MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF RICHMOND HEIGHTS AND UNIVERSITY HOSPITALS HEALTH SYSTEM, INC.

This Memorandum of Understanding (hereinafter referred to as “MOU”) is made on this 19th day of December, 2023 (“Effective Date”) between The City of Richmond Heights (hereinafter referred to as “City”), located at 26789 Highland Road, Richmond Heights, Ohio 44143, and University Hospitals Health System, Inc. City and UH shall hereinafter be referred to individually as “Party” and collectively as “Parties.”

RECITALS

WHEREAS, City, through its Division of Fire Services, currently provides its residents with paramedic response to 911 requests and other related emergency medical services and UH provides medical direction for these services;

WHEREAS, Parties wish to establish this MOU under which both Parties will work together to accomplish certain goals and objectives related to the development and implementation of a Community Paramedicine Program (“Program”) in which City’s Division of Fire Services will provide clinical personnel (“Community Paramedics”), vehicles, and equipment for certain in home patient care services to residents of the City and UHHS will provide the medical direction (the “Purpose”);

WHEREAS, Community Paramedics are specially trained to conduct in-home patient assessments and provide specific primary health care and preventive services, by acting through a physician’s order and within a defined scope of practice; and

WHEREAS, the Program helps physicians monitor the health of vulnerable patients, thereby producing better health outcomes and reducing the number of avoidable ambulance transports, visits to the emergency department, and hospital readmissions; and

WHEREAS, a Medical Director (defined below) is key to the Program in terms of providing clinical training, issuing orders, providing medical oversight, and facilitating continuous quality assurance and improvement.

NOW THEREFORE, the Parties hereby establish this MOU as follows:

1. PROGRAM MISSION

City and UH have a mutual goal of promoting community health and wellness for the residents of City by advancing innovative services to improve the overall health and well-being of the population, reduce unnecessary hardship for those most at risk, and reduce avoidable spending incurred by residents and City by providing appropriate care in the home for non-urgent requests.

2. PROGRAM SERVICES AND OVERSIGHT

It is the goal of both City and UH to develop a comprehensive Program for patients that leverages the expertise and input of both organizations through development of standardized protocols and processes for delivery of the services to residents of City.

City and UH each are committed to promoting community health and wellness. City and UH will jointly develop the Program's policies, procedures, and assessment of the community to identify those whom the Program services would yield optimal benefit.

The Parties are pursuing achievement of key Program goals and outcomes which include:

- i. Identification of those residents who will benefit from the Program;
- ii. Implementation of appropriate clinical and social screening tools to complete a needs assessment;
- iii. Identify and close gaps in clinical or social needs;
- iv. Connection to the care delivery systems available to the residents based upon the patient's choice;
- v. Reduce 911 calls associated with non-urgent requests;
- vi. Reduce Emergency Department visits associated with non-urgent needs;
- vii. Increase home safety for City residents;
- viii. Increase public awareness through education about chronic illness and safe, proper management in the home;
- ix. Connecting residents to their selected medical/social services resources; and
- x. Enhancing independence for seniors living in their homes.

City and UH shall jointly develop and implement the Program precepts, to include:

- i. Development of protocols for initial, follow-up, and graduation visits;
- ii. Development of documentation standards for care delivery (operational and clinical activities);
- iii. Determine quality metrics to measure the effectiveness and safety of the program;
- iv. Develop escalation pathways to address identified clinical and social needs; and
- v. Provide materials for disease-specific education.

City and UH designated operational and clinical leadership for the Program shall meet monthly for Continuous Quality Improvement ("CQI" purposes and to resolve any operational challenges, review safety monitors, and review any patient related issues, complaints, or concerns. Additionally, the Parties agree to prospectively set performance benchmarks for the Program and to report and trend those metrics on a monthly basis.

3. RESPONSIBILITIES OF THE CITY

To achieve the Program objectives and provide its services, City will fulfill the following primary responsibilities.

- i. Provide a dedicated, qualified, and trained Community Paramedic as defined in the City job description included as Exhibit A of this MOU. - iii. Provide the needed medical equipment and supplies for the Community Paramedic to deliver the Program services.
- iv. City shall provide UH an annual report within 30 days of completion of each annual period during the Term of the MOU. The annual reports shall provide detail on various performance indicators and other operational matters of the Program as mutually agreed to by the Parties, subject to the applicable limits of Section 9 herein.

The Program will be funded by the City. UH will provide a contribution of \$135,000.00 annually for each year of the Term (defined below), up to a total contribution of \$675,000.00 (collectively, the "Grant"). The Grant will be provided in quarterly installments, at the end of each quarter.

In order to facilitate Program sustainability, the Parties will collaborate to identify reimbursement opportunities with governmental and commercial payors for the services provided by the City under the Program. Upon receipt by City of any reimbursement from payers for services delivered by City under the Program, City will apply such reimbursement to the City's Program expenses. In the event reimbursement received by City offsets Program expenses by more than 18.0%, City and UH agree to renegotiate in good faith the Grant for the remaining term of the MOU.

6. INSURANCE

Each Party shall maintain adequate insurance or programs of self-insurance for professional liability and comprehensive general liability coverage of itself and its agents, employees, representatives, and contractors for their participation under this MOU, with such insurance coverage to be in amounts of no less than \$1 million per occurrence and \$3 million in the aggregate.

9. DATA

The Parties acknowledge and understand that all data and other information that is shared between the Parties must be compliant with organizational, legal, and regulatory requirements for sharing, including information protected under HIPPA, safety and quality assurance reviews, and confidential data as defined herein. The Parties agree to comply with the terms and conditions of the Business Associate Addendum attached hereto as Exhibit B. Notwithstanding the foregoing, the Parties agree that City will in no event provide to UH any data detailing to which hospital or health system a patient receiving services under the Program was transported, to the extent any such transport arises directly or indirectly as a result of the paramedicine services delivered to a patient under the Program (such data referred to as "Program Transport Data"). The Parties acknowledge that Medical Director may be a physician that is employed by or otherwise contracted with UH. In result, to the extent the Medical Director is required to review or otherwise gains access to Program Transport Data as part of his/her medical direction duties owed to City, he/she will abide by a firewall whereby he/she agrees not to disclose such data to UH or otherwise use such information in any manner that is or may be perceived as a direct benefit to UH.

10. CONFIDENTIALITY

If and to the extent that either Party (the "Disclosing Party") shares confidential and/or proprietary information with the other Party (the "Receiving Party"), the Receiving Party shall hold such information in confidence, and will not disclose or use the Disclosing Party's confidential information for any purposes other than for purposes consistent with this MOU. Nothing in this Section shall prevent the Parties from sharing confidential information with their employees, consultants, accountants, or counsel to the extent necessary to achieve the purposes and activities contemplated by this MOU. It is both the intention and agreement of the Parties that no compensation or reimbursement of any kind whatsoever shall be paid or received under this MOU for the referral of Medicare or Medicaid beneficiaries, commercial insurance beneficiaries, or other parties.

12. COMPLIANCE

The Parties agree to comply with all applicable federal, state, and local laws, rules, and regulations. The Parties agree that no amount paid under this MOU is intended to be, nor shall it be construed as, an offer or payment made, whether directly or indirectly, to induce or reward the referral of patients or the prescribing, purchase, lease or order of any UH product or service. Further, the Grant is not in any way conditioned upon any present or future business relationship between UH and City.

13. ENTIRE AGREEMENT; ASSIGNMENT

This MOU constitutes the entire understanding and agreement amongst the Parties on the subject matter hereof, and supersedes all prior oral or written agreements, understandings, representations, and warranties, and courses of conduct and dealing between the Parties on the subject matter hereof. This MOU may be amended or modified only by a writing executed by the Parties. No Party may assign or transfer any of its rights or obligations under this Agreement without the written consent of the other Party.

14. GOVERNING LAW; JURISDICTION; SERVICE OF PROCESS

This MOU will be governed by and construed under the laws of the State of Ohio without regard to conflicts of laws principles. Any action or proceeding seeking to enforce any provision of, or based on any right arising out of, this MOU may be brought against a Party in the courts of the State of Ohio, or, if such Party has or can acquire jurisdiction, in the United States District Court for the Northern District of Ohio.

Upon termination of this MOU, the Parties will have no further obligations hereunder for the Program. In the event of an early termination, the funding from UH shall be prorated monthly for those months up to the termination date. For purpose of clarity, if the MOU terminates in the 18th month, UH funding will be provided only for the 18 months the MOU was in effect.

17. COUNTERPARTS

This MOU may be executed in one or more counterparts, each of which will be deemed to be an original copy of this MOU and all of which, when taken together, will be deemed to constitute one and the same document.
