revised Code or the requirements of Section 3743.06 of the Revised Code.
- (b) No licensed manufacturer of fireworks shall fail to maintain complete inventory, wholesale sale and retail records as required by Section 3743.07 of the Revised Code, or to permit inspection of these records or the premises of a fireworks plant pursuant to Section 3743.08 of the Revised Code.
- (c) No licensed manufacturer of fireworks shall fail to comply with an order of the State Fire Marshal issued pursuant to Section 3743.08(B)(1) of the Revised Code within the specified period of time.
- (d) No licensed manufacturer of fireworks shall fail to comply with an order of the State Fire Marshal issued pursuant to Section 3743.08(B)(2) of the Revised Code. The order shall be effective until the nonconformities are eliminated, corrected or otherwise remedied or the 72-hour period specified in that division has expired, whichever occurs first.
- (e) No person shall smoke or shall carry a pipe, cigarette, or cigar, or match, lighter, other flame-producing item, or open flame on, or shall carry a concealed source of ignition into, the premises of a fireworks plant, except as smoking is authorized in specified lunchrooms or restrooms by a manufacturer pursuant to Section 3743.06(C) of the Revised Code.
- (f) No person shall have possession or control of, or be under the influence of, any intoxicating liquor, beer, or controlled substance while on the premises of a fireworks plant.

(Ord. 29-2009. Passed 6-9-09.)

1519.03 WHOLESALING.

- (a) No licensed wholesaler of fireworks shall knowingly fail to comply with the rules adopted by the State Fire Marshal pursuant to Section 3743.18 of the Revised Code or the requirements of Section 3743.19 of the Revised Code.
- (b) No licensed wholesaler of fireworks shall fail to maintain complete inventory, wholesale sale and retail records as required by Section 3743.20 of the Revised Code, or to permit an inspection of these records or the premises of the wholesaler pursuant to Section 3743.21 of the Revised Code.
- (c) No licensed wholesaler of fireworks shall fail to comply with an order of the State Fire Marshal issued pursuant to Section 3743.21(B)(1) of the Revised Code within the specified period of time.
- (d) No licensed wholesaler of fireworks shall fail to comply with an order of the State Fire Marshal issued pursuant to Section 3743.21(B)(2) of the Revised Code. The order shall be effective until the nonconformities are eliminated, corrected or otherwise remedied or the 72- hour period specified in that division has expired, whichever occurs first.
- (e) No person shall smoke or shall carry a pipe, cigarette, or cigar, or a match, lighter, other flame-producing item, or open flame on, or shall carry a concealed source of ignition into, the premises of a wholesaler of fireworks, except as smoking is authorized in specified lunchrooms or restrooms by a wholesaler pursuant to Section 3743.19(D) of the Revised Code.
- (f) No person shall have possession or control of, or be under the influence of, any intoxicating liquor, beer, or controlled substance while on the premises of a wholesaler of fireworks.

(Ord. 29-2009. Passed 6-9-09.)

1519.04 PURCHASING AND TRANSPORTING.

- (a) No person who resides in another state and purchases fireworks in this State shall obtain possession of the fireworks in this State unless the person complies with Section 3743.44 of the Revised Code, provided that knowingly making a false statement on the fireworks purchasers form is not a violation of this section but is a violation of Section 2921.13 (Falsification) of the Revised Code or a substantially similar municipal ordinance.
- (b) No person who resides in another state and who purchases fireworks in this State shall obtain possession of fireworks in this State other than from a licensed manufacturer or wholesaler, or fail, when transporting the fireworks, to transport them directly out of this State within 72 hours after the time of their purchase. No such person shall give or sell to any other person in this State fireworks that the person has acquired in this State.
- (c) No person who resides in this State and purchases fireworks in this State shall obtain possession of the fireworks in this State unless the person complies with Section 3743.45 of the Revised Code, provided that knowingly making a false statement on the fireworks purchasers form is not a violation of this section but is a violation of Section 2921.13 (Falsification) of the Revised Code or a substantially similar municipal ordinance.
- (d) No person who resides in this State and who purchases fireworks in this State under Section 3743.45 of the Revised Code shall obtain possession of fireworks in this State other than from a licensed manufacturer or licensed wholesaler, or fail, when transporting the fireworks, to transport them directly out of this State within 48 hours after the time of their purchase. No such person shall give or sell to any other person in this State fireworks that the person has acquired in this State.

(Ord. 29-2009. Passed 6-9-09.)

1519.05 PROHIBITED ACTIVITIES BY EXHIBITORS.

- (a) An exhibitor of fireworks licensed under Sections 3743.50 through 3743.55 of the Revised Code who wishes to conduct a public fireworks exhibition shall apply for approval to conduct the exhibition to the Fire Chief or fire prevention officer and to the Police Chief or other similar chief law enforcement officer, or the designee of the Police Chief or other similar chief law enforcement officer, having jurisdiction over the premises.
- (b) The approval required by division (a) of this section shall be evidenced by the Fire Chief or fire prevention officer and by the Police Chief or other similar chief law enforcement officer, or the designee of the Police Chief or other similar chief law enforcement officer, signing a permit for the exhibition. Any exhibitor of fireworks who wishes to conduct a public fireworks exhibition may obtain a copy of the form from the State Fire Marshal or, if available, from the Fire Chief, a fire prevention officer, the Police Chief or other similar chief law enforcement officer, or a designee of the Police Chief or other similar chief law enforcement officer.
- (c) Before a permit is signed and issued to a licensed exhibitor of fireworks, the Fire Chief or fire prevention officer, in consultation with the Police Chief or other similar chief law enforcement officer, or the designee of the Police Chief or other similar chief law enforcement officer, shall inspect the premises on which the exhibition will take place and shall determine that, in fact, the applicant for the permit is a licensed exhibitor of fireworks. Each applicant shall show his or her license as an exhibitor of fireworks to the Fire Chief or fire prevention officer.
- (d) The Fire Chief or fire prevention officer and the Police Chief or other similar chief law enforcement officer, or the designee of the Police Chief or other similar chief law enforcement officer, shall give approval to conduct a public fireworks exhibition only if satisfied, based on the inspection, that the premises on which the exhibition will be conducted allow the exhibitor to comply with the rules adopted by the State Fire Marshal pursuant to Sections 3743.53(B) and (E) of the Revised Code and that the applicant is, in fact, a licensed exhibitor of fireworks. The Fire Chief or fire prevention officer, in consultation with the Police Chief or other similar chief law enforcement officer or with the designee of the Police Chief or other similar chief law enforcement officer, may inspect the premises immediately prior to the exhibition to determine if the exhibitor has complied with the rules, and may revoke a permit for noncompliance with the rules.
- (e) If Council has prescribed a fee for the issuance of a permit for a public fireworks exhibition, the Fire Chief or fire prevention office and Police Chief or similar chief law enforcement officer, or their designee, shall not issue a permit until the exhibitor pays the requisite fee.
- (f) Each exhibitor shall provide an indemnity bond in the amount of at least one million dollars with surety satisfactory to the Fire Chief or fire prevention officer and to the Police Chief or other similar chief law enforcement officer, or the designee of the Police Chief or other similar chief law enforcement officer, conditioned for the payment of all final judgments that may be rendered against the exhibitor on account of injury, death, or loss to person or property emanating from the fireworks exhibition, or proof of insurance coverage of at least one million dollars for liability arising from injury, death, or loss to persons or property emanating from the fireworks exhibition. Council may require the exhibitor to provide an indemnity bond or proof of insurance coverage in amounts greater than those required by this division. The Fire Chief or fire prevention officer and Police Chief or other similar chief law enforcement office, or their designee, shall not issue a permit until the exhibitor provides the bond or proof of the insurance coverage required by this division or by Council.
- (g) Each permit for a fireworks exhibition issued by the Fire Chief or fire prevention officer and by the Police Chief or other similar chief law enforcement officer, or the designee of the Police Chief or other similar chief law enforcement officer, shall contain a distinct number, designate the municipality, and identify the certified fire safety inspector, Fire Chief, or fire prevention officer who will be present before, during and after the exhibition, where appropriate. A copy of each permit issued shall be forwarded by the Fire Chief or fire prevention officer and by the Police Chief or other similar chief law enforcement officer, or designee of the Police Chief or other similar chief law enforcement officer, issuing it to the State Fire Marshal. A permit is not transferable or assignable.
- (h) The Fire Chief or fire prevention officer and Police Chief or other similar chief law enforcement officer, or designee of the Police Chief or other similar chief law enforcement officer shall keep a record of issued permits for fireworks exhibitions. In this list, the Fire Chief, fire prevention officer, Police Chief or other similar chief law enforcement officer, or designee of the Police Chief or other similar chief law enforcement officer, shall list the name of the exhibitor, his or her license number, the premises on which the exhibition will be conducted, the date and time of the exhibition, and the number and political subdivision designation of the permit issued to the exhibitor for the exhibition.
- (i) Council shall require that a certified fire safety inspector, Fire Chief or fire prevention officer be present before, during and after the exhibition, and shall require the certified fire safety inspector, Fire Chief or fire prevention officer to inspect the premises where the exhibition is to take place and determine whether the exhibition is in compliance with this section and Chapter 3743 of the Revised Code.

(Ord. 29-2009. Passed 6-9-09.)

1519.06 UNLAWFUL CONDUCT BY EXHIBITOR.

- (a) No licensed exhibitor of fireworks shall fail to comply with the applicable requirements of the rules adopted by the State Fire Marshal pursuant to Sections 3743.53(B) and (E) of the Revised Code or to comply with Sections 3743.53(C) and (D) of the Revised Code.
- (b) No licensed exhibitor of fireworks shall conduct a fireworks exhibition unless a permit has been secured for the exhibition pursuant to Section 3743.54 of the Revised Code or a substantially similar municipal ordinance, or if a permit so secured is revoked by a Fire Chief or fire prevention officer, in consultation with a Police Chief or other similar chief law enforcement officer, or with a designee of a Police Chief or other similar chief law enforcement officer, pursuant to those sections.
- (c) No licensed exhibitor of fireworks shall acquire fireworks for use at a fireworks exhibition other than in accordance the Sections 3743.54 and 3743.55 of the Revised Code, or a substantially similar municipal ordinance.
- (d) No licensed exhibitor of fireworks or other person associated with the conduct of a fireworks exhibition shall have possession or control of, or be under the influence of, any intoxicating liquor, beer, or controlled substances while on the premises on which the exhibition is being conducted.
- (e) No licensed exhibitor of fireworks shall permit an employee to assist the licensed exhibitor in conducting fireworks exhibitions unless the employee is registered with the State Fire Marshal under Section 3743.56 of the Revised Code.

(Ord. 29-2009. Passed 6-9-09.)

1519.07 POSSESSION, SALE, DISCHARGE AND ADVERTISING; FALSIFICATION.

- (a) No person shall possess fireworks in this Municipality or shall possess for sale or sell fireworks in this Municipality, except a licensed manufacturer of fireworks as authorized by Sections 3743.02 to 3743.08 of the Revised Code, a licensed wholesaler of fireworks as authorized by Sections 3743.15 to 3743.21 of the Revised Code, a shipping permit holder as authorized by Section 3743.40 of the Revised Code, an out-of-state resident as authorized by Section 3743.44 of the Revised Code, a resident of this State as authorized by Section 3743.45 of the Revised Code, or a licensed exhibitor of fireworks as authorized by Sections 3743.50 to 3743.55 of the Revised Code, or as authorized by any municipal ordinance that is substantially similar to any of these statutes, and except as provided in Section 3743.80 of the Revised Code or a substantially similar municipal ordinance.
- (b) Except as provided in Ohio R.C. 3743.80 or a substantially similar municipal ordinance, and except for licensed exhibitors of fireworks authorized to conduct a fireworks exhibition pursuant to Ohio R.C. 3743.50 through 3743.55 or a substantially similar municipal ordinance, no person shall discharge, ignite, or explode any fireworks in this Municipality. Pursuant to Ohio R.C. 3743.45(D) this prohibition applies to ban the discharge, ignition, or explosion of all fireworks purchased pursuant to Ohio R.C. 3743.45 within this Municipality on all dates and at all times, including any and all of the dates set forth in Ohio R.C. 3743.45(B).
- (c) No person shall use in a theater or public hall what is technically known as fireworks showers, or a mixture containing potassium chlorate and sulphur.
- (d) No person shall sell fireworks of any kind to a person under 18 years of age. A licensee may eject any person from a licensed premises that is in any way disruptive to the safe operation of the premises.
- (e) No person, other than a licensed manufacturer, licensed wholesaler, licensed exhibitor, or shipping permit holder shall possess 1.3G fireworks in this Municipality.
- (f) Except as otherwise provided in division (J) of Section 3743.06 and division (K) of section 3743.19 of the Revised Code, no person shall knowingly disable a fire suppression system as defined in Section 3781.108 of the Revised Code on the premises of a fireworks plant of a licensed manufacturer of fireworks or on the premises of the business operations of a licensed wholesaler of fireworks.

(Ord. 29-2009. Passed 6-9-09.)

1519.08 TRANSPORTING AND SHIPPING.

- (a) No person shall transport fireworks in this Municipality except in accordance with the rules adopted by the State Fire Marshal pursuant to Section 3743.58 of the Revised Code.
- (b) As used in this division, "fireworks" includes only 1.3G and 1.4G fireworks. No person shall ship fireworks into this Municipality by mail, parcel post, or common carrier unless the person possesses a valid shipping permit issued under Section 3743.40 of the Revised Code, and the fireworks are shipped directly to the holder of a license under Sections 3743.03, 3743.16 or 3743.51 of the Revised Code.
- (c) No person shall ship fireworks within this Municipality by mail, parcel post, or common carrier unless the fireworks are shipped directly to the holder of a license issued under section 3743.03, 3743.16 or 3743.51 of the Revised Code.

(Ord. 29-2009. Passed 6-9-09.)

1519.09 EXCEPTIONS.

This section does not prohibit or apply to the following:

- (a) The manufacture, sale, possession, transportation, storage, or use in emergency situations of pyrotechnic signaling devices and distress signals for marine, aviation, or highway use;
- (b) The manufacture, sale, possession, transportation, storage, or use of fuses, torpedoes, or other signals necessary for the safe operation of railroads;
- (c) The manufacture, sale, possession, transportation, storage or use of blank cartridges in connection with theaters or shows, or in connection with athletics as signals for ceremonial purposes;
- (d) The manufacture for, the transportation, storage, possession or use by, or the sale to the armed forces of the United States and the militia of this State of pyrotechnic devices;
- (e) The manufacture, sale, possession, transportation, storage or use of toy pistols, toy canes, toy guns, or other devices in which paper or plastic caps containing 0.025 grains or less of explosive material are used, provided that they are constructed so that a hand cannot come into contact with a cap when it is in place for explosion, or apply to the manufacture, sale, possession, transportation, storage or use of those caps;
- (f) The manufacture, sale, possession, transportation, storage or use of novelties and trick noise makers, auto burglar alarms, or model rockets and model rocket motors designed, sold, and used for the purpose of propelling recoverable aero models;
- (g) The manufacture, sale, possession, transportation, storage or use of wire sparklers;
- (h) The conduct of radio-controlled special effect exhibitions that use an explosive black powder charge of not more than one-quarter pound per charge, and that are not connected in any manner to propellant charges; provided, that the exhibition complies with all of the following:
 - (1) No explosive aerial display is conducted in the exhibition;
 - (2) The exhibition is separated from spectators by not less than 200 feet;
 - (3) The person conducting the exhibition complies with regulations of the Bureau of Alcohol, Tobacco and Firearms of the United States Department of the Treasury and the United States Department of Transportation with respect to the storage and transport of the explosive black powder used in the exhibition.

(Ord. 29-2009. Passed 6-9-09.)

1519.10 FORFEITURE AND DISPOSAL.

Fireworks manufactured, sold, possessed, transported, or used in violation of the provisions of this chapter shall be forfeited by the offender. The Fire Marshal's office or certified fire safety inspector's office shall dispose of seized fireworks pursuant to the procedures specified in Sections 2981.11 to 2981.13 of the Revised Code for the disposal of forfeited property by law enforcement agencies, and the Fire Marshal or that office is not liable for claims for the loss of or damages to the seized fireworks.

(Ord. 29-2009. Passed 6-9-09.)

1519.99 PENALTY.

(a) Except as otherwise provided in subsection (b) or (c) hereof, whoever violates any provisions of this chapter is guilty of a misdemeanor of the first degree.

(b) If the offender previously has been convicted of or pleaded guilty to a violation of Sections 3743.60(I) or 3743.61(I) of the Revised Code, or a substantially similar municipal ordinance, a violation of Section 1519.02(e) or Section 1519.03(e) of this Chapter is a felony to be prosecuted under appropriate state law.

(c) Whoever violates Section 1519.06(a) of this Chapter is guilty of a misdemeanor of the first degree. In addition to any other penalties that may be imposed on a licensed exhibitor of fireworks under this division and unless the third sentence of this division applies, the person's license as an exhibitor of fireworks or as an assistant exhibitor of fireworks shall be suspended, and the person is ineligible to apply for either type of license, for a period of five years. If the violation of Section 1519.06(a) of this Chapter results in serious physical harm to persons or serious physical harm to property, the person's license as an exhibitor of fireworks or as an assistant exhibitor of fireworks shall be revoked, and that person is ineligible to apply for a license as or to be licensed as an exhibitor of fireworks or as an assistant exhibitor of fireworks in this State.

(Ord. 29-2009. Passed 6-9-09.)
